Reference telephone conversation of 16 Apr 45 concerning re-shipment of Portable Flour Mills, 12 No, ex SS "Empire Summer", KK199, item 55.

In order to avoid delay and unnecessary handling, which would be necessary to get the cases to railway wagons, it is requested that arrangements are made by you to have this machinery called forward by road, when required for shipment.

The transport best suited for the job would be the American articulated lorries, the same as were used to clear from the ship, and identified by the marking "T".

Will you please arrange ?
