The subscriber Roberto Basile administrator of CIDAC brings to your attention what happened the 10-2-46 at 14:00 hrs.

Coming back from Benevento with the car targa Roma 90490 of CIDAc he was stopped at the street-cross between Capua-Caserta by the Allied Police because of two of his tires of allied make.
The subscriber told the Police that those tires had been denounced to the R.Prefettura of Rome (No.1111 dated 7/2/46) as ordered by the Transportation Ministry that he did not have any permit but on the newspaper it was written that people could use the tires until the 15 March.
The Allied Police naturelly did not believe what they were told and took away from him the circulation book inviting the subscriber to go to Caserta the day after at 12:00 o'clock to consigne the tires and have the circulation book back.
This incident brought damage to the Society because the car was supposed to go to Milano for very urgent matters.
May your Ministry please interfer so that the circulation book could be released to us as soon as possible.

January 24, 1946.

TO WHOM IT MAY CONCERN.

This civilian, MARCHI Luigi, was apprehended by us because he was using american tires without a regular permit.

The said tires were confiscated, and Marchi was told to procure a valid permit.

The tires were sent to the Salvage Depot by mistake and it is impossible to return them to him.

We have given Marchi 4 other tires, hoping that you'll give him a permit to use them in place of the ones he has lost.

The tires are:

FIRESTONE	600x16	#	FWQ18163
FORD	"	"	V919453
FIRESTONE	"	"	F.T.45521
GOODRICH SILVERTWON	600x16	#	398983012

VERNE J. GEORGE
1st Lt. Inf.
Chief Duty Officer.

A CHI CONCERNE.

Il nominato MARCHI Luigi fu da noi fermato per usare le gomme militari senza il regolare permesso in attuale circolazione.

Le gomme furono sequestrate, invitando il Marchi a munirsi del permesso in modo che si avrebbe restituito le gomme, senonche' le suddette gomme furono per sbaglio inviate al Deposito ricupero e percio' difficile a potersi riavere.

Noi si consegna al Marchi altre quattro gomme, qua?? lora vorrete rilasciare un nuovo permesso per poter usare le sopradescritte gomme.

Esposto 12-I-1946

Alla Allied Control Commission,

nella prima decade di dicembre, per intercessione di un Colonnello della M.P. di stanza a Livorno, e alla presentazione di documenti comprovanti che lo scrivente, abitante in Viareggio, è Professore di Clinica ortopedica nella Università di Pisa e Primario Chirurgo dell'ospedale G. Barellai di Marina di Massa, fu concesso il rilascio dal Governatore di Viareggio un permesso di portare nella propria macchina (Fiat 1100) 2 gomme americane (Military Good-Year BL. 287 SK 221 e Military Good-Year BL. 176 YA 480)

2169

Senonchè il 12 dicembre 1945, mentre la macchina trovavasi in un garage di Viareggio, durante un rastrellamento della M.P. (10ª compagnia di Livorno), furon sottoposti a sequestro le gomme americane, i cerchi della macchina (di colore blèu scuro) ed il permesso che autorizzava a portare le gom=

Declassified E.O. 12356 Section 3.3/NND No. 785021

me (autorizzazione ritenuta valida perché firmata e rilasciata da un funzionario alleato, Governatore di Viareggio.).
Le ricerche condotte a Pisa, Livorno, Firenze e da ultimo il fermaio e le gomme, o per lo meno i cerchi della macchina, non hanno avuto risultato infruttuoso. Di quella è stato rintracciato, e lo scrivente oltre ad un danno materiale ha la macchina con due sole ruote.

Erano validi militari alleati autorizzati al sequestro?
E se il sequestro fu regolare, ove furono portati fermaio e ruote che non si sono più rintracciati? E perché asportare anche il fermaio, senza rilasciare alcuna motivazione?
E se il fermaio era irregolare, come poteva lo scrivente sapere che il Governatore di Viareggio firmava indebitamente e non poteva autorizzare punto. Legalizzava con la sua autorità?
Lo scrivente fa istanza che siano considerate le ragioni esposte e che gli siano restituite le gomme con il fermaio, o per lo meno le ruote metalliche di sua proprietà.

Con ogni ossequio.

RELIEF AND REHABILITATION ADMINISTRATION

UNRRA Italian Refugee Unit N° 3.
A.P.O. Leghorn, C.M.F.

Ref No.

27 December 1945.

To: Transportation Sub-Commission, H.Q. Allied Commission.

Subject: Permit for use of ex-military tyres.

1. I am referred to the above Sub-Commission by Livorno Zone A.M.G.

2. The following request is made on behalf of the Italian civilian refugee camp at Arezzo, which has been unsuccessful in its attempts to obtain the necessary permission.

3. The tyres in question are as under:

Goodyear	600 x 16	U21 T 5739
"	"	"	4W9 4 6349
Dominion	900 x 13	E 19094
Dunlop	"	"	AE 18006

They are used on a Fiat Ardita 1750 (registration number 3330 AR) requisitioned by the civilian authorities for the sole use of the refugee camp. They were duly demounced to the local branch of the R.A.C.I. in accordance with instructions in the local press, and a permit expiring on 25 October last was issued. Since this date the camp authorities have been unable to obtain a renewal, and therefore asked me to endeavour to do so.

4. I shall be very grateful if it is possible to release the permit to use these tyres, since I can vouch from my own experience of the camp during the month of June that some means of transport is absolutely essential. (At that time both 71 Sub Area and this Unit lent transport for the transport of refugees and stores for the camp.)

5. The following further particulars may be helpful: The camp comes under the jurisdiction of the Arezzo provincial office of the Ministero per l'Assistenza Post-Bellica, and its official title is Campo Transito Profughi di Guerra, address Via Garibaldi,19, Arezzo.

6. I trust the above details will be sufficient to secure the release of the permit. If further particulars arenecessary, the camp will supply them, or I shall be very glad to provide any information I have.

Sig. DINO POLI is a WD Contractor working in this Area for the British Authorities.

He operates a car which is fitted with tyres purchased under AC permit. On a recent visit to a place in this Area this permit was stolen from the car. Could a copy of this permit be sent to this Office in order to obviate the agent having difficulty with the Allied Police Authorities for being in possession of the tyres.

We enclose a letter from the Ufficio Autotrasporti with reference to this matter.

File: Liv. 13/7/288 15 December 1945

Subject: Military Tires.

To: Headquarters,
Allied Commission,
APO 394. U S Army.
(Attn: Transportation Sub-Commission.)

1. Attached correspondence forwarded to you for attention.

2. The 9 military tires in question previously were picked up by Military Police of 92nd Infantry Division and turned over to the Carabinieri in Viareggio who then gave them to the custody of A.M.G. Headquarters in Viareggio.

3. No record of any kind was entered into the books of the police of this transaction and the A.M.G. Headquarters in Viareggio had these 9 military tires at their disposal.

4. The A.M.G. Liaison officer in Viareggio saw fit in November 1945 to issue these 9 military tires (on loan) to an employee of his (an American citizen), who had his civilian truck working for the Transportation Section of A.M.G. Headquarters in Viareggio.

