HQC/6

SUBJECT: Heating of HQ, AC Building.

TO : Director, Public Works & Utilities Sub-Commission.

1. Reference my letter HQC/6 of 30 October and your reply thereto reference ACC/101/PWU, dated 31 October 44, I have to inform you that your suggestion has been accepted and the work will be carried out by direct labor. An oxy-acetylene welding apparatus has been purchased and the Finance Sub-Commission Has agreed that Sig. DeLuca should be financially recompensed for the added duties and responsibilities entailed in carrying out this work.

2. It would be very much appreciated if you would be so good as to offer any technical advice and supervision necessary to the satisfactory completion of this work. In the meantime, your help has been appreciated, and the thanks of this Section are tendered.

SCHEMA DI DECRETO LEGISLATIVO LUOGOTENENZIALE

Soppressione del Governatorato di Roma e nuova disciplina giuridica dell'amministrazione comunale della Capitale

UMBERTO DI SAVOIA PRINCIPE DI PIEMONTE
LUOGOTENENTE GENERALE DEL RE

In virtù dell'autorità a Noi delegata;

Visto il Decreto Legge Luogotenenziale 25 Giugno 1944,n.151,concernente l'Assemblea per la nuova costituzione dello Stato,il giuramento dei Membri del Governo e la facoltà del Governo di emanare norme giuridiche;

Visto il Regio Decreto Legge 30 Ottobre 1943,n.2/B,sulla sospensione delle norme relative alla emanazione,promulgazione,registrazione e pubblicazione dei Regi Decreti e di altri provvedimenti;

Visto il Regio Decreto Legge 4 Aprile 1944 n.111,che detta norme transitorie per l'amministrazione dei comuni e delle provincie;

Visto il Testo Unico della legge comunale e provinciale,approvato con Regio Decreto 3 Marzo 1934,n.383;

Visto il Testo Unico della legge comunale e provinciale,approvato con Regio Decreto 4 Febbraio 1915,n.148;

Vista la deliberazione del Consiglio dei Ministri;

Sulla proposta del Ministro per l'Interno,di concerto con il Ministro per il Tesoro e con il Ministro per i Lavori Pubblici;

ABBIAMO SANZIONATO E PROMULGHIAMO QUANTO SEGUE:

Art. 1

Il titolo VIII del Testo Unico della legge comunale e provinciale,approvato con Regio Decreto 3 Marzo 1934,n.383 nonchè il Titolo VIII del Testo Unico delle leggi sanitarie,approvato con Regio Decreto 27 Luglio 1934,n.1265,relativi al Governatorato di Roma,sono abrogati.

Salvo quanto è disposto dagli articoli seguenti,al comune di Roma si applicano le disposizioni del testo unico della legge comunale e provinciale approvato con R.D.4.2.1915,n.148 e successive modificazioni e aggiunte.

Art. 2

Le deliberazioni dell'amministrazione comunale,escluse quelle relative alla mera esecuzione di provvedimenti già adottati e perfezionati,devono

Declassified E.O. 12356 Section 3.3/NND No. 785019

In virtù dell'autorità a Noi delegata;

Visto il Testo Unico della legge comunale e provinciale,approvato con Regio Decreto 4 Febbraio 1915,n.148;
Vista la deliberazione del Consiglio dei Ministri;
Sulla proposta del Ministro per l'Interno,di concerto con il Ministro per il Tesoro e con il Ministro per i Lavori Pubblici;

ABBIAMO SANZIONATO E PROMULGHIAMO QUANTO SEGUE:

Art. 1

Il titolo VIII del Testo Unico della legge comunale e provinciale,approvato con Regio Decreto 3 Marzo 1934,n.383 nonchè il Titolo VIII del Testo Unico delle leggi sanitarie,approvato con Regio Decreto 27 Luglio 1934,n.1265,relativi al Governatorato di Roma,sono abrogati.
Salvo quanto è disposto dagli articoli seguenti,al comune di Roma si applicano le disposizioni del testo unico della legge comunale e provinciale approvato con R.D.4.2.1915,n.148 e successive modificazioni e aggiunte.

Art. 2

Le deliberazioni dell'amministrazione comunale,escluse quelle relative alla mera esecuzione di provvedimenti già adottati e perfezionati,devono essere trasmesse in duplice copia al Prefetto. 135
Il Prefetto munisce di visto di esecutività le deliberazioni che non siano soggette a speciali approvazioni,semprechè le riconosca regolari.
In caso contrario può pronunciarne l'annullamento per motivi di legittimità.
Indipendentemente dal visto di esecutività,le deliberazioni per le quali non sia richiesta speciale approvazione,autorizzazione o parere,diventano esecutive dopo trascorsi dieci giorni da quello in cui sono pervenute alla Prefettura,senza che questa abbia comunque interloquito

Declassified E.O. 12356 Section 3.3/NND No. 785019

E' in facoltà del Prefetto di richiedere, quando lo ritenga opportuno, la trasmissione anche delle deliberazioni relative alla mera esecuzione di provvedimenti già adottati. In tal caso di applicano a dette deliberazioni le norme di cui ai comma secondo, terzo e quarto del presente articolo.

Sono immediatamente esecutive le deliberazioni non soggette a speciali approvazioni, quando la maggioranza dei due terzi dei votanti dichiari che vi è evidente pericolo o danno nel ritardarne l'esecuzione.

La trasmissione di cui al primo comma del presente articolo è fatta entro otto giorni dell'adunanza e in nessun caso prima che le deliberazioni siano state affisse all'albo pretorio, in conformità dell'art.128. del T.U. della legge comunale e provinciale approvato con R.D.4 Febbraio 1915, n.148.

Art. 3

Sono sottoposte all'approvazione del Ministro dell'Interno le deliberazioni che riguardano i seguenti oggetti:

1°) Spese vincolanti il bilancio per oltre 5 anni;
2°) liti attive e passive e transazioni per un valore eccedente le lire un milione;
3°) alienazione di immobili, di titoli del debito pubblico, di semplici titoli di credito e di azioni industriali, quando il valore del contratto superi la somma di lire un milione, nonchè la costituzione di servitù e di enfiteusi, quando il valore del fondo ecceda la somma suddetta;
4°) locazioni e conduzioni di immobili oltre i 12 anni, quando l'importo annuo della locazione o conduzione superi la somma di lire 100.000;
5°) assunzione diretta di pubblici servizi;
6°) piani regolatori edilizi e di ampliamento;
7°) regolamenti di uso dei beni comunali, di igiene, edilità, polizia locale e quelli concernente le istituzioni che appartengono al Comune;
8°) ordinamento degli uffici e servizi e regolamenti concernenti il trattamento economico e lo stato giuridico del personale.

Art. 4

Le opere pubbliche del comune si eseguono in base a progetti compilati dall'ufficio tecnico.

Quando la specialità dell'opera lo renda necessario, la compilazione dei progetti può essere affidata, mediante apposita deliberazione, a professionisti privati. L'incarico di progettazione

1382

Declassified E.O. 12356 Section 3.3/NND No. 785019

[illegible] delle adunanze e in nessun caso prima che le delibera-
zioni siano state affisse all'albo pretorio, in conformità dell'art. 128
del T.U. della legge comunale e provinciale approvato con R.D. 4 Febbraio
1915, n. 148.

Art. 3

Sono sottoposte all'approvazione del Ministro dell'Interno le delibe-
razioni che riguardano i seguenti oggetti:

1°) Spese vincolanti il bilancio per oltre 5 anni;
2°) liti attive e passive e transazioni per un valore eccedente le
lire un milione;
3°) alienazione di immobili, di titoli del debito pubblico, di sempli-
ci titoli di credito e di azioni industriali, quando il valore
del contratto superi la somma di lire un milione, nonchè la costi-
tuzione di servitù e di enfiteusi, quando il valore del fondo ec-
ceda la somma suddetta;
4°) locazioni e conduzioni di immobili oltre i 12 anni, quando l'im-
porto annuo della locazione o conduzione superi la somma di lire
100.000;
5°) assunzione diretta di pubblici servizi;
6°) piani regolatori edilizi e di ampliamento;
7°) regolamenti di uso dei beni comunali, di igiene, edilità, polizia
locale e quelli concernente le istituzioni che appartengono al
Comune;
8°) ordinamento degli uffici e servizi e regolamenti concernenti il
trattamento economico e lo stato giuridico del personale.

Art. 4

Le opere pubbliche del comune si eseguono in base a progetti compila-
ti dall'ufficio tecnico.

Quando la speciale natura delle opere lo renda necessario, la compila- 1382
zione dei progetti può essere affidata, mediante apposita deliberazione,
a professionisti privati. L'incarico di compilare un progetto non confe-
risce titolo al privato professionista per la direzione e la esecuzione
dell'opera.

I progetti di massima ed esecutivi di opere pubbliche del comune,
d'importo superiore a lire 6.000.000, quando all'esecuzione dei lavori si
provveda con asta pubblica o licitazione privata, ovvero di importo supe-
riore a lire 2.000.000, quando all'esecuzione dei lavori si provveda a
trattativa privata o in economia, devono riportare il parere favorevole
del Ministero dei Lavori Pubblici.

I progetti esecutivi di opere pubbliche d'importo compreso fra lire

Declassified E.O. 12356 Section 3.3/NND No. 785019

2.000.000 e lire 6.000.000, quando all'esecuzione dei lavori si provveda per asta pubblica o licitazione privata, ovvero d'importo compreso fra lire 1.000.000 e lire 2.000.000, quando all'esecuzione dei lavori si provveda a trattativa privata o in economia, devono riportare il parere favorevole ~~di un Ispettore Superiore~~ del Lavori Pubblici.

Non è necessario provocare un nuovo parere per gli aumenti di spesa che si verifichino durante l'esecuzione delle opere, quando l'importo di essi non supera il quinto del preventivo.

Il parere del Ministero dei Lavori Pubblici è richiesto anche quando si tratti di progetti parziali per un'opera, la cui spesa complessiva si prevede superiore ai limiti indicati nel comma terzo e quarto, salvo che costituiscano esecuzione di un progetto di massima già approvato.

Art. 5

I contratti del Comune riguardanti alienazioni, locazioni, acquisti, somministrazioni ed appalti di opere, devono essere preceduti da pubblici incanti con le forme stabilite per i contratti dello Stato.

E' tuttavia consentito di provvedere mediante licitazione privata:

1°) quando si tratti di contratti il cui valore complessivo e giustificato non ecceda le lire 1.000.000;

2°) quando si tratti di spesa che non superi annualmente le lire 200.000 ed il comune non resti obbligato oltre cinque anni, sempre che per lo stesso oggetto non vi sia altro contratto, computato il quale si oltrepassi il limite suddetto;

3°) quando si tratti di locazione di fondi rustici, fabbricati od altri immobili, se il canone complessivo non superi le lire 200.000 e la durata del contratto non ecceda i nove anni.

Si può anche procedere alla trattativa privata, quando il valore complessivo dei contratti non ecceda la metà delle cifre suindicate.

Anche all'infuori dei casi previsti nel comma secondo il Prefetto può consentire che i contratti seguano a licitazione privata, quando tale forma di appalto risulti più vantaggiosa per il Comune.

Può anche autorizzare la trattativa privata, allorchè ricorrano circostanze eccezionali e ne sia evidente la necessità e le convenienze.

Art. 6

Il bilancio di previsione del Comune di Roma è deliberato nei modi e termini di cui all'art. 199 del T.U. approvato con Regio Decreto 4 Febbraio 1915, n 148.

Le deliberazioni del Consiglio Comunale concernenti il bilancio sono pubblicate in copia nell'albo pretorio per otto giorni. Durante lo stes-

Declassified E.O. 12356 Section 3.3/NND No. 785019

di essi non supera il quinto del preventivo.

Il parere del Ministro dei Lavori Pubblici è richiesto anche quando si tratti di progetti parziali per un'opera, la cui spesa complessiva si prevede superiore ai limiti indicati nel comma terzo e quarto, salvo che costituiscano esecuzione di un progetto di massima già approvato.

Art. 5

I contratti del Comune riguardanti alienazioni, locazioni, acquisti, somministrazioni ed appalti di opere, devono essere preceduti da pubblici incanti con le forme stabilite per i contratti dello Stato.

E' tuttavia consentito di provvedere mediante licitazione privata:

1°) quando si tratti di contratti il cui valore complessivo e giustificato non ecceda le lire 1.000.000;

2°) quando si tratti di spesa che non superi annualmente le lire 200.000 ed il comune non resti obbligato oltre cinque anni, sempre che per lo stesso oggetto non vi sia altro contratto, computato il quale si oltrepassi il limite suddetto;

3°) quando si tratti di locazione di fondi rustici, fabbricati od altri immobili, se il canone complessivo non superi le lire 200.000 e la durata del contratto non ecceda i nove anni.

Si può anche procedere alla trattativa privata, quando il valore complessivo dei contratti non ecceda la metà delle cifre suindicate.

Anche all'infuori dei casi previsti nel comma secondo il Prefetto può consentire che i contratti seguano a licitazione privata, quando tale forma di appalto risulti più vantaggiosa per il Comune.

Può anche autorizzare la trattativa privata, allorchè ricorrano circostanze eccezionali e ne sia evidente la necessità e la convenienza.

Art. 6

Il bilancio di previsione del Comune di Roma è deliberato nel modo e termini di cui all'art.139 del T.U. approvato con Regio Decreto 4 Febbraio 1915, n.148.

1938

Le deliberazioni del Consiglio Comunale concernenti il bilancio sono pubblicate in copia nell'albo pretorio per otto giorni. Durante lo stesso termine il bilancio deve essere depositato nella segreteria del comune a disposizione del pubblico.

