19 November 1945

SUBJECT: Assignment of Road Material to Venezia

TO : Ing. Luigi Ferretti, Chief Engineer
Ministry of Public Works

1. Reference your letter 379/2, dated 17 November.
2. You have had all the crushers and asphalt kettles that have been issued to the Highway Equipment Division transferred to you on permanent receipts and, therefore, may move any of them that you have to any location you may choose. This requirement from Venezia has been brought to my attention also by our Headquarters, Maj. Hyland, who is very anxious that Venezia be supplied with them.
3. It is suggested that you send one of the primaries and one of the secondary crushers idle at Florence at this time and which has been idle for several months together with a large group of asphalt kettles to Venezia. Such transfer will not be made by this Office, but will be made by you between your Chief Engineers, U.S.V.S. It will be, however, appreciated if this Office may be kept informed of the correspondence and subsequent movement of the equipment.

F. C. GRIFFITH
Highway Equipment Officer
Public Works & Utilities S/C
