1. It is desired to bring you up to date regarding the 5,000 ton lift notified you as being approved in our T-11 of 22 February.

2. Attached is "Approved Shipping Program" SFLLS 014 (19 Feb 45). The controlled vehicles (Items 1 & 2) were called forward in signal FX 37529 of 4 March, repeated to you. A total of 3,000 tons is being called forward for May arrival. This call forward will include all of Item 4 in 'I' Period and 267 vehicles, enumerated in Item 5, in 'J' Period. There is a possibility of 500 new 4-ton trucks being available ex-PERSIAN GULF. It is desired to substitute these vehicles for all of Item 3 and 233 vehicles in Item 5. Call forward for the 3,000 ton lift will be repeated to you and you will be advised of action taken regarding the remaining 2,000 tons.

3. All of the 1,700 vehicles previously approved have been called forward, except 66. Call forward for these vehicles was withheld pending advice as to availability of six month's spare parts. You were furnished a copy of "Approved Shipping Program" SFLLS 014 (5 Feb 45), indicating that spare parts for these 66 vehicles will be available February thru October 1945. CCAC have since informed us that there are now 138 cases of spare parts immediately available and that they are unable to give a more definite availability for the remainder. Consequently, these 66 vehicles and spare parts as available are now being called forward from the U.S. Call forward will be repeated to you.
