SUBJECT : Employment for Signor Osti

TO : F.W.A.U. Sub Commission

1. There has been in the employ of this section since the first days at Rome over a year ago, a Signor Osti. Signor Osti speaks perfect English, is familiar with F.W.A.U. office routine filing all orders and has served as office manager for me.

2. Upon closure of the region Signor Osti will be without employment. It seems to me a waste to have the services of this valuable employee lost. Therefore it is suggested that Signor Osti be given consideration for employment in the Milano Office.

3. A reply on this suggestion is requested.

Qualora non vi fossero possibilità presso codesto Comando pregherei di influire presso la Prefettura di Padova oppure presso il Magistrato alle Acque a Venezia perché mi venga assegnato il posto di Commissario presso qualche consorzio di Bonifica(per es. a Padova il Consorzio Monforesto

Declassified E.O. 12356 Section 3.3/NND No. 785019

oppure Fossa Paltana di cui conosco bene i comprensori) o altri enti i= draulici come Consorzi di acquedotto(Rovigo) o altri enti industriali affini alle mie conoscenze.

Sono pure Libero Docente di Costruzioni Idrauliche presso la facoltà di Ingegneria dell'Università di Padova per cui credo,se non ci sono interferenze di partito, che dovrei essere incaricato dell'insegnamento di tale materia per tutto quel tempo che il Professore di ruolo Francesco Marzolo non potrà farlo per epurazione.

Cortesi saluti

Declassified E.O. 12356 Section 3.3/NND No. 785019

Completamento delle note sull'attività tecnica dell'Ing.Gino Veronese

A completamento delle note sulla attività tecnica dell'Ing.Gino Veronese sino all'aprile 1939 si può aggiungere che nacque nel 1886,é tenente colonnello dell'Arma del Genio(Servizi Tecnici) e fu richiamato una prima volta per qualche tempo durante il mese di Settembre 1939 e successivamente stabilmente durante il mese di aprile 1941 con assegnazione presso l'Ufficio Lavori di Treviso.Sino al giugno 1942 resse il posto di Capo Ufficio Coordinamento e poi fu nominato capo sezione prima a Tarvisio e poi a Tolmezzo.Per collaudi e controllo materiali fu inoltre inviato in missione per qualche mese a Sebenico e Spalato in Dalmazia e a Novo Mesto e Kocevie in provincia di Lubiana.L'8 settembre 1943 era capo sezione a Tomezzo con tre ufficiali e una quarantina di impiegati civili,mise in stato di difesa la sezione ma non ce ne fu bisogno poichè i tedeschi non si interessarono dell'Ufficio.Così senza interruzione di alcun giorno poté continuare il normale funzionamento dell'Ufficio con la stesura di numerose contabilità riferentisi al vallo del littorio per un importo complessivo di circa ottocento milioni di lavori(circa centocinquanta contabilità).Chiese però il suo riscollocamento in congedo e appena arrivò il successore cominciarone le regolari consegne che terminarono completamente entro il 31 dicembre 1943,epoca stabilita per la cessazione del servizio.

Rientrato a Padova non poté riprendere i progetti in corso di compilazione prima del richiamo poichè non aderì al partito repubblicano fascista, e tanto meno collaborò col tedesco invasore:perciò nel mese di aprile 1944 si recò in campagna a Scorzé(Venezia).In quella località girando in bicicletta fiancheggiò e coordinò il movimento partigiano che allora era in via di formazione.Il 7 agosto successivo cadde da bicicletta procurandosi tra l'altro una sinovite traumatica al ginocchio sinistro per cui fu abbli-

ATTIVITA' TECNICA DELL'INGEGNERE GINO VERONESE

Licenziato dal Liceo Tito Livio di Padova nell' anno 1904, fu diplomato ingegnere civile con punti cento su cento il 18 dicembre 1909.

Nominato assistente per le cattedre di costruzioni idrauliche presso la R. Scuola d'Ingegneria di Padova il I° gennaio 1910, vi rimase fino al 16 ottobre 1922. Eseguì negli anni 1919-1921 per incarico della Direzione della R.Scuola di Applicazione per gli Ingegneri di Padova, i corsi accelerati relativi agli elementi delle costruzioni idrauliche per gli allievi ingegneri del 4° Corso, ed alle costruzioni idrauliche per quelli del 5° Corso . Subito dopo eseguì pure per la specializzazione idraulica i corsi semestrali di Navigazione Interna e di Sistemazione dei torrenti.

Nel 1911-12 compilò come collaboratore dell'Ing. Gagliardo per i Consorzi riuniti di Este il progetto esecutivo della Bonifica del comprensorio Gorzon inferiore; e nel 1913-14 il progetto di massima del comprensorio di bonifica del Consorzio Fossa Monselesana.

Contemporaneamente d'incarico del Comune di Pa-

anno 1904, fu diplomato ingegnere civile con punti cento su cento il 18 dicembre 1909.

Nominato assistente per le cattedre di costruzioni idrauliche presso la R. Scuola d'Ingegneria di Padova il I° gennaio 1910, vi rimase fino al 16 ottobre 1922. Eseguì negli anni 1919-1921 per incarico della Direzione della R.Scuola di Applicazione per gli Ingegneri di Padova, i corsi accelerati relativi agli elementi delle costruzioni idrauliche per gli allievi ingegneri del 4° Corso, ed alle costruzioni idrauliche per quelli del 5° Corso . Subito dopo eseguì pure per la specializzazione idraulica i corsi semestrali di Navigazione Interna e di Sistemazione dei torrenti.

Nel 1911-12 compilò come collaboratore dell'Ing. Gagliardo per i Consorzi riuniti di Este il progetto esecutivo della Bonifica del comprensorio Gorzon inferiore; e nel 1913-14 il progetto di massima del comprensorio di bonifica del Consorzio Fossa Monselesana.

Contemporaneamente d'incarico del Comune di Padova studiò il progetto esecutivo per la derivazione del fiume Brenta di metri cubi 25 con un salto utile di metri 30 con la presa a Collicello di Cismon e le

3132

declassified E.O. 12356 Section 3.3/NND No. 785019

scarico San Marino di Valstagna. Si doveva con ciò produrre una potenza di 7500 HP. Inoltre per incarico della Ditta Marzotto progettò una derivazione dal torrente Posina di metri cubi uno con un salto utile di metri 150.

Fece pure (1912-1915) per incarico di un gruppo di Comuni interessati (Cologna Veneta, Montagnana, Este e Monselice) uno studio per l'approvvigionamento con acqua potabile della zona sud-ovest della Provincia di Padova, alimentando circa 40 Comuni e utilizzando le falde artesiane della zona di Almisano (Lonigo).

