13 Dec. 1944

Dear Mr. Cipollone,

Your letter of November 7th making inquiry as to the possibility of the reconstruction of the hospital at Lenciano in Chieti Province had been sent to another office inquiring as to the proper procedure and has just been returned to me. I am advised that, since Chieti Province is now in Italian Government Territory and, since we have relinquished all control over public buildings requiring no critical materials from the Allies, to the Ministry of Public Works, your letter has been forwarded to the Minister of Public Works for such action as he may deem necessary to take in connection with his reconstruction program.

With kindest regards,

Most cordially yours

L.A. JENNY,
Lt-Colonel, C.E.,
Director.

Signor Umberto CIPOLLONE,
Via A. Brofferio, 3,

R O M E

TO : Public Works and Utilities S.C. (Col. Thompson)
SUBJECT : Public Works projects in Ancona and Pesaro Province.
FROM : Regional Engineer ABRUZZI MARCHE REGION
REF : 516/1
DATE : 26 November 1944.

1. Confirming telephone conversation with Capt. Freedy today - it is requested that information be obtained clarifying situation regarding projects now going on in Ancona and Pesaro Provinces.
2. Projects needing Financing have never been submitted for approval. In many cases they are military projects requiring A.C. approval for expenditure from L.600.000.000 fund.
3. According to wire from A.M.C. 8th Army to Prov. Finance Officer copy herewith some body in Rome, possibly Finance Sub-Commission has issued orders contrary to those given this office regarding financing these projects.
4. I am sending a copy of the P.F.O.'s letter for your information.
5. In view of the urgency of the case your early attention is requested.

Where is this copy?

To : Public Works and Utilities Sub-Commission

1. Reference:

- a) Our letter 31 October 1944 (AGR 501.4)
- b) Your letter 1 Nov. 1944 (ACC/109/PWU)

2. We are enclosing an estimate of cost prepared by the Genio Civile for the repair of the port at San Benedetto del Tronto.

3. If the port could be used as in the past fish production would be increased to such an extent as to help feed recently liberated areas further north on the Adriatic, where fisheries activities are necessarily restricted on account of naval warfare, and cities in the inland.

31 October 1944

SUBJECT: Fishing Survey Northern Adriatic.

To : Public Works Sub-Commission.

1. San Benedetto del Tronto before the war was one of the most important fishing centers in Italy. This not only because of its proximity to very rich fishing grounds in the Adriatic but also because of its development in motor and sail boats and equipment.

2. In its retreat the enemy left in its wake heavy damages to the port itself and to the nearby market.

3. At present it is difficult for motor fishing schooners to take refuge in the port because the breakwater wall was mined at several points. As result the fishing boats have moved south.

4. It has been estimated that it would take from seven to ten million lire to repair the damages at the sea wall and at the market. The Genio Civile of the locality has been requested by fishing interests of San Benedetto to give an accurate estimate.

5. This Sub-Commission strongly recommends that the repairs be effected and it desires to know what procedure to take to get the project approved once the final estimate of cost is completed.

2 Nov. 1944

Subject: Public Works, Ancona Docks.

To : Senior Finance Officer, 8th Army.

1. Complaint has been registered by HQ.A.A.I. that AMG has ruled that payment for works to harbors occupied by the Allied Navies are not the responsibility of the Civil authorities. Specifically the complaint deals with the moles known as Molo Clementino and Molo Nord at Ancona Docks.

2. It is understood that a contract has been placed by CRE with Ing. Marcello Chiodoni, Via Palestro 2, Ancona, in the sum of 1,099,601 lire: Contract N° 20/W/2 dated 20 Sept. 44.

3. Information has been furnished this headquarters that the work in question concerns commercial installations in the harbor and therefore are a proper charge to civil authorities. Such work is handled by Genio Civile.

4. On the basis of the data above, financing of the work should be done through Genio Civile by credits established in favor of that Ente. If practical the Genio Civile should prepare S.B. forms covering projects carried on under its direction.

By Command of Commodore STONE,

Joint Director,
Finance Sub-Commission.
