SUBJECT: Toscana Region Public Works
TO : Acting Vice-President
Economic Section

1. Reference my conversation with you this morning, it appears that a considerable number of public works were started in Toscana before June 18th without Public Works & Utilities Sub-Commission final approval. Presumably this was done because the works were required by the Military or that they were emergency in character. The relative SBE's, i.e. Finance approval forms, were therefore not signed before the works were commenced. All current works have, however, now been approved and authority to issue antedated SBE's was given by Finance Sub-Commission's letter 12065/F dated 18 June, copy attached.

2. I gather unofficially that this letter is not fully acceptable to the Regional Finance Officer. To overcome this and to put the matter in order finally, a list of approved projects with their estimated values will be prepared and approval to these will be confirmed by both Public Works and Finance Sub-Commissions. The approved list will be forwarded to the Regional Commissioner and he will then be adequately covered.

Subject: Financing of Projects for repairs
by War damage of Port of Genoa.

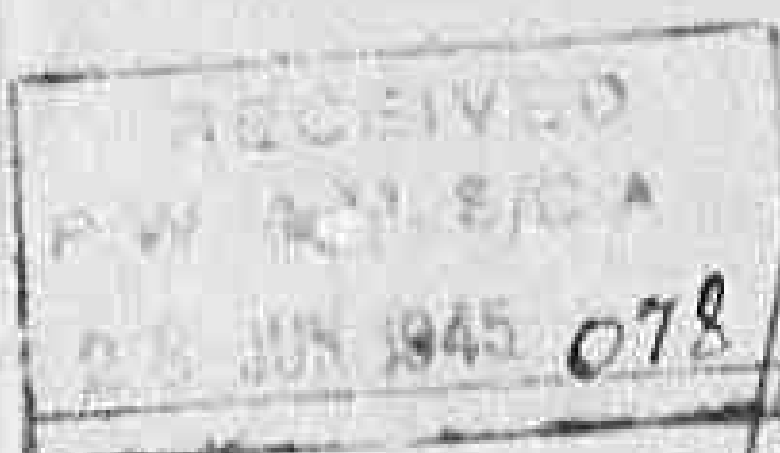

To : Finance Sub-Commission.
(Att: Major Hall - Budget Section).

1. Reference conversation Major Goldson/ Major Hall of 27 June 1945 regarding financing of projects of " Consorcio del Porto di Genova ". May enquiries be made if these projects can be financed by Consorcio organization applying direct to Intendente di Finanze, Genova, on authority of AG/1 approved by this Headquarters instead of passing it through the Genio Civile Organization on an S.B.5 Budget form.

2. Up to the present the only means available of procuring funds for these public works has been via the Genio Civile Genoa province but it is being found too clumsy to handle this way and it will assist greatly if Consorcio del Porto may work directly with Intendente di Finanze.

At approximately 1030 hrs to-day, 25 May 45, accompanied by Sgt. Canning RE I noticed a 3 tonner filled with timber bundles as used by the Cantonieri for heating bitumen, stopped and unloading same into a civilian garden in a side road in Perugia.

Upon investigation the following was found out.

(1) The house belonged to Engr. RENALDI of Genio Civile, PERUGIA.

(11) The truck, No. L 213449 of 1962 Civil Platoon had been detached to work for 281 Works Section RE as required on route 75 under the Capo Cantonieri of San Filippo.

(111) The wife of Engr. RENALDI stated that the ^{timber} ~~trucks~~ was being unloaded in the garden for re-distribution to Cantonieri for road works.

Ing. RENALDI was interviewed by myself and stated that the truck was in fact unloading 14 bundles of timber at his house, the remainder was then going to be taken to road works, but it was pointed out that the stretch of road on which this vehicle was detailed for work, i.e. Route 75 finished at Ponte, San Giovanni.

Upon questioning a Cantonieri employee accompanying the truck he produced a list (attached) showing the names of 7 Genio Civile employees, including Ings. MARIANI and RENALDI living in Perugia, to whom he had been detailed to deliver the timber.

Ing. RENALDI admitted to me that he had written the list out himself.

