Subject. Genio Civile- EPURAZIONE

to H.Q. A.C.(PW)

76

1. I am informed that the Provveditore of LAZIO and UMBRIA, Ing. Alicata may be required to appear before the Italian Epurazione Committee to answer an accusation.
2. He has worked in the closest cooperation with me and the other officers of my staff for the past nine months; we have all formed the very highest opinion of his ability and straightforwardness. Frequent personal contacts leave no doubt in my mind as to his political reliability and wholehearted efforts for his country.

I have looked forward to continuing to work in cooperation with him in UMBRIA which is still under AMG control and remains a portion of his compartimento.

In view of the enormous volume of work now in hand in his compartimento, (some 2500 projects value 24 milliards lire which according to ACC reports represents about 1/3rd of all the work in progress in liberated Italy and includes 241 projects value 476 million lire, of which 165 are bridges, classified of Military Importance) and also work ahead I consider it indespensibl that he should remain in control or grave delays and disorganisation will result.

3. In another such case in this region an Engineer of a society similarly accused was suspended for several months and it resulted in serious interference with rehabilitation although when investigated ~~the~~ by the committee of Epurazione he was cleared and reinstated.

It is essential in the case of Ing. Alicata to avoid a similar suspension of activities which might adversely effect Military Operations.

It is therfore requested that, without prejudice to any final decision of the Italian Government, this case is strongly represented at once to the proper quarters with a view to avoiding any similar suspension at this time.

Cyril Findlay

OGGETTO Ponte di barche nel canale di Fiumicino (Roma).

A seguito della distruzione ad opera delle forze armate tedesche del ponte girevole in ferro sul canale di Fiumicino, le comunicazioni tra questo abitato e l'Isola Sacra sono divenute precarie.

Per alleviare i disagi della locale popolazione è stato istituito a mezzo del Comune di Roma un servizio di traghetto gratuito, utilizzando un galleggiante di proprietà di questa Amministrazione.

Per risolvere però completamente il problema delle comunicazioni l'Ufficio del Genio Civile pel Tevere e l'Agro Romano con lettera in data 2 novembre 1944, n. 3848, interessò

078/6/rwd TRANSLATION filed by C.tatti/ct

STATE ROAD No 7 "APPIA"

I) Rome - Albano Stretch 5 April 1945

At first, only one estimate was drawn up on 23/2/45, for an amount of 13,500,000 Lire, inclusive of all the works ordered by the Regional Road Engineer, since, according to his designation, the Contractor was only one.

Subsequently, it was requested that the works were split up into different estimates, according to their nature and type, and the following estimates were drawn up :

1)	No 1789 dated 12/3/45		723,000.00 Lire
2)	No 1790 "	"	1,412,000.00 Lire
3)	No 1791 "	"	2,400,000.00 Lire
4)	No 1792 "	"	7,372,000.00 Lire
5)	No 1794 "	"	390,000,00 Lire
	Total Amount		12,297,000.00 Lire

The estimate of 13/12/45 for an amount of 13,500,000 is in fact cancelled and the five a/m estimates substituted for it -

2) Velletri - Terracina stretch

Also in this case the basic estimate dated 20/2/45 for an amount of 20,000,000 Lire was sent back for dividing into different stretches, and possibly reducing the expenses. Following estimates were substituted for it :

1)	No 1872 from Velletri to Terracina dtd 14/3		10,100,000 Li.
2)	No 1877 from Km 54 to Km 94	do.	1,650,000 "
3)	No 1875 from Km 94 to Terracina	do.	7,500,000 "
	Total amount		19,250,000 Li.

The estimate dated 20/2/45 for 20,000,000 Lire is therefore to be considered in fact as cancelled -

6355

Declassified E.O. 12356 Section 3.3/NND No. 785019

3) Genzano - Velletri stretch

The estimate No 1874 of 14 March 1945 has been drawn up for an amount of 5,700,000 Lire.
The amount of crushed stone (1120 cu.m) needed for this stretch has been stated from memory, since it will be supplied by Velletri quarry.

4) Production of crushed stone - Velletri Quarry-

Estimate No 1783 of 14 March 1945 - amount : 6,050,000 Lire.
We forecast a production of 5,000 cu.m of crushed stone, (3,800 of which are to be supplied before June 30 and 1,200 during July and August). Out of these 3,800 cu.m, we forecast that 1.120 cu.m will be used for repairing the Genzano-Velletri stretch, and the remainder will be used - at 6 cu.m per Km/month - for the normal maintenance of the Albano-Terracina stretch.
In fact the estimate for maintenance during the six-month period mentioned hereafter does not include the crushed stone, which will be collected from Velletri quarry.

5) Terracina - Garigliano stretch -

The repairs to pavement were included, at first, in the estimate covering the maintenance of the whole road.
Subsequently, upon request of the Regional Road Engineer, we forwarded the estimate No 1843 of 27 February 1945, amounting to 4,250,000 Lire, which must be subtracted - as stated in the covering letter adressed to A.C. - from the estimate for normal maintenance as per following para. 6)

6) Rome - Garigliano stretch - Normal maintenance

First six months of 1945 - Estimate No 802 of 3/2/45 - Amount of 12,400,000 Lire reduced, as already stated, to 8,150,000 Lire.
Owing to the separate production of crushed stone as per para. 4, the amount is further reduced to 7,670,000 Lire.
This estimate is exclusive of the extraordinary repairs of the pavement, and the supply of crushed stone for the stretch from Albano to Terracina, which will be collected from Velletri quarry . It includes all the continuative works which are not included in the different special estimates, in respect of both the road itself and the embankments, bridges, walls, signals etc.
We are of the opinion that, with the reductions listed above, the estimates can be approved.

THE DIRECTOR GENERAL

Translate

STRADA STATALE N.7 " APPIA"

I) Tronco: Roma-Albano - Fu dapprima redatta unica perizia 23.2.I945 per L. I3.500.000, comprensiva di tutti i lavori disposti dall'Ingegnere Regionale Stradale, perché, per designazione dello stesso, l'Impresa assuntrice era unica.

Successivamente venne richiesto che i lavori fossero distinti nei limiti possibilmente ridotti secondo la loro natura, e contenuto, e sono state pertanto redatte le perizie seguenti:

I)	N.I789	data 12.3.I945	L.	723.000,00
2)	" I590	" id.	"	1.412.000,00
3)	" I79I	" id.	"	2.400.000,00
4)	" I792	" id.	"	7.372.000,00
5)	" I794	" id.	"	390.000,00
		Importo totale	L.	12.297.000,00

La perizia 13.12.I945 per L. I3.500.000 é perciò di fatto annullata e sostituita dalle cinque perizie sopra indicate.

2) Tronco: Velletri-Terracina - Similmente al tronco precedente la primitiva perizia 20.2.I945 per L. 20.000.000 venne restituita per suddividerla secondo le diverse tratte e per ridurre possibilmente le spese. Fu sostituita dalle perizie seguenti:

I)	n. I872 Velletri Terracina	in data I4.3.I945	L.	I0.I00.000
2)	" I877 km.54-km.94	id.	"	I.650.000
3)	" I875 km.94-Terracina	id.	"	7.500.000
		Importo totale	L.	19.250.000

Sicché la perizia 20.2.I945 di L. 20.000,000 é da considerare, di fatto, annullata.

6354

3) Tronco: Genzano-Velletri - E' stata redatta la perizia I874 del I4

La perizia 13.12.I945 per L. I3.500.000 é perciò di fatto annullata e sostituita dalle cinque perizie sopra indicate.

2) Tronco: Velletri-Terracina - Similmente al tronco precedente la pri= mitiva perizia 20.2.I945 per L. 20.000.000 venne restituita per suddivi= derla secondo le diverse tratte e per ridurre possibilmente le spese. Fu sostituita dalle perizie seguenti:

I)	n. I872	Velletri Terracina in data I4.3.I945	L.	IO.IOO.000
2)	" I877	km.54-km.94 id.	"	I.650.000
3)	" I875	km.94-Terracina id.	"	7.500.000
		Importo totale	L.	19.250.000

Sicché la perizia 20.2.I945 di L. 20.000,000 é da considerare, di fatto, annullata.

6354

3) Tronco: Genzano-Velletri - E' stata redatta la perizia I874 del I4 marzo I945 per L. 5.700.000.

