1 May 1945

SUBJECT : POL Requirement for June 1945

TO : Regional Commissioner Toscana Region
(attn. Supply Officer)

These allocations have been based upon experience and practice in the Southern and Tosco - Umbria Region. No allowance has been made for "pruning" as this has already been done.

A continuant additional supply of [illegible] to be placed in each depot for new contract or emergencies is respectfully suggested.

Attached hereto are s.n. allocations for the onth of June.

Conrad. H. Loff

(attn. Supply Officer)

These allocations have been based upon experience and practice in the Southern and Lazio - Umbria Region. No allowance has been made for "pruning" as this has already been done.

A contingent additional supply of 20 % to be placed in each depot for new contract or emergencies is respectfully suggested.

Attached hereto are n.m. allocations for the month of June.

Conrad H. Hoff
A.U. Civilian
for the Regional
Lt. Col. A.F.

SUBJECT: Fuel Oil for Capuana
Generating Station.

TO : Ministry of Public Works (att: Eng. Asta)

1. During a recent visit at Naples Eng. Masturzo spoke to me regarding the payment for fuel oil for Capuana Generating Station, Naples.

2. It seems that you are asking him to pay for fuel oil which was consumed during the testing out and trial run of the generating plant. It was our understanding that SME. company would not be asked to meet this cost.

3. This is, of course, a matter for you to decide, but as it has been drawn to our attention, the above is an expression of our opinion in this matter.

To: Ministry of Public Works
General Inspectorate for Water, Gas
and Electric Power
R O M E

File: A 100

Subject: Payments for fuel oil
"Capuano" Generating Station

We have your letter file n° 382 of 19 inst. and submit to you following remarks:

1) You inform us that according to a Bill to be enacted within short, the fuel oil for Diesel motors will be taxed in the same reduced, measure as the fuel oil for boilers.
Nothing but fuel oil for boilers has always been used in our plant concerned. The provisions of the Bill you mention will therefore cause no change whatever in the fueling costs of same.

2) You point out that no other plant has been granted the facility of not paying for the fuel oil burned during trials of machinery. Still, it is a positive fact that no other plant is in the same conditions as our Capuano Station, for this:

a) already burns fuel oil for boilers and will therefore have no benefit from the new Bill under 1)

b) was very badly damaged during war and needed important reconstruction works and toilsome testing periods.

We ask you to ponder there observations and judge whether the question should be examined again.

We remain truly yours

4285

Declassified E.O. 12356 Section 3.3/NND No. 785019

Translation

Rome April 19th 1945

From the Ministry of Public Works Gen.Inspectorate
for Gas, Water and Electric Power

to: Southern Electric Coy.
Ente Volturno

Copy to: Hq. A.C. P.W. and Ut. Su-Comm.

Subject: Reduction in price of fuel oil -

- Reference is made to the request filed by this Company in order to be exempted from payment for the fuel oil burned during the trials of machinery (which is part of the amounts to be invoiced by the C.I.P.)

- Said request cannot be granted:
a) because a Bill will be enacted within short, according to the provisions of which the same, custom duty will have to be paid for fuel oil for ~~thermal~~ plants as for fuel oil for boilers and ovens; and this will be a great facility for the Company;

b) because your Company could not be granted a more favourable treatment than the others.

Signed: The General Inspector

(Visentini)

UTILITIES SUB - COMMISSION

1. The above Firm has requested CIP an allocation of :

100 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is necessary for the reinstatement of the levels of the following equipment :

- 2 Transformers of 200 KVA - transformation rate 9000/220 V.
- 10 Starting rheostates - inserting tension 220 V.

3. The above quantity covers a three months requirement.

4. In our opinion 50 Kgs. would be sufficient to cover said needs.

5. Attached is the declaration of the Electric Power Distributing Company.

6. Please let us know your decisions on the matter.

Fornitura energia elettrica.

Con riferimento alla vs/ del 12 corr., vi confermiamo che in data 1° Gennaio 1931 stipulaste con noi regolare contratto di fornitura energia per usi promiscui.

Attualmente, poichè, a quanto ci risulta, il vs/ Stabilimento è requisito dalle Autorità Alleate, i prelievi di energia seguiti nello Stabilimento vengono da noi imputati all'Ufficio Requisizioni Esigenze Anglo-Americane.

Distinti saluti.

SUBJECT: Fuel Oil for VATICAN.

C.I.P., Rome.

1. This Section has been advised that the VATICAN supplies of fuel oil are exhausted and that no shipments have been made to them recently due to non-availability of rail cistern wagons.

2. Major Peterson of this Section has arranged with Major Price that the VATICAN be allowed temporerily to draw fuel oil by tank truck from ACEA at Rome under C.I.P. supervision and this Section is to be advised by C.I.P. of the amounts drawn, for accounting purposes.

3. C.I.P. should contact ACSA Engineer at the power station and make the arrangements for the VATICAN to draw the oil.

4. P.B.S. is being asked, by copy of this letter, to try to make available RCWs for shipment of fuel oil to the VATICAN.

SUBJECT : Allocation POL to S.M.E. Catanzaro.

TO : P.W.U. Subcommission (Electrical Division)

1. Our letter to Ministry of Industry, Commerce and Labour AC/5087 of 21 February 1945 refers and the following reply has just been received from the Ministry.

2. Translation of letter 19 April 1945 Prot 1864/III
" We refer to letter AC/5087 of 21 February 1945 in which supplies of Petrol for motor vehicles belonging to Società Meridionale di Elettricità di Catanzaro are discussed. You are assured that this Ministry has given instructions to U.P.I.C. Catanzaro to satisfy the requirements in question."

3. Though this assurance is a bit tardy, as no further complaints have been received we believe that the instructions actually were given in good time.

Oggetto: Riduzione in merito pagamento nafta

Alla Società Meridionale di Elettricità - NAPOLI -

All'Ente Autonomo Volturno-NAPOLI

p.c.all'Headquarters Allied Commission Public Works and Utilities Sub-Commission

(all'attenzione del Col.Lapper)

In riferimento alla richiesta fatta da codesta Società di consentirle di non pagare la nafta usata per i periodi di prova(nafta rientrante nei quantitativi da fatturarsi dalla C.I.P.) questo Ministero comunica.

Tenuto conto che è prossima la pubblicazione di un Decreto Luogotenenziale(Ministero delle Finanze)stabilente che l'olio combustibile per gli impianti termici dovrà essere pagato,come dogana alla stessa stregua dell'olio destinato a forni e caldaie,il che costituirà una notevole agevolazione per le Società,e considerato d'altra parte che non vi è motivo di usare verso codesta Società un trattamento diverso da quello fatto ad altre,in condizioni analoghe, non è possibile accogliere la domanda soprandicata.