Sopraggiunta la guerra, dopo aver partecipato come combattente nell'arma del Genio alle buone e cattive giornate di Oslavia (novembre-dicembre 1915), ai lavori di difesa ed alla presa del Sabotino e Gorizia (gennaio-agosto 1916) rimase in quest'ultima città per il riattamento dell'acquedotto e dell'impianto di luce elettrica a tutto l'ottobre 1916 (vedi allegato n.1: certificato-lettera Generale Cattaneo e monografia Impianti idroelettrici di Gorizia).

Di poi fu chiamato dal Comando del Genio della

Declassified E.O. 12356 Section 3.3/NND No. 785019

rente Posina di metri cubi uno con un salto utile di metri 150.

Fece pure (1912-1915) per incarico di un gruppo di Comuni interessati (Cologna Veneta, Montagnana, Este e Monselice) uno studio per l'approvvigionamento con acqua potabile della zona sud-ovest della Provincia di Padova, alimentando circa 40 Comuni e utilizzando le falde artesiane della zona di Almisano (Lonigo).

Sopraggiunta la guerra, dopo aver partecipato come combattente nell'arma del Genio alle buone e cattive giornate di Oslavia (novembre-dicembre 1915), ai lavori di difese ed alla presa del Sabotino e Gorizia (gennaio-agosto 1916) rimase in quest'ultima città per il riattamento dell'acquedotto e dell'impianto di luce elettrica a tutto l'ottobre 1916 (vedi allegato n.1: certificato-lettera Generale Cattaneo e monografia Impianti idroelettrici di Gorizia).

Di poi fu chiamato dal Comando del Genio della 3ª Armata per lo studio del rifornimento con acqua potabile del Vallone del Carso e di tutte le centrali di rinvio verso il Paiti ed Opachiasella. Da captazio

Declassified E.O. 12356 Section 3.3/NND No. 785019

ne dell'acqua fu eseguita col mezzo di pozzi tubolari infissi nelle sabbie dell'Isonzo alla confluenza col Vipacco. Fu poi innalzata nella quantità di 75.000 litri-ora col mezzo di motopompe, situate in una centrale costituita presso Sovogna sino ad un serbatoio incassato in cemento armato capace di 400 mc. collocato a boschini superiore. Di là con una tubazione a gravitazione l'acqua fu condotta a Gabrie Superiore con tubi a diametro decrescente da 150 a 100 m/m lungo il Vallone per il collegamento di tutte le centrali di rinvio. Questo impianto fu cominciato alla fine dell'ottobre del 1916 e portato a termine nel mese di febbraio 1917.

Dopo tale opera assunse l'incarico di Capo Ufficio degli Impianti Idrici della 2ª Armata eseguendo i principali impianti: (allegato n.2: certificato-lettera Generale S.Niccoletti-Altimari):

a) IMPIANTO DI BUSSIS MADONNA, MOSSA, con tre centrali di sollevamento per circa 12 litri al 1" ciascuna e con tre serbatoi per la capacità di mc.300 ciascuno. Servivano tutte la pianure di Cormons.

b) IMPIANTO DI MONTE KUK E VODIS per 2 litri al 1" sollevati alla prevalenza di 700 metri.

3131

Declassified E.O. 12356 Section 3.3/NND No. 785019

tri-ora col mezzo di motopompe, situate in una centra
le costituita presso Savogna sino ad un serbatoio in
cassato in cemento armato capace di 400 mc. collocato
a boschini superiore. Di là con una tubazione a gravi
tazione l'acqua fu condotta a Gabrie Superiore con tu
bi a diametro decrescente da 190 a 100 m/m lungo il
Vallone per il collegamento di tutte le centrali di
rinvio. Questo impianto fu cominciato alla fine del-
l'ottobre del 1915 e portato a termine nel mese di
febbraio 1917.

Dopo tale opera assunse l'incarico di Capo Uffi
cio degli Impianti Idrici della 2ª Armata eseguendo
i principali impianti: (allegato n.2: certificato-let
tera Generale G.Nicoletti-Altimari):

a) IMPIANTO DI MONTE MADANA, MOSSA, con tre centrali 3431
di sollevamento per circa 12 litri al 1" ciascuna e
con tre serbatoi per la capacità di mc.300 ciascuno.
Servivano tutta la pianura di Corsons.

b) IMPIANTO DI MONTE KUK E VODIC per 2 litri al 1" sol
levati alla prevalenza di 700 metri.

c) IMPIANTO PER L'ALTIPIANO DELLA BAINSIZZA. Furono
allora sperimentati per la prima volta i gruppi tutti

Declassified E.O. 12356 Section 3.3/NND No. 785019

ci idonti dal sottoscritto, per cui fu possibile eseguire in soli sei giorni l'acquedotto di Vrh con un alzamento di 2 litri al 1" per una prevalenza manometrica di m.600, fornendo l'acqua ad una divisione.

Dal novembre 1917 fu nominato Capo Ufficio degli impianti idrici presso il Comando Supremo, Comando Generale del Genio, dove riorganizzò i servizi ed i rifornimenti di materiali per le Armate e studiò il coordinamento e l'integrazione degli acquedotti del Grappa e dell'Altipiano di Asiago (allegato n.3: lettera Comandante generale del Genio Mariani).

Terminata la guerra fu sino all'aprile del 1933 Ingegnere Direttore del Consorzio di Bonifica Fossa Monselesana - Foresto Generale per lo studio esecutivo delle opere necessarie alla redenzione idraulica di tale compresorio il cui costo era di 60 milioni e per l'esecuzione di qualcuna di esse: come l'edificio idrovoro a Ca' Bianca presso Chioggia e la strada Martinelle con un ponte sopra il Canal dei Cuori e zona torbosa lungo circa metri 125.

In seguito poi agli studi eseguiti d'accordo con il Consorzio di Bonifica Fossa - Paltana per le boni-

Declassified E.O. 12356 Section 3.3/NND No. 785019

trice di m.600, fornente l'acqua ad una divisione.

Dal novembre 1917 fu nominato Capo Ufficio degli impianti idrici presso il Comando Supremo, Comando Generale del Genio, deve riorganizzò i servizi ed i rifornimenti di materiali per le Armate e studiò il coordinamento e l'integrazione degli acquedotti del Gruppo e dell'Altipiano di Asiago (allegato n.3: lettera Comandante generale del Genio Mariani).

