Dear Sirs:

We Chiarelli, Francesco and
Simone, Vincenzo on the
early morning around 3 A.M.
on the road between
San't Arcangelo and Sanignano
in the province of Forlì were
assaulted and robbed by, to
our estimation four American
soldiers who were dressed
in American uniforms because
I've seen American uniforms
before. The vehicle was also
american with the following

of two (2) tires because we
need them very bad. The
vehicle is our ~~an~~ only
means of making a living.
The size of the tires are
600 - 18.

Thank you very much & hope
to get a good reply from
you. Yours truly,

Chiarelli Francesco

TO : THE ALLIED COMMISSION, Transport Sub-Commission
Via Veneto, R O M E

1. On 2nd August 1945 this Brotherhood filed a request to be supplied with american tyres to the Zone Commissioner of the A.M.G. in Leghorn.
2. The Zone Commissioner replied that the distribution of tyres had been committed to the Italian Agencies, and invited us to apply the RACI of Pisa for the necessary action.
3. We have contacted the RACI here, but they say they haven't any tyre, and they never got one. A proper request directed to this sense was sent to your Office.
4. In the meanwhile, this pitious organisation, which is the only in this Province is failing tyres. We have three ambulance (two for ill men and one for deads), but quite without pneumatics. So our activity is stopped since eighteen months, with a very serious prejudice for the assistential situation of this city.
5. We are asking you now to want to dispose for a supply of tyres (size 60018) as soon as possible. We need at least 6 (six) tyres for one ambulance. If you have no available disponibility right now, would you send us a permit to carry such tyres, as soon as we'll find them in the market ?

- Valenza region 250 "
- Portanova-Casalcerelli region . . . 450 "

2. We have been assured by the Transport Office that we will receive the naphta required for effecting the mentioned transports. We also need, through, 3 truck tyres to be given to the firm charged with the transport. We have accordingly applied for obtaining them, through the Commerce Chamber, to the Regional Allied HQ Corso Oporto, Room 143, Turin. We should be very grateful to you if you would kindly assist our request at the mentioned HQ enabling us to obtain three tyres, 42/9 size, within the 15th September, for the charged firms complain that they cannot carry on the transport of beet roots, because the tyres get very worn out running over rough country roads.

Subject: Allotment of tyres for trucks and trailer -

With reference to our letter dated 31st July 1945, with which we asked you to allot two trucks of a medium tonnage needed for a regular operation of our industrial and commercial activity. Since this request was not favourably accepted and since the requirements have day by day become more urgent for the movement of copper and brass cartridges, which the Allied Commission has allocated to us for the production of "anty-crypto gamic" products for agriculture, we found necessary to buy from the "Lancia Company" a truck 3 RO with trailer, which will be delivered to us in a few days but without tyres -

From informations received we were advised to contact Enac, which provides thru its Branch Offices to the distribution of the allotments of tyres made by the transportation Sub-Commission, since in Florence the Enac Office has not been formed and in consideration of the urgent need of the truck for the withdrawal of copper and brass cartridges, we urgently beg you to intervene by the transportation Sub-Commission so that we may directly receive the needed assignment for the above mentioned truck -

The tyres needed are fifteen (15) with an equal number of inner-tubes and should be of the following size: 9.75 x 20 -

We would be grateful if you will examine our situation even from the financial point of view as explained in our letter of 22 August 1945 -

We hope that after a complete examination you will recommend our request so that it may be favourably accepted -

We would appreciate very much a reply, best regards

The undersigned Giovanni Bedini, wholesale trader of food stuffs and owner of a small truck of a loading capacity of 12 quintals points out to that Office what follows:

All tyres and tubes of my truck are out of order. I have done my utmost to use them, but now it is impossible. On the other hand I am compelled to go to the nearby localities (Lucca, Pisa, Pontedera and the small towns) to withdraw and load the assigned ration which I must then distribute to the consumers. Is it possible to accomplish this service with no vehicles?

