1. All cotton which has not been shipped has already been marked and baled export and is enroute to port. No changes are possible at this very late date.

2. Your attention is called to COM airgrams 50 and 61 dated August 24 and October 11 1945 which give complete schedule of cotton shipments to ITALY from UNITED STATED for balance of 1945

In general length of staple and grades are much better than requested in MOC 389, although we understand from letter dated September 19 1945 sent by Mister CESONI of ISTCONI to Mister TRABELLONI, copy received here December 31 1945 that much better grades are desired

3. You are advised that no UNITED STATES cotton has been procured through YB or YT programs for January loading although about 44.000 bales of Peruvian PIMA long staple cotton is scheduled for shipment ex PERU on YT-193 on copper and nitrate boats leaving chile in January and Febraury 1946

4. Believe cotton requirements of ITALY will either be taken care of direct of Italian Government through private shipments, or through UNRRA to which recommendation of ISTITUTO COTONIERO ITALIANO should be passed for future implementation J M hilldring

on fee schedule,due to amount grain committed by United States to schedules of other Nations necessary quantity to level of consumption now in effect much greater that temporary January scheduling Unrra cargoes wheat.Better scheduling of allotted amounts now being attempted by all means.

We ask your opinion as to how rationing of bread for Italy may be effected by above-listed shipment plan.

1. Reference your letter AG/606/247/TnS of 8 January, subject as above.

2. We have inquired of the various S/C's concerned the preferred ports of discharge for the YT Supplies carried on those ships listed in your letter. It has been ascertained that the bulk of all supplies are required in the North and should as far as possible be discharged at ports in the Genoa area. Ship by Ship, the following information will indicate to you the general preferences as understood by this office:

TB No.	Ship Name	Suggested Port	Remarks
216	Cape Igvak	Genoa	Entire cargo
217	General Ruge	"	" "
218	John W. Davis	"	With the exception of 200 tons of trucks which can be handled with equal convenience if discharged at Naples.
219	-	"	23 Tons of printing paper is for use in Rome and port of Naples was requested. 280 Tons of tires, tubes and flaps may be discharged Naples, also.
221	-	"	Entire cargo.
222	-	"	for 2500 T. pig iron
		Naples	" " " Ammonium Nitrate
224	-	"	Since nearly all supplies on this ship are on Transp.S/C rogns., and that S/C advises that any west-coast port is satisfactory, diversion of this ship may be at your discretion.

(B) Exports to Areas which are now relatively well supplied should be held to a minimum in conformity with the policy of the member countries of the Committee. Therefore, exports of these textiles from Italy to the United States , Brazil, Canadan, Mexico and Argentina should not exceed three percent ,and all to the Western Hemisphere should not exceed seven percent of Italys total export availability .

(C) In view of the relatively high level of supplies in Egypt , Italian exports to this should not exceed two percent of total exports of these textiles.

(D) Committee will make no recommendation on remaining 41 present until the Italian export program is reviewed .

4. Cotton broad woven goods export program should be given in square or metters, showing destinations by country and first and second separately. Combed and carded yarn fabrics should be shown separately, with as many specific types of construction as possible., at least cotton duck and cotton gauze. Report total production availability procured on Jacquard and Dobby Looms.

5. Cotton yarn production and export availability for first 6 months should be in metric tons with weving and knitting yarns separately, giving country destinations wherever possible, and at least continents.

6. Monthly reports should be submitted to the combined textile covering all export contracts placed by month of delivery as well as exports of cotton broad woven goods and cotton yarn. Both reports should indicate country of destination. These reports are an essential of the Committee program for coordinating exports of cotton broad woven goods and cotton yarn in order to insure an equitable distribution as is possible.

Captain,
D.A.P.M.
No.64 Section
E.M.F.

Sir,

On 13 June 1945 a telephone message was received at this office from M/Sgt. GUY, of Allied Commission, Port & Warehouse Division, Genoa, to the effect that the S.S. "CANTAKIT" had completed discharging her cargo to the A.C. Warehouse, and on checking the warehouse receipts against the Ship's Manifest he found the following deficiencies:-

Distribution

123 bags flour
11 bags tinned vegetable
155 bags of sugar
1 bag of milk
2 cases corned-beef
4 cartons Red Cross clothing

I immediately went to the Office of 1291 Port operating Coy.,R.E.Genoa, where I saw Lt. WILLIAMS who informed me that the S.S."CANTAKIT" had completed discharging her cargo and sailed from Genoa on 10 June, 1945.

On 9th June,1945, 5 Italian truck-drivers of the 554th Truck Coy,1st Truck, Br.,375th Regiment, U.S.Forces; and one Italian civilian were arrested by L.C.M. HOWORTH of this section for larceny and improper possession of A.C. stores. Vide report No. SIB/64/A/4E/37.

