1. Representations have been made to this Headquarters by the Ministry of Industry, Commerce and Labour, on behalf of the subject firm for the return of machinery as per attached list, requisitioned on 3rd October or 3rd November 1944 (both dates appearing on requisition form) by Capt. T.J.D. Lafferty, R.A.O.C. of your Headquarters.

2. This firm is employed by Public Works and Utilities Sub-Commission of this Headquarters in the execution of joinery work and timber sections for bridge construction connected with the reconstruction of Route 3 (Via Flaminia) and the bridges on Route 4 (Via Salaria).

3. This work is severely handicapped by the lack of the above-mentioned machinery, apart from the construction work on cemeteries for the Polish Forces at Cassino and the French Forces at Naples, which are also being carried out by Messrs Ciocchetti & Coy.

4. It would be appreciated by this Headquarters if an examination could be made as to the possibility of releasing the machinery and returning it to the owners at as early a date as possible.

For the Chief Commissioner:

Copy to : -

A.F.H.Q., G-5 Section
A.F.H.Q., G-4 American
A.F.H.Q., G-4 British

SOCIETA' AN. COOPERATIVA EDILIZIA

"Roma Eterna,"

Sede: VIA DEI CAMPANI N. 38 - ROMA - TEL. 490.007

Roma, 25 Aprile 1945

Spett. Sezione Alleata A.O.

Questa Soc. AN. Coop. Edilizia ha in corso per conto del Genio Civile di Roma (Ing. Fraschetti) lavori di sgombrare macerie delle zone colpite da azioni belliche in Fregene, Ardea, Pratica di Mare.

Per lo sgombrare delle suddette macerie si fa' uso di un Motocarro F.B. e per il trasporto del personale dirigente si fa' uso di una Balilla autovettura.

Tanto il Motocarro e la Autovettura sono fornite di gomme in cattivissime condizioni.

Per tanto si chiede a questa On. Sezione di volere concedere autorizzazione di prelevare dal quantitativo assegnato al Genio Civile di Roma n.7 ^{usate} gomme della misura 6.00 X 16

Ringraziando

14 Mar 45

Major Chamberlin, Regional Engineer,
AC Southern Region,

DAD Salvage (Conversation SO Rds -SO Salvage refers).
Capt. Gentry, PW & U Sub-Commission,
AC LAZIO Region.

1. Further to CE.4532 dated 10 Feb 45 giving procedure for obtaining release of tyres from Salvage, it is understood that the AC Transportation Sub-Commission have not complied with your request for Tyres on the grounds that the authority quoted was for AC Establishment Vehicles only.
2. It has been confirmed that tyres for the Genio Civile vehicles and vehicles of approved contractors can be obtained under this authority, when the AC Transportation Sub-Commission arrange for the sale of such tyres through the AC Commerce Sub Division who are responsible for the financial accounting.
3. The attached letter ref 188/AG7 dated 1 Mar 45 with Lists Nos. 1 and 3 from the Genio Civile forwarded herewith for your attention included the following demand for tyres with inner tubes:-

	10 No.
5.50 x 18	118
6.00 x 16	18
5.50 x 15	5
4.50 x 17	5
5.25 x 17	7
6.50 x 20	2
3.50 x 19	8
32.00 x 6	

5160

DAD Salvage (Conversation 50 Rds -SC Salvage refers).

Capt.Gentry, PW & U Sub-Commission,

AC LAZIO Region.

1. Further to CE.4532 dated 10 Feb 45 giving procedure for obtaining release of tyres from Salvage, it is understood that the AC Transportation Sub-Commission have not complied with your request for Tyres on the grounds that the authority quoted was for AC Establishment Vehicles only.

2. It has been confirmed that tyres for the Genio Civile vehicles and vehicles of approved contractors can be obtained under this authority, when the AC Transportation Sub-Commission arrange for the sale of such tyres through the AC Commerce Sub Division who are responsible for the financial accounting.

3. The attached letter ref 188/AG7 dated 1 Mar 45 with Lists N°s.1 and 3 from the Genio Civile forwarded herewith for your attention included the following demand for tyres with inner tubes:-

	10 N°.
5.50 x 18	118
6.00 x 16	18
5.50 x 15	5
4.50 x 17	5
5.25 x 17	7
6.50 x 20	2
3.50 x 19	8
32.00 x 6	10
210 x 20	
Total	183

5:60

This list does not include contractors' vehicles which, in the case of the FOGGIA Province are reported immobile on account of lack of tyres and tubes.

4. Capt.B.J.Jefferson of the AC Transportation Sub-Commission is acquainted with the proper procedure and a demand (for your total requirements) signed by this officer and addressed to DAD Salvage 3 District will receive attention.

25 April 1945

Subject: Additional Transport for A.C.

To : Economic Section.

1. It is imperative that Engineer Officers assigned to Regions have transport allocated on an individual basis rather than share in a pool. To substantiate the necessity for such transport the activities of an officer in charge of highways and bridges are briefly outlined below:

- (a). Duties require that 90% of Officer's time be spent in travel on roads in which work is being performed.
- (b). Many emergency trips cannot be anticipated and transport requested in advance.
- (c). Travel and full utilization of vehicle is expedited by having regular driver assigned to officer who becomes acquainted with work locations and individuals with whom contacts are required.

TRANSLATION

By: C.Tatti

S.A.G. CIOCCCHETTI AND CO - BUILDERS

Reference : rd/1274

18 April 1945

To : Public Works and Utilities S/C.

Subject: Restitution of requisitioned machinery.

Application is hereby made for restitution of the machinery listed hereafter, which had been requisitioned and is still in your possession, as it appears from the enclosed photostatic copies of the requisition note and receipt:

- 1). Circular saw
- 2). Top planing machine
- 3). Thicknessing machine
- 4). Band saw.

We need the a/m machinery for the prosecution of our activity, and mainly for works awarded to us by your Office. In fact, the Joinery Dept. of our Factory in Rome is engaged in building wooden parts for tools, wheelbarrows, trailers and many other constructions intended for our building yards engaged in the total rehabilitation of Route 3 (Flaminia) and of the bridges on Route 4 (Salaria).

Apart from this, we need our machinery also for other important works, such as the construction of the Polish Forces Cemetery at Cassino and the works at Naples Cemetery for the French Forces.

Trulu yours.

For S.A.CIOCCCHETTI

Public Works and Utilities Sub-Commission

Subject: Derequisition of Italian
automobile HQ No. 191
(Bianchi) to original
owner Edoardo Partini.

20 April 1945

79

To : Commanding Officer, 2675 Regt.
APO 394

1. It is desired that the above car be derequisitioned to the original owner and contractor in as much it is needed on essential government construction.

2. This car was given voluntarily for the use of A.C. originally with the understanding that it would be returned if and when it would be used on essential government work. This office agreed to accept and return the above vehicle for the Commission on the above basis.

3. In as much as this Italian Contractor has actively assisted this organization in every way possible voluntarily giving us the use of this car and now needs it on essential government construction work, I recommend that it be returned to him at the earliest possible moment.

5 April 1945

Subject: Construction Equipment.

To : See Below:

1. The long expected plant and equipment is beginning to arrive and the purpose of these instructions is to clarify the method of operation and define responsibility.

2. Mr. F.O.Griffith, American civilian, has been placed in charge of all the equipment. His task is as follows:-

(a). To take possession of equipment at initial point of delivery and establish and maintain proper control records thereon.

(b). To arrange with Genio Civile for the employment of suitable operating personnel and to train them in both operation and maintenance.

(c). To distribute plant and equipment in accordance with instructions issued by this H.Q.

(d). To inspect all plant and equipment at frequent intervals and ensure that it is being operated properly and to the best advantage.

(e). To advise this H.Q. on any matter affecting the disposition or operation of the plant or equipment.

