SUBJECT : Bridges.

FILE N° : RXII/PWU/400.11

1. Herewith project ref.n°.UD/RBS/57 and form AC/1 for the construction of a new bridge over the river Stella on Route 14, to be built on a new alignment together with the construction of a new section of road to the alignment.

2. The old bridge which was in steel was totally destroyed and is replaced by a Bailey bridge which the Army are leaving in place.

3. The U.S.V.S. Section Engineer of Udine, Eng.Trivella to, states that the old bridge was narrower than the road and that a new bridge should be constructed to conform with the width of the road.

4. His reason for submitting the present project is because the state road through the village is winding and dangerous and,as the old bridge was totally destroyed, opportunity should be taken of making the improvement. It was considered some time ago to construct a new road to obviate the present one through the village, together with a new bridge; therefore as a new bridge has to be built he considers that the project as now submitted should be effected.

5. The present project has been signed by me conditionally. I consider that it should be put before the Ministry of Public Works, for them to give a decision as to whether they approve the project and desire the work to be financed and started or prefer to leave it in abeyance. Will you therefore put it before them immediately.

3153

Declassified E.O. 12356 Section 3.3/NND No. 785019

6. I agree with Eng.Trivella to that the opportunity be taken to make the necessary road improvement and construct the new bridge on the new alignment. No doubt you will agree that the design of the new bridge cannot be improved on. The work can be effected without interfering with military traffic. You will note that the estimate has been submitted by the Engineer to the 288 Works Sec. R.E. and that their approval is stamped on the outside of the estimate.

W. KNIGHT, Major, M.C.,
Regional Engineer.

Public Works & Utilities Division

14th August 1945

TO : Public Works & Utilities Sub-Comm. HQ, A.C.
SUBJECT : Approval of projects
FILE No : RXII/PWU/Gen.01

1. The under mentioned projects for bridges in the city of Verona are passed to you for consideration.

a) Ponte Umberto	23.500.000.==
b) Ponte Garibaldi	21.000.000.==
c) Ponte Catena	7.000.000.==
	51.500.000.==

2. The design for these three bridges were not made by the Genio Civile, they were made by the Firms who had previously constructed the bridges. In view of this it is considered that the direction laid down in your letter No.078/6/PWU of 13th June 1945 might be put into effect, in accordance with para 4.

3. In view of the fact that all the bridges in Verona city have been destroyed, 7 in all; it is very necessary that some of these bridges be reconstructed; therefore the Italian Ministry of Public Works may be disposed to approve of these three bridges by the Firms who built them, instead of putting them out to competitive design.

4. It is therefore suggested that you consult the Ministry of Public Works regarding these three bridges, if they are prepared to accept the design and the estimate of each bridge and agree to the same firms constructing them, then you will be able to return the projects approved.

./.
3451

Declassified E.O. 12356 Section 3.3/NND No. 785019

5. Should however the Ministry decide that these bridges be put out for competitive designs, I suggest that the matter be left in their hands in view of the short period left before the winding up of this Region. There would not be sufficient time now to prepare forms AC/2 (approval of contract) to carry out the first part of the work for foundation and piers, as suggested in your letter, Should you approve the AC/1 in order to release funds for that purpose.

6. You will note that these three bridges were constructed a few years before the war, that is the reason why I suggest the Ministry of Public Works might be disposed to accept the projects as they are and to be built by the ~~regional~~ original contractors.

7. The matter is therefore put into your hands for due consideration, and your instructions are awaited.

SUBJECT : Projects.

FILE No. : RXII/PWU/1.1

1. Projects that are going to cost more than one million Lire, must be submitted as one project, and not broken down to several under that figure.

2. Projects are still being submitted to this office by the Genio Civile broken down to under one million Lire. This is a highly irregular practice and is a method to defeat the directive that have been issued from H.Q. A.C., on the subject.

