Inter-Office Memorandum

28 July 1945

AOM/790

TO : Capt. Bergersen

FROM: Mr. Merritt

Major Klein, Transportation Sub-Commission, reported this morning that a survey of the handling of imported supplies at Naples disclosed a very undesirable condition which I am bring to your attention so that the necessary action can be taken on each of the several points.

- a. The unloading of Chilean nitrate is proceeding slowly because Warehouse 1285 cannot take the 1,820 tons originally scheduled there. The ship is being moved to Torre Annunziata where 1,000 tons are being put in the magazzino - but this crowds out wheat. It should be promptly distributed to farmers in the immediate area - I believe. The ship is then proceeding to Civitavecchia for discharge of the remaining quantity.
- b. Considerable quantities of copper sulphate are due to arrive, and scheduled for Cancellio. Room should be provided at Cancellio.
- c. A phone has been installed in Warehouse 1285, which can now be reached by calling Naples, Baseball, Cancellio, Warehouse 1285. The Federation at Naples did not know this, and the Federation here should be advised.
- d. Considerable quantities of paint are stored under cover at Cancellio - Major Klein advised that they be stored outdoors and is going to make available tarpaulins to cover the material which is being promptly moved out of the warehouse.
- e. A large quantity of loose bentonite is in the Warehouse, and Major Klein suggested that the good material be salvaged, sacked, and kept under cover - the rest to be moved out. This is being done, but will require the release of 5,000 sacks from Commerce S/C stocks in Naples warehouses. It is urgent that you obtain release for these sacks (give the release to Major Klein) since it will permit inside storage of 3-5,000 tons additional material.
- f. The quantity of esparto grass still on hand is considerable, and it is taking up space that would otherwise be available for 2-3,000 tons of supplies. Since this was to be used for fischli, it is recommended that the Federation of Consorzi Agrari use it in lieu of coir yarn, which they are

-2-

requesting, or otherwise dispose of it promptly.

- g. A considerable part of the main warehouse has not been finished, owing to the lack of construction timber. This work was provided for over a year ago and prompt action must be taken by the Federation to comply with that program.

The warehouses under the immediate supervision of Signor Pedesini, who seems to have the situation well in hand insofar as maintenance is concerned - but action must be taken to insure that carry-over stocks and idle stocks do not prevent movement of supplies through the warehouse from port to destination.

From Taranto and Bari we received at our Depot 676, Naples, 150 cans of spoiled Meat.

From "Port Salvage" for UNRRA we have 150 cases of spoiled foodstuffs.

We beg the High Commissioner to send a medical inspector at our warehouse 676 S. Giovanni a Teduccio, in order to check the conditions of these items, and authorize to sell for non comestible use these commodities.

As soon as the High Commissioner gives the destination for these foodstuffs, and a release order for the Consorzio Agrario, we will sell the commodities and collect the payment.

The Magazzini Nazionali have no authority to sell directly the commodities warehoused in its warehouses.

OGGETTO: Generi avariati -

Con la presente ci proponiamo comunicarvi che presso il nostro deposito 676 di Napoli giacciono attualmente circa n. 150 barattoli di carne pervenuta per ferrovia da Taranto e da Bari. Detta carne è merce dell'AC, ed è giunta in uno stato di così avanzata avaria da non potersi ritenere adatta all'alimentazione umana.

Lo stesso dicasi per la merce U.N.R.R.A. che attualmente ha un numero imprecisato di barattoli di latte condensato, corrispondente al contenuto di n. 150 cassette acondizionate e in parte dimezzate, provenienti da "Port Salvage" e per le quali si ritiene necessario l'immediato smaltimento dato l'avanzato stato di avaria del prodotto.

Pregiamo pertanto codesto Alto Commissariato voler disporre per una visita di un sanitario presso il nostro deposito 676 - S. Giovanni a Teduccio - per accertare l'effettivo stato di utilizzo della merce e in conseguenza disporre della vendita per uso diverso dalla alimentazione umana.

Per vostra opportuna conoscenza, alleghiamo alla presente la lettera della Commissione Alleata che precisa le modalità e i prezzi dei generi alimentari avariati.

Non appena codesto Alto Commissariato si sarà compiaciuto decidere per la destinazione della merce vorrà emettere un ordine di prelievo a favore del Consorzio Agrario di Napoli che penserà a collocare la merce avariata incamerandone il rispettivo prezzo non essendo consentito ai Magazzini Nazionali procedere a vendite dirette dei generi ivi depositati.

In attesa di vostra sollecita comunicazione, distintamente vi salutiamo.

The difference (49 tons) between the arrived 319 tons and the 270 tons which should be moved, will be send to Rome to be warehoused and kept at the disposal of this High Commissioner's office.

This High Commissioner's Office will issue proper instructions to ulize said diffeence, as soon as the Federazione will have communicated the exact amount of it.

It is poited out that the Federazione should communicate with the greatest urgency to this High Commissioner's office the exact remaining amount of dried salt cod fish, because being a high perishable product it must be immediatly utilized.

SUBJECT: Amendments to the movement of dried-salt
cod fish

Reference is made to the letter A/XIII/1065 dated June 6th with which this High Commissioner's Office informed the Federazione that the A.C. Food Sub-Commission allocated in Naples an amount of 319 tons of dried salt cod fish unshipped in that port from the S/S "Smiley"

As it has been communicated to Doct Bettei on the 13/6/1945 this High Commissioner's office invites the Federazione to operate the following amended movements :-

to Trosinone	10 Tons	instead of 10 tons

TO : High Commissioner for Food

1. In order to reduce spillage as much as possible it is proposed
that:

a. All surplus and spoiled foodstuffs on arrival shall be
allocated to the Italian Government.

b. Where foodstuffs arrive in packages damaged to such an extent
that storage is dangerous and dispatch to distant provinces would endanger
the goods, these foodstuffs should be allocated by the Italian Government
to the local Province insuring against normal requirements if possible. If
normal requirements of the local province do not include these damaged com-
modities, local provinces should be made special allocations.

2. It would be desirable that the Federconsorzi at the various port
warehouses report immediately to the High Commission each condemned
foodstuff or damaged package with copy to this Headquarters.

