SPARE PARTS TO ITALIAN
JUL 1945 - FEB 1946 GOVERNMENT

Tel: Rome 843040/49
Extn. 26

AR/MCD
Our Ref: Q-11

Chief Disposals Officer (Italy),
Surplus Stores Division,
Ministry of Supply,
British Embassy, 650
R O M E
APO-CMF

9th February, 1946 15.9.7

To: Chief Commissioner,
Headquarters Allied Commission,
Transportation and Shipping
Sub-Commission,
C. A. F.

Subject: M.T. Spares for the Italian
Government

Reference your AC/370/23/Tn.5 of the 23rd January, 1946, addressed to A.D.O.S., R.A.A.C. (copy to this Office) on the subject of the provision of M.T. Spares for the Italian Government - your Paragraph 3 - the object of this Mission is solely for the transfer of surplus service materials to the Italian Government, as they are declared by various heads of Services at G.H.Q., C.M.F. This Mission has no organisation with which to contract sales of specialised materials to the Italian Government for their maintenance needs.

It is suggested that the only method by which the transportation authorities of the Italian Government can obtain their stores, is to secure them through the Offices of the Italian Government agency, who are responsible for the acceptance of surpluses. The address of this organisation is as follows:-

A.R.A.R.,
(Azienda Rilievo Alienazione
Residui),
Via Ludovico, 16,
R O M A

and it is strongly recommended that the Italian Ministry of Transport contacts A.R.A.R. with a view to fulfilling their needs.

REF :- AC/370/23/Tn5
SUBJECT :- M.T.Spare for
Italian Government
TO :- A.D.O.S. , R.A.A.C.

23 JANUARY 1946

1.- Confirming telephone conversation of this morning (your Chief Clerk / Capt. Billinghamurst) and referring to A.F.H.Q. message No C 15366 dated 21st January 1946 .

2.- As stated in our AC/370/Tn5/1 dated 31 December 1945 (copy attached) Allied Commission no longer have the machinery for selling articles of W.D. origin to the Italian Government.

3.- In view of the fact that further spares are being issued for the Italian Government it is suggested that the only channel through which these can be sold now, is the British Ministry of Supply and it is therefore requested that you contact them .

4.- The procedure followed by this office previously was as follows :

a) On advice from 557 B.O.D. that the stores were awaiting collection arrangements were made with the Italian Ministry of Transport Official concerned (Prof. Ing. Ugo Vallecchi of the Gestione Raggruppamenti Autocarri, Italian Ministry of Transport, Telephone Rome 884327) for his representative to meet our representative to check the cases of stores and for our representative to obtain a temporary receipt . The cases were then collected by Italian Maintenance Group .

4.- The procedure followed by this office previously was as follows :

a) On advice from 557 B.O.D. that the stores were awaiting collection arrangements were made with the Italian Ministry of Transport Official concerned (Prof. Ing. Ugo Vallecchi of the Gestione Raggruppamenti Autocarri, Italian Ministry of Transport, Telephone Rome 884327) for his representative to meet our representative to check the cases of stores and for our representative to obtain a temporary receipt . The cases were then collected by Italian Maintenance Group .

b) The Italian Maintenance Group checked all articles received against Ordnance Vouchers and forwarded green copies to his Office.

c) Shipping Tickets in sextuplicate were then prepared from the green copies for Italian Government signature.

d) When the Shipping Tickets had been receipted by the Italian Government, the green copies of Ordnance Vouchers were signed by us and returned to Ordnance . The Italian Government retained one copy of Shipping

./

Tickets .

e) Finally, Shipping Tickets were priced by Ordnance and a charge made against the Italian Government .

20 Dec. 1945

SUBJECT: Procurement procedure for G.R.A. requirements.

TO : Prof. Eng. Ugo Vallecchi, G.R.A.,
Italian Ministry of Transport.

1. Central Agency for the receipt of all surplus property released by both U.S. and U.K. is the A.R.A.R. operating under Eng. Solari's office in the Italian Ministry of Reconstruction.

2. Neither the U.S. nor U.K. surplus disposal authorities will deal with any private or governmental organization other than that indicated above.

3. Units, such as the G.R.A., which are vitally interested in the material being released must maintain close liaison with Eng. Solari's office and arrange to check surplus property catalogues immediately upon their being posted to A.R.A.R.