La graniglia occorrente per questo tratto (mc. II20) é stata segna= lata per memoria perché sarà prelevata dalla cava di Velletri.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

4) Produzione graniglia - Cava di Velletri - Perizia n.I783 del I4 marzo I945 - Importo L. 6.050.000.

E' prevista la produzione di mc. 5.000 di graniglia dei quali mc. 3.800 entro il 30 giugno e I.200 nei mesi di luglio ed agosto.

Di questi mc. 3.800 é previsto che mc. I.I20 siano impiegati per la sistemazione del tratto Genzano-Velletri ed il resto in ragione di mc. 6 per kilometro/mese per la ordinaria manutenzione del tratto Albano-Terracina, ed infatti nella perizia di manutenzione del semestre di cui é detto appresso é stata esclusa la graniglia, in previsione di prelevarla da Velletri.

5) Tronco: Terracina-Garigliano - Le riparazioni del piano viabile sono state in un primo tempo incluse nella perizia di manutenzione per tutta la strada. In seguito a richiesta dell'Ingegnere Regionale Stradale é stata presentata la perizia n. I483 del 2% febbraio I945 per lire 4.250.000 il cui importo come é detto nella lettera di trasmissione all' A.C. va portato in detrazione della perizia di ordinaria manutenzione di cui appresso:

6) Manutenzione ordinaria Roma-Garigliano - I° semestre I945 - Perizia n.802 del 3.2.I945 - Importo L. I2.400.000 ridotto, come già detto, a L. 8.I50.000. In relazione alla separata produzione di graniglia di cui si é detto al n.4 l'importo si riduce ulteriormente a L.7.6?0.000

Da essa sono esclusi i lavori di sistemazione straordinaria del piano viabile,e la fornitura della graniglia per il tratto Albano-Terracina, che verrà prelevata dalla cava di Velletri.

Tale perizia comprende tutti gli interventi tecnici di carattere continuativo che non sono compresi nei lavori straordinari oggetto delle singole perizie speciali e ciò sia nel capostrada che per le banchine, le opere d'arte, muri, segnalazioni ecc.

Con le riduzioni apportate si ritiene che le perizie possano essere approvate.

HEADQUARTERS ALLIED COMMISSION
Public Works & Utilities Sub-Comm.
APO 394.

2 April 1945.

My dear Mr. Minister,

Reference your letter No. 694/35 of 30 March 1945.

It is noted with satisfaction that out of 81 contracts, only 20 were awarded without competition, and some of those were so awarded on instructions from this Sub-Commission.

It is not desired to give the impression that this Sub-Commission has any desire to accuse Eng. Mancini of irregular practice.

If your Excellency is satisfied that the prices paid in the Naples Area are reasonable it is not our intention to carry the matter further.

Sincerely,

H.E. Meuccio Ruini,
Minister of Public Works
Italian Government,
Rome.

OGGETTO: Ufficio del Genio Civile per la Viabilità statale di Caserta.

Facendo seguito alla nota n.251/35 del 26 gennaio c.a. comunico che dalle indagini effettuate sulla gestione dell'Ufficio del G.C.per la Viabilità Statale di Caserta dalla Commissione da me nominata, è risultato, fra l'altro, che su 81 contratti per l'assegnazione di lavori mediante cottimi fiduciari, 20 furono stipulati senza gara. Per 9 di questi ultimi la designazione dell'Impresa, secondo dichiarazioni del dirigente ing.Mancini, sarebbe stata fatta dall'Ufficiale di campo o dall'Ufficiale capo dei Lavori pubblici.

I suddetti lavori sono i seguenti:

1°) Strada Comunale di Benevento; Ricostruzione di 3 luci del ponte sul Calore; impresa Soc.Campanella Mario e F.lli Caputo, designata dal Cap. Feldman;

2°) Strada statale n.7; ricostruzione di 5 archi del ponte sul Sabato in Benevento; Impresa Soc.Campanella Mario e F.lli Caputo, designata dal Cap. Feldman ;

3°) Strada statale n.18; ricostruzione ponte San Francesco in Cava dei Tirreni; Impresa Soc.Campanella Mario e F.lli Caputo, designata dal Cap.Thompson;

MINISTRY OF PUBLIC WORKS - GABINETTO

Reference : 1474

To : SERVICE CHIEFS OF CENTRAL, LOCAL & PROVINCIAL ADMINISTRATION OF PUBLIC WORKS -

& inform. : PRESIDENCY OF THE COUNCIL OF MINISTERS -
- PUBLIC WORKS & UTILITIES SUB-COMMISSION, AC
- PRESIDENCY OF THE COURT OF ACCOUNTS
- ALL MINISTERS
- CENTRAL ACCOUNTANT'S OFFICE

Subject : Suppression of Azienda Autonoma Statale della Strada -

The Director of Public Works and Utilities Sub-Commission of the Allied Control Commission has brought into my notice that the offices in charge of works on State Roads are still using in their official correspondence and when dealing with other lower offices the old headings : " Direction General of A.A.S.S. and Compartimento della Viabilità"

The Council of Ministers has already approved the draft Decree concerning the suppression of A.A.S.S. and the transfer of its responsibilities to the central Agencies of this Ministry and to the special Offices of Genio Civile della Viabilità.

We deem therefore it necessary to confirm the instructions already issued, even pending the publication of the Decree and in order to comply with a wish several times expressed by the Director of Public Works and Utilities Sub-Commission of the Allied Commission, to the effect that the Direzione Generale della Viabilità Statale and the Special Offices of Genio Civile per la Viabilità which replace the late offices of the Azienda refrain from using the old headings.

This use generates confusions and conveys the idea that the old suppressed Body is still functioning.

In order to avoid any inconvenience, I thereby specifically order that all the indications concerning the suppressed Body be removed from the Offices of Segnaletica Stradale and from the official correspondence. Please acknowledge immediately.

This letter is sent for the information of the Presidency of the Council of Ministers, to the Presidency of the Court of Accounts and to all the Ministers, who are invited to notify to the Offices under them the suppression of Azienda Autonoma Statale della Strada.

SUBJECT: Damage to Telephone Circuits, Caused by Bitumen Heaters.

TO : All Cantonieri and All Road Contractors in PBS Territory.

1. Quite frequently workmen will erect a tar heater very close or directly underneath a telephone circuit.

2. It sometimes happens that these kettles catch on fire.

3. Two incidents have occurred recently in which important military telephone lines were completely destroyed by these fires.

4. Great care should be exercised in setting up any tar heaters to be absolutely sure that no telephone lines may become injured.

5. Should any damage result from this cause the individual workmen will be held responsible and the contractors employing them will be held accountable for the cost of the repairs.

6. All cantonieri and all contractors will make a careful check of all bitumen heating installations and if any hazards to telephone installations exist the heaters will be moved.

7. All cantonieri and all contractors will instruct their workmen never to erect a tar heater where it may endanger a telephone circuit.

My dear Mr. Minister: -

We have received reports from Military Authorities that in some cases Italian contractors were placing bitumen heaters underneath telegraph and telephone wires when heating the bitumen. We are also informed that occasionally the drums catch fire and create sufficient heat to destroy the telephone and telegraph wires, thus causing serious delays in communications.

Will you please issue instructions to all Genio Civile to request that all contractors, when heating bitumen, place these heaters in locations removed from overhead wires, so as to avoid any future difficulty.

Sincerely,

L.A. JERNY,
Colonel, C.E.,
Director.

Subject: Recalling of Lt.Col. Carlo Madia to active service to be attached to Minister of Public Works.

To : Land Forces Sub-Commission, M.M.I.A.

1. The Ministry of Public Works wishes to appoint Engr. Carlo Madia, a disabled Lt.Col., as chief of the management of motor vehicles and machinery.

2. This position for several years before the war was handled by Lt.Col. Carlo Madia attached to the Genio Civile from the Army.

3. At the present time he is in an inactive status and the Ministry of Public Works is requesting that he be called to active service and assigned to the Ministry of Public Works for work as stated in paragraph 1.

4. The Public Works and Utilities Sub-Commission is interested in that they think that an army man will be the best suited for this type of work. This machinery is being furnished by the Allies.

For the Chief Commissioner:

L.A.JENNY
Colonel, C.E.
Director.