Declassified E.O. 12356 Section 3.3/NND No. 785019

and independent of the requirements of same when they will be in operation, said Company has requested the following quantities to CIP for filling the equipment installed:

Sub-station of Acnano II

2 synchronous motors of 10 MVA - 675 cycles 1 N.S. 3050 — 550 Kgs.

Sub-station of Aventino

Regulator and alternator turbine 12800 KVA - 270 cycles p. 1' - N.S. 3050 — 3.000 "

Gear box of grue — Grease No. 3 — 200 "

Sub-station of Lete

Regulator and alternator turbine of 7000 KVA 540 cycles p. 1' - N.S. 3050 — 1.300 "

In total 4.850 Kgs. N.S. 3050
200 " Grease No. 3

4. The quantities for first fillings are needed during the present second quarter of 1945.

5. Please advise us as to your decisions in respect of the foregoing.

Memorandum N° 73

Subject: Request for Allocation of Mineral Oil.
Soc. SPERO - Gestione L'Insulare - Catania.

To: HQ. AC., Commerce Sub-Commission

1. The above Company, producer of carbon-sulphide, was granted an allocation of 10.000 Kg. of Medium Heavy Lubricating Oil during the last months for the needs of its activity. The request was at that time addressed to AC., Catania, (Maj. Watson) which, after having checked the actual needs, approved the allocation.

2. As at present the proper Offices of AC. in Sicily have ceased to exist, SPERO Company has requested CIP for a new allocaton of

10.000 Kgs. Medium Heavy Lubricating Oil.

3. The applicant declares:

- requested Mineral Oil is needed in this manufacture as absorbent material for carbon-sulphide;
- said quantity is necessary in view of operating eight other furnaces in addition to the twelve already in operation;
- production of carbon-sulphide is put at the disposal of Ministry of Industry and AC. in Rome.

4. Please find herewith attached copy of a letter from said Company with technical details as regards the use of this Oil.

5. We are awaiting to know your decisions in this respect.

Subject: Request for Allocation of Mineral Oil.
Soc. SPERO - Gestione L'Insulare - Catania.

To: HQ. AC., Commerce Sub-Commission

1. The above Company, producer of carbon-sulphide, was granted an allocation of 10.000 Kg. of Medium Heavy Lubricating Oil during the last months for the needs of its activity. The request was at that time addressed to AC., Catania, (Maj. Watson) which, after having checked the actual needs, approved the allocation.

2. As at present the proper Offices of AC. in Sicily have ceased to exist, SPERO Company has requested CIP for a new allocation of

10.000 Kgs. Medium Heavy Lubricating Oil.

3. The applicant declares:

- requested Mineral Oil is needed in this manufacture as absorbent material for carbon-sulphide;
- said quantity is necessary in view of operating eight other furnaces in addition to the twelve already in operation;
- production of carbon-sulphide is put at the disposal of Ministry of Industry and AC. in Rome.

4. Please find herewith attached copy of a letter from said Company with technical details as regards the use of this Oil.

5. We are awaiting to know your decisions in this respect.

ASSEGNAZIONE STRAORDINARIA Q/LI 100 OLIO MINERALE

Nei nostri impianti per la produzione del solfuro di carbone (carbon bisolfydo) l'ultimo reparto per la captazione del gas è quello assorbente. In esso grande quantità di olio minerale cadono a pioggia in appositi cilindri per assorbire il gas solfuro di carbonio. La miscela di olio e solfuro di carbonio viene immessa in un distillatore nel quale la miscela viene riscaldata per far separare il solfuro di carbonio che va a condensarsi in appositi refrigeranti.

Nel mese di dicembre scorso detto reparto incominciò a zoppicare per la qualità dell'olio in circolazione che da anni non veniva sostituito. In gennaio il reparto venne definitivamente fermato in attesa della completa sostituzione dell'olio, con danno rilevante sulla produzione e pericolo gravissimo e costante di incendio dovendo disperdere grandi quantità di gas infiammabile.

Tramite l' Allied Commission di Catania (Major Watson) e quella di Palermo, tempestivamente informate (l' Allied Commission è interessata al solfuro di carbonio e quindi ai problemi inerenti la produzione) si riuscì ad ottenere da codesto CIP un'assegnazione di 100 Q/LI di olio semidenso che venne regolarmente finanziata e ritirata.

Furono chiesti 100 Q/li perchè la produzione del solfuro di carbonio avveniva con 12 dei 20 forni installati, cioè con poco più della metà della piena produzione del ns. stabilimento.

Dovendo fra breve mettere in marcia anche gli altri 8 forni fermi attualmente, onde poter far fronte alle richieste del Ministero dell'Industria dell' Allied Commission di Roma e tenendo presente l'assoluta mancanza sul mercato italiano di Ammoniaca anidra liquida compressa che non ci consentirà una refrigerazione artificiale nel reparto FREDDO per tutti i 20 i forni, essendo di già ~~xxx~~ la scorta attuale insufficiente per i 12 forni in marcia, ci permettiamo richiedervi un'assegnazione straordinaria di 100 Q/li di Olio minerale semidenso, nella qualità precedentemente assegnataci che abbiamo constatato adatta allo scopo.

Non essendoci più a Catania l' Allied Commission, siamo a pregarvi di voler interpellare quella di Roma (Mjr Rosembaum) ed il Ministero d'Indu-

./.

TO : Public Works & Utilities Sub-Commission. ✓ 92

1. Reference 6/1/189/PWU dated 22/2/'45 and subsequent conversation Lt. Cols Oxley-Lapper on this plan to recommense the generating plant at Piombino.

2. The shortage of coal and shipping makes it necessary that the above plant should not be operated unless the power is required for essential military or civil needs. Accordingly we confirm agreement with you that the supply of coal or lignite should be withheld pending further consideration of the plan.

ROMA - Via s. Nicolò da Tolentino (Palazzo I.N.A.)
Tel. 478-176

N.Prot. 514/I Pos. UCG/ag

Rome, 19 February 1945

SUBJECT: Allotment of Gas Oil to Forlì

TO : Ministry of Industry, Commerce and Labour

The Allied Office Hemp Control informs us that there is in Forlì an electrical Plant capable of producing 820 H.P. immediately and 700 H.P. more as soon as its machinery is repaired.

The Plant has not been able to operate yet because of want of fuel.

This situation has been pointed out to the Military Authorities but with no result at all.