5. When A.M.G. (also Transportation Section) ceased to function in Viareggio in December 1945, the A.C. Liaison officer failed to take any action on the temporary permit issued for the use of the mentioned 9 tires. As a result, this American citizen has no permit to use military tires on his vehicle which is not now used by A.M.G. Viareggio.

6. However, at present, the truck has been turned over to the Commune of Viareggio for the Commune's use, pending an official permit to use these military tires on a commune vehicle.

7. The tires are again in the custody of the Carabinieri who are holding them at the request of this office and the owner of the truck, until permission is given him to rightfully use the tires on his truck used by the Commune of Viareggio.

8. This Headquarters strongly suggest a permit be issued either from your office or from the Ministero di Trasporto e di Commercio. The permit can be forwarded to this office.

SUBJECT : Tire Permit for I.S.R. Contractors.

Attn: Lt. Barrus

1. Major Maritz, Military Railway Service advises that be obtained some temporary tire permits from the Roads Division for military tires which the M.R.S. loaned to I.S.R. contractors. If necessary to withdraw the tires from the contractors it would be embarassing as they have no depot here now to receive them and would retard the contractors work for I.S.R.

2. Maj. Maritz requests that you issue permanent permits for the following tires of which you have a record;

Recently the firm has been stopped by both British and American Police who have detained the vehicles referred to pending enquiries as the Authority produced by the Firm was not considered sufficient.

Investigations made have revealed that the tyres were originally left behind on the Firm's premises by the Germans.

The tyres were duly declared to HQ. A.C. and permission was asked for and given to use them. It appears from our enquiries however that payment was never made for these stores.

The factory is working 100% on Grinding Wheel Contracts for this office and the vehicles referred to are indispensable, particularly at the present time for obtaining raw materials which are not available through military channels.

May we therefore have your assistance in obtaining the necessary authority as the firm have big commitments with this office and without the use of transport the possibility of completing their contracts on time may be seriously affected.

In reply to the above reference letter I take the liberty to insist again for a permit for the use of Allied tires. In our Institute 250 boys are daily kept for school, and supply is made daily by the administration with great difficulties. This Headquarter knows well what a lack of transpotation exixt in this corner of country. We having a small truck, the only hope and help for the Institute, the local Headquarter, a year ago, just in view of the difficulties of transportation, for the wellfair of the Opera, gifted the Institute to use American tires with provisory permit, for legal circulation of the small truck, with the mentioned tires. Now we are not able to produce documentary of purchase tires for the alleged reason. Neverthless we insist asking to this Headquarter Allied Commission to confirm or to grant permit for the use of the tires marked with number 6 X 00 X 16 - 341995 - 201321 - 416797 - 40561436 46 - G 10564106, pointing out the impossibility of this Institute to provide otherwise.

We trust this Allied Commission will understand the impelling necessity of this Institute and what inconveniency for the boys will create a refusal. Be sure the generosity of this Headquarters Allied Commission will be well appreciated.

SUBJECT: Authorization to use Allied Tires.

TO : Regional Transportation Officer, Lombardia Region.

1. It has been brought to our attention that Ufficio Autotrasporti of Milan is issuing, over the signature of their director, authority to use Allied Military tires.

2. The most recent specific case was that of a Fiat 626 N, Targa U.A.Milano 013102, owned by Cooperativa Autotrasporti.

3. This vehicle was stopped at the Grosseto road block and the police quite properly sequestered the Allied Military tires with which it was equipped.

4. Other truck operators carrying similar papers have been treated in a like manner.

5. In accordance with AFHQ directive, Appendix A to T-12 of 19 April 1945, and this Headquarters directive AC/329/4/TM.5 of 24 March 1945, the Military Police honor only properly completed standard permit forms countersigned by an authorized Allied officer.

6. Will you please investigate the previously mentioned operations and forward a report to the office.

2. We are making immediate investigation of the operations of the Ufficio Autotrasporti Milano to ascertain what authority the Lombardia Regional Commissioner has delegated to them.

Taking into consideration the requests made by the "Governatorato" of the Vatican City, "Ufficio d'Igiene", "Azienda Comunale Elettricità e Acque", "S.T.A.",and the High Commission of Public Health, which have already received the assigned tires, under reserve , however, to notice the characteristics of the cars on which the tires must be fitted, and taking into consideration the need of this Organization, of some other civil or religious Institutions, and of some phisicians to whom the tires have already been allocated, it will be necessary to issue still 217 permits for the use of military tires.

We request therefore to point out the situation to the Allied Commission in order that the corresponding permits can be issued any-time the appropriate documents will be forwarded.

La macchina era tenuta a vista da circa due metri malgrado ciò un ragazzo da IO ai 12 anni dovette essere allontanato energicamente perchè per due o tre volte suonò il "clakson".

Dovendosi escludere altre circostanze riteniamo che il documento sia stato asportato profittando dell'oscurità,del medesimo.L'oscurità stessa,a prescindere dell'ignorare il fatto accaduto,non ha dato possibilità di fissare la fisonomia del ragazzo che avrebbe potuto il giorno successivo,che si siamo recati sul posto,facilitare le nostre ricerche che a tutt'oggi sono riuscite infruttuose malgrado l'intervento dell'Arma dei RR.CC.e del nostro Capo Ufficio Locale.

Io sottoscritto Prof. Pasquale Villani, Direttore del Campo Transito Profughi di Guerra di Arezzo e Direttore della stessa mensa fa presente quanto segue:

" Ho un camioncino a disposizione, della portata di q.li 10, targato 2280 AR. FIAT Ardita 1750 di proprietà del Sig. TISI LIVIANO per il trasporto di profughi da questo Campo transito e tutta la provincia di Arezzo, a Perugia e Provincia, e inoltre lo adibisco per il trasporto di viveri per la mensa profughi e per il trasporto di materiale vario occorrente al Campo stesso."

Fu regolato dalle locali autorità per metterlo a disposizione esclusivamente di questa Direzione essendo questa priva degli automezzi dell'U.N.R.R.A. e di qualsiasi altro mezzo di trasporto.-

Il suddetto camioncino è gommato con materiale allestito di ricupero, e le 4 gomme stesse sono contrassegnate come segue:

Si prega pertanto codesta Commissione di prendere in esame la richiesta urgente e vitale presentata da questa Direzione concedendole un nuovo permesso definitivo, poichè col cambiamento bloccato, rimane necessariamente fermo tutto l'andamento del Campo, rimanendo tra l'altro un ingente numero di profughi, che per mancanza di mezzi, sono costretti trattenersi per diverso tempo.-

L'Istituto, proprietario dell'autoscuola, è disposto a pagare le 4 mensilità nella misura che codesta Commissione crederà opportuno.-

In attesa di una decisione ringrazio anticipatamente e saluto con rispetto.-

SUBJECT: Allocation of Tires

TO : Deputy Vice President, Economic Section

1. Reference your 15.10/ES and further questions on the above subject.

2. At the present time no organization allots Transportation Sub-Commission W.D. tires for civilian use. Therefore no permits are issued presently by that office against allocations to it.

3. The above has been true since the transference of the Tire Section, formerly of Transportation Sub-Commission, to Commerce Sub-Commission, in January of 1945. Since this transfer no tires have been available for disposition or issue by Transportation Sub-Commission.

