NORTH AFRICAN THEATER OF OPERATIONS
UNITED STATES ARMY
APO 534

AG 352.15/334 P-O

7 September 1944

SUBJECT: Applicants for Army and Navy Staff College, Ninth Course.

TO : All Concerned.

1. The ninth course of the Army and Navy Staff College commences on or about 11 November 1944. It is desired that you submit recommendations for officers deemed qualified to attend, so as to reach this headquarters not later than 28 September 1944. Negative reports will be submitted in the event that no officers are recommended.

2. To be eligible for attendance an officer must:

a. Be in grade of Major or above, with the following limiting ages:

Major	35
Lt Colonel	40
Colonel	45
Brig General	50

— too old mark. Try HVT

b. Be a graduate of the Command and General Staff School or have had experience in command or staff positions involved in joint operations with the Navy that may be considered in lieu of attendance at Command and General Staff School.

c. Have received a superior general efficiency rating or an excellent general efficiency rating with a demonstrated superior capacity not yet reflected in general efficiency rating.

3. Officers of all components are eligible.

4. Recommendations will show name, serial number, present station, and assignment, age, general efficiency rating and last annual rating if available, and a brief resume of all important duties performed during the past two years. Only officers of the highest caliber will be considered.

5. Candidates selected will be ordered to the Army and Navy Staff College on a temporary duty status. Commanders concerned will be advised at the earliest possible date if any of their candidates have been selected.

By command of Lieutenant General DEVERS:

/s/ R. H. Christie
R. H. CHRISTIE,

SUBJECT: Personnel Procedure, Economic Section.

TO : Agriculture S/C - Commerce S/C
Industry S/C - Labor S/C
Finance S/C - Food S/C
Transportation S/C - Pub. Wks. & Util. S/C

1. With thought to the decentralization of matters pertaining to the assignment of officers in the Economic Section, Headquarters and Field, it has been decided that the responsibility for administrative procedure in personnel will hereafter revert to the individual Sub-Commissions. Accordingly, then, the Sub-Commissions will now maintain direct contact with the Establishment Branch and will carry on the necessary correspondence through direct channels with the proper office of that Branch.

2. Personnel matters requiring the indorsement of higher authority will be forwarded to the Vice President, Economic Section, as in the past. Matters of particular interest regarding personnel will likewise be reported to the Vice President, Economic Section, either in "extra copy" form or by forwarding the original subject matter for comment. It must be remembered that although the Sub-Commissions will proceed in these matters as individual units, that all collective action must conform with the general policy of the Economic Section as a whole.

3. "Ceilings" and allocation schedules will be maintained as requested by the Chief Commissioner and the same principles of policy regarding them will be followed as ordered by the Vice President upon the recommendation of the Establishment Officer.

4. Sub-Commissions will have recourse to the Vice President of this Section on matters concerning the release and assignment of personnel as well as other matters pertaining to their officers and EM/CRs but it is urged, for reasons of expedience, that the Sub-Commissions maintain a firm system of control that will assure a clear and concise Personnel Program.

SUBJECT: Classification and Rating of Enlisted Men

TO : Public Works & Utilities Sub-Commission, ACC
APO 394, US Army.

1. In order that this office can comply with letter, file AG 201.6, Subject: "Classification of Enlisted Men", dated 5 August 1944, Headquarters, Services of Supplies, NATOUSA, and Circular #100, dated 13 August 1944, Headquarters, NATOUSA, it is necessary to have the following information on all enlisted men (American) attached to your office for duty.

a. Exact nature of duty performing.

b. Degree of skill in performance of such duty:

(1) Semi-Skilled
(2) Skilled.

2. In the determination of degree of skill you will be guided by the following as extracted from letter, file AG 201.6, Subject: "Classification of Enlisted Men", dated 5 August 1944, Headquarters, Services of Supply, NATOUSA:

* * *

Sec II, par 1. Definitions.

a.(1) Semi-Skilled means capable of performing the duties under supervision. This is the rating given to enlisted men who are learning a new duty as soon as they begin to show familiarity with the duty or those who have failed to attain sufficient proficiency to be classified as skilled.

(2) Skilled means capable of performing the duties in an efficient manner without supervision beyond that inherent in the job itself.

* * *

3. Roster submitted is as of 31 August 1944 containing 5029 latest information in possession of this office. Any changes s-

File: AG 201.61

SUBJECT: Efficiency Reports.

TO : All Concerned.

1. Under the provisions of AR 600-185, dated 13 October 1942, as amended, the following information is published for your guidance in accomplishing semi-annual Efficiency Reports to be rendered as of 30 June 1944.

I - FIELD GRADE OFFICERS

1. An Efficiency Report on WD AGO Form Number 67 will be rendered on each officer of field grade of all components by the Senior (American) officer within each Company or Sub-Commission of Allied Control Commission on 30 June 1944 for the preceeding six (6) months, (1 January 1944 to 30 June 1944 inclusive). (Efficiency Reports will be rendered in duplicate on officers of field grade and on officers specifically subject to provisions of paragraphs 3b and c, AR 600-185. Original and duplicate copy will be signed by the reporting officer and forwarded to higher authority, as stated in paragraph 6, AR 600-185. All reports will be forwarded by the reporting officer within 10 days after close of the period covered by the report, - Change #5, AR 600-185, dtd 14 Apr 44).

2. This Efficiency Report consists of completed paragraphs, A, B, C, E, F, H-10, L, M, N, P, Q, and S of WD AGO Form Number 67. No others will be filled in. Paragraph 3c, AR 600-185, states that a full report may be submitted if the reporting officer so desires. However, in view of the number of field grade officers in this organization, and in order to provide a system of uniformity, it is requested that no full reports be rendered.

a. Paragraph "A" will include name, serial number, grade, arm or service, organization and official duty status of the rated officer to the officer rendering the report.

b. Paragraph "B" will show the entire six month period for which the report is rendered regardless of the length of time the officer reported upon has been under the command of the reporting officer. However, in the event that a SPECIAL Efficiency Report has been rendered on an officer for any portion of the six month period and the WD AGO Form 66-1 so indicated, the semi-annual report will not include that period of time, but a notation to that effect will be entered under Paragraph "P".

c. Paragraph "C" will include all stations at which the officer served during the period covered by the report. Such entries as "North Africa", "Sicily" "Italy", "Camp Grant, Ill", etc., are appropriate.

5028

Declassified E.O. 12356 Section 3.3/NND No. 785019

Ltr, Efficiency Reports, dtd 2 June 44.

d. Paragraph "E" will be confined to principal duties and will include all such duties performed during the period covered by the report.

(1) Basis for opinions will be indicated by lining out inappropriate words. Example: "Frequent observation of the results of his work". All others lined out.

(2) Duties performed at other organizations or under other commanders, the length of time of these duties, and the manner of their performance have been transcribed from entries on WD AGO Form Number 66-1, on file at this headquarters. In the event that there are no entries on the enclosed Efficiency reports, it is to be understood that there are no entries on WD AGO Form 66-1 (or that WD AGO Form 66-1 is not on file at this headquarters).

(3) If principal duties for any period of time are not recorded and the officer upon whom the report is rendered cannot furnish necessary information or no duties have been assigned for any period, a remark, "Unknown" followed by the period of time will be made.

(4) All fractions of months will be shown in thirtieths, (5/30, 14/30, etc). The total length of service shown in this paragraph will agree with length of service covered by the report.

(5) In describing the manner of performance of duty or in making any ratings, the following terms will be used:

(a) Superior: Outstanding and exceptional performance of the particular duty reported upon. Personal characteristics, professional qualifications, or efficiency above that considered EXCELLENT. (SUP).

(b) Excellent: Performance of the particular duty reported upon in a very efficient manner. Personal characteristics, professional qualifications, or efficiency above VERY SATISFACTORY but below SUPERIOR. (E).

(c) Very Satisfactory: Performance of a particular duty reported upon in an efficient manner, or efficiency above that acceptable as SATISFACTORY. (VS).

(d) Satisfactory: Performance of the particular duty reported upon or personal characteristics or professional qualifications up to a minimum standard - passably efficient. (S).

(e) Unsatisfactory: Performance of the particular duty reported upon or personal characteristics or professional qualifications below minimum standard - inefficient. (U).