Il bilancio è approvato con decreto del Ministro per l'Interno di concerto con quello per il Tesoro.

Col decreto di approvazione del bilancio si provvede anche sui ricorsi e sulle opposizioni al bilancio stesso.

Al Ministero per l'Interno, di concerto con quello per il Tesoro, sono demandate le attribuzioni di cui all'articolo 332 del Testo Unico della Legge comunale e provinciale, approvato con Regio Decreto 3 Marzo 1934, n.383 e la determinazione della percentuale delle spese facoltative, anche in deroga al disposto dell'articolo 314 del cennato Testo Unico 4

Declassified E.O. 12356 Section 3.3/NND No. 785019

Art. 7

Le deliberazioni del Consiglio Comunale di Roma concernenti l'assunzione di mutui sono approvate con decreto del Ministro per l'Interno, di concerto con quello per il Tesoro.

Art. 8

Il Decreto ministeriale che approva il bilancio deve essere pubblicato per copia all'albo pretorio per otto giorni e durante lo stesso termine il bilancio deve essere depositato in segreteria a disposizione del pubblico.

Contro il decreto ministeriale è ammesso soltanto ricorso per motivi di legittimità al Consiglio di Stato, da parte dell'Amministrazione comunale e di qualsiasi contribuente.

I termini per la presentazione del ricorso e per il procedimento dinanzi al Consiglio di Stato sono ridotti a metà.

La Sezione pronunzia in camera di Consiglio sulle memorie e sugli atti presentati dalle parti, senza che occorra ministero di avvocato.

Art. 9

L'assegnazione e la erogazione dei contributi dello Stato a favore del Comune di Roma sono regolate dalle relative leggi speciali.

Art.10

Gli atti del comune, concernenti la erogazione di somme poste a carico del bilancio dello Stato, sono parificati, a tutti gli effetti, a quelli compiuti dall'amministrazione dello Stato.

Art.11

Il tesoriere del Comune rende il conto nel termine di otto mesi dalla chiusura dell'esercizio.

Qualora il conto non venga presentato entro tale termine, il Ministro per l'Interno lo fa compilare d'ufficio, a spese del tesoriere, al quale applica, inoltre, una sanzione consistente nel pagamento di una somma da lire mille a lire diecimila, il cui ammontare viene devoluto a favore delle Casse di Previdenza per le pensioni agli impiegati ed ai salariati degli enti locali.

Il Consiglio Comunale nella sessione di primavera esamina il conto dell'anno precedente in seguito alla relazione della giunta ed al rapporto dei revisori e delibera sulla sua approvazione.

Della deliberazione del Consiglio comunale è data notizia al tesoriere, in quanto porti variazioni nel carico o discarico ed agli amministratori che furono designati responsabili, con notifica, contenente invito a prenderne cognizione, entro trenta giorni, nella segreteria, insieme col

Declassified E.O. 12356 Section 3.3/NND No. 785019

del pubblico.

Contro il decreto ministeriale è ammesso soltanto ricorso per motivi di legittimità al Consiglio di Stato, da parte dell'Amministrazione comunale o di qualsiasi contribuente.

I termini per la presentazione del ricorso e per il procedimento dinanzi al Consiglio di Stato sono ridotti a metà.

La Sezione pronunzia in camera di Consiglio sulle memorie e sugli atti presentati dalle parti, senza che occorra ministero di avvocato.

Art. 9

L'assegnazione e la erogazione dei contributi dello Stato a favore del Comune di Roma sono regolate dalle relative leggi speciali.

Art.10

Gli atti del comune, concernenti la erogazione di somme poste a carico del bilancio dello Stato, sono parificati, a tutti gli effetti, a quelli compiuti dall'amministrazione dello Stato.

Art.11

Il tesoriere del Comune rende il conto nel termine di otto mesi dalla chiusura dell'esercizio.

Qualora il conto non venga presentato entro tale termine, il Ministro per l'Interno lo fa compilare d'ufficio, a spese del tesoriere, al quale applica, inoltre, una sanzione consistente nel pagamento di una somma da lire mille a lire diecimila, il cui ammontare viene devoluto a favore delle Casse di Previdenza per le pensioni agli impiegati ed ai salariati degli enti locali.

Il Consiglio Comunale nella sessione di primavera esamina il conto dell'anno precedente in seguito alla relazione della giunta ed al rapporto dei revisori e delibera sulla sua approvazione.

Della deliberazione del Consiglio comunale è data notizia al tesoriere, in quanto porti variazioni nel cerico o discarico od agli amministratori che furono designati responsabili, con notifica, contenente invito a prenderne cognizione, entro trenta giorni, nella segreteria, insieme col conto e con tutti gli altri documenti che vi si riferiscono.

Contemporaneamente il sindaco, a mezzo di avviso da affiggersi all'albo pretorio per almeno otto giorni, informa il pubblico dell'avvenuta deliberazione sul conto e del deposito di esso con tutti gli atti e documenti che vi si riferiscono nell'ufficio di segreteria. Entro il termine di otto giorni dall'ultimo deposito, il tesoriere e gli amministratori nonchè qualunque contribuente possono presentare per iscritto, senza spesa, le loro deduzioni, osservazioni e reclami.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Trascorso il termine suddetto, il conto, coi documenti giustificativi dell'entrata e della spesa e con le deduzioni, osservazioni e reclami eventualmente presentati, o, in mancanza, con esplicita dichiarazione che nessuna deduzione, osservazione o reclamo venne presentato nei termini prescritti, è trasmesso dal Sindaco al Ministro per l'Interno, per la approvazione.

Il conto consuntivo è approvato con decreto del Ministro per l'Interno.

Art. 12

Il decreto ministeriale che approva il conto consuntivo è notificato e pubblicato, a cura del sindaco, nei modi e nei termini stabiliti nel quarto comma dell'articolo precedente. Contro di esso è ammesso ricorso alla Corte dei Conti da parte degli interessati, del sindaco nonchè di qualsiasi contribuente, ancorchè non abbia previamente reclamato ai termini del comma suddetto.

Art. 13

Per quanto riguarda l'applicazione dei tributi restano ferme per il Comune di Roma, le disposizioni del Testo Unico 14 settembre 1931, n. 1175 e successive modificazioni ed aggiunte nonchè quelle del T.U. 3 Marzo 1934, n. 383.

Art. 14

In casi eccezionali il sindaco prende, sotto la sua responsabilità, le deliberazioni che altrimenti spetterebbero alla Giunta municipale, quando l'urgenza sia tale da non permetterne la convocazione, e sia dovuta a cause nuove e posteriori all'ultima adunanza della Giunta stessa. Di tale deliberazione è fatta comunicazione alla giunta municipale nella sua prima seduta per la relativa ratifica. Nella sessione di primavera di ciascun anno è comunicato al Consiglio Comunale l'elenco delle deliberazioni d'urgenza adottate dal sindaco nell'anno precedente.

Art. 15

Il Ministro per l'Interno assegna al Sindaco ed agli Assessori del Comune di Roma un'annua indennità per spese di rappresentanza, che grava sul bilancio del Comune.

Art. 16

Sono abrogate tutte le norme contrarie od incompatibili col presente decreto.

Art. 17

Fino a quando non saranno completate le elezioni amministrative il sindaco verrà nominato dal Ministro per l'Interno. Verrà parimenti nominata dal Ministro per l'Interno una Giunta municipale provvisoria [illegible] le funzioni del Consiglio Comunale e della Giunta [illegible] membri effettivi e quat-

1279

Declassified E.O. 12356 Section 3.3/NND No. 785019

Il conto consuntivo è approvato con decreto del Ministro [illegible] terno.

Art. 12

Il decreto ministeriale che approva il conto consuntivo è notificato e pubblicato, a cura del sindaco, nei modi e nei termini stabiliti nel secondo comma dell'articolo precedente. Contro di esso è ammesso ricorso alla Corte dei Conti da parte degli interessati, del sindaco nonchè di qualsiasi contribuente, ancorchè non abbia previamente reclamato ai termini del comma suddetto.

Art. 13

Per quanto riguarda l'applicazione dei tributi restano ferme, per il Comune di Roma, le disposizioni del Testo Unico 14 settembre 1931, n. 1175 e successive modificazioni ed aggiunte nonchè quelle del T.U. 3 Marzo 1934, n. 383.

Art. 14

In casi eccezionali il sindaco prende, sotto la sua responsabilità, le deliberazioni che altrimenti spetterebbero alla Giunta municipale, quando l'urgenza sia tale da non permetterne la convocazione, e sia dovuta a cause nuove e posteriori all'ultima adunanza della Giunta stessa. Di tale deliberazione è fatta comunicazione alla Giunta municipale nella sua prima seduta per la relativa ratifica. Nella sessione di primavera di ciascun anno è comunicato al Consiglio Comunale l'elenco delle deliberazioni d'urgenza adottate dal sindaco nell'anno precedente.

Art. 15

Il Ministro per l'Interno assegna al Sindaco ed agli Assessori del Comune di Roma un'annua indennità per spese di rappresentanza, che grava sul bilancio del Comune.

Art. 16

Sono abrogate tutte le norme contrarie od incompatibili col presente decreto.

Art. 17

Fino a quando non saranno completate le elezioni amministrative il sindaco verrà nominato dal Ministro per l'Interno. Verrà parimenti nominata dal Ministro per l'Interno una Giunta municipale provvisoria che eserciterà anche le attribuzioni del Consiglio Comunale. La Giunta municipale provvisoria sarà composta di sedici membri effettivi e quattro supplenti.

Art. 18

Il presente decreto entrerà in vigore il giorno della sua pubblicazione nella Gazzetta Ufficiale del Regno.

Ordiniamo, a chiunque spetti, di osservare il presente decreto e di farlo osservare come legge dello Stato.

MEMORANDUM

ACC/101/PWU

31 Oct. 44

SUBJECT: Heating of Hq. A.C. Building.

TO : Hq. Commandant, A.C.

FROM : Public Works and Utilities-Sub-Commission.

1. Reference your letter HQC/6 of 30 Oct 44.

2. It is difficult to judge the estimates in the absence of accurate knowledge of the extent of the work involved but we are, nevertheless, of the opinion that both tenders are much too high.

3. We suggest that you might find it more economical to carry out the work by direct labour, employing the necessary skilled workmen temporarily. We believe that your present employee, Sig. de Lucca, is quite capable of directing and supervising the work.

4. A rough estimate which we have made - but which we cannot in any way guarantee without making a careful preliminary survey and calculation - for the execution of the work by direct labour is as follows:-

(1.)	Purchase of oxy-acetylene welding apparatus	Lire 20,000	approx.
(2.)	Six skilled workmen for twenty days, paid at rate of 140 Lire per day	Lire 16,400	
(3.)	Contingencies	say, Lire 3,600	
	Total :	Lire 40,000	

1377

5. With regard to item (1), perhaps it would be possible to borrow the necessary welding apparatus from the Super Garage or from some other source, instead of purchasing it. We understand, however, that such an apparatus was originally included in the

Declassified E.O. 12356 Section 3.3/NND No. 785019

equipment of this building but was removed by the Germans. Possibly you may see fit to take this opportunity of making good the deficiency.

6. We venture to suggest that if the work be carried out by direct labour under the direction of Sig. de Lucca he might justly be recompensed financially for the added duties and responsibility entailed.

7. Please note that our rough estimate (in para.3 above) excludes, as in the case of the Contractors' estimates, the cost of provision of all necessary new sheeting, brickwork, concrete, plaster work, and oxygen.

8. Your enclosures are returned herewith.

G.E. RHODES,
Lieut-Colonel, R.E.,
Acting Director.

ACC/101/PWU

21 Sept. 1944

SUBJECT: Heating.

TO : HQ. Commandant, A.C.C.

1. Reference your letter HQC/11 of 14 Sept. 1944.

2. The following information is submitted in response to your request for advice regarding heating and hot water supplies in the Hq. A.C.C. building and in the A.C.C. hotels. In many respects it is no more than a guide, and the figures given must necessarily be regarded as approximate. However, we will, if necessary, do our best to supplement this information on receipt of any specific queations that you may wish to refer to us.

3. Hq. A.C.C. building and annexe.

(a) Heating.

The buildings are mainly heated by hot water circulation, the exceptions being the main entrance hall, the main staircase, the large conference hall and certain other rooms on the third floor, all of which are heated by the introduction of hot air. The entrance hall, however, cannot at present be wholly heated owing to the absence of parts of the hot and cold air conduits which were dismantled in order to permit the construction of a large concrete strongroom (uncompleted) in the basement. It would not, we think, be a very difficult matter to make good the interrupted conduits should it prove to be necessary. In the past, the average total daily fuel requirements for heating the main building and the annexe, in winter, have been:

1369

- 50 quintals of ~~good~~ Sardinian coal("Sulcis" quality)
- 5 quintals of wood.

Declassified E.O. 12356 Section 3.3/NND No. 785019

In addition, there are twenty electric motors of various sizes which drive circulating pumps in the hot water and air conditioning systems. The use of all of them will probably be necessary, some continuously and some intermittently, and they are likely to impose a maximum total demand of about 40 Kilowatts.

N.B. It would be possible to use fuel oil instead of local coal in replacement of half the above estimate of daily fuel requirements, but this is not likely to be an acceptable alternative. Moreover, it would also necessitate an additional electricity demand of about 14 Kilowatts for the seven motors that are necessary for fuel circulation, fuel injection and forced draught.

(b) Hot Water.

The small amount of hot water for which provision is made in the H.Q. building is obtained in winter from the heating system. There is an independent boiler for hot water supply but it is intended only for use in summer when the heating installation is not in operation. The fuel requirements for hot water can be regarded as included in the above estimate of 90 quintals of Sardinian coal per day.