The rehabilitation of this Plant would enable the Hemp Establishments of Cesena and Sant'Angelo, both producers of ropes, cords, etc. necessary for military and civil uses to operate and produce again.

We apply therefore to the Ministry to take an interest in the matter and to kindly inform us if there is any possibility of our request to be granted.

Our requirement would be of daily 8 tons Gasoil.

The Commissioner:

TRANSLATION

TO : PUBLIC WORKS AND UTILITIES SUB-COMMISSION - HQ. AC
(Attention Maj. Price)

The undersigned Firm DI ODOARDO Bros. of Colledara (Teramo), owner and manager of an electric power plant and of electric lines for public and private distribution in the Communes of Colledara, Tossicia, Castelcastagna and Isola del Gran Sasso (Teramo Province), respectfully requests an allocation of lubricating oil, viz. : 50 Kgs for alternator, generator and turbine ; 200 Kgs for filling two transformers, 30 Kgs for turbine governor and 20 Kgs of grease.

We inform that we sent our application to C.I.P. at Teramo, which sent it back, stating that it had to be submitted to the Allied Commission. We are forwarding this request to the Rome Headquarters, since no AC office is located in Teramo Province.

Olio lubrificante per automezzi

A seguito di Vostra 3 corr., pur dovendo escludere a priori la deficienza di qualità dei lubrificanti a Voi forniti, abbiamo disposto perchè un nostro Tecnico visitasse i Vostri Impianti per gli accertamenti del caso.

Riportiamo qui di seguito alcuni punti del rapporto redatto dal nostro Tecnico che Vi interessano:

" Dalla conversazione avuta con il Sig.Moretti, è risultato che durante lo scor-
" so mese di gennaio il nominativo prelevò un piccolo quantitativo di olio CIP.1
" per utilizzarlo sulle vetture Balilla ove in precedenza si usava il tipo CIP.2,
" ma dato il rigore della stagione il cliente ha creduto conveniente utilizzare
" un olio più fluido.
" Questo esperimento fatto di propria iniziativa ha provocato naturalmente qual-
" che inconveniente; in seguito essendo tornato all'uso del CIP.2 le cose sono
" andate regolarmente. Il CIP.1 S.A.E.10 pur essendo classificato olio extraflui-
" do per suo, non risulta consigliabile per climi moderati come quello di Roma e,
" sopratutto, per la lubrificazione del motore Balilla il quale, come è noto, ha
" tendenza a surriscaldare. Esso invece può trovare utile applicazione per deter-
" minate categorie di motori e con temperature ambiente estremamente rigide. Po-
" trebbe darsi quindi che la causa di qualche fusione di bronzine sia imputabile
" ad una azione di lavaggio operata dall'olio eccessivamente fluido. 179
" Il reclamo pertanto non riveste carattere di gravità dato che il Sig.Moretti
" non si scosterà più dal tipo CIP.2 ed anzi, avvicinandosi la stagione estiva,
" passerà senz'altro all'uso della gradazione più densa CIP.3"

Il Vostro Personale dovrà quindi aver cura per l'avvenire di scegliere per i Vostri automezzi la gradazione più adatta e ciò varrà ad evitare in modo totale gli inconvenienti che avete dovuto lamentare per il passato.

1. The rehabilitation of electrical plant calls for a large quantity of transformer oil, it is necessary therefore that a strict control be exercised in issuing to all concerned.

2. Applications are being received from numerous small industrial users of electricity and in most cases it is known, that a supply of electricity is either not available or it is restricted, we are, therefore, refusing all applicants and have suggested that additional applications be made but that the new application must be supported by a certificate from the Electric Power Society of the district to the effect that a supply of electricity is available, and has been authorised to the users.

SUBJECT : Consumable Stores for Electrical Utilities.

REF : R5/516/2/6.

DATE : 13 Mar. 1945.

HEADQUARTERS
14MAR1945
A.

We have in this Region a number of Municipal and privately owned electrical undertakings who are not at all clear as to the correct procedure for obtaining consumable stores such as lubricating oils and greases.

Capt. Best discussed this matter with Maj. Price who it was understood was preparing suitable instructions. If these instructions are available it will be appreciated if copies can be sent here for distribution.

As a case in point Tolentino Municipal Electrical Engineer applied last Dec. to A.A.I. Central Electricity Board for 500 litres of Vacuum Extra Heavy lub. oil and 50 Kg. Cup Grease No.3 but have heard nothing since.

Oggetto: Assegnazione straordinaria olio lubrificante per manovellismi Diesel.

Con riferimento alla lettera 19 Gennaio 1945 N.442 con la quale si esposero le occorrenze di olî lubrificanti per la Centrale Termoelettrica "G.Montecartini", questa Azienda fa presente quanto segue:

1) In seguito all'assegnazione per l'intero 1945 di soli 12.000 Kg. di olio per manovellismi Diesel, già tutto ritirato in Gennaio, Febbraio, mentre si ha un consumo mensile dell'ordine dei 10.000 Kg., in Centrale vi è assoluta deficienza di tale olio.

2) In conseguenza è necessaria ed urgente per la regolarità del servizio Diesel una assegnazione straordinaria per il corrente mese di 10.000 Kg. di olio per manovellismi Diesel; ciò, beninteso, in attesa che,come cortesemente ci è stato assicurato vengano fatte, per il 2° - 3° e 4° trimestre 1945 le assegnazioni richieste nella citata lettera 19 Gennaio.

Distinti saluti.

By : CT/ct

COMMUNAL UNDERTAKING
ELECTRICITY & WATER
(A.C.E.A.)
SERVICE I

10 March 1945

Reference : 1918

To : HQ. AC. - P.W.U. Sub-Commission
Electrical Section

Subject : Special Allocation of Diesel crankcase lubricating oil.

Pursuant to our letter No 442 of 19 Jan. 1945, stating the requirement of lubricating oils for "Montemartini" thermal plant, this Undertaking points out what follows :

1) As a consequence of the allocation for all the year 1945 of only 12,000 Kgs of Diesel crankcase oil, which we already collected in January and February, while the monthly consumption is about 10,000 Kgs, our Plant has run completely short of the a/m oil.

2) It is therefore necessary and urgent, in order to ensure the regularity of the operation of Diesel Service, that a special allocation for the month of March of 10,000 Kgs of Diesel crankcase oil be granted. This allocation must not effect the allocations for the 2nd, 3rd and 4th three-months period of 1945, as requested by a/m letter dated 19 Jan. and as by kindly confirmed by you.

Truly yours,

THE DIRECTOR

4140

4) Proporremmo che gli invii fossero così ripartiti:

a) fino a esaurimento disponibilità carbone estero:

Carbone estero: 150 Tonn/giorno alla S.R.E.