Oggetto Vestiario da assegnare ai cantonieri e funzionari dipendenti dal Ministero.

Questo Ministero prende atto della assegnazione di vestiario usato che sarà fatta da parte di codesta Sottocommissione.

Tale vestiario sarà distribuito al dipendente personale, con precedenza ai cantonieri che lavorano sulle strade a carattere militare, e sarà iniziata subito nella zona di Napoli a mezzo di una organizzazione diretta dal Geom.Capo Fons dell'Ufficio del Genio Civile di Napoli. L'Ing.Reggiani darà le istruzioni necessarie al predetto funzionario.

IL MINISTRO

TRANSLATION ac/ad

Ministry of Public Works.
Director General of Technical Services. Rome 5 March 1945.

N. 2805

TO : Public Works & Utilities Sub-Commission.

Subject : Clothing to be alloted to "Cantonieri" and officials of the Ministry.

The Ministry notes that an allotment of already worn clothing has been made by the Allied Sub-Commission.

This clothing will be distributed to the personnel, giving priority to the "Cantonieri" working on military roads, and it will be started at once in the Napled area by an organisation under the management of "Geom. Capo" of the Naples Genio Civile Office. Ing. Reggiani shall give the necessary instructions to the abovementioned official.

Sgd.

The Minister.

Subject: Military Roads.

To : Public Works and Utilities Sub-Commission.

1. The attached schedules show the financial provision that has been made in the current financial year, for approved works on military roads in Italian Government territory.

for [illegible]
Joint Director
Finance Sub-Commission

Lt Col Thompson

Pls check to see that this covers projects in hand. The doubling of the overall appropriation from 1 & 2 billion lire should take care of the balance for some good time to come.

SUBJECT: Funds for Military Highways

TO : S.E. Ministro dei Lavori Pubblici
S.E. Ministro del Tesoro.

1. The special appropriations already made for the reconstruction of military highways will prove to be insufficient to complete works now in progress and other approved projects to be undertaken during the current financial year.

2. The estimated cost of all approved projects relating to military highways up to 30th June, 1945, is 2.000 million lire, and it is accordingly requested that an additional appropriation be made in the budget of the Ministry of Public Works to provide for this expenditure so that no work shall be interrupted or delayed.

SUBJECT: Funds for Military Highways

TO : Director, Finance Sub-Commission

1. The question of increasing the present one miliard lire fund for the reconstruction of military highways has received consideration and we find it necessary, in view of the program in sight, to ask that another miliard lire be made available to this fund. This would make a total of two miliard lire.

2. Will you please take this matter up with the proper Finance authorities in the Italian Government so that satisfactory arrangements may be made as suggested above? I shall be glad if you will be so good as to advise me on the steps taken and when the total fund will become available.

SUBJECT : Wages increase under Decree 303 dated 2nd Nov.44.

IN REPLY QUOTE : B4/ENG/21.4

Reference your CTS/6/PWU dated 31st Jan - The ministerial interpretation is entirely inadequate. -

1) The 2nd paragraph of the Ministers letter dealing with contracts prior to 16th August is satisfactory.

2) The third paragraph of 4 lines is unsatisfactory for following reasons:

(a) Although rumours of some increase were abroad there was nothing official or definite.

Many enquiries were received from contractors who hearing rumours were reluctant to sign contracts .

The first intimation was in Newspaper Corriere di Roma dated 12th November.

Decree signed 31st Oct published in Gazetta 16th Nov when it became official. -

On 15th Nov I wrote to Labour Division ~~saying~~ and they sent me a copy of the Ruling from Director Labour Commission dated 27th October (copy attached) - This indicates that correspondence was going on as early as 22nd Sept.

Enquirers were told to pay no attention to rumours and adhere to established Labour Rates until official notification, this was in accordance with advice given by your Subcommission which I deem to have been correct.

6301

(b) The contractors have had to pay Extras and should be reimbursed.-

It affects several hundred contracts as the Period covered was

SUBJECT : Increase of Wages of Labourers

IN REPLY QUOTE : R4/ENG/21.4

Reference Royal Decree dated 2nd Nov N° 303 published 14th Nov N° 81 in Gazzetta. -

1) This opens a large question that may amount to several hundred million lira - that is NOT yet defined. -

The points are

(1) Employeers have to pay the labour under the Decree retrospectively to 15th Aug - which has been published in the papers and workmen are clamouring to be paid and employee has to pay insurances etc in addittion.

(2) Is the Contractor to be reimbursed if so how, when and from what funds.

Arising out of these are:

Labour (a) Those paid normal rates are obviously entitled to fill extra (It is douttful if normal rates are anywhere defined and vary with locality and supply and demand).

(b) Where the contract specified allied forces rates or some other definite rate above normal will extra be paid above these or only difference. -

(c) Contracts and Type

(1) Made before 15th Aug.
(2) Made between 15th Aug & 14th Nov or 2nd Nov whichever is the legal date.
(3) Cost plus contracts
(4) Lump sum contracts
(5) Measured Contracts
(6) Direct labour.

Each requires different treatment.

Allegati N° quattro

Oggetto: Aumenti di retribuzioni ai lavoratori-

Al Sig. INGEGNERE REGIONALE
del COMANDO ALLEATO

Facendo seguito alla nota n.21188 del 3 corrente e con riferimento alla lettera sopra indicata di codesto Comando, si fa presente quanto segue:

1 - Si trasmette copia del Decreto Legislativo Luogotenenziale 2 novembre 1944 n.303, pubblicato nella "Gazzetta Ufficiale" (serie speciale) del 14 novembre corrente, che stabilisce miglioramenti economici a favore dei lavoratori, nel caso di rapporti di lavoro già disciplinabili con contratti collettivi.

2 - Tutti i contratti relativi ai lavori appaltati su richiesta di codesto Comando sono dello stesso tipo: a domanda di codesto Comando stesso se ne trasmette, pertanto, l'accluso esemplare. Parimenti in tutti i contratti del genere sono state fissate esplicitamente le"tariffe salariali".

3 - Per quanto riguarda la misura di tali tariffe, si trasmette l'unito specchio di raffronto, nel quale sono indicate sia le paghe normali in vigore all'atto dell'affidamento dei lavori in esame, sia le paghe corrisposte per i particolari lavori disposti da codesto Comando.
Da tale specchio risulta che quest'ultime paghe sono lievemente superiori a quelle correnti sul mercato, al momento dell'inizio dei lavori suddetti.

4 - Poichè le ipotesi previste dagli articoli 3 (comma 2°) e 5 del Decreto suddetto, circa il riassorbimento dell'aumento di 35 lire giornaliere nei due casi speciali di "paghe notevolmente superiori connesse a lavorazioni di carattere stagionale" (evidentemente agricole) e di "aumenti" di retribuzione concessi dopo il 15 luglio 1944" non ricorrono nel caso in esame, sembra che ai lavoratori di cui trattasi debba essere corrisposto per intiero l'aumento di 35 lire giornaliere predetto.
A tale proposito, la scrivente Amministrazione richiama l'attenzione sull'acclusa lettera n.4802 del 6/9/44 dell'Ufficio Provinciale del Lavoro, pervenuta in data 11 novembre u.s., dalla

../..

0218

Declassified E.O. 12356 Section 3.3/NND No. 785019

quale risulta che ogni questione sarebbe stata "recentemente risolta dalla Commissione Alleata con "lettera del 27 ottobre 1944 WES/tr. diretta all'Ufficio Regionale del "Lavoro della Zona Lazio-Umbria", nel senso che, in accoglimento della tesi dell'Ufficio Provinciale suddetto, "la Commissione Alleata avrebbe dichiarato che entrambe le indennità (indennità di presenza e indennità di carovita), oltre agli assegni famigliari, dovrebbero essere corrisposte in aggiunta ai salari fissati dall'A.M.G., nelle note misure e, di conseguenza, le Amministrazioni Pubbliche dovrebbero effettuarne il rimborso alle Ditte appaltatrici".
Questo Comune ritiene peraltro che, mentre è chiara la questione relativa all'aumento di L.35 giornaliere (indennità carovita) disposto dal Decreto suindicato, nessuna indennità di presenza (L.18 = giornaliere) dovrebbe essere corrisposta agli operai addetti ai lavori richiesti da codesto Comando, poichè nelle tariffe relative fu già espressamente inclusa l'indennità di presenza predetta, come risulta anche dall'accluso prospetto comparativo.
Circa la corresponsione degli assegni famigliari, dovrebbe provvedere la "Cassa unica", secondo quanto stabilito dall'art. 2 del Decreto sopraindicato.