Therefore I am compelled to address myself to this Office so that I may obtain the allotment of 4 tyres and, unvertubes of whatever size unless they can be used in my small truck of 12 qts -

Oggetto: Richiesta assegnazione pneumatici

Io sottoscritto Giovanni Bedini, Grossista in generi alimentari e proprietario di un piccolo autocarro della portata di Qli I2 faccio noto a cotesto Ufficio quanto appresso:

Tutte le gomme e le camere d'aria adesso in uso per detto mio unico mezzo di trasporto non servono più assolutamente. Ho cercato di andare avanti fino ad oggi, ma ora non è più possibile. D'altra parte sono obbligato a recarmi nelle piazze vicine (Lucca, Pisa, Pontedera e molte altre minori) per ritirare e caricare quanto assegnatomi in generi razionati che poi debbo distribuire ai dettaglianti della mia zona. Come è possibile fare ciò senza automezzi?

Sono perciò costretto a rivolgermi a cotesto On. Ufficio pregando perché possa ottenere l'assegnazione di N°4 Gomme e N°4 camere d'aria qualunque esse siano purché possano andar bene per il mio camioncino, come ripeto, della portata di I2 Qli.

We would appreciate very much if this Command will permit us to buy the tyres necessary for the operation of the two vehicles made available to the Committee of the "Croce Azzurra" by our benefactors:

Fiat 1100 - licence plate 6928 -
Fiat Balilla - licence plate 3909 -

If it would be impossible to supply the above mentioned tyres, we would like to obtain at least the permit to fit them, as our organization, cannot afford to buy them at black market -
We thank you very much and best regards.

TO: Transportation Sub-Commission,

Rome.

The undersigned, Wilhelmine ORLANDI, an American citizen, working for an American intelligence agency, is obliged to go to Accumoli (Rieti) each week, as she is the administrator of her father's electric-power plant located at Accumoli (Rieti). Enclosed is a copy of the request made by her former Commanding Officer, which enabled her to obtain a permit for circulation of motor vehicle.

It would be greatly appreciated if she could be granted the allocation of five jeep tires as well as a permit to use them on her civilian vehicle, because her old tires are completely worn out and it is impossible to do any further travelling. The request should be addressed to the PBS of Leghorn, where the car is presently stationed for repairs.

Kindly bear in mind that the above-mentioned electric-power plant is the only one in that locality which was not destroyed by the withdrawing German troops and it is also for the sake of the welfare of the population of Accumoli and surroundings that the undersigned wishes to keep the electric plant in good efficiency through her frequent supervising.

TO : Allied Commission - Transportation SC
Via V. Veneto - ROME

The RACI Provincial office of Pisa submits an application to obtain the allocation of a certain number of Allied tyres and tubes in order to satisfy the requests of the numerous owners of vehicles.

If you consider the bad conditions of the roads of the province of Pisa, the robberies of tyres made by the retreats of German troops and the imminent reoperation of work, you may realize how difficult is for the automobile owners to reoperate their vehicles.

This command will surely consider our proposal and will examine the above-mentioned application.

For the procedure concerning the delivery of tyres this office will comply to the instructions which will be given by the Command.

Therefore we attach hereto a first list of the requests we received up to now; said list has been compiled according to the real ascertained needs of each applicant.

Mi prego accludere alla presente copia di un rapporto redatto dall'Ufficiale addetto ai trasporti a Napoli riflettente gli automezzi del truck pool (Centro Automezzi) di quella città.

La prego considerare che il maggior quantitativo dei copertoni necessari è della misura 750 x 20 . Circa 1000 copertoni e camere d'aria della misura predetta sono stati consegnati direttamente al " Gruppo Manutenzione " . Un numero considerevole di essi è ancora in magazzino .

Non potrebbero parte di queste scorte essere impiegate, a norma del piano approvato per la distribuzione del materiale controllato dal " Gruppo Manutenzione ", per migliorare la situazione delle gomme in questo ed in altri Truck - Pools ?