3. It must be stressed that it is most necessary to keep damage to
the minimum. The Federconsorzi del Consumo must ensure that only such
foodstuffs as are really not in a fit state to send forward are so condemned
and reported. It is suggested that you could arrange with your Regional
representative to examine such condemnations periodically.

4. If the foregoing is agreed please issue the necessary instruc-
tions to the Federconsorzi del Consumo Agent and to your Regional Food
Officers (for control purposes) and this Headquarters will issue necessary
instructions to the AF personnel at the warehouses concerned.

SUBJECT : Shortages

TO : Federazione Italiana dei Generali Agrari
Attention: Higher Staff

1. Continued shortages between shipside and warehouses in the Bari area are a matter of great concern.

2. The most serious case recently was that of the U.S. SHILOH (see our letter of 8 May 1948, ref. W/85/845/TAG-) on which there was a shortage of approximately 10,000 cases. To date only some 500 cases have been recovered and there is no clue to the whereabouts of the balance.

3. When you were in my office yesterday, we discussed the discrepancies indicated by the ship unloading report on the U.S. SHILOH CO. The discrepancies show both excess and deficiencies, which obviously cannot be true.

4. The matter is of such grave concern that it needs your particular attention at this time. It need hardly be added that the responsibility for the losses between shipside and warehouse is upon the Italian Government.

2 An arrangement has been made whereby the Federazione, ROME will lend supplies to AMG Staff Austria. Usually, these supplies will be routed to Venice by sea from Ancona, and at Venice will be taken over by DEFT, 8th Army for onward transportation to AMG staff, Austria.

3 Whenever these loans are authorized, the Allocation/Release Note which you will receive will specify the name of the consignee i.e. AMG staff, Austria. Care must be exercised NOT to confuse these loans with supplies consigned to ALCOM/Federazione Warehouse, Venice, because Capt. Bowas O. i/c ALCOM/Federazione Warehouse, Venice, has firm instructions NOT to take in any supplies consigned to AMG staff, Austria (See para 2 above).

4 So far as accounting is concerned, the following procedure will be put into operation straightaway and must be implemented retroactively in respect of any supplies already consigned on loan to AMG Staff, Austria: -

(a) A "Receiving Report" will be issued by you to Federazione's representative, and the following form of receipt will be typed at the foot thereof: -

"Received the above-mentioned supplies from Federazione del Consorzio Agrari, ROME on loan to AMG Staff, Austria."

signed:-

1 Since the opening up of the Regions of Liguria, Piemonte, Lombardia, and Venezia there has existed a degree of uncertainty and general lack of firm information regarding the status and relationship of the Federazione ROMI with the Federazione MILAN. The intention of this memorandum is to explain the situation as it is at this date, and to straighten out any misconceptions.

2 At the stage of negotiations it appeared that the Federazione ROMI and the Federazione MILAN would enjoy separate existences and that for all purposes of accounting and finance, would have to be treated as separate entities.

3 However, recent developments reveal that it has been accepted in principle that there is only one Federazione i.e. the Federazione, ROMI but that firm instructions as to future procedure can only be issued after the appointment by AMS of a Commissario for the Federazione of MILAN. This appointment is expected to take place during the next few days, following which it is hoped that instructions will be issued whereby the accounting of the Federazione MILAN and all Consorzi under its present control will be incorporated in the general scheme as existing in Central and Southern Italy.

4 Pending this appointment, the present position must be maintained and any instructions issued by the Federazione, MILAN will remain in force until such time as they are cancelled or varied by the Commissario to be appointed. It is hoped that this period of transition will last only a few days.

SUBJECT : Warehouses.

TO : Federazione Italiana dei Consorzi Agrari.

1. In accordance with 13657/F/A and Executive Memo. No. 2 of 26th February 1945, Warehouses in Southern Region were handed over to the responsibility of the Italian Government on 1st March 1945. In Naples these include Warehouses Nos. 676 - 677 - 696 - 682.
2. The agreed policy is for foodstuffs and other essential imports to be made over to the Italian Government in bulk. The Italian Government makes the necessary sub-allotments and it is the responsibility of the Agencies detailed to receive the goods and to deal with them.
3. Hitherto a small Allied liaison staff of officers and soldiers has been left in the depots to assist your staffs in the transition of responsibility. The whole of this staff is, however, now being withdrawn from the actual Warehouses, though they will still be available for consultation and advice in this office (see list attached).
4. You will appreciate that the responsibility is a very grave one and you are entirely accountable to the Italian Government for foodstuffs and stores made over to you and for ensuring that no action on your part causes any delay to off loading of ships or movement of stores.

 Also Commissariato per l'Alimentazione

This Federazione has the management of all imported commodities in Naples. Up to the first March the warehouses were managed direct by the Transportation Sub-Commission.

In order to save all the stock of flour, etc, from the damp of the ground, it is necessary to support the stacks on some wooden "Piglioli", instead of the floor as we use to do now.

We beg this Ministry to give authority to requisition the following quantities of timber :(pine silano):

Travetoli m/n 10 thickness	130
" " 25 "	85
" " 50 "	70
Travetti cm. 10 X 10	80
	ms. 365

If it is possible we would like to collect the above quantities from the firm CALICURI NICHILE - CASOLIATRO DI ANCHI (Cosenza Prov.) who is very well furnished. We need the material urgently.