4. Officers' Hotels. Estimated daily fuel requirements.

N.B. The estimates here given of daily fuel requirements for hot water are intended to allow each resident to take one hot bath every two days.

(a) Grand Hotel.

Heating - 15 quintals of Anthracite) and 2 quintals
Hot water- 9 quintals of Anthracite) of wood.

(b) Flora.

Heating - 10 quintals of Anthracite) and 2 quintals
Hot water- 3 quintals of Anthracite) of wood

Declassified E.O. 12356 Section 3.3/NND No. 785019

(c) Esperia.

Heating - 7 quintals of coke) and 1 quintal
Hot water- 2 quintals of coke) of wood

(d) Milano.

Heating - 9 quintals of coke) and 1 quintal
Hot water- 2½ quintals of coke) of wood

(e) Bellavista

Heating - 4 quintals of coke) and 1 quintal
Hot water- 1½ quintals of coke) of wood

5. Billets of EM/OR. - Estimated daily fuel requirements for hot water.

All of these five hotels have hot water installations. Unfortunately, the Vaccari is equipped solely with electrically heated boilers and we cannot, therefore, recommend the hot water installation of this hotel be used. Incidentally, its normal power demand would be about 10 kilowatts. We suggest that the personnel resident in the Vaccari Hotel should be the in the hotels Genova and Nuova Roma, and we have made allowance accordingly in the following estimates of fuel requirements for hot water. Conformably with your request for information, we have not considered the use of the heating installations of these five hotels.

N.B. The following estimates of daily fuel requirements for hot water supply are intended to allow each EM/OR at least one hot bath per week.

(a) Urbe - 1½ quintals of Coke and ½ quintal of wood.

(b) Genova - 5 quintals of coke and 1 quintal of wood.

(c) Vaccari - Approx 120 KWH electricity per day. Not recommended.

(d) Torino - 2½ quintals of coke and ½ quintal of wood

(e) Nuova Roma- 5 quintals of Coke and 1 quintal of wood.

1367

Part 2

My dear Hensley,

First of all let me thank you for all the assistance you gave me last week, and again this week. It is usually the most busy people who have time to spare to help other people.

I am sending a separate official letter about the visit of Sig. Pettinee to Sicily. Regarding the project on the slopes of Vesuvius, I think the time we spent on Monday was useful, and no doubt when you come here to the conference on the 16th Oct. you will have clear-cut ideas as to what to be done. In the meantime, after you have read the papers in my file, will you send it back to me.

With kind regards, and again many thanks,

Yours sincerely

Bari, 30 August 1944

CAPT. L. W. LAUGHLIN
A.C.C. - H.Q.
P. W. & U. S.C. - ROME

478962
Capt Machinelle.

Dear Capt Laughlin,

I scrry to be compelled under the present circumstances, to bother you again and ask again your kind assistance. It is still about the serious difficulties in which my sister's family and myself find ourselves in Naples in order to get back in my sister owned appartment there. I have still no place where to stop for few nights when going there on business from Bari, and my sister with her husband who is employed with a factory in Naples, her 16 years old daughter and her 14 years old boy, are compelled to live in one room at ground floor near the porter of the building (Via Mergellina 220) where she owns her aprtment.

I am sure you will be tired of listening to me about these business, but I felt myself much disappointed when I heard from my sister that the Prefetto of Naples after having requisitioned, at the end of last may, one four room apartment in the same building for my sister's family and myself, he later proceeded with the de-requisitioning of that apartment to the advantage of another family, ordering my sister to get out again.

As you may remember, consequently to your and Col. Lapper's very kind assistance when you were in Naples, we went together to see the Prefetto who at that time did something so that our problem seemed to have been at least temporarily solved. After you had moved to Rome and while I was busy in Bari, the Prefetto issued another order putting us again in a very embarrassing situation this was about on June 15.

I talked about this critical situation both to Lt. Butcher and to Capt. Ryan, who very kindly wrote a letter for me to be shown to the local authorities in Naples. Unfortunately my sister informs me now, that in spite of this, ~~she~~ she still is unable to get any consideration, and no practicable solution has been proposed to her by the Italian aouthorities there. She was told that only an

I talked about this critical situation both to Lt. Butcher and to Capt. Ryan, who very kindly wrote a letter for me to be shown to the local authorities in Naples. Unfortunately my sister informs me now, that in spite of this, ~~she~~ she still is unable to get any consideration, and no practicable solution has been proposed to her by the Italian aouthorities there. She was told that only an interestment on your part in this matter would help again the situation, and, she was suggested, possibly a requisition of at least three rooms of her apartment could be made either through the Prefetto or preferably through the P.B.S. authorities in Naples.

Her apartment is located in Via Margellina no. 220, 1st floor, apartment no. 16. It is a five room apartment. The family now occupying the apartment, by the name of Eduard Gaeta, is a 3 persons family and incidentally they have a relative of theirs, a brother of Eduard Gaeta, living in the same building in another five room apartment at the fourth floor, this being a two persons family only. It is evident that Eduard Gaeta could easily move

.//.

136

Declassified E.O. 12356 Section 3.3/NND No. 785019

upstairs to live with his brother but even with this possibility the Italian authorities in Naples would not understand the very critical situation in which my sister's family was left.

Excuse me, Captain Laughlin, for this trouble which I am causing you again: I would extremely appreciate and remain very much obliged to you if you could do anything in order to help this sad case of my sister's family and to facilitate my work while in Naples.

I thank you ever so much and hope to have soon a chance to see you again.

Yours sincerely,

SUBJECT : Real Estate, S.M.E., Coy .

TO : Public Work & Utilities, Sub-Commission.

1. We have considered the questions raised by your ACC/101/PWU of 8 September 1944.

2. In the first place the order of O.C. 276 Works R.E. was given in Italian Government Territory. It is our opinion that he had no authority to give this order, and that the order is not valid.

3. The ground in question could no doubt be requisitioned if it is to be used for military purposes. It is presumed that the Saw Mill in question is to be operated for the benefit of the Allied Forces. But in this case the requisition should be executed through the Italian authorities in pursuance of the policy which is firmly established for such cases.

4. Secondly we are of opinion that the stipulation of a 4 years' term is ineffective. The requisition will remain in force as long as the ground is used or required for the purpose for which it was requisitioned - i.e. to supplement the requirements of the Allied Forces. After this the requisition comes to an end. In any event, when the Allied Forces cease to occupy any part of Italy, the requisition terminates since the orders given by an occupying power do not continue in effect after the end of the occupancy.

SOCIETA' MERIDIONALE DI ELETTRICITA'

Naples, 29 August 1944

N. 459-510 LS/MV

To : GOVERNO MILITARE ALLEATO T.C. & P.U. SEC.
= NAPLES =

Vi inviamo qui accluso copia di lettera del Comandante la C.C. 274 Works Section R.E. in Crotone (Cosenza) con la quale ci si ordina di concedere per 4 anni alla Ditta Bevaqua & Rizzuto una zona di 3 ettari di terreno sulla sponda del lago artificiale Ampollino per impiantarVi una segheria e deposito di legname.

Già precedentemente noi avevamo negato alla Ditta Bevacqua la concessione in parola, così come l'abbiamo negata ad altre ditte che hanno fatto richiesta di poter impiantare segherie in aggiunta a quelle che, per essere preesistenti ai lavori di sistemazione del bacino, hanno dovuto essere tollerate da noi e che già cagionano tanti gravi inconvenienti nel nostro servizio. Infatti la esistenza di segherie lungo le sponde dei laghi artificiali a servizio dei nostri impianti è particolarmente dannosa al funzionamento degli impianti stessi a cagione degli intralci che esse creano nella nostra zona di protezione e degli immancabili rifiuti che gradatamente fluiscono verso gli sbarramenti, ostruendone le griglie.

Nel caso della ditta Bevacqua, poi, la concessione era stata da noi rifiutata anche perchè la zona richiesta è già da noi concessa in fitto alla S.I.L.S., Società che, a norma della legge in vigore per lo incremento della piscicoltura, esercita la pesca nei nostri laghi silani; inoltre la ditta Bevacqua intenderebbe effettuare il trasporto dei tronchi alla segheria per flottazione attraverso il lago; anche questo, data la vicinanza della zona agli organi di presa ed intercettazione, può rappresentare un considerevole pericolo. In considerazione di ciò abbiamo informato la Ditta Bevacqua che pur non intendendo ostacolare materialmente la presa di possesso della zona da parte loro, ove si ritenessero autorizzati a tanto, puttuttavia riteniamo irregolare la procedura seguita anche in considerazione del modo in cui la Ditta è stata autorizzata dalla Works Section di Crotone.

Vi preghiamo infatti di voler esaminare i seguenti motivi di cui riteniamo invalida detta autorizzazione a darcene cortese conferma :

a) - l'Unità avrebbe dovuto emanare un regolare ordine di requisizione della zona, sempre che questa le occorresse per proprie esigenze;

b) - comunque non può essere fissato a priori un termine di durata (4) anni della requisizione, come ha fatto appunto la Works Section di Crotone.

1337

Vogliate cortesemente interessarVi, se del caso, per la revoca di detta autorizzazione, per la miglior tutela del nostro servizio di pubblica utilità.

Declassified E.O. 12356 Section 3.3/NND No. 785019

TRANSLATION

We enclose herewith a copy of the letter of the Commanding Officer of the CC 274 Workes Section R.E. qt Crotone (Cosenza) by which we are ordered to allow the firm Bevacqua & Rizzuto to use for 4 years an area of 3 hect. on the border of our artificial Ampollino lake, in order that they may build and operate a saw-mill and a timber yard.

Some time ago we refuesed to give the firm Bevacqua said franchise, which has been also refused to other conserns who hqve qpplied for it, in order to build saw-mills in addition to those that we have been obliged to endure because they were there before we cqrried out our works on the reservoir qnd though they seriously interfer with our operation.

In fqct sqw-mills on the shores of our artificial lakes connected to genrating plants cause a lot of troubles in the operations od the plqnts and they are obstacles on the protection zone, and let waste muteriels flow to the barrages, obstructing the gates.

As to firm Bevacqua the franchise was also refused in view of the fact that said zone had been previously leased to the S.I.L.S. which, in compliance with the previsions concerning the pisciculture at present in force, carries on fishing in the Silani Lakes.

Moreover the firm Bevacqua meant to transport the Timber by floqting in across the lake.

This represents a further serious dqnger, as the zone is very close to the intake and dischange equipment (trash-racks, gates, etc.)

For all the above we informed the firm Bevacqua that, though not intending to materially oppose their eventual taking possession of the zone, if they believed themselves qllowed to do so, yet we consider the procedure followed to to be irregular, also in view of the way the firm got the authority from the Crotone Works Section R.R.

In fqct we submit to you the following motives thqt in our opinion make said authority not valid, and ask you to confirm them.

a) - that Unit should have regularly requisitioned the zone, if needed for its purposes;
b) - insqny cqse the duration of this requisition (4 years) could not have been previously fixed up, as made by the Crotone Works Section.

We ask you to take proper steps, if necessary, in order that said authority given to the firm Bevacqua mqy be revoked for the regular operation of our service, which is a public utility one.

With best thanks we remain truly yours,

Napoli, 29-8-1944

SOCIETA' MERIDIONALE DI ELETTRICITA'
SEDE DI NAPOLI

N° 459-510 LS/MV

Governo Militare Alleato
T.C. and P. Utilities Sect.
NAPOLI

Vi inviamo qui acclusa copia di lettera del Comandante la C.C. 274 Works Section R.E. in Crotone (Cosenza) con la quale ci si ordina di concedere per 4 anni alla Ditta Bevacqua e Rizzuto una zona di 3 ettari di terreno sulla sponda del nostro lago artificiale Ampollino, per impiantarvi una segheria e deposito di legname.

Già precedentemente noi avevamo negato alla Ditta Bevacqua la concessione in parola, così come l'abbiamo negata ad altre ditte che hanno fatto richiesta di poter impiantare segherie in aggiunta a quelle che, per essere preesistenti ai lavori di sistemazione del bacino, hanno dovuto essere tollerate da noi e che già cagionano tanti gravi inconvenienti nel nostro servizio. Infatti la esistenza di segherie lungo le sponde dei laghi artificiali a servizio dei nostri impianti è particolarmente dannosa al funzionamento degli impianti stessi a cagione degli intralci che esse creano nella nostra zona di protezione e degli immancabili rifiuti che gradatamente fluiscono verso gli sbarramenti, ostruendone le griglie.

Nel caso della ditta Bevacqua, poi, la concessione era stata da noi rifiutata anche perchè la zona richiesta è già da noi concessa in fitto alla S.I.L.S., Società che, a norma delle leggi in vigore per lo incremento della piscicoltura, esercita la pesca nei nostri laghi silani; inoltre la ditta Bevacqua intenderebbe effettuare il trasporto dei tronchi alla segheria per flottazione attraverso il lago; anche questo, data la vicinanza della zona agli organi di presa ed intercettazione, può rappresentare un considerevole pericolo. In considerazione di ciò abbiamo informato la Ditta Bevacqua che pur non intendendo ostacolare materialmente la presa di possesso della zona da parte loro, ove si ritenessero autorizzati a tanto, purtuttavia riteniamo irregolare la procedura seguita anche in considerazione del modo in cui la ditta è stata autorizzata dalla Works Section di Crotone.

