TECHNICAL OFFICE - DIV.3rd

WORKS TO THE CHARGE OF MINISTRY OF PUBLIC WORKS (Decreets N° 938
of 9/7/1940 and N°1543 of 26/10/40.

REMOVAL OF BARBED WIRE, DEMOLITION OF BLOCK-HOUSES AND BARRING WALLS,
RESTORING AND REMOVAL OF DEBRIS AND MATERIALS, RESTORE WORKS OF
STREET SURFACE DAMAGED BY BARRING INSTALLATION.

The project of the 15/6/1945 of Lire 2.500.000.-, already
approved by A.M.G. with letter N° 1031 of 30/6/45, had been prepared
in accordance to prices precedently in force.

During progress of works, prices have been revised and
corrected in accordance to new quotations in force the 25/6/1945.

New amount resulted is then Lire 3.500.000.- (of which
Lire 3.201.130,90 for works and Lire 298.869,10 for contingencies)
as per attached project of works.

As the above mentioned works were awarded to contractors
who have the maintenance for communal buildings without any reduction
in price, supplementary amount for approval resulted of L. 1.000.000
(of which Lire 864.898,50 for works and Lire 135.101,50 for con-
tingencies), as per tabulation below project of works.

MINISTERO DEI LAVORI PUBBLICI

Direzione Generale dei Servizi Tecnici

E' stata esaminata la perizia e si rileva:

- 1) Al n° 2 la mano d'opera prevista per la demolizione di tavolati, volte ed intonaci pericolanti è valutata in misura molto elevata rispetto ad appena no. 140 di manovre di risulta da trasportare alle pubbliche discariche.
- 2) Al n° 3 non è contemplata alcuna utilizzazione del materiale di demolizione, che pure dovrebbe verificarsi e dovrebbe tener conto elevato il prezzo previsto.
- 3) Ai n° 5, 6, 10, 40, 44 e 48 la mano d'opera prevista si ritiene molto elevata rispetto al materiale occorrente presunto.
- 4) I lavori previsti all'art. 26 non sembrano avere carattere indifferibile.
- 5) Occorre dare chiarimenti e precisazioni sui lavori previsti agli art. 37 e 40.
- 6) Ai lavori previsti all'art. 38 si ritiene possa soprastimarsi.
- 7) I prezzi ai n. 41, 42 e 43 sembrano elevati.
- 8) I lavori di impianto di illuminazione elettrica sembrano potersi contenere in misura più modesta.

Si suppone pure che la perizia debba essere riformata tenuto conto delle osservazioni e dei rilievi fatti.

TRANSLATION

Milan 21st. November 1945

To start river transportation over the upper part of the River Po as far as Pavia, this Consorzio thinks it is necessary to have the waterway immediately put into efficiency.

For such a purpose we request you to furnish us with official data on the number and place where there are pontoon bridges at the moment in operation on the River Po either belonging to the Allied Command or to Italian concerns.

It is also necessary to know if convoys could pass under iron or brick bridges and if necessary orders have been given for the opening of pontoon bridges when convoys are to pass.

Another question essential for river transportation on the upper part of the River Po is the dredging of the waterway from Foce Mincio to Pavia.

Some time ago a meeting was held at your Office attended by - besides Majors Talbot and Symons - Eng. Chiodarelli, representative of the Italian Ministry of Public Works, and Eng. Parducci, representative of the Italian Ministry of Transportation. During said meeting the problem of such dredging was fully examined and it was admitted that, to solve the problem, it was necessary that the Ministry of Public Works should agree on using private firm's dredges until the dredges of the autonomous Section of the River Po of Parma were put into efficiency.

To keep the waterway from Foce Mincio to Pavia efficient at least three dredges are required.

We should be grateful if your Office would kindly inform us of the steps you are going to take to obtain what we pointed out on behalf of inland waterways.

Awaiting your kind information, we remain

Yours truly

Consorzio Lombardo Associazione Nazionale
Navigazione Interna