4. A list of agencies, whose issues of W.D. tires to civilians are being recorded and validated by Transportation Sub-Commission, is not feasible. This is true for the following reason:

a the agencies and/or individuals, whose allocations to civilians have been and are being validated by issuance of a standard tire permit, includes the majority of the services and movement branches of the armies formerly within the theater, most of the operating agencies of AMGOT and AC/AMG, as well as a number of individual officers in the field.

b Because of the inability of the relatively small number of tires made available through direct Allied Commission channels to meet operational demands, in many cases agencies and officers were forced to make their own procurement arrangements with adjacent military units and army depots or through special authorizations from higher headquarters.

5. Transportation Sub-Commission, for the past few months, has been trying to issue a standard permit form to replace those issued by these various agencies. This has been and is being accomplished by recalling all miscellaneous permits in circulation and replacing them with the standard form; all pertinent data being retained in a central control file.

6. Transportation Sub-Commission has screened all applications for permits and retained, under this procedure, the authority to validate the original issue by release of the standard form. Transportation Sub-Commission retains the discretion to refuse validation, when the particolar record of a transfer or issue does not warrant validation.

7. Transportation Sub-Commission has proposed termination of Allied Commission control activities of the use of military tires by Italian civilian firms and individuals and the transfer to the Italian Government of the responsibility for allocation and control of all such tires received from Allied agencies. Concurrence with this proposal has been received from AFHQ (see T-12 of 31 Oct. 1945, copy attached).

N°1 Enclosure.

TO : Tn.Sub-Commission A.C.,

The undersigned manager of the Salesiano Institute "S.Antonio di Padova" of Soverato, is requesting to your Sub-Commission a permit to use Allied Tires. Our Institute gives hospitality to 250 pupils and 50 religious among teachers, managers and subalterns, and is in great difficulties for supplying of essential items.

The Institute has a small truck FIAT 500 which represents the only possibility, and without which any supplies are impossible on account of the lack of transportation in this area.

This truck would be useless without a permit to use Allied tires, for this reason the Allied Command of Catanzaro gave a temporary permit to us which is now expired. The undersigned is therefore requesting a new permanent permit in order that our small truck may run without difficulties.

Hoping that favourable attention be given to this request.

I remain yours faithfully

R O M A

Il sottoscrittoDirettore dell'Istituto Salesiano "S. ANTONIO DI PADOVA " di Soverato, chiede a codesto Comando Generale Alleato il permesso, già provvisoriamente concessogli, di usare gomme degli Alleati.

L'Istituto ospita 250 Alunni e 50 Religiosi tra Insegnanti,Dirigenti e Subalterni ed è in gravi difficoltà per quanto riguarda l'approvvigionamento della Convivenza molto numerosa.

L'Istituto è fornito di un camioncino FIAT 508, che, si può dire, costituisce la vita dei Conviventi giacchè, mancando tale mezzo, sarebbe impossibile provvedere ai bisogni vitali del Collegio, data la grande scarsità di mezzi di trasporto, specie in questa zona.

Ora detto mezzo sarebbe paralizzato e inservibile se non potesse usare gomme degli Alleati. Sotto questa considerazione,a suo tempo, il locale Comando Alleato di Catanzaro ne concesse provvisoriamente l'uso.

Ora il sottoscritto chiede che questo permesso venga definitivamente concesso, perchè il camioncino possa svolgere il suo faticoso servizio indisturbato.

Fiducioso di avere una larga comprensione, ossequia.

L'Ufficio regionale del lavoro di Ascoli Piceno e gli Uffici provinciali del lavoro di Chieti e Pesaro, furono a suo tempo autorizzati dalle Autorità Militari Alleate ad usare, per i propri automezzi, pneumatici alleati.

Le autorizzazioni furono date per iscritto dai Commissari provinciali dell'A.M.G. (per Ascoli Piceno) o da ufficiali della Divisione lavoro del Comando Regionale dell'A.M.G. (per Chieti e Pesaro).

Con lettera del 2 agosto u.s. il R.A.C.I. (Reale Automobile Circolo d'Italia) ha però comunicato agli uffici predetti che il Comando Generale Alleato non ritiene di concedere il permesso per l'ulteriore uso delle gomme in parola.

In considerazione della difficoltà di reperire sul mercato pneumatici di fabbricazione nazionale e della necessità che hanno gli uffici del lavoro di disporre di un'autovettura per l'espletamento dei propri compiti, si prega di voler cortesemente esaminare la possibilità di svolgere un interessamento perchè gli uffici suindicati possano continuare ad usare, fino a consumazione, i pneumatici di fabbricazione alleata di cui sono in possesso e che ottennero con regolare autorizzazione.

Rome, 22 October 1945

Prot.4088/AP/3

TO : The Allied Commission
Labour Sub-Commission
SUBJECT : Regional Labour Offices. Use of pneumatic tyres (inner tubes) of ~~the~~ Allied production.

The regional labour office of Ascoli Piceno and the provincial labour offices of Chieti and Pesaro were once authorized by the Allied Military authorities to use for their motor-vehicles tyres of Allied production.

The authorizations were delivered by letter from the provincial AMG commissioners (for Ascoli Piceno) or from officers of the Labour Division of the Regional AMG Command (for Chieti and Pesaro).

The R.A.C.I. (Royal Automobile Club of Italy) has now communicated by a letter dated 2 August 1945, to the above named offices that the General Allied Command is not willing to consent the further use of the tires in question.

In view of the difficulties to obtain on the market tyres of national make and of the necessity for the labour offices to have a car available for the carrying out of their duties, we request your Sub-Commission to be so kind as to consider the possibility of an intervention with the authorities concerned, in order that the above offices may continue using, until their complete consumption, tyres of allied production which they have available and which they obtained by regular authorization.

1. The attached correspondence deals with two subjects; i.e.:-

(A) Tire permit issued by this office
(B) Authority to circulate.

2. With regard to (A), our records show that this permit was issued here under serial No.6956 by Lieut. Clark, A.McD. who was then Roads officer here, under my command.

This permit is highly irregular. It bears no serial number, and no tire numbers, which renders it completely useless. Lieut. Clark should never have permitted such a permit to be issued. The permit does however, apply to the car in question, 6781 S.V.

3. With regard to (B) the undated authority to circulate from Naples to Torino written on a V mail form by Lieut.Clark, is completely invalid.

Car S.V.6781 was never at the disposition of this office at any time. The action taken by Lieut. Clark was entirely a private arrangement to suit his own purposes, and he had no authority whatever to issue any such document, from me.

4. Lieut. A.McD. Clark is now Roads officer at Alessandria, Piemonte Region, and he was transferred from here some two months ago. He left by civilian car for Torino and the car used may well have been S.V. 6781. That fact can be checked here if required, from the records of P.B.S. Provost Marshall, who detained the car used by Lieut. Clark for a period.

Character of case: (offense[s])

Issuance of Freudulent Permit.
Illegal Possession of Military Tires and Tire Permit.

On 11 September 1945, Lt. PYRTKO, 139th MP Co., Civitavecchia, Italy, telephoned this office of the arrest of FIDA Mario di Francesco, Via Collazia #29, Rome and of FESTA Roberto di Giovanni, Via Flavia #42, Rome, who were in possession of four military tires and a fictitious tire permit.

