SUBJECT : S/S FLANDERS.

I. In connection with the expected call on the 13th of February of S/S FLANDERS, loaded with about 5430 tons of copper and 3200 tons of Chilean nitrate at Genoa, where a portion of the cargo will be unloaded, previous to the call of the ship at Leghorn, it would be appreciated if in the quantities unloaded at Genoa could be included 1000 tons of blister copper intended for processing in Northern Italy plants.

Unnecessary movement by rail from Leghorn, pilfering, losses, etc. could thus be avoided.

The I.C.E. has been duly informed and agrees with our request.

2. While awaiting your confirmation we thank you in advance and remain.