Il sottoscritto Dott. Antonio Cancelli, Chirurgo -rimario degli Ospedali di S. Chiara in Pisa e Consulente Chirurgo dell' Ospedale Pubblica Assistenza di Navaquio, domanda a Codesta Commissione che gli venga concessa l' assegnazione o l' autorizzazione all' acquisto di 5 coperture e 5 camere d' aria (nuove ed usate) della misura 170 / 16 di altra sezione adatta per autovettura (per esempio la sezione adoperata per le Jeeps : 5.00x16)

Domanda inoltre che gli venga concessa l' autorizzazione ad usare tali coperture sulla propria automobile Fiat 508, targata FI 7025 Term.Circol. N° 3068 , con la quale è ora costretto a circolare facendosi prestare o noleggiando le coperture che gli furono a suo tempo requisite, con onere insostenibile dati gli attuali momenti.

Il sottoscritto ha necessità di usare l' automobile per lo svolgimento della propria attività professionale in genere, ma soprattutto per assicurare il servizio chirurgico e di consulenza nei due centri (distanti fra loro 12 Km.) nei quali presta la sua opera, che, data la sua natura riveste frequentemente carattere di urgenza.

Confida che, date le ragioni sopraesposte Codesta Commissione vorrà esaudire la domanda rivolta.

Il Direttore

Il sottoscritto Dott. Antonio Canrelli, Chirurgo Primario degli Ospedali di S. Chiara in Pisa e Consulente Chirurgo dell' Ospedale Pubblica Assistenza di Livorno, domanda a Questa Commissione che gli venga concessa l' assegnazione e l' autorizzazione all' acquisto di 3 coperture e 3 canne d' aria (nuove ed usate) della misura 150 / 16 ad altra sezione adatta per autovettura (per esempio la sezione adoperata per le Deepe : 5.00x16)

Domanda inoltre che gli venga concessa l' autorizzazione ad usare tali coperture sulla propria automobile Fiat 508; targata MI 7025 Term.Circol. N° 2060 , con la quale è ora costretto a circolare facendosi prestare e noleggiando le coperture che gli furono a suo tempo requisite, con onere insostenibile dati gli attuali momenti.

Il sottoscritto ha necessità di usare l' automobile per lo svolgimento della propria attività professionale in genere, ma soprattutto per assicurare il servizio chirurgico e di consulenza nei due centri (distanti fra loro 12 Km.) nei quali presta la sua opera, che, data la sua natura riveste frequentemente carattere di urgenza.

Confida che, date le ragioni sopraesposte Questa Commissione vorrà esaudire la domanda rivolta.

Con osservanza.

80% of the amount of tyres requested with letter No 920 dated 4 July 45 to A.M.G. would be employed for re-activating 7 m/vehicles which are at disposal of this office.

Owing to tear and wear, and damaged and thefts at the hands of Germans and Fascists these vehicles are without any tyres.

The request of complete wheels is justified by the following fact: although the tyres of allied vehicles correspond to our vehicles special discs are required, and they could be promptly adapted in our workshops in Via Miano.

The sizes required are:

4 Tractors Fiat 614.	with trailer, with 10 wheels each (12 complete wheels, i.e. 10 and 2 spares) Size: 6.00 - 16	48
2 Tractors Fiat 618.	with trailer, with 10 wheels each (12 complete wheels, i.e. 10 and 2 spares) Size 7.00 - 18	24
1 M/Truck Fiat 621.	with 6 wheels (6 complete wheels and 2 spares) Size: 7.50 - 20	8

The remaining tyres have been requested for the following private m/vehicles at disposal of Ancona Comune for Nettezza Urbana services (clearing of debris, and refuse according to plans set out by A.M.G., consignments of milk, service of rationed articles, and various transports):

General Directorate of Industry and Mining
Reconstruction Office

Prot. No. 3946

Rome, 19 July 1945

TO : HQ Allied Commission
Industry Sub-Commission
R o m e

SUBJECT : Industries Virgilio Cancellieri.