3. The equipment will become the property of the Italian Ministry of Public Works. This H.Q. has retained the right of control as long as may be necessary and is intended that all plant and equipment will be used for the present on military priority work.

../..

- 2 -

4. Plant and equipment may be made available to Military Districts and P.B.S., for use on roads handed over to A.C. Liaison Officers with above H.Q.'s will be kept informed of availability, and will discuss local requirements with Chief Engineer's of Districts and P.B.S. Regional Engineer's will be informed by Liaison Officer of plant allotted to their regions and they will be responsible that it is employed to the fullest possible extent. Equipment working part-time may be moved to other locations but all such moves will be co-ordinated through L.O. to chief Engineers concerned. Mr. Griffith must be promptly informed of such local moves.

5. It is realized that lack of transport will militate against efficient operation, but crushing plant will be set up to stock pile if necessary at suitable central quarries.

6. Certain items of equipment may be loaned to contractors subject to instructions contained in Ministry of Public Works circular to Genio Civile (copy attached) and agreement between Regional Engineer and Mr. Griffith.

7. All payments, wages, etc, in connection with operation or maintenance of plant and equipment will be made by Genio Civile concerned and charged on A.C/I to Highway fund in the usual manner. Stone, premix, etc, produced by the plant will be delivered to the contractors free of charge and eliminated from contract.

8. This H.Q., retains the right of movement of all plant and equipment, except portable plant loaned to contractors for a specific job. A record of locations will be kept by this H.Q. and Mr. Griffith.

MINISTERO DEI LAVORI PUBBLICI

Roma, 23 Mar. 1945

Direz. Gen. Servizi Tecnici

No. 3508.

Agli Uffici Speciali del Genio Civile per la Viabilità Statale
Agli Uffici del Genio Civile
e p.c.

Ai Provveditori Regionali alle CO.PP.
Alla Sottocommissione IL.PP. e Servizi della A.C.

R O M A

OGGETTO: Danni alle attrezzature fornite da
reparti del Genio Militare Alleato -

Per lavori di interesse militare i reparti del Genio Militare Alleato C.F.E. oppure P.B.P.) forniscono spesso attrezzature diverse (spanditrici di bitume, caldaie per bitume, pompe ecc.) che in genere sono date in consegna agli appaltatori.

Qualche reparto, all'atto del ritiro dei macchinari, alla fine del lavoro, ha segnalato al Quartiere Generale dell'A.C. che esso presenta danni o perdite di accessori, chiedendo inoltre il risarcimento del danno.

Occorre pertanto che i funzionari degli Uffici addetti ai lavori vigilino attentamente affinché il predetto macchinario sia riconsegnato ai reparti nel migliore stato possibile, e senza dipendenti da incuria e da cattivo uso.

Inoltre, mentre sarà provveduto a segnalare agli Uffici quali sono i danni già riscontrati e che dovranno essere rimborsati dagli appaltatori si dispone che nei contratti sia inserita una clausola contemplante le penali a cui dovrà essere soggetto l'appaltatore nel caso si verificano tali danni. Tale penale dovrà essere stabilita per ogni giorno di mancato uso a causa della necessaria riparazione, commisurata alla importanza del macchinario, in base ai prezzi correnti di noleggio.

Le spese effettive di riparazione saranno ugualmente a carico dell'Impresa.

Attendo sollecita assicurazione

 : Public Works and Utilities Sub-Commission - AC.
Subject : Damage to equipment supplied by Allied Engineer Units.

Equipment for military works is often supplied by Allied Engineers Units (CRE or PBS), including Bitumen sprayers and kettles, pumps etc. As a rule, the equipment is loaned to contractors.

Some unit, when collecting the equipment, has informed the Hq. of Allied Commission that said suffered damage or loss of parts, and has requested the reimbursement of damage.

It is therefore necessary that the officials in charge of works exercise the greatest care in order that said equipment is handed back to the units in the best possible condition, with no damage consequent to lack of care and misuse.

We will inform the Offices as to the damage already ascertained which must be refunded by the contractors, and we order that a clause stating the fines to be paid by the contractor when such a damage is made, be inserted in the contracts. The fine will be set out for every day of non-use of the equipment owing to the repair needed, and will be in proportion to the importance of the equipment, taking as a basis the current prices of loan.

The actual expenses for repairs will also be charged against the contractor.

Please acknowledge as soon as possible.

Roma, 8 Marzo 1945

To :

Pubblic Works Section Rome Comune

R O M E
Via del Mare n.45

Come Vi è noto questa Impresa sta eseguendo, con carattere di grande urgenza, i lavori di interesse militare per la sistemazione della Via Flaminia nel tratto tra il Piazzale di Ponte Milvio ed i Due Ponti.

Per l'approvvigionamento dei materiali salicci (piastresco nelle diverse pezzature) questa Impresa utilizza un autotreno Fiat 634 targa Roma 79300 con rimorcinio Tipo Adige Targa - Roma 2296 - A causa del massacrante lavoro di trasporto nelle cave e sulla strada in riparazione la gommatura dell'autotreno, già notevolmente usata, ha subito un tale logoramento che tra qualche giorno non sarà più in grado di effettuare i necessari trasporti mentre già sin d'ora si rendono quotidianamente necessarie continue riparazioni che richiedono notevoli spese e grandi perdite di tempo con grave danno nella rapidità del lavoro.

Si chiede pertanto che cod. On. Ufficio voglia disporre perché a questa Impresa vengano assegnate almeno dodici (12) coperture della misura 42x9 od equivalenti.

Inoltre si fa presente che da alcuni giorni l'altro autocarro dell'Impresa, un autocarro Fiat 18 BL-R targato Roma 84134 è fermo per l'assoluta mancanza di gomme piene.

Anche per questo occorrerebbe che fosse disposta l'assegnazione delle gomme occorrenti.

Confidando in un favorevole accoglimento della presente istanza, si porgono i migliori saluti.

The above firm has the contract for the reconstruction and repair of Via Flaminia (State Hwy. #3) within the City of Rome. This is a Military Highway.

TRANSLATION

(Bini)

Rome 8 March 1945

To: Public Works Section
Rome Commune
Via del Mare 45, Rome.

As I have already informed you, our Firm is carrying out, with the utmost urgency, works of military interest for the systematization of Route Flaminia in the section between Piazzale Ponte Milvio and Due Ponti.

As regards the supply of siliceous materials (crushed stone of different size), this Firm utilises a truck Fiat 634 - Rome 2296- owing to the continuous transport of material from the quarries to the road under repair, the tyres of the truck, already worn out, have undergone such a wear and tear that in a few days, they will be out of order, whilst, at present, daily repairs are required, involving great expenses and a great waste of time and hampering a regular carrying out of the works.

Will you kindly provide for the allotment to our Firm of at least twelve (12) tyres (size 42x9 or an equivalent one).

Moreover, we bring to your notice that since a few days the other truck of our Firm, Fiat 18 BL-R-Rome has stopped owing to lack of full tyres.

Also for this one, it is necessary to provide for the assignment of tyres.

We hope this application will meet with your favourable consideration.

Yours truly.

Guglielmo Zanchini. (sgd)

BUILDING UNDERTAKING DOTT. ING. GUGLIELMO ZANCHINI

26 March 1945

GZ/ac

TO : M.M.I.A.
Allied Commission HQ. - ROME

This Undertaking is at present carrying out, on account of Lazio-Umbria Region, Engineering Division, Public Works Section, Rome Commune, the repair of Via Flaminia (State Road No 3).

This work is a military and high-priority one.