Investigation revealed that during June 1945, a VENTUCCI Antonio di Cosimo learned from a friend that tire permits could be obtained from a woman, MANZOTTI Federica fu Romualdo, for a sum of 6 or 7,000 lire per tire. VENTUCCI met FIDA Mario di Francesco and told him that a tire permit could be obtained for the military tires which FIDA owned, for a sum of 50,000 lire. FIDA, knowing that his tires were illegally bought in the blackmarket, accepted the offer. VENTUCCI arranged with MANZOTTI to secure a permit for FIDA. MANZOTTI, in turn, contacted MECHELI Mario, whom she had previously known as a "medical doctor" employed by the Malaria Control and whom she had approached for assistance in obtaining tire permits, and made arrangements to secure a permit for FIDA. The said "doctor" prepared the permit and delivered it to MANZOTTI, who then delivered it to VENTUCCI for 32,000 lire. VENTUCCI, in turn, delivered it to FIDA for 50,000 lire. VENTUCCI gave a friend 3,000 lire as compensation. MANZOTTI paid the same friend of VENTUCCI's, a sum of 2,000 lire, and she also gave the "doctor" (MECHELI), 10,000 lire. No arrests were made and at present, MECHELI, wanted by Italian Police for other such crimes is free. A total of four tires are held by the 139th MP's along with the car of FIDA's. One tire, found in the home of a friend of FIDA's, and the permit are held by CID. Case Closed.

DETAILS:

1. On 11 September 1945, at about 0910 hours, the C.I.D. received a telephone call from a Lt. FERTKO, 139th M.P. Co., Civitavecchia, stating that two Italian males, FIDA Mario di Francesco, Via Collazia #29, Rome, and FESTA Roberto di Giovanni, Via Flavia #42, Rome, had been arrested in Civitavecchia for being in possession of four military tires and a tire permit which appeared to be fraudulent. Both FIDA and FESTA were brought to the C.I.D. Offices by the said MP's and the tire permit was turned over to the undersigned. The four tires and a civilian car, Bianchi S-9, License No. Roma 84744, were impounded by the MP Officer to await proper disposition. The permit is attached to and made a part of this report as Enclosure #1.

2. On 11 September 1945, FIDA Mario, the owner of the above-mentioned civilian car, was interrogated by the undersigned and in his written statement, he related the following information: That he was the owner of the said car and that he and FESTA were in partnership in a transport company designed to carry passengers from North Italy, south to Rome. That he had purchased five military tires in the blackmarket over a period of time. That during the month of June 1945, he was approached by a VENTUCCI Antonio di Cosimo, Via Paolo Parute #7, Rome, who told him, FIDA, that a permit for the tires could be obtained for a sum of 50,000 lire. FIDA insisted of VENTUCCI that the document be a bonafide permit and the latter guaranteed FIDA that the permit was perfectly legal in all it's phases. On the 7 July 1945, VENTUCCI delivered a permit, supposedly issued by a "A. MACK, Cap. M.C., AC PUBLIC HEALTH, MALARIA CONTROL" to FIDA and the latter paid the 50,000 lire. The permit, Enclosure #1, listed five military tires which are the tires confiscated by Lt. FERTKO and the undersigned, in Civitavecchia and the home of FESTA Antonio. FIDA stated to the undersigned that he honestly believed the permit to be legal. He realized however, that the tires which he had bought in the blackmarket were not. When asked how the serial numbers of his tires were obtained by the person who made out the permit, he related that VENTUCCI had asked for the information regarding the car and the tires, prior to obtaining the said permit. FIDA definitely stated that he had never sought permits before or after this particular incident. The tire permit in possession of the undersigned, was shown to FIDA and he identified it as the one which he had bought from VENTUCCI for 50,000 lire. (See Enclosure #2).

3. FESTA Roberto di Giovanni was interrogated on 11 September 1945 and in his statement, he disclosed the information that he knew FIDA had bought the permit from VENTUCCI for 50,000 lire. FESTA admitted having been in partnership with FIDA in passenger transportation from North Italy to Rome. He too was shown the permit and identified it as the permit which FIDA had bought from VENTUCCI. (See Enclosure #3).

4. On 12 September 1945, VENTUCCI Antonio di Cosimo, was brought to the C.I.D. Offices and questioned and he made a statement regarding his interest in the issuance of the permit. In substance, VENTUCCI states that during the month of June 1945, he conversed with a LUCERNONI Elio fu Agostino, Via Muzio Scevola #93, Rome, a neighbor and a coworker at the Precision Instrument Laboratories, Rome. The topic of conversation dealt with LUCERNONI's acquaintance with a certain MANZOTTI Federica fu Romualdo, Via Alberico 11° #15, Rome, who was able to

CONFIDENTIAL

1925

0419

Declassified E.O. 12356 Section 3.3/NND No. 785021

obtain tire permits for a sum of 7,000 lire per tire. That same evening, VENTUCCI visited a garage on Via dei Reti, Rome, where he met FIDA Mario, whom he knew owned a car which carried passengers from North Italy to Rome. The proposition presented by LUCERNONI was mentioned to FIDA by VENTUCCI. VENTUCCI told FIDA that if the latter desired to take advantage of this proposition, FIDA could expect VENTUCCI to reap a financial profit from the deal. FIDA did not object and he gave VENTUCCI a list of the tire serial numbers which he had in his possession. The information concerning the tires was then delivered to LUCERNONI by VENTUCCI. Several days later, LUCERNONI and VENTUCCI personally visited MANZOTTI Federica and VENTUCCI told her that the permit, which she could obtain, must be perfectly legal. In fact, VENTUCCI told the woman that good permits are issued on card forms and the woman's reply to this was that he could be sure that the permit would be perfectly legal. Finally, during the early part of July 1945, VENTUCCI telephoned the woman and learned that the permit was ready. He visited FIDA, collected 50,000 lire from him and then visited the woman to whom he paid 32,000 lire for the permit. He delivered the permit to FIDA and then visited LUCERNONI to whom he paid 3,000 lire. Of the 50,000 lire paid by FIDA, VENTUCCI retained 15,000 lire for his personal profit. VENTUCCI freed both MANZOTTI and FIDA in the CID Offices and he identified them as the woman from whom he secured the permit for 32,000 lire and as the man who paid him 50,000 lire for the permit. The permit itself was shown VENTUCCI and he identified it as the document which is referred to in this report. (See Enclosure #4.).