Carbone Sulcis: 75 Tonn/giorno alla ACEA

Lignite 75 Tonn/giorno alla ACEA

b) dopo esaurimento disponibilità carbone estero, e fino a che non cambi l'attuale regime di funzionamento:

Carbone Sulcis: 75 Tonn/giorno a SRE; 75 Tonn/g. ad ACEA

Lignite: 75 Tonn/giorno a SRE; 75 Tonn/g. ad ACEA

5) Circa i combustibili liquidi si hanno al 7/3 alla Centrale dell'ACEA i seguenti stocks:

Nafta Diesel	Tonn.	1.737
Nafta caldaie	"	644

Handy Special.

Si segnala l'opportunità di riprendere l'invio di nafta caldaie, per la quale sono disponibili serbatoi e per la quale si ha una scorta alquanto ridotta.

Distinti saluti.

Combustibili per le Centrali Termoelettriche ACEA-SRE - -

Si segnala a codesta Commissione quanto segue:

1) Da qualche tempo gli arrivi giornalieri di combustibili solidi superano notevolmente i consumi. Per gli ultimi 15 giorni si ha, complessivamente per le due Centrali:

Qualità	Giacenza al 21/2 Tonn.	Arrivi 21/2 a 7/3 Tonn.	Consumi 21/2 a 7/3 Tonn.	Giacenza 7/3 Tonn.
Estero	-	1.051	-	1.051
Sulcis	1.573	2.171	1.254	2.490
Lignite	1.469	3.884	2.109	3.244
Totale	3.042	7.106	3.363	6.785

2) I carbonili delle due Centrali sono praticamente pieni e si ha carbone per circa 24 giorni di funzionamento al regime di 280 Tonn/giorno.

3) Occorre che vengano temporaneamente ridotti gli invii di carbone ad un complesso di circa 300 Tonn. al giorno pari al consumo medio previsto per il periodo presente.

25 February 1945

1. Reference your Pet 30/A/5 dated 20 Feb 45 and confirming conversation Major PETERSON/Captain GREENACRE.

2. The statement by the Electrical Division of A.C. is unfounded inasmuch as regular daily shipments of fuel oil have been despatched to the ROME Power House.

3. An exception was made, however, on the 19th Feb when no RCTs were available. This deficiency has not yet been made good.

4. In this connection it would be appreciated if the turn-round of RCTs could be speeded up, otherwise it is feared that continual interruption to future deliveries will take place.

R. STEWART. Major,

Subject : Coal Supply I.I.V.A. STEEL PIOMBINO

To : Director Industry Sub Commission
Coal Division

1. It is planned to start initial operation of the I.I.V.A. Steel Works generating plant on April 1st 1945, and in order to do this,it is necessary first to have a supply of Sardinia coal on hand.

2. The plant is of 5000 KW capacity and it is proposed to operate at this capacity for not more than 12 hours per day, therefore sufficient coal will be required for a daily output of 60.000 KWhs. at 1.4 Kgs per KWh for 30 days, the monthly requirement will be 2.520 Tons.

3. It is proposed that the output from this plant be fed into the grid transmission which output will be extremely useful in Piombino area.

4. Your assurance that the coal required, can be made available will be appreciated.

SUBJECT: Allocation S.M.E. - Catanzaro.

TO : Ministry of Industry, Commerce & Labour
(Liquid Fuels Office)

1. We have had an urgent telephone message from Naples to infora us that the operations of the Soc.Meridionale di Elettricità -Catanzaro - are being slowed down owing to short petrol supplies.

2. Apparently this concern which, it is claimed, supplies electrical power over the whole of Southern Italy, has been allocated by UPIC only 200 litres of carburant for 7 trucks, 2 cars and 1 bus, which quantity is totally inadequate to maintain this fleet on the road.

3. It appears that up till now supplementary supplies have been made available er military stocks but that this channel of supply has now been closed by the local command who rightly contend that, this being essential a civilian undertaking, supplies of carburant must be drawn from Italian Government stocks.

4. Application has been made to the local UPIC but they state the allocation made to Catanzaro Province does not permit of their allotting supplementary supplies to S.M.E.

5. It appears to us that this situation calls for an urgent investigation and we request you to let us know with all speed what steps are being taken to rectify it.

6. S.M.E. claim that they cannot run an efficient service unless their fleet is in constant operation and that 3,000 lits. of carburant per moth represent their essential needs. 4121

1. Reference is made to your Pet 30/0/4/1 dated 9 Feb.45 and after careful study it is considered that of the firms listed, few can be justifiably authorised to receive transformer oil at this time.

2. Each month an allotment of electricity is made to Army Districts according to the availability, so that no firm can energise their transformers until an allotment of electricity is made to them by the District concerned.

3. We are asking the Districts to verify these applications and you will be notified of the results.

1. We acknowledge receipt of your memorandum No.21/dated 3 Feb.45 regarding the requirements of Ente Autonomo del Volturno Naples and in reply we wish to point out that we did not provide for continuous running of this station however we have taken an average of the KWhs generated during the month of January 1945 that is 40000 KWhs which at .35 kgs per KWh equals 14.000 Kgs or 14 metric Tons per day and 5110 metric tons per year of 365 days.

2. With regard to lubricants we based the estimated requirements as follows:

a) Crankcase oil, 2.7 KGs consumed per Ton of fuel which on the above Tonnage equals 13.89 Tons per year of 365 days

b) Cylinder Oil. 8.5 Kgs consumed per Ton of fuel equals 43 Tons per year of 365 days.

3. The revised estimate for the remainder of 1945 will therefore read as follows:

Diesel Fuel	5110 Tons.
Crankcase Oil	14 "
Cylinder "	43 "
SAE 10 "	.3 "
Navy 3050 "	.5 "
Grease No.3	.5 "

4. As it is not anticipated that Doganella will be called upon to exceed 40000 KWhs per day, please release fuel and oils accordingly.

Telef. 66531 - 66641

Memorandum No. 21.

Subject: 1945 requirements - Electric Companies.
Ente Autonomo del Volturno, Naples.

To : HQ. A.C. Public Works and Utilities
Sub-Commission.

1. The Company indicated above has requested our Naples Zone a consignment of 10.000 Kg. of Cylinder Oil for Diesel motors.

2. As this quantity represents about half of the requirements anticipated by you for the entire year 1945, we have arranged that an inspection by carried out by our Technician in order to make the necessary ascertainments.