5 - Non sembra dubbio che essendo stato legalmente sancito l'aumento di 35 Lire giornaliere, il lavoratore abbia il diritto di percepire l'aumento stesso dall'Impresa appaltatrice, la quale a sua volta, non mancherà di rivalersi verso la stazione appaltante, dato anche che i lavori sono stati affidati in economia e l'Impresa deve necessariamente reintegrarsi delle maggiori spese incontrate.

6 - Per quanto riguarda "la clausola contemplante margini per rimborso di spese straordinarie dovute ad aumenti di retribuzioni sanciti ufficialmente", della quale è cenno nella lettera cui si risponde, questa Amministrazione avanzerà le proposte del caso in occasione di nuovi eventuali appalti del genere.

Ciò premesso, si prega di voler cortesemente impartire disposizioni circa l'accoglimento delle richieste avanzate dall'Ufficio Provinciale del Lavoro, tenuto presente che i lavori di cui trattasi sono stati, come si è detto, appaltati per conto di codesto Comando e che pertanto l'onere relativo agli aumenti stessi dovrà far carico a codesto Comando stesso.

N. di Protocollo CO/1561 del 8/11/1944
Risposta al N: R4/EMG/21.4

Subject: Increase of wages to labors.

To the Regional Engineer of the Allied Command

Attached N: four

Following our note N: 21188 of November 3rd 1944 and in reference to your above mentioned letter, we inform you as follows:

1) We are forwarding you a copy of the Lieutenant's Legislative Decree number 303, dated November 2nd 1944, published by the "Gazzetta Ufficiale" (special series) on November 14th 1944 which establishes an economical improvement in favor of the workmen, in case of work relations already regulated by collective contracts.

2) All contracts in relation to works contracted by request of the Allied Command are of the same type; enclosed we are forwarding you a copy, as per your request. Likewise in all the contracts of this kind, the wages' rates have been clearly fixed.

3) In regard to the measure of such rates, we are forwarding you a table with list of rates, in which both the normal wages in force at the time that the works were contracted and also the wages corrisponded to the different classifications of labor, as disposed by the said Command, are indicated.

From the enclosed list of prices it results, that the wages of these last payroll sheets were a little above the wages paid elsewhere, at the time that the above mentioned works were started.

4) As the forseen hypothesis of Articles 3 (2nd Comma) and 5 of the above mentioned Decree, concerning the re-absorption of the 35 liree per day increase in the particular two cases of "pays considerable higher in connection with seasonal labor" (evidently agricultural) and concerning "retribution increases, granted after July 15th 1944" are not concerned in the case in examination, it appears that to the labors concerned should be allowed the entire increase of 35 lire per day.

For that purpose, this Administration calls your attention to the enclosed letter N: 4802 of the Provincial Office of Labor received November 11th 1944, from which it results that every question has been recently resolved by the Allied Commission with their letter of October 27th 1944 WBS/tr, written to the Regional Office of "Lavoro della Zona Lazio-Umbria", which means that, in acceptance of the above mentioned Provincial Office's thesis, "the Allied Commission" had made it clear that both the indemnities (presence indemnity and high cost of living indemnity) besides the family allowances should be corresponded in addition to the A.M.G. fixed wages, and the Administrations will have to reimburse it to

3) In regard to the measure of such rates, we are forwarding you a table with list of rates, in which both the normal wages in force at the time that the works were contracted and also the wages corrispended to the different classifications of labor, as disposed by the said Command, are indicated.

From the enclosed list of prices it results, that the wages of these last payroll sheets were a little above the wages paid elsewhere, at the time that the above mentioned works were started.

4) As the foreseen hypothesis of Articles 3 (2nd Comma) and 5 of the above mentioned Decree, concerning the re-absorption of the 35 lires per day increase in the particular two cases of "pays considerable higher in connection with seasonal labor" (evidently agricultural) and concerning "retribution increases, granted after July 15th 1944" are not concerned in the case in examination, it appears that to the labors concerned should be allowed the entire increase of 35 lire per day.

For that purpose, this Administration calls your attention to the enclosed letter N? 4802 of the Provincial Office of Labor received November 11th 1944, from which it results that every question has been recently resolved by the Allied Commission with their letter of October 27th 1944 WES/tr, written to the Regional Office of [illegible] which means that in acceptance

Declassified E.O. 12356 Section 3.3/NND No. 785019

1) We are forwarding you a copy of the Lieutenant's Legislative Decree number 303, dated November 2nd 1944, published by the "Gazzetta Ufficiale" (special series) on November 14th 1944 which establishes an economical improvement in favor of the workmen, in case of work relations already regulated by collective contracts.

2) All contracts in relation to works contracted by request of the Allied Command are of the same type: enclosed we are forwarding you a copy, as per your request. Likewise in all the contracts of this kind, the wages' rates have been clearly fixed.

3) In regard to the measure of such rates, we are forwarding you a table with list of rates, in which both the normal wages in force at the time that the works were contracted and also the wages corrisponded to the different classifications of labor, as disposed by the said Command, are indicated.

From the enclosed list of prices it results, that the wages of these last payroll sheets were a little above the wages paid elsewhere, at the time that the above mentioned works were started.

4) As the foreseen hypothesis of Articles 3 (2nd Comma) and 5 of the above mentioned Decree, concerning the re-absorption of the 35 lires per day increase in the particular two cases of "pays considerable higher in connection with seasonal labor" (evidently agricultural) and concerning"retribution increases, granted after July 15th 1944" are not concerned in the case in examination, it appears that to the labors concerned should be allowed the entire increase of 35 lire per day.

For that purpose, this Administration calls your attention to the enclosed letter N° 4802 of the Provincial Office of Labor received November 11th 1944, from which it results that every question has been recently resolved by the Allied Commission with their letter of October 27th 1944 WES/tr, written to the Regional Office of "Lavoro della Zona Lazio-Umbria", which means that, in acceptance of the above mentioned Provincial Office's thesis, "the Allied Commission" had made it clear that both the indemnities (presence indemnity and high cost of living indemnity) besided the family allowances, should be corresponded in addition to the A.M.G. fixed wages, therefore the Public Administrations will have to reimburse it to the Contractors".

6296

../..

Declassified E.O. 12356 Section 3.3/NND No. 785019

This Comune retains that, while the increase of 35 lire per day, (high cost of living indemnity) granted by the above mentioned Decree, is clear, the "presence indemnity" (18 lire per day) should not be corresponded to the labors employed on the works requested by the Allied Command because in the relative wages, there was already included the above mentioned presence indemnity, as it also results from the enclosed comparative prospect.

Concerning the family allowances benefit, it should be provided by the "Cassa Unica", as it has been established by Article 2nd of the above mentioned Decree.

5) There seams not doubt that as the increase of 35 lire per day has been decreed, the workman has the right to receive this increase from the Contractor, that employs him, while the Contractor has the right to be reimbursed by the Government from which it has obtained the Contract, due also to the fact that the works have been contracted at low price and therefore the Contractor must necessarily be reimbursed of the further expense he has met.

6) In regard to the "Clause forseeing margins for reimbursement of extraordinary expenses due to increase of retributions "Officialy decreed", which is mentioned in the letter, to which we are answering, this Administration will forward requests in each case of new possible contracts of this kind.

Having cleared the above facts, we beg you to comunicate to us orders concerning the acceptance of the requests put forth by the "Ufficio Provinciale del Lavoro" keeping in mind that the works in question, as it has already been said, were contracted for the Allied Command and therefore the relative burden of the increases will have to be charged to the Allied Command.

HEADQUARTERS
ALLIED CONTROL COMMISSION
LABOR SUB COMMISSION
APO 394

WES/tr/cg

27 October 1944

SUBJECT : Reimbursement of Contractors of Genio Civile for Presence Indemnity and Family Allowances.

TO : Regional Labor Officer Umbria-Lazio-Region.

1.- A review has been made of the general question referred to this Sub-Commission in your memo of 22 September 1944 regarding reimbursement of contractors working for the Genio Civile in Rome.