Questa Federazione gestisce per conto del Governo Italiano i depositi di viveri ed altri generi di importazione di Napoli che fino al primo del mese di marzo scorso erano gestiti direttamente dalla Sottocommissione per i Trasporti dell' AC.-

Per preservare le ingenti scorte di farina, di zucchero ecc. dall'umidità risalente dal terreno è indispensabile poter poggare le cassette su dei "paglioli" di legno anzichè sul piano di calpestio dei depositi come si è attualmente costretti con grave pregiudizio per la conservazione della merce.-

A tale scopo si prega codesto Ministero di voler concedere alla scrivente lo sblocco dei seguenti quantitativi di legname da opera (pino silano):

- tavoloni da m/m 30 di spessore	mc. 130.-
- " " " 25 " "	" 85.-
- " " " 50 " "	" 70.-
- travetti da cm. 10 x 10 di sezione	" 80.-

Per quanto possibile si prega di voler concedere di poter effettuare il ritiro del materiale in parola dalla ditta CALIGIURI MICHELE di CAMIGLIATELLO BIANCHI (Prov. di Cosenza) che risulta essere delle meglio attrezzate.- Ciò in considerazione dell'urgenza che riveste la fornitura.-

In attesa di cortesi comunicazioni al riguardo si ringrazia.-

TO : Senior Transportation Officer

1. In Paragraph 5, sub-paragraph 5 a/m Report, it is stated that the Federazione Consorzio Agrari have representatives in the Port of Naples only by arrangements with the Port Liaison Officer, inasmuch as no authority exists for Eighth Port to allow facilities to the Federazione in the same manner as ICE. It is further stated that such authority is urgently needed.

2. Major Marks, Major Martin, Captain Ramsey, Sig. Bordini of ICE, Sig. Visco and Sig. Bagnasco of the Federazione at Naples, were all in a meeting with me at Depot 676 Naples, several weeks ago, wherein, it was agreed by all that the Federazione would act as ICE's agents and would be allowed to enter the port in that fashion.

3. This system was previously agreed by Sig. Bordini, who is the Director of ICE and Sig. Mizzi who is Director General of the Federazione Consorzio Agrari.

4. Consequently, no difficulty could result in present operations.

5. We are informed that some change in the system is contemplated. Obviously, you will be advised.

Requisitioning

TO

Commissioner, Naples Commune

1. Considerable correspondence has been addressed to Major Martin, Officer in Charge, ALCOM Depot, Naples, requesting that the Naples warehouses be de-requisitioned from the Allied Military Authorities and subsequently re-requisitioned by the Federazione Italiana dei Consorzi Agrari in the name of the Italian Government through the local Prefect.

2. Advice from Major Martin indicates that PBS Real Estate Department had no record of the original requisitions.

3. It was suggested to Major Martin that the owners of the several warehouses be contacted to secure from their files copies of the original requisition documents in order to arrange the de-requisitioning with Headquarters, 7th S.O. District, PBS and subsequently new requisitions be made as mentioned above.

4. No information has been received indicating that action along these lines has been taken.

5. The de-requisitioning and re-requisitioning has been requested by combined agreement of the Economic Section, the Finance Sub Commission, the Food Sub Commission and the Transportation Sub Commission.

6. May the necessary action please be taken and report rendered to this H.

1. We have been advised that a large quantity of herrings accepted for rail transportation from Warehouse 676 Naples in the week/ 9-15 April was not shipped because of lack of rail cars.

2. We wish to point out that when a rail shipment is not made in the week for which accepted, even though the cause is a shortage of rail cars, it is necessary to rebid for the unshipped balance. Thus you should make arrangements for a weekly report from your warehouses of shipments ~~and~~ to enable you to determine and rebid for transportation of the unshipped balance.

3. Please see that your officials who place the rail bids are aware of the above procedure.

TO : Federazione Italiana dei Consorzi Agrari

1. During the recent meeting at this Office it was understood that Sig. Mizzi had stated that whilst he was quite satisfied with movement from Ports, he was not satisfied with the movement of goods to and from Railway Stations.

2. It was then agreed that Sig. Mizzi would supply to this branch programmes showing future Tonnages and Commodities to be moved to and from Railway Stations in the various Provinces in which unsatisfactory road transport had been experienced.

Upon receipt of the programmes this Division would investigate and endeavour to work out a solution.

3. The memo dated 9 April '46 which was handed to Lt.Col. Christensen by Sig. Mizzi 14 April '46 in which you suggest that 500 heavy lorries be assigned to your Federation is not what you undertook to supply.

Even if Allied Commission actually were in possession of 500 vehicles an assignment to your Federation would require to be negotiated through the Ministry of Communications, to whom you should submit your application.

4. Please will you forward immediately the promised programmes referred to in para 2 of this letter.

MEMORANDUM FOR THE HONORABLE CHIEF OF THE COMMISSION TO THE ITALIAN GOVERNMENT
AND CONSENSUAL AGENT

1. The proposal hereinafter set forth is the furtherance of the program of transferring to Italian authority, gradually increasing responsibility in relation to the receipt and distribution of imported supplies.

2. It is proposed that as soon as possible, the Italian Government take over the operation of the A.C. warehouses and depots at Naples, Ancona and Livorno, subject to supervision of the Allied Commission. Other A.C. warehouses and depots may be transferred later by agreement between the Allied Commission and the Italian Government.

3. The Italian Government, through its appropriate Ministry, will appoint the Federations Italiane del Concorso to operate the warehouses and depots as its agent.

4. The Federations will warehouse all civilian relief supplies which it may be called upon to warehouse by A.C., UNRRA, and the Red Cross. They will also warehouse supplies to be distributed by Istituto Concorso latero if required to do so by them.

5. All foodstuffs entering the warehouses under consideration and which are subsequently distributed by the Federations under the agreement already in force between A.C., Federations and the Italian Government, will be treated as insured to the Federations for account of the Italian Government immediately upon receipt into the warehouse, or at any time where arrangements are or may subsequently be in force which would make this possible. The system will in fact be the same as that for the issue to and receipt of supplies to Concorral, and the usual receiving report will be given by the Federations to A.C.

6. Upon receipt by the Federations the supplies will become their property as agents for the Italian Government in the same way that supplies issued to Concorral become the property of the Concorral. The supplies will be distributed as instructed by A.C. where supplies are sold by the Italian Government according to the system already in force for sales by the Concorral. Where supplies are transferred to another Federation, as to a Concorral, the accounting transfer will be a matter of internal accounting for the Federations, who will however render such reports of stock movements as may be called for by A.C.

and deposits may be transferred later by agreement between the Allied Commission and the Italian Government.

3. The Italian Government, through its appropriate authority, will appoint the Federations Italiane del Commercio - IRI to operate the warehouses and depots as its agent.

4. The Federations will warehouse all civilian relief supplies which it may be called upon to warehouse by AC, UNRRA, and the Red Cross. They will also warehouse supplies to be distributed by Istituto Commerciale Estero if required to do so by them.