3. Our Technician has presented us the following report as a result of his visit to the thermal station of Doganella.

- Two twin Diesel Man motors are operating, of the following characteristics: Ansaldo construction - two phases and double effect - 8 motor cylinders - 1 air compressor for blowing fuel - two washing pumps.

- Mechanical lubrication for motor cylinders and compressor, and for washing pumps. Forced lubrication for cranks and other organs of the gear case.

- Each motor has a power of 3.500 KW. One of the motor operates for 16 hours daily, the one in reserve for 8 hours daily. Thus it may be considered that a motor functions 24 hours out of 24.

- Ascertained consumptions:

Cylinder Oil 6,5 Kg. for each operating hour (specific consumption per KWH 1,85 Grams; per HPH 1,38 Grams).

Transmission Oil 20 Kg. in 24 hours; in addition for every 800 hours of functioning it is necessary to extract 1000 Kg. of Oil from the bottom of the gear case (sediments which cannot be re-used) to substitute them with an equal quantity of fresh oil. With this periodical part change, the total substitution of the filling is avoided (specific consumption per KWH 0,59 Grams; per HPH 0,44 Grams).

Memorandum No. 20.

Subject: Electric Companies requirements.
Azienda Elettrica dell'Aron - Cetraro (Cosenza)/

To : HQ. A.C. Public Works and Utilities
Sub-Commission.

1. The above electric power producing and distributing Company has made the following requests to CIP:

50 Kg. of Lubricating Oil for turbine of S. Giorgio construction, Francis type of 92 HP., with oil regulator, coupled to the three-phase S. Giorgio alternator 30 Mab. type.

20 " Transformer Oil, necessary for re-establishing the levels in seven transformers.

2. The Azienda Elettrica dell'Aron declares that the requested quantities cover the needs of the first three months of 1945, and that it distributes electric power in the towns of Cetraro, Acquappesa and Guardia Piemontese, in addition to the FFSS stations of these towns.

3. As said Company is devoid of stocks, the above Oil should be supplied as promptly as possible.

4. We are awaiting to know your decisions on the foregoing.

Tel. Rome 478829
31 January 1945

SUBJECT : POL Supplies for Rehabilitation

TO : Pet. Sec. HQ, R.A.A.C.

1. Your Pet 30/A/3 of 18 September 1944 and Pet 30/C/1 19 and 28 January 1945 refer.

2. It is regretted that in neither case is a full reply possible at present as the related POL requirements for rehabilitation have not yet been calculated.

3. On receipt of your PET 30/A/3 of 18 September 1944, POL Instruction No 4 was sent out by the Economic Section but has produced no response other than some figures from Industry Sub-Commissions which, on investigation, are considered to fall under the "Minimum essential Civilian requirements" category (Our AC/5067/Commerce of 30 January 1945 refers).

4. It is understood that the Italian Government are preparing a programme of Rehabilitation with the assistance of interested Sub-Commissions and that the results will be submitted fairly soon to the Economic Section of this Headquarters, screened and then passed to Washington and London for consideration as to availability of materials and funds with which the Italian Government can pay for them.

5. POL requirements will be included in these programmes and steps will be taken to advise you of the figures to be forwarded.

4098

6. It is understood that the programme will necessarily include some major items, such as transportation, food and clothing, or facilities for producing them.

./.

0 6 2 21

Declassified E.O. 12356 Section 3.3/NND No. 785019

which will come near the dividing line between Minimum essential civilian requirements and Rehabilitation and that it is at present intended to leave a decision on where this line should be drawn to Washington and London.

7. It seems clear however that what has been done to date can all be considered to fall under the former category and that Civilian POL requirements to cover similar activities can be expected to increase proportionately to the territory taken and to its Industrial Importance in the Italian Economy.

8. It would appear that pending receipt of a comprehensive programme ~~that~~ POL requirements of the nature discussed in your PET 30/0/1 should be approved by the Economics and Supply Division of the Region in the case of small supplies and by Industry Sub-Commission in the case of larger or continuing activities. Further enquiries are being made as to the activities of Bombrini-Parodi-Delfino.

1. We are in receipt of your Memo No.11-Lubr. 161/MA dated 18/1/45 and in reply wish to say that transformer oil is in short supply and only urgent requirements can be entertained at the moment.

2. Until supplies become easier we ask you to make application for release as and when required by the power Companies. We have however, covered the demands of S.M.E. and subsidiaries and their demands for Jan-Feb-March 1945 will be met.

Memorandum No. 13.

Subject: Request for allocation of Transformer Oil. Azienda Elettrica Francesco Mancuso Perla, Palazzo Adriano, (Sicilia).

To : HQ. A.C. Public Works and Utilities Sub-Commission.

1. The above named electric Company has requested CIP an allocation of:

200 Kg. Transformer Oil

and declares that the product is needed for No. 2 transformers of 70 K.V.A. 3000/260 V. 180 Kg. would be used for changing the filling of two apparatus for normal maintenance, as this has not been done for over 18 months. The remaining 20 Kg. would be kept as stock.

2. The actual contents of the two transformers of the capacity indicated is not of 180 Kg., but of about 400 Kg., thus we presume that it is intended to unload a part of the contents of the casing, in order to refill it with fresh Oil. It is to be noted that the Oil is in use since 18 months.

3. We are awaiting to know your decisions on the matter.

RAS 27/1/45

Subject: Request for allocation of Transformer Oil. Electric power Group. Soc. Meridionale d'Elettricità, Naples.

To : HQ. A.C. Public Works and Utilities Sub-Commission.

1. The Soc. Meridionale di Elettricità has made the following requests to CIP relative to requirements of various associated Companies for the first three months of 1945:

- Soc. Meridionale di Elettricità, Via Imbriani 42, Naples:

34.000 Kg. of Transformer Oil.

This quantity would be used as follows:

30.000 Kg. for re-establishing the levels in No. 95 Transformers of 150-60-30 KW. for a total power of 739.000 KWA., which feed the AT network for the supply of electric energy to all the plants.

4.000 " for the filling of a new transformer of 4000 KWA-30 KW installed in the power station of Aventino.

2. We wish to remember that with your letter 189/P.W.U. dated 18 December 1944, you have given orders that 40.000 Kg. of Transformer Oil be consigned to this Company, to be used by the equipment of the sub-station of Poggioreale.

- Soc. Elettrica della Campania, Via Roma 23, Naples.

