REF :- N° 7357

SUBJECT :- Allied Military personnel - Truck Pools -
Acknowledgement of service .

The operations for handing over to the Italian Government Truck Pools in Foggia, Campobasso, Aquila, Chieti, Taranto, Pescara, Ascoli Piceno, Macerata, Ancona and Pesaro, have now been successfully concluded .

These organizations after transfer to the Italian Government continue to operate as they used to in the past, and fulfil with considerable efficiency their appointed tasks concerning the satisfaction of outstanding local needs for food supply and the rehabilitation of the country just as the Allied intended and practised .

I now feel the particular need of expressing a very hearty word of praise to the following Officers of the Allied Commission who were responsible for the installation, the organization and the very efficient operation of the a/w Truck Pools :

Major Harry DOWNER Inf. O - 360942
First Lieut. Lionel L. CLARK F.A. O - 1176577
First Lieut. James B. HOWELL, T.O. O - 1582378

The a/w Officers distinguished themselves in setting up and operating the Truck Pools and showed a high competence and proficiency, and a clear and sympathetic understanding of the needs of primary and fundamental importance for those regions and areas which having been damaged by the war, had remained at first all but deprived of all means of transport and communication

A similar sign of praise is to be conferred on them for the operations of transferring the Truck Pools to the Italian Government, for which they have given their efficient assistance thus facilitating the said operations for the representatives

of the Italian Government, by surmounting and smoothing out all difficulties arising from the transfer of vehicles and management.

It is also my privilege to point out to your Commission the names of the following N.C.O.s. and O.R.s. who have cooperated under Allied Officers, to the organization and operation of Truck Pools and to the subsequent turning over, and by their activity and experience have considerably contributed to their success.

T/ Sgt	Lewis F. GELSOMINO	32340515
S/ Sgt	Marshall E. RUSCETTI	33409538
T/5	Frank TRENTACOSTE	32572009
Pfc	Thomas FANTRY	32598019
Sgt	Henry C. DIAZ	13145022

7028

Finally I wish to point out in a special manner the activity and cooperation which Capt. D.P. RICHARDSON Infantry O - 419406 gave to the Italian Government with good will, proficiency and particular sensibility to and understanding of our requirements.

Besides the work of setting up and operating Truck Pools the said Officer has facilitated in a really praiseworthy way the work of Government Representatives and has supplied a personal contribution to the clearing up of various difficulties and to the success of the operations.

SUBJECT: Highway Maintenance Equipment - Trucks

TO : Headquarters, Allied Commission, APO 394
(Attn: Transportation Sub-Commission)

1. Fifty 3 ton lorries^(over), classified as repairable vehicles only, are immediately available from British theatre stocks.
2. If these trucks are desired by AC, this section will attempt to have them released against item 15 of MGS-180-ENG. Item 15 was assigned as UK supply responsibility, but UK has been unable to make available any of the required 170 dump trucks. In view of this non-availability and the termination of military responsibility for civilian supply there is now no possibility of meeting item 15 of MGS-180-ENG with dump trucks.
3. Dump trucks available from US sources are being offered to AC against the recently authorized 20,000 ton lift. This is explained in our letter H-2 of 5 September, subject: Highway Maintenance Equipment - Dump Trucks.
4. Your attention is drawn to AC request for 50 trucks as item 6 of Allied Commission requisition AC-ENG-4-46 of 1 Aug., on which request this section is unable to take action, and to our letter H-2 of 4 Sept. 1945, subject: Highway Maintenance Equipment.
5. Please advise whether the fifty repairable trucks are desired by the Allied Commission.

1. It is not deemed advisable to accept the transfer of fifty 3 ton lorries classed as repairable as previous experience with this type vehicle has not proven satisfactory. The critical shortage of repair parts prohibits our placing them in operatable condition.

2. It was our desire that the dump trucks from American sources be made available directly to the Sub-Commission but from information contained in the above mentioned letter this is impossible. Please be advised that it is satisfactory with this Sub-Commission for the dump trucks to be included in the 20,000 ton lift recently authorized.

REF :- AC/355/3/Tn5 8 September 1945
SUBJECT :- DUMP TRUCKS
TO :- G-5 Section, Allied Force Headquarters
APO 512 - (Att: Maj. Grady)

Reference your H-2 of 5 September 1945 .