The a/m firm, that managed in Tripoli an electro-mechanical workshop, took over in October 1944 at Colle Val d'Elsa (Siena) a mechanical plant provided with about sixty machine tools and in which are produced industrial tools, occupying about 100 workmen. The plant has current a considerable development scheme, the addition of a foundry for cast iron and various metals. Said development is being examined by this Ministry and by the Ministry of Public Works, according to the laws on new industrial installations.

In Rome, Via Florio No. 3, the aforesaid firm, using the "Carlo Cattaneo" mechanical arts school operates also, an electro-mechanical workshop, with ancillary carpentry and aluminium foundry which are installed about twenty machine tools and are engaged some fifty workmen. The activity of this workshop consists in the reconstruction of salvaged German auto vehicles according to a contract stipulated with the chief of Transportation Division, Lazio-Umbria Region of the Allied Authorities.

Until now the firm requested:

- a) travel permits to reenter Lybia for the purpose of searching out their own industrial equipment and also travel permits to reach Colle Val d'Elsa for the purpose of pursuing the activity of their plant. These permits, according to declarations made by the manager of the firm, have expired.
- b) Assignments of tires, both for equipment of the salvaged auto vehicles and for auto vehicles destined to search and salvage

the vehicles.

1423
This request is still very urgent, considering that the firm was compelled to slow down the work of reconstruction on the vehicles and in certain cases, to dismantle them, as they had no possibility of utilizing those vehicles, as stated in the foresaid contract, for lack of tires.

1. Extract from Monthly Report, May 1945 by AG Liaison
Officer, Catania:

"The poor condition of roads and lack of tires and spare parts for maintenance continue to restrict road transportation. INT is functioning regularly under the Italian Government although more than 65% of their vehicles are out of commission due to lack of tires and spare parts, more than 50% of them are used by the alimentation services.

The acute shortage of box cars and coal is seriously affecting the operations of the railways. At the present time, 9,000 tons of imported wheat is stock piled on the Catania Quays awaiting the arrival of box cars to transport it. The movement of essential foodstuffs and trade in general has been handicapped by this shortage of transportation.

The allocation of 5,000 tires to Catania by Pirelli has not yet been received."

R O M E

It is called the attention of the Allied Commission on what follows:

"The "Società per le Tramvie Elettriche" of Terni is operating some bus lines and exactly the:

TERNI - S. VALENTINO
TERNI - ROCCA S. ZENONE
TERNI - COLLESCIPOLI
TERNI - SANGEMINI
SPOLETO-MORGNANO

These lines are the only means of communication with said towns. Especially the Spoleto-Morgnano line is useful to many hundreds of employees and workmen, to go to the Morgnano Mines where they are working.

The Company has operated up to now these services in spite of numerous sacrifices. But at present the tyres situation has become desperate, in spite of all the attentions to utilize in the best way the available resources.

Therefore we request the Sub-Commission to allocate at least 10 (ten) tyres of the size 38x3 or 36x8.

We hope that our application will be accepted, especially in consideration of the fact that the suspension of the operation of said public services will provoke serious inconveniences to many workmen who must reach this working places.

Various Administrations of newspapers have requested us to apply to the Allied Commission to obtain a regular allocation of tyres for vehicles in order to operate the normal services concerning the production and the distribution of newspapers.

As the press service is of public utility, we beg you to consider as soon as possible this application.

If our application will be accepted, we beg you to inform us of the amount of tyres which will be allocated to the Association so that it may be possible to inform you how tyres will be distributed, according to their availability, among the various newspapers Administrations.

Many Thanks! We would appreciate very much a reply.

Best regards.

1. This Office is continually receiving applications for tyres for the use of Public Officials such as Prefects and Questore and other persons who should be mobile such as Doctors, Food Officials etc.