3. To regularise the procedure this office has had to make out master AC/1's for forwarding to HQ. AC. for approval.

4. The instructions that you have given to the Genio Civile to break a project down to under a million Lire, not only causes unnecessary work for the Genio Civile in producing numerous projects where only one is necessary, but it is also causing much extra work for this office, and inevitable delay in the approving of projects and therefore defeats the objects you had in view when you instructed the Genio Civile to carry out this procedure. Another thing is that this procedure causes an unnecessary waste of paper.

3447

Declassified E.O. 12356 Section 3.3/NND No. 785019

5. There is another matter that has been brought to the notice of this office; this is that the Genio Civile has been instructed to start work before the projects have been approved. This procedure is incorrect, unless sanction has been given verbally by this office to do so and that the project will be finally approved.

6. Please note that the Genio Civile will not be instructed to commence any project until it has been approved by this office, or verbal approval given to do so.

Please inform Lieut. Lee accordingly.

TO : Public Works & Utilities Sub Commission
Headquarters A.G.
SUBJECT : Supplementary Projects.
FILE N° : RXII/PWU/400.11

1. Enclosed are two supplementary estimates and AC/1's which have been submitted by Eng.Trivellato, USVS Udine, as follows:-

TYPE	LIRE
Ponte di Muro on Route 13	2,150,000=
Ponte Peraria on Route 13	1,650,000=

2. These supplementary projects are in respect of bridges ordered by 8th Army and financed through their channels of AMG and not through this office. The request now made for extra funds is due to increase of wages approved by the Regional Commissioner in July; the original estimate being based on the wages pertaining at the time. As the wages have since the commencement of the work been increased and the work is not completed, it is necessary that sufficient funds be provided to pay the workmen for the increase over the original wage. Will you therefore give your approval for the supplementary estimates now submitted.

W. KNIGHT, Major
Regional Engineer

SUBJECT : New Trucks for U.S.V.S.
FILE No : RXII/PWU/41

1. Herewith estimates and Forms AC/1 for your approval.

Ref.No.	Tipe of work	Cost Lire
BOL/49	Purchase of four Lancia Trucks	6.680.000.=
VEN/129	" " six " "	12.570.000.=

2. You gave verbal approval over the telephone for the four Trucks for the U.S.V.S. Bolzano and the P.F.O. has been asked to release the funds pending return of AC/1 giving your final approval.

3. The second estimate for similar Trucks for the U.S.V.S. Venezie Compartimento.

4. I consider that the purchase of these Trucks for the U.S.V.S. will be a good investiment as they are new and not like the broken down crocks obtained from the Army, which have no tools and are more often off the road than on.

1. Attached project VIC/22/R for Provincial bridge Passo di Riva, Vicenza Province M.R.G. 115.765 cost Lire 8.300.000.

2. This is of particular importance as it carries the tram track as well as the road.

For this reason it is intended to rebuild the bridge with a width of 11 M. instead of 8 M. as formerly.

3. The project will be put out to competition but since it is on a provincial road it is not thought necessary to have a competition for the design.

1. Attached project UD/14 for Provincial Bridge over the Tagliamento at Braulins, Udine Province M.R.C.295.450 for Lire 4.600.000.

2. This bridge is the only means of communication across the river, which is at present crossed by ford impassable in the winter, for some distance.

3. Owing to complicated damage to piers it is anticipated that the work cannot be completed before the floods.

4. For this reason an additional project for 590.000 lire for a temporary wooden bridge for foot passengers and light carts has been approved by this office.

Reg. Eng. Ref. No.	Type of work	Cost Lire
VER/26/A.C.	Repairs to bomb-damage along the Camuzzoni canal.	7.747.944.==

2. This canal partly constructed in concrete was very heavily damaged by air bombardment and it is very necessary that it be repaired before the winter. This is another case where Major Feldman instructed the Genio Civile to prepare and submit several Projects where only one should have been prepared. His idee being the same as that for the repairs to the dam in the Camuzzoni canal.

3. These Projects were returned for the submission of one AC/1 to cover all the Projects.

4. I have approved the AC/1's submitted with each Project in order that the work may go ahead pending your approval on the Master AC/1 for the whole amount. I enclose all the Projects (two copies and two AC/1's foreach). The numbers of the Projects are typed on the back of the Master AC/1. The third copy of the AC/1's I have approved under a million, have been forwarded to the Genio Civile.

