2. Attached is a list of Fiat type 634 spares required for stock to keep this truck pools Fiats on the road. May these be obtained please. It is pointed out that the quantities now demanded are 50% below those originally asked for by the Italian workshops manager.

3. There is a spare parts factor in Poggia by the name of Pompeo Trisciuglio who wishes to purchase parts in the north of Italy and has requested a truck for this purpose. Should his request be granted he would purchase spares for Fiat 634 lorries and hold them for sale to the Truck pool. He assures me that he will be able to meet my requirements at much better prices than obtain in the south. I feel that it might be worth while to let this man have a truck and shall be glad to have your authority.

all for sale tyres and tubes.

3. Various Transportation Officers Bari Zone have been dealing with the matter and the payments on the attached list totalling Lire 316,187.50 have been made from Bari to Ufficio Trasporti della Campania.

4. Can you find out for us:-

- (a) The extent to which the payments are settlement of the debts in Para 2
- (b) The balances still owing
- (c) Details of the payments made which are not on account of the old debts. Probable they are for tyres from British Army sources, if possible can this be confirmed.

SUBJECT: Circulation Permits.

TO: HQ SICURIA Region AMG/AC
(for Regional Commerce Officer)

1. Your signal No. 44 of 13 May '45 (received in this office on 20 May 45 only) refers.
2. As explained in our AC/5087 of 25 April 45 it is not desired that circulation permits current in the Southern areas be issued in the North for the time being. In any case we have no further stocks of the present yellow type available but an added reason for this decision is that negotiations now in course with Italian Government will probably lead to an general extension of the period of validity of permits to 6 months.
3. In view of the above the new series now in course of print will not come into force until 1st July and it is highly undesirable that they should circulate in Northern Areas before that date.
4. When writing our letter of 25 April it was hoped that the old stock of ACQ/PET 4 and 5 combined would be sufficient for your needs at least for the first 2/3 months. If this proves not to be the case the only way out is to print an extra supply locally until such time as the new series permits come into general circulation. It is pointed out in this connection that under the present emergency system you are in a position to attach whatever period of validity you deem necessary to

individual permits issued ignoring for practical purposes the standard four monthly periods in force in Italian administered territory.