The following motor vehicles are employed, together with other ones, for the execution of the above mentioned works :

- a) Truck Fiat 634 (Reg.No. 79300) and Adige trailer (Reg.No 2296) (14 Tons)
- b) Truck Fiat 18 ELR (4.50 Tons)
- c) Motor tricycle Guzzi 500 (1.20 Tons)

Owing to the rude work carried out by these vehicles for the service of quarries, it is now necessary to substitute some tyres and to carry out some mechanical repairs, changing some spare parts.

Since we understand that neither the tyres nor the spare parts are to be found on the market but can be purchased from the "Damaged Vehicles" Pool of the Italian Army, located at Viale Tiziano (Parioli), we request that the M.M.I.A. authorize us to purchase the materials as per enclosed list, considering the urgency and the necessities of this Undertaking.

Truly yours,

Building Undertaking
Guglielmo Zanchini

Enclosure : 1 List

Copied of statement made by Col Thompson on original letter R.B.
The statements of the above contractor are correct, and assistance that can be rendered will be appreciated

AC.		HQ.		

Questa Impresa sta eseguendo, per conto della Public Works Section (Lazio - Umbria Region - Engineering Div.) Rome Comune, il lavoro di riparazione della Via Flaminia (.S.S.n.3), lavori che hanno carattere di alta priorità essendo di interesse militare.

Per l'esecuzione di tali lavori sono impiegati, tra gli altri, i segg. automezzi:

- 1) Autotreno Fiat 634 (targa 79300 con rimorchio Adige) (targa 2296) (Tonn. 14)
- 2) Autotreno Fiat 18 BUR (Tonn. 4,50)
- 3) Motocarro Guzzi 500 (Tonn. 1,20)

A causa del lavoro massacrante cui detti automezzi sono sottoposti per il servizio di cava si rende necessario procedere alla sostituzione di alcune gomme ed alla riparazione meccanica con sostituzione di alcuni pezzi di ricambio.

Poichè risulta a questa Impresa che i pneumatici e le parti di ricambio, non possono trovarsi sul mercato potrebbero essere acquistati tra i materiali, di proprietà dell'Esercito Italiano, esistenti nel parco "Automezzi Guasti" sito al Viale Tiziano (Parioli) prelevandoli da quelli di autocarri fuori uso ed in demolizione, si richiede che cod. M.M.I.A. voglia, tenuto conto dell'urgenza e della necessità di questa Impresa, autorizzare l'acquisto dei materiali di cui alla nota allegata.

Con molti ringraziamenti, distinti saluti.

subject: Construction Equipment.
Requisition AC-ENG-95-45.

To : Economic section.

1. The Ministry of Public Works in making their initial estimate of import requirements included extensive quantities of all types of heavy construction equipment as well as smaller items as covered by subject requisition. When this estimate was submitted to the Italian Government reviewing committee on imports it was soon realized that available credits would not permit the inclusion of items of such magnitude. It was then decided that the list be reduced to small power units (electrical and gasoline) and to compressors with the long-term plan being based on the use these items in both construction and in connection with the rehabilitation of all available heavy equipment. Considerable quantities of such items as stone crushers, concrete mixers, cranes, hoists, etc., remain in Italy at present but cannot be put to use due to the critical electrical situation. Electrogenrating sets will reactivate this equipment. Gasoline motors are critically short with small prospects of any new manufacture in the near future. These motors will be used in repair shops, carpenter shops, building and bridge reconstruction, quarry operations etc. The most critical need for air compressors is in connection with bridge and building demolition and quarry operation. The estimate of the above items is based on (a) known destruction figures (b) number of active construction Companies (c) number of workmen estimated as necessary in reconstruction (d) quantities of similar equipment available before the war, (e) miles of state, Provincial and Communal road to be maintained.

2. In our opinion the estimated requirements are not excessive.

MEMORANDUM 21.3.45 *File*

To : Director, Public Works and Utilities Sub-Com.

1. At your request Requisition N°. AC-ENG-95-45 covering import requirements of construction has been referred to the Ministry of Public Works for review and further justification. Engineer Reggiani has today reported the results of the review which information is outlined below:

2. The Ministry of Public Works in making their initial estimate of import requirements included extensive quantities of all types of heavy construction equipment as well as smaller items as covered by subject requisition. When this estimate was submitted to the Italian Government reviewing committee on imports it was soon realized that available credits would not permit the inclusion of items of such magnitude. It was then decided that the list be reduced to small power units (electrical and gasoline) and to compressors with the long-term plan being based on the use these items in both construction and in connection with the rehabilitation of all available heavy equipment. Considerable quantities of such items as stone crushers, concrete mixers, cranes, hoists, etc. remain in Italy at present but cannot be put to use due to the critical electrical situation. Electrogenating sets will reactivate this equipment. Gasoline motors are critically short with small prospects of any new manufacture in the near future. These motors will be used in repair shops, carpenter shops, building and bridge reconstruction, quarry operations etc. The most critical need for air compressors is in connection with bridge and building demolition and quarry operation. The estimate of the above items is based on (a) known destruction figures (b) number of active construction Companies (c) number of workmen estimated as necessary in reconstruction (d) quantities of similar equipment available before the war, (e) miles of state, Provincial and Communal road to be maintained.

ENGINEER SECTION (BR)

A.P.H.Q.

C.M.F.

Tele. No. Freedom 817

Subject : SCAPA Asphalt Works.

ENG/1750

To : CE 1 District.
CE 2 District.
CE 3 District.

17 Mar 45

1. The DEP & S was considering whether to take over and run this works. He has decided that it is not worth while to do so. Therefore if you need any of this material for work on roads in your District you will have to buy direct from the firms. With the present power available only about 50 tons per day of Asphalt powder, 2 tons per day of Bituminous oil and 1 ton per day of raw Bitumen can be produced. More can be produced if more power is made available and it might be possible to double these figures later on.

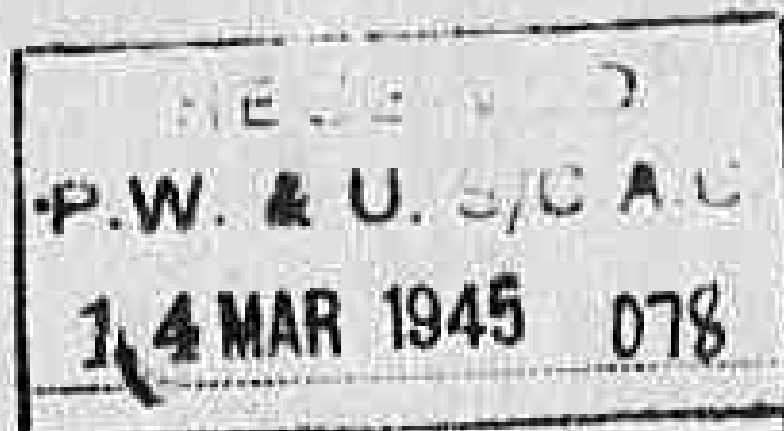

2. There has been some rather haphazard buying in the past and the firms are worried about who they may/ to. I therefore think it best that direct buying by the British Army should cease and that any outstanding contracts or orders should be wound up as soon as maybe. This material should be used mainly to repair those roads that were formerly surfaced with it and the CREO CIVILE (or AMG on their behalf in areas under AMG) should *Mr.* take over the buying of stocks for future needs.

3. Will you please say if you need any of this asphalt for your works apart from that needed for main roads and whether this restriction would upset any plans you have made.

BRE
B.B. EDWARDS,
Brigadier,
Director of Works.

