1. The request of Societa Polverifici Stacchini has been referred to the Industry Sub-Commission for investigation and a decision. We now have advice from the Industry Sub-Commission that the work carried out by the Stacchini Company for the Allied Armed Forces does not warrant the expansions and improvements requested.

OGGETTO : Stabilimento Stacchini in Tivoli -

Si prega codesta Sottocommissione di volere dare cortese risposta alla ministeriale 28 agosto u.s. n. 226-323, con la quale si chiedeva di conoscere se la Società Polverifici Stacchini, con sede in Roma, via Cavour n. 56, continui ad esplicare un'attività nell'interesse delle Forze Armate Alleate, e di che entità e natura. - Tali notizie occorrono per decidere se possa o meno accogliersi l'istanza rivolta a questo Ministero dalla Società predetta per ottenere che siano dichiarati di pubblica utilità i lavori di ampliamento del proprio stabilimento in Tivoli, agli effetti dell'espropriazione di aree di proprietà privata. -

SUBJECT: Stacchini Plant at Tivoli.

TO: Public Works Division. Attn: Lt. Col. Wm. M. Spann.

1. Regarding your letter 078/6/PWU of 7 September 1945. We regret the delay in replying to your letter. This was inevitable as for formality sake it was necessary to refer your request to the Northern Industrial Council for an opinion. This has not been received, and rather than hold up matters further we are taking this occasion to give the writer's opinion as to the situation.

2. The writer has made two careful inspections of the Stacchini Plant at Tivoli and, furthermore, has set-up in conjunction with the trade association involved the percentage of the total work that this firm is entitled to have so far as the unloading of surplus military ammunition is concerned. With this basis for judgment, the writer categorically states that this firm's claims are exaggerated to the point of constituting bad faith, for not only has it attempted to use its present small contracts with the Army as a pretext for attempting to acquire at nominal cost 66 hectares of adjoining land, but through an entirely separate action has attempted to get approval for the construction of nearly a mile of standard gage railroad tract plus sidings to serve his plant which has so far gotten along quite well with truck service from a nearby station.

3. This information has already been given verbally to your Capt. Sheppard, and it is presumed that you will not wish to pay any more attention to this firm's pleas.

OGGETTO: Tronco ferroviario Ellera-Pietrafitta  
 Pietrisco per massicciata

Con lettera N° A.C./Tn/23/32 C.E. del 12.5.1945, di cui si unisce copia, veniva fatto presente dalla Sottocommissione Trasporti che, all'atto della deriquisizione della cava impiantata dall'Impresa Giuseppe Zanetti a Castiglione della Valle, si trovava depositato nella cava stessa un quantitativo di pietrisco valutato approssimativamente a 10.000 tonnellate.

Poichè tale materiale è stato impiegato per la formazione della massicciata d'armamento del tronco ferroviario Ellera-Pietrafitta, allo scopo di evitare che all'Impresa Zanetti siano liquidate delle somme non dovute, è necessario a questa Amministrazione conoscere se le spese di produzione di detto pietrisco sono state sostenute in tutto od

in parte dalle Autorità Alleate che avevano requisito la cava.

Si prega di fornire i necessari elementi per decidere in merito a quanto sopra, indicando possibilmente l'esatto quantitativo del pietrisco lasciato in cava, escluso il materiale minuto successivamente impiegato per la manutenzione stradale.
