OGGETTO: Materiali occorrenti al Genio
Civile di Civitavecchia.

In relazione alla lettera del 5 corr.n. AC/23/100/Tn6,
si comunica che questo Ministero ha disposto una assegnazione
di 100 Tonn. di tubi di ghisa a favore del Ministero dei Lavori
Pubblici, presso le acciaierie di Terni.

Pertanto il Genio Civile di Civitavecchia dovrà rivol-
gersi al predetto Ministero per la fornitura dei m/100 di tubi
richiesti.

COMMISSIONE ALBENTA - Sottocommissione Trasporti

Oggetto: Materiali per carico
sale nel porto di Cagliari
(conto Soc. Montivecchi e Macchia-
reddu - Cagliari)

ROMA

- 1) Si risponde a nota AC/23/9I/Tn6, in data 25/10/1945 della Sottocommissione Trasporti.
- 2) I materiali dei quali si segnala il fabbisogno, per il sollecito caricamento del sale nel porto di Cagliari (botti di legno, redancie di ferro per cavo e carrucole di legno), non sono soggetti a controllo e non formano perciò oggetto di assegnazione da parte di questo Ministero.
- 3) Per l'approvvigionamento dei suddetti materiali, la Soc. Montivecchi di Cagliari dovrà pertanto rivolgersi al libero commercio.

Civitavecchia 20 October 1945

SUBJECT: Railway weighbridge at Civitavecchia Port.

We refer to our letters of 14 June and 26 Sept. 1945, to which no reply has been received.

There are arriving in this port steamers with bulk grain which has to be weighed prior to despatch.

The lack of a railway weighbridge, asked for since 14 June 1945 has caused, and causes, serious inconveniences among which I would mention:

- a) slowness in discharge due to weighing at ship's side, which has reduced by 50% the daily discharge output of steamers, causing heavy expenses to the Italian Govt. owing to the long stay of ships in port;
- b) the double handling of goods with heavy increase in cost of discharging operations;
- c) a greater waste of grain, in consequence of the multiple handling of the goods.

The seriousness of the situation requires prompt intervention on the part of the responsible Authorities, in order that the weighbridge, which was asked for four months ago, be set up.

We would point out that the expenses which the State incurs under present conditions of discharge of grain in bulk are considerably higher than the cost of a weighbridge which latter item would, in a short space of time, be fully covered.

Please acknowledge receipt.

CIVITAVECCHIA

=====

ARGOMENTO = Sistemazione di un bilico ferroviario al porto.--

=====

Si fa riferimento ad fogli di questo Ufficio in data 14/6/1945 e 26/9/45, a tutt'oggi rimasti senza risposta.--

E' cominciato l'arrivo in questo porto di piroscafi con grano alla rinfusa da pesarsi alla partenza.--

La mancanza del bilico ferroviario, già richiesto sin dal 14/6/1945, ha causato e causa gravi inconvenienze, fra le quali cito:

a) la lentezza nelle operazioni di discarica dovuto alla pesatura sottobordo il che ha diminuito del 50 % la rata giornaliera di discarica dei piroscafi con gravi oneri per Stato Italiano in conseguenza della maggiore sosta delle navi in porto;

b) il doppio maneggio delle merci con un forte aumento di spese nelle operazioni di discarica;

c) un maggior sciupio del grano in conseguenza della maggiore manipolazione delle merci;

La gravità della situazione richiede un pronto intervento delle Autorità responsabili perchè sia provveduto a quanto da oltre quattro mesi è stato richiesto.--

Si fa presente che le spese che lo Stato deve sostenere nelle attuali condizioni di scarico di grano alla rinfusa sono talmente superiori a quelle che si avrebbe in caso di messa a disposizione del bilico, da compensare in brevissimo tempo gli oneri che lo Stato stesso dovrà sopportare per tale sistemazione.--

Prego accusare ricevuta.--

1 NOV. 1945

SUBJECT: Procedure for obtaining U.S. Army Theatre
Surplus for AC/Italian Government.

TO : Headquarters, Allied Commission, APO 384.
(Attn: Economic Section).