5. On 12 September 1945, MANZOTTI Federica fu Romualdo, Via Alberico 11° #15, Rome, was brought into the CID Offices and questioned thoroughly regarding her connection with the false permit. She admitted, in a statement, that she had been approached by a LUCERNONI Elio fu Agostino during the month of June 1945 and that the said LUCERNONI asked her whether she could obtain a tire permit for him. At a later date, MANZOTTI chanced to meet a certain "Dr. MARIO MICHELLI" who told her that he was hired by the Malaria Control Section of the Allied Commission as a Malaria Specialist. Seeing the possibility of obtaining a tire permit through the "doctor's" connections, she approached him with this thought in mind. The "doctor" assured her that he would look into the matter and telephone her. On 1 July 1945, MANZOTTI received a telephone call from "Dr. MICHELLE" and learned that it would be possible to obtain the permit, but that it was necessary for her to secure the serial numbers of the tires and other information regarding the car on which the tires were to be used. MANZOTTI then telephoned LUCERNONI and told him that the information requested by the "doctor" was necessary before the permit could be issued. When LUCERNONI delivered the required information, MANZOTTI told him that the permit would cost 6,000 lire per tire. MANZOTTI had also arranged a meeting with the "doctor" at which time the information concerning the car and tires would be given to him. MANZOTTI did not tell the "doctor" that she had set a price for the permit. During the early part of July 1945, the "doctor" returned the permit to MANZOTTI and several days later, VENTUCCI telephoned the woman and learned that the permit was ready for delivery. When VENTUCCI called for the permit, the woman received 52,000 lire from him. At still a later date, the "doctor" paid the woman a social visit and it was then that MANZOTTI gave the "doctor" 10,000 lire in a sealed envelope. The "doctor", according to MANZOTTI, did not wish to accept the money, which he appeared to know to be a present for having obtained the permit for her. However, he accepted the envelope and no mention was made of the money. She admitted having given LUCERNONI

0420

Declassified E.O. 12356 Section 3.3/NND No. 785021

a sum of 2,000 lire at a later date, as compensation for his services, MANZOTTI inspected the permit confiscated from FIDA and identified it, except for the erasures, as the document referred to in this report. She also identified VENTUCCI as the man whom she had previously met and as the man who wished to obtain the permit for a friend. She also identified him as the men who collected the permit from her and who paid her 32,000 lire for same. MANZOTTI was questioned several times later to establish the existence of a "Dr. MARIO MICHELLE". She gave the undersigned the address of Via Giacomo Bersolethi #8, apt. #18, as the former home of the "doctor". She also stated that he was employed by the Malaria Control Unit, Allied Commission, Littoria, Italy. These angles were checked, as explained in paragraph #7 and #8 of this report. At the time of the above questioning of MANZOTTI Federica, she had not heard from "Dr. MICHELLE". The woman could give no information as to his habits or the places where he could easily be found. She had met him for the first time in front of the Allied Commission Building, Via Veneto, Rome, during the month of June 1945. (See Enclosure #5).

6. LUCERNONI Elio fu Agostino, Via Muzio Scevola #93, Rome, was questioned on 15 September 1945 and he made a statement which, in substance, states: That he had visited an automobile agency on Via Rosella, Rome, during the months of February or March 1945, for the purpose of seeking information about the obtaining of a circulation permit for his brother-in-law. An elderly man referred him to a woman (MANZOTTI Federica) whom he said had connections with the Chamber of Commerce in Rome. LUCERNONI visited the women and conversed about circulation permits. Shortly before he departed from the women's home, she brought up the subject of tire permits and LUCERNONI understood from the conversation that if any person desired to obtain a tire permit, she was in a position to secure such a document. No mention was made of the charge for such a permit. Later, LUCERNONI met VENTUCCI, an acquaintance, and made mention of the tire permit as per the women's suggestion. LUCERNONI, a few days later, introduced VENTUCCI to MANZOTTI and left the two alone to discuss the permit offer. One day in July 1945, VENTUCCI approached LUCERNONI and gave him 3,000 lire. LUCERNONI believed the money represented a portion of the money which VENTUCCI had gotten from the sale of the permit to FIDA, but he believed that the money came from MANZOTTI Federica through VENTUCCI. He therefore, telephoned MANZOTTI to thank her, and he then learned from her that she hadn't given him the 3,000 lire. She wanted him to stop by the house where she would give him 2,000 lire as an expression of appreciation for his efforts in the tire permit deal. LUCERNONI did pay her the visit and received 2,000 lire. LUCERNONI emphasized the fact that he insisted of MANZOTTI that the permit be absolutely legal and he recalls that she assured him that it would be so. LUCERNONI felt that he was not participating in a fraudulent scheme. He stated that this occasion was the first time he indulged in such a transaction and that he did not expect to receive monetary profit of any sort. (See Enclosure #6).

7. The undersigned visited the Public Health-Malaria Control, Allied Commission, Rome, for the purpose of checking the authenticity of the attached tire permit. No record was on file to show that a "Dr. MARIO MICHELLE" was attached to the said Malaria Control Unit either in Rome or Littoria. No Italian doctor had ever been employed in any capacity with the Public Health Division of the Allied Commission. No officer by the name of MACK was known.

8. An information clerk at the Allied Commission recalled having heard of a "Dr. MARIO MICHELLE" being connected with the said Public Health Division at one time and she expressed her belief that he had been transferred to the UNRRA, Rome. A check with the Health Division, UNRRA, revealed that no "Dr. MARIO MICHELLE" was ever hired or had ever been attached to that division.

9. The Roads Division, Transportation Sub-Commission, Allied Commission, was asked whether the permit was issued in accordance with the present permit regulations of the Allied Commission. This unit had never seen such a permit issued previously and it was felt that the granting of such permits by the Public Health Division, Allied Commission, were not valid. The same information was obtained from the Public Safety Division, Allied Commission. The Malaria Control Unit stated that they had never before issued tire permits to anyone.

10. For several days, the undersigned visited various Italian municipal agencies in an effort to ascertain the identity of "Dr. MARIO MICHELLE". The Comune di Roma Anagrafe, Via del Mare, Roma, was checked to find the address of any/all persons bearing the names "MICHELLE" or "MECHELE". The addresses of about ten persons bearing such names, were visited, but no information obtained was of value to the undersigned. The Comune di Roma, Servizi Annonari, Via dell'Ara Massima di Ercole, Roma, was checked to reveal information as to whether any/all persons bearing the names of either "MICHELLE" or "MECHELE" had obtained their food rations for the last period ending in June 1945. The name of "Dr. MARIO MICHELLE", Via Giacomo Borzoletti #[illegible], apt. #18, was registered and it was learned that he had not obtained his rations for the last period. His wife, FARRANTE Terese, had reported to the ration office that she was returning to Palermo. A visit to the Via Giacomo Borzoletti address revealed the information that a man, assuming the name of "Dr. MARIO MICHELLE" had resided in Apt. #18 for about 15-20 days and they left without giving word of his removal. The portiere of the building also informed the undersigned that the Squadra Mobile had visited the premises many times, during the month of December 1944, seeking "Dr. MICHELLE". According to the portiere, the man told everyone that he was a medical doctor and on one occasion, when the "doctor" was asked his name by the portiere, he stated that a man in his position was not required to divulge his name to anyone.

11. Police records at the QUESTURA were checked for any/all records pertaining to persons assuming the name of "MICHELE" or "MICHELLE". As a result of said records, the following information was learned:

a. MECHELI Mario, son of Francesco and of Assunta Blasi, was born in Rocca di Papa, Italy.

b. He was listed as having lived at various addresses in Rome, and also in Arcireale (Sicily), c/o Massimino Maddalena.

c. MECHELI Mario has operated in Rome, Catania, Arcireale, Trieste and Bologna under the assumed names of "Dr. Mario Michele" and "Filippo Blasi" and has impersonated a professional doctor and lawyer.