14 JUNE 1945

Subject: Deriquisition of Civilian Vehicle.

To : G-4, Headquarters 2675 Rgt.

1. Reference your G-4/41/A dated 22 May 1945 concerning Lancia automobile Targa Roma 38772 property of Donato Valenti.

2. It is well realized that needed civilian vehicles should be deriquisitioned only in urgent cases therefore our request was initiated only after it was established that this case falls readily into that category.

3. This, contractor, of the Firm Società Generale Immobiliare, is engaged in an extensive program of bridge reconstruction on military highways under the direction of this Sub-Commission. Transport available has depreciated to such an extent that it is impossible for proper supervision of his work to be accomplished. This is a case of urgent necessity as import works will be adversely effected unless adequate transport is available.

4. May we request your further consideration to our request for deriquisition please.

Subject: Road Conditions - North Italy.

To : Transportation Sub-Commission
(Att: Mr. Ryan).

Reference your 222/RDS/1/Tn.2 dated 4 June 1945.

1. A casual inspection of arterial highways North of the Pisa - Rimini line has revealed that general conditions are very good with repairs under way on all critical sections. Priority in repairs is being given to those roads designated by the Military Organizations.

2. Projects for bridge reconstruction are being prepared and initiated in the order of precedence, established by the Chief Engineers of Military Districts. Main highways having blown bridges are open to traffic by use of Bailey bridges or diversions. No detailed listing of destroyed structures is yet available but is being compiled.

3. The withdrawal of Bailey bridges has been given low priority by Military Districts and, except in unusual cases, will be allowed to remain in place until reconstruction is completed.

Age 35, graduated in engineering in 1937.
Born in Austria (Laibach), studied in Yugoslavia, in Praga
(Czechoslovakia), and Berlin (Germany).

Two years of practice (during the studies) in different big firms
for construction work, in Yugoslavia, then seven years of private engineer-
ing work in my own office, until the German invasion, when the
family had to escape.

Before the war I traveled all around in Europe and England
and also in U.S.A., where I have been visiting nearly all the States. I am
acquainted very good with all the European territory, and particularly
with North-Eastern Italy (Veneto) and Austria.

I control different languages: English, Italian and German

Dear Sir,

in the hope not to disturb you too much I would like to ask you again to be so kind and to see for a new employment for me in one of the Northern Regions, where some enough work has to be done. Being an emigrant for already two years, and in this time without home and family, I am very interested to proceed my service with the Allied, and I would be really very thankful to you, if it could be so arranged. (When I have been informed, that Major Perley does not stay in this territory any more, I wrote a letter to the Brigadier Mr. Dunlop, who might remember me from the service in Persia, and to whom I have been recommended by an A.C. officer, who knows him, - with the request for a new job, but at the moment I had no answer yet. Since I would be interested to stay in the Viceroy's Region, living there two of my brothers; but I am ready to go to any place.) I enclose a short memorandum of mine, that might be of use. -

Many thanks also for the letter I asked you yesterday

To All Ranks of the Allied Commission:-

The Prime Minister has instructed me to return at once to England.

I cannot leave without sending a message of thanks and good wishes to all my friends in the Allied Commission and Allied Military Government.

Ever since the landings in Sicily, nearly two years ago, I have seen and admired your work. During recent months I have been more intimately associated with you. Many conflicting duties have hampered my capacity to do more than try to help my friends and your chief, Admiral Steno, to the best of my ability. But I shall always be proud of my association with your enterprise, and the high ideals which have inspired you all.

Good luck and God speed.

1. Reference your O/S/7/PWU of 13 May 1945 subject as above.
2. Please be informed that this Headquarters cannot cope with all requests of individual officers for the derequisition of civilian vehicles.
3. We have from time to time in cases of extreme hardship and necessity applied for the derequisition of some civilian vehicles belonging to contractors, engineers and other professional people.
4. Existing Italian Decrees now stipulate that any and all civilian motor vehicles which are to be returned or derequisitioned be returned to the Italian Government for settlement thus eliminating the owner from receiving vehicles directly from the Allied Commission.
5. It is recommended that before this office considers your request to be a genuine one of urgent necessity that you investigate the present condition of this owner and inform this office whether or not this engineer would suffer undue hardships and if this be the case, then some action will be initiated from Allied Commission to higher authority for the derequisition of the vehicle directly to its owner.

