7 September 1944

TO : Regional Commissioner Region IV.

SUBJECT : Fuel for September (2 copies)

IN REPLY QUOTE: RA/WHG/58/51

1. Two demands for Petro, Oil, Lubricants were submitted for month of September.

- (a) Rome Governatore
- (b) For remainder of Region IV (old Region IV. Engineering)

Both have been very drastically cut.

2. Rome Governatore Demand.

This has been dealt with fully in 5A/WHG/1500/58.1 dated 31 August 1944 to Regional Commissioner, copy to Petrol Section ACC.IV. and P.W. Sub-Commission ACC.--

Even if all works were stopped it would entail curtailment of Electricity Power Plant, Water Supply and ~~Communication~~ Vehicles; the inadequate position of all is known to you and further reduction would be very serious indeed both to Military and Civil needs.--

3. Remainder of Region.

The cut here is to 39% of Petrol. Prior to submitting demand advance information was received that Petrol for Military roads would be refunded; on receipt of detailed instructions ACC/5146/Com. of 10 August 1944 the position was reviewed and a larger proportion of Petrol than allowed for was chargeable to this head which partly offsets ^{this} cut. 260

An additional 24,000 litres of Petrol would be sufficient and 14,000 litres would, with curtailment of commencing ^{new} work largely Bridges and house repairs, ~~would~~ avoid delays to work at present in hand.

If no additional allotment can be made it will be necessary
