dated 28th May 1945.-

By Decree n. 370 dated 28th May 1945 all goods supplied by the Allied Governments to the Italian Government must be consigned on behalf of the State, to the I.C.E. that will receive all the documents, and will account the various shipments with the competent Allied Authorities.

So now that the Allied Authorities have requested the strict application of this decree. The Federazione Generali Agrari will therefore immediately take contact with the I.C.E. for applying what above stated.

28th May 1945

2nd October 1945

Cable MFOUSA n. 273487 dated 21st September 1945 that you have forwarded to us, established the policy for the consignment of Allied goods in Italian ports and requests information about the Italian Government agents that will affect the allocation.-

I would like to remind you that with the Decree n. 570 dated 28th May 1945, the Italian Government created the I.C.G. as sole authorized body for the reception of all allied goods, except oil and coal.-

Up till now this decree has not been fully applied, also because Allied Commission often sent notification notes to other bodies.-

I attach a copy of the letter that we have sent to the Federazioni Generali Agrari, and we would be particularly grateful if you would co-operate in its application, by ordering that by the 15th October all documents, and by consequence the consignments of food products and goods for agriculture should be done exclusively to the I.C.G.

SUBJECT: Disposition of Imported Supplies

MEMORANDUM TO : Brig. Gen. MCKINLEY

1. Reference Gen. MCKINLEY's letter 20.02/23 of 3 October and letter of Transportation S/C 2/7/1514/TW6 of 2 October 1945.

2. The entire question of the distribution of clothing and shoes was discussed on 9 October by the under-secretary of Industry, Dr. Lombardo, the head of the Commercial Section of I.C.E., Dr. Bordonì, and Mr. White of this Sub-Commission.

3. The clothing and shoes which were requisitioned in the U.S. for Italian needs in December 1944 began arriving in Italy in the latter half of June of this year. At the time of the first arrivals the opinion was given by the Economic Section that the materials should be turned over to the Italian Government for distribution.

4. Therefore notification notes when received by Commerce S/C were forwarded to the Ministry of Industry and Commerce with the following instructions: "that I.C.E. would make an inventory of all goods received and that the s/a Ministry would draw up the plan of distribution". In addition a copy of the list of all materials notified from N.Y. as being called forward for shipment was sent to I.C.E. and the Ministry for aid in making the inventory and the distribution program.

5. At present in broad outlines the distribution program is ready; viz. the proportions that the various

- 2 -

provinces, agencies; ect. will receive of each item is fixed and as rapidly as the inventories are prepared the allocations are made.

5. The great difficulty which the Italian Government has had to face is the shortage of warehouses which can be used by I.C.E. for a period of several weeks while inventories can be made. It must be pointed out that the making of the inventory is a long, arduous task for the clothing arrives marked merely as such and is packed in enormous boxes and bales. Each one must be opened, inspected and the contents counted. The clothing is both new and used and there are some thirty-three separate items. Therefore when one considers that there have arrived to date several thousand tons of clothing, ect. the enormity of the task may be appreciated.

7. The majority of the clothing has arrived in Naples but it has been impossible to find the necessary warehouse space in that city. I.C.E. has one very small warehouse in Naples and that contains newsprint. Federazione Consorzio Agrario and Alcom refused to extend warehouse facilities to I.C.E. for the time necessary to make the inventories. Thus all the material was forwarded to Rome for warehousing and inventorying with the inevitable delays involved due to lack of freight wagons, etc. The first lot of clothing arrived in Rome in August but in addition to making the inventory it was found necessary to disinfect the same (several hundred tons). This clothing was finally prepared and the inventories were forwarded to the Ministry of Industry & Commerce on 29 Sept. On 2 October, Dr. Lombardo made allocations of the same and deliveries have begun. The recipients were:

Ministry of Post - War Assistance (for refugees)	
Ministry of Telecommunications	7318
" " Transportation	

8. The second and a larger lot of clothing was shipped from Naples to Rome only ten days ago and is now being inventoried. This was combined with lots that arrived

- 3 -

at Civitavecchia.

9. The clothing at Genoa arrived on 29 July and the inventories were ready on 20 September. Unfortunately the copies forwarded to Rome have never arrived and no allocations have been made. However, Mr. White has agreed to furnish further lists immediately and distribution will definitely begin on 15-16 October.

10. The Ministry of Industry and Commerce regrets every delay as much as AC and is working just as rapidly as possible. The entire matter rests in the hands of Dr. Lombardo and he has promised immediate allocations and distribution whenever inventories are available. This Sub-Commission has agreed to aid in the distribution if necessary in AMG areas.

