RESTRICTED.

Subject is transfer of civil supply responsibility from ALCOM at Army. CITE WPGDS. Reference is made to AGWAR Cable WX 86356, dated 1 December 1945, which delegates responsibility to PENBASE for accounting and distribution of CC/AC supplies arriving after 30 November. PENBASE responsibility is applicable only to those supplies for which requisitioning ceased as of 31 August 1945, and which were formerly accounted for by ALCOM as a charge against the Italian Government.

ALCOM advises that these supplies may be further identified by the following MGS No: R 13, R 43, R 54, R 84, R 85, S 2, S 8, S 29, S 68, T 24, T 33, V 41, V 90, T 33, V 41, V 90, V 2, V 3, V 77, W 79, X 4, X 94, Y 2, Y 27, Y 58, Y 69, Y 73, Y 58, Y 69, Y 73, Y 98, Z 28, Z 68.

It is assumed that the great majority of supplies requisitioned on this program have already arrived in this theater and been disposed of, however the SS James Schureman, R Williams, and John Breckinridge discharged some 18,000 tons on this account in December and January current.

PENBASE is establishing procedure to dispose of such supplies to Italian Government thru surplus property channels. To accomplish same it is necessary to receive all advance information possible as to total dues in, shipment markings, and complete identification as to nomenclature of I on ships manifests. It is proposed that PENBASE will not take physical possession of such supplies, but turn them over to Italian Government Agent at ships side and prepare SPB form B from ships tally.