SUBJECT: Automobiles for Public Works & Utilities Officers
TO : Regional Commissioner, Southern Region

1. At the staff meeting on 8 March 1945 you had reported that you were making arrangements to withdraw all roadworthy equipment from the Southern Region to be taken north. I stated that it would be necessary to retain some roadworthy equipment for the Public Works & Utilities officers who will remain in your present region. Brigadier Lush stated that this matter would be taken care of.
2. We have two Public Works & Utilities officers assigned to Naples Province. In addition to that we have been asked by District 3 to attach to them one of our military highway officers to act as liaison officer between District 3 and this Sub-Commission in connection with military highways and to assist District Engineer officers in carrying out their functions because of the many complications involved and the necessity for training District Engineer officers in this task.
3. While we agreed that for local transportation in and around Naples ordinary transportation equipment may suffice, but as these officers will have to travel frequently greater distances in the performance of their duties it is necessary that at least one good roadworthy automobile be left behind for their use. This car will naturally have to be pooled between the three officers for long-distance travel. Will you please arrange to have one such automobile left behind for our use?

By command of Rear Admiral Stone:

In reply quote: R4/ENG/306

Ref msg R4/eng - 306 dated 6 Feb. 1945

1. Attached is a list of tyres required for vehicles working on Military Roads in UMBRIA.

The transport situation is very acute in that province and it is therefore very important to improve it.

Chief Engineer is desirous of easing the call on Military Trucks.

2. Please say what you can supply returning one list marked.

C. M. F. W. J. Lt. Col. R.E.

At Col Thompson

There is a possibility that, from now onwards, we may get some ⁵³⁸⁸ tyres at various periods. So please have that matter studied by the Italians and have them make to you monthly statements of requirements; so, when we do get allocations, we can submit considered recommendations for % allocation to us.

MEMORANDUM

078/3/PWU

13 February 1945

TO : Director, Public Works and Util.S/C.

1. We are in receipt of copy of letter from G-5 Section, Allied Force Headquarters, to HQ., Allied Commission (attn: Supply and Resources Div.) advising that 3 trucks 15 cwt and 30 lorries 3 ton are available for immediate release against our requisition MGS-180-Eng. It further stated that the vehicles would be released to transportation Sub-Commission upon presentation of proper release notes.

2. We believe it advisable at this time to outline to you our plan for the utilization of these vehicles in connection with the Military Highway program. Release has just been secured from P.B.S., of one complete asphalt mixing plant. We propose to establish this plant at some strategically located quarry near Rome where aggregate is available in adequate quantities and where haul distances will be reasonable to the network of highways leading from Rome. The 33 trucks in at least the initial stages will become an integral part of the complete Unit and will be used to haul both crushed stone and mixed paving material to job site. Additional trucks are on requisition, but until they are made available, it is deemed best to definitely allocate these initial vehicles to the asphalt paving unit.

3. We wish to stress the importance of considering this transport as a part of a complete paving unit and not as merely additional vehicles to be attached to and operated by any existing truck pool.

Rome 13 February 1945

To : HQ., A.C.
Public Wks. & Util. S/C/
(Att: Lt. Col. V. S. Thompson).

As we had the opportunity to point out other times, the service of our heavy trucks is getting worse and worse so that the imminent suspension of our activity is to be expected.

Till today we have developed works entrusted to us effecting the transports of all materials (from cement to stone) exclusively by means of our own trucks, but unfortunately after 8 months of intense activity (considering the great number of operating yards) the wearing out of tires has been such that our trucks are not reliable for work. We therefore are obliged to request you again earnestly to take into consideration our situation in order to enable us as it is our greatest wish to meet our engagements of works as regularly as we are accustomed to.

We point out further that, as soon as the tire problem of our trucks is solved, we shall be able to collaborate with our outmost effort to the realization of the great program of work which is under examination of the Military Allied Authorities.

For this purpose we send you a list of our own trucks, which we are willing to place at exclusive disposal for carrying on the military works entrusted to us. As has been done till the present day.

With kind regards.

PUBLIC WORKS AND UTILITIES SECTION

Memorandum

25 November 1944

To: Colonel Lester J. Hensley
Regional Engineer Officer

1. Having received a letter from the Official of the Gas Company that tires could be purchased at the Base Salvage Depot at Torre Annunziata (Naples), if release was given by AC., I proceeded to this Depot to get what information I could on the tire situation.

I visited Lt. Plumley, a British Officer in charge who informed me that a sale of tire as far as he knew was wrong information, that they were not permitted to sell anything and he did not understand how rumours of this kind started.

2. He informed me that he was sure that AC. could get all the tires they needed, for any of the Public Works or Utility activities. He stated that they have tires of every size and description and a large quantity of them, though unfit for military service, but they had from 5 to 15,000 miles of rubber and were just what they needed.

3. He stated that if we desire to make an official request for a large number to take the matter up through D.D. Salvage. A.F.H.Q.

4. In checking through the yards I found that the tires were sorted in various sizes, but at least 15% were in perfect condition. In checking through the wrecked truck and car yard I found at least 10% of the exceedingly large supply with good tires inflated which would indicate that the tubes were also in good order.

1. Having received a letter from the Official of the Gas Company that tires could be purchased at the Base Salvage Depot at Torre Annunziata (Naples), if release was given by AC., I proceeded to this Depot to get what information I could on the tire situation.

3. He stated that if we desire to make an official request for a large number to take the matter up through D.D. Salvage. A.F.H.Q.
4. In checking through the yards I found that the tires were sorted in various sizes, but at least 15% were in perfect condition. In checking through the wrecked truck and car yard I found at least 10% of the exceedingly large supply with good tires inflated which would indicate that the tubes were also in good order.
5. Their supply of tubes are in bad order unless on these wrecked vehicles, however many of their salvaged tubes can be repaired.
6. It would be my recommendation that we place in the Salvage Depot a mechanic with one or more Italian employees to dismantle suitable tires and required parts for all the activities in our Division.
I am sure that this could be done and every motor vehicle that we have in our Department can be kept in first class order.

SUBJECT: Tires

TO : Col. Thompson ✓
Col. Lapper

1. I was called to a conference of the Allocation Board this morning where the question of distribution and allocation of tires was discussed.
2. In the first place it should be stated that there will be one tube with each tire.
3. The Board tentatively agreed to allocate to Public Works and Utilities Sub-Commission 100 jeep tires and 100 truck tires to be divided equally between public works and electrical plants.
4. We are to furnish a detailed statement showing the actual distribution made of these tires divided between:
 - (a) Contractors on highways ✓
 - (b) Genio Civile ✓
 - (c) Public Utilities
5. Will you please prepare a list showing how you will distribute the tires assigned to you so that I may be able to furnish the statement requested?

*These will have to be paid
for at landed cost.
we will not get any
of the tires assigned to regions*

27 January 1945

Subject: Tires for Contractors and Genio Civile.

To : Director, Public Works Sub-Commission.

1. Recent experience has convinced me that unless the partial solution of the tire shortage problem is achieved, the time is rapidly approaching when contractors will be obliged to cease work.

2. One of the largest Italian firms, which already has several important bridge repair jobs, can make no use of some 30 vehicles through lack of tires. This firm has sufficient equipment to take on several more large jobs but cannot move either the plant or personnel, or maintain operations if once started.

3. Cement obtained for this firm cannot be unloaded from Railway wagons for distribution to the jobs, without considerable delay involving the tying up of rail transport facilities.

4. Another case can be cited of a large and suitable firm being unable to proceed to Florence for important bridge reconstruction. They literally have no vehicle, with tires, but have proved their capabilities to any satisfaction.

5. The problem is of such far reaching importance that it cannot be over emphasised. Recently the situation of the Genio Civile was brought to the direct attention of Mr. Cleveland.

.../...

5351

- 2 -

6. Military authorities have consistently urged us to assume greater responsibilities and thus release their men and equipment. I am faced with the necessity of admitting incapability of doing so.

7. The supervision of works is suffering and is deteriorating progressively as more and more worn out tires become "finishing" every month that goes by.

8. May I urge that you again bring this fact to the highest authorities, as for six months we have been living on our capital, and the end is clearly in sight.

V.S. THOMPSON
Lt. Col. R.C.E.
Chief Public Wks. Div.