20.200 Kg. of Transformer Oil.

Which would be used for the following fillings:

4.000 Kg. two transformers of 1100 KWA, each of 30/6 KW. installed in the sub-station of Camerelle;

2.000 " Five transformers of 500 KWA each of 30/0.5 KW installed in the cabin of Cotoniere di Nocera;

Subject : Power Station Consumable Stores

To : Regional Commissioner
Abruzzi -Marche Region
(Attn.Capt.H.G.Best)

1. Reference is made to your RS/516/2/6 dated 9 Jan.1945.

2. It is not understood why there should be any doubt as to the method of obtaining oils and greases for Power Stations since all Power Companies in occupied Italy have been notified of the procedure and have in fact been supplied with oils and greases up to date.

3. The estimated requirements of all Companies have been bid for, to the end of 1945 and it is only necessary to obtain from the Companies their estimated requirements every three months in order to call forward to CIP depots for disposal.

4. This procedure was agreed with AFHQ Petroleum Section by the AAI Central Electrical Board and the same procedure is carried on by this Division of P.W. & U. S/C, but it is pointed out that this method only applies to oils and greases for Power Generation, not for industrial users, all requirements for industrial users are handled by Petroleum Section, of Commerce Sub Commission.

5. If Capt. Best will contact Major Price when he next visits this Hq the procedure will be explained to him.

18 December 1944

SUBJECT : Methane Gas .

TO : R.C. Toscana Region .

1. POL Instruction N° 5 of 24 November 1944 and conversation between representatives of Toscana Region and Col. King and Mr; West of Pet.Sec, AFHQ refer.

2. Arrangements have been made for C.I.P. to commence distribution of Methane Gas in Florence immediately.

3. The price will be 11.00 lire per cubic metre for automotive purposes and 8.00 lire per cubic metre for Industrial purposes.

4. Coupons will be issued on the same scale as for Petroleum but, to encourage the use of methane gas, each UNITA' will; until further notice, be worth 1½ cubic metres instead of one cubic metre which is the thermal equivalent of one litre of petroleum. It is anticipated that in the early months there will be more gas available than apparatus to use it and this premium in favour of gas will give you extra load hauling capacity per vehicle.

5. The special Circulation Permits and Gas Coupons will be dispatched in the next few days.

6. It is hardly necessary to stress the importance of reducing to the minimum the overall quantity of imported Petroleum Products and that the maximum use of methane gas is essential to the War Effort. The amount of gas available is estimated at eight thousand cubic metres at the beginning of January, increasing to twenty thousand cubic metres towards the end of the month.

SUBJECT: Legal Constitution of C.I.P.

TO : Minister of Industry, Commerce and Labor.

1. Attached hereto is a revised draft of the proposed decree on the legal constitution of C.I.P. in accordance with agreements reached at a conference on 28 November 1944 between officials of this Commission and the Italian Government.

2. Further, a draft letter is appended hereto for approval by the Minister of Industry, Commerce and Labor which is intended for signature by the Prime Minister on behalf of the Italian Government.

3. The point established in paragraph 1 of the draft letter enclosed may be regarded as a concession by AC and C.I.P. This Commission is prepared to agree to the terms of the subject letter if they are acceptable to the Italian Government.

4. Certain known concerns dealing in petroleum products have been specified in Paragraph 3 of the draft letter. This should not imply the exclusion of other worthy establishments which, from time to time, as operations expand, may be found acceptable by agreement between C.I.P. and the Italian Government.

5. Additional comment is made on Paragraph 3 of our communication ES/7.00 dated 22 October 1944, quoted herewith:

> "3) CIP shall be administered by a managing committee of five, appointed by the Italian Government in agreement with the Allied Authorities. The committee shall elect its own President. (It is understood that there is to be no change in the composition of the present managing committee unless requested by the Supreme Allied Command, Mediterranean Theater of Operations.)"

4049

Declassified E.O. 12356 Section 3.3/NND No. 785019

6. With reference to this paragraph quoted above and our discussions thereon, should the Italian Government intend any changes in the personnel of the committee, this Commission will welcome prior discussions concerning them.

7. Your continuing cooperation in expediting the legal status of C.I.P. is appreciated. May we have your prompt notification of the coordination and completion of action on the proposed Decree and draft letter enclosed.

MINUTA

Novembre 1944

ALLA COMMISSIONE ALLEATA

R O M A

Con riferimento al decreto istitutivo del C.I.P. e alle intese verbali intercorse in merito, la Commissione Alleata ha richiesto che venga precisato quanto segue:

1)- La parola "succedanei", inclusa nella lettera (a) dell'Art. 2 del decreto, sta ad indicare il gas metano.

E' inteso che, rispetto al gas metano, il C.I.P. provvedera' a tutte le operazioni descritte nel decreto fintanto che il gas stesso verra' usato come carburante per autoveicoli.

Qualora il Governo Italiano, d'accordo con le competenti Autorita' Alleate, decidesse di destinare il gas metano ad altri usi, i compiti del C.I.P. si limiterannno all'approvvigionamento delle aziende e che saranno indicate dal Governo Italiano.

2)- Con riferimento alla lettera (b) dall'Art. 2 del decreto, e' inteso che il C.I.P. provvedera' alla distribuzione dei prodotti indicati nella lettera (a) dell'Articolo stesso secondo le disposizioni delle Autorita' Militari Alleate per quanto riguarda le esigenze belliche; e secondo il piano prestabilito dal Governo d'intesa con la Commissione Alleata per quanto riguarda gli usi civili.

3)- Con riferimento all'Art. 3 del decreto, e' inteso che il C.I.P. avra' facolta' di utilizzare, secondo le proprie esigenze, gli impianti, l'organizzazione e le attrezzature delle seguenti aziende nazionali:

4047

A.P.I.R.

Declassified E.O. 12356 Section 3.3/NND No. 785019

C.I.P.S.A

S.A. Carburanti Italia

Soc. Romana Petroli

Damiani & Giorgio

Raffineria Genovese

Carbol

Lombardia Petroli

e le altre aziende che si occupano della lavorazione, manipolazione e distribuzione di prodotti petroliferi come sara' concordato di volta in volta fra il C.I.P. ed il Governo Italiano.

Il Governo Italiano, su semplice richiesta del C.I.P., adottera' immediatamente le misure necessarie perche' le aziende summenzionate adempiano tutte le obbligazioni previste nel decreto stesso.

La eventuale utilizzazione degli impianti, dell'organizzazione e delle attrezzature delle aziende non compresenell'elenco che precede, formera' oggetto di apposite trattative fra il Governo Italiano e il C.I.P.

4)- E' inteso che il Governo Italiano adottera' i provvedimenti previsti nell'Art.1, comma 4; nell'Art. 3, comma 2; nell'Art. 6, comma 1; nell'Art. 7, comma 2; nell'Art. 10, comma 2 e nell'Art. 12, previa intesa con la Commissione Alleata o con quell'ente, o con quegli enti, che ad essa eventualmente siano sostituiti.