1. Attached is a list of correspondence, the subject matter of which appears to fall within the procedure for obtaining U.S. Army surplus through AMLC. This procedure was discussed by Colonel Gaikine/Captain Iathrops and Mr. Dickens/Captain Iathrops.

2. Briefly, this procedure calls for securing by AC, an indication of willingness on the part of the Italian Government to purchase the required supplies through AMLC, and submission of the requirements to AMLC. AMLC will then endeavour to make the supplies available to the Italian Government, and will extract the requirement to file if the Army has not already secured the needed supplies surplus to AMLC.

3. AMLC's letter of 11.3.5/504-1-1 to file dated 19 Oct., copy to Transportation and Commission, and 1-2 letter 6-22 of 25 October sets forth the action taken by this Headquarters to release equipment for the civilian operated section of the Naples port. AC should complete arrangements directly with AMLC in order permanently to secure the equipment for the Italian Government.

4. No other action is being taken by 6-4 APO or this section for the supply of items detailed in the attached list of references.

5. Requests for material from civilian theater stocks may be submitted to Chief Disposal Office, Ministry of War. If the circumstances warrant it, your requirements may be submitted to GMA CMF, under the procedure outlined in our letter 1-21 of 20 October to Economic Section.

6-3 Section
APO 512

1. Attached is a list of correspondence, the subject matter of which appears to fall within the procedure for obtaining U.S. Army surpluses through AMLG. This procedure was discussed by Colonel Gaubkins/Captain Lathrop and Mr. Dickens/Captain Lathrop.

2. Briefly, this procedure calls for screening by AG, an indication of willingness on the part of the Italian Government to purchase the required supplies through AMLG, and submission of the requirements to AG. AG will then endeavour to make the supplies available to the Italian Government, and will extract the requirement to AG if the Army has not already received the needed supplies surplus to AG.

3. AFMUSA letter AG 413.5/904-7-0 to AG dated 19 Oct., copy to Transportation sub Commission, and 3-0 letter 3-3-0 of 23 October sets forth the action taken by this Headquarters to release equipment for the civilian operated section of the Naples Port. AG should complete arrangements directly with AMLG in order permanently to secure the equipment for the Italian Government.

4. No other action is being taken by 3-4 AFMUSA or this Section for the supply of items detailed in the attached list of references.

5. Requests for material from British theater stocks may be submitted to Chief Disposal Office, Ministry of Supply, Rome. If the circumstances warrant it, your requirements may be submitted to GHA CMF, under the procedure outlined in our letter P-21 of 25 October to Economic Section.

For the Assistant Chief of Staff, 3-5:

D.2. LATHROP, Captain SAC,
Economics & Supply Div.

SUBJECT : Barbed Wire and Nails for Port of Civitavecchia

TO : ALCOM Port Liaison Officer - Naples
Attention: Capt. T. E. Ramsay

1. The Port of Civitavecchia is in urgent need of the following material:

25 Ks. approx. 22,000 ft. of Galvanized Steel Barbed Wire,
Type A - 2 strand - Gauge No. 12 - 4 points 4 in. spacing - 100 lb. coils.

100 Ks. approx. 225 lbs. staples or nails specially suited
for fixing barbed wire.

2. The above is required to complete the work of fencing in of the port area of Civitavecchia (a Priority "A" job) for the purpose of reinforcing port security measures.

3. As we understand a large quantity of barbed wire is available in this theatre, will you please contact PMS South, Naples (who, we are told, handle this material) and arrange for necessary requisition to be placed with them, ensuring that the material requested is despatched with as little delay as possible to

ALCOM Port Liaison Officer (Maj. P. Morotti)
Civitavecchia for Capitano di Porto
Civitavecchia

4. Your special and prompt attention will be greatly appreciated.

(attn. Sqdr. Leader C. McKenzie)

1. We are attaching herewith 3 copies of Controlled Materials Forms AC-MAT.10. covering one metric ton of calcium carbide in drums for demolition work on SS. "SABBIA" at Civitavecchia.

2. As telephoned this morning, the Terni Company whom we approached, state that they have received no intimation that calcium carbide is no longer controlled. In the circumstances they cannot effect delivery without your approval.

