SUBJECT: Funds for Projects Approved by Public Works and Utilities
Sub-Commission.

TO : Director, Public Works and Utilities Sub Commission, Allied
Commission, APO 394.

1. There is at the present time a large number of approved projects cropping up in the various Genio Civiles for which no funds have been allocated.
2. Due to the confusion in closing the Finance and Public Works Division of Region VIII, these projects are in various stages of being financed.
3. Enclosed herewith are lists of these projects from the Special Genio Civile, Firenze, Genio Civile, Livorno and the Genio Civile, Pisa.
4. Some of these projects are of military importance and FBS is vitally interested in getting them completed. Others are of vital interest to the civilians. It is therefore imperative that pressure be brought to bear on the Finance Sub Commission or the Italian Ministry to force them to extend the credit necessary for the work to be completed.
5. It was the opinion of this officer that the credit for such projects was automatically established upon the request of the Public Works and Utilities Sub Commission. If this is true, it is hard to understand why this delay in establishing credit has been caused.
6. A large number of these vitally important projects have been started and are in various stages of completion. The urgency of these projects required the Regional Engineer to instruct the Genio Civiles to start them upon approval before the credit had arrived.
7. The projects which FBS is vitally interested in are Liv 147, Liv 206, Liv 199, Liv 215, Liv 247, Pisa 351, Pisa 443 to 454 and Gro 271. These projects concern the serious water situation in Livorno and the Malaria Control projects in Pisa Comune. One mentioned above is an important bridge on Route No. 1 (Via Aurelia). All these projects were instigated by FBS and I recommend that immediate action be taken to provide the credit necessary to get the work done.

5840

8. The allied paper for these projects cannot be located by this officer. They are in all probability crated with the files of Region VIII. If any of these projects must be resubmitted this office should be advised immediately so that this important and vital work may be expedited.