Nel caso della ditta Bevacqua, poi, la concessione era stata da noi rifiutata anche perchè la zona richiesta è già da noi concessa in fitto alla S.I.L.S., Società che, a norma delle leggi in vigore per lo incremento della piscicoltura, esercita la pesca nei nostri laghi silani; inoltre la ditta Bevacqua intenderebbe effettuare il trasporto dei tronchi alla segheria per flottazione attraverso il lago; anche questo, data la vicinanza della zona agli organi di presa ed intercettazione, può rappresentare un considerevole pericolo. In considerazione di ciò abbiamo informato la Ditta Bevacqua che pur non intendendo ostacolare materialmente la presa di possesso della zona da parte loro, ove si ritenessero autorizzati a tanto, purtuttavia riteniamo irregolare la procedura seguita anche in considerazione del modo in cui la ditta è stata autorizzata dalla Works Section di Crotone.

Vi preghiamo infatti di volere esaminare i seguenti motivi

Declassified E.O. 12356 Section 3.3/NND No. 785019

per. cui riteniamo invalida detta autorizzazione a darcene cortese conferma:

- a) l'Unità avrebbe dovuto emanare un regolare ordine di requisizione della zona, sempre che questa le occorresse per proprie esigenze;

- b) comunque non può essere fissato a priori un termine di durata (4) anni della requisizione, come ha fatto appunto la Works Section di Crotone.

Vogliate cortesemente interessarvi, se del caso, per la revoca di detta autorizzazione, per la miglior tutela del nostro servizio di pubblica utilità.

Translation

We enclose herewith a copy of the letter of the Commanding Officer of the CC. 274 Works Section R.E. at Crotone (Cosenza) by which we are ordered to allow the firm Bevacqua & Rizzuto to use for 4 years an area of 3 hect. on the border of our artificial Ampollino lake, in order that they may build and operate a saw-mill and a Timber yard.

Some time ago we refused to give the firm Bevacqua said franchise, which has been also refused to other concerns who have applied for it, in order to build saw mills in addition to those that we have been obliged to endure because they were there before we carried out our works on the reservoir and though they seriously interfere with our operation.

In fact saw-mills on the shores of our artificial lakes connected to generating plants cause a lot of troubles in the operation of the plants and they are obstacles on the protection zone, and let waste materials flow to the barrages, obstructing the gates.

As to firm Bevacqua the franchise was also refused in view of the fact that said zone had been previously leased to the S.I.L.S. which, in compliance with the previsions concerning the pisciculture at present in force, carries on fishing in the Silani Lakes.

Moreover the firm Bevacqua meant to transport the timber by floating it across the lake.

We enclose herewith a copy of the letter of the Commanding Officer of the CC. 274 Works Section R.E. at Crotone (Cosenza) by which we are ordered to allow the firm Bevacqua & Rizzuto to use for 4 years an area of 3 hect. on the border of our artificial Ampollino lake, in order that they may build and operate a saw-mill and a Timber yard.

Some time ago we refused to give the firm Bevacqua said franchise, which has been also refused to other concerns who have applied for it, in order to build saw mills in addition to those that we have been obliged to endure because they were there before we carried out our works on the reservoir and though they seriously interfere with our operation.

In fact saw-mills on the shores of our artificial lakes connected to generating plants cause a lot of troubles in the operation of the plants and they are obstacles on the protection zone, and let waste materials flow to the barrages, obstructing the gates.

As to firm Bevacqua the franchise was also refused in view of the fact that said zone had been previously leased to the S.I.L.S. which, in compliance with the previsions concerning the pisciculture at present in force, carries on fishing in the Silani Lakes.

Moreover the firm Bevacqua meant to transport the timber by floating it across the lake.

This represents a further serious danger, as the zone is very close to the intake and discharge equipment (trash-racks,

Declassified E.O. 12356 Section 3.3/NND No. 785019

gates, etc).

For all the above we informed the firm Bevacqua that, though not intending to materially oppose their eventual taking possession of the zone, if they believed themselves allowed to do so, yet we consider the procedure followed to be irregular, also in view of the way the firm got the authority from the Crotone Works Section R.R.

In fact we submit to you the following motives that in our opinion make said authority not valid, and ask you to confirm them.

- a) that Unit should have regularly requisitioned the zone, if needed for its purposes;

- b) in any case the duration of this requisition (4 years) could not have been previously fixed up, as made by the Crotone Works Section.

We ask you to take proper steps, if necessary, in order that said authority given to the firm Bevacqua may be revoked for the regular operation of our service, which is a public utility one.

With best thanks we remain

Truly yours,

Subject : Water Tube Boiler needed at Malta.

To : Commerce Sub-Commission.

1. Reference is made to your letter dated 1 September 1944, File AOA/3000/Commerce, Subject: Water Tube Boiler with Integral Superheater, requesting information concerning the availability of a water tube boiler of specific characteristics.

2. The only possible known source of this boiler is at the Elettromineraria power plant at Pietrafitta, west of Perugia. The turbine room of this plant was damaged by German demolition squads, but the boilers are almost intact. The boilers do not completely meet the specifications of the unit sought, and it would be necessary that a detailed examination of the boiler be made by a person familiar with the intended installation. However, on the chance that further inquiry is considered warranted, the following comparison is set out:

	Boiler Sought	Pietrafitta Boilers
Width:	19 feet	23 feet
Lenght:	37 feet	27 feet
Height:	37 feet	Unknown, but believed less than 40 feet.
Type:	Water tube	Babcock and Wilcox Water tube, cross drum, made by Ansaldo.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Boiler Sought (to continue)

Fuel: Oil, preferably
Steam atomizing burners.

Pressure: 295 lbs per sq.inch.

Total Temperature: 600 F.

Evaporation: 25,000 lb/hr.

Pietrafitta Boilers (to continue)

Fuel: 2 boilers fitted for natural gas.
2 boilers fitted to burn pulverised coal.

Pressure: 255 lbs per sq.inch.

Total Temperature: 660 F.

Heating Surface: 7550 sq.ft.

Boiler contains economiser and superheater but details are not known in this office.

Not known whether boiler is manufactured to Admiralty or Board of Trade specifications.

TO : Commanding General, ACC., APO 394, U.S. Army
(Attention: Commerce Sub Commission)

1. Naval Sub Commission, ACC., has received an urgent request from Vice Admiral, Malta, for subject boiler of following specifications:

a) SPACE AND HEADROOM available for boiler unit and fitting, excluding funnel, viz:-

Overall width,	----------	19 feet
" length,	----------	37 "
" height,	----------	37 "

b) DUTY

Evaporation at working gauge pressure, 25,000 lbs. per hour and upwards as may be available provided unit can be accommodated in the space given in para.1. Working gauge pressure 295 lbs. per square inch. Tolerance of plus 75 lbs. per square inch acceptable. Total steam temperature at stop valve 600°F. (Superheat approx. 200°F) oil fuel fired. Steam atomication if possible. Forced draught fan. 40 h.p. available on site for unit.

c) TYPE

Water tube type of boiler manufactured to Admiralty specification or to "Standard conditions for the design and constructions of water tube boilers as issued by the Board of Trade, London."

2. A.F.L.R. (Sicilian) Board report that a boiler of these specifications is not available in Sicily.

3. Will you inform this Section whether a boiler of above specifications is available in Italy, or if facilities exist in Italy to manufacture such a boiler.

Bari, 30 Aug. 44

186 A

Capt. L.W.LAUGHLIN
A.C.C. - Hq.
P.W. & U. S.C. - Rome

Dear Capt. Laughlin,

I am sorry to be compelled under the present circumtances to bother you again and ask your kind assistance. It is still about the serious difficul ties in which my sister's family and myself find ourselves in Naples in order to get back in my sister own apartment there. I have still no place where to stop for few nights when going there on business from Bari, and my sister with her husbans who is employed with a factory in Naples, her 16 years old d augater and her 14 year old son are compelled to live in one room at ground floor near the porter of the building (Via Mergellina 220) where she owns her apartment.

I am sure you will be tired of listening to me about this business but I felt myself much disappointed when I heard from my sister that the Prefetto of Naples after having requisitioned, at the end of May, one four room apartment in the same building for my sister's family and myself, he later proceeded with the de-requisitioning of that apartment to the advantage of another family, ordering my sister to get out again.

As you may remember, consequently to your and Col.Lapper's very kind assistance when you were in Naples, we went together to see the Prefetto who at the time did something so that our problem seemed to have been at least temporarily solved. After you had moved to Rome and while I was busy in Bari, the Prefetto issued another order putting us again in a very embarrassing situation, this was about on June 15.

I talked about this critical situation both to Lt.Butcher and to Capt. Ryan, who very kindly wrote a letter for me to be shown to the local authorities in Naples. unfortunately my sister informs me now, that in spite of this she still is unable to get any consideration and no praticable solution has been proposed to her by the Italian authorities there. She wad told that only an interestment on your part in this matter would help again the situation, and she was suggested, possibly a requisition of at least three rooms of her apartment could be made either through the Prefetto or preferably through the P.B.S. authorities in Naples.

Her apartment is located in Via Mergellina n. 220, 1st floor, apartment n 16. It is a five room apartment. The family now occuping the apartment, by the name of Eduard Gaeta, is a 3 person family and incidentally they have a relative of theirs, a brother of Eduard Gaeta, living in the same building in another five room apartment at the fourth floor, this being a two person family only. It is evident that Eduard Gaeta could esily move upstairs to live with his brother but even with this possibility the Italian authorities in Naples would not understand the very critical situation in which my sister's family was left.

1340

Declassified E.O. 12356 Section 3.3/NND No. 785019

Excuse me, Captain Laughlin, for this trouble which I am causing you again. I would extremily ppprciciate and remain very much obliged to you if you could do anything in order to help this sad case of my sister's family and to facilitate my work while in Naples.

I thank you ever so much and hope to have soon a chance to see you again.

Yours sincerely

Derequisizione.

Not received by the Office

Con lettera 12 agosto 1944 n.1154/Gab. pregavo codesto Ministero di voler disporre affinchè il Prefetto di Perugia provveda di urgenza a derequisire il macchinario della Cartiera A. Sordini e figli di Foligno, che deve essere usato dalla Commissione Alleata di Controllo - Sottocommissione finanziaria- per l'esclusiva produzione di carta per valuta.

Resto in attesa di conoscere i provvedimenti che saranno adottati affinchè possa riferirne al più presto alla Commissione Alleata di Controllo che ha rivolto sollecitazioni in proposito.-

IL MINISTRO

MINISTRY OF PUBLIC WORKS

GABINETTO

To the MINISTRY OF COMMERCE & LABOUR

for information of

Lt.Col. L.A.JENNY

Director of Public Works &Utilities

Sub-commission Rome

Subject

Release from requisition

No Copy to this office

In my letter dated August 12-1944 N.1154/Gab. I begged this Ministry to kindly provide for the release from requisition of the machinery belonging to the Paper-mill A.SORDINI &SONS of FOLIGNO.

Aforesaid machinery is to be used by the Finance Sub-Commission of the A.C.C. for the exclusive production of paper-money.

In expectance to know what measures will be taken -as I must refer as soon as possible to the A.C.C. which has repeatedly asked for informations about the matter.

THE MINISTER

ACC/101/PWU

4 Sept. 1944

Subject: Dissolution of the Governatorat of Rome.

To : Director Interior Sub-Commission.

Please be advised that the "Higher Council" (Consiglio Superiore), referred to in Par.8 of Capt. Temple's letter and in the third and fourth paragraphs of Article 4 of the Decree, has been abolished as an unnecessary body within the Ministry of Public Works.

The Minister now has a group of specialist engineers on his staff who function under the Director General of the Ministry and this staff has proved efficient and able to fully advise the Minister.

Therefore, the following corrections should be made in Article 4:

Par. 3, lines 2 and 3, substitute for "Higher Council of Public Works" the words "Minister of Public Works".

Par. 4, second line, substitute for "a higher inspector of public works" the words "the Minister of Public Works".

The sum 5 million lire in par. 3 should be 6 million to agree with the sum in line 1. par. 4 and as shown in the Italian text.

GER ... 1337

(for) L.A. JENNY,
Lt.Colonel, C.E.,
Director.

ES/15

SUBJECT: MATER Workshops - Portici.

TO : HQ. AAI.

1. Further to this HQ ES/15 dated 25 Jun RR, at a recent joint conference with PBS and 57 Area, HQ Region 3 was requested to extend the suburban trolley service in the Naples area.

2. As the MATER plant is still occupied by the 16th Base Workshops, it is requested that the facilities of this plant be made available to civilian tram services as previously requested in our above mentioned letter.

For Captain STONE (USNR):

A. C. ANTOLINI,
Executive Director,

SUBJECT : Trams - Civilian Labour

Commanding General
Peninsular Base Section

1. Further to the conference held at HQ 57 Area on 8 Jul at which representatives of Transportation PBS were present, and to conversation Commander 57 Area and Commander PBS, it is requested that additional trams should be run in order to avoid the use of Army transport to carry civilian labour to and from work.

2. From the point of view of the British Depots and Installations the following routes would be most useful:-

(a) from FRATTAMAGIORE to Naples.

(b) from the area of the Museum in Via Roma, NAPLES to the cemetery at the EAST end of the Strada NUOVO POGGIOREALE.

(c) from Portici to a point as near to the CENTRAL STATION as possible

3. These trams are only required from the military point of view to run from 0530 hours to 0730 hours and from 1700 hours to 1830 hours. In view of the power difficulties involved in encroaching on the peak periods, and the traffic difficulties which might be caused if heavy traffic were to coincide with these routes, it is not considered that the times given above should be extended.

for Brigadier,
Comd 57 Area.

TO: HQ. A.C.C.

1. IT IS ESSENTIAL IN UNITS INTEREST THAT ATTACHED INVENTORY SHOULD BE COMPLETED IN QUADRUPLICATE WITHIN 7 DAYS AND TWO COPIES RETURNED TO REAL ESTATE SECTION, ROME ALLIED AREA COMMAND.

2. Failure may mean that owner of property concerned may later allege that goods or furniture were taken over on requisition which is not agreed by unit. If no documentary evidence is available to prove what was taken over on entry into possession a claim for damages through Claims and Hirings Dept. may result to prejudice of unit.