5. All feedstuffs entering the warehouses under consideration and which are subsequently distributed by the Federations and/or under the agreement already in force between AC, Federations and the Italian Government, will be treated as issued to the Federations for account of the Italian Government immediately upon receipt into the warehouse, or at whichever other arrangements are or may subsequently be in force which would make this possible. The system will in fact be the same as that for the issue to and receipt of supplies to Comgoral, and the usual receiving report will be given by the Federations to AC.

6. Upon receipt by the Federations the supplies will become their property as agents for the Italian Government in the same way that supplies issued to Comgoral become the property of the Comgoral. The supplies will be distributed as instructed by AC. Where supplies are sold by the Federations the proceeds will be collected on behalf of the Italian Government according to the system already in force for sales by the Comgoral group. Where supplies are transferred to another Federations unit, or to a Commerciale the accounting transfer will be a matter of internal accounting for the Federations, who will however render such reports of stock movements as may be called for by AC.

7. Miscellaneous supplies which may be warehoused by the Federations but for subsequent distribution by IRI will be treated by AC as issued to IRI who will give the receiving report in their required form. The warehousing of the goods will be by the Federations on behalf of IRI and the accounting for same will be a matter for decision between them and the Italian Government and will be the question as to the payment by IRI of warehouse and charges.

8. Where the Federations are called on to warehouse goods on behalf of UNRRA or the Red Cross they shall be considered as acting as warehousing agents for these organizations and the goods warehoused will not be distributed by them nor become their property. UNRRA and the Red Cross will make no payment to the Federations or to the Italian Government in respect of warehousing charges but the Federations shall agree with the Italian Government as to the records required to be kept so that an apportionment of the warehousing expenses can be made for information of the Italian Government as between the Federations, UNRRA, UNRRA and the Red Cross.

9. Where goods issued to the Federations are subsequently taken back by UNRRA or the Red Cross for use or other allied use the Federations will submit a statement to UNRRA showing the cost of warehousing and of any other expenses in connection with these goods. UNRRA will make payment in cash but will certify a copy of this statement and return same to the Federations who will maintain a record of such charges in their accounts.

10. Authorization will be obtained for the Federations and General Agents to issue, and charge as part of the warehousing expenses, a subsidy to the heavy workers on the same basis as that allowed for heavy workers. An allocation of food for this purpose will be made to the Federations who will obtain their supplies in the same manner as other employees of heavy workers.

11. Should any warehouse be turned over to the Federations be situated in premises requisitioned by UNRRA the regulations for such premises shall be transferred to the Italian Government as soon as circumstances permit.

12. The remuneration of the Federations shall be a matter for agreement between them and the Ministry of the Treasury and they shall maintain such accounts and records as may be required by that Ministry. It is suggested that the Federations be turned over to the Federations be included in the general scheme at present in force for the warehousing and distribution of imported supplies whereby the Federations retain a percentage of their collections out of which warehousing and distribution expenses are paid, leaving a balance out of which the Federations will eventually receive a remuneration to be agreed between them and the Italian Government.

taken back by AC for issue to the armed forces of Italy. The Federations will submit a statement to AC detailing the cost of warehousing and of any other expenses in connection with these goods. AC will not make payment in cash but will verify a copy of this statement and return same to the Federations who will maintain a record of such charges in their accounts.

10. Authorization will be obtained for the Federations and Generali to issue, and charge as part of the warehousing expense, a shift seal to the warehouse workers on the same scale as that allowed for heavy workers. An allocation of food for this purpose will be made to the Federations who will obtain their supplies in the same manner as other employees of heavy workers.

11. Should any AC warehouse be turned over to the Federations be situated in premises requisitioned by AC the requirements for such premises shall be transferred to the Italian Government as soon as circumstances permit.

12. The remuneration of the Federations shall be a matter for agreement between them and the Ministry of the Treasury and they shall maintain such accounts and records as may be required by that Ministry. It is suggested that the AC warehouses be included in the general scheme at present in force for the warehousing and distribution of imported supplies whereby, 15% of the Federations retain a percentage of their collections out of which warehousing and distribution expenses are paid, leaving a balance out of which the Federations will eventually receive a remuneration to be agreed between them and the Italian Government.

13. The Federations shall maintain all warehouses and depots operated by it in good condition.

14. AC will maintain such military personnel in the warehouses in a liaison and supervision capacity and for such time as they may think necessary.

1. Your letter of 21 Mar 45, TH/8/OP refers.
2. The first of the men mentioned therein, TESI/Giovenni, has been to this office today. His employment is NOT recommended. This man joined the Fascist Party in 1924 and has been "denounced" to the appropriate Italian authorities by the Italian Questura for the following POLITICAL crimes: killing, attempted killing, wounding and armed threats. This took place, according to TESI's story in 1932. He - naturally - denies his guilt but his reputation is such that he should NOT be employed.
3. Request that the other two men should call at this office is now confirmed.
4. In making such requests for our vetting it would help us considerably if you could let us have the full names of such individuals: i.e. Surname, Christian name and "patronite".
5. Further reports on the other individuals will be made to you at the earliest possible moment.

SUBJECT: Transfer of Food Warehouses to

TO : The Regional Commissioner,
Toscana Region, ASD.

1. Reference your letter R.VIII/16/141, dated 19th March, 1945, and conversation Col. Kirkwood/Col. Stoff/Major Klein of 20th March, 1945.

2. It is confirmed that for the present three officers, Capt. Ramsey, Lt. Mitchell and Lt. Lester, will be left in Toscana Region to carry out supervision of warehouse operations and port liaison duties at Livorno. Personnel will only be withdrawn from warehouse and port liaison supervision if higher priority demands for this type of personnel make it imperative. Every effort will be made to leave you, for the present, a minimum of two officers, namely Capt. Ramsey and Lt. Mitchell, should it be necessary to withdraw one of the three officers.

3. At the same time, as you are aware, it is the policy to hand back to Italian organisations as much responsibility as they can carry. Therefore, as discussed, you are requested, so far as possible, to put into operation the policy outlined in letter No. W/12/134/Tn.6, dated 6th March, 1945, and the enclosure thereto, Reference No. W/17/263/Tn.6, dated 15th February, 1945, with a view to releasing further Allied personnel. It is fully appreciated that to make a sudden break could cause dislocation of warehousing and movement of supplies essential for the maintenance of the civil population.

