2. Mr. Forti and Mr. Lanni of the Bank of Naples called at this office at 1700 hours 30 Dec. 44.

3. My letter (copy attached) had been received and under=stood but they refused to accede to my request.

4. Extracts from a large file were read to me. They were statements accusing Mr. LUPO of a variety of very serious misde=meanours alleged to have been committed during the German occupation. I do not know what kind of persons made these statements nor do I know what proofs exist but Mr. Forti does not desire to prosecute in court.

5. I have informed Mr. LUPO of these accusations in general terms and he denies them as false.

6. As I have no proof of these accusations I am not prepared to accept them at this stage and acting on your verbal authority I informed Mr. LUPO that he will become an employee of Allied Commission as from 1st Jan. 45 on conditions and for a period to be defined in the light of subsequent events.

1. I have the honour to acknowledge receipt of your letter of 27th December 1944, which was received by me late on the 29th December.

2. A person with no experience of shipping and warehouse work cannot take over at such short notice. A complete breakdown would result.

3. My authority does not include the dismissal of Mr. Lupo with whom I have no fault to find. On the contrary, I would point out that he is a very experienced and efficient warehouse official, and, as I have some twentyfive years similar experience I think I can be regarded as a sound judge of such matters.

4. To prevent a breakdown in the work and to avoid putting me in the unenviable position of having to cope with this breakdown I request that you withdraw your letter until you have conferred with the appropriate officer of Allied Commission Headquarters.

This is quite clear, for if I have very well performed my duty for 6 months, the "Banco di Napoli" could have waited 6 more days and then take such a step.

I know that the "Banco di Napoli" does not want to accept your new conditions, and I am an obstacle here because they have understood that I could carry on the work, also without the "Banco di Napoli" and all personnel would have stayed with me.

For the truth I do not see the necessity why should the "Banco di Napoli" keep on carrying this task, if they do not want to.

The only task performed here by the "Banco di Napoli" is that of paying wages to the personnel. The responsibility which they assume is very restricted, and in there first 6 months has been almost nil. It would be enough to find another Bank which would advance the salaries to the personnel and everything would be carried out with great economy, other economics I could make if I had to operate of my own.

4. I am very well known within the Port of Naples where I was director for 16 years.

In my life I have always worked, I was merchant naval Captain and I have travelled throughout the world. I was at the Commercial University where I got my degree in Economy.

For 11 years I was director of the "Magazzini Generali". During such a period the Society has not had any deficit but have made many millions of lire in profit instead. The same thing was in this A.C. Depot. You know that very well.

The "Banco di Napoli" do not understand anything about Shipping and Warehousing, in there 6 months I did not have any help from them, everything was made according to my own opinion. This is the thruth.

5. The President of the "Magazzini Generali", who is the supreme chief, told me that he does not approve what they have done to me. For this purpose there is a conflict between Signor Santoro and Signor Forti.

Now, but, they keep on their decision because they say it is a question of prestige.

6. In this difficult situation I trust your high sense of justice. If they should accuse me also to you, I beg you to ask for proof, or at least to ask that these accuses be repeated in my presence.

7. If the new contract will not be signed by "Banco di Napoli" I shall be at your disposal for anything you may require. If, instead the contract will be signed, then I do not think I can remain in employ with the "Magazzini Generali", and I will go spontaneously.

8. I thank you very much for everything you have done and may still do for me.

Sir,

1. Last night I had a conversation, over the telephone, with Avv. Rosalbino Santoro, President of the "Magazzini Generali"; he is the one who spoke with Capt. Klein in Rome. He was back after having been 6 days out of Naples. He was very much surprised and sorry in learning my dismissal. He did not know anything, nor had anyone asked anything to him who is the supreme chief of the Society.

2. I am always more convinced that they are unfairly fighting me on a basis of false things, because they do not want me to assist during the arrangements of the new contract, for they think I am more faithful to the Allies than to the "Magazzini Generali".

3. For the truth, I always have affirmed that it was too much a big business so that it could be corrected. This has disliked these gentlemen who at once have dismissed me.

4. For what concerns all what they might have told you, about myself, if you will please point me out all the arguments, I will answer -with your satisfaction, I am sure- argument by argument.

5. Since I am an A.C. employee, as it is stated in the contract, I leave this dolorous question in your hands -as an Allied Officer- so that you may solve it with justice.

SIR,

We have the honour to introduce the bearer of this letter, Doc.ALESSANDRO SANTINI, to whom we have determinated, as from the 1st Jan., to entrust the direction of the A.C.Warehouses, under our management - as agent of the Bank of Naples in replacement of Doc. Lupo Giorgio.

Attached herewith bulletin issued on such circumstance.

In reading the document you will easily notice how constent is our preoccupation, with meditated consciousness of the obligations undertaken, to bring to the actual organisation all those foresights and cautions suggested by the experience acquired through the first months of management and which, while having the purpose to guarantee us for the responsabilities undertaken toward the A.C., contemplate also and above all to render the service, through the continuous adoption of suitable provisions, to the full satisfaction of the same A.C.

For this matter we specify that for the acquisition of a dual purpose all suggestions will always be received favourably and remarks that may be made by the rappresentatives of the A.C. will be subject of a careful examination and always appreciated, the formers and the latters being both testimony of a valid, useful and precious collaboration, appreciated very much by anyone who tends to mantain-with honour - the task undertaken.

We would like to know wheather Mr.Lupo should eventually be paid any indemnity for his service rendered at the A.C. whses.

Please state the rank that will be given to Doc.SANTINI (as it is obvious that it will not be inferior to that which was given to Mr.Lupo) and the monthly salary, keeping in mind that, as well as Mr.Lupo, Doc.Santini is intended employed, for and on behalf of the A.C., as from the agreement of the 28

BULLETIN N° 3/ 1944.

As from the 31st Dec.44, the work of Mr.Lupo at the Depots, managed by this society - as agent of the "Banco di Napoli" for and on behalf of the Allied Commission - will cease.

Beginning from Jan 1st 45, I have decided to replace Mr.Lupo with Alessandro Santini, who will take over, for now, the direction of depots 676,677,696, and 1256, and later also those which will be eventually turned over to us.

All Italian civilian personnel employed on behalf of the Allied Commission - no matter to which category, clerical or manual they may belong to (hence including directors of depots and inspectors) will be under direct orders of the a/m Dott.Santini who will therefore have the following power:

1. To take all opportune and necessary steps in order to assure a regular developement of work and the normal pace of the various services.

2. To hire the necessary man-power needed for the foreseen or ascertained exigencies of the various depots, and the timely transferment of labor from one warehouse to another, in order to face such exigencies.

3. To establish day and night shift according to the particular necessaties of each warehouse.

4. To transfer, previous my authorization, also clerical personnel from one to another warehouse no matter to which category they may belong to.

5. To take necessary disciplinary steps regarding manual workers. For what concerns the tecnical-administrative personnel he always will refer previously to the u/s.

6. To carry out, in the best way, a careful checking on the regular and continuative presence of all personnel during the hours of ordinary and overtime work, and to establish the working hours for tecnical-administrative personnel.

7. To check on wages, salaries, and any other compensation which is made directly on the behalf of the "Banco di Napoli" bearing in mind that the ecoromical treatment and the discipline of work

Col 31 dicembre corrente il Signor Dott.GIORGIO LUPO cesserà dal servizio presso i Depositi gestiti da questa Società, quale Agente del Banco di Napoli, per conto della Commissione Alleata.