Terminata la guerra fu sino all'aprile del 1933 Ingegnere Direttore del Consorzio di Bonifica Fossa Monselesana - Foresto Generale per lo studio esecutivo delle opere necessarie alla redenzione idraulica di tale comprensorio il cui costo era di 60 milioni e per l'esecuzione di qualcuna di esse: come l'edificio idrovoro a Ca' Bianca presso Chioggia e la strada Mertinelle con un ponte sopra il Canal dei Cuori e ponte torbese lungo circa metri 125.

In seguito poi agli studi eseguiti d'accordo con il Consorzio di Bonifica Fossa - Paltana per le bonifiche, chiese ed ottenne nell'aprile 1924 la libera docenza in Costruzioni idrauliche, confermata con il Decreto Ministeriale 15 gennaio 1931. Dopo di che gli

Declassified E.O. 12356 Section 3.3/NND No. 785019

venne conceaso dalla R.Scuola d'Ingegneria di Padova l'incarico per l'insegnamento degli acquedotti e delle Fognature che continuò a tutto il 1928, sino a che non si recò in Istria per organizzare l'Ufficio commerciale per il grande acquedotto Istriano.

In quest'epoca compilò e seguì come consulente tecnico i progetti di acquedotto per i comuni di San Giacomo di Lusiana (Vicenza), Bussolengo e Pescantina (Verona), Ragoli (Trento), Villafranca di Verona (1924-1928). Sono ora tutti costruiti e funzionanti dal 1930 con completa soddisfazione delle amministrazioni Comunali.

Nel 1925 cominciò lo studio dell'approvvigionamento idrico Istriano sia per la parte civile che militare, e nel 1927 con Decreto del Capo del Governo fu nominato a far parte dell'apposita Commissione che consegnò i propri elaborati nel marzo 1928 (allegato n.4).

Nel 1928, per incarico del Comune di Rovigo, a mezzo di pozzi tubolari, rinvenne la falda subalvea del fiume Adige in golena a Boara Polesine che sgorgava sempre limpida, potabile. Compilò il progetto esecutivo dell'acquedotto urbano e rurale di quel Comune

non si recò in Istria per organizzare l'ufficio consorziale per il grande acquedotto Istriano.

In quest'epoca compilò e seguì come consulente tecnico i progetti di acquedotto per i comuni di San Vincenzo di Lusiana (Vicenza), Bussolengo e Pescantina (Verona), Ragoli (Trento), Villafranca di Verona (1924-1928). Sono ora tutti costruiti e funzionanti dal 1930 con completa soddisfazione delle amministrazioni Comunali.

Nel 1925 cominciò lo studio dell'approvvigionamento idrico Istriano sia per la parte civile che militare, e nel 1927 con Decreto del Capo del Governo fu nominato a far parte dell'apposita Commissione che consegnò i propri elaborati nel marzo 1928 (allegato n.4).

Nel 1928, per incarico del Comune di Rovigo, a mezzo di pozzi tubolari, rinvenne la falda subalvea del fiume Adige in golena a Boara Polesine che sgorgava sempre limpida, potabile. Compilò il progetto esecutivo dell'acquedotto urbano e rurale di quel Comune ed altri finitimi. Anche a Cavanelle d'Adige rinvenne nel 1928 la falda subalvea dello stesso fiume ma entro

3/30

Declassified E.O. 12356 Section 3.3/NND No. 785019

campagna, alla base delle dune rimboschite. Fu così possibile risolvere il problema idrico della città di Chioggia e relativa spiaggia di Sottomarina.

L'acquedotto Istriano è terminato per la zona settentrionale relativamente alla rete adduttrice ed opere generali; è ora in costruzione per i territori centrali. Gli acquedotti di Rovigo e di Chioggia sono terminati da tre anni: il loro esercizio continua ad essere regolare e di soddisfazione per gli utenti.

Negli anni 1932-36 progettò e seguì la costruzione come consulente tecnico dell'acquedotto militare del Carso Istriano (Ministero della Guerra-Direzione Generale del Genio), in derivazione da quello civile Istriano, che comprende due gruppi per il sollevamento di 25 litri al 1" ciascuno ad una prevalenza di m.900 superata con un unico salto. E' in regolare esercizio da tre anni (allegato n.5 - lettera Ministero della Guerra).

Per la medesima amministrazione negli anni 1935-1938 eseguì il complesso di progetti per gli acquedotti della zona Media e Bassa Roja (Ventimiglia)che comprendono anche due sollevamenti di litri 7½ al 1"

ALLIED COMMISSION

Dear Sir,

I beg yuor pardon for the time that you will lose in reading this my letter.

You know better than I that our job will be finished shortly and I don't know what I may do for the immediate future,beauuse here,at present,will be very difficult to find any work. My old Firm will not re-take operating before the end of the year.

I have read in the nawspaper that in the next days, some Commissions of Italian theenical-men will be sent in America for commercial businnes. Is it possible for me to go in the United States with the mentioned Commissions,as assistant,or expert,interpreter,...porter,shoe-shine? Don't amiss le! I have my aim. Perhaps you know that the Philips Co has started in America a very big job. Probably the Gentlemen of the Philips Co,with whom I worked ten years in Italy and in Holland,will assume me,but,you understand easily that it is different to be on the spot and to speak directly instead to treat by mail;expecially for the civilians that cannot use the air-mail. Each letter spend one month to reache the States:in this manner years are necessary.

Or,if this is impossible,please remember me if there will be the opportunity to be employed in some of your Offices that certainly will remain in Italy.

Shortly,I should like to remain with you still for a certain time to continue,at least,my practice in English language.

Thank you for your attention,and please don't forgotten me.

Yours very truly
E. Ciriani

Mr. Col. Jenny
Director of the subcommission of the
Allied Commission for Industrie-Reconstruction.

Rome.

ackdg in ms of 7 inst EJR

138

Dear Sir,

Today, I was informed by Dr. Stiner of the Swiss Legation in Rome, that he would pass my letter of May 14th on to you. He also writes, that you are leaving Italy in a few weeks, and that the industrial reconstruction will be transmitted to a civil commission.

I don't know, if this new organisation wants or could employ Swiss architects, but I hope, as I wrote you in my first letter, to be able to help or collaborate in such a construction. I believe that I could be useful, even though a foreigner, as an expert or adviser to a staff of civil-administrators, knowing Italy, its language and its people.

Mr. Bell, the consul of the U.S.A. in Lugano, is kind enough to forward you my letter and I was very glad to receive his advice in this matter. As Mr. Bell tells me, he can't give me a visa, the frontier being closed, unless there is a request for me by you.

If there is a possibility of employing me, I shall be glad to present myself to you or to one of your collaborators in Italy.

Enclosed you will find the photographs which Mr. Bell recommended me to send you; the references, you will have already noted in my first letter.