4. Complete availability lists of supplies to be sold by the U.S. are in Eng. Solari's hands. Any information, not available at A.R.A.R., re U.K. items to be offered may be obtained from the British Surplus Disposals Office. (Col. Fry is the Chief Disposal Officer and he is located at the Ministry of Supply. tel. 843241 ex. 27)

5. Employment of spares and tires received is an internal concern of the Italian Government and since the receiving branch for surplus property operates under the Ministry of Reconstruction priority releases of items required by the G.R.A. should be by agreement between said Ministry and the Ministry of Transport.

6. Before new indents are presented it must be ascertained that material requested is not carried on the surplus list.

7. Indents for requirements which cannot be met from surplus property releases must carry the approval indorsement of the Ministry of Reconstruction and a statement from the Ministry of Finance to the effect that they authorize expenditure of the Italian dollar or sterling credits to cover.

8. It is reiterated that indents submitted with the statement that G.R.A. is prepared to pay from autonomous funds cannot be accepted since only the Italian Government is authorized to purchase as per para 7. The manner of utilization of said G.R.A. funds to reimburse the Italian Government for credits expended on behalf of the Transport Group is purely a matter to be coordinated with the Ministry of Finance.

Warner G. Peterson
 WARNER G. PETERSON

Transportation and Shipping Sub-Commission

Prot.N. AC/370/17/Tn.5

20 Dicembre 1945

OCCORRENZA : Procedura per il rifornimento dei
bisogni del G.R.A.

AL : Prof. Ing. Ugo Vallecchi, G.R.A.
Ministero dei Trasporti, Roma.

1. L'A.R.A.R., funzionante agli ordini dell'ufficio dell'Ing. Solari, presso il Ministero Italiano della Ricostruzione, e' l'ente centrale che riceve tutti i materiali residuati (surplus property) ceduti sia dagli Stati Uniti d'America che dalla Gran Bretagna.
2. La autorità preposta all'alienazione dei residuati sia degli S.U.A. che della G.B. non tratteranno con alcun organismo, privato o governativo, che non sia quello sopra indicato.
3. Gli Enti che, come la G.R.A., siano vivamente interessati al materiale che si viene cedendo, debbono mantenere in stretto contatto con l'ufficio dell'Ing. Solari e farsi autorizzare a verificare i cataloghi dei residuati non appena inviati all'A.R.A.R.
4. Gli elenchi completi dei materiali in vendita da parte degli S.U.A. sono in possesso dell'Ing. Solari. Tutte le informazioni riguardanti gli articoli offerti dalla G.B., che l'A.R.A.R. non sia in grado di fornire, potranno essere ottenute dal British Surplus Disposal Office (il Col. Fry e' Chief Disposal Officer, e si trova al Ministry of Surplus, tel. 643341 - interno 27).
5. L'impiego dei ricambi e delle gomme ricevute e' questione interna che riguarda il Governo Italiano, e poiche' l'Ente ricevente i materiali residuati funziona alle dipendenze del Ministero della Ricostruzione, la precedenza nella cessione dei materiali richiesti dalla G.R.A. dovra' essere concordata tra detto Ministero e il Ministero dei Trasporti.
6. Prima di presentare nuove richieste si dovra' verificare che il materiale richiesto non sia incluso negli elenchi dei residuati (surplus).
7. Le richieste dei materiali che non possono venire evase mediante cessione dei residuati (surplus property) debbono recare in calce l'approvazione del Ministero della Ricostruzione, e una dichiarazione del Ministero delle Finanze autorizzante la relativa spesa sui crediti italiani in dollari o sterline.

8. Si ripete che le richieste portanti la dichiarazione che la G.R.A. e' disposta a pagare con fondi propri non possono essere accettate poiche', conformemente al paragrafo 7, solo il Governo Italiano e' autorizzato ad acquistare. Il modo di utilizzare i suddetti fondi della G.R.A. per rimborsare al Governo Italiano i crediti spesi a favore del Gruppo Trasporti e' puramente questione da concordarsi col Ministero delle Finanze.