3. Inventory should be signed by:

(a) Officer Commanding requisitioning unit.

(b) Owner of property, lessee or representative. If the owner or a representative cannot be found a certificate to this effect MUST be signed by Officer Commanding Unit (see Appx "A") and attached to the inventory.

4. After completion in quadruplicate of inventory, copies will be dealt with as follows:

(a) 1 copy - retained by unit.
(b) 1 copy - retained by owner, lessee or representative.
(c) 2 copies - Rome Allied Area Command.

5. ON RELEASE BY UNIT OF REQUISITIONED PREMISES A NEW INVENTORY SHOULD BE MADE, SIGNED AND DISTRIBUTED SIMILARLY TO METHOD INDICATED IN PARAS 3 AND 4 ABOVE. SUFFICIENT BLANK PRO-FORMAE ARE ENCLOSED FOR THIS PURPOSE. If this is not done, in the event of any future claim being made by owner of property through Claims and Hirings Dept., unit will NOT have any documentary evidence to prove what goods or furniture were handed over to owner on releasing possession. In consquence it will not be in a position to defeat any claim made.

SUBJECT: Villa Confalone in Maiori near Salerno.
TO : Chief Staff Officer, Acting Chief Commissioner.

1. About 6 August you sent to me an Italian civilian, an employee of one of the Ministries, regarding the above Villa which had apparently been requisitioned by our Public Works Officer at Salerno for a "weekend rest place".

2. We promptly looked into this matter and advised the Regional Engineer Region III to release the Villa.

3. It now appears that the Regional Commissioner is objecting to my having brought this matter to the attention of our Regional Engineer. I am attaching his letter and suggest that you handle this case ~~my~~ through the Executive Commissioner. I had hoped that our action would be all that was necessary.

15 Aug. 1944

Subject: Requisitioning of Materials by Army Units.

To: V.P. Economic Section.

When military units requisition materials or equipment they are supposed to give a bona-fide receipt covering the materials or equipment taken. It has been a practice of many persons, when requisitioning such materials, to give a phoney receipt which is useless to the owner. A typical form of such receipt is indicated by the following copy, which is to be a receipt for cable taken away from the Larderello Electric Power Plant.

" Received from this Dago the cable
that works this gate

Signed: Joe The Dog Face
Underground Balloon Squadron "

This matter should be called to the attention of Army Commanders and instructions should be issued requiring all persons requisitioning anything to give a bona-fide receipt stating the name of the owner from whom the material is taken, name and unit of person making the requisition, date, etc.

REGIA PREFETTURA DELLA PROVINCIA DI PERUGIA

n° 5320 Gab. IL PREFETTO REGGENTE

CONSIDERATO che per poter ripristinare la erogazione parziale dell'Energia Elettrica nella Provincia occorre procedere alla requisizione di tutta la produzione di energia elettrica di alcune piccole centrali di proprietà private, essendo venuta a mancare alla Società Unione Esercizi Elettrici la fornitura da parte della centrale elettrica di Terni distrutte dalle truppe tedesche;

SENTITO l'Ufficio del Genio Civile il quale segnava a tale scopo le centrali di Scopoli e di Foligno, Pale di Foligno, Casenove di Foligno, e Ponte Felcino di Perugia;

IN VIRTU' dei poteri delegatigli dal Comando Militare Alleato;

VISTO l'articolo n° 19 del T.U. della legge comunale e Provinciale; approvato con R.D.L. 3 Marzo 1943;

D E C R E T A :

E' requisita tutta la produzione di energia elettrica delle sotto elencate centrali, che va messa a disposizione della Soc. Unione Esercizi Elettrici, esercizio di Perugia, la quale darà le disposizioni tecnichenper il funzionamento dei singoli impianti;

Centrale Elettrica di Scopoli di Foligno = di proprietà della Ditta F.lli Pambuffetti.

Centrale Elettrica di Pale di Foligno e di Casenove di Foligno di proprietà della Ditta Cartiera A. Sordini & Figli.

Centrale Elettrica di Ponte Felcino di Perugia di proprietà della Società Lanificio di Ponte Felcino.

Successivamente, salvo accordi fra le parti, si provvederà a determinare il compenso da corrispondersi dall'Unione Esercizi Elettrici per la Energia ritirata, a mezzo di Commissione formata da un rappresentante delle parti e dall'Ing. Capo del Genio Civile quale presidente.

I Sindaci del Comuni di Perugia e di Foligno sono incaricati della notifica agli interessati del presente decreto, che ha decorrenza immediata.

SUBJECT : Requisition of the property of Compagnia Nazionale Imprese Elettriche - Roma

TO : Lt.Col. Luther Davis - Real Estate Section - Rome Allied Area Command .

1. It is understood that consideration is being given by your office to the requisitioning of the property of the Compagnia Nazionale Imprese Elettriche , 14 Via Bonocompagni, Roma . This organization is an association composed of the electric power companies of Italy.

2. The physical plants of the Italian electric power industry are presently in a very poor condition as the result of battle damage and intentional demolition by the enemy. Rehabilitation of the industry has started and the Compagnia Nazionale Imprese Elettriche is assisting the Allied Control Commission materially as a source of valuable information, incident to the rehabilitation. Furthermore the organization is continuing to serve as a means of mutual assistance amongst the various companies.

3. In view of the useful services performed by the Compagnia Nazionale Impr es Elettriche , it would be appreciated if every effort could be made to avoid requisitioning of their office.

SUBJECT : Main Electric Passenger Lift,
" Ministero delle Corporazioni"
Building.

TO : Headquarters Commandant,
A.C.C.Rome.

1. We desire to draw your attention to the worn and frayed condition of certain steel wire ropes that form part of the mechanism of the main passenger lift which is at present operating in this building. The defectiveness of some of the ropes has the appearance of being serious and, moreover, there is a marked general lack of lubrication. We do not know whether these conditions constitute any actual danger but we feel obliged to bring the matter to your notice.

2. We also take this opportunity to remark that the following current regulations regarding the use of the lift are NOT being consistently observed:

a) The lift cage should not carry more than five passengers at a time ;

b) The lift is to be used by Officers only and not by O.Rs.,W.M.,civilian staff (with certain specified exceptions) or for freight.

Colonel Lapsley.

As perhaps you know, the Allied Publications Board, of which I am a member, is responsible for licensing all papers & publications in Italy. Among recent applications is the attached. The policy of the Board is to encourage as far as possible the publication of interesting and useful publications, although the shortage of newsprint makes selection fairly drastic. We should very much value your opinion on the attached. We feel generally that in view of the immense reconstruction work necessary in Italy we should as far as we possibly can encourage the growth of publications dealing with reconstruction and the paper would seem to come under that heading. The question of "Spivvering" the staff is our concern: you need not worry! But we should like your opinion on 1303 technical value today.

June 12

Yours Sincerely
Major. DPR

ALLIED MILITARY GOVT. SECTION
No. 576/3
DATE 12 JUL
FOR REGION V

SUBJECT: AMG Polish Corps.

TO : Agriculture Sub-Commission
Food Sub-Commission
Industry & Commerce Sub-Commission
Public Works & Utilities Sub-Commission
Transportation Sub-Commission

1. Herewith are forwarded extracts from a report by Maj. Rolph, Officer Commanding AMG with the Polish Corps.

2. Will you please take any action necessary where indicated if this has not already been done, especially with regard to the supply of petrol, cement and bridging material.

*** *** ***

5. General.

(a) Supplies. In the whole of the area so far covered there has been little evidence of any acute shortage of food. The harvest, stated to be good, is now so close, that, given fair communications and the necessary P.O.L. there should be no food problem at all.

AMG supplies and transport have been adequate to deal with any situations that have so far arisen.

(b) P.O.L. Absolutely essential for the harvest. The military formation, hard pressed to supply itself through length of L of C, is helping as possible but it is absolutely essential that Region V should attempt to supply and distribute these commodities. A provisional allocation of 100,000 gallons of DIESEL and relative quantity of LUBOIL has been made by POLCORPS but transportation is likely to hold up distribution unless it can be provided from some other source than Corps.

(c) Communications. This is by far the most serious problem in the whole area. Nearly all bridges have been demolished. Many ingenious diversions have been made but few of these will withstand the slightest rain and, in any case the present dry weather water level of most of the rivers at about one to two feet will scarcely obtain during the winter and the rivers will no longer be fordable. Everything is being done to urge immediate reconstruction but this will be impeded unless cement and transport for repairing material is quickly made available. Well designed military transport is finding movement most difficult; it need not be stressed that such civilian transport as is available just cannot get about.

(d) Transport. There is an acute shortage for all purposes.

1307 Col Thompson

Declassified E.O. 12356 Section 3.3/NND No. 785019

(g) Water and Electricity undertakings. Nearly all the main ones have been wholly or partially destroyed but considerable ingenuity has been displayed in producing a limited supply of these essential services. Thus no serious positions exist as the result of these demolitions.

(j) Black Market is scarcely ever referred to.

(l) War Damage. So far as buildings are concerned is confined almost entirely to Centuma along the coastal route. Any place of importance such as Fosseru. San Benedetto has suffered severly. The majority of industrial plants, public utilities and bridges have been destroyed everywhere. The sooner cement works such as that at Bomba, can be got going the better, for without cement, reconstructions will be practically impossible.

MINISTRY OF PUBLIC WORKS

- - - - - - - -

Different Works - General Affairs and Personnel

Prot.Nº 24021.

Salerno, July 7th, 1944

To

Lt.-Col. L.A. JENNY
Director Public Works and Utilities
Sub-Commission A.C.C.

N a p l e s
Palazzo della Provincia

Subject:
Repatriation of
prisoners of war.

According to the agreements arrived at with the A.C.C., this Ministry notifies name and address of captivity of some technical and administrative officials, prisoners of war of the United Nations, remarking that their work would be very useful in the actual moments of difficulty, for the efficient working of the offices depending from this Administration.

1º - Engineer CAMPANELLA Filippo - captain - nº 81.1.50165 - Natuosa P.W.O. n.147 - Oran - Algeria.

2º - Engineer CRAXI Vincenzo - captain - T.203256-211 P.W.O. Camp Alger - Algeria.

3º - Surveyor ARNONE Umberto - captain - Italian (A) I.S.N. 81.1.50367 - prisoner of War Camp. Camp Monticello (Arkansas)C/C. G.P.O. Box 20 N.Y. (U.S.A.)

4º - Surveyor RUGGE Giuseppe di Raffaele - nº 4546 - 28/1 B.P.C.W. Camp. C/O Group, Bombay (India).

5º - Surveyor PAOLI Ettore - major R.E. nº 81.1.46425 prisoner of war Information Bureau, Office of the Provost Marshal General - Washington 25 DC. (U.S.A.)

6º - Engineer ASSENNATO Pietro,son of Giacomo - Sub-Lt.- Serial-Nº01126 - Saida VI - Algeria.

7º - ANGELLI Arnaldo - Lieut. - 335640 - nº 10/2 P.W.Camp Bombay.

8º - ROVERA Antonio - Corporal - Serial-nº 81.1.157632 - Natousa - prisoner of War Enclosure 7557 - Oran (Algeria).

9º - Surveyor BALDINELLI Gino - Nº 28. P.W.Camp. Wing 1 A C!o G.P.O., Bombay.

Date : 1 July '44

TO : Lt. Col. C.R. Birchett,
R.E., NBD 5th Army.

SUBJECT : Light Railways.

1. Reference to report on Viterbo Light Railway dated 21 June '44 and action taken from which it would appear that already instructions have been issued to put this line into service.

2. It must be pointed out that all privately owned railways are under the jurisdiction of the Director General of the Italian State Railways, General di Raimondo, and that no privately owned railways can be repaired and operated until this Sub-Commission has first approved.

3. No negotiations are therefore to be entered into by any parties other than this Sub-Commission for the proposed reconstruction of any such lines.

Any proposal for the re-opening of a service must first be submitted to this Sub-Commission, who will investigate what is really required both to restore damaged structures, rolling stock, etc., and what coal, oil, and/or electric current is necessary to keep the required service in operation.

4. Before any decision is given it is necessary to have a full justification of what service any line is giving to the essential civilian needs so that its importance can be assessed in relation to the overall requirements of all the railway services in liberated Italy and then if considered essential, this Sub-Commission will take all the necessary action to get the line restored for traffic after the approval of the Finance Sub-Commission has been obtained for any expenditure which may be involved.

Director

This seems to be a general warning!

Rome, 21st June 1944

REPORT ON VITERBO RAIL ROAD

On 17 June I was advised that the RR. to Viterbo named the Societa Romana per le Ferrovie del Nord could operate.

I contacted the Mil.Railway Service Col. Covin and asked whether his organisation was interested in this short line Road. His instructions were that if I could get the road operating to go ahead.

On June 20 I had a conference with the RR. heads and was advised of the following:

1. That the road was intact with the exception of few mine breaks and 1 bridge.
2. That the electric rolling stock was available in operating condition.
3. That 2 steam locomotives were available but in need of repairs.
4. That 500 kw of energy would be needed for operate the electric trains.
5. That the road could begin operation around July 5 to the first major break or half way provided the following was provided:
   1. Permit for cars, busses and trucks.
      This was issued.
   2. Permit for personnel to circulate.
      Lists were requested and on June 21 steps were taken to prepare cards.
   3. Certain materials obtained as follows:
      Wood
      Concrete
      Fuel oils for motor gasoline .
      Lubricant
      Nails
      Foodstuffs for 300 workers
      Rails
      Copper wire.

The fuel requirements were submitted through the transportation Section for issue.

The owners were told to locate and obtain releases from AMG CAS frozen stocks.

