20085/DEMA/10/9

16 July 1945

Subject: DEMA Repair Projects, PIGA and LIVORNO.

To : Director, Public Works Subcommission.

1. Enclosed herewith the breakdown of DEMA projects in PIGA and LIVORNO into the categories of urgency as per your verbal request.

2. In to your question concerning the first-aid work for churches, the following is the information. According to the Concordat of ca. 1870 when churches were secularized they passed over into the care of the State which is responsible for their physical external up-keep. That applies to all churches except the few which remained Vatican property. This Subcommission, however, is concerned only with those which are of significance in the history of art and are the responsibility of the Italian State.

3. I shall be absent from DEMA until Monday, 28 July 45. My Deputy Director, Lt.Col. Ward Perkins, will be available for any further queries.

9 June 1945

Subject: Bonifica Projects.

3

To : Regional Commissioner, Toscana
(Att: Regional Engineer).

Reference 12 bonifica projects submitted on
6 June for approval of this Headquarters.

1. As these works amount to less than one million
lire each and require no critical materials the approval
of this Headquarters is not required.

2. Even though of interest to the military they
can be approved by the Regional Engineer and financed in the
normal way of handling through the Regional Finance Officer.

By Command of Rear Admiral STONE:

PUBLIC WORKS & UTILITIES DIVISION

4-Feb.-45

RVIII/100/FIR/4

SUBJECT : Repairs to Ecclesiastical Property.

TO : Director, Public Works & Utilities Sub-Commission
HQ Allied Commission APO 394

1. During the past weeks a number of projects have been received in this Office asking for repairs to be made to churches or other ecclesiastical property. In some instances a letter from the Archbishop of the Diocese has accompanied the request, giving support and approval.

2. In all cases so far received the amounts involved are under 200,000 lire, and no critical materials are asked for. In view of the directive received from you that works for which critical materials are not required no longer require the approval of this office, it is felt that some guidance is essential to assist Provincial Commissioners and Genio Civile in coming to a decision.

3. Certain works on church properties have been carried out on the request of the Monuments, Fine Arts and Archives Division, but in the cases upon which a ruling is now required that Division has stated that they have no interest.

4. Can you confirm that Church authorities, in conjunction with the Ministry of Public Works, have come to some agreement on the question, as it is felt that no action should be taken here without some definite procedure being laid down. There is no doubt that many more demands of a similar character may be expected.--