OGGETTO

TO: Mister FRANKLIN
Chief of Road Division
Transportation Sub-Commission
- Allied Commission -

- R O M E -

Via Veneto -

1. - As the A.C. knows, since last July have been ceded to the Italian Government, by the Allied Military Command more than 3000 motorcars of English and American origin, which have been grouped and which are already in function in numerous Truck Pools in the Center, South and North of Italy.
This organization has been created by the A.C. for the purpose to integrate efficiently the insufficient means of transport existing in the various Italian regions and to provide the alimentary supply of the most beaten zones, far from the railway centers and without any means of conjunction, which are indispensable to insure the life of the population.
2. - In order not diminish the efficiency of the organization, the competent offices of the A.C. have well assisted the work of this Ministry, helping us in the most possible manner and putting at disposal of this Group the various material of supply. The vastity of the complex however includes a not indifferent usury especially in the supply of spare parts and tires and the retarded shipment of them in the last six months, while they should have arrived from America, has put this Ministry in great difficulties, especially for the supply of tires with this immediate consequence of an increasing inefficiency of a very large number of vehicles.
3. - The preoccupying situation of the alimentation of our country has provoked the prompt shipment from America of about

260.000 tons of grain and when this will arrive in Italy in the most critical moment, it wants an immediate and quickest distribution in every town and village, what makes it indispensable to have the largest disposal of efficient means of transport, ready to complete the work of assistance.

4. - For the consideration it is very urgent to seize and to resolve in any manner the problem of tire supply which must cover the want of 11.000 pieces as follows/

1000	items of	10.00 x 24
7000	" "	7.50 x 20
2500	" "	10.50 x 16
500	" "	6.00 x 16

This quantity has been requested for the consumption in the last six months, in which epoch has been no supply or substitution of tires. It is useless to describe all the difficulties we had, adaptabilities, reparations, outfittings etc. in order to use at the utmost human possibility all pneumatics of the first dotation, of which many had been already in very bad conditions.

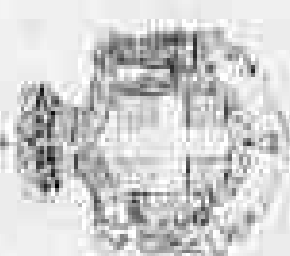

5. - As it is known, the A.R.A.R. (Center for the Relief of alienation of war-residuaries) that has been constituted lately, is in possession of a certain quantity of tires, but the tentative to get the assignment has been without result, because the distribution of the material in possession of the A.R.A.R., has not yet been efficiently organized and as the prices sometimes have not been fixed by the A.C., they do not allow to the new managers to fix the right quotation, which could be accepted by us, with regard above all the diminished loading possibility of our motorcars, which fact has a noticeable influence on the balance of our Group.

6. - For all above mentioned motives it is necessary a direct intervention of the A.C., whom we beg to make us, if possible, a right quotation which could be accepted by us, with a direct consignment of the said pneumatics.

It is our lively desire for the case of acquirements, that it be the A.C., who fixes these quotations and we are sure that the respective Offices will consider the dramatical situation of our country. Awaiting a kind sign of adhesion of our demand with the eventual indication of the various modalities for the said purchases.

TO WHOM IT MAY CONCERN

Italian Ministry of Transports, in agreement with Italian Ministry of Treasure, provided this Organization (G.R.A.) with autonomous and sufficient funds to purchase in Italy spare parts and supply material (tires, fuel, lubricant etc.)

Therefore this G.R.A., with the present declaration, binds itself, according to the laws, to pay, ready cash, all the automotive material requisitioned on purchase from Allied Commission, without further authorization or any other formal proceedings.

This is stated for Allied Commission information and rule.

Ref: 8-19

1 December 1945

SUBJECT: Motor Transport for the ITALIAN Government

TO : Headquarters, Allied Commission, APO 394
(Attn: Communication Sub-Commission)

Reference your T.25.45.03 dated 18 October.

1. The 75 vehicles involved have now been sold to the ITALIAN Government under CAL 1396 dated 11 June and the supply of spare parts from military stocks is, therefore, no longer a military responsibility. The arrangements for the provision of spare parts outlined in our 8-19 dated 21 May no longer applies therefore.
2. The same thing applies in the case of 154 vehicles and 18 motor-cycles sold to the ITALIAN Government under GHS/SC70/6/Q(AB) dated 6 October.
3. It is pointed out that these vehicles were not released for the maintenance of military lines but for the maintenance of civilian lines carrying military traffic.
4. Spare parts for all the vehicles referred to in paras 1 and 2 above should be provided by the ITALIAN Government from their own sources. A number of low classification vehicles are being purchased by them from the Chief Disposal Officer, Ministry of Supply, for cannibalization purposes and it should be possible to obtain a full scaling of spare parts from this source.
5. If you have any difficulty over the question of obtaining spare parts it is suggested that you communicate with the Economic Section of the Allied Commission, whose Transportation Sub-Commission should be fully aware of the arrangements pertaining for the supply of spare parts by the ITALIAN Government.