4. Will you, therefore, please inform this Sub-Commission when you feel that the Italian organisation is re-constituted that it is capable of taking over a greater degree of responsibility, and that Allied personnel can be released.

Subject: Transfer of Food Warehouses to Italian control.

To : Director, Transportation Sub-Commission, AG.

1. I have been informed orally by Major Klein of your Sub-Commission and also by warehouse personnel in Livorno that H. AG contemplate turning over the food warehouses in Livorno to Italian civilian agencies on or about 15 Mar 45. I have not been formally notified of this proposed change.

2. The responsibilities involved include the following:

- a. Accounting for commodities.
- b. Safeguarding of commodities in warehouses.
- c. Moving of items from ship or rail to warehouses.
- d. Delivery of commodities to Provinces.
- e. Arranging for transport to move commodities.
- f. Physical condition of the warehouses.
- g. Securing, feeding and wages of warehouse personnel, to ensure that adequate labour is available so that the transport is not unnecessarily delayed.

3. I cannot impress too strongly that this division of responsibility for feeding the population of Toscana Region is so impracticable at this time and that I would not be able to accept responsibility for the distribution of food to the people of this Region if such a plan were adopted while the Region is under AMG control.

4. The plan could only result in dividing the responsibility between the Regional Commissioner and Italian civilian agencies. No Italian civilian agency would have adequate motor transport to carry out the task at this time. Any breakdown in the supply of food to the population would surely cause very serious adverse reaction by the Italian people.

5. Any transfer involving so important a matter as the transfer of warehousing and food distribution should

- a. be postponed until this Region is turned over to Italian control and
- b. be effective only after adequate motor transport is assured and a period of indoctrination has elapsed.

SUBJECT : Transfer of A.C.Warehouses to the Italian Federacy
of Agricultural Consorzi.

We inform you that this Ministry generally agrees about transferring the warehouses of Naples, Ancona and Leghorn at the dates and with the procedures mentioned in the letter of that Sub-Commission ref. W 7/253/Tn.5 dated 12 Feb 45.

Reference to the single conditions mentioned in the memorandum enclosed to the above mentioned letter, this Ministry would like to modify them as follows, with the exception for the observation of the high Commissioner for the Alimentation :

Para 5. amend the words " the reception of the supply from the Consorzi" and substitute " the reception of supplies from the Federacy".

Para 6. The period " at the moment of receiving food supplies, the Federacy, being an agent of the Italian Government, will be the owner, like the Consorzi will be the owner of the supplies they receive" should be modified as follows :
" at the moment of receiving food supplies, the Federacy, being an agent of the Italian Government will become the consignee ", amending in this way the last part of the period.

Para 8. For what concern the expenses for storing the commodities left by the Federsconsorzi on behalf of UNRRA and American or English Red Cross, we think that their calculation ought to be fixed according to the general procedures which will be adopted to calculate all the expenses concerning the custody and the distribution. In this sense ^{UNRRA} could be modified the last period of para 8.

SUBJECT : Transfer of A.C. Warehouses to the Italian Federacy
of Agricultural Consorzi.

We inform you that this Ministry generally agrees about transferring the warehouses of Naples, Ancona and Leghorn at the dates and with the procedures mentioned in the letter of that Sub-Commission ref. # 7/263/In.5 dated 12 Feb 45.

Reference to the single conditions mentioned in the memorandum enclosed to the above mentioned letter, this Ministry would like to modify them as follows, with the exception for the observation of the high Commissioner for the Alimentation :

Para 5. amend the words " the reception of the supply from the Consorzi" and substitute " the reception of supplies from the Federacy".

Para 6. The period " at the moment of receiving food supplies, the Federacy, being an agent of the Italian Government, will be the owner, like the Consorzi will be the owner of the supplies they receive" should be modified as follows :
" at the moment of receiving food supplies, the Federacy, being an agent of the Italian Government will become the consignee ", amending in this way the last part of the period.

Para 8. For what concerns the expenses for storing the commodities kept by the Federconsorzi on behalf of UNRRA and American or English Red Cross, we think that their calculation ought to be fixed according to the general procedures which will be adopted to calculate all the expenses concerning the custody and the distribution. In this sense ~~it~~ should be modified the last period of para 8.

Para 9. For what concerns the expenses which the Federconsorzi will support for all the Commodities which will be withdrawn by the A.G. or Allied Authorities, it is fixed that the A.G. will not pay the expenses. They will be calculated as credit of the Italian Government, in the general calculation of debts and credits with the Allied Governments.

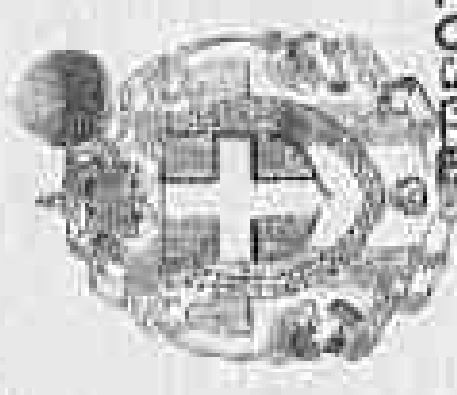

0 1 9 0 1

Para 12. As you know the percentage which the Federacy detains for the expenses on the incomes of the sold commodities, is temporary, because it has been fixed only to permit to the Federacy to pay with no delay the State, with the exception of a further calculation of all the expenses which have been supported.

Therefore we maintain opportune that the last part of para 12, starting from the words " according to which the Federacy detains a percentage etc " and until the words " which will be fixed between the Federacy and the Italian Government ", should be amended.

We would appreciate very much a reply

PUNTO 8 - per ciò che concerne le spese di magazzino delle merci custodite dalla Federconsorzi per conto dell'U.N.R.R.A. e della Croce Rossa Americana o inglese, si ritiene che la relativa regolazione debba essere stabilita in conformità dei criteri di carattere generale che saranno adottati per la regolazione delle spese in genere riguardanti la custodia e la distribuzione dei soccorsi dei predetti Enti. In tal senso potrebbe essere modificato l'ultimo periodo del citato punto 8.