Declassified E.O. 12356 Section 3.3/NND No. 785019

175 D

(f) Unknown: To be used in all cases in which the reporting officer has had insufficient opportunity during the period covered by this report to observe the officer reported upon to permit a rating as to the performance of the particular duty, his personal characteristics or professional qualifications. (Unkn).

(6) Whenever an efficiency report contains entries which may be considered in any sense unfavorable, the reason for the entry will be clearly stated, and the reporting officer will refer the entire report by indorsement to the officer reported upon for remark. (Par 5, AR 600-185).

(7) In all cases the rating of "Unsatisfactory" will be considered as unfavorable except when based on physical condition of person reported upon. Any comments which detract from the reputation or the lack of good qualities of the officer will also be considered as unfavorable. For the purpose of determining when a report is to be referred to the officer reported upon, no distinction will be made between unfavorable entries of fact and opinion. (Par 5, AR 600-185).

e. Paragraph "F" will be filled out completely by indicating an "X" in the appropriate square. If any of the six items are unknown it will be indicated by placing an "X" under the Unknown column.

f. Paragraph "H-10" only will be completed. Paragraph "H-1-9" inclusive will be left blank.

g. Paragraphs "I", "J", "K", "O", and "R" will not be filled out.

h. Paragraphs "L" and "M". If the answer to these are "No", then fill out accordingly.

i. Paragraph "N" will be specific and give sufficient information to permit higher authority to gain an adequate idea of the future value of the rated officer. It will also include the following statement: "In comparing this officer with all officers of his grade known to me, I would place him among the (Upper) (Middle) (Lower) third".

P. on form

j. Paragraph "P" will include the following statement: "This officer (is) or (is not) performing duties commensurate with his grade."

k. Paragraph "Q". If the answer is "NO", then state No unfavorable entries.

l. Paragraph "S" will be filled out completely and if no inclosures, so state.

5027

II - COMPANY GRADE OFFICERS AND WARRANT OFFICERS

1. In accordance with paragraph 1b, AR 600-185, 13 October 1942, no efficiency report will be rendered on company grade officers and warrant officers, but in accordance with paragraph 8c(7), Change 3, AR 605-90, dated 28 January 1943, the reporting officer will initiate a letter report (See Form attached as Appendix I) direct to the Commanding Officer, this Regiment, stating the following information, for entry on WD AGO Form 66-1 by the custodian.

a. Type of Duty in accordance with TM 12-405, TM 12-406, and TM 12-407.

b. Unit, organization or station. Example: Co "O", 2675th Regt, ACC.

c. Dates (From and To) of each duty performed within the organization. The last Duty performed to include 30 June 1944.

d. Manner of Performance in accordance with d. (5), Section I above.

e. Initials both type written and hand written. (See appendix I attached).

III- MISCELLANEOUS

1. Attention is invited to the fact that when these reports have been accomplished by the reporting officer the information thereon is classified "Confidential" and will be treated accordingly.

2. Efficiency Reports will be prepared so as to reach this headquarters not later than 10 July 1944. Any anticipated delay will be promptly reported to this headquarters.

3. In the event that an officer reported upon has been transferred from your unit during the month of June to another unit within this organization,

Declassified E.O. 12356 Section 3.3/NND No. 785019

175B

Ltr, Efficiency Reports, dtd 2 June 44.

Efficiency Reports will be prepared and that period of time between date of transfer to 30 June 1944 will be indicated as "Unknown".

4. Efficiency reports should be neat and accurate. They should first be accomplished on work sheets in order to prevent strike overs and erasures. ALL ERASURES WILL BE INITIALED.

TO : Vice President, Admin Section. (9)
Vice President, Economic Section. (9)
Telecommunications Sub-Commission.

1. The ceiling for the total officer strength of the Allied Control Commission including all Regions, Sub-Commissions and American appointments to the Army Sub-Commission, has been laid down at 1222 - 611 American, 611 British. This ceiling is intended to cover the territory up to the RIMINI - PISA line but it is probable that if the rest of the territory falls with rapidity, we should be expected to cover the whole of Italy with this number.

2. It is not proposed to lay down War Establishments for Sections or Regions owing to the necessity for maintaining elasticity within the Commission. It is, however, necessary to lay down a basic distribution of these officers amongst Headquarters, Sections, Regions and Sub-Commissions.

3. I attach herewith as Appendix "A" a table which shows suggested ceilings for the various Divisions of this Commission. You will notice that I have divided the figures between Headquarters and the field, i.e., the Regions, and that I have shown a small reserve in each Section.

4. I should be grateful if Heads of Sections would give this matter their immediate attention and prepare their comments on the figures proposed. If it is possible the numbers should be reduced. If the numbers shown are not sufficient for any one Sub-Commission, I would ask Heads of Sections so to manipulate them that the total shown for their Section is not increased and I would ask that a case be prepared for any increase in any Sub-Commission. I suggest that the reserve be absorbed at the discretion of the Head of the Section.

5. I should be glad if Vice Presidents when preparing their comments would define the distribution of officers amongst Regions where this is practicable.

SUBJECT : Employment of PN. and LAC. Personnel.

Circulate

TO : Distribution below.

1. The present difficulties that are being experienced owing to the extreme seriousness of the existing Manpower situation are quite apparent.

2. In order to ensure the best use of all available personnel, it is essential that every man, whether he be of low medical category for reasons of sickness or wounds sustained in action or psycho-neurosis as a result of his former service, be employed in the type of employment to which he is best suited.

3. This letter is being given a full distribution in order to ensure that the LAC and PN personnel, who are now being posted to this Formation in replacement of high medical category personnel, receive sympathetic consideration and are not treated as unwanted personnel thrust upon us..

4. All PNs have undergone a month's training with a view to adjusting their mental outlook. They have been encouraged to feel that they are still useful members of His Majesty's Army and that their services are valuable. They have not been allowed to feel, or given the impression, that they are failures.

5. In many cases their mental condition has been created because of family troubles. These have been investigated, and in many cases eradicated, with the result that the men's efficiency has greatly increased. It has been proved that if such personnel feel that an interest is being taken in them as individuals, they become enthusiastic soldiers, with a greater determination to prove to the Officer or N.C.O., who has given them a helping hand, that they are efficient members of that unit.

6. It has also been proved that where PNs have been made to feel that they are welcome members of their new unit and that their work is essential and valuable, they have proved to be reliable and efficient soldiers. All these factors call for the tactful assistance of both officers and senior N.C.O.s in connection

Declassified E.O. 12356 Section 3.3/NND No. 785019

owing to the extreme seriousness of the existing Manpower situation are quite apparent.

2. In order to ensure the best use of all available personnel, it is essential that every man, whether he be of low medical category for reasons of sickness or wounds sustained in action or psycho-neurosis as a result of his former service, be employed in the type of employment to which he is best suited.

3. This letter is being given a full distribution in order to ensure that the LMC and PN personnel, who are now being posted to this Formation in replacement of high medical category personnel, receive sympathetic consideration and are not treated as unwanted personnel thrust upon us..

4. All PNs have undergone a month's training with a view to adjusting their mental outlook. They have been encouraged to feel that they are still useful members of His Majesty's Army and that their services are valuable. They have not been allowed to feel, or given the impression, that they are failures.

5. In many cases their mental condition has been created because of family troubles. These have been investigated, and in many cases eradicated, with the result that the men's efficiency has greatly increased. It has been proved that if such personnel feel that an interest is being taken in them as individuals, they become enthusiastic soldiers, with a greater determination to prove to the Officer or N.C.O., who has given them a helping hand, that they are efficient members of that unit.

6. It has also been proved that where PNs have been made to feel that they are welcome members of their new unit and that their work is essential and valuable, they have proved to be reliable and efficient soldiers. All these factors call for the tactful assistance of both officers and senior N.C.O.s in connection with their mental problems.

7. Regarding LMC personnel. These soldiers have also to adjust themselves to their new circumstances. In many cases they have been fighting soldiers, a fact of which they are very rightly proud. They do not always take the trouble to analyse for themselves the importance of their new employment, and are apt initially to 5000 some quite unjustifiable sense of inferiority vis-a-vis their late front-line comrades.

