FEDERAZIONE ITALIANA CONSORZIO AGRARIO

Roma, 2 Jan. 1946.

Enclosures No. 26

TO : All our Port Warehouses.

for infor.to : All the Uffici Interregionali.

Monthly reports on condemned foodstuffs at Port Warehouses.

In observance to the disposition recently issued by the Food & Agric. S/C to this Federazione with a view to conform all port warehouses on the procedure to be followed in the signals that the latter must send to the authorities concerned relating to condemned foodstuffs in warehouses, we deem it advisable to issue the following instructions which must be scrupulously carried out.

When the Port Warehouses are aware of a beginning of spoilage in a mass of foodstuffs or when they think the warehousing is dangerous owing to the nature of the foodstuffs or for other reasons they must signal :

For imported foodstuffs.

- 1) The A.C. Food & Agric. S/C - APC 394.
- 2) The Federalimentari - Rome and for infor.to: the competent Ufficio Interregionale.
- 3) The Ministry of Food.
- 4) The Ispettorato regionale Alimentazione competente in that territory.

For UNRRA goods.

- 1) UNRRA - Rome Via S. Nicola Tolentino 7 and for infor., the Delegazione Italiana per i rapporti con l'UNRRA - Via Sallustiana 10.
- 2) The A.C. Food & Agric. S/C - APC 394.
- 3) The Federalimentari - Rome and for infor., the competent Ufficio Interregionale.

The telegram must indicate whether the goods belong to the UNRRA or whether they have been assigned to the Italian Government, and specify the nature of the commodity, the quantity and condition it is in.

The purpose of this telegram is to cause the Organization concerned to take action immediately so as to avoid further spoilage.

The Port Warehouses must then set up a monthly report in which there must be clearly specified :

- a) The quality and quantity of condemned foodstuffs that have been accumulated during the month.
- b) The quality and quantity of condemned foodstuffs on hand at the end of the month (namely by adding to the quantity referring to the monthly report and the quantities carried over from the previous month) with the reasons of spoilage and a statement whether

#9 ./.

./.

the organization concerned was duly informed by telegram from the moment the danger of spoilage appeared.

It is superfluous to indicate the reasons for spoilage when dealing with small quantities of foodstuffs.

Said report must be addressed to :

For imported foodstuffs.

- 1) To the A.C. Food & Agric. S/C-AFO 394.
- 2) " " " " Transportation & Shipping S/C -AFO 394.
- 3) " " " " Federalimentari -Rome and for infor.to:the competent Uffici Interregionali.
- 4) Ministry of Food -Rome.
- 5) To the Ispettorato Regionale Alimentazione competent for the territory.

For UNRRA goods.

- 1) To the UNRRA - Rome Via C.Nicola Tolentino 7 for infor.to: the Delegazione Italiana per i rapporti con l'UNRRA Via Sallustiana 10 Rome.
- 2) To A.C. Food & Agric. S/C-AFO 394.
- 3) " " " " Transportation & Shipping S/C AFO 394.
- 4) Federalimentazione -Rome and for infor.to:the competent Uffici Interregionali.

As you will note, this new procedure will amplify the one in circular No.153 of the Ministry of Food in paragraph 1) : Danger of spoilage or spoilage in Port and National Warehouses (this circular is herewith enclosed)

With a view to render uniform the reports that you will set up in observance to the a.m. dispositions, we hereby include a plan which we believe is fit for the purpose.

It is understood that upon receiving the present circular you will take steps to set up as soon as possible the report in question, sending a copy to the above listed addresses, for the quantities of damaged commodities or those in danger of such accumulated up to the 31st Dec.1945, and thereafter a monthly report starting from said date.

We beg you to keep strictly to the contents of the present and we strongly recommend the utmost precision in setting up the report, which in the signals you will send out, as the A.C. states, are indispensable elements for the decisions to be taken in regard to the immediate movement of the condemned foodstuffs.

Awaiting acknowledgement of the reception of the present circular, we remain,

Yours truly, 2699
.....

SUBJECT : Spoiling supplies.

TO : U.N.R.R.A., Rome (Attn. Mr. J. Imrie)

1. On the 8th November warehouse 676, Naples reported that signs of fermentation were apparent in the following UNRRA supplies :

Corn meal 113.562 tons

Polled oats 107.937 tons

2. On the 27th November at a meeting held at the warehouse, Mr. Lemmer, UNRRA Naples representative, examined the above supplies and found that although their condition was not yet bad some of the sacks did show signs of fermentation. Mr. Lemmer stated his intention of contacting his Rome HQ. to get immediate disposition for the above.