Immediate Requirements

Tires:	600 x 16	)	
or	550 x 16	)	300
	900 x 20	-	100
or	equivalent		
Tubes:	600 x 16	-	250
or	550 x 16		
	900 x 20	-	80
or	equivalent		

The above demand is based on known requirements of Genie Civile and Contractors operating on high priority Military highways. It represents the bare minimum only and by no means covers all urgent requirements.

SOCIETA GENERALE IMMOBILIARE

No. 0142

10 January 1945

For the courteous attention of Col. Thompson.REQUEST FOR TIRES.

The Societa Generale Immobiliare has underway at present several important works for this Headquarters. The necessary transport up to now has been provided by the writing Firm by keeping in operation 25 trucks which have used the preexisting supply of tires, already half worn out.

The wear of tires brought about in servicing these jobs has created an unbearable situation, such as to compel the Firm to stop several trucks because of lack of tires.

Such situation compromises the progress of the works and furthermore the Firm's possibility of undertaking other works of major importance.

In order to avoid such an occurrence the Firm takes the opportunity of requesting allocation of tires assuring itself of having kept its requirements to a minimum.

HEADQUARTERS ALLIED COMMISSION
APO 394
Public Works and Utilities Sub-Commission

REFERENCE : 216/PWU 14 December 1944
SUBJECT : Public Works and Utilities
Equipment Requirements for N.W. Italy.
TO : Economic Section.
FROM : P.W. & U. Sub-Commission.

The P.W. & U. S/C has made a careful study of the transport requirements for N.W. Italy. These are as follows:

Electrical Reconstruction Equipment

In this field it is impossible to give data on a ton-day basis. We do expect a few scattered plants to be in operation but that the transmission lines will require reconstruction so as to bring such available current to points of greatest need. This type of work requires special equipment. Our estimates, for the first 3 months program, are:

60 - weapon carrier type vehicles 3/4 ton.
25 - 2 1/2 ton 6x6 vehicles.
20 - 5 Ton trucks.
10 - 20 ton capacity trailers with prime movers.
25 - pole carriers.
10 - jeeps plus 5 trailers.

Personnel

As we are short of electrical officers, because of the failure to meet our requests, we must ask that we be given 8 additional officers with electrical experience.

Highway and Port Reconstruction Equipment.

Highway mileage :

1st	priority	601	Km.
2nd	"	485	"
Total		1086	"

It is not expected that we will be able to deal with more than 300 KM., during the first 2 months of operation. The estimated tonnages to be transported are as follows:

5343

./.

- 2 -

Bitumen	363	Tons
Cement	2650	"
Aggregate (for surfacing)	6500	"
Rock (rubble and aggregate)	16500	"
Sand	6000	"
Lime	1000	"

To do this work will require the following equipment:

- 100 - 3 ton trucks (dump trucks preferred)
- 1 - Bulldozer
- 10 - Steam Rollers
- 8 - Crushers
- 2 - 3" Water Pumps.
- 12 - Tar Kettles (150-200 gal)
- 8 - Weapons Carriers
- 4 - Air Compressors (220 cu.ft.Cap) with accessories
- 10 - Jeeps
- 4 - Concrete Mixers (1 bag)

The trucks are estimated to make 75 KM., per day. Some may make 2 trips and some 3 trips per day, depending upon the location of the source of supply.

Ports and Miscellaneous Services.

In connection with these we estimate our requirements to be:

- 15 - 3 ton trucks
- 3 - Jeeps
- 4 - Air Compressors and accessories (220 cu.ft.)
- 8 - Pumps - 3"
- 4 - Electric generators - portable
- 3 - Rock Crushers
- 2 - Steam Roller
- 2 - Concrete Mixers - 1 bag
- 2 - Bulldozers
- 1 - Dragline Crane
- 24 - Flood lights
- 4 - Sets- underwater cutting tools and supplies
- Diving equipment for 4 separate operations.

Summary of Equipment needed.

- 115 - 3 ton trucks (Dumps preferred)
- 68 - Weapons Carriers 3/4 ton
- 25 - 2 1/2 ton 6 x 6
- 20 - 5 ton trucks

./.

5342

- 3 -

- 25 - Pole Carriers
- 23 - Jeeps
- 10 - Jeep trailers
- 12 - Steam rollers
- 11 - Rock crushers
- 12 - Tar Kettles
- 8 - Air Compressors (220 cu.ft.)
- 6 - Pumps - water 2" and 3"
- 4 - Electric Generators
- 3 - Bulldozers
- 1 - Dragline Crane
- 24 - Flood lights
- 4 - Sets-underwater cutting tools
- 4 - Units - Complete - Diving equipment.

Please submit this list of requirements, both for equipment and personnel, to A.F.H.Q., for action.

L.A.JENNY
Lt.Col. C.E.
Director.

3 December 1944

SUBJECT: Road Maintenance Equipment.

TO : Headquarters, Allied Commission, APO 394.

1. The supplementary requirements as listed in your letter AC/O94/PWU dated 3 November and O78/3/PWU dated 15 November for highway equipment in Italy have been screened by this Headquarters and not favorably considered for supply at this time.

2. Following for your information are the Chief Engineers observations relative to this supplementary requirement:

"a. The intent of the original requisition was to properly set up A.C. as a supervisory organization employing civilian personnel and available civilian equipment for maintenance of essential military roads in rear areas thus relieving A.A.I. of this responsibility and reducing the number of PBS service troops employed in this work to a minimum. The basis of 3,000 Km of highway was assumed as sufficient mileage to care for all of Italy and the listed equipment was predicated on this.

b. At the present time much of the road work under A.C. is supervised by PBS personnel and accomplished with equipment furnished by PBS. This situation appears to be due to the lack of personnel and equipment requested in the original requisition rather than to increased mileage. Lack of this equipment has hindered the A.C. in the development of working organization. It is believed that the original schedule of equipment is sufficient for immediate needs and that additional items 32 and 33 shown on the supplemental requisition are for the large part excessive in quantity and may in part be acquired through local sources."

3. We previously notified you that we were obtaining information as to present theatre availability of items on LAC Airgram 35. It has been established that no equipment is available from British theatre stocks without replacement. The following items are available from U.S. theatre stocks without replacement:

<u>Item</u>	<u>Quantity</u>
7	3
8	3
9	2
21	4
26	1
27	1
28	1
29	1

MEMORANDUM

REFERENCE : 103/PWU.
SUBJECT : Transportation.
TO : Economic Section.
FROM : P.W. & U. Sub-Commission.

14 November 1944.

1. The work of this Sub-Commission, particularly in forward areas, is seriously handicapped because of the fact that we do not have the proper type of automobiles capable of getting our officers to the locations required.

2. We have a most important military function to perform in the reconstruction of military highways. Many urgent requests have been received from Military sources for immediate action due to floods or other causes and it is, therefore essential that we be supplied with 2 military type of cars with military drivers so as to permit us to carry out our tasks.

3. Will you please take this matter up with proper authority and request that we receive 2 such cars. There is attached hereto a copy of a letter from the Chief of my Public Works Division outlining some of his difficulties.

ALLIED MILITARY GOVERNMENT
TOSCANA REGION
Public Works & Utilities

9 November 1944

Subject: Tires and Tubes.

To : P.W.&Util. Sub-Commission, HQ. A.C.

1. It is brought to your notice that owing to the lack of Tires and Tubes officials of the Genio Civile and civilian engineers engaged on high priority works, are unable to carry out their duties adequately and that unless supplies can be made available no responsibility can be taken for the supervision of projects in this region.

2. The same applies equally to officials of the utility-companies. Both Army and AMG require the active cooperation of the various companies in order to rehabilitate essential services.

