SUBJECT: Shipment of Supplies

TO : Aleon Port Depot, GENOA
Attn: Major Boyd

1. It is noted thatha number of items for Mining Division, on which we have already given shipping instructions are still at Genoa, per your inventory of 29 August.

2. In particular Steel Plates on TCC U492 are urgently required in Sardinia for locomotive repair at the coal mines, where rail transportation of coal is the present bottle neck in coal production. It is requested that the plates be shipped to Sant'Antioco for Carbosard as soon as possible.

3. Other items at Genoa are somewhat less urgent, but we will appreciate prompt shipment.

4. Shipment of 2500 drums of calcium carbide destined for Sant'Antioco may be deferred for 60 days if shipping is short, as the supply is adequate for several months in Sardinia.