3. Under the date of 13th January in answer to our request concerning certain A.C. supplies, the F.A.O. Naples advised us that no disposal instructions had yet been given for the above supplies.

4. Above information is forwarded to you as it is felt you may be interested.

- 2 -

a) Spoilage (Cont.d)

Canned Meat : 73 Pkgs. = 1.503 kgs. (Depot 676)

Commodity received spoiled at Whse (refuse ex selection), as per instruction issued from 14 C.R.A.S.E., Casoria, Analyst. See our letter of 7th Nov. 1945, ref. No 2457.

Evaporated Milk: 477 Pkgs. = 7.806 kgs. (Depot 676)
 217 " = 4.113 " (" 676)
 Loose cans = 11.661 " (" 1577)
 25.580 kgs.

Commodity received partly spoiled at Whses. See our RR. Nos. 867, 877, 872, 878, 907, 934, 935, 937, 940, 946, 950, 980, 974, 976, 1054, 1078, 1081, 1082, 1085, 1087, 1089, 1091, 1094, 1102. Further spoilage is due to spontaneous leakage of the cans and especially to infiltrations of rain water occurred in the stacks stored outside and in sheltered premises of the Depot 1577.

Peas : 28 Pkgs. = 1.202 kgs. (Depot 677)

Commodity received spoiled at Whse. See our RR. Nos. 1073 and 1080.

b) Major Gatherings and Sweepings

Wheat : 2 Sks. = 48 kgs. (Depot 676)

Hold sweeping. Salvage extra Inventory.

Peas : 30 Sks. = 1.361 kgs. (Depot 676)

Hold gathering and sweeping. Worst part selected as a greater quantity of gathering. See our RR. Nos. 844, 853, 958, 980, 974, 977, 1057, 1062, 1067, 1077, 1081.

Lard : 38 Drs. = 3.450 kgs. (Depot 676)

Commodity received spoiled at Whse (refuse ex selection), as per instruction issued from 14 C.R.A.S.H., Casoria, Analyst. See our letter of 7th Nov. 1945, ref. No 2457.

Evaporated Milk: 427 Pkgs. = 2,806 kgs. (Depot 676)
 217 " = 4,113 " (" 676)
 Loose cans = 11,661 " (" 1577)
 25,580 kgs.

Commodity received partly spoiled at Whses. See our RR. Nos. 862, 877, 882, 898, 902, 923, 934, 935, 939, 940, 946, 950, 980, 984, 986, 1054, 1078, 1081, 1082, 1085, 1087, 1089, 1091, 1094, 1102. Further spoilage is due to spontaneous leakage of the cans and especially to infiltrations of rain water occurred in the stacks stored outside and in sheltered premises of the Depot 1577.

P e a s : 28 Pkgs. = 1,202 kgs. (Depot 677)

Commodity received spoiled at Whse. See our RR. Nos. 1073 and 1080.

b) Major Gathering and Sweepings:

W h e a t : 2 Sks. = 48 kgs. (Depot 676)

Hold sweeping. Salvage extra Inventory.

P e a s : 30 Sks. = 1,361 kgs. (Depot 676)

Hold gathering and sweeping. Worst part selected ex a greater quantity of gathering. See our RR. Nos. 844, 853, 958, 980, 984, 986, 1052, 1062, 1067, 1077, 1081.

L a r d : 38 Drs. = 3,450 kgs. (Depot 676)

Gathering partly received at Whse and partly originated by abundant leakage of the drums. See all our Receiving Reports relative to this kind of Commodity. 1,200 kgs. are suspected to be mixed with poisonous mixtures, poured in while backpiled in Port area.

2095

b) Major Gatherings and Sweepings (Cont.d)

Hold sweeping and gathering. See our RR. Nos. 01163, 01185, 01187.

c) Broken Packages not liable to be
shipped for distant destinations.

<u>Powdered Milk:</u>	210 sks.	=	6.000 kgs.	{ Depot 676)
	220 "	=	5.000 "	
	<u>430 sks.</u>	=	<u>15.000 kgs.</u>	

Stock originated by the re-packing of the contents ex unrepairable barrels received from board. See/our ^{all} RR. RR. concerning this commodity. Since the bagged Dry Milk absorbs the atmospheric moistness more easily and, therefore, is liable to spoil more easily than Dry Milk contained in barrels, it is recommended to dispose of this stock urgently by allocating it locally.