8. Here again they should be made to feel that they are welcome members of their new unit, and that here also there exists that

to sheet 2

20 Aug 53

Declassified E.O. 12356 Section 3.3/NND No. 785019

comradeship and esprit de corps which they had formerly known. They must also be made to realize the value which their new employment contributes to the war effort and to the well-being of their former comrades, all of whom are dependent on L. of C. Units.

9. Before posting, both PNs and LMCs are interviewed by Personnel Selection Staff who assess their qualifications and recommend them for various types of employment. With the exception of G.D.men, these men are being assigned in the trades or tasks as recommended by the P.S.S. On no account will such personnel be otherwise employed without first reference to this Headquarters.

10. All PNs and LMC personnel who are now being posted will be given every opportunity to settle down in their new surroundings as efficient soldiers. No efforts should be spared by Officers and NCOs to ensure that these men are afforded the encouragement and the personal interest which is so necessary to enable them to prove themselves to be efficient members of the Formation.

Cases are occurring, with increasing frequency, of Officers who are not content with their present assignments, making application, generally unofficially, to Heads of other Sections or Sub-Commissions to give them a job.

Unfortunately in many cases these applications have been favourably received and eventually a request has been made for the officer in question to be assigned.

You will realise, upon consideration, that this is not the correct procedure, and in fact that any Head of a Section or Sub-Commission is in listening to such an application, being disloyal to his fellow Head.

If an officer is not satisfied with his present assignment he has the right of making application to the Head of his Section through his immediate Superior, for a change of assignment - he can also state any preference that he may have.

I therefore request that all Heads of Sections or Sub Commissions will discourage these private assignments and insist that officers who desire a change of employment submit their request for thisthrough the proper channels.

ACC/125/PWU

18 Sept 44

SUBJECT: Assignment of Personnel.

TO : Regional Engineer, Piedmont Region.

1. In reviewing your plan of procedure for your new Region I note that you assign Major BUCKLEY to "Water Section" and Major EBERLE to "Roads, streets, public work".

2. I wish to call attention to the fact that we have found that the officer charged with the highway problems, particularly in a Region as large as yours, will be kept extremely busy on that vital problem alone, without taking on any other duties. Your organisation in the Region must conform to the organisations in all other Regions. For this reason Major Buckley will be assigned the task of handling Water, Sewers, Buildings, Debris clearance and such general public works functions. Major Eberle will be assigned exclusively to the tasks of repairing and maintaining Highways and Bridges throughout the Region.

3. In any Region there may, from time to time, arise certain emergencies when it will be necessary for the Regional Engineer to request some of his Engineer Officers to handle special tasks. In that case you must naturally have the freedom of making such arrangements on a very temporary basis as you may find necessary to do from time to time.

L.A. JENNY,

17 Sept. 44

ACC/125/PWU

SUBJECT: Assignment of Officer.

TO : Major William M. Spann, Regional Engr.
Region IX.

Capt. Gaither of AMG - 5th Army phoned me yesterday asking for an officer to be assigned to assist them them when they get into Bologna. I advised him that we had no available officers here, but that I would arrange to have 1 officer, now assigned to you, temporarily attached to 5th Army for the specific purpose of handling public works problems at Bologna with the clear understanding that this officer would remain in Bologna and come under Region IX again as soon as that city was turned over to that region and that he be not requested to move forward with the 5th Army.

Since this is primarily an American organization we believe that Capt. R.P. Weeber should be so assigned.

We will issue orders accordingly on Wednesday 20 Sept. 1944, unless we receive any objections from you that would require changing this program.

You will not lose the Officer, but you will have to arrange to have Maj. Gamble handle any highway problems that may come up until you get to Bologna. However the Armies always maintain highways for some distance back and it is not likely that you will have any such problems to handle until after you have reached Bologna. On the other hand such problems as water, sewers, light, etc., are always turned over to us shortly after the occupancy of any area.

13 September 1944

Subject: Withdrawal of Public Works Officer.

To : Regional Commissioner, Region I.

1. In order to more adequately man northern Regions, it will be necessary to withdraw all possible Public Works and Utilities Officers from the southern Regions. The Director of the Public Works Sub-Commission is experimenting by withdrawing the last Public Works and Utilities Sub-Commission officer from Region VI on the 15 of September. He plans to withdraw Major Boyd, your only Public Works Officer about the 15 of October if the plan for Sardinia is successful.

2. The general plan has been agreed with the Minister of Public Works and the Italian Engineers for Sicily will take over full control of Public Works from the Public Works Sub-Commission. The Italian engineers will prepare plans for all projects in Sicily and forward these plans to the Minister of Public Works for approval. The Minister will pass on such projects in all cases which he has been given authority from us to approve and will send to Headquarters ACC only such projects as require critical materials and machinery.

3. The Italian Engineer will act as your Public Works advisor. He will make a full report each month as our engineers have done on all operations on the Island. He will address his report to the Minister of Public Works with a copy to the Italian High Commissioner and will deliver two copies to you on the 25th day of each month. One of these copies is for your record and one will be forwarded to the Public Works and Utilities Sub-Commission by air-mail with such comments as you may desire to make.

4. Major Boyd, your Regional Public Works Officer is now at Headquarters ACC and this change-over has been discussed with him. On his return to Sicily he should be able to arrange affairs so that the change-over can be made about 15 October. If his arrangements proceed satisfactorily and there is no further communication on this subject, you may expect orders to issue relieving Major Boyd on or about the time stated above.

Subject: Officers for Public Works in Liguria and Piemonte Regions.

To : Regional Commissioner, Liguria Region
Regional Commissioner, Piemonte Region

1. I have been informed by the Director of the Public Works Sub-Commission that he has insufficient personnel to send complete Public Works teams to both Piemonte and Liguria Regions.

2. The plan for handling Public Works problems in these two Regions is as follows: to the

a. The assignment to Piemonte Region of Lt. Col. C. R. Birchett as Regional Engineer and Capt. J. A. Pobb, Assistant Regional Engineer; Major J. P. Buckley, Public Works Officer, Major G. O. Eberle, Highways, and Major J. S. Bennett, Electrical Engineer.

b. To assign Capt. E. E. Smith, now Regional Engineer in Sardinia to Liguria Region as Public Works Officer.

c. Lt. Col. Birchett to be responsible for all Public Works in both Regions; to send such assistance to Capt. Smith in Liguria Region as Capt. Smith's reports and requests indicate as necessary and Lt. Col. Birchett can furnish. Requirements which cannot be furnished from the Piemonte team to Liguria, or for both Piemonte Region and Liguria Regions, Lt. Col. Birchett will call for assistance upon the Director of Public Works Sub-Commission at Headquarters ACC.

3. This information is given to you so that you may understand the reasons why additional Public Works personnel is not assigned to your Regions.

ACC/125/PWU 12 Sept. 1944

Subject : Deputy Engineer.

To : Regional Engineer, Southern Region.

My attention has been called to the fact that Major Fitzgerald is signing letters with the title of " Deputy Engineer". As Major Fitzgerald is not an engineer he could not properly act as your Deputy and issue instructions to officers who are engineers.

At our last Regional Engineers meeting we discussed the question of bringing Major Knight to Naples to be your assistant, particularly in view of your application to be placed on the rotation list to return to the U.S. and which we approved.

Will you, therefore, please take this matter up with Major Knight and arrange for him to come to Naples as your assistant. We had not issued instructions on this previously because of the uncertainty as to when Dist. 2. H.Q. will move away from Bari and when Dist. 3. will take over the whole of So. Italy.

ACC/125/PWU

8 Sept. 1944

Subject: Assignment of Officers, Region X, Now Piemonte and Liguria Regions.

To : Establishment Branch A.C.C.

In view of the shortage of officers in this Sub-Commission you have been advised verbally that we can not assign the necessary officers to both of these Regions, nor can we do so if other Regions are sub-divided.

We have made arrangements to assign a full team of officers composed of a Regional Engineer, 1 Public Works Officer, 1 Highway Officer and 1 Electrical Officer to each Region, i.e. IX, X, XI and XII, plus, in some instances, a second officer for P.W. or highway problems where deemed necessary. In addition we are prepared to send an officer to the Po Valley region exclusively on Bonifiche problems and may send other specialist from this H.Q., if and when needed.

