*Pls look into this and see
 if Region can get authorization
 for it*

Form ACC/R N°I was submitted on August 21 and approved by this office & forwarded to your office.

Since then nothing has been heard from you with respect to this project but owing to its importance the contractor has proceeded. He has borrowed 200 qls of cement and will need 100 qls to complete the project which we will make request for.

There seems to be something irregular about this as no contract should have been made without authorization but as the work was in the interest of the Allied Government and vitally necessary I would like to have the approved form returned so as to complete the record.

In the meantime I am going to try to complete the project somehow. The total amount of contract is 790.000 lire.