<u>S a l m o n :</u>	Various sacks -	115 Kgs.	(Depot 676)
	Loose cans	<u>107.433</u>	(" 676)
		107.548	

Various Canned Fishes : 7.641 kgs. (Depot 676)

These broken packages were partly received at Whses from board. See all our RR. RR. concerning these items. Further breakages were caused by infiltrations of rain water occurred in the stacks stored outside, which provoked the more or less extended disintegration of the pasteboard constituting the outer packages.

<u>M e a t :</u>	Sacks and loose cans	3.878 Kgs. (Depot 676)

Hold sweeping and gathering. See our RR. Nos. 01163, 01185, 01189.

c) Broken Packages not liable to be shipped for distant destinations.

<u>Powdered Milk:</u>	210 sks. =	6,000 kgs.	{ Depot 676)
	220 " =	5,000 "	
	430 sks. =	15,000 kgs.	

Stock originated by the repacking of the contents of unrepairable barrels received from board. See all our RR. Nos. concerning this commodity. Since the bagged Dry Milk absorbs the atmospheric moisture more easily and, therefore, is liable to spoil more easily than Dry Milk contained in barrels, it is recommended to dispose of this stock urgently by allocating it locally.

<u>S a l m o n :</u>	Various sacks =	115 Kgs.	{ Depot 676)
	Loose cans =	107.433 "	
		107.548	

Various Canned Fishes :

Various Figs.	7.641 kgs.	{ Depot 676)
---------------	------------	---------------

These broken packages were partly received at Whse from board. See all our RR. Nos. concerning these items. Further breakages were caused by infiltrations of rain water occurred in the stacks stored outside, which provoked the more or less extended disintegration of the pasteboard constituting the outer packages.

<u>M e a t :</u>	Sacks and loose cans	3.878 Kgs.	{ Depot 676)
------------------	----------------------	------------	---------------

These sacks and loose cans are originated by the repacking of cans contained in broken cases, which arrived at Depot in a very bad condition, owing to the decomposition of the wood caused by a long exposition to meteoric waters and which could not be repaired. See our RR. Nos. 841, 848, 857, 867, 1055, 1152, 1157, 1162, 1168, 1173. This item was received from LA C.R.A.S.C., Casoria.

c) Broken Packages not liable to be shipped for distant destinations (Cont.d)

Evaporated Milk: 1.067 Sks. = Kgs. 21.054 (Depot 676)
 Loose cans..... " 15.785 (" 626)
 1.000 Cans " 15.732 (" 1577)
 Loose cans..... " 17.146 (" 1577)
 Kgs. 73.717

These broken packages, for which it was necessary to eliminate the outside pasteboard involucre, were partly received ex board. See our R.s R.s concerning this item. Further brakages were caused by a more or less extended disintegration of the cardboard which was provoked by a spontaneous leakage of the cans or by infiltrations of rain water in the stacks stored in the open or in sheltered premises of the Depot 1577.

The oxidation, now in process, of the outside surface of the metallic cans makes the preservation of this item very precarious, causing a gradual and unavoidable increase of the spoilage percentage. We insist on the necessity of a prompt allocation of this item for the immediate local consumption.

(See our letter ref. N° 5084 dtd 20 Dec. 1945, addressed to Ispettorato Regionale dell'Alimentazione).

Powdered Eggs : 230 Ctns. = Kgs. 5.842 (Depot 676)

These packages were received at Depot ex board with the outside cardboard more or less torn. (See our R. R.s Nos. 1027 and 1078). To said packages the ones torn by rats, and disclosed while removing the stacks, must be added.

Soup : 72 sks. = Kgs. 5.018 (Depot 677)

This commodity was repacked in burlap bags, as the original small paper sacks were torn during the loading and unloading handling.

d) Item showing signs of spoilage owing to fermentation.

Corn Meal : 2.506 Sks. = Kgs. 111.747 (Depot 676)

Item ex U.M.R.R.A. supplies. See our letter ref. N° 1227 dtd 16 Aug. 1945.

These broken packages, for which it was necessary to eliminate the outside pasteboard involucre, were partly received ex board. See our R.s R.s concerning this item. Further breakages were caused by a more or less extended disintegration of the cardboard which was provoked by a spontaneous leakage of the cans or by infiltrations of rain water in the stacks stored in the open or in sheltered premises of the Depot 1577.