As to the Piemonte and Liguria Regions we have made the following arrangements:

Assigned to Piemonte Region, but handling the work of both Regions:

Regional Engineer, Lt.Col. C.R. Birchett (now in Rome)
Assistant to Reg.Engr. Capt. J.A. Robb Jr. (now in Rome)
Public Works Officer Maj. G.P. Buckley (now in Rome)
Highways Engineer Maj. G.C. Eberle (now Reg.VIII)
Electrical Engineer Maj. J.S. Bennett (now on temp. duty with this H.Q.)

4934

Declassified E.O. 12356 Section 3.3/NND No. 785019

184A

In addition to this we have agreed to assign Capt. E.E. Smith, now Regional Engineer in Sardinia, and who has been ordered this H.Q. 15 Sept. 1944, to Liguria Region as Public Works Officer there, representing Lt.Col. Birchett in that Region, but functioning under Lt.Col. Birchett.

We believe the time is opportune to issue orders assigning these officers to the Regions indicated above, with instructions for all of these officers to be temporarily assigned to Liguria Region and move forward with that Region and handle all problems there until Piemonte Region is taken over by that Regional Staff when the assignments will have to be made as outlined above and the 5 men listed for that Region will have to move forward.

Will you please issue orders accordingly.

MEMORANDUM:

TO : Vice President - Economic Section
Vice President - Administrative Section

1. Request that you have Directors of your Sub-Commissions review appendix "C" to 16031/3/G-1, dated 22 June 44, subject: "Future Planning Regional Strength", with reference to the number of officers required by each Sub-Commission in Regions I and VI under this appendix. It will be necessary sometime between August 15th and August 30th to drop Regional Strength of the above Regions to the approximate strength shown in appendix "C". Conditions and commitments of Sub-Commissions may now be different from those existing on 22 June.

2. It is planned to have a meeting of the Regional Commissioners of Regions I and VI about 7 August. It will be of great assistance to the Establishments Branch if I could have, by not later than 6 August, the numbers and names, if possible, of the officers of your Sub-Commissions who will be required in Regions I and VI on and after 15 August.

Subject : Promotion of Officer

TO : Director, P.W. and U. Sub-Commission

1. Capt. L.W.Laughlin O-521392 was commissioned to the Rank of Capt. on May 10th/43 and took up duties in this Grade on June 26/43. He was assigned to the Electrical Division of the Public Works and Utilities Sub-Commission in October 1943.

2. He has carried out important investigations in connection with the Electrical distribution Systems of Southern Italy, held numerous meetings with the Electrical Companies and attended important conferences with the Army District Chief Engineers.

3. The meetings and conferences have mostly been held to discuss the data which he has developed for the purpose of allocation of the available electrical energy and also dealing with Electricity rationing schemes.

4. Capt. Laughlin is a capable Electrical Engineer an efficient and reliable officer and is the Senior Assistant Officer in the Electrical Division of the Public Works and Utilities Sub-Commission, carrying out the duties of Major in this work.

5. It is intended that he shall continue in these duties and it is therefore recommended that Capt. L.W.Laughlin O-521392 be promoted to Major.

Subject: Personnel Requirements of P.W.& U Sub-Com.

To : Vice Pres. Economic Section.

1. Attached hereto are detailed statements giving the Personnel Requirements of this Sub-Commission. We have made every possible effort to obtain engineering personnel from the forces here, but have been unsuccessful in obtaining all of the officers needed. The reason for this is that we require specialists in several engineering fields. The specialists with the armed forces are all fully occupied insofar as we have been able to ascertain and can not be transferred to us. We have a vital key task to perform and we must have the personnel with proper experience so that we can fulfill our task.

2. It is imperative that steps be taken immediately to obtain this personnel from the U.K. or the U.S. Senior British Officers in this Sub-Commission advise me that the engineering field in England has been combed so thin that they doubt that these experts could be obtained from there. I do know that such men are available in the U.S. and many of them would be anxious to come here. This Sub-Commission has never specified any nationality, we were glad to get the men with proper exprience irrespective of nationality. However, in view of the above, it is suggested that the attached draft of a cable be sent to Washington with a request that these men be sent here by Air and without delay.

3. Will you please assist us in obtaining this much needed personn

L. A. JENNY.
Lt. Col. C.E.
Director.

P.S. Attached list of officers and qualifications to be sent to Washington by Air-Mail.

On 5 April 1944 I received a telephone call from Lt.-Col. Halloway, asst. to Brig. Anderson, D.D.W., A.A.I., therefore after the preparation of this data, in which he stated that A.A.I. would back up my request for men and equipment, and that they doubted very much that personnel would be available here and had to be obtained from U.S. or U.K. and that this should be expedited as much as possible.

Qualifications of Additional Officers Required

Public Works

2 Majors

Extended experience in responsible charge of Public Works engineering and construction, such as Water Works and Distribution, Sewers and Disposal, Gas Works and Mains, Streets and Highways, Buildings, Port construction, General engineering training.

3 Capts. or Lts.

similar general training to above but to a lesser degree. General engineering training acceptable.

General Construction

1 Capt. or Lt.

Engineer with construction experience and Construction Materials Supply.

Building Construction

1 Capt. or Lt.

Experience in the construction of buildings of larger type, such as apartment houses or factories.

Designing Engineer

1 Capt. or Lt.

Experienced in structural theories and design and drafting room procedure.

Electric Utilities

1 Major.

Experience in responsible charge of electrical transmission and distribution problems, operation and maintenance of distribution systems, sub-stations and familiar with power flow calculations and consumers records.

6 Capts. or Lts.

Similar electrical experience but to a lesser degree as for Major above. Can use and train any electrical engineer with basic electrical engineering training.

4919

Additional Officer Personnel
Requirements and their Qualifications

Headquarters

One first class Public Works Officer as assistant to the Chief in charge of the Public Works Division.

Qualifications: Rank of Major.

Extended experience in responsible charge of Public Works, such as Water, Sewers, Gas, Streets and Buildings.

One Materials and Supply Officer.

Qualifications. Rank of Captain or Lieutenant.

Engineer with construction experience and construction materials supply.

One Building Construction Officer.

Qualifications. Rank of Captain or Lieutenant.

Engineer with experience in Building Construction.

One Designing Engineer.

Qualifications: Rank of Captain or Lieutenant.

Engineer experienced in structural theories and design with drafting room procedure.

Region II

One Public Works Officer.

Qualifications: Rank of Major or Captain (preferably Major).

Experience in responsible charge of Public Works, such as Water, Sewers, Gas, Streets and Buildings. General engineering and construction experience preferred, if no specialist is available.

One Electrical Engineer.

Qualifications: Captain or Lieutenant.

Experience with electrical distribution problems, operation and maintenance of distribution system, sub-stations, power flow calculations and consumers records. Can use and train any electrical engineer with basic electrical engineering training.

171 L

Detail Explanation.

The problems to be dealt with are so far reaching and so numerous as to make it impossible, on many occasions, to give these matters proper and expert attention, with the result that work is either held up or, in some instances, is not done properly and we suffer in the long run. The question of Public Works personnel has been discussed with Regional public works officers in an effort to have a balanced organisation, that is, the Regions and this HQ. to supplement each other and avoid duplication wherever possible, and the table of requirements presented herewith has been prepared as a result of these conferences.

It must be fully realised that if the principle of Regional Organisation is to be adhered to, the Regions must have the personnel to carry out their day to day tasks. We at headquarters will have specialists to go out and assist these Regions whenever and wherever any special problems present themselves, or emergency situations arise beyond the ability of the Region to handle. However, it is not our job to go into these Regions and do their actual work for them, as has been the case, to wit :

Electricity Rationing.

Although this was a military responsibility the task of rationing all civil consumption was assigned to A.C.C. We found that neither Region II and III had any electrical engineers to carry out the detail day to day tasks in this connection. We promptly assigned one officer to the Bari center and one to Naples to make a study and to do this work for these Regions. The task was far beyond the ability of one man to handle and we assigned a second officer to each of these Regions, thus depleting our headquarters staff to a point where we would have been unable to cope with any other problems.

These Regions must have one such expert to handle such constant problems and we will assist in any emergency by assigning other experts for temporary duty. Our present plan is to transfer one of the two men in each Region, who is now trained in these problems, to these Regions and to replace these with new men for this HQ.

Public Works Problems - Region II.