12. He is known to dress elegantly and expensively and he chooses to wear clothing of conservative colors.

13. Every effort has been expended in attempting to locate this man in the areas of Rome where he was formerly known to frequent. Inquiries have been made in these areas but no signs of his presence were forthcoming. The Questura authorities have been advised of his latest criminal enterprises and their efforts to apprehend him have been increased.

CONCLUSIONS:

From the facts above recorded, it is concluded that:

a) MECHELI Mario di Francesco; MANZOTTI Federica fu Romualdo; VENTUCCI Antonio di Cosimo and FIDA Mario di Francesco did conspire to prepare, purchase or both, a fraudulent tire permit to possess Allied military tires, which were known to be illegally obtained by FIDA.

b) That, on or about 7 July 1945, MECHELI Mario, on request of MANZOTTI Federica, did prepare and present to the latter a forged tire permit, containing an official rubber stamp of the Malaria Control, A.C. Public Health and the fictitious signature of a supposed officer of that unit.

c) That, MANZOTTI Federica did present the same forged instrument to VENTUCCI Antonio, on or about 7 July 1945, for a sum of 32,000 lire, and that previous to this presentation, MANZOTTI Federica did arrange with said VENTUCCI for the payment of approximately 35,000 lire by the latter to the former, as compensation for having the permit prepared.

d) That VENTUCCI Antonio did, prior to 7 July 1945, arrange to secure a tire permit for FIDA for the sum of 50,000 lire, which was agreed upon by the latter. And that on or about 7 July 1945, the above-mentioned tire permit was delivered to FIDA by VENTUCCI and that the sum of 50,000 lire was transferred from the former to the latter.

e) That FIDA Mario, aware of the illegality of the tires for which the permit was issued, did accept the offer as made by VENTUCCI and that he did consummate his part in the conspiracy.

f) That the above accused did benefit materially or financially by the conspiracy to the extent that MECHELI received 10,000 lire from MANZOTTI: MANZOTTI received 32,000 lire from VENTUCCI: VENTUCCI received 50,000 lire from FIDA and FIDA received the false authority to possess tires which he had purchased in the blackmarket.

g) It is also concluded that LUCERNONI Elio fu Agostino did receive from VENTUCCI the sum of 3,000 lire and from MANZOTTI the sum of 2,000 lire for having made the deal possible by introduction of the various accused. However, his knowledge of the circumstances were such as to make it questionable whether he knew a fraud was being committed.

I, FIDA Mario di Francesco, Via Collazia 29, Rome, do hereby make the following statement voluntarily:

On 10 September 1945 at about 2100 hours, I was stopped in Circovallazione di Civitavecchia by American Military Police while I was unloading the baggage of three passengers from my car, a Bianchi S-9, License # Roma 84744. I had brought these three passengers and three others from Milan and Florence. With me was my partner FESTA Roberto di Giovanni, Via Flavia #42, Rome, who shares the profits of any/all trips we make as a bus service.

The Military Police examined the five tires on the vehicle and found four of them to be American. I showed them a permit which I had for the tires and they then confiscated the tires, impounded the car and held Festa and me. The police searched the suitcases of all passengers and also searched their persons.

The tire permit which I had shown the police was purchased by me from "Ventucci" for 50,000 lire on 7 July 1945. I do not know from memory his address. The tires were purchased in the blackmarket, at various times, for about 12,000 lire each. I was introduced to "Ventucci" by a friend who had told me that "Ventucci" could secure a permit for me. I had told "Ventucci" at the time I bought the permit, that I wanted only a good permit, and he stated it was perfectly legal and bonafide.

I was shown a tire permit taken from me by the Military Police, by Agent A.A. Neibert, C.I.D., on this date and I have identified it as the one and same permit which I bought from "Ventucci" on 7 July 1945. I have affixed my signature on the back of said permit as a means of identity.

The above facts are true to the best of my knowledge.

I, FESTA Roberto di Giovanni, Via Flavia #42, Rome, do hereby make the following statement voluntarily:

I have read the statement of FIDA Mario di Francesco and I verify the fact that we were driving from Milan and Florence to Circonvallazione di Civitavecchia in the car of FIDA Mario. We had six passengers whom we brought from up north (Milan and Florence). Military Police stopped us in Circonvallazione di Civitavecchia to examine the tires on the car. Inasmuch as four of the tires were American we were all taken to the Police Hqs. where we were searched and questioned.

As a partner with FIDA, I share the fares collected from all passengers, and I also share espenses.

I have been shown a tire permit issued on 7 July 1945 to FIDA by "VENTUCCI" and I recognized it as the permit bought by FIDA from "VENTUCCI" for 50,000 Lire. I have offered my signature on the reverse side of the permit as a means of identity.

I cannot add anything more to this statement.

I, VENTUCCI Antonio di Cosimo, Via Paolo Paruta 7, Rome, do make the following statement voluntarily:

I am employed by the Minister of War (It.), Precision Instrument Laboratories of the Royal Army, Rome.

During the early part of June 1945, I had occasion to converse with a LUCERNONE Elio who works where I do. He mentioned knowing an Italian woman who could secure tire permits, which would cost the holder 7000 lire per tire. That same evening I visited a garage on Via dei Reti where I met a FIDA Mario whom I knew owned a car. I told Fida what Lucernone had told me. Fida was interested and I told him that I would make a small profit on such a deal if he accepted the proposition. Fida did not object to my effort to make a profit. He then gave me a list of tire serial numbers and other data concerning the car. I took the information to Lucernone and several days later we visited the woman's house on Via Alberico II #15, Interno #10. I learned later that her name is Federica MANZOTTI fu Romualdo. The information concerning Fida's car and tires were given to the woman and I remember telling her that I wanted the permit to be good. I explained to her that good permits are issued on card forms such as I had seen in possession of other Italians who use the garage on Via dei Reti. She replied, "You can be sure the permit will be very regular and there will be nothing said of it". For about one month, telephone calls between Fida, Lucernone, the woman and myself took place concerning Fida's permit.

Finally during the early part of July 1945, I called the woman by telephone and learned that the permit was ready to be picked up. Before going to her house I visited Fida and collected 50,000 lire from him and told him that I would bring his permit to him. Previously, Lucernone wanted 3,000 lire as his share of the deal.

I then visited the woman, paid her 32,000 lire and received the permit. I then visited Lucernone and gave him 3,000 lire and finally I delivered the permit to Fida. I kept 15,000 lire for myself.

I absolutely swear that I have never taken part in any such deal concerning permits previous to or after this particular incident. It is the only such deal I have profited by.

I have seen the permit which was found in possession of Fida. It is the same one which I received from Federica Manzotti and for which I paid her 32,000.

This date, I have faced Federica Manzotti and I have identified her as the woman referred to in this statement. I have also faced Fida Mario, this date, and I have identified him as the man for whom I secured the permit and from whom I collected 50,000 lire for

I, MANZOTTI Federica fu Romualdo, Via Alberico II #15, Rome, do make the following statement voluntarily:

During the early part of June 1945, I was visited by a LUCERONE Elio, whom I had known, and was asked to secure a tire permit for a friend of his. LUCERONE knew that I visited many office buildings for the purpose of seeking work. He thought that I could be able to find a way to obtain a permit to possess Military tires. At a later date, I chanced to meet a "Dr. Mechelli" near the Allied Commission Hqs. building. I knew the doctor for some time previously. The doctor told me that he was employed by the Allied Commission as a Malaria Specialist. I asked the doctor how it was possible to secure a tire permit and he stated that he would find out whether it was possible to get me a permit.