It is the serious intention of all Swiss to help the peoples who have suffered in the war areas, but there are few possibilities. With my demand, I hope to be of practical assistance and I await your favourable reply.

I am, entirely at your service
and remain
yours faithfully

139 refers

Witmer-Kerr.

ALLIED COMMISSION
ROMA

With reference to the proclamation by Gen. H.R.Alexander,General Governor of Italy,inviting the citizens to cooperate with the Allied Military Government for the reconstruction of Italy, I state: Prof.Doctor,Civil Engineer RICCARDO RIZZETTO,former teacher of Military Culture at the University of Padua and Captain in the Royal Italian Army,former collaborator with the Ministry of War (Air protection Department),writer in Italian and Foreign military magazines,expert in building and town-planning,offers his work to the A.M.C.:

1 for military defence-works in the Alps
2 for the reconstruction of towns destroyed by the war in the Venetia Region.

Herein enclosed,please find:

1 A list of my publications concerning "Air protection"
2 A list of my publications concerning "Artillery and Military Technique"
3 A list of my publications concerning"Town-planning".
4 A copy of a letter from "The Journal of the Royal Aeronautical Society" concerning a translation of the English Air Ministry.

I studied the English language at school. My assistant who was born in America,speaks the American Language.
Since my house in Padova was destroyed by bombs,I now dwell at SAN ZENONE DEGLI EZZELINI (prov.of TREVISO).
My assistant too,dwells at San Zenone degli Ezzelini(prov. of Treviso).

ROMA

Desidero segnalare a codesta Commissione il Sig. Tito Giorgi-Alberti, attualmente residente a Foligno (prov. di Perugia) in Via Benedetto Cairoli. Egli fu per 15 anni Direttore Centrale della contabilità della Compagnia Generale di Elettricità con sede in Milano. Nel 1939 e precisamente sotto la presidenza del fascista Filippo Pennavaria il Giorgi fu esonerato dalla sua carica perchè non iscritto al partito fascista e perchè ritenuto persona di fiducia del vecchio gruppo finanziario ebraico-americano.

Il Sig. Giorgi ha tutti i requisiti, morali e politici e tecnici, per controllare quanto è stato fatto negli anni trascorsi dalla gestione Pennavaria e per assumere, eventualmente la

Translation

THE MINISTER
OF
TREASURY

Rome 17 June 1945

TO: Allied Commission

ROME

I wish to give you information on Mr. Tito Giorgi-Alberti, residing at Foligno (Prov. of Perugia) in Via Benedetto Cairoli. He has been for 15 years Direttore Centrale of the contability of the General Electricity Company in Milan. In 1939, precisely under the presidence of the fascist Filippo Pennavaria, Giorgi was dismissed from his office because he was not inscribed to the fascist party and because he was retained a person of trust of the old financial group of American-Jews.

Mr. Giorgi, has all the qualifications needed, morale, politic and technical, needed, for controlling what has been done during the past years by Pennavaria, and for assuming eventually the administration of the Company.

SUBJECT: Monthly Electrical Progress Reports.

TO : Ministry of Public Works
(attn. Eng. Asta)

1. Confirming my conversation with you this morning, we have two Italian engineers whose services are being dispensed with, their names being Carlo RADIUS and Andrea DRUTSKOY.

2. These two men have handled the Monthly Electrical Progress Reports and various other statistical work which the Electrical Division of this Sub-Commission has been carrying out and they can be fully recommended to you as capable and reliable engineers.

3. It is understood that you will now be developing the Monthly Reports showing the progress of electrical rehabilitation and other necessary technical data and we shall be glad if you will let us have a copy of these not later than the 10th of the month following that to which it refers. It is hoped that we may receive a copy of the May report not later than the 10 of June, as this will have to be duplicated by us and circulated to the interested services.

SUBJECT : Recommendation for Employment.

TO : Ministero dei Lavori Pubblici,
Rome.

1. The case of Mario Albertelli, now living at 180, Via Flaminia, Rome (Tel. 393220) has been brought to the attention of this Headquarters by U.N.R.R.A. (Displaced Persons and Refugee Relief) as one of outstanding merit, deserving of Allied assistance, due to the losses sustained by him in the cause of the Allies.

2. As will be shown by the attached attestation, signed by an Allied officer, Albertelli has lost his house and possessions through his work, undertaken at great personal risk, in assisting Allied personnel to escape from Enemy territory.

3. His profession is that of a photographer, but it is understood that he is now in very distressed circumstances and it would be appreciated if any work can be found for him among the contractors lately employed on projects for Public Works and Utilities Sub-Commission of this Headquarters, who are now operating under the direction of your Ministry.

Sgd. Mackerey

190476 V Lieut. AL Turner
R.E. Royal Engineers

To whom it may concern

Mario Albertelli is one of the Italians who has tendered him hospitality to Allied P.O.W.'s escaping from German occupied Italy.

At Sassatolia, Fabriano district four British Officers and may young brother from the S. African forces were sheltered, clothed & fed by Mario and a group of his friends for 7 months. They were in constant danger of being discovered sheltering escaped P.O.W.'s Mario has actually lost his car and has had his house blown up by the Germans because P.O.W.'s had been sheltered there.

He should be given every assistance by British Forces because of his having helped British soldiers to escape to our lines and because he was one the few people who actively supported a band of Patriots led by the Bir. Officers which havoc amongst the Germans in the Fabriano district. I know all this because my brother who has now reached our lines has written to me asking me to attempt to repay Mario for his kindness during their enforced stay in Sassatolia.

A-PRO-MEMORIA :"CURRICULUM VITAE" OF Dr.Ing.EMILIO FERRARA

a)-NAME AND SURNAME — FERRARA Emilio

b)-AGE-FAMILY POSITION. — Born the 26th June 1904 - Maried - 1 son.

c)-NATIONALITY. — Italian - Permanent resident in the Union of South Afrion since January 1935 and not subjectio the restrictive provisions of the Aliens Act Nº 1 of 1937(see letter to me adressed by the Principal Immigration Officer of S.A.U Nº786/I/1937,dated the 20th August 1937).

d)-UNIVERSITY AND OTHER QUALIFICATIONS. — 1)-Doctor's degree in Industrial Engineering, Italy,1928.
2)-Degree of ability from the Government Board of Examiners,Italy,1929.
3)-Diploma of ability as General Manager of Bologna Municipality Gas Works (The winner has been,of course,a "fascist squadrista": ing.Zanihoni).

e)-LANGUAGES SPOKEN. — English,French,Italian.

f)-PREVIOUS EXPERIENCE. — 1)-1929/31-With MONTECATINI S.A.,Palermo factory of "ARENELLA"-Qualification:Head foreman of Tecnical Services (Power station;Vacuum and compressed air st.;drawing office;etc).
2)-1931/33-With OFFICINE MECCANICHE LOCICERO of Palermo;and with IMPRESE ELETTRICHE FRANCHINA of S.Agata(Messina).Qualification:Consulting Engineer.
3)-

3376

Declassified E.O. 12356 Section 3.3/NND No. 785019

(From now on, in the Gas and coke industry)

3)-1933/34=With MUNICIPALITY GAS WORKS of Palermo. Qualification: Production Engineer.

