Ref. RE/20
17. August 1944

Subject: VEHICLE REPAIR AND STORAGE

To : PUBLIC WORKS & UTILITIES, SUB COMMISSION
For : LT.COL. THOMPSON

Reference your ACC/095/PWU dated 11. July 1944.

The garage's situation is as follows.

In Apulia the A.A.S.S. have two garages, at Bari and Foggia, in which they can carry out all necessary first line repairs.

When a vehicle breaks down, it has to be turned into one of these garages for repair.

If only minor repairs are required, they send a mechanic to the yards where the vehicles are housed. The vehicles which are working in various parts of the Compartment, are housed in a yard of a town where the Capo Cantoniere lives, and who is responsible for their safe keeping. They instructed one driver mechanic in each squad to carry out any slight repairs, but due to the fact the vehicles have not been issued with tools, this is not possible.

Hq. Region 3, A.C.C., APO 394, U. S. Army, 19 July 1944.

TO: Advance Headquarters Allied Control Commission
Public Works and Utilities, Subcommission.

1. 38 Trucks 3 ton at Naples.

Garage on via Polverieri is adequate in size and is being repaired. This to be a central shop and headquarters for the supervising personnel charged with maintenance of the vehicles.

2. 42 vehicles at ACC. A.A.S.S. Garage at Cava Hy. no.19 near Salerno. Garage is adequate and trucks are being maintained by A.A.S.S. for Genio Civile.

3. Garages are being established at Benevento and Avelino. As soon as suitable buildings can be found, A bulk of the Naples vehicles will be sent there.

4. No garage is possible at Caserta now due to increase in military demands there.

Subject: Vehicle Repair and Storage.

To: Regional Engineer Officers.

1. In order that our records may be brought up to date, it is requested that you furnish us with a report on the Genie Civile Garage situation as it now stands.

2. If we are to attain the proper degree of success in the maintenance and operation of Genie Civile vehicles and V.E. vehicles on loan to Genie Civile it is imperative that adequate maintenance and storage facilities be available at strategic points.
