Subject: Repair of Pavia war-damaged streets
Funds for expropriation of land.

To : Regional Commissioner, Lombardia Region.
(Att: Regional Engineer).

1. Reference is made to Capt. Greene's letter PV/PWU/PJT/5 (Prot.No.341) dated 28 July 1945.

2. This matter has been discussed with representatives of the Ministry of Public Works and they advise us that the expenditure for land expropriation is the direct responsibility of the Commune of Pavia.

1. Enclosed herewith is a report, submit-
ted by the Italian Engineer employed by this Of-
fice, concerning the repair of war-damaged streets,
in Pavia. Since these streets have to be entirely
rebuilt, it is planned to make them wider in accor-
dance with the Town Planning Scheme. An expropria-
tion of privately owned land will be necessary.
The estimate of this land is lt. L. 2.500.000.--
This has not been included in the estimate of
works submitted by us.

2. Please advise whether a/m amount for ex-
propriation of land is to be paid out with funds authori-
sed by this Office or whether it is the direct re-
sponsibility of the Commune of Pavia.

We have examined Capt
Greene request dated 28 July
45, and we express the opinion
that the expenditure of
£ 2,500,000 for the purchase
of the terrain needed for the
widening of the road should
be borne by the Commune
of Pavia.

Eng. Alquati's Inspection

Subject : REPAIR OF PAVIA STREETS. DAMAGED BY AIR-BOMBING.

The bombing aiming at the destruction of the bridges hit also the surrounding area along the Ticino river. The zone more seriously damaged is to be found in the following streets: Via Rezia, Via Maffi and Via Pertusi.

Most of these streets are still obstructed by debris and ruins and in various spots sewers-network running at 3 mtr. below street-level, have been burst open.

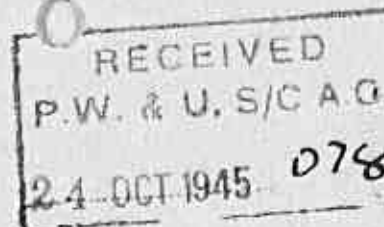

Repair of sewers is under way and forms part of another Project.

For the repair of these streets the Commune has thought of taking advantage of these destructions in order to carry out Town Planning Scheme which considers the widening of said streets. This will imply expropriation of land in the new streets, the cost of which would total It. L. 2.500.000; said amount is not set forth in the estimate submitted to us, and I therefore recommend to clarify previously this question, i.e. : at whose charge the expenditure for expropriation of land will remain.

Perhaps it will be deemed advisable to add this amount of It. L. 2.500.000 to the total of Estimates.

Vengo ora informato che la Direzione del Museo del Castello Sforzesco ha approntato, come programma minimo, un progetto per la copertura provvisoria delle tre ali del Cortile della Rocchetta. Tale proposta, contenuta nei limiti di poco più di due milioni, è più che ragionevole, essendo assolutamente necessario impedire che il monumento sia irreparabilmente sconciato, e nello stesso tempo, che sia agevolata la riapertura della Biblioteca del Risorgimento e di quella di Storia dell'Arte.

Ritengo che l'esecuzione dei lavori dovrebbe essere sollecitamente ordinata in modo da impedire che le intemperie invernali aggravino ulteriormente il danno. Sarò grato comunque a codesta On. Sottocommissione se vorrà informarmi sullo stato presente della questione e sulle possibilità attuali che ad essa sia data lo sviluppo da me auspicato.

Con i migliori ringraziamenti e saluti

1. The above project was submitted to the ministry of Public Works as suggested in your letter. They do not think that this work should be done at this time as they have not planned at this time to do the remaining part of the work and if the remaining work was not done this part would be waste of money.

2. We are returning the project also a copy of a letter from the Ministry.
