RWS/rlv

078/TO/1/PWU

12 March 1945

Subject: Water- San Giovanni Valdarno.
Arezzo Province.

To : Vice President, Economic Section.

The following information is offered with reference to the water situation at the above Commune:

Lt.Col.Lee, Regional Engineer, has been informed locally on the situation but has received no request from either the Regional Medical Officer or the Provincial Commissioner. for work to be undertaken. The Commune has never had a central water supply system but depended entirely upon several wells. Certain of the wells have become contaminated as a result of the flood water and adjacent cess pools and water can be used for drinking purposes from these particular wells only after boiling. Some fear is prevalent locally of an outbreak of typhoid.

The supply of water pipe, as suggested, will not solve the problem, as a complete water system will be required including impounding facilities. If it is desired Lt.Col.Lee will cause an engineering investigation to be made after which definite recommendations can be offered as to the most practical solution.

For the Chief Commissioner:

13 Feb. 45

SUBJECT: New Bonifica Work on
R.Albegna GROSSETO

TO : Director,
Public Works & Utilities Sub- Commission,
H.Q, Allied Commission,
A.P.O.394.

1. The enclosed form Projects N°GRO 126,127,128 and 129 refer to the construction of a new bank on the river Albegna to assist Flood Control.

2. As it is entirely new work the Provincial Commissioner was asked for his views on the subject. A copy of his letter in reply is attached.

3. In view of the circumstances the four Projects are forwarded for your consideration and approval.

Ref. GC/65/76

SUBJECT : Attached project L.Bank of R. ALBEGNA

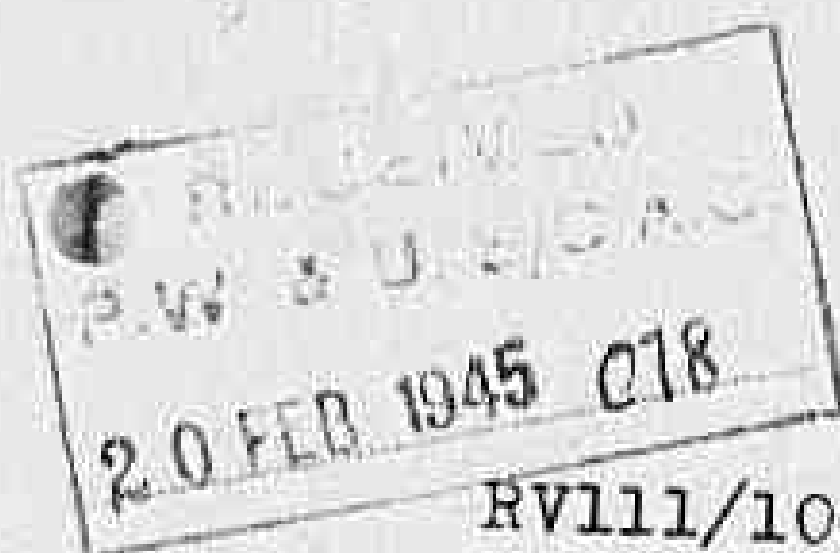

TO : Regional Public Works Officer - Toscana Region -

1. While I agree that this project is in the nature of a "new" work I submit the following in support of my recommendation for the undertaking.

2. It must be realised that the various Bonifica undertakings are all in their early stages. Thus to repair only work recently destroyed is not economical since such work is only a part of a general project. This proposed barrage on the L. bank of the R. Albegna is part of the project already undertaken to restrain the Albegna in times of flood and I believe it is a fact that the original project to build this L. bank dates to the 16th century!

3. The absence of a bank here means a grave risk of loss of food essential to the Country's economy by flooding. While therefore it appeared to be a new work, it is in reality a very necessary addition to an old work and as such I recommended it.

16 Feb. 45

SUBJECT : Repairs to Sewerage & Water
Supply System at Poggibonsi-
Siena

TO : Director, Public Works & Utilities
Sub-Commission,
H.Q. Allied Commission
A.P.O. 394

1. The two Projects, A.C./1 forms enclosed refer to repairs to sewage and water supply systems in Poggibonsi, numbered SIE 17 and SIE 19 respectively.
2. On the Regional Engineers orders these projects were held in obedience until debris had been removed and a clearer picture of the necessary works could be obtained. There was no immediate health danger involved, and water though rationed was adequate.
3. It is now possible to carry out these Projects however and they are forwarded to you for approval. As was anticipated, other additional works will be required; and bearing ~~in~~ in mind also the ^{rise} in prices, will mean supplementary estimates at a later date. These ~~two~~ will be forwarded to you for approval in due course.
4. It was felt that rather than ~~course~~ further delay in commencing work by having an entirely new Project prepared, that supplementary estimates in this case might perhaps be the better solution.

BUDGETS OF GENIO CIVILE

REGIONAL COMMISSIONER

1. My PFO at Livorno advises that the Regional Engineer tells him my approval on the budgets of Genio Civile is automatic and there is no need to wait for it. He (Regional Engineer) asked that credit be issued as soon as his approval is obtained. I have just had a similar case from Arezzo.

2. I read nothing in 13194/F of 23 Sept. 44 that relieves me of the responsibility of approving of budgets for public works and I reject the idea that my approval is automatic. If it is, why should I be bothered with the detail at all?