1. It is not desired that the subject trucks be released as a portion of the 20,000-ton lift .
2. The specialized operations for which the dump trucks were requisitioned are in no way related to the lift requirements now being met by sale of vehicles from U.S. theatre stocks.
3. Public Works and Utilities Sub-Commission concurs in the request that their requisition (AC-ENG-4-46) in so far as this item is concerned be filled separately.

SUBJECT: Highway Maintenance Equipment - Dump Trucks

TO : Headquarters, Allied Commission, APO 324
(Attn: Economic Section)

1. This is further to our letter H-2 of 4 Sept and refers to requisition AC-382-4-46 of 1 Aug.
2. There are at present 25 trucks, 2 1/2 ton 6 x 6, dump, in Class C3 condition in U.S. depot stocks. These can be released immediately. The remainder of the 300 requested in AC-382-4-41 can be made available between 15 September and 15 October by withdrawal from US Army units at present operating in the theater.
3. No special allocations will be requested for the sale of these 300 dump trucks to the Italian Government, but if so desired this Section will request that they be transferred as a part of the 20,000 ton roadworthy lift now being released from US theater stocks.
4. Request you advise as to whether these vehicles are desired for release as a portion of the allocation of a 20,000 ton roadworthy lift.

OGGETTO:

Subject: Liguria- Provincial Consorzi
Motortransports - Transfer to
Italian Government.

The Ispettorato Motorizzazione Civile of Genova, with a report dated 18/8/1945 N.821 PR, informs that in the first fortnight of September the Regional Officer of Trasports intends to deliver, as ENAC Organization, the present four Consorzi Provincial-civilian motortransport, until the present time under the direct management of A.M.G.

It is necessary for us to know if the vehicles of the Consorzi are Allied property or requisitioned. However, it is understood that the present organization of ENAC in Center-Southern of Italy, does not include the direct management of the vehicles, and moreover, it is not foreseen in the near future reformation of ENAC.

Therefore, an early reply would be appreciated, as to the Consorzi and their transfer to the Italian Government.

L'Ispettorato della Motorizzazione Civile di Genova con rapporto 18/8/1945 n. 821 PR informa che nella prima quindicina di Settembre l'Ufficiale alleato Regionale dei Trasporti intende consegnare quale Organizzazione ENAC attuali quattro consorzi provinciali automezzi civili finora gestiti direttamente A.M.G.

Occorrerebbe conoscere se autoveicoli detti Consorzi siano o meno di proprietà alleata oppure requisiti. Comunque si fa presente che l'attuale organizzazione ENAC svolta nell'Italia Centro-Meridionale non comprende la gestione diretta degli autoveicoli e che la riforma ENAC, di prossima attuazione

Ciò premesso si gradirebbe avere con urgenza precise notizie in merito ai consorzi in parola ed alla loro cessione al Governo Italiano.

"PROTEST OF TRUCK-CONTRACTORS AGAINST THE ESTABLISHMENT OF BODIES
OUTSIDE OF THE INTERESTS OF THEIR GROUP".

In the offices of the Unione degli Industriali della Provincia di Genova, the following persons met to discuss important problems connected with the truck-transporters' group:

G.B. Canepa, Vice Sindaco of Genoa; Dott. Gian Franco Bò, C.S.M. 6a Zona, assisted by Sannia of the Cooperative di Trasporto Partigiane; Dott. Mario Lemondini, Director of Local U.M.G.; Dott. Roberto Vallarino of the Ente Comunale Trasporti; Mario Baiardo in representation of G-2 Group; Mr. Litta and Mr. Barabino in representation of minor groups; Dott. De Franceschi of the Camera del Lavoro.