4)-1935/37=With PERRAPA & MARZ'RIGEL BRICK-WORKS, Ltd., Johannesburg, S.A.U., Tvl. Qualification: General manager.

5)-1937=Travelling through Europe to visit the most important and modern gasworks and coke-ovens installations. During this time I stayed for a few months at Sheffield University, Fuel Institute (prf. Wheeler scool); and I followed the very interesting research works of Midland Committee of C.O.M.A.

6)-1937-41=With ITALGAS S.A., of Turin, in the following appointements in the depending factories:

a)-1937-38=by COKITALIA S.A., of S.Giuseppe di Cairo, Savona: by-product coke-ovens install., 3.000 tons daily coke output. Qualification: Production Manager.

b)-1938/39=by the GENERAL TECHNICAL MANAGEMENT OF ITALGAS CONCERNS in Turin. Qualification: Technical Manager.

c)-1939/41=by FLORENCE GAS-WORKS. Qualification: Distribution Manager.

(I was compelled by the fascist authorities to give my resignation, accused of "antifascism" and of "sabotage to military affairs" : I can try this.)

7)-1942=With EDISON S.A., Milan. QUALIFICATION: Manager for the planing of Milan new Gas-works (24.000.000 c.f. daily output.)

3375

Declassified E.O. 12356 Section 3.3/NND No. 785019

8)-1942/xp to now=With VETROCOKE S.A. of Turin, (FIAT GROUPS).Qualification:General Manager of the dependent coke-ovens Institell.,of I. Marghera,Venice (2.000 tons daily coke output).

In September the 10th,1943,I left the office, willing not collaborate with German invaders; compelled to resume the work in January 1944, I went back to Turin and in the meantime I collaborated with the organizers of the patriots and helped many British prisoners and Italian Jews to escape nazi-fascist persecution. I myself had to leave definetly Turin in May 1944,taking refuge in the liberated Italy.

6)-PLANTS OF PLANTS.

1)-Planing of "Arenella" power station,Palermo, 1929,(boiler station only).

2)-Planing of gas electro-detarring,Johannesburg, 1935.

3)-Planing of high-pressure gas feeders:from Empoli:etc. (1938/49)

4)-Planing of gas distribution for the town of Empoli,1940.

5)-Planing of Milan new gas-works (24.000.000 c.f.daily gas output),1941.

6)-Planing of by-products new plants for the old gasworks of Milan,1941.

3374

7)-RESEARCH PUBLICATIONS

Dr. Eng. Emilio Ferrara
c/o "Italgas" S.A.
Via XX Settembre 41.
Turin, Italy.

Dear Sir,

I thank you for your letter of the 9th of this month, and have pleasure in enclosing Form of Application for election to membership of the Institution, whichshould be completed in detail and returned to me for consideration by the Council.

Your attention is drawn particularly to page 4 of the form, containing extracts from the By-Laws relating to membership. I would suggest that you do not apply for any specific class of membership, but leave this open.

You will see that the application form must be signed by four proposers, who must be Members or Associate Members of the Institution. There are at present no Members resident in Italy, but possibly you are acquainted with some in this country, whose signatures you could obtain.

I should be much obliged if you would send me a copy of the By-Laws of the Italian Gas Association and if you would inform me if membership of that Association is open to British Gas Engineers.

Yours faithfully

(W. T. K. Braunholtz, Secretary)

Mr. Umberto Cipollone
3 Via A. Brofferio
Rome

Dear Mr. Cipollone:

I thank you for your letter of 14th March. A general order has been issued to reduce the civilian staff throughout this organization and I am obliged to comply with it.

Miss D'Alessandro was given permission to be away from the office during the whole of this week to enable her to find other employment.

We have tried to find a vacancy for her in the Legal Sub-Commission but without success because they are also complying with the same order to reduce. We are obliged to retain the most useful members of the staff some of whom are also in distressed circumstances.

However, in order to further assist Miss D'Alessandro to such an appointment elsewhere and still remain on our pay-roll I have instructed my staff officer to retain her for another week the whole of which she may use to look around without attending at the office.

I am sorry I cannot do more under the circumstances. We have had to let others go and we could keep only such people who were expert translators and those who are efficient typists.

With my kind regards, I am

Yours very truly,

Dear Sir,

re:Application for appointment on the staff of a.C.C.

With reference to the visit to you paid on october last, I am sending you the above said application hoping you will give me the chance to collaborate with the A.C.C., appointing me on your staff.

Could you not do this neither at present nor for the time being, then I beg of you to inquire if it is possible to the "Coal Sub-Commission" (Maj.Mackary ?), whose work is also in my line, or elsewhere, in Italy or in England.

I thank you very heartily, and I am, dear Sir,

Yours faithfully

E. Ferrara

SUBJECT : Installation of Telephone in home of Sig. De Angelis Enrico.

TO : The General Office, Societa' Telefonica Tirrena.

Sig. De Angelis Enrico is employed in the Central Control Room of the Central Italy Electricity Scheme. In connexion with his duties there, it is important that a rapid means of communication exist between the Control Room and his home.

Consequently it is requested that a telephone connected to the Rome City exchange be installed at his home.

Application for employement: Ing. Lazzaro Devoto.

1. Herewith qualification supplied to me by the above person who wishes to find employement.

2. The man cannot speak English but can translate from English into Italian with ease. He is having conversation lessons.

3. As the person is known to me I recommend his application.

Lt. Col. 3326
A.D.C.S.

Dr. Engineer LAZZARO DEVOTO, born in Genoa on the 13.2.1908, living in Roma, Viale Tito Livio 23 since the 25.9.'43. Studied in Genoa and obtained the Engineering degree in Turin from the local University.

After a short period of practice with an architect and a firm of builders, he started an office of his own in Genoa. The following are the principal works carried out by him:

1) in the province of Imperia:
a- plan of a Cemetery and of a mountain road, including bridges & c. in the sorroundings of the village of Molini di Triola.
b- building of a two storyed villa in the village of Cipressa.