3. As it is of the utmost importance that this carbide be delivered without delay, we would appreciate your immediate and prompt attention.

SUBJECT : Paint for Barges *SUSSEX* and *DOLLY* at Civitavecchia

TO : ALCOM Port Liaison Officer, Naples
Attention: Capt. T. E. Ramsey

1. Reference telephonic conversation of this morning
Capt. Ramsey/Mr. Ghilardi.

2. The Ministry of Industry and Commerce, Rome, at our request, instructed by signal yesterday the Ufficio Provinciale Industria e Commercio, Naples, Piazza della Borsa (attention Dr. Scotti) to deliver to you the undernoted paint required for the above 2 barges, which are being used for the transport of coal from Civitavecchia to Fiumicino.

4 cwt of anti-fouling paint
2 cwt of anti-corrosive paint

3. We should be glad if you would contact the above gentleman and Capt. Smith, of the NSA, Naples, and arrange for the material to be shipped per S.S. *WILLIAM CUSHING*, which is due to sail shortly from Naples to Civitavecchia.

4. The paint is to be consigned to Port Liaison Officer, Civitavecchia (Maj. P. Moretti), and we shall be obliged if you will kindly advise us as soon as shipment has been effected.

Wharf No. 6 at Port of Piombino

TO : Commerce Sub-Commission, Materials Division

1. We attach hereto 3 copies of Controlled Materials Form
AG Form Mat 10, for 100 metric tons of cement required for repair
work to damaged areas of wharf No. 6 at the Port of Piombino.

2. As this material is urgently needed, we shall be exceed-
ingly obliged if you will kindly arrange with C.E. PBS Leghorn for
the cement to be supplied from the Italcementi works at Civitavecchia.

3. Should C.E. PBS Leghorn insist on consignee's supplying the
necessary number of bags, please let us know so that we may be able
to make arrangements with the Ilva Company, Piombino, who will be
taking delivery of the cement.

SUBJECT : Barbed wire and Staples for Port of Civitavecchia

TO : ALCOM Port Liaison Officer - Leghorn
Attention: Capt. A.C. Ramsey

1. We are informed by ALCOM Port Liaison Officer, Naples, to whom we had sent instructions to put in requisition for 82,000 ft. of barbed wire and 225 lbs. of staples, that as the material in question is not available at Naples, MTOUSA Caserte are wiring to FES Main, Eng. Section, Leghorn, to issue a release to you for the quantity in question.

2. We understand copy of the signal will be sent to you and on receipt of same, we shall be glad if you will kindly arrange for the material to be despatched with as little delay as possible to Port Liaison Officer, Civitavecchia (Maj. P. Moretti), for delivery to Capitano di Porto, Port of Civitavecchia, advising us at the same time when despatch has been effected.

3. There follow, for your guidance, details of the material concerned:

25 km. (approx. 82,000 ft.) galvanized steel barbed wire,
Type A-2 strand-gauge 12-4 in. spacing-stock No. 42-9424500-100
Unit, coils, each coil about 1200 ft.

100 kilos (approx. 225 lbs.) staples (galvanized steel)
1 1/2 in. No. 9 - Stock No. 42-8680.150-090

Requisition No. MTO Eng. 4-5874, dated 30 August 1945.

SUBJECT : Barbed Wire and Pickets for Port of Civitavecchia

TO : ALCOM Port Liaison Officer - Naples
Attention: Capt. T. E. Ramsey

1. Reference our letter AG/23/45/Tn6 of 28 August 1945, and telephonic conversation Sgt. Oswald/Mr. Chilarli of this morning.

2. We are glad to hear that the 3 tons Concertina barbed wire and 5 tons ordinary barbed wire, together with the pickets, are being loaded by rail for Civitavecchia. We now await your further advice with car numbers and other details.

3. As regards the 82,000 ft. of barbed wire and 225 lbs. of nails, we note you are contacting MFOUSA Headquarters, Caserta, and will be doing the needful as regards putting in requisition, etc. We repeat that it is of the utmost importance that no time be lost in procuring this barbed wire and we rely on your doing your very best to see that matters are expedited. Please keep us closely posted with the position.