August 4th 1945

TO : Public Works & Utilities Sub-Comm.HQ,A.C.

SUBJECT : Approval of estimate

FILE No : RXII/PWU/Gen.01

1. The attached estimates and Forms AC/1 are forwarded for your approval.

Reg.Eng. Ref. No.	Type of work	Cost Lire
VER/10/A.C.	Reconstruction of the dam in the Camuzzoni canal from river Adige	11.100.010.==

2. This dam was very badly damaged and it is essential that the reconstruction be effected before winter. Major Feldman instead of instructing the Genio Civile to prepare and submit one Project, told him to prepare a number of Projects each under a million lire, with the idea that they could be approved by me instead of going to your office for approval.

3. Major Feldman was informed that this was incorrect procedure as the dam was one Project and could not be split into several. The Projects were returned to him with instructions to fill out one AC/1 for the whole of the amount involved in the numerous Projects, in order that it could be forwarded to Rome for approval; as the Genio Civile had already done a large amount of work in Preparing the Projects Major Feldman was told that it was considered that they would be acceptable to you in their present form provided the AC/1 was there to cover the whole lot.

4. The whole of the Projects prepared, 12 in number; are forwarded with the Master AC/1 for your final approval. One Project, our Ref. No. VER/11 was approved by me, as it was for work to effect the necessary demolition before construction could begin. One copy of that AC/1 has been sent to the Genio Civile to enable him to start the work pending your approval of the Projects as a whole. Two copies of this Estimate VER/11 and

Declassified E.O. 12356 Section 3.3/NND No. 785019

the other two AC/1 approved by me are forwarded to you with the rest of the Projects.

5. I have not approved any of the other single Projects as I consider that they would be received back in time to carry out the work after the demolition has been done.

REF : LSC/811/515

SUBJECT: Wage Rates of Port Dredging Workers at Venice

TO : Public Works and Utilities Sub-Commission

1. Reference your 078/VE/I/PWU of 21st July 1945.

2. As the workers concerned are employees of the State, their rates of remuneration are governed by and are the responsibility of the Italian Government.

3. You will no doubt be aware that Italian public servants wage decrees, Nos. 188, 288 and 116 have recently been implemented in Northern Italy, thus bringing salary&wage rates of public servants in that territory into line with those obtaining in Central and Southern Italy.

4. The last mentioned Decree, viz. No. 116, was implemented on 15th July 1945, with retroactive effect as from 1st August 1945, and it is thought that the Ministry of Public Works was not aware of this fact when their letter of 17th July, 1945 was written.

5. In all probability Decree No. 116 will be made retroactive to 1st May 1945 in the course of the next few days.

6. It is thought that the implementation of the above-mentioned Italian decrees, when applied to the workers of the Port Dredging Service at Venice will meet the position as described in the letter of 17th July 1945 from the Ministry of Public Works.

COMUNE DI GORIZIA - RICOSTRUZIONE DEL PONTE SULL'ISONZO IN LOCALITÀ "TORRIONE" - PROGETTO N. 7278 del 27/IX/1939

Il Municipio di Gorizia ci segnala l'urgenza della ricostruzione del ponte in oggetto e c'invita a rivedere il progetto di massima e l'offerta,pure di massima,presentati il 17 Ottobre 1939 per poterli sottoporre all'approvazione dell'A.M.G. che deve decidere al più presto l'esecuzione dell'opera.
Il progetto,da Voi studiato per conto nostro,porta il N. 7278 e la data del 27 /IX/1939. consiste di due disegni N. 1 &2 e di una calcolazione ed era accompagnato dalla Vostra lettera dda.28 Settembre 1939 N. 12.865.
La nostra offerta,di larga massima,ammontava allora a £. 1.550.000.
L'Ufficio Tecnico Comunale di Gorizia,Ing.A.Gleasi,ci fa presente che nei calcoli si dovrà tener conto della necessità di permettere il passaggio anche ai moderni carri armati pesanti.
Se ancora in tempo,sarebbe bene che lo studio lo portasse qui con se il Sig.Ing.Berardi nel suo imminente viaggio di ritorno;in caso diverso l'invio potreste forse farcelo col tramite dell'A.M.G.dato che probabilmente la posta non funzionerà per molto tempo ancora.
In tale attesa Vi preghiamo di gradire i nostri saluti più distinti.