The oxidation, now in process, of the outside surface of the metallic cans makes the preservation of this item very precarious, causing a gradual and unavoidable increase of the spoilage percentage. We insist on the necessity of a prompt allocation of this item for the immediate local consumption. (See our letter ref. N° 5034 dtd 20 Dec. 1945, addressed to Ispettorato Regionale dell'Alimentazione).

Powdered Eggs:

230 Ctns. = Kgs. 5.842 (Depot 676)

These packages were received at Depot ex board with the outside cardboard more or less torn. (See our R.s Nos. 1029 and 1078). To said packages the ones torn by rats, and disclosed while removing the stacks, must be added.

Soup:

72 sks. = Kgs. 5.018 (Depot 677)

This commodity was re-packed in burlap bags, as the original small paper sacks were torn during the loading and unloading handling.

d) Item showing signs of spoilage owing to fermentation.

Corn Meal: 2.506 Sks. = Kgs. 111.747 (Depot 676)

Item ex U.N.R.R.A. supplies. See our letter ref. N° 1227 dtd 16 Aug. 1945.

 35 " = 1.347 " (" 676)
 709 Sks. = 4.536 Kgs.

Hold sweeping. See our R.R. Nos. 421, 436, 516, 664, 668, 674.

Flour: 15 Sks. = 500 Kgs. (Depot 677)
 4 " = 151 " (" 676)
 19 Sks. = 651 Kgs.

Hold sweeping. See our R.R. Nos. U.621, U.674.

d) Major Breakages:

Various Canned Fish: 630 Cs. = 12.860 Kgs. (Depot 676)

These broken packages were partly received at Whse ex board. Further breakages were caused by infiltrations of rain water occurred in the stacks stored outside, which provoked the more or less extended disintegration of the cardboard constituting the outside involucre of the packages.

Evaporated Milk: 180 Sks. = 7.200 Kgs. (Depot 677)

Stock originated by the re-packing of the contents or unreparable

This flour was recovered by sifting the contents of the sacks of pose of old stacks, which resulted to be semi-spoiled. It is deemed that this commodity, mixed with good flour, may be used for bread.

c) Major Gatherings and Sweepings:

Peas and Beans: 153 Sks. = 1.212 Kgs. (Depot 676)
 521 " = 1.277 " (" 677)
 35 " = 1.347 " (" 676)
 709 Sks. = 4.536 Kgs.

Hold sweeping. See our R. S. Nos. 421, 436, 516, 664, 668, 674.

Flour: 15 Sks. = 500 Kgs. (Depot 677)
 4 " = 151 " (" 676)
 19 Sks. = 651 Kgs.

Hold sweeping. See our R. S. Nos. U.621, U.674.

d) Major Breakages:

Various Canned Fish: 630 Cs. = 12.860 Kgs. (Depot 676)

These broken packages were partly received at these ex board. Further breakages were caused by infiltrations of rain water occurred in the stacks stored outside, which provoked the more or less extended disintegration of the cardboard constituting the outside involucre of the packages.

Evaporated Milk: 180 Sks. = 7.200 Kgs. (Depot 677)

Stock originated by the re-packing of the contents ex unreparable barrels received from board. (See all our R. S. concerning this commodity). As suggested above for the A.C. Evaporated Milk, it is necessary to arrange for an urgent allocation of this commodity for the immediate consumption, in order to avoid the spoiling of same, going to absorption of the atmospheric moistness.

d) Major Breakages: (Cont.d)

W e t F l o u r : 675 Sks. = 30.403 Kgs. (Depot 677) (.)

Wet and Infested

B e a n s : 107 Sks. = 6.430 Kgs. (Depot 677) (.)

W e t P e a s : 78 Sks. = 3.404 Kgs. (Depot 677) (.)

(.) Commodity received wet at Whses. See our letters to U.N.R.R.A. Nos. 3052 and 51 dtd 8 Dec. 45 and 4 Jan. 46, as well as our Receiving Reports relative to these commodities.

e) Items showing signs of spoilage owing to fermentation:

Rolled Oats : 1.956 Sks. = 88.661 Kgs. (Depot 678)

See our letter ref. N° 2467 dtd 2 Nov. 45.

f) Infested Items:

B e a n s : 3.447 Sks. = 202.452 Kgs. (Depot 677)

Commodity received infested at Whse. See our letter to U.N.R.R.A. ref. N° 51 dtd 4 Jan. 46. It is necessary to arrange for the immediate issue of this item, in order to avoid both a more serious damage of the goods and the danger of a contagion to other commodities.