2.- The situation has undoubtedly been complicated by the fact that the contractors were originally instructed to pay wages in accordance with the AMG scale and were considered as being somewhat in the same category as contractors with the Allied Armed Forces.

3.- Regardless of any former interpretations, however, the matter may now properly be considered as one involving solely the relations between an Italian private employer and an Italian governmental agency. This is in accord with the opinion expressed by the Provincial Labor Director in his letter to you of 22 September, with which, we understand, you have already indicated your agreement verbally. Under the circumstances, there can be no question but that the contractor is bound by provisions of Italian law with respect to payment of the indennità di Presenza and family allowances. It would appear, moreover, that the terms of the contract entitle the employer to reimbursement, by the Genio Civile, of all wages and contributions which are legally payable and actually paid.

Translation by ACR/ of prese notice published in the Corriere di Roma nº160 of the 12th November 1944.

PAYMENT OF ALL INDEMNITIES TO LABOR EMPLOYED IN PUBLIC WORKS.

The Provincial Labor Office informs:
In occasion of work connections established between labourers and Italian enterprises for the execution of public utility works carried out by these enterprises under adjudication from the Communes or the Genio Civile, several public administrations and private firms have expressed their opinion that, as regards wages fixed by the Allies, these should be considered inclusive of family allowances, work presence indemnity and, presently, the high cost of living indemnity. The Provincial Labor Office has always stated that the above mentioned connections of work are fully subjected to the general rules in force on such matters and therefore all the above benefits, of a different nature of wages, must be granted in addittion to the wages. This solution to the general problem has found fully consentient the Allied Commission which, at the request of the Provincial Labor Office, has expressly stated that the enterprises are held to correspond, in addittion to wages, all benefits provided by Italian law, to which are subjected the labor connections.
The Allied Commission has also expressed the view that the Administrations leasing out the works should refund to the dependent enterprises the amounts paid out under these obligations.

SUBJECT : Wages increase under Decree 303 dated 2nd Nov.44.

IN REPLY QUOTE : R4/ZEC/21.4

Reference your 078/6/PWU dated 31st Jan - The ministerial interpretation is entirely inadequate. -

1) The 2nd paragraph of the Ministers letter dealing with contracts prior to 16th August is satisfactory.

2) The third paragraph of 4 lines is unsatisfactory for following reasons:

(a) Although rumours of some increase were abroad there was nothing official or definite.

Many enquiries were received from contractors who hearing rumours were reluctant to sign contracts .

The first intimation was in Newspaper Corriere di Roma dated 12th November.

Decree signed 31st Oct published in Gazette 18th Nov when it became official. -

On 15th Nov I wrote to Labour Division saying and they sent me a copy of the Ruling from Director Labour Commission dated 27th October (copy attached) - This indicates that correspondence was going on as early as 22nd Sept.

Enquirers were told to pay no attention to rumours and adhere to established Labour Rates until official notification, this was in accordance with advice given by your Subcommission which I deem to have been correct.

(b) The contractors have had to pay Extras and should be reimbursed.-

It affects several hundred contracts as the Period covered was

MEMORANDUM

078/6/PWU 9 February 1945

Subject: Engineer Enrico Reggiani.

To : Director, Public Works and Util. S/C.

1. In June, 1944, the Inspector General of the Ministry of Public Works suggested the appointment of Engineer Reggiani to the position of Chief Engineer of the Compartment of Lazio. As this Engineer was then rendering valuable services as Liaison officer between our HQ., and the Ministry, I at first objected to this proposal, but upon being advised that the suggested appointment would result in a substantial promotion for Engineer Reggiani, I withdrew my objections. We were then advised by the Ministry that the appointment had been made.

2. It was then agreed to send Reggiani immediately to the Province of Frosinone to effect the reorganization of the Genio Civile office there, after which he would proceed to Rome to assume his new position.

3. After the Ministry was moved to Rome from Naples it apparently was discovered that the Compartmental Genio Civile staff was relatively intact and functioning, therefore they deemed it unwise to replace the incumbent chief Engineer. As a result, the Inspector General proposed the reappointment of Engineer Reggiani to his former position of Liaison Officer. With a distinct understanding that this change of plan would not mean that Reggiani would lose the newly acquired Civil Service Status, I welcomed the proposal and gave my full approval.

4. When Reggiani initially assumed his duties of Liaison officer in January 1944 his rating was Grade 9. I now discover that to date his status is unchanged and that he received no benefits as a result of the events outlined above.

Lt Col Thompson W.

I discussed this with the Minister. He thought the plan to give acting appointments might be a good way out. He will study it immediately. Interested the need for younger active men. Ltr 4/2

Ext:339 VST/fr

MEMORANDUM

078/6/PWU 2 February 1945

39

To : Director, Public Works & Util. S/C..

1. It has been found that one of the difficulties to be overcome in our efforts to assist the Genio Civile organization to a war time sense of urgency has been the age of the senior officials.

2. All of these men have reached their positions, usually grade 6 if heads of compartments, after a life time devoted to their chosen profession. Their judgement is sound and their technical qualifications of a very high order indeed, but they are by the nature of things physically incapable of operating under pressure of emergency.

3. It is felt that many of these men would have retired, but for economic conditions, and will almost certainly do so after the war, if they do not die in the service, as recently two of them have.

4. In order to carry out the work required under present conditions, younger men are necessary, but we are met with the objection that these younger men are not of suitable grade for the senior appointments.

5. The suggestion is therefore made that the recognized military procedure be adopted and the younger men be promoted to "Acting" rank for the duration of the war or the tenure of the position.

6. Many of thse appointments would be confirmed after the war due to reasons stated in para. 3, but in any event if reversion were necessary, the appointee would have demonstrated his ability for future consideration and would be no worse off than he is at present.

6279

;;;/;;;

0 2 6 71

Declassified E.O. 12356 Section 3.3/NND No. 785019

7. It stands to reason of course that the acting rank must carry all the emoluments and privileges of the grade while it is in force.

V.S.THOMPSON

MINISTERO LAVORI PUBBLICI
Dir.Gen.dei Serv.Tecnici

Prov.n.2719

OGGETTO:

Paghe salariali-Indennità
e maggiori oneri decorrenti
dal 16 agosto 1944.

Agli Ingegneri Capi degli Uffici
del Genio Civile

e per conoscenza:
-Agli Ispettori generali compartimentali del Genio Civile

C I R C O L A R E

A seguito della concessione dell'indennità di £.35 giornaliere agli operai, in aggiunta alle paghe salariali vigenti al 15 agosto 1944, oltre all'aumento degli assegni familiari, sono stati rivolti quesiti a questo Ministero al fine di conoscere se per i lavori in corso al 16 agosto 1944, in base a contratti o prezzi antecedentemente a tale epoca concordati o stipulati, e per i lavori appaltati successivamente all'epoca stessa si debbano riconoscere alle imprese i maggiori oneri sopportati in conseguenza delle concessioni su riportate.

In proposito, e ricordando che nulla è innovato per quanto riguarda le disposizioni vigenti in materia di revisione di prezzi, informo che a seguito di accordi presi con le Autorità Alleate, e al fine esclusivo di non creare ostacoli nella prosecuzione dei lavori in corso al 16 agosto, tutti di carattere militare o ad esso connessi, si è stabilito di riconoscere la indennità e gli aumenti degli assegni per i contratti stipulati ed i prezzi concordati prima di detta epoca, previ i più rigorosi accertamenti sul numero degli operai addetti ai lavori e sulle giornate lavorative prestate, e sulle paghe effettivamente corrisposte all'epoca medesima, di modo che, se queste erano già superiori ai minimi di tariffa vigenti, dovrebbe essere corrisposta la sola diffe-

GABINETTO MINISTERO LAVORI PUBBLICI
ROMA

In esito alla lettera suddistinta si informa che il Servizio Ferroviario Alleato non ritiene, pel momento, di poter rilasciare la carta di libera circolazione sui treni militari alleati richiesta da codesto Gabinetto a favore dell'Ispettore Capo Amministrativo Prof. GRILLI Carlo.

Il prefato Servizio ha però aggiunto che se il lavoro di ricostruzione si svolge sotto la giurisdizione della Commissione Alleata, la richiesta della carta di circolazione dovrebbe essere rivolta a detto Ufficio.

