Ref. No.: 1565

This is MOC 328.

Subject is export of Cotton Textiles.

1. Para 2 of COM 370 and para 5 of MOC 505

refer.

2. Italian Government are preparing statement of total remaining cotton manufacturing capacity after allowing for the estimated home needs plus export commitments already made.

3. The statement will indicate broad construction types and should reach the Textile Committee early in March.

4. However it is considered by American and British Embassies, LCOM and Italian Government that the preparation of a cotton textile export programme such as the Committee has requested, would be facilitated greatly if the Textile Committee would provide a list of known world requirement of yarn and cloth.

5. LCOM recently received a list of minimum requirements of Near Eastern countries for cotton yarn only. As a result many of these stated needs have now been contracted for in Italy.

6. It is probable that this method would be equally successful when applied to world requirements.