Il Governo Italiano ha l'onore di dichiararsi d'accordo su 4046
quanto precede.

SULLA proposta del Ministro per l'Industria, il Commercio ed il Lavoro, d'intesa coi Ministri per le Finanze e per il Tesoro

ABBIAMO SANZIONATO E PROMULGHIAMO QUANTO SEGUE:

ARTICOLO 1

E' costituito con sede in Roma, il Comitato Italiano Petroli (C.I.P.), allo scopo di coordinare e disciplinare l'approvvigionamento dei prodotti petroliferi e loro succedanei per le

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

esigenze delle Forze Armate Italiane ed Alleate e per gli usi civili.

Il C.I.P. ha personalita' giuridica e non persegue fini di lucro. Esso e' posto sotto la vigilanza dei Ministri dell'Industria, Commercio e Lavoro, del Tesoro e delle Finanze.

La durata del C.I.P. e' fissata ad un anno dopo la liberazione del territorio italiano dall'occupazione tedesca.

In relazione alle esigenze belliche tale durata potra' essere ridotta o prorogata con decreto interministeriale dei Ministri dell'Industria Commercio e Lavoro, del Tesoro e delle Finanze.

ARTICOLO 2

Il C.I.P. provvede:

(a) al ricevimento, alla lavorazione e al deposito dei prodotti petroliferi e loro succedanei;

(b) alla distribuzione dei prodotti stessi per usi militari e civili.

ARTICOLO 3 (new text)

" Per il conseguimento dei suoi scopi il C.I.P. ha facolta' di utilizzare secondo le proprie esigenze ~~xxxxxx~~ gli impianti, l'organizzazione e le attrezzature di aziende nazionali esistenti nel territorio dello stato, che gli saranno ceduti in uso temporaneo dal Governo. Il C.I.P. ha inoltre facolta' di utilizzare le merci di pertinenza delle aziende stesse.

" All'uopo le aziende predette, su richiesta del Ministro dell'Industria, Commercio e Lavoro, sono obbligate a mettere a disposizione e a cedere in temporaneo uso del C.I.P., in tutta o in parte, gli impianti, l'organizzazione, le attrezzatu-

dell'Industria Commercio e Lavoro, del Tesoro e delle Finanze.

ARTICOLO 2

Il C.I.P. provvede:

(a) al ricevimento, alla lavorazione e al deposito dei prodotti petroliferi e loro succedanei;

(b) alla distribuzione dei prodotti stessi per usi militari e civili.

ARTICOLO 3 (new text)

" Per il conseguimento dei suoi scopi il C.I.P. ha facolta' di utilizzare secondo le proprie esigenze ~~mettere~~ gli impianti, l'organizzazione e le attrezzature di aziende nazionali esistenti nel territorio dello stato, che gli saranno ceduti in temporaneo uso dal Governo. Il C.I.P. ha inoltre facolta' di utilizzare le merci di pertinenza delle aziende stesse.

" All'uopo le aziende predette, su richiesta del Ministero dell'Industria, Commercio e Lavoro, sono obbligate a mettere a disposizione e a cedere in temporaneo uso del C.I.P., in tutto o in parte, gli impianti, l'organizzazione, le attrezzature e le merci verso un corrispettivo da determinarsi d'accordo fra le parti e, in mancanza di accordo, dal Ministro dell'Industria, Commercio e Lavoro, il quale, sentite le parti, decidera' con decreto non soggetto ad alcun gravame ne' in via amministrativa ne' in via giudiziaria.

In attesa della decisione il C.I.P. corrisponera' a titolo provvisorio e salvo conguaglio, il compenso da esso determinato.

Declassified E.O. 12356 Section 3.3/NND No. 785019

ARTICOLO 4

Le aziende menzionate nellArt.3 sono tenute a compiere, su richiesta del C.I.P., tutte le operazioni indicate nellArt.2 e, per le necessita' belliche, anche altre operazioni che sono attuabili negli impianti da essa posseduti.
Le condizioni tecniche ed il corrispettivo saranno stabiliti d'accordo fra le parti e, in mancanza, dal Ministro dell'Industria Commercio e Lavoro a norma del comma secondo dell'Art.3.
Si applica in questo caso il comma 3 dell'Art.3.

ARTICOLO 5

Tutte le controversie di qualunque natura che possono sorgere fra il C.I.P. e le predette aziende sono deferite al Ministro dell'Industria, Commercio e Lavoro, il quale decide a norma del comma secondo dell'Art.3.

ARTICOLO 6

I prezzi di vendita dei prodotti petroliferi e loro succedanei destinati al consumo civile sono, su proposta del C.I.P., stabiliti dal Ministro dell'Industria Commercio e Lavoro.
In tali prezzi e' compresa un'aliquota per provvedere alle spese di organizzazione e di funzionamento del C.I.P. e ai compensi da corrispondersi alle aziende di cui all'art.3. L'aliquota e' determinata in via provvisoria all'inizio dell'esercizio del C.I.P. e puo' essere riveduta al termine di ogni trimestre in relazione alle spese effettivamente sostenute dal C.I.P.

ARTICOLO 7

Declassified E.O. 12356 Section 3.3/NND No. 784019

Si applica in questo caso il comma 3 dell'Art.3.

ARTICOLO 5

Tutte le controversie di qualunque natura che possono sorgere fra il C.I.P. e le predette aziende sono deferite al Ministro dell'Industria, Commercio e Lavoro, il quale decide a norma del comma secondo dell'Art.3.

ARTICOLO 6

I prezzi di vendita dei prodotti petroliferi e loro succedanei destinati al consumo civile sono, su proposta del C.I.P., stabiliti dal Ministro dell'Industria Commercio e Lavoro.
In tali prezzi e' compresa un'aliquota per provvedere alle spese di organizzazione e di funzionamento del C.I.P. e ai compensi da corrispondersi alle aziende di cui all'art.3. L'aliquota e' determinata in via provvisoria all'inizio dell'esercizio del C.I.P. e puo' essere riveduta al termine di ogni trimestre in relazione alle spese effettivamente sostenute dal C.I.P.

4043

ARTICOLO 7

Sono organi dell'Ente :

(a) il Consiglio Direttivo

(b) il Collegio dei Revisori dei Conti.