2) in Genoa:
a- Planning and constructing of a five storey building, in collaboration with another engineer.
b- various other minor works and plans for the general outlaying of shops and flats, including the planning of the furnishing of them.
c- court of law valuation for the requisitioning by the town authorities of a 50 flats building.
d- competion for the planning of a workmen village for the Ansaldo Company (3rd prize)
e- still on project on the 8th of Sept. 1943: the planning for a new residential district to host 20.000 people.

3) in Ormea:
a- planning and building of a part of a Paper Mill in reinforced concrete (about 2000 square meters of covered accomodation, one and two floors).
b) planning and building of a distilled water reservoir to hold 1500 cubic meters (Concrete and masonry used).
c- Many other minor plans.
d- still on project on the 25/9/43 a workers village for the above mentioned paper mill.

3325

4) in Rapallo:
a- Planning of a small flats building (five floors) and of a villa.

Town planning has been the specialisation of the above Engineer.

Lt Col Thompson

R o m a

Il sottoscritto, M A R C O V I G I Vittorio,cittadino italiano, nato a UDINE(Veneto),di anni 54,diplomato dell'Accademia Internazionale di Commercio di Zurigo,(Svizzera) ,che parla discretamente l'inglese e lo spagnolo,correttamente il tedesco ed il francese,si è specializzato, attraverso un esercizio professionale di circa 20 anni,nei problemi tecnico=igienici che hanno attinenza con la erogazione di acque potabili, la depurazione e lo smaltimento di quelle di rifiuto nonchè la elimina= zione e la valorizzazione dei rifiuti solidi urbani(spazzature).

Conforiato dalle sue cognizioni linguistiche,egli ha potuto non soltanto seguire attentamente,attraverso pubblicazioni internazionali, lo sviluppo di questo campo della tecnica,ma visitare e studiare altresì importanti impianti all'estero,entrando così in personale relazione con eminenti tecnici del ramo.

3319

Consulente di Società private e di Enti Pubblici,ha,in molteplici circostanze,dato il suo contributo allo studio dei problemi relativi all'igiene dell'approvvigionamento idrico,allo smaltimento delle acque di rifiuto ed all'allontanamento dei rifiuti solidi urbani.

In quest'ultimo campo ha raggiunto notorietà per i suoi studi relativi alla valorizzazione dei rifiuti solidi mediante procedimenti brevettati in Italia ed all'estero.

Si trova quindi nella possibilità di collaborare alla proget=

Public Work & Utilities Sub Commission

R o m e

Il sottoscritto, M A R C O V I G I Vittorio, cittadino italiano, nato a UDINE(Veneto), di anni 54, diplomato dell'Accademia Internazionale di Commercio di Zurigo, (Svizzera), che parla discretamente l'inglese e lo spagnolo, correttamente il tedesco ed il francese, si è specializzato, attraverso un esercizio professionale di circa 20 anni, nei problemi tecnico-igienici che hanno attinenza con la erogazione di acque potabili, la depurazione e lo smaltimento di quelle di rifiuto nonchè la eliminazione e la valorizzazione dei rifiuti solidi urbani(spazzature).

Confortato dalle sue cognizioni linguistiche, egli ha potuto non soltanto seguire attentamente, attraverso pubblicazioni internazionali, lo sviluppo di questo campo della tecnica, ma visitare e studiare altresì importanti impianti all'estero, entrando così in personale relazione con eminenti tecnici del ramo.

Consulente di Società private e di Enti Pubblici, ha, in molteplici circostanze, dato il suo contributo allo studio dei problemi relativi all'igiene dell'approvvigionamento idrico, allo smaltimento delle acque di rifiuto ed all'allontanamento dei rifiuti solidi urbani.

In quest'ultimo campo ha raggiunto notorietà per i suoi studi relativi alla valorizzazione dei rifiuti solidi mediante procedimenti brevettati in Italia ed all'estero.

Si trova quindi nella possibilità di collaborare alla progettazione, di dirigere l'esecuzione, di curare l'avviamento e di sorvegliare l'esercizio di impianti relativi a:

ACQUE POTABILI: Filtrazione,Sedimentazione,Sterilizzazione,Coagulazione, Addolcimento,Deferrizzazione,Aerazione,ecc.ecc.

ACQUE DI RIFIUTO:Chiarificazione,Filtrazione,Ossidazione,Depurazione biologica,Sterilizzazione,Digestione dei fanghi, Ricupero di gas e di concimi,ecc.ecc.

RIFIUTI SOLIDI URBANI:Impianti di cernita secondo nuovi sistemi brevettati,Produzione di concime,Produzione di gas,Produzione di cellulosa,Digestione materia organica, Valorizzazione dei ricuperi,ecc.ecc.

Lo scrivente ha progettato,diretto,attivato e sorvegliato numerosi impianti in Italia.Per citarne alcuni:

Lazzaretto S.Antonino=BRESCIA :Sterilizzazione acque rifiuto
Ospedale Pizzardi per malattie di petto=Bologna:Sterilizzazione
Sanatorii Antitubercolari di Reggio Emilia,Siena,Trapani,Caltanissetta,Ragusa,Catanzaro,ecc. Sterilizzazione acque rifiuto.
Ospedale di Camerlata(Como) Acque rifiuto
Acquedotto del Pozzo Guardati(sussidiario Acquedotto Pugliese) in Lecce:Sterilizzazione acqua potabile
Acquedotto S.Giorgio della R.Marina=Taranto:Sistemazione e disinfezione
Dispensario Antitubercolare di Pesaro:Disinfezione rifiuti
" " " Macerata:Disinfezione acque rifiuti
Istituto Case Popolari=TRIESTE:Fognature con disinfezione acque
Istituto Case Popolari di Treviso:Istituto di Cavezuccherina
e numerosi altri in quasi ogni Provincia d'Italia.

Lo scrivente ha inoltre preso parte attiva allo studio,la progettazione e la preventivazione dei seguenti grandi impianti,non potuti eseguire per causa di guerra:

R O M A:Depurazione acque rifiuto ,collettore di destra
R O M A: " " " " " sinistra

razione avvenga "per chiamata",di volta in volta,a seconda delle necessità e pertanto le sue competenze vengano commisurate in rapporto alle prestazioni offerte ed in base ad accordi da concludersi in precedenza.

Egli pensa che,ottenendo da cod.Sottocommissione la necessaria autorevolezza ed i mezzi tecnici strettamente indispensabili,potrebbe riuscire particolarmente utile,in questo campo,come tramite fra le Forze Alleate e gli organi tecnico-amministrativi locali,sopratutto per il sollecito ripristino di servizi igienici di grande importanza sociale ed anche politica.Tanto più che,nel lungo esercizio professionale,lo scrivente ha potuto annodare parecchie relazioni nel campo degli uffici tecnici comunali ed ha avuto occasione altresì di conoscere la situazione di acquedotti,fognature e servizi smaltimento rifiuti solidi di diverse città italiane.