TRANSLATION By : C.Tatti/ct

SOCIETA' ADRIATICA COSTRUZIONI
(S.A.C.)

To : SOCIETA' ANONIMA ITALIANA FERROBETON

Subject : Commune of Gorizia - Reconstruction of bridge on Isonzo at "Torrione" - Project No. 7278 dated 27/IX/1939

The Municipio of Gorizia points out to us the urgency of rebuilding subject bridge, and invites us to revise project and offer submitted on 17 October 1939, so that we can submit them to A.M.G.'s approval ; they must decide at earliest execution of work.

The project, studied for us by you, bears No. 7278 and the date of 27/IX/1939, consists of two drawings, No. 1 & 2, and of one calculation, and enclosed letter No. 12.865 dated 28 September 1939. Our widely approximated offer amounted then to 1,550,000 Lire.

The Technical Communal Gorizia Office (Ing. A. Glessi) points out that calculations must consider necessity of allowing passage of modern heavy tanks.

If still in time, it would be better that Eng. Berardi would take with him the project in his future return trip, if not you could perhaps forward it trough the A.M.G., since the mail service will not operate for a long time.

Truly yours,

S.A.C.

This letter has been sent by air mail by courtesy of A.M.G.

In relazione alle lettere del 16 giugno e 19 giugno 1945 dell'Ufficio Regionale Maggiore Knight si ritiene:

1) che il posto di Presidente del Magistrato alle Acque debba essere affidato all'Ing. Tognozzi che è di grado 4° e competentissimo in materia idraulica. Era già Presidente al Magistrato alle Acque e deve essere reintegrato nel suo posto. L'Ing. Meloni è del grado 6° (Ingegnere Capo) con funzioni di Ispettore (grado 5°).

2) Le promozioni dell'Ing. Venier ad Ispettore e dell'Ing. Farina a Capo Compartimento non possono essere ritenute valide.

L'Ing. Venier dovrebbe ritornare al posto

./. 3362 pr

Declassified E.O. 12356 Section 3.3/NND No. 785019

di Capo dell'Ufficio Speciale del Genio Civile per la Viabilità Statale a Venezia e l'Ing. Farina a quello di Ingegnere di Sezione.

3) Il posto di Ispettore Generale attualmente tenuto dall'Ing.Venier sarà occupato dall'Ispettore Hermes D'Orlando dal quale dipenderanno gli Uffici del Genio Civile della Viabilità Statale di Venezia e Bolzano.

4) L'Ing.Venier potrà mantenere anche la funzione di Ispettore finchè l'Ing.D'Orlando non avrà occupato il suo posto.

Subject : Genio Civile personnel in Venezie Region.

Venezie

Reference letters dated 16 and 19 June from Regional Office, Maj. Knight, we advise :

1) That Eng. Tognozzi, who is of 4th Grade and very competent in hydraulics, should be appointed President of the Water Magistrate. He formerly had been President of the Water Magistrate, and must be reinstated into his place. Eng. Meloni is of Grade 6th (Chief Engineer) and Acting as Inspector (Grade 5th)

2) That promotions of Eng. Venier to Inspector and Eng. Farina to Chief of Compartment can not be deemed valid. Eng. Venier should revert to the place of Chief of the Special Office of Genio Civile for Viabilità Statale at Venice and Eng. Farina to the place of Sectional Engineer.

3) The place of Inspector General which is at present held by Eng. Venier will be given to Inspector Hermes D'Orlando, upon whom will depend the Offices of Genio Civile for Viabilità Statale of Venice and Bolzano.

4) Eng. Venier may hold his function of Inspector until Eng. D'Orlando takes over his place.

