1. Space allocated on S/S EZILDA CROCE to cover original bid of 400 tons lard and 400 dried vegetables to Venice has been used as follows:

Lard	142	DWLT
Egg Powder	176	"
Fish	132	"
Milk Powder	90	"

2. The loading of this ship was a great trial to one and all because of the effect of heat and multiple handling on lard. 25% of barrels which left cool storage in good condition became rejects at ship side. Considerable loss also resulted from exposure to the sun of the barrels which did not break.

3. It is urgently recommended therefore that no further lard shipments be balled for until cooler weather. Some 800 tons are presently in cool storage and good condition. It may be moved by rail rather than sea, not earlier than October, without loss. Tens 300 remaining in outside storage requires repacking before moving. About 1500 steel drums are required. If prompt action is taken the loss will probably be around 30%.

SUBJECT : Shortage ex Schooner Giovanni da Procida
TO : ALCON Port Liaison Officer - Bari
Attention: Lt. O'Leary

1. Receiving report from Ancona indicates that a total of 2,934 bags of flour were received ex the Schooner Giovanni da Procida at Ancona from Bari.

2. Ancona's check was made at ship's rail and there is no possibility of loss in Ancona itself. Any loss which may have occurred obviously took place after the schooner departed from Bari and prior to its arrival at Ancona.

3. However, Lt. Griffin states that 'phone information reaching him from your office indicated there was some question whether 3,082 bags was the actual cargo loaded on this schooner. This doubt is not understood and it is requested that you advise definitely what cargo was loaded at Bari for Ancona.

TO : Federazione Italiana dei Consorzi Agrari
ROME

SUBJECT : Removal of lard.

The AC -Food Sub Commission - has made available to this High Commissioner at its warehouses of Brindisi 83 tons of lard, which have been unshipped in that port from the SS Fity Hug Lee. This office of the High Commissioner orders that said commodities should be removed in the following provinces according to these amounts :

- Rome -	70	tons
- Taranto -	8	"
- Brindisi -	5	"

A total of 83 tons

Said amounts of lard will be kept at the disposal of the office of the High Commissioner.

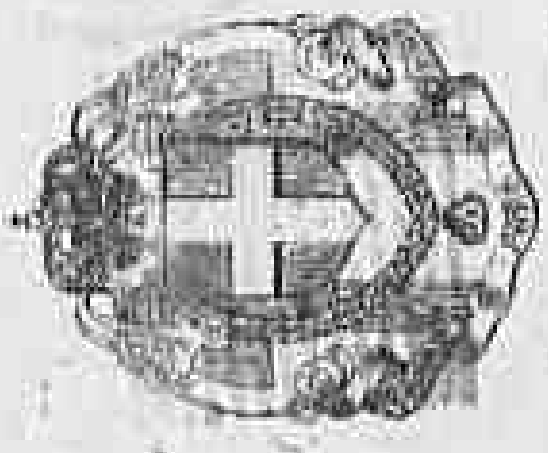

As soon as all these forwardings of lard will be operated; the Federazione will wire to the office of the High Commissioner, to which it will also point out all the eventual difficulties which will be encountered in those removals.

If the amount of lard which will be made available for the office of the High Commissioner will be inferior to that we have mentioned, we maintain opportune to notify that the amount which will be forwarded to Brindisi will be proportionally reduced.

SUBJECT : Losses on Shipments from Bari

TO : ALCON Port Liaison Officer BARI (Att. Lt. O'Leary)

1. Careful investigation of ship's unloading reports at Ancona on cargo loaded at Bari/Brindisi indicate rather disturbing information.

2. It seems evident that both physical counting and accounting procedures are lax, inasmuch as Ancona records have shown:

- a) arrivals in excess of manifested quantities
- b) number of units received about equal to manifested number of units with great variation in total weights, indicating errors in figuring package weights
- c) number of units received slightly less than manifested numbers but weights much less than manifested indicating again errors in figuring package weights.

3. Specific cases requiring explanation are shown on the attached sheet. Request early response.