Roma, 24 maggio 1945

*I trust time to call this person -

Egregio Signor
Colonnello THOMPSON

P.W.O.

Allied Headq.

Ho esaminato il progetto Gaburri per case prefabbricate in cemento armato, progetto che so essere già stato da Lei e dal cap. Green favorevolmente giudicato in via di massima.

Per poter emettere un giudizio definitivo in merito e di conseguenza, se questo favorevole, presentare tale tipo di casa, appoggiandolo agli organi dello Stato perchè lo adottino in larga scala, occorre mi rechi a Milano ove case così prefabbricate sono già state costruite per addivenire a prove concrete della costruzione stessa.

A tal uopo La prego vivamente volersi interessare per farmi ottenere i permessi per il sottoscritto, che per l'occasione dovrebbe essere autorizzato a farsi accompagnare dalla consorte e dall' Ing. Biongioannini, Biagio, per poterci recare al più presto possibile in alta Italia.

Grato per il di Lei interessamento porgo i più distinti ossequi.

UNRRA Italian Mission
MEMORANDUM

TO: Public Works & Utilities
Sub-Commission A.C.

S/35

25 May 1945

FROM: Abe Hackman
Director of Supply - UNRRA

Francesides

SUBJECT: Repairs to Dogane Warehouse San Lorenzo Station Rome

We are most grateful to you for the work that has already been done through the good offices of your Sub-Commission at the above warehouse.

We now have received the attached letter from the firm Emilian of Via G. Castellini 13, Rome (UNRRA's contractors for this work) countersigned by the chief of Civil Engineering Department of Italian Government, requesting the release of glass for the windows of the warehouse. In forwarding this request to you I would like to add my own endorsement, emphasizing the need for these supplies of glass, as we hope to discharge a further UNRRA ship at Civitavecchia in a few week time and will need secure warehouse space for the goods.

SUBJECT : Building Construction.

18 May 1945.

TO : Director,
Public Works & Utilities Sub Commission.

In order to facilitate the inspection of vehicles I have recently constructed a steel girder ramp on the 10th floor of the Super Garage.

The building maintenance employee states that in his opinion the weight of the ramp together with the weight of the vehicle under inspection is too great for the floor supports.

Though this ramp has been in service from the 1st May and has shown no sign of causing any damage, I feel I would like the assurance of a constructional engineer that it is safe.

I would greatly appreciate it therefore if you could spare an expert to come and inspect the said ramp.

Fer oltre un anno questa Filiale de "L'Anonima Strade" non ha potuto avere alcun contatto con la propria Sede di Milano, Via Leopardi 14. Conseguentemente ha dovuto accantonare l'esame e la soluzione di numerose ed importantissime questioni di carattere tecnico ed amministrativo, in attesa di poter comunicare con il Presidente e Consigliere Delegato della Società.

Ciò premesso, si ha l'onore di pregare codesto Spett. Comando di voler cortesemente interessarsi per il rilascio di un permesso valido per l'andata e ritorno fra Roma e Milano a favore del Procuratore della Società, dirigente questa Filiale, Dottor Gian Luigi Marcoli.

Considerati i motivi per i quali si richiede il suddetto permesso, si fa vivo assegnamento sulla benevola considerazione di codesto On. Comando; ed in attesa di cortesi comunicazioni in proposito, si ringrazia ed ossequia.

TO : Public Works & Utilities Sub-Commission

17 May 45

For more than one year we have been unable to contact our Head Office in Milan, 14, Via Leopardi. As a consequence, we had to put aside the examination and solution of several and very important ~~xxxx~~ administrative and technical questions, waiting to be able to get in touch with the Company's President and Manager.

Taking the above for granted, we beg you to arrange for issue to Dr. Gian Luigi MARCOLI, Director of the Rome Branch of a permit for traveling to Milan and return.