A large number of projects and requests for materials have come to us from Region II without having received any study at the regional level. Attached to a recent batch of requests for

4912

Declassified E.O. 12356 Section 3.3/NND No. 785019

materials was the following notation :

"as this Region has no Public Works Officer, no Public Utilities Officer, no Industries Officer, and no Supply Officer with any engineering experience, it has been impossible to verify them."

Obviously we/ at headquarters cannot do the work which these Regions are supposed to do under our Regional Organisation procedure. Either they must be given personnel to do this work, or we must have it it, and handle all work directly from this headquarters, which we do not want if we can avoid it.

As a consequence we are asking for a Public Works Officer, preferably with the rank of Major, to be assigned to Region II, in addition to the electrical expert.

We have studied the problems of Region I and we feel that no additional officers are needed there, but some changes will have to be made.

As stated above, Region III must have one electrical engineer. But in addition to this it must also have one Public Works Officer, preferably a captain, with general engineering and construction experience. There are far too many problems to be handled in this Region with the personnel available and this Sub-Commission cannot continue to handle regional tasks which we have handled in order to assist the Region.

We have also studied the problems of Region IV. This Region has more Engineer Officers assigned or attached for work in the Region than any other Region. It has one officer each for transportation, communications, water works, sewers and several general engineering officers. In these fields it is well equipped to function effectively. However it lacks electrical experts which must act very promptly and with sufficient strength to handle the problem of electric distribution and rationing just as soon as power for Rome is made available. This is going to be a very critical task.

From our own experience with such problems in Region II and III it is our judgment that four electrical officers are needed for that work, one major and three junior officers. At the outset this force will be augmented by some trained officers from this headquarter to help organise this task, but to withdraw as soon as the work is well in hand.

While Region V has three engineer/ officers to day this force will not be sufficient to cope with the many problems which will have to be handled when the 8th Army resumes the offensive.

4913

Declassified E.O. 12356 Section 3.3/NND No. 785019

1714

This Region will require one more Public Works Officer and one Electrical Engineer whom we will train.

The problem in Region VI are being studied by officers of this Sub-Commission this week. However, we do not anticipate that any additional officers will be needed there for Public Works and Utility problems. We may have to send some expert there occasionally to handle problems.

Region VIII has no P.W. & U. officers and we do not plan to make a request for such officers. As soon as Region IV is well in hand some Electrical Engineers will be available for transfer and from present indications we feel that, by the time such personnel is needed, Public Works Officers can be made available from other less active Regions, such as Region I, or also from Rehion III and V, and possibly also from this HQ.

1716

ALLIED CONTROL COMMISSION

Public Works and Utilities Sub-Commission

PERSONNEL REQUIREMENTS FOR

MILITARY HIGHWAY RECONSTRUCTION

April 4, 1944.

It should be stated at the outset that these Military Highways have always been the responsibility of the various military establishments, and not of A.C.C. or A.M.G., although occasionally A.M.G. had been asked to help. These highways continue to be the responsibility of the military establishments and while this Sub-Commission has taken over the task of financing and supervising the work, obtaining contractors and labor and directing Italian Civil Engineer personnel in the execution of these tasks, thus relieving the military of this detail and free them for other tasks, the military establishments retain jurisdiction and we take instructions from them.

Consequently the personnel required for this task should NOT be considered as coming within the overall strength of A.C.C., as no provision was ever made for this, but it should come out of the total A.A.I. strength instead.

For this reason a separate personnel statement is submitted to cover the work to be done on these highways.

DETAIL STATEMENT REGARDING

MILITARY HIGHWAY RECONSTRUCTION

DONE BY P.W.&U. SUB-COMMISSION

On 20 Jan. 44 this Sub-Commission was requested by Adv. A.F.H.Q. to relieve the Armed Forces of much of the highway reconstruction work then in progress, and to be undertaken. On 13 Feb. 44 revised instructions were issued giving further details on the procedure to be followed. Under this procedure we are to organise the Italian Civil Engineer forces to do this work and to direct and supervise the work; also to arrange for its financing. In this instruction of 13 Feb.44 the following statements appear:

"The following are the details of the procedure to be adopted in order to make the fullest possible use of the Civil Road Organisation as it develops."

"The Civil Organisation under A.C.C. control will be set up as shown in Appendix 'A' hereto, to deal with all military roads in occupied Italy."

"It is essential that the maximum possible use be made of the Civil Organisation."

Shortly after this, P.B.S. and 5th. Army Engineers also asked us to relieve them of some of their Military highway tasks, and we complied to the limit of our ability.

While we had received some additional officers and passenger transportation to carry on this work, it soon became apparent that much closer supervision was required, that much more personnel was needed as well as trucks and jeeps if we were to give effective relief to the Armed Forces.

We have been pressed on numerous occasions, and in some instances the armed forces have had to resume portions of the work because of the lack of personnel and equipment at our disposal.

In spite of our inability to cope fully with this situation the interested Military Authorities have discussed with us, on several occasions, ways and means of improving our position and of taking on more work. In addition to the prime task of reconstructing these military highways, the Military Authorities were also most anxious for us to reorganise the Italian Cantonieri system (Highway Maintenance) so as to put them on their feet again, and function in a normal way under our direction in the continued maintenance of these highways. This required the making of a survey of the equipment used normally on these highways, and the listing of such equipment remaining, with a view to supplying the deficiency through requisitions. It is common knowledge that much of this equipment was taken away by the Armed Forces.

Several conferences were held on the above subjects, and a general understanding reached as to the equipment and personnel required to carry out the task we are to perform, so as to enable the Armed Forces to concentrate on military activities elsewhere. In connection with this we received the following letter:

DETAIL STATEMENT REGARDING

MILITARY HIGHWAY RECONSTRUCTION

DONE BY P.W.&U. SUB-COMMISSION

On 20 Jan. 44 this Sub-Commission was requested by Adv. A.F.H.Q. to relieve the Armed Forces of much of the highway reconstruction work then in progress, and to be undertaken. On 13 Feb. 44 revised instructions were issued giving further details on the procedure to be followed. Under this procedure we are to organise the Italian Civil Engineer forces to do this work and to direct and supervise the work; also to arrange for its financing. In this instruction of 13 Feb.44 the following statements appear:

"The following are the details of the procedure to be adopted in order to make the fullest possible use of the Civil Road Organisation as it develops."

"The Civil Organisation under A.C.C. control will be set up as shown in Appendix 'A' hereto, to deal with all military roads in occupied Italy."

"It is essential that the maximum possible use be made of the Civil Organisation."

Shortly after this, F.B.D. and 5th. Army Engineers also asked us to relieve them of some of their Military highway tasks, and we complied to the limit of our ability.

While we had received some additional officers and passenger transportation to carry on this work, it soon became apparent that much closer supervision was required, that much more personnel was needed as well as trucks and jeeps if we were to give effective relief to the Armed Forces.

We have been pressed on numerous occasions, and in some instances the armed forces have had to resume portions of the work because of the lack of personnel and equipment at our disposal.

In spite of our inability to cope fully with this situation the interested Military Authorities have discussed with us, on several occasions, ways and means of improving our position and of taking on more work. In addition to the prime task of reconstructing these military highways, the Military Authorities were also most anxious for us to reorganise the Italian Cantonieri system (Highway Maintenance) so as to put them on their feet again, and function in a normal way under our direction in the continued maintenance of these highways. This required the making of a survey of the equipment used normally on these highways, and the listing of such equipment remaining, with a view to supplying the deficiency through requisitions. It is common knowledge that much of this equipment was taken away by the Armed Forces.

Several conferences were held on the above subjects, and a general understanding reached as to the equipment and personnel required to carry out the task we are to perform, so as to enable the Armed Forces to concentrate on military activities elsewhere. In connection with this we received the following letter:

171C

Subject: Maintenance of Military Highways.

Directorate of Works,
HQ., A.A.I. (Adm. Sch.),
C.M.F.

To: Director,
Public Works and Utilities Sub-Commission.

3220/DDW

20 Mar.44.

1. With reference to your letter of 6th March and to our meeting of the 12th can you now let me have what you consider to be the minimum requirements of the Civil Road Organisation in transport, plant and tools in order that they may fulfil their function of the maintenance of essential roads.