Con osservanza

Marcovigi

A. C. C. CIVILIAN PERSONNEL G-1 SECTION
CLASSIFICATION QUESTIONNARIE

The form below is for use when employing a civilian as Junior Administrative Assistant or any higher position and also for use when requesting reclassification of a present employee to a higher position (in accordance with par. III and V Office Memorandum No. 15, this headquarters, dated 1 August 44). For reclassification, the form should be filled out by the employee in conference with the employing officer and signed by the latter. In filling a new position the employing officer fills out the form. After completion the form should be brought to Civilian Personnel, Room 11, Ground Floor, by the employee or applicant concerned. A carbon copy of this job description should be retained and future identical jobs described by quoting reference number, show below.

This form is for a job description only and should not include the incumbent's experience and education unless he is unavailable for local interview. The job description should include: 1. *The degree of supervision under which the employee will work.* 2. *Any supervision by the employee of other workers.* 3. *A factual word picture of the being done or to be done.* Avoid ambiguous words such as «assists», «handles», «difficult», «complex», etc. A sample job description of the position of interviewer (Junior Administrative Assistant) in Civilian Personnel follows: «Under general direction of the head of the Personnel Office interviews civilian applicants for employment. Supervises two civilian clerks who help applicants in filling out applications and one clerk who administers tests and keeps application files. Interviews applicants in English and Italian. Classifies them and refers clerical grades directly for placement. Refers applicants qualified for supervisory work to a Civilian Personnel Officer for check interview and placement referral».

Italian
Engineer
Officer

ALBERTO SOMIGLI, born in Naples, January, 25 1919, resident in Naples at 3, via Luca Da Penne, now in Rome, 9 via Ricciotti (c/o Gen. Guidotti) tel. 363429.

STUDIES: "Liceo classico" Classical College in Naples. Degree in Industrial Engineering (percentage 108/110). Subsequently he took a course in Electrical & Radio Engineering at the Royal Naval Academy.

FOREIGN LANGUAGES: French, he speaks and writes very fluently, German, enough; English, he is now studying English.

MILITARY SERVICE: enlisted in the R. N. in July 1940, as 2d Lieut. for technical services. At present ~~it~~ Lieut. ~~[illegible]~~ discharged.

In July 1940 he was sent to the Technical Inspection Office attached to the "S. I." in Baia, Naples (torpedo factory) appointed in charge at the torpedo range. Afterwards he was appointed in technical control of the entire factory, as vice director. He was then concerned with the first studies of the mentioned firm (there are only 2 firms of the kind in Italy: the other one is the "Whitehead" in Fiume) for the production of the aerial torpedoes, of electric torpedoes and of midget torpedoes. After two years and a half of such work he was sent to Caserta as director of the local factory for electric torpedoes, and afterwards sent to Tropez (France) as vice director of the Control Office of the Naval Construction Yard.

3314

On September 11 1943, having refused to join the Fascist Army, he was arrested by Germans and deported (in miserable conditions) to Poland, where he lived in the camps of Ivangorod, Deblin Irena, Przemysl. Life conditions imposed by Germans to Italian Officers who had not joined Fascist Army

3314

On September 11 1943,having refused to join the Fascist Army,he was arrested by Germans and deported(in miserable conditions) to Poland,where he lived in the camps of Ivangorod,Deblin Irena,Przemysl.Life conditions imposed by Germans to Italian Officers who had not joined Fascist Army are too well known to be detailed.As he strongly desired to return to Italy in order to cross the front line and be home again,he consented to join the Republican Navy and succeeded in reaching Venice on July 18 1944. Finding that it would be very difficult to cross the Italian front line,

Declassified E.O. 12356 Section 3.3/NND No. 785019

he Decided to make his way through France,where he could rely upon French patriots.He succeeded on June 26 in obtaining a regular pass from German Command in Venice,permitting him to withdraw naval materials from Toulon. As soon as he passed the frontier he destroyed all Fascist and German papers,and dressed civilian clothes got in touch with the above mentioned French people,and was then enabled to evade Gestapo and return to Italy by air,through the kindness of a British Army Officer to whom he was introduced by French Officers.

In Rome he visited the Investigation Commitee of the Royal Navy and was immediately dismissed without further inquiries.

At present he wishes to work as a Radio Engineer or in similar capacity.

For an English reference,apply to Mr Robert Handley,P. W. B. Office in Naples,via Calascione.

Mr. ANTONIO ASTA

Born in Messina (Sicily) 20 May 1902 graduated in Rome as electrical engineer on 30th December 1925.

Since January 1924 assistant for electricity classes at the School of Engineering in the University of Rome.

Appointed for "Electric measures-complements" during university sessions 1934-1935 and 1935-1936.

Appointed for the "Electric power plants" course at the same school from 1936-1937 to 1940-1941.

Appointed for the "Electric machinery" course at the same school in 1937-1938 session. Appointed for "Mercury vapour rectifiers" course (Advanced course for electrical specialization) at the Politecnico of Turin from 1937-1938 to 1942-1943 sessions.

Appointed(together with the two others) following the concours for "Professor of Electricity" at the University of Bologna in October 1937. In October 1939 he refused the appointment for professor of electricity at the University of Cagliari (Sardinia).

Shortly after the beginning of the war his activity as professor in Rome was interrupted chiefly because of his calling up to the "Genio Aeronautico" (Direction of studies and experiments at Guidonia - radio electric division).

Eng.Asta's activity as professor in Turin was also interrupted after 8th September 1943, and since October 1945 he was again, professor at Rome University.

Together with the activity as professor he also spent his time in experiments and professional business relating electric machinery, plants and measures.

From 1926 to 1937 he collaborated with Section 3 of Superior Counsel of Public Works for the study of problems on italian power generation and distribution systems (Constitution of systems - studies statistical data - electric energy rates in Rome, in other particular places and in all Italy - studies on measuring apparatus for electric power - problems of power exchenge between various italian regions - thermoplants - electroagriculture).

In 1952 - 1953 as an electricity expert of the above Section 3 he carried out a series of studies on the interconnection problems as well as on power exchange at 230 KV between Northern and Central Italy (transmission lines at 230 KV Torino-Milano-Verona-Venezia and Verona-Bologna-Firenze-Terni, substations, reahsing stations and their regulation)

Declassified E.O. 12356 Section 3.3/NND No. 759019

Since January 1922 assistant for electricity classes at the School of Engineerir in the University of Rome.