11. In the light of the foregoing information it would be appreciated if Gen. McKinley will consider further the necessity for forwarding a letter to the Ministry of Industry and Commerce as proposed in the second paragraph of the letter of 3 October under reference.

Ref. AG/5123/DIR/Commerce

10 November 1945

SUBJECT: Delay in the Distribution of Supplies
Imported for the Civilian Population

TO : Prof. Giovanni Gronchi
Minister of Industry and Commerce

1. Reference is made to the letter of the Economic Section of 13 October AG/5203/DIR/Commerce on the above subject and in particular to paragraphs three and four thereof dealing with the delay in distribution arising out of the operation of inventorying supplies in the hands of I.C.E.

2. Through Ports and Warehousing Division of Transportation Sub-Commission on or about 18 October last it was discovered by Commerce Sub-Commission that there exist in the files of the Chief Accountant's office, Finance Sub-Commission, detailed shipping lists covering practically all imported supplies which were the subject of the letter under reference. Dr. Bordoni of the Istituto Commercio Estero (ICE) was immediately invited to come to this HQ and was personally shown these lists, which should, in the main, render the preparation of detailed inventories by ICE unnecessary, thus eliminating any reason for delay in the distribution of these supplies on account of inventorying by that organization. He had brought with him an ICE official who is in charge of this work, and arrangements were made with Finance Sub-Commission for the records in question to be made available to ICE, which would immediately set a clerical staff to work extracting the required information.

3. Some ten days later, other officials of ICE approached Commerce Sub-Commission and asked for the

- 2 -

shipping records in question to be placed at their disposal so that the necessary information could be extracted. A second time appropriate arrangements were made with the Chief Accountant's office, and, in view of the time which had already been lost in not availing themselves of these records, an effort was made to impress upon the representatives of ICG the urgency of the matter. However, it has been observed that, in spite of every facilitation afforded the ICG in this connection, actual work on copying out the shipping lists did not begin until 2 November.

4. In view of the impending approach of winter and the hardship which will inevitably be caused by failure to provide for timely distribution of the quantities of clothing, footwear, blankets and other articles which have been imported by the Allied Governments, this HQ cannot but deplore such additional unnecessary delays. It would seem opportune to point out also that, should the fact of many thousands of tons of these supplies being needlessly held back from distribution become a matter of general knowledge and discussion in the press, this could hardly fail to have the effect of placing Italian Government in an unfavourable light, not only in the eyes of the Italian public, but also in those quarters from which additional supplies are being sought at the present time.

No.20400.5.AG.47.4923

Rome, 20 October 1945

Subject : - Arrival of Ships with Medical Supplies

To : - AC. Public Health Sub-Commission

ENDIMEA has informed me that information relative to the arrival of ships carrying medical supplies is not received with sufficient notice. Information to the above effect is being received when the ships have already docked and the cargo is ready for collection.

The above procedure has also been noticed by this Office. We often receive the "Notification Notes" dispatched by the Economic Section with a delay of several days. The date shown on these Notes was in some cases only three days in advance of the actual arrival of the goods.

It is clear that not to receive this information with due notice, or to receive it with great delay or not at all, and to obtain uncertain particulars as to the Port of unloading (for instance : "Bari- Ancona" as indicated in Note No.426 dated 15.9.45) create difficulties, work and expenses, apart from the risks connected with the goods remaining unguarded on the docks and wharves for a long period of time.

I should be glad if you would approach the Economic Section with a view to obtain that adequate notice be given both to ICE and to me (possibly also to ENDIMEA directly) regarding the arrival of ships with medical supplies for the Italian Government.

A courteous and, if possible, early acknowledgment of this letter will be appreciated.

S/C, regarding the application of the instructions laid down in their
executive Memorandum No 2 of 26 February 1945 and in the circular
letter No 13657/F/A of 27th March 1945, concerning the collections of
goods on I.C.E. charge from the warehouses managed by the Federazione,
we beg you to observe the following rules:

1. The withdrawals of the goods belonging to I.C.E. should
be effected only against a Consignee Receiving Report (see enclosure),
duly signed by the Administration of the Agency who takes care of the
collection. Therefore, no delivery of goods should be made without
said release paper.

2. As it was clarified, the Transfer Note represents an im-
wards warehouse document and for this has no value in connection with
the debit and credit transactions between A.C. and the Italian Govern-
ment.

3. It is pointed out that, as from 1st August 1945, I.C.E.
has to pay the prescribed Custom house duty on all imports belonging
to them. Therefore, the Consignee Receiving Report, besides its proper
value, is also as a paper for exemption of duty, for the goods import-
ed or in any way utilised by the Allies are free from any duty.

We are sending you, under separate cover, No 200 copies

SUBJECT : ICE GOODS DELIVERIES TO ALLIED AGENCIES.