Two bridges needed were being used by military and the Provost Marshall was asked to clear for use of RR.

A list of buildings are being submitted so as to be put out of bounds to troop

Certain phones were requested for service of the road.

When the repairs are complete the road will be able to move some 60 tons of supplies by steam from Rome to Civitacastellana or 100 tons using electric locomotives.

ACC/101/PWU

1 Jul 44.

Subject: General Matters.

To : Director, P.W.&U. Sub-Commission.

1. Sig. Faccenda has supplied two good drawing tables and is sending along a designer for me to interview.

2. I have agreed for Sig. Faccenda to use an office at the Genio Civile for the time being.

3. Requisitioned cars.

In view of para. 3, Daily Bulletin No. 5, dated 24 June, which states: "No civilian drivers from Naples will be housed or fed in Rome, on a permanent basis," it is thought that you may wish to leave your driver Pasquale Zingarelli at Naples. In the following paragraph I am requesting that Major Wooster be sent to Rome as early as possible and as he is a capable driver I would suggest that he brings your car up with him. A civilian driver is awaiting engagement at this end.

4. Personnel.

Col Streck, P.W.S., is most anxious to see Lt-Col Thompson to discuss the Highway programme, but in the meantime arrangements have been made for Major Perley to see Col. Streck and he has now made the necessary arrangements.

I consider that the arrangements I made for Major Wooster to accompany Major Barry to Sardinia should, in view of the increasing amount of urgent work in N. Italy, be cancelled. I shall be glad if you will arrange for Major Wooster to report to this HQ as quickly as possible, and ask Major Barry to settle the following matters:

(a) Clear the outstanding matter in connection with Major Benton's request for blank flange for the Alto Belice Plant. Major Barry is fully acquainted with what is to be done to clear up this job.

(b) If Major Benton is unwell Major Barry should proceed to Palermo to clear up all outstanding work in connection with Alto Belice, and complete the electrical survey of the Island.

It is important that electricity should be available for the essential services particularly sulphur mines and Lt-Col. Bolick has already been warned that it may be necessary to put into operation a strict rationing scheme.

(c) We have received a report from Major Bell which sets out very clearly the latest position with regard to the Alto Belice plant. I am NOT suggesting that Major Bell should accompany Major Barry either to Sicily or Sardinia; he is the only electrical officer left at Naples and I think that in view of his impending movement to Region IX he should spend as much time as possible with Region III,

129

Declassified E.O. 12356 Section 3.3/NND No. 785019

on the other hand there is an enormous amount of work to be done at this end and if you feel you can spare him I shall be pleased to have him here.

5. Sig. Grueco.

Arrangements were made for Sig. Grueco to visit this office and discuss matters in connection with general electrical problems. He appears to be most anxious to help and has been asked to supply a complete report on the general electrical situation.

6. Transport.

We have discussed transport for Regional Engineers with Col. Edwards and Col. Findley. Major Larson has been held up due to lack of transport from the Region. Lt.-Col. Findley informs me that they have received instructions to transfer 16 vehicles to Region VIII; Col. Edwards has been asked to discuss the matter with his Regional HQ and arrange to requisition civilian vehicles.

General.

For your information Major Maskew, Major Rydans and another officer of Industry and Commerce arrived here yesterday. The Local Resources (Italian) Board meeting will now be held in Rome.

A.A.I. HQ. are now functioning in Rome at Building G.46.

There is plenty of glass available for replacing all broken glass in this building and I have arranged with the H Q. Commandant to hand over surplus to this Sub-Commission.

My telephone number is Extn. 317, Lt-Col Thompson is extn. 339.

We hear that the first train to arrive from Naples is to be a coal train and is expected to arrive on the 5th inst.

I understand you have passes for Sig. Tizzano and his chauffeur to enable them to travel to Rome and return. If he requires any other pass to circulate in the provinces no doubt this can be arranged through the Secretary General's office at Naples if supported by a letter.

W.M. LAIDER,
Lieut-Colonel,
Chief, Util. & Adm. Div.

MINISTRY OF PUBLIC WORKS

SALERNO 24 June 1944.

No.24408

Col. L. A. Jenny
Naples.

Repatriation of Prisoners of War.

To justify the accord with this A.C.C. , this Ministry gives the names and addresses of prisoners and some technical and administrative functionaries - prisoners of war of the United Nations, signifying that their work would be very useful, in the present difficult time, for the good running of the Offices depending on this Administration:

1. Dr. of Geometry CASALINI Mario di Arturo 2d Lt. of Artillery 21113 POW Camp 28, Wing 3 C/O - GOP Bombay, India.

2. 1st Eng. LESCHUITTA Gian Ernesto - Italian Evacuee Camp, Nanyuki

3. Dr. GIANGIORGIO Daniele - 1st Administrative Secy. Kenya, perhaps Nairobi.

4. Dr. TARCHI Giuseppe - Administrative Secy. Lt. of Inf. 371109. Camp 304 Postal Center, Middle East Forces.

5. Dr. of Geometry CAPODICI Mario di Salvatore - Artillery Lt. assigned to P.O.W. 222, Syracuse.

6. Dr. of Geometry BOSCHETTI Rino di Grisogono - Sgt. assigned to n.t. 220816 by 222 Italian P.W. Reinforcement Holoting Center C.M.F. Syracuse.

7. Dr. MIGLIARDI Nicola - Military Hospital 1. Palermo

It is further noted for the attention of this Control Commission, that the under-mentioned - a naval technician - is also a war prisoner whose liberation would help the interests of this Ministry at the Metal Construction Works -- Eng. VACCARO TODARO with head office in Palermo.

Capt. of Merchant Marine Pietro fu Salvatore - 81-50127. R.M. Camp of Natousa P.W.E. 149 , Oran, Algeria.

SUBJECT: Repatriation of Italian Prisoners of War.
TO : Economic Section.

1. I have received a further request from the Minister of Public Works for the repatriation of Italian Engineers who are prisoners of the Allies. This request is made because of the shortage of engineers in Italy. As these men are needed very much, I am submitting to you the names and locations of these Engineers in the hope that something may be done to have them repatriated to Italy. The names and locations are as follows:

a) Dr. of Geometry CASALINI Mario de Arturo, 2d Lt. of Artillery 21113 POW Camp 28, Wing 3 C/O - GKP Bombay, India.

b) 1st Eng. LABONDITTA Gian Ernesto - Italian Evacuee Camp, Maryabd.

c) Dr. GIANGIORGIO Daniele - 1st Administrative Secy., Kenya, perhaps Nairobi.

d) Dr. TUCCI Giuseppe - Administrative Secy., Inf.Lt., 371109, Camp 304 Postal Center, Middle East Forces.

e) Dr. of Geometry CAPODICI Mario di Salvatore - Artillery Lt. assigned to POW 222, Syracuse.

f) Dr. of Geometry BOSCHETTI Mino di Grisogono - Sgt. assigned to n.t. 220316 by 222 Italian P.W. Reinforcement Holding Center, C.M.F. Syracuse.

g) Dr. MELLARDI Nicola - Military Hospital No.1, Palermo.

h) Marine Capt. Pietro fu Salvatore - 81-50127. R.M. Camp of Matousa P.F.W. 149, Oran, Algeria.

2. Will you please see what you can do to assist in this ?

SUBJECT: M.A.T.S.R. Workshops Portici

TO. : Lt. A.A.I.

1. With reference to the requisitioning of the above mentioned depot by 15 Base Workshop RASC, it is requested that the following facts be given consideration.

2. It is noted that in your letter of 20 May 44 (2038/48) to Director General, Military Railway Services, you stated that you would allow a limited amount of work being done for the tramways to continue, and to further extend it, should this be necessary.

3. The workshops, however, are also a repair depot of great importance for public services such as the Cumana Railway, the Circumvesuviana Railway, the Filobus Service, and the Funiculares, as well as the State Railways, all of which are more or less in operation and rely on the depot to a large extent for repairs and re-equipment. Though these undertakings are of a civil character, they all have a bearing on the working of the Port of Naples and other military establishments in the vicinity e.g. in the transport of workers and goods. By the requisitioning of the workshops the public services will unavoidably suffer. Any impairment of these repair services will handicap not merely civilian interests, but more significantly, the operations of Military and Naval units dependant upon civilian assistance.

4. The total number of employees in the workshops is normally about 320, directly employed by the company. The present number is slightly less than 100. With this staff, the execution of repair-work for the civil orders now in hand would take about 16 months to complete. With a view to reducing this period substantially the company has already arranged to increase the civil staff to 300, practically the same figure as their normal. Of the present employees (just under 100) about 40 are engaged on orders placed by the Ditta.

5. The O.C. 15 Base Workshops has stated to members of this Headquarters that for the carrying out of heavy electrical and mechanical repairs, it was his intention to use all the employees of the Company, and to clear out from the shops a proportion of the tram cars and bodies now under repair in order to make more space available.

Declassified E.O. 12356 Section 3.3/NND No. 785019

1. With reference to the requisitioning of the above mentioned depot by 15 Base Workshop RASC, it is requested that the following facts be given consideration.

2. It is noted that in your letter of 20 May 44 (2032/42) to Director General, Military Railway Services, you stated that you would allow a limited amount of work being done for the tramways to continue, and to further extend it, should this be necessary.

3. The workshops, however, are also a repair depot of great importance for public services such as the Cumana Railway, the Girauvesuviana Railway, the Pilotum Service, and the Funiculares, as well as the State Railways, all of which are more or less in operation and rely on the depot to a large extent for repairs and re-equipment. Though these undertakings are of a civil character, they all have a bearing on the working of the Port of Naples and other military establishments in the vicinity e.g. in the transport of workers and goods. By the requisitioning of the workshops the public services will unavoidably suffer. Any impairment of these repair services will handicap not merely civilian interests, but more significantly, the operations of Military and Naval units dependant upon civilian assistance.

4. The total number of employees in the workshops is normally about 320, directly employed by the company. The present number is slightly less than 100. With this staff, the execution of repair works for the civil orders now in hand would take about 15 months to complete. With a view to reducing this period substantially the company has already arranged to increase the civil staff to 300, practically the same figure as their normal. Of the present employees (just under 100) about 40 are engaged on orders placed by the RASC.

5. The O.C. 15 Base Workshops has stated to members of this Headquarters that for the carrying out of heavy electrical and mechanical repairs, it was his intention to use all the employees of the Company, and to clear out from the shops a proportion of the tram cars and bodies now under repair in order to make more space available.

6. For these reasons it is requested that the Company be allowed to retain the sole use of one bay, now equipped with tramway tracks, in order that their repair operations be not completely suspended, as they are so vital to the needs of civil transportation. It is requested also that the company be given facilities to use certain equipment such as lathes, planers, shapers, drills, forge and other specialized equipment so that a certain amount of normal work may go on. In this connection it should be possible to have the bay separated from the rest of the workshops by a rough wall or structure, together with, perhaps, a separate entrance, so that your control and security arrangements need not be prejudiced.

1282

7. It is pointed out that there is no alternative accomodation suitably equipped for this work, with tram tracks and mechanised plant as detailed above.

SUBJECT: Use of correct titles.
TO : Psychological Warfare Branch, Information News and Censorship Section. A.F.H.Q. Unit No. 8, APO 512.

1. A United Nations News Service Bulletin of 15 June has come to my attention in which certain military programs were discussed. I note that in Paragraph 3 it is stated that Lt. Col. V. S. Thompson, Chief of the A.C.C. Public Works and Utilities Sub-Commission, had made certain statements.

2. Lt. Col. Thompson is not the Chief of the Public Works and Utilities Sub-Commission. This Sub-Commission is divided into two divisions, one on Public Works, and the other one on Utilities. Lt. Col. Thompson is Chief of the Public Works Division of this Sub-Commission. Lt. Col. L. A. Jenny is the Director of the Public Works and Utilities Sub-Commission, A.C.C.

3. When news bulletins are issued it would be appreciated if you can arrange to have the correct titles used in the future.

L. A. JENNY,
Lt. Col., C.E.,
Director.

UNITED NATIONS NEWS SERVICE — compiled by P W B

(Psychological Warfare Branch, Information News and Censorship Section, AFHQ: Unit No. 8, APO 512)

CANTONIERE BACK ON JOB AS ROAD RECONSTRUCTION PROGRESS

NAPLES, June 15 - - - Between 15,000 and 20,000 civilians are now working on main highways and bridges throughout liberated Italy. The Allied Control Commission's Public Works and Utilities Sub-Commission said today that 158 miles of highway were under major repair at the end of May, and that 791 miles of road have been turned back to the care of the cantoniere.

The number of men employed in implemented cantoniere road gangs of highways released for normal care is now almost 10,000. Another 7,000 or more are employed by contractors working on major reconstruction.

At the end of last month, 15 new bridges on main roads were under construction, and 10 additional bridges were under survey. Lt. Col. V.S. Thompson, chief of the ACC Public Works and Utilities Sub-Commission, said that most bridges will be replaced as they were, in the usual arched design in stone or brick.

The total value of contracts let up to the first of this month on construction and repair of roads, bridges, and buidings was almost exactly 250,000,000 lire. Road work is expected to spread up as the Government's Public Works Ministry pushes Italian production of cement and crushed stone.

1276

Declassified E.O. 12356 Section 3.3/NND No. 785019

Palermo 24 May 1944

Lt.Col. Jenny Public Works
Naples

The Allied Control Commission

In response of the numerous demands received and reports made by the technical offices of the Commission, requested some time ago of His Excellency Musotto, High Commissioner of Sicily to order an inquiry to establish the responsibilities, more or less, of the office of Civil Engineering of Palermo.

His Excellency, Musotto has appointed a commission composed of three of the best engineers of Sicily.

