Para 2. From about you will note wheat shipments amount to 142,000 tons and coal 210,000 tons approximately. Cables have been sent notifying additional sailings, however this information was based upon completed loadings and not on sailings. In Hampton Roads as of January 33 were 13 coal boats loaded for Italy but had not sailed due to lack of crews. You were notified of these loaded cargoes in various COM cables; please disregard and consider data in para 1 above as being latest complete sailings.

Para 3. Impossible to give sailing based upon completed loading as has been done in past. Crew position still unstable. Suggest WSA sailing data be used exclusively and that Naples WSA office be consulted for accurate sailings. Will continue to give you completed loadings if you desire, but discrepancies between loading and sailing dates are certain to occur. Request this information not be realized to Italian press at present time Hilldring.

SUBJECT: Forwarding authorization Serial Summaries

TO : See distribution

Requisition Branch is now receiving copies from War Shipping Administration of a Forwarding Authorization Serial for each item of civil supplies other than POL procured ex U.S. destined for Italy. The Forwarding Authorization Serial (F.A.S.) comprises the document sent by W.S.A. to Treasury Procurement requesting that a specified portion of available goods be sent forward to the port for loading. Inasmuch as goods called forward usually arrive in Italy approximately 30 days after the date indicated on the F.A.S. as the date on which they are required at seaboard, it is believed that your respective Offices can utilize advance information of this type in formulating plans of receipt or distribution. The attached tabulation comprises a summary of pertinent information on F.A.S.'s received to date for ships which have not yet arrived in Italy. Additional information of this nature will be furnished to you from time to time as available.

It is regretted that we are unable from this office to supply you with a copy of ships' manifests before the arrival of the vessels concerned, suggest therefore that you communicate with your organisation in London direct. A spare copy may then be sent out to you.

Regarding copies of signals received stating vessels have sailed from the United Kingdom and the cargo carried etc. It is a simple matter to oblige you with these and in future a copy of these movements will be despatched for your perusal.