MINISTRY OF RECONSTRUCTION

ROME

Rome 13 November 1945

Prot. 1207

SUBJECT : Spare parts for trucks.

TO : Allied Commission, Economic Section, Rome.

1. Italian Ministry of Transports, on agreement with Road Division (Mr. Franklin), deemed necessary to give Italian Ministry of Transports a certain number of spare parts for American made trucks to be purchased in America.

2. We beg the Commission to examine possibilities to take said action in Washington, and if possible, to communicate the modalities to be followed.

3. If the Commission too deems it necessary, this Ministry has no difficulties to have the purchase sent to Washington, accepting the debt on YF account.

4. The list of spare parts is at Road Division which can give all informations wanted for decision.

5. We have the same need for spare parts for a group of 800 trucks handed over by British Agencies. Mr. Franklin recognized the necessity to put in requisitions for them and a list is being made. We would appreciate to know, for this supply too, the easiest way to be followed by Italian Government.

GENERAL SECRETARY

1372

TO : Allied Commission, Economic Section, Rome.

1. Italian Ministry of Transports, on agreement with Road Division (Mr. Franklin), deemed necessary to give Italian Ministry of Transports a certain number of spare parts for American made trucks to be purchased in America.

2. We beg the Commission to examine possibilities to take said action in Washington, and if possible, to communicate the modalities to be followed.

Subject:- Transfer of Vehicles
to Italian Government

GENERAL HEADQUARTERS CMT
Tele No. Freedom 124
GHQ/8070/5/Q(AE)
15 Nov 45

Ord Directorate

Reference this HQ letters 8070/5/Q(AE) dated 5 and
15 Nov.

1. It is requested that provision action be taken to supply 60 days scaling of spares for the first 193 vehicles listed on Appendix 'A' to this HQ letter 8070/5 dated 10 Nov. (WD numbers 214908 to 5318336 inclusive).
2. It will be noted that spares have now been supplied for all the vehicles listed in Appendix 'B', all vehicles under the heading 'Vehicles loaned to Italian Government' in Appendix 'C' and the first 193 and all vehicles under the heading 'Vehicles loaned to Italian Government' in Appendix 'A'.
3. Therefore, although provision has been made for 550 vehicles, the spares do not correspond with the vehicles actually sold. When arrangements are made to voucher the further vehicles to the Italian Government an adjustment will be made so that spares will eventually be provided for all the vehicles transferred. A complete record is kept by this Staff Section.

SUBJECT : FORD SPARE PARTS.

TO. : LT. COL. L. R. HOLMES? S-4.

On the 17th of July 1945. Base Depot, Installati
on No. 1, received from Naples by truck 392 cases of Ford
Spare Parts. On the 25th of July 1945. we received 1200
more cases of Ford Spare Parts from Civitavecchia by
truck. The above Ford Spare Parts are for truck model num
ber N 1, 2, 3, 4, 5, 6. The Ford truck model number we have
is N 8, 9. However approximately 75% of spare we received
will fit our model.

Subject:- Provision of Transport, Tyres and Tubes
for the Italian Navy

GENERAL HEADQUARTERS

Tele No. Freedom 015

GHQ/8200/8/3/2/11

7 Nov 45

G-5

1. In accordance with the policy laid down in Headquarters Allied Commission letter reference AC/326/37/Tn 5 dated 31 August 45, the arrangements for supply and maintenance of Trucks, motor spares and tyres to the Ministry of Marine is now the responsibility of the Italian Ministry of Industry and Commerce.

2. The provisions of AFHQ letter reference 8200/6/3/2(AE) dated 3 Apr 45 and amendment dated 11 Apr 45 are accordingly cancelled and demands for vehicles, spares, tyres, etc. for Italian Navy units will not, in future, be met from British Army stocks.

25 October 1945

SUBJECT: Sale of British Vehicles of Italian Transport
Companies to the Italian Government.

TO : Headquarters Allied Commission, APO 394.
(Attention: Transportation Sub-Commission).