2. It is appreciated that the situation is difficult but in the Provinces of BARI, TARANTO, POTENZA, BRINDISI, LECCE and MATERA there is a real and urgent need for tyres if the Officials and services are to function at all, quite apart from functioning at full efficiency. For instance there are ambulances off the road for lack of tyres.

3. May the situation be investigated please and in the meantime a list of the minimum need of each Province is being prepared and will be forwarded as soon as possible.

SUBJECT : REQUEST OF AUTHORIZATION FOR USE OF ALLIED TYRES -

This Central Administration has been requested by the Provincial Seat of R.A.C.I. of Latina (ex Littoria) to obtain from your General Command the authorization for the "Cooperativa Antimine Bonifica Recupero Trasporti" and for the "Soc. An. Trasporti Automobilistici" to use allied military tyres.

The first organization has been charged by the authorities to recover mines, a great deal of which is still in Latina's land and which gets very difficult to resume the agricultural works and those concerning the efforts against malaria.

The "Cooperativa Antimine Bonifica Recupero Trasporti" has found in the country Borgo Flora two tyres of section 9 x 16 and a tyre of section 6 x 16, which are much damaged. The numbers of the aforesaid tyres are : B.15479 AB; 2.4619277 ; the tyre of section 6 x 16 has number M.10263.

We enclose herewith the request that to the Prefetto of Latina has been sent by the aforesaid "Cooperativa".

The "Soc. An. Trasporti Automobilistici" is owner of a motorcar with plate 93 LT, which is used for public service and for mail. It has recovered following tyres for the use of which it has asked the authorization :

Durante le operazioni di Bonifica Antimine in Borgo Flora, abbiamo recuperato, e precisamente in mezzo al bosco del fondo di proprietà del Conte Rangoni, N° 2 coperture della sezione 9.00 x 16 in mediocri condizioni, nonché una della sezione 6.00 x 16 (con uno spacco laterale causato da colpi di facile).

E poiché l'autocarro da noi utilizzato per l'esplicazione di questa Ns/ attività è dotato di gomme pressoché fuori uso, ed in condizioni da non poter più consentirci la prosecuzione dei lavori, rivolgiamo istanza alla E.V. perché voglia compiacersi disporre affinché tali coperture possano essere montate sull'autocarro su menzionato, per darci così modo di continuare nell'opera di bonifica che, come ben è noto, è da ritenersi indispensabile per ~~permettere~~ la possibilità di ripresa all'agricoltura e per arrivare ad eliminare il continuo verificarsi di sinistri fra gli agricoltori, che, purtroppo giornalmente si lamentano.

L'autocarro da noi utilizzato, è distinto con la targa di circolazione N° 1315 LT, intestato a di proprietà del Ns/ Presidente rag. Renato Arrigo Bissi di Pietro, motore N° 08118, telaio N° 08118 permesso di circolazione N° 106249, iscrizione E.N.A.C. SUBJECT : Tyres for public bus services in Sardinia

The Carabinieri Command of Bitti (Nuoro) has informed us that more than ten days ago the Sita Company, which is operating the bus service between Nuoro and Bitti, Colonie Penale and Mamone, has suspended the service for shortage of tyres.

As this line which is also used by the port-offices to forward the mail, is the only one which links up those communes, it is early to understand that its interruption is paralyzing the operation of public offices and prevent port offices from despatching the mail and the population from moving from one place to the other.

This Ministry has already pointed out to the Commission the serious situation of public services owing to lack of tyres thus it is requested to examine carefully the application concerning the allocation of tyres and inner-tubes which could be withdrawn from military depots or even the allotment of used tyres which cannot be utilized for war exigencies but are still in fairly good conditions.

Considering the communication received by the Carabinieri of Bitti and that the situation of passenger public services is really serious, I beg you to examine our applications and allocate tyres to the mentioned Sita Company, in order to enable the operation of the interrupted service.

The trolley-bus service of Bari, operated by the S.A.T.R., was discontinued as to February 5th on account of lack of tires.