TRANSLATION

MINISTRY OF PUBLIC WORKS

18 December 1944

No.2566
Subject: Works of emergency for the clearance of snow on Military Highways.
To : All Chief Engineers, Of Highway Special Office of G.C.
All Compartimental Inspectors of Genio Civile.

1. In order to maintain the Military Highways open to traffic, it is deemed necessary to organize in advance a snow clearance emergency service.

2. All offices should arrange to have, thru contractors or in direct labor, an adequate number of workmen, who at the request of chief Cantonieri or cantonieri are ready to go to work, as soon as the snow begins to fall. It is probable that the Allied Engineers will give you assistance especially in places where the snow is expected to accumulate rapidly. Such assistance will in most case consist of tractors for the towing of snow plows and may be extended to hand-tools. If the offices have snow plows they should make sure of the good conditions of these, and instruct their personnel that in case of a snow fall, whether at day or at night time, it should go out immediately and with an adequate number of workmen needed for the removal of the snow. In the event that men have to work at night authorized wage increases are allowed. When Chief Cantonieri or cantonieri are requested by Allied Officers, whether at day or night they should with their squads immediately place themselves at the direction of the officer and carry out whatever works are ordered them.

3. For such emergency intervantions the offices are authorised to commence work out of their own initiative or as said above when requested by Allied Officers, they will advise the AC Regional Officer and submit to him the estimates for the works executed in order to obtain proper approval.

THE MINISTER.
(sgd) Rutni

(Lavori Elevazione)

Roma 13 dicembre 1944

MINISTERO DEI LAVORI PUBBLICI
Dir.Gen.dei Serv.Tecnici

Circolare Prot.N. 7736

Agli Ing.Capi degli Uffici Speciali del Genio Civile per la Viabilità Stradale
e P.C.
-Agli Ispettori Compartimentali del Genio Civile
-Alla Direz.Generale per la Viabilità Statale
-Alla Sottocommissione LL.PPL e Servizi della A.C.

OGGETTO:

Lavori di emergenza per sgombro della neve sulle strade a carattere militare.

Nella eventualità di caduta di neve sulle strade a carattere militare è necessario che siano opportunamente predisposti i servizi per intervenire immediatamente onde mantenere aperto il transito.

Pertanto ogni ufficio dovrà provvedere affinchè,sia a mezzo di imprese,sia in economia diretta,possano essere predisposti opportuni nuclei di operai i quali, alla richiesta di capicantonieri o cantonieri possano intervenire immediatamente non appena comincia a verificarsi la caduta della neve. E' probabile che il Genio militare Alleato possa dare aiuto,particolarmente sulle zone ove la neve si presume possa accumularsi maggiormente. Tali aiuti però in massima non potranno consistere che in trattori per rimorchio di spartineve ed eventualmente in attrezzi. Occorre quindi che se gli Uffici hanno spartineve ne curino la rimessa in efficienza ed avvertano tutto il personale dipendente che in caso di nevicate esso dovrà subito intervenire, anche di notte,ed avere immediatamente a disposizione adeguato numero di operai per iniziare subito lo sgombramento. Per l'eventuale lavoro notturno potranno essere concessi adeguati aumenti sulle paghe agli operai. Qualora i capicantonieri o cantonieri fossero richiesti di intervento,a qualsiasi ora del giorno o della notte da Ufficiali Alleati, così dovranno subito, sia personalmente sia con le necessarie squadre di operai mettersi a disposizione degli ufficiali stessi per quel lavoro che sarà loro disposto.

6254

Per tali interventi di emergenza gli Uffici sono autori-

Declassified E.O. 12356 Section 3.3/NND No. 785019

Lavori di emergenza relativi allo sgombero della neve sulle strade a carattere militare.

-Alla Sottocommissione AA.PP. e Servizi della A.C.

Nella eventualità di caduta di neve sulle strade a carattere militare è necessario che siano opportunamente predisposti i servizi per intervenire immediatamente onde mantenere aperto il transito.

Pertanto ogni ufficio dovrà provvedere affinchè,sia a mezzo di imprese,sia in economia diretta,possano essere predisposti opportuni nuclei di operai i quali, alla richiesta di capicantonieri o cantonieri possano intervenire immediatamente non appena comincia a verificarsi la caduta della neve. E' probabile che il Genio militare Alleato possa dare aiuto particolarmente sulle zone ove la neve si presume possa accumularsi maggiormente. Tali aiuti però in massima non potranno consistere che in trattori per rimorchio di spazzaneve ed eventualmente in attrezzi. Occorre quindi che se gli Uffici hanno spartineve ne curino la rimessa in efficienza ed avvertano tutto il personale dipendente che in caso di nevicate esso dovrà subito intervenire, anche di notte,ed avere immediatamente a disposizione adeguato numero di operai per iniziare subito lo spalamento. Per l'eventuale lavoro notturno potranno essere concessi adeguati aumenti sulle paghe agli operai. Qualora i capicantonieri o cantonieri fossero richiesti di intervenire,a qualsiasi ora del giorno o della notte da Ufficiali Alleati, essi dovranno subito, sia personalmente che con le necessarie squadre di operai mettersi a disposizione degli ufficiali stessi per quel lavoro che sarà loro disposto.

6254

Per tali interventi di emergenza gli Uffici sono autorizzati ad intervenire sia di propria iniziativa sia come detto sopra a richiesta di Ufficiali alleati, avviseranno però al più presto del lavoro eseguito l'Ufficiale Regionale della A.C. al quale,non appena possibile,saranno presentate le perizie delle spese sostenute per l'approvazione nelle forme consuete.

Si attende assicurazione.

Dear Alice

(Extract from BASIC NEWS 10 November 1944)

Italian Unit

22

LIBERATED ITALY

1,200 Million Lire for Public Works.

ROME, November 9 - Public Works Minister Pietro Mancini announced yesterday at a meeting of the Council of Ministers that 1,200 million lire had been set aside for the construction of roads and bridges of military importance.

In the interim period between the liberation of the southern Provinces and the return of the Government to Rome, the Ministry spent 400 million lire for completed works, and appriopriated 1,057 million lire for projected works.

This expenditure had been incurred chiefly, said the Minister, by repairs to roads of military importance, war damage repair of the most pressing nature, and communal first-aid intervention in the Provinces of Naples and Salerno necessitated by the Vesuvius eruption.

A fund of 500 million lire to be used in the repair of damaged houses and the construction of temporary dwellings has been allotted. Works costing 238 ½ million lire are in progress, out of which 168 ½ million lire have been allocated to the construction of these temporary buildings. Of these, 14 groups are now being constructed in the 12 communes of the Provinces of Rome, Frosinone, and Littoria, which have suffered most from the war.

Work of a first-aid nature - such as the clearing of ruins, the demolition of dangerous buildings, and the reopening of road communications - continues. For this, 1,500 million lire have been allotted for war damage and 233 million for the destruction caused by the Vesuvius eruption.

MINISTERO DEI LAVORI PUBBLICI
Direzione Generale Servizi Speciali

DIV.26°

N° 515

RECEIVED
P.W. & U. S.C.A.C.
27 NOV 1944 OK

Roma, addì 18 XI 1944

AGLI UFFICI DEL GENIO CIVILE
e per conoscenza:
ALLA SOTTOCOMMISSIONE ALLEATA LAVORI PUBBLICI E SERVIZI - R O M A
AL DIRETTORE GENERALE TECNICO DEL MINISTERO DEI LL.PP. - R O M A
AI PROVVEDITORI ALLE OPERE PUBBLICHE - PALERMO E CAGLIARI
AGLI ISPETTORI GENERALI REGIONALI DEL GENIO CIVILE .
ALLA RAGIONERIA CENTRALE - S E D E

OGGETTO:

Lavori di carattere straordinario di improrogabile esecuzione esclusi i danni di guerra e le manutenzioni .

Necessita a questo Ministero avere sollecitamente notizia dei lavori (esclusi quelli per danni bellici e di ordinaria manutenzione) di competenza di questa Direzione Generale che essendo in corso di esecuzione debbono essere necessariamente continuati e di quelli dei quali, per ragioni di imprescindibile urgenza, non può procrastinarsi l'autorizzazione o l'inizio, se già autorizzati, ma non ancora iniziati.

