Date: 21 June 1944

SUBJECT: Repair of Overpass on Route S.P. III, junction  
Donnici-Quaresima Road.  
TO: Director Public Works and Utilities Subcommittee,  
Hq. A.C.C. (Attention Lt. Col. Thompson.)

*File*

1. I have this date inspected the overpass located at Z004738, (S. Italy Grid) at the junction of S.P. III, Donnici-Quaresima Road in the province of Cosenza.

2. I find a well constructed temporary wooden bridge on this overpass. There is no diversion and no danger of flood damage to the bridge. The width of the bridge is the same as that of the road. The 800th Engr. Bn. (A) has been running 15 ton. Caterpillar tractors over the overpass all winter long and are satisfied with the temporary structure.

3. I recommend that no work be done on this project.