Il consiglio direttivo amministra il C.I.P. ed e' composto di cinque membri, nominati con decreto del Ministro dell'Industria Commercio e Lavoro d'intesa con i Ministri del Tesoro e delle Finanze.
Il Consiglio direttivo elegge fra i suoi membri il presidente.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Il Collegio dei Revisori dei Conti e' composto di tre membri nominati con decreto del Ministro dell'Industria Commercio e Lavoro d'intesa con i Ministri del Tesoro e delle Finanze.
I membri del Consiglio Direttivo e del Collegio dei Revisori dei Conti durano in carica un anno e possono essere confermati.

ARTICOLO 8

La rappresentanza legale dell'Ente spetta al Presidente del Consiglio Direttivo o, in caso di suo impedimento, congiuntamente a due membri del Consiglio.

ARTICOLO 9

Alla fine di ogni esercizio il C.I.P. redige il rendiconto delle entrate e delle spese che, corredato della relazione del Consiglio Direttivo e del Collegio dei Revisori dei Conti, deve essere sottoposto all'approvazione dei Ministri dell'Industria Commercio e Lavoro, del Tesoro e delle Finanze.
Ogni esercizio ha la durata di un anno. Il primo si chiude il 31 dicembre 1944.

ARTICOLO 10

Gli eventuali saldi attivi del conto spese e proventi di ciascun esercizio saranno destinati dal C.I.P. al perfezionamento della sua gestione fatta nel pubblico interesse.
Le disposizioni relative alla devoluzione del patrimonio del C.I.P. al termine del suo funzionamento saranno stabilite dalla legge.

ARTICOLO 11

Declassified E.O. 12356 Section 3.3/NND No. 785019

La rappresentanza legale dell'Ente spetta al Presidente del Consiglio Direttivo e, in caso di suo impedimento, congiuntamente a due membri del Consiglio.

Via dei Maroniti,40
Roma

1. Confirming conversation Dr.Veteri - Major Price.

2. The Societa TERNI has so far received the following

Lubricating Oil	CIP 2	38.097	Kgs.
" "	CIP 7	17.631	"
Grease	CIP 14	1.009	"
Transformer "		60.000	"

3. It would appear that the above mentioned Societa now require the following in order to complete their allotment

Lubricating Oil	CIP 2	1.903	Kgs.
" "	CIP 7	2.369	"
Transformer "		90.000	"

4. Will you please take the neccesary steps to provide the outstanding quantities during the first two weeks in December.

Clear with Paterson

SUBJECT : Petrol.

TO : Public Works and Utilities Sub-Commission.

1. Reference is made to Administrative Memorandum N. 49 of A.F.H.Q. dated 24 November 44. para 7 b, sub paras (1)and (2)which read:

"(1) The requirements of contractors even when working under Allied Military instructions will normally be covered by the allotment made for civil use as in paragraph 5 (d) above. This applies in particular to requirements in respect of services which are normally performed by the State or local authorities such as repairs to and maintenance of existing roads, bridges etc. and also public utilities.

(2) As an exception to this rule, additional quantities may be released when the work being carried out is due solely to the needs of the Allied Military Forces, will cease with the withdrawal of the said forces, and is or forms part of a service the cost of which is a legitimate charge against U.S. or British account. Only under these circumstances will contractors be deemed to be working "on Allied Military account."

2. The A.C.officer controlling petrol in this Region submits that all works on Military Highways in Sicilia Region are not covered by this memorandum and that therefore no supplementary coupons can be issued.

3. May I have your views please.

For the Regional Commissioner.

DAVID A. BOYD
Major R.E.
Regional Engineer.

Lt Col Thompson
Pls reply - considering the relatively small amount of military highway work remaining there.

CAGLIARI

Assegnazione di Olio per Trasformatori
Societa Elettrica Ploaghese-Ploaghe (Sassari)

Con preghiera di volerci ottenere l'autorizzazione del Quartiere Generale delle Forze Alleate -Sezione Petroli - ad effettuare la relativa fornitura, Vi trascriviamo qui di seguito i dati forniti dall'immaginato nominativo circa una sua richiesta del 24/7 c.a. di Kg. 600 di olio per trasformatori.

"Riferendoci alla Vostra del 12/9 c.a. Vi trascriviamo qui quanto in essa chiestoci;
Trasformatori che necessitano del ricambio totale della carica N4

Potenza	1	K.V.A.	60	- Rapporto di trasformazione	15000/150	Volta	
"	2	"	40	"	"	"	"
"	3	"	40	"	"	"	"
"	4	"	20	"	"	"	"

La causa che rende necessario il ricambio totale delle cariche dipende da principio di abbruciamento ed acidificazione.
Noi crediamo che vi sia ricupero delle cariche oggi esistenti previo filtraggio pero avendo i filtri, siamo disposti, appena avvenuto il ricambio, mandarle a voi affinche possiate ricupererne quanto possibile.

Societa Elettrica Ploaghese
F.to Carboni Francesco "

Restiamo in attesa di cortesi vostre notizie sull'esito della richiesta stessa e anticipandovi fin d'ora i migliori ringraziamenti, Vi preghiamo voler gradire intanto ben distinti saluti.

F.to Il Gerente

MEMORANDUM

The Terni Company up to this time has received from the CIP and forwarded to Terni the following quantities of mineral oil :

Lubricating oil	CIP 2	Kg.	38,097
"	" CIP 7	"	17,631
Grease CIP 14		"	1,003
Insulating oil		"	60,000

For the first fortnight of next December the requirement is of 90 tons of insulating oil for transformers CIP 16. Besides there are 1,903 Kg. of lubricating oil CIP 2 and 2369 Kg. of oil CIP 7 that are to be forwarded to Terni, in order to reach a total of 40 tons for the CIP 2 type and of 20 tons for the CIP 7 type.

For all these quantities of mineral oil, that are needed for the restoration of Galleto Central Station, 12 railway cars are needed.

So far the CIP has delivered these quantities of oil in their depot of Rome, which has a railway junction with the Rome Trastevere railway station. We have been told by the CIP that they receive the oil in a camp near Naples and that they carry it to Rome with trucks.

Rome, 9th November 1944.

TO : HQ AC PW&U SC Electrical Division
(Att. Major Barry)
SUBJECT : Transformer oil.
FILE N° : R4/ENG/702 (to quote in reply)

While in Perugia last week I came across a report on the efficiency of a substitute for transformer oil.

I imagine the Electrical Division is quite aware of this substitute but I feel it should be brought to their attention under the present circumstances.

A mixture of 50% Diesel oil and 50% lubricating oil type SAE 10 has proved under laboratory tests to be a good working substitute for transformer oil.

Electrical rigidity is :

dried	5 mm Separation	80 KV
undried	5 mm Separation	40 KV

This report is available at U.N.E.S. office Perugia.