OGGETTO Assegnazione cemento - Cementificio di Bagnoli -

Sulla quota di cemento messa a disposizione di questo Ministero da codesta Commissione, per il mese di giugno scorso, presso il Cementificio di Bagnoli, vennero assegnati all'Ispettorato del Genio Civile di Grosseto mille quintali, per il trasporto dei quali fu richiesto alla Sottocommissione dei Trasporti che venissero concessi cinque vagoni presso la stazione di Bagnoli.

Solamente ieri venne comunicato dalla predetta Sottocommissione che i carri richiesti sono pronti a Bagnoli fino all'atto del corrente mese.

Sono state subito impartite disposizioni per il ritiro del cemento in questione, ma il cementificio ha sollevato difficoltà per la consegna perché questa avrebbe dovuto essere effettuata entro il mese di giugno.

MINISTRY OF PUBLIC WORKS
Central Inspectorate for Housing Repairs

3 July 45

Reference : 1861

To : Allied Commission,
Public Works Sub-Commission.

Subject : Allocation of cement - Bagnoli Cement Works.

A quantity of hundred tons of cement has been allocated to the Ispettorato del Genio Civile at Grosseto, against the quota made available to us by your Commission at Bagnoli Cement Works, for the month of June 1945. Five waggons at Bagnoli Station were requested to Transportation Sub-Commission for transport of said cement.

Only yesterday a/m Sub-Commission informed that requested waggons are available at Bagnoli till 8 July.

We issued immediate instructions for collection of cement, but the Cement Works raised some difficulty, as delivery should have been made within the month of June.

Since availability of waggons has been notified only yesterday, and considering great needs of cement, we beg your Sub-Commission to instruct Bagnoli Cement works to deliver 100 tons included in the quota ~~xxxi~~ allocated for last month.

1. Reference this office letter RXII/PWU/17.1, dated 12 May 1945.

I have seen the Euperation Committee regarding the position of the present President of Magistrato alle Acque, Dott. Waldis, Lelio, who escaped from Rome and was appointed President in place of Tognozzi; he is a lawyer and not an engineer.

2. The Committee consider that Waldis should be removed from office and in his place they propose one of the Inspector Generals, by name Engineer Meloni, Francesco, instead of Engineer Tognozzi whose name was suggested by Ministry of Public Works.

3. Engineer Meloni is Inspector General for the 1st Zone comprising Bolzano, Trento, Verona, Mantova and Brescia.

4. The Committee state he is a sound man and he has a vast knowledge of the problems connected with the rivers and canals of Venezie. They consider he is the best man for the post of President.

5. The Committee have nothing against Tognozzi. They say he appears to be a good man but he had only been in this area for 2-1/2 years and has therefore not got the knowledge of the conditions to be met in Venezie. That he came from Tuscany where the conditions are not the same.

6. The Euperation Committee are not acting until I get a reply from you regarding the Ministry of Public Works reaction to their suggestion of a nominee.

7. Will you please treat this matter as urgently as possible.

1. Reference this office letter RXII/PWU/17.1, dated 12 May 1945.

2. Engineer Venier, Francesco, who was mentioned in my letter came to see me regarding his position. He informed me that Engineer D'Orlando, Hermes, had come up from Rome with permission from the Head of a Department of Ministry of Public Works to visit his family in Udine, and that he had called to see Eng. Venier. He did not visit me. I have asked to see him.

Engineer Venier desires to know whether his promotion to Inspector General, from Capo Compartimento, under the decree of the Fascist Government, in July 1944, is to be considered valid or not. If not, has he to revert back to Capo Compartimento? Also what the position is of Engineer Farina, Marcello, who was promoted under the same decree to Capo Compartimento from Section Engineer, and whether he should be reverted back to Section Engineer.

If these two promotions are not valid, then will Engineer D'Orlando take up position of Inspector General?

3. My impression of Engineer Farina is not too favourable. He prefers to stay in his office and delegate work to a junior engineer and he is very supercilious.

