Subject: Civilian Use of W.D. tyres.

We are given to understand Signor Paolo MUREDDU a director of the firm of INDUSTRIA MOLE ABRASIVA, Rome, has been stopped while travelling in Fiat Ballila 5344o, Rome, which has been detained by the American Police at Civitavecchia on account of not being in possession of the proper authority for using W.D. tyres.

The matter has been investigated by this office and we are informed, by the firm that the tyres in question were originally left behind on the factory premises during the German retreat from Rome and we have no reason to doubt this state ment as in due course the firm declared these stores to H.Q., A.C.C. and applied for permission to use them, as they were their and still continue to be employed 100% on W.D. Contracts placed by this office. It appears from the attached copy letter the neces sary authority was given and this document has been accepted on numerous occasions by various Police checks since last Sep tember as being satisfactory.

We are able to confirm that this contractor is en gaged on very large contracts placed by this office and the car in question, being their only one at present, is indispensable for their needs as they are trying to obtain raw materials which are not available through normal military channels.

Efforts are being made by the H.Q. of this unit to obtain new tyres for the firm from A.F.H.Q., from whom instruc [illegible] referred to are received.