SUBJECT : Materials Needed for the Barges SUSSEX and DOLLY
TO : Direzione Generale Marina Mercantile
Ispettorato Funzionamento Porti
R O M E (Attn: Col. E. Lauricella or Col. Binetti)

1. Reference our letter AG/12/32/Tn6 of 2 August 1945.
2. We understand from recent conversation with Col. Lauricella that the material required by the Compagnia Marittima of Rome, owners of the above two coal barges, could be obtained from either the Taranto or Naples Naval Bases of the Italian Royal Navy, but, owing to naval regulations, it would not be possible for this material to be delivered to a private concern.
3. We informed the Compagnia Marittima of the position and requested them to make every endeavour to obtain the two anchors (about 4 cwt.) and the 400 meters of chain from Italian ship yards or other private concerns. We have now received from the said firm a letter, copy enclosed herewith, which is self-explanatory. As the material is urgently required in order to place these two barges in efficient working order, we shall be glad if you will kindly endeavour to make arrangements for the material to be despatched to Allied Commission Port Liaison Officer (Maj. P. Moretti), Civitavecchia, for delivery to the Compagnia Marittima at that port. It is understood, of course, that the cost of the material and cost of transport is payable by the Compagnia Marittima. Your special attention to this matter will be greatly appreciated.

Allied Commission,
Ports & Warehouse Division,
Rome

Anchors and Chains for "SUBSKI" and "DOLLY".
Coal transportation on Civitavecchia/Rome run.

With reference to our letter of the 30th of July last with which we exposed our need for the run of the above two barges of 200 meters of chain and one anchor for each craft, we further beg to state that all endeavour made both by us direct and through the medium of our agents all along the coast up to Leghorn included did not allow us to find these materials which are lacking everywhere.

We therefore sincerely hope that you will do your utmost to procure them so as to allow us the use of these two barges which are so badly wanted on our above mentioned service as you are very well aware.

Thanking in advance,

yours truly.

COMPAGNIA MARITTIMA

NB. 2 Anchors of about 4 cwt's each.
400 meters of approx. 5/8" short-link chain. 7641

SUBJECT : Release Order No. AC 3294 - 24/8/45
Cement for Fiumicino

TO : Capitano di Porto - Fiumicino

1. Attached herewith you will find Release Order No. AC 3294 dated 24 August 1945, from the Commerce Sub-Commission, covering 150 metric tons of cement to be used for reconstruction work at the Canal Port of Fiumicino which is being carried out by Messrs. Beniamino Cicchetti for account of Genio Civile, Ministry of Public Works, Rome.

2. This material is to be collected by Messrs. Beniamino Cicchetti from stocks located at Italcementi, Civitavecchia; consignees must supply the necessary number of bags, pay for cost of bagging, and collect the cement with their own trucks.

3. Collection should be made by 15 September 1945, failing which this Release Order ceases to be valid.

4. Will you please notify this office when delivery is completed on the above Release Order.

SUBJECT : Barbed Wire and Pickets for Port of Civitavecchia

TO : ALCOM Port Liaison Officer - Naples
Attention: Capt. T.E. Ramsey

1. Reference your letter 23 August and telephonic conversation of ~~some date~~ with Lt. Laiolo.

2. We note that the 5 tons Concertina barbed wire and 5 tons ordinary barbed wire, as well as the pickets, will be dispatched from Cancelli by rail tomorrow to Civitavecchia for delivery to ALCOM Port Liaison Officer Civitavecchia.

3. No doubt in advising us of actual dispatch and correct quantities, you will send copy of communication to the ALCOM Port Liaison Officer, Civitavecchia.

4. Reference our letter AO/23/43/Tn6 of 23 August, it is of the utmost importance that a very special effort be made by you to procure the 22,000 ft. of barbed wire and necessary number of nails for prompt dispatch to ALCOM Port Liaison Officer, Civitavecchia, for Capitano di Porto, Civitavecchia.

5. This material, as already informed you, is required to complete the port security measures, and as it is feared there may be trouble with the number of refugees using the port of Civitavecchia, you will realize the absolute urgency for this material to be handed to the Captain of the Port for the work of erection to be proceeded with.