The Allied Commission of Bari has recognized the necessity of said service (which is also to the benefit of the allied factories) and therefore during the year 1944 offered to the S.A.T.R. 18 tires at current prices.

Unfortunately the Transportation Office of the Allied Commission of Bari has at present no tire available: but the Italian Military Command could place at the disposal of the S.A.T.R. 30 tires upon request provided that the necessary authorization will be granted by the Allies.

Therefore in order to resume promptly this indispensable service it is kindly requested that this authorization be given immediately to the Ministero della Guerra Direzione delle Motorizzazioni.

SUBJECT: Allocation of tyres

Dear Mr. Gross;

my friend Comm. Antonio Scanziani, Swiss Citizen and Secretary of the Association for Foreign Press in Italy has presented to Mr. Stewart Brown, Director of the Public Relations Branch, a request for five car tyres.

The Public Relations Branch has sent the request to the Transportation Sub-Commission and to Lieut. Divine.

Being Comm. Scanziani a Swiss subject and a journalist I hope the request will be granted.

I should be very grateful if you would kindly look into this matter considering that for the work Comm. Scanziani does for the Foreign Press is necessary to use his car from which the all five tyres were stolen a few months ago.

Thanking you in advance for anything you will be able to do.

Subject : Tyres for Public bus-line services operating transports
of passengers.

The Director, of the Compartmental Inspectorate of Civil Motorization and Transports in Concession of Palermo, in accordance with the High Commissioner for Sicily, has pointed out that owing to absolute shortage of tyres, all busses operating transports of passengers and goods in Sicily, will be soon compelled to suspend their operation making more difficult the public condition, also because it will be impossible to haul cereals to the grouping centers.

This Ministry has already informed the Sub-Commission during last period of time, of the serious situation which has been created - especially in the passenger services - by lack of tyres and has requested to examine the possibility to allocate a certain amount of tyres from the Allied Military Depots, even if tyres have been used unless they can be utilized again.

Owing to the critical situation which has been pointed out by the Compartmental Inspectorate of Palermo, I beg you again to examine the application and to allocate some tyres for busses and trucks of Sicily.

Rome, April 17, 1945

Subject : Request for partially worn out tires.

To : Allied Commission - Rome

To assure the supplies of food for the officers of the Royal Forest Corps and the daily necessities to carry out the transfer of personnel etc., this Direction wants to transfer the truck R.C.F.105 now at the disposition of the State Forests of Ficuzza (Palermo).

To carry out this transfer, however, it would be necessary to change the tires as the old ones are completely worn out.

As our Direction is familiar with the difficulties to get new tires by the Allies, we ask your Commission if it would not be possible to get partially worn out tires which, however could still be utilized after repairing them for our work.

If this would be possible, we should like to get N° 16 tires with tubes sufficient for the equipment of the truck with trailer; if this number is too high, we also will be satisfied with 8 tires for the truck without the trailer.

The measures for the tires are 750 x 20 or 34 x 7.

OGGETTO: Pneumatici di provenienza Alleata. - Autorizzazione -

In occasione della cessazione degli Uffici di codesto Comando, ci permettiamo far presente la situazione di alcune autovetture che, autorizzate a circolare per i servizi di questa Se.Pr.Al., sono fornite di pneumatici in istato di avanzato consumo ed incontrano notevoli difficoltà per la sostituzione data la nota deficitaria disponibilità del mercato.

Un mancato utilizzo di dette autovetture sarebbe di pregiudizio all'attività di questa Sezione per i servizi sia in città che nei Comuni della Provincia.

Si sarebbe particolarmente grati a codesto Comando se volesse cortesemente segnalare tale situazione alle Autorità Alleate e la necessità che alle autovetture in parola sia concessa l'autorizzazione ad usufruire di pneumatici di provenienza Alleata.

In tale ipotesi si gradirebbe conoscere la procedura da seguire.

