Ref. W/E/1595/Tn6

SUBJECT : Peas ex S.S. JOHN CLARK
(Our previous ref. W/E/1552/Tn6, 18 September 1945;
Your ref. P-8-AU, 22 September 1945)

TO : AFHQ, G-5 Section
APO 512, U.S. Army

1. It is agreed that there is little useful purpose in further investigation of subject matter.

2. However, our earlier letter apparently did not make clear that BSD Ancona originally refused to accept the peas ex the S.S. JOHN CLARK because they had not received instructions to that effect from S and T AFHQ. This was the information given the ALCOM Port Liaison Officer in Ancona. As a matter of fact, 4 days elapsed between the time this office was advised by the Food Sub-Commission that AFHQ was arranging for the peas to be delivered to S and T for Austria before S and T finally acknowledged to the ALCOM Port Liaison Officer in Ancona that they would accept delivery.

3. ALCOM had sufficient storage space in Ancona to accept delivery of the peas, but did not desire to put them in its warehouses and later to release them for Austria, inasmuch as it had been agreed by all that this was work to be done by S and T.

4. The anticipation in your final paragraph that all Austria goods will arrive in vessels fully loaded for Trieste is a most satisfactory solution in the opinion of this office.

SUBJECT: Pulses ex JOHN CLARK

TO : Headquarters, Allied Commission, APO 394
(Attn: Transportation Sub-Commission - Ports &
Warehouse Division and Shipping Branch)

Ref your W/E/1562/Tn.6 of 18 September.

1. It is agreed that the decision to divert the greater part of the pulses on board the S.S. JOHN CLARK to AUSTRIA resulted in certain difficulties which have now been overcome.
2. Paragraphs 2 and 3 of your above letter do not, however, reflect the correct position. Advice was received from CCAC that due to an error an excess quantity of pulses had been set up for shipment to ITALY and AFHQ was instructed to adjust the matter by diverting 2293 tons to AUSTRIA. It was noted that you had decided to discharge the JOHN CLARK on the East Coast and a study of its manifest revealed that this was the most suitable vessel to select to carry out the necessary transfer. No authority in WASHINGTON issues instructions on the disposal of any vessel as you suggest.
3. At that stage a complication arose in that from information received it was understood that the ship would not reach BARI until the 13th and would be at ANCONA somewhat later. In actual fact, however, the vessel was several days in advance of this schedule and there had been insufficient time to warn all concerned of the new destination of the cargo. On being advised of the altered circumstances S and T made the necessary arrangements for storage and M & Tn at short notice set up a coaster for onward transshipment to TRIESTE. For your information it is pointed out that S and T are fully aware of the normal procedures regarding AUSTRIAN cargoes having already handled considerable quantities, and your para 3 does not therefore apply.
4. You are correct in stating that the issue became most confused as the result of an erroneous report that the goods in question were infested and that this originated through S and T channels. This Section does not know how this came about but it is mentioned that owing to the high quality of all shipments from the United States considerable doubts were felt on the matter which was, therefore, referred to the Allied Commission, who agreed that 80% were indeed infested.

5. It is understood that one of your main difficulties was that you had insufficient storage space in ANCONA to deal with the cargo in question. It is, therefore, pointed out that you had routed the JOHN CLARK to ANCONA before the decision was taken to divert part of its cargo. If, therefore, your requested destinations for vessels are related to port acceptance, including ability to handle the cargo, you must have been satisfied originally that you could deal with this vessel.

6. It is expected that all AUSTRIA goods will arrive in vessels fully loaded for TRIESTE and therefore no difficulty should arise in future, and there should be no question of handling cargoes in ITALY. If the problem does occur again it will be handled as agreed by S and T and M & Tn. It is not considered therefore that any further investigation, as you suggest, would serve any useful purpose.

Ref. T/E/1368/TMS

SUBJECT : Peas on the S.S. JOHN CLARK

TO : AFHQ, G-5 Section
APO 514, U.S. Army

1. Although final disposition has now been arranged for the 2,524 tons of peas on the S.S. JOHN CLARK, it seems advisable at this time to review the great confusion and needless difficulties encountered in the disposition of this importation.

2. Original manifest indicated that these peas were imported for the account of Allied Commission in the same manner as other food supplies on the S.S. JOHN CLARK. Apparently, while the ship was enroute, instructions were issued by some authority in Washington, changing the consignee to MOD Austria. This information was received by this office from the Food Sub-Commission, who had received this advice by 'phone from G-5, AFHQ.

3. It has been definitely agreed by G-5, AFHQ, S & T, AFHQ, and Allied Commission that importations for MOD Austria will be handled by S & T. Despite this, either S & T at Ancona, where the S.S. JOHN CLARK discharged, did not receive proper advice or, for some unknown reason, did not choose to follow what may be presumed to be standard operating procedure and refused to accept the above mentioned peas. They requested that Allied Commission at Ancona warehouse the peas for onward forwarding to Austria at some later date. This Allied Commission refused to do.

4. After numerous 'phone conversations, MOD Ancona agreed to accept delivery of the peas. They received some quantity of them and shortly thereafter refused to accept any additional quantities, stating that the peas were 80% infested with weevils. Again numerous 'phone conversations took place and it was agreed that the Comandante Agrario at Ancona would take delivery of the peas from MOD, although by this time approximately 1,500 tons had been back-piled in the port. As Comandante Agrario was making arrangements to dispose of the peas, advice was received by ALCOM Depot Ancona from MOD Ancona that an error had

4066

been made and that the peas would be accepted by BND for their own disposition. They requested that the peas in the port remain there since they were to be shipped by water a few days later. The S.S. JOHN CLARK had been discharged in the Italian section of the Antona port.

6. It would seem there was a noticeable lack of liaison in an attempt to avoid normal responsibility.

5. It is suggested that G-5, AFHQ, investigate from their end to verify the information as stated above. It is further suggested that some procedures be adopted to avoid repetition of incidents of this kind.