I dati che all'uopo si richiedono dovranno essere con assoluta precisione indicati distintamente per le due categorie sopradette in due prospetti conformi a quelli che alla presente si allegano.

L' intendimento di questo Ministero di non consentire esecuzione di nuovi lavori che non rispondano a necessità indilazionabili e di sopraseder anche all'ultimazione di quelli in corso se la loro continuazione non sia giustificata da esigenze improrogabili. Perciò, mentre nel prospetto n° 1 dovranno essere elencati tutti i lavori in corso con la segnalazione per ciascuno della indilazionabilità o della rinviabilità, nel proppetto n° 2 dovranno essere compresi solo i lavori per i quali, con esatta, ma rigorosa valutazione la S.V. ritenga di poter dichiarare, sotto la sua responsabilità, l'urgenza improrogabile dell'inizio. A chiarimento si aggiunge che la proposta di continuazione del lavoro può trovare giustificazione non solo, al pari dei lavori di nuovo inizio, nella finalità da raggiungere, ma anche nella necessità di conservazione della parte eseguita, ed eccezionalmente anche nell'eventualità che la finalità dell'opera, se anche per se stessa non di urgenza imprescindibile, possa essere raggiunta con una ulteriore spesa che, in via assoluta e relativa, sia di entità non rilevante.

Per contro la sospensione dei lavori in corso potrà essere giustificata non soltanto dall'inferiore interesse dell'opera o dalla indeteriorabilità della parte eseguita, ma anche dagli osta-
coli che alla continuazione

Declassified E.O. 12356 Section 3.3/NND No. 785019

ria di improrogabile esecuzione esclusi i danni di guerra e le manutenzioni

AGLI ISPETTORI GENERALI REGIONALI DEL GENIO CIVILE -

ALLA RAGIONERIA CENTRALE - S E D I

Necessita a questo Ministero avere sollecitamente notizia dei lavori (esclusi quelli per danni bellici e di ordinaria manutenzione) di competenza di questa Direzione Generale che essendo in corso di esecuzione debbono essere necessariamente continuati e di quelli dei quali, per ragioni di imprescindibile urgenza, non può procrastinarsi l'autorizzazione e l'inizio, se già autorizzati, ma non ancora iniziati.

I dati che all'uopo si richiedono dovranno essere con assoluta precisione indicati distintamente per le due categorie sopradette in due prospetti conformi a quelli che alla presente si allegano.

E' intendimento di questo Ministero di non consentire esecuzione di nuovi lavori che non rispondano a necessità indilazionabili e di sopraseder anche all'ultimazione di quelli in corso se la loro continuazione non sia giustificata da esigenze improrogabili. Perciò, mentre nel prospetto n° 1 dovranno essere elencati tutti i lavori in corso con la segnalazione per ciascuno della indilazionabilità o della rinviabilità, nel prospetto n° 2 dovranno essere compresi solo i lavori per i quali, con esatto, ma rigorosa valutazione la S.V. ritenga di poter dichiarare, sotto la sua responsabilità, l'urgenza improrogabile dell'inizio. A chiarimento si aggiunge che la proposta di continuazione del lavoro può trovare giustificazione non solo, al pari dei lavori di nuovo inizio, nella finalità da raggiungere, ma anche nella necessità di conservazione della parte eseguita, ed accidentalmente anche nell'eventualità che la finalità dell'opera, se anche per se stessa non di urgenza imprescindibile, possa essere raggiunta con una ulteriore spesa che, in via assoluta e relativa, sia di entità non rilevante.

Per contro la sospensione dei lavori in corso potrà essere giustificata non soltanto dall'inferiore interesse dell'opera o dalla indeteriorabilità della parte eseguita, ma anche dagli ostacoli che alla continuazione o alla ripresa possano nell'attuale momento derivare dalla difficoltà degli approvvigionamenti o dei trasporti.

La valutazione del costo dovrà essere fatto pei lavori di nuovo inizio integralmente sulla base dei prezzi correnti attualmente per mano d'opera e materiali, mentre pei lavori in corso la valutazione dovrà essere fatta col suesposto criterio per la parte che non sia coperta da impegni contrattuali.

6233

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Qualora l'opera debba per la sua finalità essere continuata e ciò si renda successivamente difficoltoso e costoso sulla base del progetto approvato, codesto Ufficio esaminerà la possibilità di eliminare le difficoltà con opportune variazioni da proporre in separata sede; indicando peraltro nel prospetto tale possibilità e la relativa spesa.

Ove l'opera debba essere sospesa dovrà essere indicata solo la spesa eventualmente occorrente per la conservazione della parte eseguita in confronto di quella occorrente per l'ultimazione e nel caso di continuazione parziale la spesa occorrente per la parziale ultimazione. Qualora i lavori non risultino tuttora finanziati in tutto o in parte, dovrà essere indicato alla colonna 11 la parte finanziata e alla colonna 12 l'ammontare per cui si rende necessario un nuovo impegno di spesa.

Se si verificasse il caso di lavori non finanziati in tutto o in parte che fossero già ultimati dovranno essere egualmente indicati in calce al prospetto nº 1.

Si avverte al riguardo che il finanziamento risulta dalla comunicazione della formale approvazione del progetto.

Qualora tra i lavori proposti da iniziare vi ne siano di quelli la cui esecuzione debba essere preceduta da speciale provvedimento (ad es. pei consolidamenti e difesa di abitati da alluvioni, piene e frane) la S.V. dovrà contemporaneamente ma separatamente avanzare la prescritta proposta motivata.

Per maggiore chiarezza sarà opportuno che i due prospetti: (lavori in corso - lavori nuovi) siano compilati distintamente per ciascuna categoria di opere.

Si interessi la S.V. perchè gli elementi con la presente richiesta possano qui pervenire al più presto pel tramite dell'Ufficio Regionale Italiano tenendo peraltro presente che le proposte dovranno essere previamente comunicate al competente ufficiale elettorale a termini della circolare 24 Maggio 1944, nº 21970.

Per quanto riguarda i lavori di ordinaria manutenzione che non dovranno, come si è detto, essere compresi nei prospetti, codesto Ufficio si atterrà in massima alle disposizioni finora impartite. Comunque si precisa che le proposte dovranno essere contenute nei limiti strettamente indispensabili ad assicurare la buona conservazione delle opere, tenendo, anche in queste contingenze, si ritiene opportuno che le previsioni non eccedano il corrente esercizio finanziario, tenendo presente che è intendimento di questo Ministero, onde ovviare per quanto possibile alle presenti difficoltà, di autorizzare in generale l'esecuzione in economia mediante cottimo fiduciario anche a cura diretta salvo i casi in cui l'appalto sia consigliato da particolari ragioni.

SEDE

This Ministry needs to be speedily informed of the works (excluding those for war-damages & or ordinary maintenance) within the province of this General Direction, which, being in hand, must necessarily be proceded with & of those which, because of utmost urgency, must be authorized or begum (if already authorized but not yet begum) at once.

The data which ~~are~~ is needed with this end in view will have to be indicated with absolute precision & separately for the 2 aforesaid categories, in 2 tables like those herewith enclosed.

This Ministry intends to forbid the execution of new works not corresponding to pressing needs & also to postpone the completion of those in hand, if their continuation is not justified by undeferable requirements. Therefore, while in table N.1 you will have to set down all the works in hand, pointing out for each whether it is urgent or whether it can be postponed, in table N.2 you will have to include only the works which, by an escact but rigorous valuation, you deem it possible to declare on your own responsability, as being urgent & having to be started immediately .

To make things clearer, we add that the proposal to continue the work may be justified not only, as for newly-begun works, by the end to be attained, but also by the necessity of keeping up the part already carried out &, exceptionally, also when the object

SEDS

This Ministry needs to be speedily informed of the works (excluding those for war-damages & or ordinary maintenance) within the province of this General Direction, which, being in hand, must necessarily be proceded with & of those which, because of utmost urgency, must be authorized or begun (if already authorized but not yet begun) at once.

The data which ~~are~~ we needed with this end in view will have to be indicated with absolute precision & separately for the 2 aforesaid categories, in 2 tables like those herewith enclosed.