REFERENCE : AC/ 302/ 2/ YR 5

SUBJECT : REQUEST FOR MAINTENANCE ITEMS FOR ITALIAN CIVILIAN UTILITIES

TO : G-5 SECTION AFHQ, APO 512
(Attn. Lt. Col. Green-Johnson)

Reference your 1-3 of 16 Mar 1945 in re maintenance items for Civilian Utilities Companies employed by PSS.

1. Public Utilities needs were considered when placing demands for the items listed.
2. Deliveries against requests for batteries, tires and tubes have been in such relatively small quantities that they have been absorbed immediately upon arrival.
3. At present there are none of these available.
4. A portion of the tires needed could probably be filled on the basis of specific demands to be honored by salvage deposits in accordance with the salvage instructions issued by G (AC) of your HQ.
5. In view of the operational status of said companies we believe it most advantageous to all concerned if this material were authorized for issue from Forbes stock.

1. The following items are urgently required to equip the Civil Defence vehicles in Livorno. Florence and Ancona are being handled by Army.:-

3 6 volt M/C type Batteries suitable for motor-cycle van.
3 Tyres and Tubes for Motor-cycle vans 19x350 or 400.
10 3.5 Dry Cell Batteries (any type) for adaption to standard Italian hand-lamp torch as carried by Italian Firemen.
1 6 volt Jeep type Battery for 1100 Fiat.

5 Tyres and 4 Tubes 600x16 for 1 Fiat Van 1100.
6 " " 6 " " 3 M/C Vans, Guzzi. *Cont*
5 " " 5 " " 1 Fiat Van 1100. *pay*

Used tyres and tubes are suitable, as the vehicles will not be in service for much time.

2. The following is a quotation from the minutes of a Conference held 26 Feb. '45 at A.F.H.Q.:-

"Colonel Torrence stated that H.Q., A.C. is now under an A.F.H.Q. Directive to make provision for Civil Defence in ANCONA, LEGHORN and FLORENCE (AG 384.5/069 GOT-O, 29 Jan. '45) and is presumably taking action in the matter.

It was pointed out by G-4 and G-5 supply personnel at the meeting that simplified procedure open to Allied Commission for the procurement of Army Items for essential civil use, is now available to it and should be used in the present connection (letter AG 400.312/031 GEG-O, 22 Feb. '45).

The Chairman stated that he felt P.A.D. and Civil Defence should submit a memorandum to G-5 for onward transmission to Allied Commission, which might serve as a guide to the Allied Commission in making requisition for Army Items, supply needed for the reactivation of Civil Defence in the cities under consideration. Such a requisition should be submitted by Allied Commission to G-5 and, after check by

- 3 6 volt M/C type Batteries suitable for motor-cycle van.
- 3 Tyres and Tubes for Motor-cycle vans 19x350 or 400.
- 10 3.5 Dry Cell Batteries (any type) for adaption to standard Italian hand-lamp torch as carried by Italian Firemen.
- 1 6 volt Jeep type Battery for 1100 Fiat.

5 Tyres and 4 Tubes	600x16 for 1 Fiat Van 1100.	<i>Cont</i>
6 " " 6 " "	" " " 3 M/C Vans, Guzzi.	<i>Pay</i>
5 " " 5 " "	" " " 1 Fiat Van 1100.	

Used tyres and tubes are suitable, as the vehicles will not be in service for much time.

2. The following is a quotation from the minutes of a Conference held 26 Feb. '45 at A.F.H.Q.:-

"Colonel Torrence stated that H.Q., A.C. is now under an A.F.H.Q. Directive to make provision for Civil Defence in ANCONA, LEGHORN and FLORENCE (AG 384.5/069 GOT-O, 29 Jan. '45) and is presumably taking action in the matter.

It was pointed out by G-4 and G-5 supply personnel at the meeting that simplified procedure open to Allied Commission for the procurement of Army Items for essential civil use, is now available to it and should be used in the present connection (letter AG 400.312/031 GEG-O, 22 Feb. '45).