1. Engineer Migliozzi, retired Lt. General.
2. Engineer Caracciola, Chief Inspector of State Railroads retired professor of the University.
3. Engineer Ovazza, well-known professional.

Two weeks ago, after several months of work, the Commission has presented the report to His Excellency, Musotto.

The report reveals: 1) that the Chief of Civil Engineering of Palermo, Eng. Verderame is not competent to perform his work, 2) that the State could have saved 36 millions if the works entrusted to the Civil Engineering had been under another direction, 3) that the office of Superintendency of Public Works has been completely absent, disinteresting itself from everything, 4) that many other deficiencies of every type have characterized all the work of the Civil Engineering.

The Palermo people who realize this waste of millions due to favoritism or otherwise waited for regulations in the matter, instead it has learned that His Excellency, Lusotto has directly praised the work of Verderame to the Ministry of Public Works during his visit to Palermo;

Declassified E.O. 12356 Section 3.3/NND No. 785019

evidently, he didn't have the time perhaps nor will he have the time to read the report of an inquiry which he, himself, ordered.

The pressure of the Masonry headed by Dr. Cipolla and the blood relationships between Lusotto and Verderame have more influence than any accusation whatsoever.

Is this the Italy liberated by the Allies or is it still the one of Mussolini who hid the truth and allowed robbery?

Why appoint a Commission of Inquiry when the report is not read?

Has the Allied Control Commission which provoked the inquiry been informed of the outcome of such inquiry?

That Commission which has given millions with the aim of only executing public works and not to squander them as they have been?

We hope that all the people can believe in themselves and have faith in the new honest Italian liberal institutions.

SUBJECT: Preparation of Plans.
TO : Minister of Public Works.

1. As it is very difficult for us at times to find locations of certain bridges or other projects to be reconstructed, will you please instruct all of your Genio Civile that, when bridge plans or plans for other projects are submitted, a small scale location plan be drawn on the same sheet where the bridge or other plan is drawn on. This sketch plan can appear in a corner or in any other available space on the sheet, but it should show the nearest larger communities that can be located on a map and the location of the project with reference to these larger localities and giving nearby highways or railroads. This small plan should be drawn to scale with a scale indicated underneath the plan and with the name "Location Plan" shown.

Le notizie sulle altezze medie e permanenza della ne= ve nei valichi stradali potranno essere richiesti alla Azienda della Strada.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Con paziente spoglio che richiederà del tempo, qualora lo si ritenga necessario, si potrebbe per alcune stazioni di questo Compartimento ricavare la altezza media di precipitazione e la massima neve caduta giornalmente.
Per ora si possono comunicare per orientamento la frequenza e le altezze massime di neve che nel periodo I93I - 42 sono state raggiunte in due stazioni caratteristiche di questo Compartimento (Vedi elenchi allegati).
A titolo di largo orientamento può segnalarsi che in genere, salvo eccezioni, la neve in questo Compartimento comincia verso Novembre e scompare col Marzo, e come vedesi dal prospetto allegato, alle quote alte, oltre i I300 metri, nel Marzo I94I raggiunse un massimo di I50 cm. di altezza sul suolo (ad Ovindoli a nord di Avezzano) ed a quote più basse, verso i I000 metri, si aggira intorno ai 50cm. pur con qualche massimo (di cm. 94 come nel Marzo I933 a Cercemaggiore fra Benevento e Campobasso a 960 m.s.m.).

Subject: Boots for Electrical Workers.

To : Industry and Commerce Sub-Commission.

1. We have received a request from the Societa Meridionale di Elettricita for the supply of 750 pairs of boots for workers engaged on the maintenance of electrical supplies throughout Southern Italy.

2. These workers are engaged on work of high priority in maintaining supplies of electricity for factories engaged on work of a military nature.

3. It is requested that consideration be given to supplying the company with repaired army boots.

Allied Force
MILITARY RAILWAY SERVICE
Office of Director General

APO 400
24 May 1944

SUBJECT: Cancello-Benevento Railway

TO : Public Works and Utilities Sub-Commission, Allied Control Commission, APO 394.

7010 84

1. ACC/101/PWU, letter 17 May 44.

2. The management of this railroad has been advised previously by this Headquarters that there is no military necessity for the reconstruction of the line in question. It is my opinion that there is insufficient necessity for the restoration of the line to justify the use of material and labor necessary to restore it.

3. Much of the information given you in letter from Miniater Tarchiani, under date 13 May, is erroneous. The Aversa-Villa Literno Line has been restored to service. The Benevento-Avellino Line is estimated can be restored to service by late Fall, and authorization of this work is being given. The seven kilometers of rail removed from this line was not done lately but was actually done last December in order to provide vital track materials necessary to support the military effort.

4. Certain portions of this private line are now being prepared for hospital facilities in the Cancello area. The balance of the line is very badly damaged. Its repair is not justified and should not be undertaken during the present emergency.

Subject: Cancello-Benevento-Napoli Railway Reconstruction section of destroyed rails.

Strade Ferrate Sovvenzionate Company, operating the secondary railway line Benevento-Cancello has informed that after the Allied occupation, they have taken care, with great financial burden, the reconstruction of the above railway line.

To date the reconstruction of six bridges is completed and three more, very important ones, are being rebuilt. They have also almost entirely replaced the rails destroyed by the German troops, which devastations, including destruction of rolling stocks, caused damages of over 41,000,000 lire. Having local Authorities show much interest that the line be reopened to traffic as soon as possible, the Company did its best so that their line started operation from May 1, limited for the time being to 2-3 daily trains (services) in each direction.

Lately the Allied Command, Railway Construction Office, represented by General Gray with Hq at Piazza Nicola Amore 2 (Naples) has given instruction for the removal of about seven kilometers of rails of the above line, between the stations of Cancello and Santa Maria a Vico, including sleepers, making impossible for the Company to meet the desire of the authorities and the population, that was hoping to no longer have to use the ill equipped motor vehicles for traveling between their homes and Naples.

As the above line is actually a very important railway connecting Benevento and all the localities of the Caudina Valley with Naples, handling daily from 15 to 25,000 passengers and 3,500 tons of freight, 2,000 of which foodstuffs, see the attached diagram prepared by the Company. The Company requests that in the shortest possible period of time, be reinstated the removed section of the rails to protect the interest of about one million people served by this line. For the reconstruction of the lines could eventually be used sleepers and rails of the railway line Aversa-Villa Literno not been used at the present time, or the materials of the line from the station of Benevento Porta Rufina to the Chianche station or of the railway line Benevento-Avellino, as the latter line in view of the very heavy damages done by the Germans, cannot be rebuilt for a number of years.

Owing that public interests are involved, I beg you to examine the possibility of granting the Company(s request and I thank you.

Memo.

Your copy of letter No. 1, of 5 April, sent to Port Commandant, Naples, has been considered. Following investigation, and a conference on 27 April, it was found that you already have access to two warehouses in the Via Flavio Gioia, and that you had not proved any urgency. The Monopoly may have access to remove salt now stored, but the Port will not be recommended to change the fence.

You may be hearing further from the Port Authority direct.

L.A. JENNY,
Lt.-Col., C.E.,
Director.

27 April I944

Subject: Italian Salt Warehouse.

To : Lt-Col.Jenny.

At a conference 9 AM April 27,I944, with Col.Parrish of the Port Headquarters Major Price of the Revenue Section ACC and Major Hitchcock PW&U Sect. it was ascertained that the Salt Monopoly:

(1) Had access to two warehouses on Via Flavio Gioia.
(2) Had failed to show that they needed the building in question urgently.
(3) Had not ascertained where the ships bringing in salt would unload .
(4) Had not exhausted all efforts to locate additional space which might be needed in other areas than the Port.

In view of the above it was agreed that no recommendations would be made to the Port to change the fence but that the Monopoly would be permitted access to the building to remove the salt now stored therein and further consideration would be given at a later date, to allow use of building.

In view of the necessity of restricting use of streets in that vicinity and the fact that the port may require the particular building I do not believe the necessary permission will be granted and I personally cannot recommend that it should.

The matter is now closed as far as this section is concerned. It should be noted that aid to accomplish this favor was requested of Major Foley, Major Price and Col.Jenny, the presence of the others was unknown to me until I was asked to the conference.

John F.Laboon,
Lt-Col.C.M.P.

25 April 1944

Subject: Italian Salt Warehouse.

To : Lt-Col.L.A.Jenny.

The State Building is located about one block east of the Main Port Entrance. The west corner has been badly damaged by a bomb hit otherwise it appears to be in fair condition. At present all the entrances are blocked by the wire fence therefore it was not possible to enter the building.

Access may be obtained only through the gates at the westend of ZANZUR barracks or from a narrow side street almost 4 blocks east of Zanzur which necessitates entrance to the Port enclosure.

I do not agree with the plan shown. The wire could be connected to the NE corner of building marked "A" therefore no new work would be required. The removal of the wire from Via Dogana del Sale and Via Flavio Gioia would not affect the Port enclosure.

The building was used as a store house for Salt and is in fair condition. Entrance is now being obtained through gaps in the wire and steps of plank put over the fence, this undoubtedly being the work of persons not authorized to enter the premises.

To allow use of the building would require negotiation with the Port Authority to obtain permission to remove the fence. That is all that is now necessary. I believe this permission could be obtained unless the Port is planning to use the building. No approach or talk had with the Port officials.

John F.Laboon,
Lt-Col.C.M.P.

NAPOLI

OGGETTO Edificio demaniale di Via Dogana del Sale 6 - Richiesta di autorizzazione per l'accesso all'edificio e per l'esecuzione di alcuni lavori di protezione.

L'edificio demaniale in Via Dogana del Sale N.6 angolo Via Flavio Gioia, adibito a deposito di sale nei locali al pianterreno e ad alloggii per i Sottufficiali della R^ Guardia di Finanza nei locali superiori, è stato circoscritto dalle Autorità Militari Alleate con filo di ferro spinato per modo che non è più possibile accedervi ed eseguire i lavori di riparazione di danni di guerra che erano stati già iniziati prima che l'Armata Alleata entrasse in Napoli.

Intanto attraverso brecce aperte nella recinzione di fili spinato e i vari accessi dell'edificio, che sono stati forzati, i ladri penetrano nell'edificio stes-

E'STRACT: STATE BUILDING at Via Dogana del Sale 6.-

Authority request for the entrance into the building to effect some protection works.-

The State building at Via Dogana del Sale N.6, corner Via Flavio Gioia, has been circumscribed with barbed wire by the Allied Military authority; so that it is impossible to go into it and in order to effect the repair works of war damages, these works have been started before the entrance in Naples of the Allied Troops. The buildings employed as Salt warehouse in the ground-floor premises, and embellished lodgings for Subofficers of R. Guardia di Finanza in the superior premises.

so ed asportano quanto di più utile ancora esiste in esso, incluso mobili, infissi e ogni altro oggetto, peggiorando molto di più le condizioni statiche dello stabile con pericolo della pubblica incolumità.

Si prega codesto Comando di voler possibilmente fare spostare la recinzione come dall'accluso disegno in modo da consentire a quest'Ufficio il libero accesso all'edificio attraverso il varco di Via Depretis e quindi di eseguire i necessari lavori di riparazione e protezione.

L'Ingegnere Direttore

(G. Briziolo)

Meanwhile, through some gaps which have been made in the barbed wire and the different entrances of the building, which have been forced, the thieves go easily into the same building and carry away every most useful thing they can find out, as furniture, fixtures and any other thing making worse the statical conditions of the building with great danger of public safety.-

In consequence this Command is bonged to remove the barbed wire enclosure as the enclosed plans will show, so that this Office may have free admittance into the building through Via Depretis entrance and may effect the necessary repair and protection works.

(G. Briziolo E.)

Director Engineer

Subject: Data on Pontine Marshes.

To : Regional Control Commissioner, Region IV.

1. Recently your Lt.-Col. Findley asked us if we had any engineering data on the Pontine Marshes. We advised him that we did not have such data, but would try to obtain it for your Region. We made several inquiries, including the Ministry of Public Works without success, but the Ministry sent out a request to all its personnel to obtain such data for us , if available. It found one copy of a general report on this subject in the Province of Salerno and has forwarded it to us with the request to return it as soon as it had served our purpose.

2. We are, therefore, forwarding this copy to you with the request that you copy such information as may be of value to you and make photostat copies of plans, etc., you may want to have and issue to your staff, and then return this book to us for forwarding to the Ministry, as requested.

3. In a discussion with a Ministry official on this subject we are given to understand that all drainage is now by gravity and that the large area, cross-hatched in red on the first map, entitled "Bonifiche Agro Pontino", which used to be below sea level, had been filled in to a minimum of 30 cm. above normal sea level and was now not subject to inundation in normal periods. However, we are advised that about one third of that area may, at times of high water, be flooded up to about 20 cm.

4. While, as stated above, the drainage is by gravity, a number of pumping stations, electrically operated, had to be installed to pump the water to a higher level ditch. These pumping stations are located on the map above referred to and are described in the book.

5. We hope that the above information will be of value to you and if there is any other assistance we can give you we shall be glad to do so.

Subject: Services of Pvt. L. F. Gentile.

To : Whom it may concern.

1. This is to certify that Pvt. L. F. Gentile has served with the Public Works and Utilities Sub-Commission, Allied Control Commission, from 28 October 1943 to 25 February 1944.

2. The work assigned to him was mostly of a clerical nature and acting as interpreter. During the last 3 months his work was largely of a character of assistant to our officer who was in charge of reconstruction of buildings to be used for quarters by A.C.C., acting as interpreter and carrying out such other tasks assigned to him. His work was very satisfactory and, in fact, a recommendation was made for promotion to Corporal.

2 Feb 44.

Subject: Decisions to be made by higher authority.