4. I have not had much to do with Engineer Venier but he seems to be a quiet, efficient man. Engineer Venier states that he objected to his promotion, but was told that he would have to accept. As Inspector he was responsible for the three compartments of Venezia, Bolzano and Trieste for A.A.S.3., and

SUBJECT: Projects commenced under Fascist Government

FILE No: RXII/PWU/1.1

1. Ref. my letter RXII/PWU/1.1 dated 30th May 1945 and our conversation this morning.

2. My letter of 30th May refers to short term projects which were started under the Fascist Government, for carrying out work of reconstruction due to war damage.

3. As explained to you this morning the question of any long term projects started under the Fascist Government, will have to be submitted through Headquarters Allied Commission to the present Italian Government for a decision, as to whether or not the work shall be completed and funds provided to do so.

4. In preparing these works for presentation to the Italian Government it will be necessary to provide the following information.

a) Reasons for initiation of the work.
b) Copy of original project and estimate of cost.
c) Date of approval.
d) Lenght of time to complete the project.
e) Amount of funds placed against project.
f) The amount of that fund expended.
g) What of the original project remains to be executed.
h) An estimate of the funds required on present price levels to finish the execution of the work.
i) Time required to effect completion.

ROUTING AND WORK SHEET

Each note must be numbered and each space completely filled in. THIS WORK SHEET MUST NOT BE REMOVED FROM THE CORRESPONDENCE TO WHICH ATTACHED UNTIL ACTION IS COMPLETED AND THEN FILED WITH FILE COPIES OF COMMUNICATION TO WHICH IT PERTAINS. A line will be drawn the full width of the page under each note.

SUBJECT: .....

No	Date	To	REMARKS	From
3	14 June 45	Prod Div	Deemed inadvisable to modify present procedure which is quite flexible. 1. A Regional Engineer can authorize and start work on projects under Lv1,000,000. 2. If it is a question of relieving emergency unemployment, the Regional Commissioner can certify a project to that effect and work can be started immediately pending regular approval of project. 3. With regular air courier service now to the north and a little effort on their part to make connections, the time of transit is minimized, even a courier may be justified in extreme urgency and telegraphic or telephonic advices of such approvals will permit immediate initiation of operations. In general the greatest delays occur between the date of approval of project by the Genio Civile and the approval by the Regional Engineer and this proposed plan does not overcome that. UFFICIO DEL GENIO CIVILE DI VENEZIA

N°300

PERIZIA URGENTE DEI LAVORI DI RIPARAZIONE DELLE PARATOIE DELLA BRIGLIA DI STRA'-OPERE METALLICHE ED ATTREZZATURE ELETTRICHE.

IMPORTO L. 300.000.=

RELAZIONE

Nel bombardamento aereo del 23 aprile 1945 la briglia di Strà è stata colpita in più punti rimanendone danneggiati le tre paratoie cilindriche, gli elettromeccanismi, e la linea ad alta tensione.

Le tre paratoie cilindriche che per una precedente manovra, ordinata dal Comando Germanico, erano state sollevate per un'altezza di circa m. 2.50 ora non sono più manovrabili perchè a causa del bombardamento si sono spostate dalla loro posizione e le dentiere dei rotoloni non possono quindi più ingranare sulle cremagliera.

Non potendo manovrare le paratoie esse costituiscono nell'attuale posizione un pericoloso ostacolo in caso di piena poichè ostruendo le luci della briglia rincollerebbero le acque a monte provocando vasti allagamenti.

E' necessario quindi provvedere alla riparazione delle paratoie sostituendo le strutture metalliche danneggiate e rimettendole nella loro giusta posizione. Inoltre oc-

PERIZIA N° 301 dei lavori di primo intervento per la riparazione sommaria delle arginature destra e sinistra del F.Brenta danneggiate da offese belliche nella zona appartenente al Circondario idraulico di Venezia di Strà.

IMPORTO L. ~~80.000.=~~ 40.000,=

=?=?=?=?=?=

R E L A Z I O N E

IL 25 Aprile 1945 in seguito ad offese aeree è stata colpita la zona fluviale di Strà all'incrocio del F.Brenta col Piovego ed il Naviglio Brenta. Danni gravi hanno subito le arginature del F.Brenta nella zona di rispetto della briglia.