In view of the large quantities of stores deficient, it would appear that the majority of goods is disposed of before being loaded on the trucks at the Beach-head, as the loads are checked at the Beach-head and again on arrival at the A.C. Depot; where there is a discrepancy of more than one sack on any truck the driver is detained pending enquiries.

The ships standing off Genoa are frequently visited by Civilian fishing-boats, and this provides opportunities for quite large quantities of stores to be disposed of, especially during the hours of darkness.

The S.S."CANTAKIT" is believed to be at Leghorn now, and I respectfully suggest that enquiries among the member of the crew may produce further evidence of the unlawful disposa

of stores.

Respectfully submitted.

I am in charge of the Italian workers at the warehouse who check the stores on arrival from the Beach-head.

On 10th June, 1945 the S.S."CANTAKIT" completed unloading cargo for the A.C. I checked the checkers slips and found everything correct.

I was not notified when the ship finished unloading but as no further truck - loads arrived at the warehouse, I submitted a list of stores received to the Accounts Branch, Genoa.

I have read over the above statement, it is true.

Signed WILLIAM TRAVERSO

SUBJECT: Civilian Supply - Italy. Subsistence Requirements

TO : Distribution as below

1. A.C. estimates of subject Requirements January through June 1945 were submitted to C.C.A.C. by hand of Colonels Legg and Tolman, Food Sub-Commission, A.C., in September last.

2. Attached is a copy of these estimates as amended by AFHQ (L-C 709 refers).

3. It was anticipated that C.C.A.C. decision would have been received before this, enabling us to advise addressees firm requirements for the whole period, but to date only January requirements have been approved and allocated. Attached table should therefore be regarded as "for information" only.

ESTIMATED CEREAL PRODUCTION 1945-46 (TONS)

LOCAL RETENTION

Northern Italy	Estimated Production	Family Consumption	Seed	Feed	Amassable
Wheat	2,152,500	778,800	219,800	-	1,133,900
Barley	24,655	5,000	3,070	-	16,585
Corn	1,393,000	510,000	43,450	464,750	374,800
Rice	412,500	35,200	15,200	-	362,100
				Total	1,887,385

Note: Average areas during the 10 year period 1933-1942 under wheat, barley, oats and corn, have been reduced by 10% in the mountains and hills, by 20% in the plains, those under rice by 30%. Relatively greater reductions in yield have been made in the case of average high yields and irrigated crops.

Central/ South Italy	Estimated Production	Family Consumption	Seed	Feed	Amassable
Wheat	2,551,500	1,015,000	430,000	-	1,106,500

Wheat	128,900	54,000	37,400	-	37,500
Barley	20,300	12,800	4,800	-	2,700

Notes: 1. Unusual favorable weather of seeding time and up to present permit to estimate a good average crop in spite of the fact that the area sown has decreased and there will be less fertilizer applied.

2. Rye Production negligible.

3. Corn production used almost entirely in these parts of Italy for animal feed - no practical availability for bread production.

1. On investigation of the shortage from the schooner "Gerlando" it was discovered that : -

(a) The average weight of each sack is 120 lbs, this salt was received in warehouse at an average weight of 100 lbs per sack.

(b) Approx 6 tons of loose salt was received from this schooner, this accounts for the shortage of 122 sacks, as the percentage of broken sacks was very high.

2. Ship unloading report should now read as follows : -

Quantity per ships manifest		Received in Warehouse		Difference	
Sacks	Tons	Sacks	Tons	Sacks	Tons
5011	295	4889	273	- 122	- 22

2. Remaining shortage on tonnage is partly explained by the breakage of sacks.

1. AC Ship's unloading reports on the schooner Gerlando (dated 12 April) and the coaster Salvore (dated 23 April) show following differences between manifest figures and amounts received :

Name of ship	No. of sacks	Tons
GERLANDO	Short 122	short 66
SALVORE	Over 58	short 69

2. The shortage on the Gerlando is particularly large amounting to over 20 per cent.

3. Please advise us whether you know of any explanation for the shortage. Likewise, please advise us how you determined the weights received.

1. S/S "JOHN SERGEANT" flour was handled by Movements as a trans-shipment. Thus it was an Ancona import and not a transfer from Bari. Daily advice was sent to Ancona via Movements Via-signal, and a mid-way and final recap was signalled by this office.

2. With regard to the "SAMOTA", it is entirely possible that error occurred here. Especially in view of the similarity possible between the written figures 9 and 4 - and in view of past accurances.

3. Following is complete Movements report of shipments:

Reference the discrepancy of 374 tons. it is extremely difficult to assess responsibility in that all weights in Ancona port are approximate, weighing machines are not available.

Receipts at Porto S. Elpidio and Porto Recanati are weighed and can be accepted as accurate.

Loss during rail transit cannot be estimated but is assumed to be high owing to nature of commodity and fact that it was not bagged.
