Subject: P.O.L. Military Contractors.

To : Regional Commissioner, Sicily.
(Att: Regional Engineer).

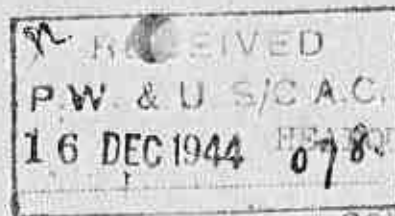

Reference your RTC 463 dated 6 December 1944.

1. The questions raised in your letter with reference to the difficulties encountered in the handling of P.O.L. for military contractors have been referred to P.O.L., Section, Commerce Sub-Commission for comment.

2. Attached is copy of letter received from Commerce, in which the status is clarified. This letter should be discussed with the A.C. Officer who is in control of petrol so that they may have the benefit of the interpretation by Commerce as outlined in para.3 .

1. Your 078/SI/8/PWU of 13 December 1944 refers.
2. Unfortunately Regional Engineer Sicily does not give any details so it is only possible to answer the implied query in general terms as under .
3. AFHQ Admin Memo No 49 of 24 November 1944 and POL Instruction No 2 apply in Sicily as elsewhere and should there be contractors working on Military Projects whether employed by the Military or by AC, as therein defined they should obtain POL from CIP on coupons which do not count against Civilian Supplies.
4. So far as is known however the only demands on this a/c for December are likely to be 10 barrels authorised by 70 Sub Area. It is understood that your Sub-Commission has information as to which works being undertaken by AC are and which are not Military Contracts.

SUBJECT : Petrol.

TO : Public Works and Utilities Sub-Commission.

1. Reference is made to Administrative Memorandum N. 49 of A.F.H.Q. dated 24 November 44. para 7 b, sub paras (1) and (2) which read:

"(1) The requirements of contractors even when working under Allied Military instructions will normally be covered by the allotment made for civil use as in paragraph 5 (d) above. This applies in particular to requirements in respect of services which are normally performed by the State or local authorities such as repairs to and maintenance of existing roads, bridges etc. and also public utilities.

(2) As an exception to this rule, additional quantities may be released when the work being carried out is due solely to the needs of the Allied Military Forces, will cease with the withdrawal of the said forces, and is or forms part of a service the cost of which is a legitimate charge against U.S. or British account. Only under these circumstances will contractors be deemed to be working "on Allied Military account."

2. The A.C. officer controlling petrol in this Region submits that all works on Military Highways in Sicilia Region are not covered by this memorandum and that therefore no supplementary coupons can be issued.

3. May I have your views please.

For the Regional Commissioner.