3. It is suggested that immediate attention be given to this matter please. As a minimum of 180 tires and tubes are required in that part of the region now occupied.

P.S.L. Lee.

P.W. & S. C.
15 Nov 1944

143

Reg. No. EGS - 180 - ENG (IAC Airgram 35)

Item 31. Spare parts and miscellaneous supplies for equipment for one year.

1.

The power units in heavy equipment varies considerably and the parts listed herein are therefore on a prescriptive basis. It is assumed each unit at normal extensive operation will require one major overhaul each year. To this has been added 10 % in those parts effected by operational wear to compensate the probable lack of experience among Italian operators in the use of modern models. This may prove to be too conservative and it is respectfully recommended some one acquainted with the ability of Italian operators be requested to judge in that respect.

2.

Parts needed to maintain ten tracks (damp), of 4 Cu.yd. Cap. up, for a period of one year :

a. Engine:

- 4 sets standard size piston rings.
- 4 sets " " bearing inserts.
- 6 sets engine gaskets (complete).
- 5 sets valve springs, guides, pushrods, lifters, locks and rocker arms.
- 4 sets valves.
- 3 Oil pump assemblies.
- 4 Water pump assemblies.
- 6 Water pump kits.
- 6 Fan assemblies.
- 10 sets fan belts.
- 3 sets pulleys (generator - crankshaft - water)
- 4 Fuel pumps.
- 6 Fuel pump kits.
- 3 Carburetor Kits.
- 3 Carburetors.
- 6 sets gas lines & fittings.
- 5 Distributor caps.
- 3 Distributors.
- 4 Distributor rotors.
- 6 sets distributor points.
- 4 Condensers.
- 4 Coils.
- 6 sets ignition wires.
- 2 Oil gauges (engine & dash units)

5330

- 12 Std. pistons & pins.
- 16 Connecting rods.
- 1 Crankshaft.
- 2 Cylinder heads.
- 1 Camshaft.
- 6 Radiator cores & caps.
- 12 Sets radiator hose & clamps.
- 120 Sets spark plugs & gaskets.
- 2 Generators.
- 4 Generator arms.
- 10 Sets generator brushes.
- 1 Starter motor.
- 1 Starter arm.
- 4 Sets starter brushes.
- 6 Starter springs.
- 3 Voltage regulators.
- 1 Air cleaner.
- 3 Ignition switches & cables.
- 2 Ammeters.
- 3 Thermostats.
- 2 Oil filters.
- 150 Oil filter cartridges (This item very important).
- 5 Accelerator pedals.

b. Clutch:

- 3 Pressure plate assemblies.
- 6 " " kits.
- 15 Lined discs.
- 6 Clutch pilot bearings.
- 6 Clutch throwout bearings.
- 2 Clutch pedals.
- 6 Clutch pull back springs.

c. Transmission:

- 2 Complete transmissions.
- 4 Sets transmission gears, shafts & bearings.
- 6 Sets transmission gaskets.
- 4 Complete gear shift levers.

5329

d. Line Drive:

- 5 Complete drive shafts.
- 10 " front universal joints.
- 10 " rear " "

Note: If Macks or Diamond Ts' double this.

e. Differential:

- 1 Complete rear end.
- 15 Ring gear and pinion sets & bearings.
- 3 Complete spider gear assemblies.
- 15 Sets spider gears, washers & shims.
- 15 Sets axle drive gears.
- 20 Sets gaskets.
- 25 Axle shafts and gaskets.
- 20 Sets axle studs & nuts.
- 10 Rear covers & plugs.

f. Brakes:

- 20 Sets lined brake shoes.
- 3 Front wheel cylinders.
- 3 Rear " "
- 3 Front " kits
- 3 Rear " "
- 2 Master cylinders.
- 2 Hand brakes complete and linings.
- 2 Set brake drums.
- 4 Master cylinder kits.
- 3 Sets complete brake lines.
- 1 Brake booster complete.
- 4 " " kits.
- 2 " pedals.
- 6 " pull back springs.

g. Dump Hoist:

- 2 Power take off units.
- 6 Sets power take off gears, shafts, bushings and gaskets.
- 6 Drive shafts.
- 10 Sets drive shaft "U" joints.
- 2 Hoist pumps.
- 6 Hoist pump repair kits.
- 6 Complete oil lines.
- 3 Hoist pistons complete.
- 3 Hoist piston rods, rings, head, studs, and gaskets.
- 4 Sets hoist arms, rockers, tracks & rollers.

5328

h. Miscellaneous:

- 4 Windshield wiper motors.
- 24 " " " blades.
- 5 Sets headlights.

- 25 Headlight lenses & cork gaskets.
- 60 " " bulbs (21 - 32 C.P.)
- 10 " " reflectors.
- 4 Sets headlight wiring.
- 20 Complete tail lights.
- 10 Sets windshield glass.
- 25 Tail light bulbs.
- 4 Sets tail light wiring.
- 10 Sets door glass.
- 10 Sets door latch & handles.
- 3 Batteries.
- 6 Sets battery cables.
- 6 Starter buttons, switches & cables.
- 20 Rear springs.
- 10 " helper springs.
- 20 Front springs.
- 6 Rear spring shackles.
- 6 Front spring shackles.
- 4 Sets tail gate brackets & pins.
- 3 Sets body hinges.
- 50 Tailgate hooks.
- 10 Tires.
- 20 Tubes.
- 2 Front wheel
- 1 Rear "
- 3 Sets wheel rims.
- 15 Sets wheel lugs & nuts.

3. Parts to maintain 10 shovels as ordered:

a. Engine (Gasoline only)(If Diesel see note)

- 2 Sets Std. piston rings.
- 3 Sets " bearing inserts.
- 3 Sets Engine gaskets.
- 2 Sets valve springs, guides, pushrods, lifters, locks and arms.
- 2 Sets valves.
- 1 Oil pump assembly.
- 1 Water " " .
- 1 Fan assembly.
- 20 Sets fan belts, generator -water.
- 1 Set pulleys (generator-water)
- 1 Fuel pump.
- 1 Carburetor.
- 2 Sets gas line & fittings.
- 2 Distributor or 2 Magnetos.
- 3 Sets distributor parts.
- 2 Coils.

5327

- 4 Sets ignition wires.
- 1 Set Std. pistons & rings.
- 6 Connecting rods.
- 1 Crankshaft.
- 1 Camshaft.
- 3 Sets radiator hose & clamps.
- 60 Spark plugs and gaskets.
- 1 Generator.
- 5 Sets brushes.
- 1 Starter motor.
- 2 Sets starter brushes.
- 6 Starter springs.
- 2 Voltage regulators.
- 1 Air cleaner.
- 1 Ignition switch with cable.
- 1 Oil filter.
- 160 Oil filter cartridges.
- 20 Floodlights.
- 10 Batteries.
- 6 Sets battery cables.
- 2 Starter switches complete w/cables.

B. Other parts needed to maintain 10 power shovels one year:

- 12 Sets of lined bands comprising those for swing, hoist, crowd, brake & booster.
- 120 Sets factory band lining w/rivets.
- 10 Set/s bushings and pins for dipper.
- 10 Sets bushings & pins for caterpillars.
- 10 Sets sheaves, shaft & bushings for boom point.
- 20 Snatch block sheave pins & bushings.
- 10 Sets dipper stick wearing plates.
- 10 Sets swing collects (if used)
- 2 Extra fans.
- 4 Sets material to replace pipe lines that vibrate.
- 1 Complete set fuel lines with fittings.
- 20 Extra sets teeth & fasteners.
- 24 Complete assorted cable riggings.
- 150 Sized cable clamps.

5326

All special wrenches & grease guns each machine.

Note: Gears, shafts and allied parts not subject to any defined proportion of wear or breakage. No parts ordered in this category, since they may be repaired or replaced by local foundry-machine shops.

