To: H.Q.P.W.&.U.

The above 3 projects 90-91+92 are"single item" estimates prepared at very short notice by Engineers of Port of Genoa on instructions by telegram from Minister of Public Works to submit a further project for 100.000.000 lire before this office closes.

They concern the dismantling and rebuilding of lengths of quay wall damage by bombing and are similar in every respect to projects 45 and 46 authorised in July and now let out to contract.

The cost of this work is coming out at approx. 40.000 lire lineal metre.

There was insufficient time to prepare more detailed projects so in each case the estimate is submitted as under:

90	Ponte Rubattino	65 Metres	a 40.000/Lin. mtrs	2.600.000
			+ %	100.000
				2.700.000

REF : LIG/PW&U/2

SUBJECT : Tariff on Auto-strada.

TO : Director, Public Works & Utilities Sub-Commission
H.Q. A.C. APO 394

I. Reference our letter LIG/PW&U/2 I2th July I945, and further to our recent conversation with Lt. Col. Spann, enquiries have been made as to the basis on which the increased tariff has been based. The General Inspector Genio Civile states that the increases shown on the enclosed list of rates "A" are in accordance with the new rates fixed on the State Railways and that he has received authority from the Ministry of Public Works to put them in force.

2. A copy of the previous tariff is also attached "B" for information.

Ohly.

Have gone into this project and the story is entirely different from any idea I have had or understood.

I have told Trezise that our writs for Conroy, (Tyler Ark Com Rep. has under Ore Plant) and the attorney hired to proceed at once. Roebuck and Turner are complete except one section and roads are to be laid. There is a double-track started in 1918 and is essential and the cost is reasonable.

Please ask the Col to approve and release at once.

I have had no understood.

I have told Colonel the one with Capt Conroy. (Capt Burk Com Rep. has under Col Flint) and the authorities with proceed at once. Roadbed and ties are complete, except one section, and rails are to be laid. The line is a double-track standard in 1918 and is essential and the cost is reasonable.

Please ask the Secty of Commerce and return at once.

Yours

19th July 1945

REF : LIG/PW&U/490

SUBJECT : Project Financing

TO : Director, Public Works & Utilities Sub-Commission
A.C., H.Q., APO 394.

I. Reference your C78/LI/I/PWU dated 7th July 1945, the following steps have been taken in our endeavours to obviate the difficulties experienced in getting projects financed during the latter stages of our work in Tuscany.

2. (a) As from this date projects over one million lire for Lucca and Apuania will be sent to you by hand, and so obviate postal delays.

(b) Forms ACI for projects costing between 200,000 and 1,000,000 lire concerning bridges etc. which require your technical approval, are processed and transmitted for financing to the province concerned pending the return of plans sent to you for examination.

(c) As previously, Provincial Finance Officers receive a copy of "approval letters" for all approved projects under one million lire cost, together with a copy of the relative ACI from this office, also a copy of the approval letter for all projects approved by your H.Q. for which ACI is transmitted by you direct. I. Reference your C78/LI/I/PWU dated 7th July 1945, the following steps have been taken in our endeavours to obviate the difficulties experienced in getting projects financed during the latter stages of our work in Tuscany.

2. (a) As from this date projects over one million lire for Lucca and Apuania will be sent to you by hand, and so obviate postal delays.

(b) Forms ACI for projects costing between 200,000 and 1,000,000 lire concerning bridges etc. which require your technical approval, are processed and transmitted for financing to the province concerned pending the return of plans sent to you for examination.

3. Regarding the final sentence of your letter under reply, it is to be regretted that the rapid movement of Provincial Finance Officers (in one case even before the date on which the province was handed over) and the lack of appreciation of the position by the Regional Finance Officer when he instructed us that the projects received by this division prior to closing date could and would be financed, caused such unnecessary

ALL ' A.M.G. Ingegnere Regionale

G e n o v a

In relazione al colloquio avuto in argomento coll'Ingegnere Regionale Sig. Col. Lee sottopongo a Costesto Governo Militare la proposta di aumento delle tariffe dei biglietti di transito (civile) sull'autostrada Genova-Valle del Po.

Detta tariffe sono ancora quelle stabilite il 16 marzo 1937 e risultano dall'unito allegato.

Per contro le spese sono in auesti ultimi anni enommemente aumentate per cui il grave disavanzo di gestione rende necessario l'aumento delle tariffe che analogamente a quanto hanno disposto dal 1937 ad oggi, altri Enti di Trasporti pubblici (Tranvie e Ferrovie) dovrebbero elevarsi al quadruplo delle attuali.

Prego Cotesto Governo di esaminare la proposta e resto in attesa del nulla osta.

With reference to the conversation we had the honour of having with the Col. Lee (Regional Engineer) I beg to submit a proposal for a rise in the fares for civilians on the Motor Roads Genoa/Po Valley.

The fare in question are those established since the 16th March 1937, as per annexed note.

On the contrary during the last few years, all expenses have tremendously increased, thus the deficit of our administration is very serious. A Rise in the fares is obviously necessary: all other Transport Concerns have done this since 1937. Our fares should be fixed at a level 4 times higher than they are today.

We respectfully ask the A.M.G. to consider the position and to authorize the rise we are speaking of.

1. Reference is made to outstanding projects in Lucca and Apuania Provinces, on which financial approvals have not been completed. As you known from your Regional Commissioner it is rumoured that these two Provinces will be returned to Italian Government control after July 31.

2. Please have the status of all projects in those Provinces checked as to finances in order that no confusion will exist at the time of the turnover, and so allow essntial work to continue without interruption. The financial status of 427 projects in the remainder of Toscana Region is pending at present due to failure to get approvals from Provincial and Regional Finance Officials. Prompt action as indicated above will avoid a repetition of this situation.