To : Vice President, Economic Section, ACC.

Attached hereto is a report of a meeting held with the Minister of Public Works.

I wish praticularly to call attention to paragraphs 4 and 7.

Para.4. We have always maintained that rate making was a national problem and could not be settled on a provincial or regional level. In fact Mr. Grady stated to me that he wished to review these, after I had made my recommendation, before orders are issued. I do not know if the Minister is correct in his understanding. Whatever it is it is important and urgent that a decision be made as to whether Sicily is to handle rate problems by itself, or if these are to be submitted to us for consideration and decision at this HQ. so as to have uniform rules and methods applied in arriving at decisions, even though the rates or increases will vary, possibly for each property. All we are interested in at the moment is to allow a rate sufficiently high to eliminate monthly operating deficits and to allow no payments of interest or dividends.

Para.7. The Minister wants to move his HQ to Scafati, just below Pompei. Personally I think that it will help us to have them that much nearer. He is most anxious to receive an early reply. Will you please advise me so I can inform his representative here at Naples.

L.A. JENNY,
Lt-Col.,C.E.
Director.

Subject: General Information.

To ; Director, Sub-Commission, and all officers.

If it is necessary to obtain oils or petrol for civilian uses the following procedure should be adopted.

1. Regional officers should complete Petroleum Form No 5. This form is available at all Regional Headquarters.

2. Send completed form to Adv Echelon AFHQ Naples; Capt Fagan at present attends to these matters at AFHQ.

3. If the form No 5 is in order it will receive AFHQ approval and will be passed to Commitato Italiane Petroli, the civilian organisation, known as the C.I.P.

4. The Commitato Italiane Petroli will issue the permit for purchase to the civilian body mentioned on the Regions Form No 5.

SOCIETA' ANONIMA GAS. "VITO"
B E N E V E N T O

Considering the great necessity of bricks, specially of covering material, necessary to the arrangement, also if partial, of the town of Benavento we have taken trouble repair the damages produced by actions of war and to put in condition the establishment to function as soon as it has furnished the bill of electric light and coal.

a) Electric energy about HP 200 (these quantitative must increased to about HP 370 during the period of full working from April to October).

b) Coal daily TP 4/5 and lignite daily T.12/14.

c) Soapliola Ql. 7/8 to the month.

d) Fat for Stauffer Kg.? 30 monthly.

Being able to dispose of a part of this bill, we can limit the production:

About n. 25.000 tiles tipo marsigliese
" " 25.000 " and pitojer tipo romano.

during the period April October. For this reduced production is necessary:

a) Electric energy about daily HP 100
b) Coal totally T. 220/250 and lignite totally T. 700/750.
c) Soapliola totally Q. 20/24.
d) Fat for stauffer totally Kg. 150.

(for preliminary work) Singling out the working programme it is indispensable the electric energy, necessary to the workshop function for about daily HP 5/6.

With this daily quantity of electric energy we can finish the repairings in about 15/20 days of work?

Recovation of requisition Industrial Establisment.

Notes and clarifications asked following the investigation with

M. Wilson of the Allied Central Commission.

We have the pleasure to expose the notes and clarifications as to the object:

1) Peculiarities and capacity of construction of the Establishement. Industrial establishing specially endowed for complete working of the wood, specially in the achievements of it, which has constructed and can construct helix of planes, boxes for munitions, detach ed parts of barraks, doors, windows, special technical decorations for clinical study, photograchic pieces of formitures, of luxury and common, for habitations and for office, refectories, hotels, etc. etc.

Being furnished of a modern and rich machinery it has a great productive capacity. Actually it engages about a hundreds of workmen, inward or outward, and provides to the execution of various works by the 12-15 and. Air force, Am. Red. Cen, 26 sh Ospital, S.E.S. M.G.S.A. Adriatic Base Depot etc. etc.

History and modality of the requisition in act:

In last days of past November the establishment was visited by s officers of the Adriatic Base Depot Group. c/o XII AFSC A P O 529 th the disponibility of some pavilions to deposit cases and materials. Th consented to request giving a very ample place, marked in the alleye with u.s. It still came upon a regular notification of requisition by the Genio Militare with the following textual speech: "Places in Via Tetrarali Capruzzi n.286. The proprietary can stand the supirior door to store the goods and excluded stock and machinery".

Executed the order, consigned the places, by interested American Command some days after, it has been verbally annonced to the firm to be a total requisition, that is comprehensive of the entire establishment and the exclusions were provvisory and ad libitum.

So they take successively possession of the places 2-3-4-5-6-7-8-9 10-11-13-23-26 restraining the possibilities of work in the establishment

1221

Declassified E.O. 12356 Section 3.3/NND No. 785019

to the places 12-14-15-16-17-18-19-20-21-22-24-25, besides depriving so the, industry to explain its activity.

Also successively in date 20.12.43 they have provided to requisition the superior door unique place remained for the shelter and deposit of the numerous of a very great value goods, existing in the factory.

3) Reasons of the request of revocation of requisition, also if partial.

These reasons lastly take itself off all the exposed n.5 and have had the full recognition of W. Wilson. We understand the war's necessities and we do not discuss the opportunity or less, of the happened requisition. Only we take the liberty to do to consider thath more and better our industrial establishing can be of use, to the allied ends necessities, if exploited in its intrinsic productive capacity and not for cases deposit and for sleeping-room of 50 men, as the end for which to vay it is used.

4) Least extend of the revocation of requisition.

Demonstrated for us this incontestable reason we entreat for the order revocation of requisition by the Allied Control Commission, of the places marked in the plan with n.2- 11-13-14)15-16-17-18-19-20-21 22-23-24-25, leaving to the American Command of the Adriatic Base Depot Group the places n.1 - 3 - 4-5-6-7-8-9-10-26.

So, we would obtain to subdivide the entire establishment in two logical parts of which one (comprehending technical establishing, machinery, work-rooms and technical-administrative direction- should continue to work and produce, while the other (comprehending the best places) should remain in use of American Forces for deposit and sleeping-room.

BROTHERS PANCINI

MOLFETTA

13 Jannary '44

TO THE GOVERNMENT OF ITALY

The undersigned house a the proprietary of a great establishment for the work's wood, in uhic work continually about 250 workmen and of annexed depotmagasines, of a total extent of about 25000 mq. of covere and discovered ground.

The 22 november the English Staff of Bari, notified the order that the fattory and all the material in deposits contained, shond be exclusively utilised for the Britesh Army Forces and consequently, each extraneous activity mighit finish.

No contract was signed; and as the requisitiou's note had an immidiate effectverballbutt was sixed 6n accord of work secned should have to translate in a definitive act, consisting in the following form:

The British autorities should have profitted of the escorts of existing material in the establishment till the exhaustion, and contemporaniously, tley should furnish the necessary rawmaterials.

The hous should have given its work for the construction of products at a determined price agreed with the above mentioned authorities and should have also paid at a prevtously determined price, the raw-materials furished by the English authorities for the said workings.

The work had begining with carefulness by the undersigned firm, and the British autorities were much satisfied for the working proceding for quantity and for execution.

But without pre-notice and reason, in last two day of pas December, the British autorities annonced, always verbally they should have totally requisitioned the establishment and deposit, which they should have directly managed.

And it was immediatly performed thisorder the 1 st inst January Neither protestations, nor prayers were sufficient to accord up, also a brief delay bust it has been given an immediate performance at an order emanated without observance of formality and withact presenting

Declassified E.O. 12356 Section 3.3/NND No. 785019

The 22 november the English Staff of Bari, notified the order that the fattory and all the material in deposits contained, shond be exclusively utilised for the British Army Forces and consequently, each extraneous activity nighit finish.

No contract was signed; and as the requisition's note had an immidiate effectverballyit was sixed on accord of work secmed should have to translate in a definitive act, consisting in the following form:

The British autorities should have profitted of the escorts of existing material in the establishment till the exhaustion, and contemporantously, tley should furnish the necessary raumaterials.

The house should have given its work for the construction of products at a determined price agreed with the asove mentioned authorities and should have also paid at a prevtously determined price, the row-materials furnished by the English authorities for the said workings.

The work had begining with carefulness by the undersigned firm, and the British autorities were much satisfied for the working proceding for quantity and for execution.

But without pre-notice and reason, in last two day of pas December, the British autorities annonced, always verbally they should have totally requisitioned the establishment and deposit, which they should have directly managed.

And it was immediatly performed thisorder the 1 st inst January Neither protestations, nor prayers were sufficient to accord e.g. also a brief delay bust it has been given an immediate performance at an order emanated without observance of formality and without presenting anyone regular document of the allied Authorities or Italian autority.

Against this measure, the undersigned firm appeals to the Italian Government exposing the following reasons:

1) The firm does not work and never has been working exlusively for war ends; it has principally a rigging for civil works and has continually furnished the Public Works Minister, this of comunication and others for civil works.

Only in last two years for the contingent circunnstances, it has furnished also the War, Air Force and Navy's Ministers, nevertheless without deristing the usual work.

1228

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

With the occu-ation by the British Autorities, the work is esclusively bound to the standard fabrication of parts of booths and packings.

For these works the complex machinary of the house, is not ful exploited, because only the mecanic saws and other little machines are functioning, while all the other machines are being stop_ ped (planes millings, shapings machined) which might be used for workings, necessary to the exigences of our governement, (Public Works Minister) Railways etc.) which ask for works we cannot execute.

3) The carpentry works, for which is actwally used our esta_ blishment can be made by other saw-mills also important (there is of these enough inactive in Puglia) having the suitable machinery for these works. Our factory is one of few existing actually in all the liberated Italy and can be utilised in works for which is impossible to make use of smaller industries.

4) For all the before mentioned the requisition should not have to be total and not to enlarge upon the materials are not of an immediate use for war's ends, as for istance appreciated woods, and not to the articles and iron-tools, concerning the precedent workings of the house and existing in the warehouses of this the use of which is for works of blinds, pieces of forniture locks etc. etc. which are not anyone offinity or end of war.

The firm should have to be in condition to exploit its possi_ bilities of work and it could be maintained the form, already before verbally accorded, with the English autorities, to execute for com_ mitting, the necessary workings also with the tie of an absolute priority, but with the liberty, to be able to exploit it productive capacity in other workings for civil exigences.

5) Do not prepple diject that the precedent observations are concerning private questions; we can simple reply, public economy is constituted with the total of private interests, by which the first has the origin and prosperity. When the private interest are choked or killed the public economy is destined to decline.

6) It is not to forget and not to neglect the damage produded to the national economy by this form of total requisition: the indennisties of requisition charging on the public estate constituting the complex of the establishment and on the relative wood, should have to change on the Italian Government.

Declassified E.O. 12356 Section 3.3/NND No. 785019

workings, necessary to the exigences of our government, (Public Works Minister, Railways etc.) which ask for works we cannot execute.

3) The carpentry works, for which is actually used our esta_ blishment can be made by other saw-mills also important (there is of these enough inactive in Puglia) having the suitable machinery for these works. Our factory is one of few existing actually in all the liberated Italy and can be utilised in works for which is impossible to make use of smaller industries.

4) For all the before mentioned the requisition should not have to be total and not to enlarge upon the materials are not of an immediate use for war's ends, as for istance appreciated woods, and not to the articles and iron-tools, concerning the precedent workings of the House and existing in the warehouses of this the use of which is for works of blinds, pieces of forniture locks etc. etc. which are not anyone affinity or end of war.

The firm should have to be in condition to exploit its possi_ bilities of work and it could be maintained the form already before verbally accorded with the English autorities, to execute for com_ mitting, the necessary workings also with the tie of an absolute pricrity, but with the liberty, to be able to exploit it productive capacity in other workings for civil exigences.

5) Do not people diject that the precedent observations are concerning private questions; we can simple reply, public economy is constituted with the total of private interests, by which the first has the origin and prosperity. When the private interest are chok_ ked or killed the public economy is destined to decline.

6) It is not to forgot and not to neglect the damage produded to the national economy by this form of total requisition: the indemnisties of requisition charging on the real estate constituting the complex of the establishment and on the relative wood, should have to change on the Italian Governement, and all know the burden of these conditions.

7) We have confidence our Governement being in connection these considerations to the Allied autorities, can obtain the reception of our requests, for the comprehension mind on several occasions the Allied autorities have shown to want to give towards our nation for the unfortunate conditions in which and against which will, fatally Italy is being.

Thesefore we do the following requests:

Declassified E.O. 12356 Section 3.3/NND No. 785019

A) The obtainement of the requisition revocation of our industry in order to be given back to the working liberty.

B) From ours, we engage ourselves to execute with absolute precedence all the requests of work that the English authorities can ask.

The English and Italian authorities should provide waking to work our establishment putting it in condition to procure the necessary raw-materials both directly both through their way and suspending each form of requisition for the materials existing in the establishment and not sitable to immediate workings of war.

Public Works and Lines Sub-Commission

LAJ/cw 2

19 Jan 44

ACC/101/PWL

Subject: Italian Help.

To : Port Commandant. Dock House, Naples.
Piazza Porta.

1. We received a visit from Mr Giorgio Marli, Navigator and Pilot Pilot looking for employment. He came to us possibly on the theory that since this Sub-Commission is to handle all civil port and harbor reconstruction problems we might know where he could be placed.

2. We was advised that we had nothing to do with ship operation and that we could forward his record to your office for consideration.

3. He speaks a fair english and French and appears to be a young man with a good education and training, and, therefore, might be useful to anyone needing help along his experience. An outline of his record is attached showing that he had 3 1/2 years in charge of navigation of a ship and 3 years port service, registry etc.

4. I. Will you be so good as to advise this man whether or not there is an appropriate opening in your service.

L.A.JENNY.
Lt, Col. C.E.
Director.
