SUBJECT : Tyres for Genio Civile transport

FILE NO : RA/ENG/17(c)1

Reference conversation Lt.Col. Thompson/Maj. Evans.

1) Genio Civile - Ispettorato Lazio Umbria has taken into service Fiat 508 Car No 43978 Roma, in replacement of a car previously used and now beyond repair both mechanically and tyres.

2) The new car has no tyres and it would be appreciated if four tyres could be released for it from the stock held by Genio Civile-Roma to the orders of Lt.Col. Thompson RCE.

SUBJECT : Tires for Civilian Contractors

REF. : R4/ENG/509.B/8

1. Attached is a list covering the six most active contractors on high Priority Military jobs, whose activities are badly curtailed by lack of tires for equipment otherwise in perfect operating condition.

2. Ownership of these vehicles has been verified and the title to each found to rest in the Firm under whose name it appears.

3. In the case of statistical data under the Firm Società Generale Immobiliare does not show definitely the vehicle on which the tires will be used. However, this is an operating detail which can be left to this responsible Firm to decide the most efficient disposition.

4. This information is offered with a view toward the most equitable distribution of the first allocation of 50 tires. All of the major contractors equipment will be processed in the same manner and the findings forwarded for your information.

Sig. CAPT. W. GENTR J

N	DC	OGGETTO: Richiesta di altri 6 vagoni occorrenti per il trasporto di macchinario necessario per i lavori di ricostruzione del Ponte S. Giovanni a Perugia.
---	----	---

Alla nostra Impresa sono stati assegnati n. 10 vagoni ferroviari con il Suo benestare, di cui vivamente ringraziamo, per trasporto da Roma (Scalo S. Lorenzo) a Bastia (Perugia) della attrezzatura e dei macchinari occorrenti per la ricostruzione del Ponte S. Giovanni presso Perugia.

Dei 10 vagoni assegnati, 6 sono già partiti e 4 sono pronti per la partenza.

Avendo però intanto la nostra Impresa avuto incarico dal Comando del 52 C.R.E. di Perugia di preparare ~~ixix~~ le opere occorrenti per lo spostamento del Bajlej Bridge, onde accelerare al massimo l'impianto del cantiere, ci necessitano altri n. 6 vagoni, per cui la preghiamo del suo benestare.

Detti vagoni ci occorrono per trasportare i seguenti materiali, non compresi nella nota inviata il 31.1.945.

Binario Decauville	ml; 1200	Kg. 32.400.-
Scambi per binario	n. 6	" 4.200.-

27 JAN 1945 018

25 January 1945

TO : HQ. Lazio Umbria Region

SUBJECT : Military Roads (Transport)

IN REPLY QUOTE. R4/RMC/509

1) Chief Engineer No 1 District has already handed over to Regional Engineer responsibility for certain main roads or Portions thereof and on 20th Jan a further letter was written to me asking me proposing to hand over forthwith practically all roads except PERUGIA - Città di Castello.

There are at present employed in TERNI Province 30 Military Trucks 2 to 3 ton capacity and in PERUGIA province about the same.

So 60 trucks will be necessary for these roads when Military Transport is withdrawn which they desire to do as soon as possible and may have to do so should Military situation dictate. -

Work in hand is increasing and local contractors have no transport and so far we have introduced a few outside contractors with very limited transport. If we get 10 trucks from these sources we will be fortunate.

2) In my R4/RMC/200 dated 26 Dec 1944 I asked Transportation Region Lazio & Umbria whether he would be able to supply 60 trucks. The reply mt./2940/12 dated 29 Dec 1944 stated it was a matter for the Provinces concerned. -

TERNI has replied "Definitely NO".

PERUGIA has NOT yet replied formally but from verbal enquiries are in same position. -

3) Please put in a demand for 50 trucks for Military Roads in UMBRIA to be made available within 14 days and required for 3 months.

TO : Col Tompson
Allied Control Commission - ROME

Our Society is one of the Enterprises performing the mural works of the Terni "Stabilimento della Società Anonima della Gomma Sintetica" and had no financial or other kind of interference with it, unless for a regular and normal contract of works.

None of the financial groups and of the technical organs of the Società Anonima Gomma Sintetica has any interest or relation whatever with our Society, excluding the ones deriving from the execution of the above contract.

On the 14th inst. our Enterprise has contracted for the construction of a five span bridge on Peglia River on the road Umbra-Casentinense, and has actually in hand several road reconstruction works in Grosseto, Viterbo and Aquila Provinces and is now contracting for several and important other works also of military Utility.

In fact, our Enterprise has put itself at the disposal of the Allied and National Authorities in order to collaborate with them for all civil and military needs.

In retaking our activity we had reckoned on the means and materials still left after all what the Germans had taken away and requisitioned. Unfortunately the greatest part of our machinery which had remained in the enclosure of the "Stabilimento della Gomma Sintetica" has been taken away by units of the VIIIth Army and it has been impossible to revoke this requisition, perhaps because this Unit has taken the decision of having no whatever regards towards the "Soc. Anon. Industria Gomma Sintetica" and, without any reason, applies towards us dispositions provoked by the behaviour of the above Society.

No favourable decision has been taken towards us, not taking into consideration the new situation created by the new and important works contracted by us as f.i. the bridge on the Peglia, which evidently requests a great quantity of material and machinery on account of the urgency and the short time allowed to us for the performing of the above.

We beg for a quick intervene on your part towards the Unit occupying the "Stabilimento" for the prompt unblocking of all that remains, returning to us what has been taken away.

SOCIETA' IMPRESE INDUSTRIALI

in Milan

Major Bouchard.

This man is the contr. for the bridge at Orvieto.

He says that Col Owen will not release him

expt. without authy of District.

Can you help to straighten this out.

Società Imprese Industriali,
Cantieri Gomma Sintetica, TERNI.

Copy to : - 52 CRE Works

With reference to the visit of your representative this morning, I have agreed to the release of the undermentioned machinery, equipment and materials from the Gomma Sintetica Factory, TERNI, on the following conditions only:-

1. That they are employed solely in the reconstruction of the FACILIA Bridge (Ponte dell'Adunata) at ORVIETO and for the working of your brickworks at CHIUSI.
2. That on completion of these works, the machinery and equipment may be requisitioned by His Majesty's Government for other works of military importance.
3. That they are not sold, or in any way disposed of by you.
4. That any breach of the above conditions renders you liable to prosecution.

Decauville Locos	4 No.
Block & Tackle	6 No.
Concrete Mixers	6 No.
Cutters, sheet metal	3 No.
Lathe	1 No.
Oxy-Acetylene Welding Set	1 No.
Hacksaw	1 No.
Electric Drill	1 No.
Bits	5 No.
Circular Saw Blades	4 No.
Benches, for Circular Saws	4 No.
Handsaw	1 No.
Mortar Mixers	2 No.
Weighing Machine	1 No.
Elevators	2 No.
Conveyor for Cement (with two arms)	1 No.
Tower Beam	1 No.
Beams	15 No.