4. Parts & Supplies to maintain 30 bulldozers one year:a. Engine - See Diesel note.b. Miscellaneous parts & supplies.

- 32 to 48 cutting edges for blades.
- 30 Hydraulic system valves.
- 20 Complete hydraulic lift units.
- 30 Extra final drive, transmission and clutch seals.
- 50 Sets pins and bushings.
- 3 Sets rails.
- 50 Track shoes.
- 36 Sets master and steering clutch facings.
- 36 Sets upper track rollers.
- 8 Sets lower " " "
- 10 Sets front idlers.
- 10 Sets rear sprockets.
- 36 Draw bar pins (extra)
- Large assortment hydraulic system packing.
- 15 Complete sets high pressure hose and clamps.
- 36 Sets brake linings.
- 10 Final drive assemblies, complete.
- 5 Complete sets gear cases, including crank case.

5. Patrol Graders. To maintain thirty-five machines one year.a. Engine - diesel - see diesel note.

b. 72 cutting edges for blades.

36 Sets clutch facings.

16 Complete clutch assemblies.

15 " transmission " "

6 Hydraulic piston rods and packing, for blade control.

8 Complete sets high pressure hose.

18 " " " " packing.

150 Tires - 200 Tubes.

6. Rollers Low speed - low compression motors, gear driven.
 Accessories available from other equipment - gears, shafts,
 etc. repairable or replacable in local machine shops.
 No parts ordered.

7. Compressors (30); Gasoline - if Diesel see note. For 30 as indicated.a. Engine:

- 10 Sets std. size piston rings.
- 12 Sets " " bearing inserts.
- 30 Sets engine gaskets.

20 Sets valve springs, guides, pushrods, lifters, locks, rocker arms. ~~For~~ 4 head motors - valve parts supplied in proportion less "in head" parts.

10 Oil pump assemblies.
 10 Water pump "
 15 " " kits. T or L
 10 Fan Assemblies.
 60 Fan belts. (sets;)
 10 Fuel pumps.
 18 " " kits.
 6 Carburetors.
 20 " kits.
 10 Complete gas lines & fittings.
 6 Distributors)
 10 Distributor caps, rotors.) or magnetos
 30 Sets distributor points) if used.
 12 Coils - ignition.
 10 Sets ignition wire.
 50 Std. pistons & pins.
 18 Connecting rods.
 3 Crankshafts.
 6 Cylinder heads.
 3 Camshafts.
 30 Sets hose connections & clamps.
 360 Spark plugs & gaskets.
 10 Oil filters.
 300 Oil filter cartridges.

B. Air End.

10 Sets Std. rings.
 90 Sets gaskets.
 2 Transmissions complete.
 6 Shift levers assemblies complete with forks 5323

8. Crushers (25). Gasoline. (If diesel see note).

a. Engine:

25 Sets Std. size piston rings.
 25 Sets " " bearing inserts. 5324
 25 Sets engine gaskets.
 25 Sets valve springs, guides, inserts, pushrods, locks, etc.
 10 Sets valves, intake, 20 sets exhaust.
 10 Sets oil pump assemblies.
 20 Water pump assemblies.
 25 " " kits.
 10 Fan assemblies.
 100 Fan belts, sets.

- 15 Fuel pumps.
- 25 " " kits.
- 15 Complete gas lines & fittings.
- 6 Magnetos, complete with shafts.
- 15 Sets ignition wiring.
- 100 Std. pistons & pins.
- 10 Connecting rods.
- 4 Crankshafts.
- 6 Cylinder heads.
- 3 Camshafts.
- 100 Sets hose connections & clamps.
- 360 Spark plugs & gaskets.
- 25 Oil filters.
- 500 Oil filter cartridges.
- 25 Complete transmission & gear assemblies, sprockets, etc.
- 25 Complete sets chain assemblies - drive.
- 25 " " shafts and bushings.
- 25 Stationary crusher jaws.
- 50 movable " " .
- 25 Sets each jaw plate bolts with nuts, locks.
- 10 Complete sets jaw roller, bearing inserts.
- 5 Sets bearing caps, jaw roller.
- 10 Sets grease cups.
- 25 Complete toggle bolt and tension spring assemblies.

9. P u m p s (30).

- a. 30 Sets std. piston rings.
- 15 " bearing inserts.
- 10 bearing assemblies complete.
- 30 Sets valves, filters, pushrods, inserts.
- 3 Carburetors.
- 6 Magnetos, complete with shafts.
- 60 Spark plugs with gaskets.
- 2 Cylinder heads.
- 60 Sets engine gaskets.
- 6 Impeller shafts.
- 30 Water impellers complete with shim washers and nuts.
- 30 Water end packings, complete.
- 15 Extra sections each intake and discharge hose.

5323

5322

10. M i x e r s (46).

- a. 20 Sets std. size piston rings.
- 20 Sets " bearing inserts.
- 46 Sets engine gaskets, complete.
- 10 Sets intake valves, 25 exhaust valves.
- 15 Sets valve springs, lifters, rods, inserts, guides.

- 5 Water pump assemblies.
- 10 " " kits.
- 5 Fan assemblies.
- 100 Fan belt sets.
- 12 Fuel line assemblies with connections.
- 10 Magnetos and shafts assemblies.
- 24 Std. pistons with pins.
- 24 Connecting rods.
- 2 Crankshafts.
- 6 Cylinder heads.
- 120 Sets hose connections & clamps.
- 300 Spark plugs with gaskets.
- 6 Sets drive gears and shaft assemblies, complete.
- 2 Extra lengths of skip elevator cable for each unit.
- 1 Extra left hand cable sheave (small) for each unit.
- 1 Extra hull wheel cable sheave (right) each type and size unit.
- 1 Extra check valve, water dome, each unit.
- 2 Complete sets hose connections in water supply lines, each unit.
- 1 Each extra valves in water supply lines, each unit.
- 2 Each extra water control assemblies each type unit or size unit.
- 1 Each water gauge glass extra each unit.
- 1 Extra timing device assembly, each type unit.
- 1 Extra hoist lever assembly (skip) each size of type unit.
- 2 Each factory friction clutch linings for hoist, complete with rivets, each machine.

DIESEL note: Parts requirement varies with the different makes of diesel equipment, fuel systems and ignition system differ, starting mechanisms vary. Parts may not, therefore, be adequately anticipated, except lists be compiled separately for each type equipment manufactured. The Manufacturers may be relied upon to supply the spare parts required over any given period of operation provided they may know generally the conditions under which the equipment will be operated and the probable approximate extensiveness of operations. ⁵³²² Request for the furnishing of this service should also give attention to the unusual abuse parts effected by inexperienced operators will receive with a request for proportionate increases in those parts.

FIELD REPAIR SHOP. This list is for one repair depot. Should be increased by the number of such stations considered necessary. (15 SHOPS RECOMMENDED)

a. Equipment:

- Bench drill with extra chuck.
- Portable drills heavy & light w/ extra chucks
- 2 Sets drill bits (high speed).
- 1 Bench grinder, double head with Ass't. wheels & wire brushes.
- 2 Each. three ton & 5 ton chain hoists.
- 3 20' chains 1/2" with hooks, shackles and repair links.
- 2 Dollies for engine moving.
- 1 Four wheel roller jack.
- 2 Five ton hydraulic jacks.
- 1 Twenty-five ton hydraulic jack.
- Vices - 2 - 6" jaw and one heavy to 12"
- 1 Warehouse truck.
- Assorted hand grease guns with adapters and extensions.
- 1 Electric or pneumatic grease gun with extra hoses & heads.
- 1 Transmission greaser (hand)

b. Tools:

- 3 Complete sets "mechanics sets" wrenches, extra end, sockets and "stillsons".
- 1 Oversized socket set for heavy equipment and often needed on trucks repairs.
- 6 Each, 1 to 5 lb. Incl. ball and peen hammers.
- 1/4 Gross each, ignition point files, double cut midget, magneto, flat and round bastard, mill, second cut and smooth, rat tailed and triangular.
- 2 Sets taps and dies for standard, S.A.E. and for pipe thread in 1/8" to 1".
- 12 Ass't. screw drivers including patent screw holder.
- 12 Ass't. pliers, side cutters.
- 1 Punch & chisel set.
- 3 Hack saw frames - 1 Gross blades.
- 1 Set taper pins (assorted.)
- 1 Set drift pins " "
- 6 Stud removers.
- 2 Pinch bars - 1 wrecking bar.
- 1 Complete set blacksmith tools including anvil and forge.
- 1 Soldering outfit complete.