PUNTO 9 - per quanto riguarda le spese che risulteranno sostenute dalla Federconsorzi per le merci che verranno prelevate dall'A.C. o comunque dalle autorità alleate, si resta inteso che l'A.C. non pagherà le spese stesse. Di queste sarà tenuto conto, a credito del Governo italiano, nella regolazione complessiva del debito e dei crediti con i Governi Alleati.

PUNTO 12 - come è noto la percentuale che la Federazione trattiene per le spese, sui ricavi delle merci vendute, ha carattere provvisorio, in quanto è stata stabilita soltanto per permettere alla Federazione medesima di effettuare senza ritardo i versamenti allo Stato, salvo successivo conteggio delle spese effettivamente incontrate. Si ritiene quindi opportuno che l'ultima parte del punto 12 a cominciare dalle parole "in base al quale la Federazione trattiene una percentuale ecc." e sino alle parole "da stabilirsi tra la Federazione e il Governo italiano" sia eliminata.

Si gradiranno comunicazioni al riguardo.

1. Transportation Sub-Commission have reached an agreement with the Ministry of the Treasury, the Direzione Generale dell'Alimentazione and the Federazione dei Consorzi Agrari whereby the last name will take over AC warehouses. These warehouses are in premises requisitioned by AC and are, at the moment, all in AMG territories and your opinion is requested on the procedure which should be followed.
2. The outline of the agreement is as follows:
 - (a) The Federazione will operate the warehouses and be accountable for the contents thereof in the same way in which they now operate, and account for imported foodstuffs in, their own warehouses.
 - (b) They will operate the warehouses as agents for the Italian Government who have appointed them as their agents for handling ^{0.0/1} distributing all imported foodstuffs.
 - (c) The Federazione is the central controlling body of the various Consorzi Agrari which are cooperative societies controlled by, and whose profits are limited by, the State.
 - (d) The remuneration of the Federazione for the warehousing handling and distributing of imported foodstuffs will be paid to them by the State. So far, we understand the remuneration has not yet been agreed between the Federazione and the State but the formes ^{substantive} are retaining a proportion of the proceeds ^{out} of the sales effected by them on behalf of the State and of which they are paying expenses.

2. The outline of the agreement is as follows:

(a) The Federazione will operate the warehouses and be accountable for the contents thereof in the same way in which they now operate, and account for imported foodstuffs in, their own warehouses.

(b) They will operate the warehouses as agents for the Italian Government who have appointed them as their agents for handling ^{and} distributing all imported foodstuffs.

(c) The Federazione is the central controlling body of the various Consorzi Agrari which are cooperative societies controlled by, and whose profits are limited by, the State.

(d) The remuneration of the Federazione for the warehousing handling and distributing of imported foodstuffs will be paid to them by the State. So far, we understand the remuneration has not yet been agreed between the Federazione and the State but the ^{estimated} ~~former~~ are retaining a proportion of the proceeds of the sales effected by them on behalf of the State and of which they are paying expenses.

3. The warehouses to be handed over were requisitioned by AC and are in AMG territory (Naples city, Livorno and Ancona). Additional warehouses will be started by AC in territories yet to be liberated; these will be probably be in requisitioned premises and will also be subsequently handed over to the Federazione.

4. It is considered preferable that, as the warehouses will be operated by the agents of the Italian Government, the requisition should be transferred to the Italian Government. We propose that this should be done in such cases where the warehouses are situated in Italian Government territory. We understand however that this would not be possible in cases where requisitioned warehouses are situated in AMG territory.

5. All the warehouses to be turned over are at present situated in requisitioned premises in AMG territory. Is there any objection to our granting the Fedemazione, as agent of the Italian Government, the occupancy of these warehouses? Attached is a memorandum on the hand-over to the Fedemazione which has been agreed by them, the Ministry of the Treasury and the Direzione Generale dell'Alimentazione; pending the time when the requisition can be turned over to the Italian Government, is any further action called for?

SUBJECT: Handing over of warehouses to Federazione dei Consorzi and
of stocks to ICE.

TO: Transportation Sub-Commission. ✓

1. As agreed between AC and the Federazione the Naples warehouse will be handed over to the latter on 1st March next, the Livorno warehouse on 15th March and the Ancona warehouse on 1st April.
2. As agreed, the Federazione will send representatives to the Naples warehouse to prepare for a stock-taking as at 28 February. On the basis of this stocktaking the Federazione will give a receiving report to AC for all foodstuffs or agricultural produce which will be subsequently distributed by them. Similar steps should be taken in due course at Livorno and Ancona.
3. On the handing over of the warehouses to the Federazione all miscellaneous supplies (i.e. supplies other than those to be issued to and distributed by the Consorzi Agrari) will be handed over to ICE against a receiving report. ICE will continue to warehouse these supplies until they receive delivery instructions.
4. ICE will shortly be sending a representative to the Naples warehouse to prepare for the stocktaking on the basis of which they will take over the supplies against the receiving report. It is requested that your Naples warehouse officer be informed of the above and instructed to grant all facilities to the ICE representative.
5. Goods warehoused for UNRRA and the Red Cross will be inventoried separately and will be signed for by the Federazione as warehousing agent for UNRRA and the Red Cross.

1. Reference your letter 1/1/64/1000 at 10 February 1964.

2. It is entirely proper for you to permit conveyance of
requisitioned premises by the Italian Government or its agent,
particularly where the use to which the premises are put is one
which serves our interests.

3. There can be, however, no transfer of requisitioned
premises. The Italian Government possesses its own requisitioning
powers with respect to requisitioned property. The extent
is free to exercise these powers (in the territory as well as
restored territory) except in so far as we have been limit-
ed by the Allied authorities, and we are not advised of any
limitation which would affect this right in the circumstances
to which you refer.

4. It is suggested, therefore, that upon the contemplated
transfer of requisitioned premises and the Italian Government
undertake to regulate its conveyance by its own requisitioning
such other legal process as it may choose.