2. I am most anxious that the employment of the organisation you are setting up should be extended and accelerated.

(Signed) D.L. ANDERSON,
Brigadier,
D.D.W.

DLA/cd

Particular attention is called to the last paragraph wherin Brig. Anderson states that he is most anxious that our organisation be extended and accelerated. In several conferences held with the Chief Engineer of P.B.S. he expressed the same desire, to have us give them the utmost relief possible.

We, on our part, do not only feel quite capable and willing to take on these tasks and to relieve the Armed Forces so that they may concentrate their efforts in other directions, but we think it is our duty to do this work as it involves the reestablishment of the Italian Civil Engineering forces, which had been badly disrupted. This will take time and patience, and will require much more direct field supervision for quite some time, than we had anticipated.

A very careful study has been made of our personnel requirements after having obtained actual experience in the field and discussions with interested Military Authorities. The statement presented, therefore, represents a reasoned judgment of our present foreseeable needs.

(A statement on our equipment requirements will follow.)

7 Apr. 44.

Subject: Additional Personnel Requirements for Public Works and Utilities Sub-Commission.

To : Director, Establishment Branch, A.C.C.

The functions performed by this Sub-Commission fall into the following classifications:

A. Public Works: Waterworks, Sewers, Gas Plants, including their operation and Maintenance, Buildings, Irrigation, Highways, Bridges, Ports, clearing ports of sunken ships, Shipyards to build ships, Rates for Water and Gas services.

B. Electric Utilities: Operation and Maintenance of Electric Power Systems, Management Problems, Sub-Stations, Transformer Stations, Transmission, Distribution, Power Sale and Current Control, Electricity Rationing and Electric Utility Rates.

C. Military Highways: Reconstruction and Maintenance of Military Priority Roads, Reconstruction of Bridges and the Reorganisation and Reactivation of the Italian Civil Road Organisations so as to permit them to carry on the continued Maintenance of these Roads.

In addition to the principal tasks cited above, there are the vast numbers of daily provincial and communal engineering problems which must be solved and upon which the lives in these centers depend.

Considerable additional personnel is needed, to cite but one example. At the present moment considerable activity centers around the p roblem of what must be done when Rome is occupied. In this connection alone we estimate that, based upon our recent experience with such problems in Regions II, III and V, seven electrical experts will be needed for several weeks to control electricity rationing, four of these for a very extended period. Today none of these are available in Region IV which must have at least the four permanent men for this task.

This Sub-Commission was asked to relieve the Military Engineer forces of the task of reconstruction and maintenance of Military Highways behind the Army Zone, a task which never was included in any A.C.C. program or Table of Organisation and which alone occupies about half of the personnel of this Sub-Commission, which has been asked to extend and accelerate these operations.

The present officer personnel, of this Sub-Commission at Headquarters and in all regions, is only forty six, of which twelve are exclusively engaged on Military Highway problems in the field and a good portion of the time of key men of the others at Headquarters is taken up with these problems.

4906
4905

Declassified E.O. 12356 Section 3.3/NND No. 785019

1714

The requirements of this Sub-Commission are as follows:

	Present officer Strength	Additional officers Required.	Total no of officers
Headquarters	16	4	20
Military Highways	12	15	27
Regions	18	10	28
Total	46	29	75

In addition to the officer requirements, this Sub-Commission needs thirty additional enlisted men with construction experience to supervise portions of the military highway work.

Attached hereto is a detail statement from the P.W.&U. Sub-Commission showing where the present personnel is, where new personnel is needed, why it is needed, and what the qualifications must be.

It is imperative that steps be taken immediately to obtain this personnel from the U.S. where such men are available and eager to serve over here.

As this matter is so urgent, it is requested that consideration be given to sending a qualified officer of the P.W.&U. Sub-Commission to the U.S. to select this technical personnel.

In addition to the request for additional personnel, a request for a considerable quantity of highway construction equipment will shortly be made. In connection with this, and in connection with the considerable added personnel needed for Military Highway Reconstruction, we are advised that Brigadier Anderson, D.D.W., and Brigadier Rogers, C.E., A.A.F., will back up our request as they are most anxious that A.C.C. be properly organised and equipped to do this work.

D.S. ADAMS,
Colonel, C.E.,
Executive Officer,
Economic Section.

SUBJECT : Request for personnel.

TO : Regional Engineer, Region XII.

Reference your PLE/TEC/20.1, 31 Aug.1944.

You now have 4 officers assigned to you including Maj. Koester, the Electrical Engineer, who is leaving today to join you. This gives you a balanced working force. We fully appreciate that your Region may need more engineer officers later on and we are studying this question. However, due to a shortage of officers in this Sub-Commission we can not afford to release officers from their present tasks until the need for them in forward Regions becomes urgent.

Lt Col Rapper

We will attache an officer from this H.Q. to your Region for Reinfiche work as soon as Allied forces reach the Po Valley plain.

As to the assignment of other officers we must await your taking over of a portion of your Region and your advice of the exact condition found and the type of additional officers actually needed.

SUBJECT: Request for Officer Personnel.

FILE NO: R12/ENG/20.1

1. Due to activation and imminent moves, it is requested that additional personnel be supplied to this Division forthwith.

2. The number and size of the Bonifiche in the Region make it essential that an officer be supplied with good all round Civil Engineering experience to look after this section of Public Works alone.

3. At least one other Civil Engineer, additional to the foregoing, should be sent for general employment in Public Works section, as at present this consists of one officer only.

4. It is desired to strengthen the Highways Section by at at least one Engineer officer.

5. It is thought likely that another electrical officer will be required additional to Major Wooster who is about to report.

6. It will be clear from an examination of the Region with its provinces and 5 - 6 million population, that the present staff is inadequate.

7. Further, it must be pointed out that if staff join after a Region is occupied, much time is wasted, opportunities with the Italians lost and misunderstanding caused before such officers are assimilated.

8. What action may be expected please?

E.J.EDWARDS, Colonel
Regional Engineer

Subject: Delay in transfer of Officer.

To : Vice President, Economic Section.

1. On 1 Aug 44 I requested the transfer of Major J.C. Rively from Region IV (Rome) to Region V because this officer could be spared here and Region V was much in need of further assistance. This matter had been discussed with Region IV Engineer.

2. On 9th August the Executive Officer of Region IV, without consultation with the Regional Engineer, instead of carrying out instructions, registered a protest against the withdrawal of this officer.

3. This protest was received by me on 13 August and a prompt reply was made.

4. On 16th August I received a note from Col. Farren asking, whether, because of moves of other officers, I still wished to transfer Major Rively. I replied on that date and stated "Therefore, Major Rively must be sent there without further delay".

5. On 18th August 1944 Col. Farren wrote to the Regional Commissioner, closing the letter with this sentence: "Please arrange for Major Rively to report to Headquarters, Region V by 21st August 1944."

6. The fact is that today Major Rively is still in Rome.

7. It must be quite obvious to anyone that we cannot function under such a procedure. Region V was in urgent need of one more public works officer. Region IV could easily spare one. I requested the transfer on 1st August. One month has passed and this officer is still here.

8. If we are to be kept responsible for the proper execution of urgent public works in these Regions then we must have authority to promptly move officers where necessary and not be subjected to being questioned along the line and delayed in our work, one month as in the case here, and without knowing how much longer this

ACC/125/PWU

Subject: Delay in transfer of Officer.

To : Vice President, Economic Section.

1. On 1 Aug 44 I requested the transfer of Major J.C. Rively from Region IV (Rome) to Region V because this officer could be spared here and Region V was much in need of further assistance. This matter had been discussed with Region IV Engineer.

2. On 9th August the Executive Officer of Region IV, without consultation with the Regional Engineer, instead of carrying out instructions, registered a protest against the withdrawal of this officer.

3. This protest was received by me on 13 August and a prompt reply was made.

4. On 16th August I received a note from Col. Farren asking, whether, because of moves of other officers, I still wished to transfer Major Rively. I replied on that date and stated "Therefore, Major Rively must be sent there without further delay".

5. On 18th August 1944 Col. Farren wrote to the Regional Commissioner, closing the letter with this sentence: "Please arrange for Major Rively to report to Headquarters, Region V by 21st August 1944."

6. The fact is that today Major Rively is still in Rome.

7. It must be quite obvious to anyone that we cannot function under such a procedure. Region V was in urgent need of one more public works officer. Region IV could easily spare one. I requested the transfer on 1st August. One month has passed and this officer is still here.