On the 1st of July 1945, the doctor telephoned me and stated that he could secure the permit, but that he needed all data concerning the car and tires first. A few days later, LUCERONE telephoned me and I told him that he would have to supply me the information about the car and tires as stated by the doctor. LUCERONE brought me the information and I then told him that he would have to pay me 6000 lire for each tire listed on the permit. The doctor and I had set a date when he would pay me a visit to pick up the necessary information. He paid me the visit and I gave him the data. I made no mention of having suggested to LUCERONE that I wanted 6000 lire per tire.

The doctor brought the permit back to my house on about the 6th of July 1945. LUCERONE brought VENTUCCI to my house several days before the doctor returned the permit to me, for an introduction. I then learned that VENTUCCI was buying the permit for a friend of his. After received the permit from the doctor, VENTUCCI called me and I informed him that the permit was ready for. He came to my home where he paid me 32,000 lire for the permit.

At a later date, the doctor paid me a social call and I handed him 10,000 lire sealed in an envelope. He imagined it was money and at first refused. Finally he accepted the envelope and did not open it in my presence. He never brought the matter of the money up for discussion since.

I saw the permit in question, at the CID Offices on this date. I identify it as the permit issued by the doctor and it is the same permit which I changed VENTUCCI 32,000 lire for. I have affised my signature on the reverse side as identification. I paid 2,000 lire to LUCERONE as his share of the deal.

I have not participated in such a transaction concerning permits for

I, LUCERNONI Elio fu Agostino, Via Muzio Scevola 93, Rome, do make the following statement voluntarily:

One day in February or March 1945, I visited an automobile agency on Via Rasella, Rome, to seek information as to the procedure which one had to follow in obtaining a circulation permit for an automobile. An old man known as Commendatore, informed me to contact a Mrs. Manzotti of Via Alberico II #15 who knew many persons in the Chamber of Commerce. I visited Mrs. Manzotti and asked her about obtaining a circulation permit. Nothing was said of tire permits at this time. Mrs. Manzotti stated that before a circulation permit could be obtained, it would be necessary for me to obtain the title to any/all property owned by my brother. As I was leaving her home, she propositioned me with a matter concerning tire permits. She stated that if I knew anyone who needed a permit to possess military tires, she could obtain the permit. No money was ever mentioned. I left and later I mentioned the tire permit proposition to a VENTUCCI Antonio, a friend of mine. Later on, I introduced Ventucci to Mrs. Manzotti one day and I left the two together.

One day in July 1945, Ventucci gave me 3000 lire and said it was through the permit obtained that I was receiving the money. I then believed that the money was given by the woman, who had previously told me that I would receive compensation. I called the woman on the telephone to thank her and she told me to stop by her house as she had to speak with me. I did and she gave me 2000 lire.

I have not participated in any such deals prior to or after this incident. I had asked the woman whether the permit would be legal and she stated it was perfectly good. I did not believe I had done any harm.

I never saw the woman since nor have I ever contacted her since. I never saw any man in her home during the many visits I made to her home.

The above facts are true to the best of my knowledge.

Synopsis of facts:

On 31 August 1945, the Provost Marshal, Rome Area, MTOUSA, requested investigation to identify the "Capt. J.E. Crawford" who allegedly issued a fraudulent tire permit and seven military tires to COLABUCCI Ottorini Guido, an Italian civilian.

Six of the tires were confiscated by British Military Police, Rome, and the seventh was reported stolen from COLABUCCI. A check with Allied Commission authorities produced no information to show who the culprit was who issued the permit and disposed of the tires. No officer by the name of "Crawford" was known to the Allied Commission. The confiscated tires are held by the 200 Provost Co., C.M. Police (Br), Rome. No arrests were made. Case Closed.

Declassified E.O. 12356 Section 3.3/NND No. 785021

DETAILS:

1. A request from the Provost Marshal, Rome Area MTOUSA to establish the identity of the "Capt. J. E. CRAWFORD", responsible for issuing a false tire permit, was received by this office on 31 August 1945.

2. During the latter part of August 1945, the British Military Police, Rome, recovered six military tires from one COLABUCCI OTTORINI GUIDO, Via A. Faustina #27, Rome. A seventh tire alleged to have been in possession of the said Italian civilian, was reported to have been stolen from him. COLABUCCI possessed a permit for the seven tires issued by a "Capt. J. E. CRAWFORD, Capt., C.M.P., PUBLIC SAFETY DIV., REGION IV, ACC/AMG".

3. On 3 September 1945, the undersigned interrogated COLABUCCI OTTORINI GUIDO and learned that he had been approached by a man dressed in American officer clothing, during the month of April and was offered seven military tires and a circulation permit by the said officer. COLABUCCI accepted the offer and promised to pay him for the merchandise. About three days after this meeting, the same man wearing the officer's clothing came to COLABUCCI's office at Via Principe Amedeo #135, Rome, delivered the seven military tires and the permit and collected 30,000 lire for same. The man then departed and COLABUCCI never saw him since. The permit issued to COLABUCCI is attached and made a part of this report as Enclosure 1. The six recovered tires are in possession of the PROPERTY ROOM, 200 PROVOST Co., C.M. POLICE (Br)., Rome. The seventh tire is unaccounted for. Attached to and made a part of this report is the statement of COLABUCCI. (See Enclosure 2).

4. A check with the Public Safety Division, Allied Commission, was made on 4 September 1945 and a "Capt. CRAWFORD" was unknown. A further check was made with the Allied Commission Security Officer and information of a helpful nature could not be obtained. Records of the latter division were checked to discover whether any previous false permits were issued by anyone using the name "CRAWFORD". No assistance could be obtained through this check.

5. The Transportation Sub-Commission, Roads Section, Allied Commission, was checked on 5 September 1945 and no information of a helpful nature could be obtained. Other forged permits, on file in that section, were compared to ascertain whether any/all had any possible connection with one another. Signatures and typing characteristics differed on each and every false permit. Inquiry produced no information regarding a "Capt., CRAWFORD" as having been a member of the Allied Commission in Rome.

6. Samples of all typewriters formerly maintained by Region IV, ACC/AMG were taken to ascertain whether any could have been used in typing the false permit. None could be found whose type matched the type of the one which was used in producing the forged instrument. It was learned that all typewriters but one, formerly used by Region

1999

0435

IV, were accounted for. The missing machine, a Continental, Serial No. 15272, was lost and written off by the Allied Commission. No other Continental typewriter could be found to ascertain the characteristics of the type of such a machine.

7. The Allied Commission Archives was checked mainly to study the signatures and the handwriting on various documents formerly in the files of Region IV. This section possessed all records and office equipment of Region IV which had been disbanded during the latter part of March 1945. Nothing of value could be found to assist in the completion of this case.