5. It is further suggested that a few photographs covering
the physical condition of the premises at the time of transfer
may prove to be useful for future reference.

We propose that this should be done in such cases where the warehouses are situated in Italian Government territory. We understand however, that this could not be possible in cases where requisitioned warehouses are situated in U.S. territory.

5. All the warehouses to be turned over are at present situated in requisitioned premises in U.S. territory. In these premises the warehouses are situated as agents of the Italian Government, the occupancy of these warehouses is attached in a memorandum on the hand-over to the provisions which has been agreed by them, the Ministry of the Treasury and the Air Force. The warehouses are situated in the same premises as the requisitioned warehouses, pending the time when the requisition can be turned over to the Italian Government, is any further action called for?

REVISED DRAFT

Memorandum for discussion of Future Operations of AC Warehouses

1. The proposal hereinafter set forth is in furtherance of the program of transferring to Italian authority, gradually increasing responsibility in relation to the receipt and distribution of imported supplies.

2. It is proposed that effective 1 March 1945, the Italian Government take over the operation of the AC Warehouses and Depots at Naples, Ancona and Livorno, subject to supervision of the Allied Commission. Other AC/ANG warehouses and depots may be transferred later by agreement between the Allied Commission and the Italian Government.

3. The Italian Government, through its appropriate Ministry, will appoint the Federazione Italiana dei Consorzi Agrari to operate the warehouses and depots as its agent.

4. The Federazione will warehouse all civilian or relief supplies which it may be called upon to warehouse by AC, UNRRA and the ^{AC/ANG} Red Cross. They will also warehouse supplies to be distributed by Istituto Commercio Estero if required to do so by them.

5. All foodstuffs entering the warehouses under consideration and which are subsequently distributed by the Federazione under the agreement already in force between AC, Federazione and the Italian Government, will be treated as issued to the Federazione for account of the Italian Government immediately upon receipt into the warehouse, or at shipside where arrangements are or may subsequently be in force which would make this possible. ^(The) system will, in fact be the same as that for the issue to and

2. It is proposed that effective 1 March 1945, the Italian Government take over the operation of the AC Warehouses and Depots at Naples, Ancona and Livorno, subject to supervision of the Allied Commission. Other AC/AMG warehouses and depots may be transferred later by agreement between the Allied Commission and the Italian Government.
3. The Italian Government, through its appropriate Ministry, will appoint the Federazione Italiana dei Consorzi Agrari to operate the warehouses and depots as its agent.
4. The Federazione will warehouse all civilian or relief supplies which it may be called upon to warehouse by AC, UNRRA and the ^{AMG, FWC} Red Cross. They will also warehouse supplies to be distributed by Istituto Commercio Estero if required to do so by them.
5. All foodstuffs entering the warehouses under consideration and which are subsequently distributed by the Federazione under the agreement already in force between AU, Federazione and the Italian Government, will be treated as issued to the Federazione for account of the Italian Government immediately upon receipt into the warehouse, or at shipside where arrangements are or may subsequently be in force which would make this possible. ^{AMG} The system will; in fact be the same as that for the issue to and receipt of supplies to Consorzi, and the usual receiving report will be given by the Federazione to AC.
6. Upon receipt by the Federazione the supplies will become their property as agents for the Italian Government in the same way that supplies issued to Consorzi become the property of the Consorzi. The supplies will be distributed as instructed by AC.

Where supplies are transferred to another Federazione warehouse or to a Consorzi the accounting therefore will be a matter of internal accounting for the Federazione, who will however render such reports of stock movements as may be called for by AC. Where supplies are sold by the Federazione the proceeds will be collected on behalf of the Italian Government according to the system already in force for sales by the Consorzi Agrari.

7. Miscellaneous supplies which may be warehoused by the Federazione but for subsequent distribution by ICT will be treated by AC as issued to ICE who will give the receiving report in the required form. The warehousing of the goods will be by the Federazione on behalf of ICE and the accounting for same will be a matter for decision between them and the Italian Government as will be the question as to the payment by ICE of warehousing charges.

8. Where the Federazione are called on to warehouse goods on behalf of UNRRA or the Red Cross they shall be considered as acting as warehousing agents for these organizations and the goods warehoused will not be distributed by them nor because their property. UNRRA and the Red Cross will make no payment to the Federazione or to the Italian Government in respect of warehousing charges but the Federazione shall agree with the Italian Government as to the records required to be kept so that an apportionment of the warehouse expenses can be made for information of the Italian Government as between the Federazione, ICE, UNRRA and the Red Cross.

9. Where goods issued to the Federazione are subsequently taken back by AC for issue to the armed forces or other allied use the Federazione will submit a statement to AC showing the cost of warehousing^{AC} these goods. AC will not make payment in cash but will certify a copy of this statement and return same to the Federazione who will maintain a record of such charges in their accounts.

10. Authorization will be obtained for the Federazione dei Consorzi Agrari to issue, and charge as part of the warehousing expenses, a midshift meal to the warehouse workers on the same scale as that allowed for heavy workers. An allocation of food for this purpose will be made to the Federazione who will obtain their supplies through normal civilian channels.

11. Should any AC warehouse be turned over to the Federazione be situated in premises requisitioned by AC the requisition for such premises shall be transferred to the Italian Government.

12. The remuneration of the Federazione shall be a matter for agreement between them and the Ministry of the Treasury and they shall maintain such accounts and records as may be required by that Ministry. It is suggested that the AC warehouses to be turned over to the Federazione be included in the general scheme at present in force for the warehousing and distribution of imported supplies whereby, it is understood, the Federazione retain a percentage of their collections out of which warehousing and distribution expenses are paid, leaving a balance out of which the Federazione will eventually receive a remuneration to be agreed between them and the Italian Government.

13. The Federazione shall maintain all warehouses and depots operated by it in good condition.

14. AC will maintain such military personnel in the warehouses in a liaison and supervisory capacity and for such time as they may think necessary.

URGENT

1. Transportation Sub-Commission have reached an agreement with the Ministry of the Treasury, the Direzione Generale dell'Alimentazione and the Federazione Italiana dei Consorzi Agrari whereby the last name will take over AC warehouses. These warehouses are in premises requisitioned by AC and are, at the moment, all in AMG territories and your opinion is requested on the procedure which should be followed.