8. If we are to be kept responsible for the proper execution of urgent public works in these Regions then we must have authority to promptly move officers where necessary and not be subjected to being questioned along the line and delayed in our work, one month as in the case here, and without knowing how much longer

ACC/125/PWU

SUBJECT: Transfer of Officer.

TO : Vice-President, Economic Section.

As Region V is very much in need of further assistents in connection with the public works problems in that Region, it is requested that orders be issued transferring Major L.R. Denning, Public Works Officer in Region III, located at Salerno, to Headquarters Region V and to report upon arrival to the Regional Engineer of Region V.

L.A. JENNY,
Lt-Colonel, C.E.,
Director.

Lt Col Ratimer

It is suggested that you see Maj. Rively, who has been ordered to join Region as Highway Engr and Maj. Denning as a Public Works Engr. He is not an engineer, but has done good work along these lines at Salerno.

26 Aug 44

SUBJECT: Transfer of officers.

TO : Executive Officer (E)

Reference your note 24 Aug 1944.

Region V needs one more Public Works Officer irrespective of any other transfer we may make. Therefore, Major Rively must be sent there without further delay.

The agreement reached between this office and the Regional Commissioner of Region V is that we will permit Major G.A. Foden to remain in Region V, but that Major J.B. Bennett, an electrical engineer, will have to be transferred to this Headquarters for special duty with a view to assigning him later on to one of the Regions north.

In a conversation with Lt.Col. C.A. Latimer we have agreed that, although orders for Major Bennett had been requested, we will permit him to remain in Region V for one or 2 weeks longer to complete certain tasks.

Subject : Major J.C. Rively.
To : V.P. Economic Section.

1. Reference the attached copy letter.

2. On a comparative basis Region IV, including Rome, has about twice as many engineer officers as any other Region. We had withdrawn from rear Regions certain officers and had placed these temporarily in this Region so as to give it abundant opportunity to cope with any situation that may arise in the early days, and with the further intention of withdrawing officers from this Region for forward Regions when the work here has become more or less stabilized. Rome is a wide reservoir for Italian civilian engineer help and Region IV is in a good position to help itself, whereas other Regions can not do so. We know that Major Rively can be spared here and we discussed this matter with Lt-Col. Birchett some time ago. Region IV must be prepared to lose more officers in the near future.

L.A. JENNY,

FILE No: R4/ENG/20.1

Dear Jenny,

enclosed is copy of two letters from Capt. GAITHER 205/1 dated 24th June and 205/1 dated 1st August.

I do not know the officer concerned but am always prepared to accept any recommendation from Capt. Gaither as I know it will be a good one.

The officer would be most useful to us.

Can you get him for us?

Your sincerely

Lt.Col. R.E.
Regional Engineer ACC. IV. (P.W.)

Enclosures: 2

P.S. I am sorry to see Gaither still a Captain can you [illegible]

APO 464 U.S. ARMY

24th June 1944.
205/1

SUBJECT: Lt. J.M. Mc Callum, R.E.

TO : Director, Engineering Division, Region IV.

1. The above officer was suggested as an addition to the staff of T.C.U., A.M.G. 5 Army while this Headquarters was in Caserta, and recommended by the T.C.U. Officer, who knows him personally. Hi is also known personally to Lt. Colonel Birchett, now T.C.U. Officer of the Rome Area Command. He has been interviewed by HQ., ACC and was told that he would "certainly be an acquisition to the organization" and was caused to fill out the necessary papers for the transfer from his unit, the 854 Quarrying Company, R.E. and the papers were despatched to A.A.I.

2. A letter dated 14th of June indicated that he had heard nothing further. The situation has changed as far has this Headquarters is concerned and as long as the advance continues rapidly and we have two Italian engineer officers, the services of Lieut. Mc Callum are believed to be more necessary in a region than here.

3. It is believed that he would make a valuable man for your organization, should you have need of a good field man with wide experience in road, bridge and quarry work. In addition he has a pleasant personalty.

4. The above information is sent you because it is known how difficult it is to secure an officer that meets all of the above qualifications. It is believed that he will be working under conditions agreeable to him, and because the writer has a personal interest in both of you.

Sd. D.M. GAITHER
Captain, C.M.P.,
T.C.U.,
A.M.G. Fifth Army.

SUBJECT: Electrical Engineer for Sicily.
TO : The Minister of Public Works.

1. It has become necessary for us to shift our present electrical engineer in Sicily to another Region, leaving Sicily without an electrical engineer.

2. In view of our policy to have the Ministry of Public Works assume more functions directly as time goes on, it is requested that you appoint an electrical engineer for Sicily to work under the engineer in charge of public works in Sicily.

3. This engineer will have to study all of the electrical reconstruction problems and arrange to have our military requirements in the electrical field met when and as required.

4. As our engineer will be removed in about 2 weeks it is requested that prompt steps be taken to appoint such an Italian engineer and to study his problems before our engineer is transferred.

Subject: Assignment Officer

TO: VP Econ Sect.

K H Jones Col.
Executive Off.

1st Ind. 7 Aug 44

Economic Section:

As outlined to Col. Albright it is necessary for us to bring Lt. Butcher to this HQ. for the purpose of making detailed field studies in connection with our new functions in ~~sending~~ commencing electrical planning as we do not have sufficient officers here for that task.

Capt. Ryan who is located at Naples and who is in control of all electrical matters in South Italy will represent the present Region II in connection with all electrical matters. While it is true that Lt. Butcher has been extremely busy with electricity rationing problems it should also be recognized that the Italians should be trained to carry on those functions. We have asked Regional Engineers repeatedly to begin training the Italians so that they can function if and when asked to do so. We believe

Declassified E.O. 12356 Section 3.3/NND No. 785019

76

that Region II will be able to get along at this time without Lt. Butcher.

L. A. JERRY,

7 Aug 44

SUBJECT: Reduction of EM/Offs from this Headquarters.

TO : Agriculture S/C - Finance S/C
Food S/C - Industry S/C
Commerce S/C - Labor S/C
Transportation S/C - Pub. Wks. & Util. S/C

1. Your attention is invited to the following extract of a recent letter received from the Establishment Branch on the above subject:

"Reference your letter EE/2A of 21 July commenting on letter 16000/2/C-1 of 17 July 1944. The reduction of EM/Offs in this Headquarters will be necessitated not by any desire to cut down the size of this Headquarters but by the movement of tactical forces and the conditions in the north of Italy after our occupation of that area. At the present time it appears that that occupation may not be long delayed. It further appears that conditions in Regions IX, X, XI, and XII may be in a chaotic state.

If the above situation comes about, any intention that we now have of making an orderly reduction in the staff of this Headquarters may go "by the Boards". We may be forced to move to a large percentage of EM/Offs into the field at the expense of Headquarters operation. Long efforts to obtain additional EM/Offs have failed and there are efforts being made on both British and American side to reduce the already slender strength of EM/Offs with the Commission and other rear area activities.

I recommend that your Sub-Commissions personally interest themselves in obtaining civilian help so that their operations may not be completely stopped in case of emergency. I further suggest that the members of the Economic Section on the Labor Board rapidly complete their work on the conditions of service for civilian labor of Allied and Italians so the capable and qualified personnel may be induced to offer their services to the Commission.

I am writing this long explanation because I believe it urgent that every sub-commission and section should do everything they can to assist the Establishments Branch in replacing with civilian labor the largest possible numbers of EM/Offs at the earliest possible date."

2. In view of the possible situation as described it is obviously urgent that the individual Sub-Commissions shall plan their future staffs to meet an emergency should it arise. In this connection it is suggested that civilian needs be discussed or reported to this office so that our planning may proceed in a consolidated and orderly manner.

Subject: Temporary Duty with ACC.

To : Commanding General, 5th Army, APO 464
(Thru Commanding Officer, 2675th Regt., ACC, APO 394.)

1. Request that Major Edward H. Richardson, 939th Field Artillery Battalion be placed on temporary duty with Headquarters Allied Control Commission with a view to his transfer as soon as a vacancy exists.