Attualmente l'argine sinistro presenta squarci profondi attraversanti tutti il corpo arginale che occorre immediatamente ripristinare onde evitare che piene, anche modeste, possano incanalarsi ed inondare vasti territori in sinistra del corso d'acqua. Nell'arginatura destra ci sono crateri che interessano buona parte del corpo arginale menomandone notevolmente la sua resistenza. Il materiale proiettato dalle arginature col crepite ha interessato completamente anche il mandracchio

IMPORTO L. ~~180.000.=~~ 430.000,-

=?=?=?=?=?=

R E L A Z I O N E

Il 23 Aprile 1945 in seguito ad offese aeree è stata colpita la zona fluviale di Strà all'incrocio del F.Brenta col Piovego ed il Naviglio Brenta. Danni gravi hanno subito le arginature del F.Brenta nella zona di rispetto delle briglie.

Attualmente l'argine sinistro presenta squarci profondi attraversanti tutti il corpo arginale che occorre immediatamente riparare onde evitare che piene, anche modeste, possano incanalarsi ed inondare vasti territori in sinistra del corso d'acqua. Nell'arginatura destra ci sono crateri che interessano buona parte del corpo arginale menomandone notevolmente la sua resistenza. Il materiale proiettato dalle esplosioni col = pite ha interessato completamente anche il mandracchio della conca di navigazione di Strà interrompendo la navigazione dell'importante idrovia Venezia-Padova.

Per il ripristino delle arginature si prevede di prelevare una parte del materiale occorrente dalle golene del Brenta e sterrando il mandracchio della conca ed una parte da cave in campagna.

PERIZIA N. 302 IMPORTO DEI LAVORI DI PRIMO IMPIANTO PER LA RIPARAZIONE SOMMARIA DELLE ARGINATURE DESTRA E SINISTRA DEL F. NOVISSIMO DANNEGGIATE DA SOTTRAZIONI DA PARTE DEI MILITARI GERMANICI. - IMPORTO LIRE ~~500.000.=~~ 481.000. =

=.=.=.=.=

R E L A Z I O N E

Per la costruzione di trincee, fortini, fosse anticarro il Comando Militare Germanico aveva manomesse le arginature destra e sinistra del F. Novissimo, con escavi nel corpo arginale e sulle scarpate degli argini, talvolta di ampiezza rilevante, che costituiscono un grave pericolo in caso di piena del fiume.

Occorre ora provvedere subito a colmare, sia pure parzialmente, tali escavi onde impedire che le acque di piena possano provocare sifonamenti o rottura degli argini attraverso i quali le acque invaderebbero estesi territori di bonifica di rilevante produzione agraria compromettendo i raccolti indispensabili per l'alimentazione.

Declassified E.O. 12356 Section 3.3/NND No. 785019

ALLEGATO N. 302 OGGETTO: LAVORI DI PRIMO INTERVENTO PER LA RIPARAZIONE SOMMARIA DELLE ARGINATURE DESTRA E SINISTRA DEL F. NOVISSIMO DANNEGGIATE DA INCURSIONI DI PARTE DEI MILITARI GERMANICI. - IMPORTO LIRE ~~500.000.==~~ 421.000. =

-.-.-.-.-

R E L A Z I O N E

Per la costruzione di trincee, fortini, fosse antiaeree il Comando Militare Germanico aveva manomesse le arginature destra e sinistra del F. Novissimo, con escavi nel corpo arginale e sulle scarpate degli argini, talvolta di ampiezza rilevante, che costituiscono un grave pericolo in caso di piena del fiume.

Occorre ora provvedere subito a colmare, sia pure parzialmente, tali escavi onde impedire che le acque di piena possono provocare sifonamenti o rotture degli argini attraverso i quali le acque invaderebbero estesi territori di bonifica di rilevante produzione agraria compromettendo i raccolti indispensabili per l'alimentazione.