Considering the reasons for which said permit is applied for, we feel confident that you will kindly take our request into consideration, and we look forward to your favorable answer.

Truly yours,

Subject: Derequisition of Civilian Vehicle.

To : G-4, Headquarters 2675 Regt.

1. It is requested that consideration be given to authorizing the derequisition of Lancia "Dilambda" automobile, Targa Roma 38772, Motor No. 1200, Chassis No. 291088, which is the property Donato Valenti.

2. In July 1944 this vehicle was offered to this Sub-Commission by the owner and due to the critical transportation situation then existing the offer was accepted. It was then formally requisitioned as a matter of record.

3. The owner of this vehicle is a very active contractor on Military Highways and Bridges and adequate transport for supervisory personnel is necessary. This request is prompted by the fact that the vehicle which has been used by the Contractor has now become inoperative through depreciation.

4. May we have your advice please.

Roma 7 aprile 1945

Gentilissimo Maggiore Edman, sono rimasto molto
male di non averla potuto incontrare. L'appuntamento
della 10 di questa mattina è stato rimandato alle 3 p.m.
Le ero invitato a colazione e non mi è stato possibile di
abbandonare la casa dell'amico prima delle 3 p.m.
Alle 3,40 sono quindi qui ed ho saputo che lei
mi ha atteso per circa un'ora e mezza. Le faccio
le più vive scuse e la prego comprensante di voler
volentieri la mia preghiera. La mia speranza ed io
siamo ansiosi di sapere in che condizione si trova il
nostro macchinario abbandonato dai tedeschi presso
Lucca. Ho lasciato qui l'indirizzo del quarantano
che sa in consegna detto macchinario.
Se questo macchinario non si trova di funzionare
e si fanno tutte le macchine necessarie con alcune
macchine esistenti qualche lavoro alle dipendenze
dirette o indirette dell'A.C. nelle zone di
avvicino o prossime.

Sprio di sapere sue notizie e che soprattutto lei mi
abbia rimandato. I miei migliori saluti
da Roma 265 Napoli

R O M E

The undersigned would be very grateful if the Public Work Department of the A.C. would kindly help them to regain possession of their Magut Loro Parisini Stone Crusher 1400 x 250 Number 40033 complete with engine Hatz N° 21107/108 which was taken from them in their Rome Deposit in Trastevere towards the end of May 1944 by the German Todt and transferred to their deposit in the CLECCA Camp in Via Donna Olimpia 88 where the Allies found it. =

Our firm is working for Italian Genio Civile and has absolute need of above mentioned Stone Crusher. Public Work Department well knows the great needs of Italian Civil Works and will use its influence to obtain reversal of Stone Crusher to its original owners. =

This should be easily possible as this firm had obtained an order from Engineer Services of Rome Area Allied Command, Engineer Procurement Office for the release of the Stone Crusher from CLECCA-Camp/ =

Unfortunately it was too late as it had left the day before with U.S.A. 338 Engineers. =

Copy of permit hereby enclosed. =

Greatly hoping in the kindly interest of the Public Work Department A.C. we are

yours faithfully

We have a report on this mine which is supposed to be able to produce about 500 tons a month asphaltic "Mastic" and 800 tons "Polvere". Grade of run of mine rock is 5 %.

No report is available on the Pescara mines, it is understood, however, that the production is of the order of 7000 tons per month.

Ponti stradali : a Compiobbi, a Dicomano,
 a Camucia, sul Canale Maestro, di Pratantico sul
canale Maestro (Toscana)

Per i su elencati ponti, di cui la costruzione è stata affidata alla nostra Società dall'Ufficio Speciale di Firenze del Genio Civile per la Viabilità, della Toscana, abbiamo urgente bisogno di alcuni materiali da costruzione che sono stati negli ultimi tempi requisiti dalla Marina Inglese presso i ns/ Magazzini di Taranto.