5321

a. Supplies:

White lead, friction tape, emery cloth, solder & flux, stock of asbestos, graphite-packing, sheet packing, braided packing, gasket compound, copper tubing ass't., copper tubing fittings & tools, valve grinding compound, penetrating oil, graphite.

* Assorted nuts, bolts & cap screws.

* This item will need be determined in accordance with types equipment furnished since certain quantities of certain sizes will be needed.

Flat & lock washers, lag-wood and metal screws, assorted cotter keys, insulated copper and mild steel wire, oil cans, gear pullers, wheel pullers, piston ring compressor, adjustable reamers, drop cords, wire brushes, fuses.

Complete ass't. of grease fitting including heavy button types peculiar to much heavy equipment.

d. Welding:

Complete electric welding outfit with extra cables.

Complete Oxy-Acetylene outfit with extra hoses, tips, flints, "c" clamps, welding and brazing rods, flux.

e. Tire Shop:

Air compressor with pipe & fittings.

Extra chucks and washers.

Hot patch vulcanizers - large stock gum & rubber for patches.

Large Ass't. tire valves.

Set tire hammers, irons, spreaders.

6 Tire gauges.

100' air hose.

5 Gross valve cores.

1 Gross " caps.

Large ass't. blow out patches.

1 Tube testing trough.

f. Battery Shop:

Heavy duty battery charger.

2 Hydrometers.

50 Gal. acid.

1 Small still. (oil burning)

~~5 - Fill~~

g. Filling Station:

4 - 5 Gal. gasoline cans.

12 - Drum faucets.

5320

6 - Water buckets.
Funnel - 4 two Gal. 4 - 2-qt. sizes.
Oil measures, 4 qt.
4 Rotary barrel pumps.
25 Gal. brake fluid.
Anti-freeze testers.

ACC/094/PWU

3 Nov. 1944

SUBJECT : Road Maintenance Equipment.
Reference Req. No. M.G.S.-180-Eng
(LAC Airgram 35)

TO : Allied Force Headquarters,
G-5 Sect. Econ. & Supply Div.

Reference your H-2 dated 24 October 1944.

1. In the light of information contained in your letter, the subject requirement has been reviewed in this H.Q. The total road mileage which we have now assumed is greatly in excess of mileage considered when the requirement was originally estimated, therefore it is desired that certain items be increased.

2. We wish to recommend that items of the subject requisition be amended as follows:

- Item 1. Tractor - Increase to 10
- " 2. Tractor - " " 20
- " 3. Shovel - Increase capacity from 1/2 C.Y. to 3/4 Cu.yd.- Other specification and number of units to remain unchanged.
- " 4. Truck 5/6 ton.- Increase to 6
- " 15. Truck 3 1/4 ton Dump.- Increase to 882
(Basis: 9 trucks per Province)
- " 16. Trucks, Cargo, Increase to 50
- " 20. Compressor, Increase to 10
- " 21. Compressor, Increase to 10

5318

3. Please add the following items to the subject requisition:

Item 32. Trailer, full, low bed,
24 ton Capacity 2

Item 33. Quarrying Supplies.

- (a) 75 - Jackhammers. 7/8" shank. Recommend Ingersall - Rand or Cleveland.
- (b) 300 - 7/8" x 2' - 0" drill rods
- (c) 300 - 7/8" x 4' - 0" drill rods
- (d) 300 - 7/8" x 6' - 0" drill rods
- (e) 225 - 7/8" x 8' - 0" drill rods
- (f) 225 - 7/8" x 10' - 0" drill rods
- (g) 225 - 7/8" x 12' - 0" drill rods
- (h) 500 - For 7/8" x 20' steel octogan rod stock.
- (i) 525 - Gross jackbits 1 3/4" to 2 1/4".
- (j) 350 - 50' sections airhose.
- (k) 1500 - Male & female couplings.
- (l) 125 - Line lubricators.
- (m) 80 - 20 hole detonators magneite type.
- (n) 75 - Galvanometers.
- (o) 25 - Paving breakers 1 1/8" shanked.
- (p) 200 - 4" spade (breaker)
- (q) 150 - Points 1 1/8" x 18" to 24".
- (r) 400 - 1 1/8" octogan steel stock.

4. It is proposed to furnish you a detailed breakdown of parts as covered by item 31 of the requisition. This list is now in process of preparation and will be forwarded when completed.

For the Acting Chief Commissioner.

A.G. ANTOLINI
Acting Head 5317
Economic Section.

Ref. H-2

Subject: Road Maintenance Equipment.
Reference Req. No. MGS-180-ENG (IAC Airgram 35)

To : Headquarters, Allied Control Commission; APO 394
Attn: Economic Section, Public Works and Utilities
Sub-Commission)

1. This is to advise you that the subject requirement has been approved by CCAC as a civilian supply requirement although the latest advice from CCAC states that supply responsibility as between the U.S. and the U.K. has not been determined.

2. CCAC has also requested, in view of the time that has elapsed since the original submission of the requisition which included a statement of items available from theater stocks, that a fresh determination be made as to theater availabilities. This determination is again being made by this office.

3. In view of the delay that has now occurred in securing complete CCAC action on this requisition, it is thought that you may wish to review the requirements as originally submitted by you in the light of any increase in road mileage which you may have been asked to assume maintenance on by AAI.

4. Prior to replying to CCAC with respect to current theater availabilities, your comments are requested as to any amendments that you may wish to make in MGS-180-ENG as it now stands. Since rapid action on this matter is desirable, you are requested to advise this office at the earliest possible time as to whether or not you intend to amend this requisition, rather than withhold your comments until any such amendments are prepared.

For the Assistant Chief of Staff, G-5

J.E. BUTTERWORTH
Colonel, Infantry 5316
Economics & Supply Division.

13 November 1944

C/8/3/PWU

Subject: Transportation.

To : Director, P.W. & U. S/C.

1. Recent experience has confirmed the writer's opinion that civilian type vehicles, especially worn out ones, are absolutely useless to this Div. of your S/C., except for short local trips.

2. On two occasions recently, important inspection trips, to flood damaged areas have had to be postponed or abandoned due to complete inability of the transportation provided to move over diversions and tracks which are perfectly practicable for W.D., type vehicles.

3. Frequent breakdowns have been caused by such attempts and valuable time lost by long hours of waiting, while civilian repair shops in isolated districts do their best to get the vehicle moving again. There are at present practically no Army Workshops South of Siena and it is not usually possible for them to repair our civilian type cars in the extreme unlikelihood of the breakdown being in their neighbourhood.

4. It is therefore requested that this Div., H.Q., be provided at once with at least two good W.D., vehicles, preferably C & R Cars, with soldier drivers, preferably Allied, in order that our essential duties may be carried out during the coming months.

531
V.S. THOMPSON
Lt. Col. R.C.E.
Chief, Public Wks. Div.

Note: Since writing the above, one of the two civilian type cars has failed completely and is in the garage for major repairs. It is doubtful if it will ever be of use again outside City.