This Ministry intends to forbid the execution of new works not corresponding to pressing needs & also to postpone the completion of those in hand, if their continuation is not justified by undeferable requirements. Therefore, while in table N.1 you will have to set down all the works in hand, pointing out for each whether it is urgent or whether it can be postponed, in table N.2 you will have to include only the works which, by an escact but rigorous valuation, you deem it possible to declare on your own responsability, as being urgent & having to be started immediately.

To make things clearer, we add that the proposal to continue the work may be justified not only, as for newly-begun works, by the end to be attained, but also by the necessity of keeping up the part already carried out &, exceptionally, also when the object of the construction even if not pressing in itself, may be attained by a further limited expenditure which is limited in an obsolete as well as a definitive way.

On the other hand, the postponement of the works in hand may be justified not only by the lesser importance of the construction & the fact that the part carried out is not liable to deterioration, but also by the obstacles which may accrue to their continuation or resumption from the difficulties regarding supplies & transports.

The estimate of the cost will have to be entirely drawn up on the basis of current prices for labour & materials, as regards works to be started, while, as regards works in hand, the estimate will have to be drawn up with the aforesaid criterion for the part not covered by contract obligations.

6234

Declassified E.O. 12356 Section 3.3/NND No. 785019

Should the construction have to be continued because of the end to be attained by it, & should this become excessively difficult or costly on the basis of the approved project, you will examine the possibility of eliminating the difficulties by suitable modifications, to be proposed ~~successively~~ ; indicating moreover in the table this possibility & its cost.

Should the construction have to be postponed, you will have to indicate only what would need to be spent, if anything, on keeping up the part already carried out, compared to what is needed for finishing the work, and, in case of partial continuation, the sum needed for partial completion. Should the works not prove wholly or partly financed as yet, you will have to indicate in column 11 the financed part and in column 12 the part for which a new expenditure engagement becomes necessary.

If the case should occur of works not financed wholly or in part & already carried out, they will also have to be indicated on the margin of table N.1

With regard this, we inform you that the financing is proved by the communication of the projects formal approval.

Should there be works, among those proposed as having to be begun, whose execution has to be preceded by the taking of special measures (e.g. the strengthening and defence of towns or villages against alluvions, foods and landships), you will have to send in, simultaneously but separately, the prescribed, motivated proposal.

For greater clarity it will be advisable that the 2 tables (works in hand-new works) should be drawn up separately for each category of constructions.

Please see that the information asked for in this circular reach us as soon as possible, through the Italian Regional Office, bearing in mind moreover that the proposals will have to be communicated beforehand to the qualified Allied Officer according to circular N. 21970 of 24th May 1944.

As regards works of ordinary maintenance which as has been said, must not be included in the tables, you will, as a general rule, keep to the instructions issued up to now. Anyhow we make it clear that the proposals will have to be kept within the strictly indispensable ~~limits~~ for ensuring the good upkeep of the constructions while, given the present circumstances, we think it advisable that the forecasts should not exceed the current fiscal year, bearing in mind that this Ministry intends, so as to obviate the present difficulty as far as possible, "to award all contracts after having received & considered bids or in direct labour " (= di autorizzare in generale l'esecuzione in economia mediante cottimo fiduciario anche a cura diretta) " except in cases in which

Subject: Emergency Works on Military Highways.

With circular N°.942 of 12 October last,(copy sent for information to this S/C.) precise instruction have been issued to our personnel regarding emergency intervention to ensure and reopen quickly to traffic Military Highways, in case of interuptions caused by washout, ect...

In order that the works may be carried out even under adverse weather, it is necessary to equip adequately, the personnel involved; (Chief Cantonieri, Cantonieri, and other workmen.)

Considering that at present such personnel lacks of adequate foot wear and rain coats; the minimum requirements of such items necessary for Cantonieri and temporarily, for auxilary workmen has been estimated N°. 7620 pairs of shoes, and as many rain coats.

Since, the limited availability makes it impossible for us to purchase on the free market, we beg this S/C to take action so that the furniture of these items may be effected by this Military warehouses listed on attached sheet and for the quantities shown thereon.

Risposta al foglio del
Div. Sez. N.

OGGETTO
Interventi di emergenza sulle strade a carattere militare -

Con circolare n.912 del 12 decorso ottobre, inviata per conoscenza a codesta Sottocommissione, sono state impartite al personale dipendente precise disposizioni riguardanti gli interventi di emergenza, tendenti a ripristinare ed assicurare sollecitamente il transito sulle strade a carattere militare, in caso di dannosi eventi.

Al riguardo, e per far sì che i relativi lavori possano svolgersi anche sotto l'imperversare della pioggia, è necessario dotare il personale addettovi (Capi Cantonieri, Cantonieri ed operai ausiliari) di un adeguato equipaggiamento.

Tenuto conto che attualmente tale personale è sprovvisto di efficienti calzature e mantelli impermeabili, il fabbisogno di tali indumenti strettamente necessario per i Cantonieri e per <u>uso temporaneo</u> agli operai ausiliari è stato determinato in n. 7520 paia di scarpe ed altrettanti mantelli impermeabili.

Poichè, a causa della scarsa disponibilità, non è possibile provvedere al relativo acquisto sul libero mercato, prega di codesta Sottocommissione di voler disporre affinchè le relative forniture vengano eseguite dai magazzini militari agli Uffici indicati nell'unito elenco e per i quantitativi risultanti dall'elenco medesimo.

MEMORANDUM

204/PWU.

25 Nov. 44.

TO: Lt.Col. W.M. LAPPER
& Lt.Col. V.S. THOMPSON.

1. At the yesterday's meeting with interested Ministers it was agreed that each Ministry appoints a Committee of three, whose task will be to co-ordinate the reconstruction planning to fit into the early post-war program, using credits now being established in the United States and United Kingdom for the exportation of materials and plant.

2. The Minister of Public Works has appointed three men including Tizzano and the electrical expert, and we are to appoint an Officer Committee to work with the Ministry's Committee. It was suggested that the Directors themselves be Chairmen of such Committees and that keymen be appointed to the Sub-divisions. Accordingly you two will be members of the Committee within this sub-division to handle, respectively, the tasks which you are normally handling.

First meeting

SUBJECT: Decrees

TO : Public Works and Utilities, Sub-Commission,
Allied Control Commission.

1. Attached hereto is a decree from the Prefect of the Province of Campobasso.

2. The substance of this decree is to restrict all workmen, masons, and stone cutters to the reconstruction of railway activities.

3. This decree has been published without any consent of this office.

4. In our opinion, the decree is entirely uncalled for, and is purely a lazy man's way of achieving results. It is well known to this office that the State Railway Department has used political pressure to attain these results. For your information, Engr. De Mauro of the State Railway has been previously personally informed by the undersigned to comply with prevailing wage scales in his territory. The State Railway is now using this opportune time to capitalize on a policy which will be most injurious to benefits equally distributed to all of liberated Italy.

5. It is the request of this officer that this matter be called to the attention of the Minister of Public Works and direct him to initiate the withdrawal of this decree.

6. It is also the opinion of the undersigned that this is a typical illustration of the lack of coordination on the part of Italian agencies in coordinating their activities. Frankly this office sees no reason why a preference rating should be given to any preferential class of reconstruction without proper coordination of all parties concerned.

7. May we have your reaction to our opinion?

TIP. A. DE VITO - NAPOLI

THE PREFECT FOR THE PROVINCE OF

CAMPOBASSO

Having considered the necessity to complete as soon as possible the reconstruction of the railroad section Termoli-Campobasso;

Having considered that such reconstruction, besides facilitating that of other provincial railroad lines, will allow to concentrate for use all autovehicles existing in this zone;

Having considered that the restoration of Termoli-Campobasso railroad, so long looked for, will be the starting-point for a revival of the whole Province;

Having considered that a speedy accomplishement of the works was up till now hindered by the deficiency of transportation and labour;

Having considered that, in order to obviate to the former deficiency, proper provisions have been taken integrated with the help of autovehicles granted by the Allied Control Commission;

Having considered that, to obviate to the deficiency of labour, it is necessary to sacrifice individual to general interests and suspend all private building works in the neighbouring zones in order to make all workmen, masons and stone-cutters available for railroad works;

In agreement with the Allied Control Commission, which is giving its kind consideration to the solution of this problem

DECREES

Starting from this day and for a period of 2 months, all masonry works of private character are prohibited in the [illegible] Communes bordering upon the zone of Termoli-