2. The above officer has requested transfer to ACC. He is an educated engineer with ten years' practical experience on highways and Public Works in general, the qualifications which are urgently needed in ACC for work directly behind the Armies. The Public Works Sub-Commission is below the T/O strength but the over-all strength of American personnel is at the moment slightly over our allocation. Officers of general qualifications are being transferred to Replacement Centers for reassignment as rapidly as possible and there will be a vacancy for a trained engineer on or about 1 September.

3. The assignment to ACC of Major Richardson will be requested as soon as a vacancy occurs. Prior to this time it is requested that Major Richardson be attached to the 2675th Regiment because of the urgent need for trained engineers.

For the Acting Chief Commissioner:

JOHN J. KNIGHT,
Colonel, Infantry,
Establishments Officer.

SUBJECT: Capt. P.D.Kalv.

47

Grosseto.

3 July 1944

TO: Regional Commissioner,
H.Q. Region VIII.

FROM: Regional Engineer Officer,
Region VIII.

In accordance with your instructions I confirm that, in my opinion, the above officer, attached to me for duty as Electrical Utility Officer, is totally unsuited for the work required of him in this region.

He is undependable and irresponsible, and appears incapable of reporting on the results of his inspections.

He states that he must be independant of any control, and that he does not recognise that he is a member of my staff.

In view of the fact that there are many small electrial problems, as well as much larger porks in the areas not yet handed over, that are extremely important in view of the dependance of utilities on electric power, may I have an efficient officer with power installation and transmission experience posted as soon as possible please.

P. S. L. LEE
Regional Engineer Officer.

27 July 1944.

SUBJECT: Engineer Officers.
TO : R.C. and M.G. Section, A.C.C. through Economic Section.

1. Ref. A.M.G. 5th Army 205/1, dated 17 July 1944.

2. It is fully appreciated that A.M.G. 5th Army should have more Engineer Officers. We have asked for the attachment to this Sub-Commission of Lt. J. M. McCallum (Br.) to be assigned to one of the Regions. However, we have no objection to the assignment of this officer to A.M.G. 5th Army. I would suggest that if this assignment is made and this officer is attached to 5th Army, that we be notified so that we can make our plans accordingly.

3. In view of the fact that the general over-all planning for electrical rehabilitation has now been assigned to this Sub-Commission, we have assigned Major R. Bell to the task of obtaining first hand basic information on electrical plants along the western portion of Italy north of Rome. This officer will have occasion to go into 5th Army territory and we would appreciate it if, when on duty in that territory, A.M.G. 5th Army will cooperate with him so that his task might be expedited. If A.M.G. 5th Army desires to have any electrical problems investigated, we shall be glad to have this officer look into such matters while working in that territory or to go there on special cases if desired. We believe that this arrangement will be of mutual benefit to A.M.G. 5th Army and this Sub-Commission. We will appreciate it if A.M.G. 5th Army will advise us on this subject.

L. A. JENNY.

Your memo

G-5 AFHQ are preparing a study on the possibilities of the gradual replacement of military by civilian personnel within the ACC framework prior to the cessation of hostilities in Italy. In the event of it being decided that this can and should be done it is desired to attach to this study an appendix showing the posts now held by military personnel under ACC which could be occupied by civilians.

Directors of Sub-Commissions will therefore submit a list of such posts in sub-commissions, and also corresponding posts in Regions by 26 Jul 44. Since the limiting factor to the replacement of military by civilians seems likely to be the rapidity with which civilians can be made available, posts will be listed either as:-

"A" - meaning should be replaced as first priority
"B" - meaning " " " " second "
"C" - meaning could not now be replaced but should at some time in the future or any given set of conditions arising prior to the cessation of hostilities in Italy.

In giving a "C" category to a post Directors of Sub-Commissions will specify any such given set of conditions as they envisage. A pro forma is attached.

Please include in a separate list any other positions not now filled by officers but which are urgently needed. In making out both lists no position will be included which can be filled by an Italian.

SUBJECT: Public Works Officers - Foggia Province.
TO : Vice President, Economic Section.

1. In view of the shortage of engineering personnel, this Sub-Commission cannot establish a separate organization for Foggia Province. We have, therefore, decided to place the engineering work in that Province under the Regional Engineer of Region II, assigning to Region II Captain J. L. Jacobs, now working on military highways in Foggia so as to permit him to continue this task. Electrical work for Foggia Province will be performed by the Electrical Engineer of Region II.

2. All other Region V officers now working around Foggia will be withdrawn from that Province and will remain assigned to Region V. Some of these officers will have to be assigned to Regions farther north.

3. Will you please take this matter up with the Establishment Branch so that proper instructions may be issued.

Subject: Civilian replacement of Military Personnel.

To : Directors, Agriculture Sub-Commission,
Finance " "
Food " "
Industry " "
Commerce " "
Labour " "
Public Works & Utilities Sub-Commission.

C-5 are preparing a study on the possibilities of the gradual replacement of military by civilian personnel within the ACC framework prior to the cessation of hostilities in Italy. In the event of it being decided that this can and should be done it is desired to attach to this study an appendix showing the posts now held by military personnel under ACC which could be occupied by civilians.

Directors of Sub-Commissions will therefore submit a list of such posts in Sub-Commissions, and also corresponding posts in Regions by 26 Jul 44. Since the limiting factor to the replacement of military by civilians seems likely to be the rapidity with which civilians can be made available, posts will be listed either as:-

"A" - meaning should be replaced as first priority,
"B" - meaning should be replaced as second priority,
"C" - meaning could not now be replaced but should at some time in the future or any given set of conditions arising prior to the cessation of hostilities in Italy.

In giving a "C" category to a post Directors of Sub-Commissions will specify any such given set of conditions as they envisage. A pro forma is attached.

Please include in a separate list any other positions not now filled by officers but which are urgently needed. In making out both lists no position will be included which can be filled by an Italian.

(Signed) J. Bruce Thompson, Major, R.A.
for A.G. ANTOLINI,
Executive Director,
Economic Section.

1. Your attention is drawn to the attached memorandum received from the Establishment Branch.

2. Kindly return complete information to this Section not later than 10:00 hours July 23rd.

3. Please note that in Para 3 of the Memorandum it is suggested that applications for civilian personnel be made directly to the Employment Officer. Contrary to this procedure it is the desire of the Vice President of this Section that all such requests be submitted to this office with all necessary information regarding the proposed employment.

4. It is further requested that all Sub-Commissions return a nominal roll to this office showing name, nationality, function and salary of all presently employed civilians.

SUBJECT: Transfer to A.C.C.
TO : Capt. Robert E. Byers, Rome Area Command.

1. An arrangement has now been made whereunder the Public Works and Utilities Sub-Commission, A.C.C. can have additional officers attached to it for duty. However, it is necessary that the following procedure be carried out so as to have proper clearance.

2. The officer to be transferred will obtain from his Commanding Officer an order attaching him to the Public Works and Utilities Sub-Commission, A.C.C. for duty.

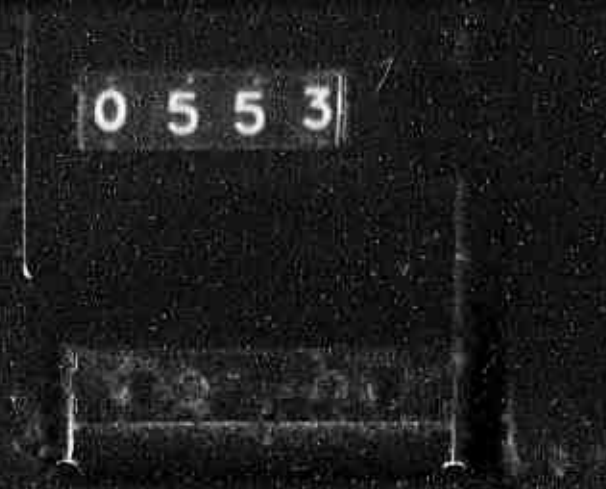

3. The Public Works and Utilities Sub-Commission is desirous of having you attached to it for duty and we shall appreciate it if your Commanding Officer will please issue such an order attaching you to A.C.C. as outlined above.

4. It is my understanding that you have been attached only to the 537th Engineer Service Regiment, Rome Area Command. Therefore, you will have to obtain such an order from the Commanding Officer of your former unit to which you had been assigned.

L. A. JENNY,
Lt. Col., C.E.
Director.