2. The outline of the agreement is as follows:

- a) The Federazione will operate the warehouses and be accountable for the contents thereof in the same way in which they now operate, and account for imported foodstuffs in their own warehouses.
- b) They will operate the warehouses as agents for the Italian Government who have appointed them as their agents for handling and distributing all imported foodstuffs.
- c) The Federazione is the central controlling body of the various Consorzi Agrari which are cooperative societies controlled by, and whose profits are limited by, the State.
- d) The remuneration of the Federazione for the warehousing handling and distributing of imported foodstuffs will be paid to them by the State. So far, we understand the remuneration has not yet been agreed between the Federazione and the State but the former are retaining a proportion of the proceeds of the sales effected by them on behalf of the State out of which they are paying expenses.

3. The warehouses to be handed over were requisitioned by AC and are in AMG territory (Naples city, Livorno and Anagni). Additional warehouses will be started by AC in territories yet to be liberated; these will be probably be in requisitioned

4. It is considered preferable that, as the warehouses will be operated by the agents of the Italian Government, the requisition should be transferred to the Italian Government.

- 2 -

We propose that this should be done in such cases where the warehouses are situated in Italian Government territory. We understand however that this would not be possible in cases where requisitioned warehouses are situated in AMG territory.

5. All the warehouses to be turned over are at present situated in requisitioned premises in AMG territory. Is there any objection to our granting the Federazione, as agent of the Italian Government, the occupancy of these warehouses? Attached is a memorandum on the handover to the Federazione which has been agreed by them, the Ministry of the Treasury and the Direzione Generale dell'Alimentazione; pending the time when the requisition can be turned over to the Italian Government, is any further action called for?

SUBJECT: Accounting Procedure.

1. Herewith amendment to appendix "A" of "Accounting Procedure"
2. Note carefully that all Food Transfers to Regione and Vth and Vthh Armies, necessitate the forwarding of a copy of the transfer Note to the Supply Accountant of the Region or Army concerned.

This procedure is somewhat different from that which is supposed to be in force at present, according to the procedure laid down, the Federazione should have at the A.C. Warehouse a representative who should give a Receiving Report for the goods as they leave the warehouse, with the result that such issues would be shown by the A.C. Warehouse as an issue to the Federazione and not as a transfer to the Region requiring to be taken up by the Regional Supply Accountant. Unfortunately, however, the Federazione has not sent representatives to all A.C. warehouses and the principle has not been generally understood. Some confusion has resulted and it has therefore been decided that in future the Federazione will not take issues on charge at A.C. warehouses, but that the procedure will be uniformly as stated in the attached amendment, namely, that they will take the goods on charge in the Region and that such issues will pass through the books of the Regional Supply Accountants.

As you are aware, the accounting responsibility at your Post will be transferred to the Federazione as from 24.00. hrs. 31. March, and a separate instruction will be sent you to cover

that transfer.

Amendment to Appendix "A"

Sub-para (a) (1) of para I (Issues) is cancelled and the following substituted.

- (a) Transfers to Regions and 5th and 6th Armies.

FOOD

Transfer Notes to be made out in the name of the Region or Army to which delivery is made and copy sent to the Regional or Army Supply Accountant.

In cases where delivery is made direct to a Consorzio on behalf of a Regional H.Q. or Army A.M.C., a copy of the Transfer Note will still be sent to the Supply Accountant of the Region or Army concerned and the Consorzio will not be charged direct.

To assist the Regional or Army Supply Accountant to trace such transactions, ensure that the "Allotment Note No." is always quoted on the Transfer Note and also the Reference No. of any special authorization which may have been issued for the commodities to be delivered direct to a Consorzio. The words "delivered direct to Consorzio at....." should be shown in the body of the form.

REF : 1/A/Tr. 1

6 March 1945.

1. We understand from Major Klein that you have been already notified that the Accounting responsibility for your Depot will be handed over to Federazione Consorzi Agrari as from 24.00 hrs. 15th/31st March 1945. (See N.B. at foot of this letter).
2. A complete inventory of stocks on hand as at that date, showing A.C., American Red Cross, and U.N.R.R.A. supplies separately, should be prepared in quadruplicate signed by Federazione's accredited representative, one copy retained by you and three copies forwarded to this office.
3. Accounting procedure after 15th/31st March will be subject to the following amendments :-

Receiving Reports.

Immediately on receipt into Warehouse, all stocks will become the property of the Italian Government and will be received by their Agents, the Federazione Consorzi Agrari.

Receiving Reports will be made out in quintuplicate and all copies signed by an accredited representative of Federazione Consorzi Agrari and bear the Federazione stamp. One copy will be retained by Federazione, one copy held by the Warehouse Accounts Office and three copies forwarded to Transportation Sub Commission, Accounts Branch.

The Federazione will also sign Receiving Reports in respect of miscellaneous supplies later to be transferred to Istituto Nazionale per il Commercio Estero (I.C.E.)

Transfer Notes.

All Transfer Notes will be marked "Transferred from Federazione Consorzi Agrari" in large, block capitals and the words "Allied Control Commission" deleted. Distributed will remain unaltered.

Transfer Notes.

All Transfer Notes will be marked "Transferred from Federazione Consorzi Agrari" in large, block capitals and the words "Allied Control Commission" deleted. Distribution will remain unaltered.

After the 15th/31st March, in the cases of Transfers to Regions or Vth and VIIIth Armies, it will not be necessary to send copies of the Transfer Notes to the Regional or Army Supply Accountant. At the time the supplies enter the warehouse and the Federazione signs the Receiving Reports, the supplies pass from A.C. possession and the accounting responsibility is entirely that of the Federazione.

Rail Freight Warrants and Schooner Manifests.

Ensure that these documents do NOT show Allied Commission as the consignee, otherwise we shall be charged for freight age.

4. Although the Federazione will be responsible for accountability after 15th/31st March it will still be necessary for the existing accounting procedure (subject to amendments quoted in para 3 above) to be continued and copies of all Accounting documents sent to Transportation Sub-Commission, Accounts Branch as at present.