Ecco l'elenco dei materiali di cui si richiede la derequisizione:

Chiodi 17/70 20/100	Kg. 5.000
Filo ferro cotto n.6	" 2.000
Tavole di abete da mm. 25, nuove x 452	mo. 40
Sostacchine	" 60
Acciaio esagonale per fioretti da 22 e 25 mm.	Kg. 2.000

7072

Preghiamo vivamente codesta Sub-Commissione di volersi interessare perchè ci sia concesso di recuperare questi mate_

riali a noi assolutamente indispensabili per la esecuzione dei lavori
assunti.

Distinti ossequi.

Subject: Bridges Compiobbi, Dicomano, Camucia
Canale Maestro of Pratantico (Tuscany)

To : A.C. Public Works and Utilities S/C.
(Att: Lt.Col. Thompson).

For the above mentioned bridges, for which the reconstruction has been awarded to our Firm by the Special Road Office of Genio Civile in Florence, we are in great need of some constructional materials which have lately been requisitioned by the British Navy in our warehouses at Taranto.

The list of the materials for which derequisition is required is as follow:

Nails 17/70 20/100	Kg. 5,000
Soft iron wire n°.6	" 2,000
Spruce beams 25x45 mm.	mc. 40
Planks	mc. 60
Hexagonal steel bar for outfits by 22 x 25 mm.	Kg. 2,000

Will you please assist in this matter in order to have such materials released as they are urgently required for carrying out the works.

Yours truly.

To : B.Q. Allied Commission, APC 394
Public Works & Utilities Sub-Commission.

1. Reference Italian civilian engineer Adolph Mancinelli, who had been employed during the past year by AC - Public Works with the Southern Region with Station at Potenza, and whose services were terminated 15 March '45, owing to AC policy in Southern Italy.
2. Mr. Mancinelli, who had previously worked with Major Wester, has apparently done very good work and is fully familiar with AC/AMC Public Works procedure in Italy. In view of the limited amount of Public Works Officer personnel allotted to this Region, Mr. Mancinelli's services are urgently needed by this Office. It is understood that Mr. Mancinelli is now in contact with AC-394 at Rome awaiting travel permit for this Area.
3. Regional Safety Officer's permit for Mr. Mancinelli to enter 8th Army Area is attached below.
4. Kindly issue necessary travel permit for Mr. Mancinelli, so that he can enter on his new duties here with the least possible delay.

1. On two separate occasions one only officer operating out of HQ. has been stranded as a result of break down of the car allotted to him for his duties.

2. The first time, he had to hitch-hike from Calabria as the vehicle could not be fixed at all.

3. On the second occasion, rear end failure of a civilian type car, prevented him from keeping an important engagement to meet the Chief Engineer of 3 District at Crotone to discuss road problems on that area.

4. On this latter occasion, having failed in the purpose of the trip he had to return to Rome on the end of a tow rope after Dispatch Officer had sent him another car.

To : A/Director, Public Works and Util.S/C.

From : Chief, Public Wks.Division.

1. Reference Economic Section letter 15.21/ES dated 6 April regarding transport.

2. The present system of obtaining transport from the Dispatch Office is working fairly effectively toward meeting the requirements of this Division with the following exceptions:

(a). The necessity of requesting transport a minimum of 48 hours in advance handicaps our operation in some cases as many of our necessary trips are of an emergency nature and cannot be anticipated.

(b). The type of vehicle which is made available is in many cases inadequate for the task. Low powered civilian vehicles of the type furnished will not stand up under the long strenuous trips which the Officers of this Division must take, frequently resulting in delayed schedules and days wasted in the field due to breakdowns.

(c). The problem is further complicated by inefficient Italian drivers (see my memo to you dated 7 April).

3. The Headquarters Dispatch Officer has at all times been extremely cooperative and the difficulties outlined above are in no sense intended as a criticism of him or his staff.

2. This is the third officer of this Sub-Commission to be put out of action in approximately a month, and one at least is a permanent loss.

3. It is desired to go on record, based on personnel observation and the result shown, that the Italian drivers which we are allotted are a menace to life and property.

4. In most cases they are without road sense or responsibility and display no signs of developing those qualities which permit their passengers to feel confident in their hands.

5. With the loss, at least for a time, of Major Hyland, this Division is seriously handicapped as he is the only officer operating out of this HQ.