Si è pertanto predisposta l'unita perizia dell'importo di Lire 530.000.== nella quale si prevede di eseguire in economia i lavori col solo impiego di mano d'opera e con mezzi locali di trasporto per il prelievo e posa in opera della terra occorrente.

3329

Nella perizia stessa si è sommariamente indicato con schizzi la forma e le dimensioni delle manomissioni da sistemare, =

TO: Magistrato alle Acque
Capo Compartimento U.S.V.S., VENICE and BOLZANO

SUBJECT: Projects commenced under Fascist Government

FILE No: RXII/PWU/1.1

1. It is understood that during the German occupation of Northern Italy, the Fascist Government initiated many public works projects which were not completed when the Allied Armies entered the territory.

2. These unfinished projects were suspended due to the freezing of credits by the Allies.

3. Before the Genio Civile can recommence these works they will have to submit projects for their completion and obtain the Regional Engineer's approval.

4. The Genio Civile when preparing such projects will have to submit a copy of the original estimate, showing:

a) How much of the work has been done.
b) The amount of money expended up to the time of suspension.
c) The amount of work remaining to be done to effect completion.
d) Name of Contractor employed.
e) Copy of Contract.

5. These projects, along with the present status of the Contractor, will be carefully reviewed. If completion is considered necessary, due to war damage, and to life of the community, they will be approved, and a fresh Contract made by obtaining fresh tenders if necessary.

6. Please instruct all concerned under your jurisdiction.

I. Herewith one copy for your retention of estimates submitted by Genio Civile of Rovigo, Padova, Este for urgent work that it was necessary to carry out without delay in order to prevent flooding and for which you sent signal of approval, eg.

Province	Type of work	Estimate
ROVIGO	Repairs to Embankments of Rivers Adige and Po	L. 5.000.000.=
PADOVA	Repairs to Embankments of River Brenta and Canals	" 2.800.000.=
ESTE	Repairs to Embankments Rivers Adige, Brenta and Canals	" 20.000.000.=

2. These have been approved by myself and the Regional Commissioner.

W. KNIGHT, Major
Regional Engineer

15 MAY 1945 076

12 May 1945

TO : Public Works & Utilities Sub-Commission, Headquarters Allied Commission.

SUBJECT: Italian Personnel

FILE No: RXII/PWU/17.1

1. Reference your letter 078/V.E./1/PWU dated 2 April 1945.

I did not reply to this immediately as I desired to find out first hand if the personnel who were in the appointments mentioned were still in office and if they showed willingness to co-operate.

A. MAGISTRATO ALLE ACQUE

1. I have been to the office of the Magistrato alle Acque and saw the President Dott. Lelio Waldis, and Inspector Generals Ing. Francesco Meloni, Ing. Guido Sacchi, Ing. Giulio Pancini. They appear to show every willingness to co-operate and answered all questions I put to them without hesitation.

2. I attach a copy of the officials dependent on the Magistrato alle Acque and the names of the Genio Civile of each Province.

3. You will note that the Head is a President and that the Office of Inspector General is not dependent on one official but is divided into five zones with an Inspector General over each.

4. I consider that it would be unwise to make any change at present unless certain of these officials are known active Fascists.

B. CAPO COMPARTIMENTO of the SPECIAL OFFICE of GENIO CIVILE.

1. On visiting this office I found that certain officials had been promoted and that the Capo Compartimento was not the one given me by the Italian Ministry of Public Works.

331

Declassified E.O. 12356 Section 3.3/NND No. 785019

Dott. Ing. Francesco Venier whose name was given as Capo Compartimento was promoted by Bonomi in July 1944 to Inspector General. Ing. Marcello Farino who was Principal Engineer was at the same time promoted to Capo Compertimento.

2. I have not yet formed any opinion of these officials but I think it would be best to see whether they cooperate willingly.

3. Dott. Ing. Venier gave me the set up of the Special Office of Genio Civile which is attached.

4. I await to hear whether or not it is decided to leave the officials as they are or whether the officials named in your letter are being sent up by the Italian Ministry of Public Works to take over.