Appointed for "Electric measures-complements" during university sessions 1934-1935 and 1935-1936.

Appointed for the "Electric power plants" course at the same school from 1936-1937 to 1940-1941.

Appointed for the "Electric machinery" course at the same school in 1937-1938 session. Appointed for "Mercury vapour rectifiers" course (Advanced course for electrical specialization) at the Politecnico of Turin from 1937-1938 to 1942-1943 sessions.

Appointed(together with the two others) following the concours for "Professor of Electricity" at the University of Bologna in October 1937. In October 1938 he refused the appointment for professor of electricity at the University of Cagliari (Sardinia).

Shortly after the beginning of the war his activity as professor in Rome was interrupted chiefly because of his calling up to the "Genio [redacted]tico" (Direction of studies and experiments at Guidonia - radio electric division).

Eng.Asta's activity as professor in Turin was also interrupted after 8th September 1943, and since October 1945 he was again, professor at Rome University.

Together with the activity as professor he also spent his time in experiments and professional business relating electric machinery, plants and measures.

From 1926 to 1937 he collaborated with Section 3 of Superior Counsel of Public Works for the study of problems on italian power generation and distribution systems (Constitution of systems - studies statistical data - electric energy rates in Rome, in other particular places and in all Italy - studies on measuring apparatus for electric power - problems of power exchange between various italian regions - thermoplants - electroagriculture).

In 1932 - 1933 as an electricity expert of the above Section 3 he carried out a series of studies on the interconnection problems as well as on power exchange at 220 KV between Northern and Central Italy (transmission lines at 220 KV Torino-Milano-Verona-Venezia and Verona-Bologna-Firenze-Terni, substations, reahsing stations and their regulation)

file in Personnel Record file

.1.

Declassified E.O. 12356 Section 3.3/NND No. 785019

From 1934 to 1937 he took part as technical expert, in the activity of the "Board for the mobilization of Electric Energy" established in the Superior Counsel of Public Works, in order to make executive designs of 830 KV interconnecting plants. He carried out the electric and mechanical calculations for lines, and conductors directing at the same time the mechanical calculations on towers and foundations. In 1937 he also started calculating the electric stability of interconnecting lines. After 1938, when "CONIEL" was changed of the construction and maintenance of interconnecting systems, Eng.Asta still remained as electrical expert at the "Superior Counsel of Public Works" without specifically collaborating to the works, mostly statistical and administrative, carried out by Counsel's various boards on generation, transmission and distribution.

Bachelor. He held membership in the Fascist Party since October 1932 but never had special carges or he took part in Fascist military organizations.

TO WHOM IT MAY CONCERN :

We take pleasure in introducing the bearer of this letter Eng.ZAMORANI OSKARIO of Via Ludovisi,66 - Rome.

Eng.ZAMORANI OSKARIO was employed by this Sub-Commission from 15 July 44 to 15 December 44 and proved to be an able and willing employee to whom time was of secondary importance to the task to be performed.

The above engineer by his initiative and energy very ably assisted in the maintenance of continuous service from the thermal stations in this area.

We are more than glad to have the opportunity of furnishing this recommendation.

22A

ING. COMM. GIULIO TIAN

ROMA - VIA CAMPANIA 69
TELEF. 46456

Rome, October 27th 1944

To Lt. Col.
I. G. Munro
Press Chief
P. W. B. Via Veneto Rome

I wish to offer my services to the Allied Government as an engineer, as a writer and as a linguist. I came back to Rome only a few days ago; I have been a refugee in Tuscany since September 1943, as I did not feel quite safe in Rome, after what I had written in August of that year, on the fall of fascism.

I speak fluently English, French and modern Greek. I took my degrees of engineer at the School of Engineers in Rome, and the following are my principal works:

1) Superintendence of the water works of the aqueduct of Siena.
2) Superintendence of the sewer works of Genazzano.
3) Superintendence of the water works and sewer works of Rentina.
4) Superintendence of the sewer works of Tarquinia.
5) Superintendence of the water works of the aqueduct of Salerno.
6) Superintendence of the water works of the aqueduct of Cassino.
7) Schemes of the aqueduct of Arce.
8) Scheme of the aqueduct of Cattolica Romagna.
9) Town Plan of the city of Ancona.

3272

Declassified E.O. 12356 Section 3.3/NND No. 785019

10) Town Plan of the city of Salerno.
11) Town Plan of the city of Aquila.
12) Town Plan of the city of Bologna.
13) Town Plan of the city of Taranto.
14) Town Plan of the Garden city of Rome Portonaccio.
15) Laying out of the Electric line from Castel Madama to Rome
16) Laying out of the Electric line from Terni to Rome.

All these works of mine have been published in the most important Italian and Foreign Technical Press - expecially in "Genie Civil" of Paris, "Deutsche Bauzeitung" of Berlin, "Engineer" of London and "Monitore Tecnico" of Milan; I keep at your disposal about fifty of these technical Reviews from 1920 till to day.

For about twenty years I have been arbiter and reviser for controlling the accounts of contractors for the Italian Ministry for Public Works, The Municipality of Rome, the Institute of Popular Dwellings of Rome, the Institute of Social Foresight, the Institute of Insurance, and the Provincial Council of Pisa.

For several years I was General Secretary of the Italian Committee for the Tunnel under the Channel (see the "Bulletin del'Association France-Grande Bretagne" of May 1925).

In 1933 I gave lectures on Town-Planning in

Declassified E.O. 12356 Section 3.3/NND No. 785019

Paris at Palais Royal, and at the Theatre of Lille.

From 1919 to 1925 I was General Secretary of the Engineering Board (Consiglio dell'Ordine degli Ingegneri) of Rome. I am going to publish in Italy, France and England a volume of memories on the fall of fascism, on the causes of the war, and on our liberation.

Awaiting a kind reply, I should be very pleased to contribute with all my powers to the cause of the Allies.

With my best regards

Yours sincerely

Ettore Viola

14 September 1944

Subject : Personnel Records.

To : Civilian Employees, Electric Operations and Transmission Department.

1. Hereafter, when any employee of the Operations and Transmission Department works overtime, he will write his name, the hour that the overtime is started and the lenght of time in the Overtime Book, on my desk.

2. It is important that this be done when the actual overtime is started; otherwise payment for extra time will not be made.

3. In order that the whereabouts of the employees may be known, it is requested that each employee signs his name, destination, and time of departure in the Departures Book, if he leaves the building during working hours.

Viral S. Benion
Major Infantry
Chief, Operations and Transmission Dept.