The Chairman stated that he felt P.A.D. and Civil Defence should submit a memorandum to G-5 for onward transmission to Allied Commission, which might serve as a guide to the Allied Commission in making requisition for Army Items ^{pg 3} supply needed for the reactivation of Civil Defence in the cities under consideration. Such a requisition should be submitted by Allied Commission to G-5 and, after check by that Section, should be forwarded to G-3 and G-4 (Civil) in turn for appropriate action.

The Chairman's proposal was adopted as the sense of the meeting and Lt.Col. DAW agreed to prepare and submit such a memorandum to G-5."

The proposed Civil Defence unit at Livorno is considered to be an urgent requirement by this Region.

3. Please advise this Division as to how and where the required equipment may be secured.

SUBJECT: Tires and tubes.

TO: Industry Sub-Commission, HQ A.C.

1. The Motor Transportation Group has recently received an allocation of Dodge trucks for the transport of Italian civilian commodities. These trucks will eventually become the property of the Italian Government.

2. These trucks require six tires plus one spare, size 700 X 20. There is no availability of this size tire and none is expected unless Pirelli intend to include this size in their production. The only alternative size is 750 X 20 except that:

a. The dual rear wheels being set so close together, will not accommodate two 750 X 20. Therefore, this size can only be used on the front wheel.

3. Many of these trucks are arriving without spare tires and additional trucks are expected in the future. A definite problem will arise when this size tire eventually becomes unserviceable. It is strongly recommended, therefore, that steps be taken now to avoid deadlining trucks in the future through lack of this size tire.

TO : Regional Commissioner, Toscana Region,
(Attn: Maj. Sowers)

1. We have been contacted several times by the Mining Sub-Commission in re 3 tires and tubes, size 750 x 70, for the Ribolla mine, near Grosseto.
2. This mine owned by the Montecatini Co., is an important production source and is seriously handicapped by lack of tires for supply vehicles.
3. Commerce Sub-Commission states that the issue is a Toscana Region responsibility and that an additional release of 750 x 50 tires and tubes was authorized 6 March 45.
4. We consider this a high priority economic element and have advised the Montecatini Co. to contact you with full information.

SUBJECT: Request for Maintenance for Italian Civilian Utilities Companies' Vehicles.

TO : Commanding General, MTOUSA, APO 512, U.S. Army.

1. The Policy of this Base Section since its arrival in Italy has been to utilize to the maximum possible extent all existing civil organizations in the restoration, maintenance and operation of their various facilities in support of military operations. Until recently this policy has proved to be highly effective in appreciably reducing the employment of U.S. military personnel and transportation equipment on such work. However, due to the deterioration of certain civilian motor equipment, particularly tires, tubes and batteries, these civilian organizations are becoming less effective operationally and require support from supplementary military personnel and transportation equipment.

2. A detailed study has been made in order to determine the number of civilian vehicles now idle or partially idle which could be made available for the maintenance of roads, electric utilities, water and sewer systems. This survey covers both Penbase and Pensouth. Tabulation and summary attached (Inclosure 1) indicate the need for 5, 3.25 x 16, 658, 6.00 x 10, 196, 7.50 x 20, 10, 8.00 x 10.5, 30 x 5, and 4, 12 x 20 tires and tubes as well as 70 6-volt and 40 12-volt batteries. These items are required for gainful employment of 108 trucks and 79 passenger cars. However, the civilian agencies concerned have been unsuccessful in obtaining release of these items for their needs from any Allied agencies in any substantial amount. The lack of such supplies is now seriously impeding restoration, operation and maintenance work. It is therefore requested that a concerted effort be made to meet these requirements.

3. In the event that the Allied Commission is not in a position to furnish the required items for the firms listed, it is requested that the Commanding General, Peninsular Base Section, be authorized to make these issues from Penbase stocks. In the event this authority is granted, it is proposed that Class "C-1" (or "D") items in the amounts indicated would be issued. Issues would be closely supervised to protect our interests.