Reference our T-2 dated 5 October 1945 and your reply
AC/370/12/TN.5 dated 22 October 1945.

1. It is noted that collection of 60 days scaling of spare
parts for motor vehicles sold to the Italian Government is in
process of completion.

2. Our letter of 5 October, however, asked what action was
being taken to make good any deficiencies in the vehicles con-
cerned prior to sale, i.e. independent of the supply of 60 days
spare parts. Will you please inform this Headquarters.

For the Assistant Chief of Staff, G-5:

Ref. T-2

5 October 1945

SUBJECT: Sale of BRITISH Vehicles of ITALIAN Transport Coys
AC to the ITALIAN Government.

TO : Headquarters, Allied Commission, APO 394
(Attn: Transportation Sub-Commission)

Reference our T-2 dated 27 July 45.

1. Following is an extract from a report by Lt. Col. SUDDARD and Major GOODSPEED of this HQ as a result of their recent attachment to Maintenance Group AC on temporary duty:

"11. d. The original sale of 550 GMC trucks to the Italian Government also included a scaling of 60 days of spare parts. Upon submitting the original requisition for these spare parts, only a few parts were available. The Maintenance Group was advised to resubmit this requisition to this headquarters for approval of Ordnance(A) and G-4(A), in the form of a backorder, to cover items not previously furnished, as a large percentage of these items have become available in PBS stocks. It is recommended that this approval be given as these items are critically needed, will not be available from salvaged trucks, and it will be some time before Italian industry is capable of fabricating these parts.

e. In general, the trucks sold to the Italian Government by the British were short of tires, tubes, batteries, wheels, and lights. It is recommended that every effort be made by the British to supply these shortages as soon as possible."

2. Will you please state what action is being taken to make good any deficiencies.

For the Assistant Chief of Staff, G-5:

H. P. Croom-Johnson

H. P. CROOM-JOHNSON, Lt Col 1254

370

28 September 1945

G-4/101/36

SUBJECT :- Memo on spare parts .

TO :- Director , Transportation Sub-Comm/
(ROADS).

1. Reference your letter AC/370/8/Tn5 dated 25 September 1945.
2. This considers three categories :-
 - A) Vehicles in Truck Pools outside Regions and forming part of the original 550.
 - B) Vehicles forming part of the 550 in Truck Pools in the North.
 - C) Vehicles in the North which are not part of the 550.
3. M.T. Spare Parts will be supplied for the above categories as follows :-
 - A) These vehicles are transferred to Italians on temporary receipt. G-4 (B) are responsible for supplying spares on account of 60 - day scaling . The exact composition of this is not known as a normal 60-day scaling is so small that it can hardly be anticipated as applicable in this case .
 - G-4(B) will therefore supply spares excluding major assemblies, tyres and tubes and in moderate quantities until the 60-day scaling is issued . Spares will be issued only on indent screened by the Area Inspector of the Ministry of Transport and will be issued to properly authorized and authenticated representatives who must have a seal or stamp which the Italian Government will be prepared to honour .
(See your letters AC/29/17/Tn5 dated 21 August 1945, and AC/348/Tn5 dated 6 July 1945).
 - B) Indents should be screened by the Regional Transportation Officer or senior British or American Officer in the nearest maintenance depot . Deliveries will be made to the Regional Transportation Officer or Senior British or American Officer.

21 Sept. 1945

SUBJECT: Vehicle Spare Parts for Italian Govt.

TO : Dr. Ugo La Malfa.

Dear Dr. La Malfa:

It is urgent that indents be placed for a supply of spare parts needed to maintain the $1\frac{1}{2}$ ton commercial type vehicles transferred to your Ministry under the Category A program.

However these additional spares which are for future consumption must be purchased from Category B funds.

Before we can forward the indents, already prepared, this Headquarters must have a letter from the Ministry of the Treasury approving the expenditure of Category B funds for the purchase of a 6 months supply of spare parts for 1100 $\frac{1}{2}$ ton Chevrolet trucks imported for the Italian Government and transferred to the Ministry of Transport.

The Treasury must specify therein what credits are to be used for this purchase.

Yours Very Truly,

FRANK UPMAN, Jr.
Director.

To:

Dr. Ugo La Malfa,
Minister of Transport,
Ministry of Communications Building,
Piazza della Croce Rossa,
Rome.