We have received your esteemed favour of 27th inst., No 3776/
1/1/a, which contents we have noted.

In any way we advise you that :

1o) For shipments by rail or by sea it will not be possible for us to obtain any signature on the Consignee Receiving Report, because the se shipments are made against orders received by post and, sometimes, by phone from the Allied Offices interested, which very often reside in Rome and at the loading operation of the goods no Allied member assists, to whom we may ask for the Consignee Receiving Report signature, as soon as the loading is performed.

2o) For shipments by trucks the signature of the C.R.I. is theoretically possible. However, the collections are very often being made without the assistance of any consignee Allied office representative, so that, if the C.R.I. is to be signed, we shall have to be satisfied with the driver's signature, which very often is a negro, or with the escort's signature, when there is.

Besides, our experience induces us to foresee that in most cases both the legal representatives, if there will be, and the drivers, as well as the escorts, when the vehicle has been loaded, will refuse to sign, nor it will be possible for us to prevent the ³⁰⁷signature.

In any way we will not fail to try. On this purpose we have instructed our despatchers not to deliver the tickets escorting the is suing goods belonging to you, shipped by vehicles, from our warehouses, on behalf of Allied Offices, if they have not previously obtained the signature of the Consignee Receiving Report (see enclosure).

Your Head Office confirmation doesn't remove, unfortunately, the difficulties anticipated by us, as per our letter of 31 August 1945.

We deem that your instructions could be practically carried out only on condition that the Allied Authorities give strict orders in this connection to their offices charged with the collection of goods, writing us a letter to be shown to all concerned, in which, by confirming the agreements come to between you and the A.C., authorize us to refuse the delivery of goods in case that the persons charged with the collection are unable or refuse to sign the Consignee Receiving Report.

1. Reference your 13617/P/A dated 27 Sept enclosing letters dated 6 Sept and 17 Sept from ICE.

2. Procedure for handling imported vehicles and spares in Naples Port has been for ICE to issue receiving reports to Allied Commission based on their tallies at ship-side the same as for any other imported supplies for their account. Vehicles are then processed for port clearance and, in absence of other facilities, are moved to a military transit Park in Aversa not under control of Allied Commission. When delivery is later made to HQ Allied Commission, Transportation S/C, upon their release authorization, copies of their receipt are given to ICE, Naples, for accounting purposes.

3. Our position has been that this receipt by HQ Allied Commission to ICE, Naples should suffice to discharge their responsibility and, if not, that a formal receiving report should be issued through their offices in Rome as this office does not have possession of the vehicles at any time and functions only in a liaison capacity between parties concerned.

4. Please advise if, under the circumstances, you desire us to alter our procedure.

1. Receipt is acknowledged of your above mentioned letter, and we are advising Capt. Bowes that there will be no change whatsoever in the arrangements for receipt of imported civilian supplies as concerns the responsibilities of Federazione Italiana dei Consorzi Agrari and ICE.

2. However, it is called to your attention as forcefully as possible in this letter that it serves no useful purpose for you or your agencies in the field to advise anyone that arrangements are in the course of discussion for ICE to handle the receipt of all imports. Until such arrangements have been made and approved by all concerned, and until your organization has in the field representatives in sufficient quantity and quality to perform the functions, any tentative advice is only confusing and adds to the difficulties of the job now being done.

3. The correspondence initiated by Capt. Bowes, apparently upon statements made by your Mr. Villari, might have been avoided had he arrived with proper instructions and had he not attempted to overstep his authority with Capt. Bowes.

Major Gen. Adm. G.
Ports & Whse. Div.

Translation of letter, dated 31 Aug. 1945, addressed by Istituto Nazionale per il Commercio Estero, Rome, to Ports & Wharves Division.

1. Capt. J.N. Bower, Port Officer, Tn. AMG Reg. XII, sent to you letter PW4 of 22 inst. of which we attach copy.
2. Please inform Capt. Bower that our Mr. Villari has arrived at Venice on 1st. inst. to organize and manage our Venice Office in connection with the work entrusted to the I.C.E. for taking delivery of and accounting for the goods supplied by the Allied Governments to the Italian Government and arriving in that port.
3. Our Mr. Villari, who, up to the above date was managing our Ancona Office is therefore acquainted with all regulations issued by ACHQ and ICE relative to such work.
4. Our Mr. Villari well knows that at present the ICE takes delivery both of the miscellaneous supplies as per Memorandum N°2 and of the medical supplies as per instructions of the Public Health S/C and of the ICE.
5. There are now in course of discussion the agreements which aim to regulate the taking of delivery by one single methods through the ICE of foodstuffs and products destined to agriculture and supplied by the Allied Governments to the Italian Government.