The persons present at this meeting, have deliberated to issue the following Order of the Day:

" Having been informed that a quantity of 400 to 500 trucks have been assigned to Genoa by the Allied Military Government, of which about 100 trucks have now arrived, that these trucks will be later assigned to the Italian Authority; having understood that a new Body should be about to be established to operate the said trucks; in consideration of the fact that in Genoa and province a large number of transportation concerns are established, which may be considered fully dependable from the Italian Authorities, and that many of these concerns have suffered very remarkable damage on account of the war, including the requisition of their motor-vehicles; in consideration of the fact that many of the aforesaid requisitions were made in the name of the Regio Governo to whom now the Allied Authorities are about to assign new motor vehicles for civilian use; are herewith protesting against the institution of Bodies of any kind outside of the interest of this Group; these Bodies, whose aims though being those to contribute eventual benefits to the complicated question of problems of a general character, are now overrunning, if not suppressing the old transporters, who, if properly equipped, might, in view of their experience and proved capacity, use in a more profitable manner, in the general interest, the precious equipment furnished by the Allies; the persons present at this meeting, accordingly, look forward in a hopeful expectation to the institution of

SUBJECT: LIGURIA - Provincial Truck Pools- Hand-Over to
Italian Government

The Inspectorate of Civil Motorization in GENOVA, by their report 18/8/1945 L+ 821 P.R. inform that during the first fortnight of September the Allied Regional Transportation Officer intends handing over, as working ENAC concerns, four provincial Civilian Truck Pools, operated up to now directly by A.M.P.

It would be necessary to know whether the motor vehicles of the a/m Truck Pools are Allied property or requisitioned vehicles. However it is pointed out that the present ENAC organization, as operating in Central and Southern Italy does not comprise the direct operation of trucks and the reform of ENAC which will be shortly enacted, does not provide for direct operation of haulage by trucks.

More detailed news concerning the Truck Pools in question and their hand-over to the Italian Government are urgently required.

Approval in CAL 1477 dated 22 August to release sufficient vehicles to produce 20 thousand tons of roadworthy lift regardless of size of vehicles is subject. Request information be obtained from Italian government to indicate breakdown to type of lift desired. Show proportion of tonnage desired in each of the following categories; proportion of tonnage in each category should coincide roughly with the broad estimates of percentage availability shown in column 2; light passenger vehicles similar to 1/4 ton and 3/4 ton C and R, 5 percent; light cargo vehicles such as 3/4 ton WC and 1 1/2 ton cargo, 15 percent; heavy cargo vehicles 2 1/2 ton capacity and above, 4 percent; tractor-trailer combinations, 10 percent; trailers 1/4 ton and 1 ton cargo 23 percent; dump trucks, 5 percent; ambulances, 3/4 ton, 2 percent. Submit above by 10 September.

As required and subject to availability up to 50 percent above authorized tonnage is allowed in unserviceable vehicles to permit cannibalization to produce roadworthy lift.

You will continue to take over and guard these vehicles when delivered by FENBASE as agreed pursuant to 4011 dated 21 August current.

Related subject: CAL 1477 also authorizes release against above commitment, vehicles of all sizes. Instructions in paragraph 2, PX 36580 which limit type vehicle to 2-1/2 ton and larger capacity is superceded

1. Approval has been received from CC/S to transfer to Italian Govt sufficient US military vehicle so that 20000 ton roadworthy lift will result through utilization of Italian manufacturing and maintenance facilities.

2. In order to provide sufficient vehicles to create road-worthy lift of 2,0000 (two zero zero zero zero) tons, the computations will be made on rated capacity and not 150 percent rated capacity as was previously authorized as computation factor. The reduction in rated capacity will allow approx 50 percent additional equipment to be turned over, which can be utilized for cannibalization for necessary spare parts to support the rated lift.

3. US military vehicles have a lift capacity 100 percent greater than rated capacity.

4. Vehicles in the category will be progressively in better condition.

1. Reference above subject and telephone conversation 13 April 1945 (Maj. Grady- Lt.Col.Quartier) reference AC requisition for Allied Military vehicles now operating on loan to AC as essential supply carriers.

2. It is desired to transfer these vehicles to the Italian Government when Allied officers are withdrawn from the areas concerned, as withdrawal of the vehicles would result in collapse of the Supply Services.

3. AGWAR telegram 8 Feb 1945, Ref. 34123 and LAC Airgram 108, 10 Mar 1945 apply but Maj.Grady advised no reply to latter has been received and suggested holding requisition pending instructions it may contain.

4. Because removal of these trucks may result in a break down of distribution of essential supplies and because until this transfer is accomplished it is impossible to withdraw truck pool officers from regions being returned to control of the Italian Government, it is urgent decision to LAC Airgram 108 be secured soonest, and AC be advised now transfer said vehicles to Italian Government.