3. Your views will be appreciated.

December 5, 1944

205/11

SUBJECT : Road and bridge (Pistoia Province)
TO : Regional Engineer, Toscana Region.

1. Your attention is invited to par. 6 a. (1) of Captain Weebbers report of 30th November 1944. It appears from his report that the entire Genio Civile set-up in Pistoia Province hinges on providing a qualified, forceful, and reliable engineer as assistant to Ing. Ruglione.

2. It is believed probable that the other petty differences and difficulties, now encountered, would soon be overcome by a man of those qualifications.

3. Will you take this up with Ing. Casalini and see what he can do? If he appears unwilling or unable to remedy the situation, I suggest you handle it with the Minister of Public Works through A.C.

4. The P.C. Pistoia Province is hereby requested to take such action as is necessary to see that requirements of transportation are furnished the Genio Civile, as it must be realized that the amount and quality of progress depend upon it.

20 December 1944

Subject: Italian Civilian Engineer.

To : Regional Commissioner, Toscana.
(Att: Regional Engineer).

1. Ing. Gastone R. Simonetti, who lives at Castiglion Fiorentino, near Arezzo, has applied to this Sub-Commission for employment as a civil engineer. Attached is formal application submitted by this engineer.

2. This man is obviously a well qualified Engineer with extensive experience. He is of good appearance and speaks quite good English.

3. This information is being forwarded to you as it is believed this man would make a valuable addition to your staff. In the event his services are not needed in Florence, it is suggested that he might be employed to assist Capt. Saul in Arezzo.

4. He is now returning to Castiglion Fiorentino, where he may be contacted if you so desire.

Rome, 20 December 1944

Lt. Col. V.S. Thompson
 Chief Of Public Works Division
 P.W.U. HQ. AC.
R O M E

Being a registered civil engineer and architect, graduate of the Royal University of Pisa, 1925. I would like if possible to be employed by you in the capacity of civil engineer to plan, direct repair works and reconstruction of public works damaged by belligerent actions.

From 1926 to 1936 I have been the Chief Engineer of the construction action of the Commune of Florence, during which time I have supervised and directed a great number of jobs. In 1939 I was selected to plan and calculate a bridge to built in Rome (locality St. Paul), on the Tiber River.

From 1936 to this date I have directed many road and bridges works and construction and repair whithin the territory of the Arezzo Province.

For months and as matter of fact still, I am working in the repairing of War damaged; bridges, roads, dams and demolition of dangerous buildings in the Commune of Castgion Fiorentino (Province of Arezzo). These works are under direction of A.M.G. of Arezzo.

I would be disposed to work in any region of Italy.

I can speak and write Italian, English, French and some German and I can drive a car, My age is 48.

References on my account are available, if desired, from Mr Edward I. Holloway, A.M.G., Commissioner in Castgion Fiorentino and from the 509th Provost Coy in Arezzo.

Your Truly

GASTONE R. SIMONETTI
 Castgione Fiorentino. AREZZO

8.Dec.44

SUBJECT : Approval of estimates
Bonifica of Pucecchio, Provinces of Florence,
Pisa and Pistoia.

TO : Director, Public Works & Utilities Sub Commission
Hq. Allied Commission APO 394

1 - The following projects numbered as follows are
forwarded to you for approval.

Pistoia	15		395.000,00 L
Pisa	51		270.000,00 "
Pisa	49		180.000,00 "
Pisa	50		925.000,00 "
Firenze	168		655.000,00 "
Firenze	169		410.000,00 "
Firenze	170		130.000,00 "
Firenze	172		1.385.000,00 "
Firenze	173		700.000,00 "
Firenze	174		707.000,00 "
Firenze	176		830.000,00 "

Total 6.627.000,00 L

It will be seen that these projects cover varied types of work including the removal of debris, filling of craters, repairs to banks, the clearing of canals, etc.

2 - Although, with one exception, all the projects are under one million lire, it is to be considered as one scheme being all part on one Bonifica area. Such being the case the sum involved in totality is over six million lire, and should therefore receive approval from you.

3 - As the work is extremely urgent, it would be appreciated if approval or recommendations could be expedited.

1 - The following projects numbered as follows are forwarded to you for approval.

Pistoia	15		395.000,00	L
Pisa	51		270.000,00	"
Pisa	49		180.000,00	"
Pisa	50		925.000,00	"
Firenze	168		695.000,00	"
Firenze	169		410.000,00	"
Firenze	170		130.000,00	"
Firenze	172		1.385.000,00	"
Firenze	173		700.000,00	"
Firenze	174		707.000,00	"

Subject: Permission to Enter Army Zones.

To : Provincial Commissioner.
Leghorn Province.

1. Authority is requested for the following Italian civilians to proceed from Rome to Leghorn:

(a) RIZZICA Giuseppe

Address: Agrigento, Sicily

Pat. auto: 30554

(b) MARINO Filippo

Address: Catania, Sicily

Pat. auto: 73716

2. The above civilians are members of the contracting firm RIZZICA & MARINO. These contractors have demonstrated by past performance on Military Works their thorough reliability and efficiency.

3. The purpose of the visit to Leghorn is to inspect and consolidate certain construction equipment owned by them which is located in the Leghorn vicinity and to reorganize their facilities in order that they might undertake additional contracts on Military works under the direction of this Sub-Commission.
