SUBJECT: Charges to Public Works Messina

TO : Director of Public Works
W 2 Allied Commission ROME
Attn. Chief Public Works Division
Lt. Col. Thomson R C E

1. Referring to the debit vouchers issued against Public Works Messina which are still outstanding (Your letter 078/SI/1/PWU dated 2 Feb. 45 Refers) the following are the facts so far as can be ascertained here.

2. The 275 Works Section F.E. released on hire to Public Works Messina, stone crushers, cement mixers and steam roller for road construction repairs. These repairs were carried out under the direction of Major Gamble, Highways Officer Sicily, who received the necessary documents.

3. The repairs to the roads were originally planned by Public Works Officer Messina, to be completed without mechanical equipment. On the urgent demands of Major General G.E.D. Whitfield Officer Commanding 40 Div. (B.R.), through the D.C.R.E. and Provincial Commissioner, the loan of equipment to civilian contractors was arranged, so that work might be completed in the shortest possible time.

4. All documents, with the exception of a few personnel notes, were despatched to Regional Engineer Palermo relating to Public Works Messina and details should be available in that Office.

5. To assist in the investigation, however, it is believed that the debit vouchers in question, refer to the hire of equipment by contractors for repairing State Roads through and near Messina; the works being carried out during the 3 months, the vouchers were issued. From personnel notes available here, the following contractors were employed on this work.

It is not known which of these contractors were responsible on the various dates for the equipment as the Public Works Officer Messina had been posted away to a new assignment before the final accounts were available; the equipment was being moved from place to place under different contractors.

7. It is suggested that Ing. Capo Chersi Genio Civile Messina be asked to furnish complete details of all military equipment hired, and materials purchased from military authorities to A.M.S. contractors during the period in question.

8. As far as can be recalled at this time, no other military equipment or stores were involved; but naturally it is impossible to be certain, without reference to documents.

9. The contractors named were responsible for honouring the vouchers through A.M.S. Finance Officer Messina and Genio Civile whether or no the list given is correct, is impossible to state without checking.
