20 September 1945

SUBJECT: Citroen Car

TO : Ing. Aldo Frascchetti
Ministry of Public Works

1. The Citroen car is at Genio Civile motor pool inoperable in the way it was first found and without tires. This car was utilized for our transportation purposes through arrangements made by Genio Civile into which this Division did not enter.

2. Tires were furnished by military authorities, repairs were made by Ing. Tudini & Talenti under the direction of Genio Civile. Such repairs were not successful and the car could not be used. Therefore, it was placed back in the Genio Civile Motor Pool and the tires removed.

3. This Division is in no way concerned with the ownership of this vehicle.

SUBJECT: Assignment of Trucks

TO : Ing. Luigi Ferretti, Chief Engineer
Highway Division, Ministry of Public Works

1. I have your letter regarding the assignment of trucks in the following manner:

Ancona	4
Palermo	4
Rome	10
Campobasso	2

2. This distribution of trucks is approved by this office. It will be necessary that this office be advised of the plant and serial numbers of such trucks as are assigned to these points so that memorandum receipts may be issued. It will also be necessary that these trucks be marked, indicating their ownership as U.S.V.S., particularly in the cases of those trucks being assigned in Rome, to avoid confusion with the other trucks yet to be issued. Mr. Frampton has been instructed regarding this and it is requested that your office issue instructions to the transportation officer accordingly.

TURIN

Ref. Nr. 3891

SUBJECT: Request for release of snowplough and
snow-throwing machine.

TO : A.M.G. Piemonte Region - P.W.&U. Division-
Road and bridges Section - Turin.

17 Aug 45

During their occupation of the province of Cuneo, Germans troops removed 4 Snow-throwing machines Crosti and 3 Snowploughs Fiat owned by this Office which had placed them there for snow removal from the important State roads of that Province.

As these seven machines are required for the organization of the imminent service of snow removal from said State roads, it would be greatly appreciated if you could take action for removed machines be replaced, by releasing to this Office 4 Snow-throwing machines and 3 snowploughs, from those in good condition stored either in the "Rally Park" of Peschiera, or in the ex-Todt depot of Bolzano.

The released machines should be sent by railway to the Station of Cuneo and advice-note should be addressed to this Office, and to the detached Section of Cuneo (Via Alba nr.51), which must issue orders for delivery and withdrawal.

It would be greatly appreciated if an early reply could be given to this letter.