8. The various sections of the Allied Commission, which handle tires and permits, were carefully checked, but nothing of value could be obtained which would assist in establishing the identity of "Capt., CRAWFORD" or the origin of the permit issued to COLABUCCI. It was noted that the word "tires" in the fraudulent permit is spelled "tyres". The British use this spelling in all documents and permits pertaining to tires. It was felt that perhaps the permit was prepared by a man of British extraction, possibly impersonating an American officer.

CONCLUSIONS:

From the facts recorded above, it is concluded that:

a) The attached permit for seven tires is fraudulent in all it's phases.

b) That no information can be obtained to show the person/ persons responsible for the preparation of the document or for the illegal issue of the military property involved.

TRANSLATION

On this 7th day of September 1945, in the American C.I.D. offices, R. Questura of Rome, has appeared Mr. COLABUCCI Ottorino Guido, son of the late Augusto and of the late Ramaci Anna, resident in Rome, Via Anna Faustina #27, 53 years of age, industrialist by profession, who voluntarily makes the following statement:

During the month of last April, while I was riding on Via del Mare, in the vicinity of the small temple that is situated in said street, a tire of my "Lancia Lambda" automobile blew out and therefore I stopped to change it. While I was doing this, I was approached by an American service man, who wore two golden towers on one side of his collar. He friendly asked me what had happened. I was a little angry and I replied that I was tired to ride the automobile with tires in very bad condition. The said American offered his services to let me obtain seven American tires with a circulation permit. I immediately made him understand that I should pay him at the delivery of all that he had promised to me.

About three days later, the above-mentioned American came to my office, located in Via Principe Amedeo #135, with seven complete tires and the circulation permit. I asked him to give me a receipt but he replied that the permit was sufficient as there was one of its paragraphs which proved my legal possession of the said tires, which were delivered to me for my use and not as my property. I paid 30,000 lire to him, upon his request.

About two weeks ago I was stopped by the British Police, who had some doubts about the validity of my permit. I was taken to the Headquarters of Via della Pilotta, where I was immediately released, giving my word that I would have personally brought back the automobile and the permit, as soon as they needed them.

Last Friday, two American C.I.D. Agents came to my house and questioned me in regard to the above facts. Then they told me that they wanted a written statement from me.

I am not able to give any better information about American service man who furnished me with the tires and with the permit.

I have nothing else to add.

Read, confirmed and subscribed.

SUBJECT: Circulation permit with tires of the Allied Military Government

The Italian authorities declined to acknowledge the validity of the annexed circulation permit with tires of the AMG; such a permit having been delivered to us by Major Thomas R.Fisher, concerning a motor-car requisitioned and put at disposal of our office.

Major Fisher delivered us this permit in consideration of the special needs arising from the work that our Office must carry out, and owing to the fact that no Italian made tires are to be found at present on the market.

Therefore we would feel obliged for your kind interest in asking the Transportation Sub-Commission to deliver us the definite permit, pursuant to that delivered to us by the Allied officer, Major Fisher.

We have informed the local Authorities that we are going to do so, because they are threatening to seize the tires unless we are able to exhibit the definite permit, which we are asking for with the present letter.

With our kind regards, we beg to remain, Mr.Braine,

Yours faithfully

OGGETTO: Permesso di circolazione con gomme del Governo Militare Alleato -

Le Autorità Italiane non hanno voluto riconoscere l'allegato permesso di circolazione con gomme del governo militare alleato, concessoci dal Major Thomas R.Fisher per l'automezzo requisito e a disposizione del nostro Ufficio.

Il maggiore Fisher ci fece tale concessione per la necessità del lavoro che deve svolgere questo Ufficio, dato che non si trovano sul mercato le gomme italiane.

Preghiamo pertanto la cortesia della S.V. affinchè voglia interessare la Transportation Sub Commission,per il rilascio del permesso definitivo a seguito di quello rilasciatoci dall'Ufficiale Alleato.

In tal senso sono state informate le Autorità locali, le quali subordinano il sequestro delle gomme alla consegna, da parte nostra, del permesso definitivo che con la presente si richiede.

Voglia gradire, Mr.Braine, i nostri distinti saluti.

N. 150 Terni 24 Aug 45

To : Allied Commission - Rome -

Subject : Renewal of Permit

This "Opera Pia Pubblica Assistenza" informs you of the following:

After having lost its permit, N. 117, to utilize Allied tires, it made present to the R.A.C.I. of Terni that it could not show said permit for its renewal and gave (letter attached N. 1) all the necessary data in regard.

The R A C I refusing the temporary permit answered with letter N. 226 (letter attached N.2)

Having a chauffeur of this organization found the document, it was shown to the R A C I but it was not accepted because it had fallen due, and we were advised by the Director of the R A C I to send it directly to the Allied Commission for the renewal.

In sending you the request we beg you to grant the renewal authorizing to use Allied tires. If it were denied us, this Organization would find it necessary to stop its service of first aid and of transporting sick persons, a thing of great importance to an industrial city like Terni where only our Public Assistance has such a charge for the benefit of the population -

Sure of your help we thank you sincerely

The Secretary

TO :Vice President-Establishment Sect/
Att: Lt.Col.Hodgson

1. Reference G-1 B/16120/896/1/0/ of 28 August '45.

2. It is impossible to declare that the issue of permits for the use of W.D.tires of unlawful origin has not been made by any Office or Officers of AC/AMG-Rome .

3. On the contrary,it is possible and probable that quite a few permits have been issued by Officers who were unauthorized to do so and who made little effort to trace the origin of the tires concerned .

4. It can be stated that specific instructions have been issued by this Sub-Commission prohibiting the validation of improperly procured tires and delineating AC/AMG authority with respect to tire control and / or sale .

5. If the statement attributed to Capt.W.T.Pyper in Para 2 of Capt.W.G.Stuart's explanatory letter (attached) was true, such issues were made in Region IV without permission of or reference to this Headquarters.

SUBJECT: Request for tire permit.

TO : Lt. Col. McSweeney,

Lt. Col. John McSweeney

1. There is no indication on the document presented where the tires came from, whether or not the source was authorized to issue, and the original issue data does not contain the tire numbers of the original release.

2. Unless you are prepared to indorse this request to the effect that these specific tires were salvage released through Public Health Sub-Commission for use by this organization for welfare purposes, we have no authority to validate the present use or possession.

3. AFHQ is completely explicit in demanding proof of the legal origin of all tires in use by civilians and court martial proceedings are in progress now against individuals who have permitted the use of illegally procured tires. The services rendered by the tire owners has no bearing on the actions being taken.

4. If this can be cleared as per para 2 I shall be glad to issue the permit; otherwise there is no alternative but to return the tires and attempt to replace them through normal distribution channels of the Italian Government.

1. Reference attached correspondence received from the American Embassy, regarding the requisition of a truck belonging to Mr. Alberico Boncompagni.

2. The truck in question was impounded by the British Military Police because its three tires were of Allied manufacture. It has been checked with the Road Section of Transportation Sub-Commission and found that this size tire is very definitely of pre-war make, and was manufactured in the United States only for Italian trade. In view of this, the Military Police seem to have over-stepped their bounds, and confiscated a vehicle which they legally have no authority to.

3. It is therefore requested that the Military Police in question be contacted and requested to release the truck back to the owner.
