29 JUNE = VISIT TO CISLAGO SUB STATION

Soc. Lombarda di Elet.

Originally installed were :

1 x 75,000 KVA (4 single phase units) 230/120/6 KV transformer
3 x 32,000 KVA 130/50/6 KV transformers
3 x 12,000 KVA synchronous Condensers (still under erection)

The S/S was subjected to several air raids which completely destroyed the 230 KV transformer and did minor damage elsewhere, including puncturing the cases of the three 130 KV transformer. The cases of these three transformers were repaired, at the time, by welding, but the coils were never dismounted for examination.

Recently two of these tranformers "Tripped out of circuit" and investigation has shown that this was the result of shell splinters from the original air raid.

Arrangements are in hand for the repair of these transformers at Brown Böveri works.

H.V.Best
H.G. Best Capt.

The first 130 KV transform is expected to be ready for service at the end of Sept. The second about the end of Oct if magnetisation is available from S. Italy.

Distributed to

Lt. Col. Lapper
Lt. Col. Renton

Memorandum No. 289.

Subject: Request for allocation Transformer Oil. S.A. Cappellificio Toscano-Montevarchi (Arezzo).

To : HQ. A.C. PUBLIC WORKS AND UTILITIES SUB-COMMISSION.

1. The above Compeny has requested the following to CIP:

78 (seventy eight) kgs. Transformer Oil

The two "Pellizzari" transformers, one of 5 and one of 50 KVA - 9500/5500 V. were damaged following war operations. 220 kgs. were recovered from the previous charges.

2. As total contents of the above equipment amounted to about 240 kgs., CIP thinks that an allocation of 20 (twenty) kgs. should prove sufficient.

3. Attached herewith is declaration of the electric power supplying Company.

4. Please advise us of your decisions in this respect.

Roma, 20 July 1945
Via del Tritone, 181

Memorandum No. 283.

Subject: Request for allocation Transformer Oil.
Società Imprese Industriali, Rome.

To : HQ. A.C. PUBLIC WORKS AND UTILITIES
SUB-COMMISSION.

1. The above Company has requested CIP an allocation of:

34 Kgs. (thirty four) Transformer Oil

This quantity is necessary for reinstating losses of Oil during filtering operations and drying up of pre-existing charges which has been necessary to effect following presence in the bottom of the container of considerable quantity of water and sludge.

2. CIP considers this request as justified.

3. Declaration of the electric power supplying Company has been indicated at the foot of the request. CIP has taken note of the original and is attaching copy of same.

4. Please inform us of your decisions in this respect.

Memorandum n. 281

Roma, 19 July 45
Via del Tritone, 181

Subject : Request of Transformer Oil
Ditta Domenico Scaramella Pastficio Salerno

To : HQ A.C. PUBLIC WORKS AND
UTILITIES SUB COMMISSION

I. The above Firm has requested Cip an allocation of :

= 430 Kg. of Transformer Oil.

2. The applicant declares that this quantity is necessary to renew the total filling of the undermentioned apparatus :

= I transformer = 160 KVA = 1800/270 V
= I tranformer = 57 KVA = 1800/270 V

3. The pre=existing charges, in use since long time, were analyzed by Istituto di Elettrotecnica Applicata. Through the electric stiffness test we had electric discharges up to 3500 V and 5000 V instead of 40.000 established for a good transformer oil .
4. It is our opinion that the request is justified.
5. Attached is the declaration of the electric power supplying company.
62 We are awaiting your decision in this respect.

CERTIFICATO DI UTENZA
Energia elettrica.-

La S.M.E., alla quale ci siamo rivolti per ottenere il certificato da Voi richiesto ai fini dell'assegnazione di olii per trasformatori e reostati; risponde di non poter rilasciare detto certificato per le ragioni seguenti:

Fin dal dicembre 1943 il ns/ stabilimento è requisito - prima lo fu totalmente, ed ora lo è per circa 2/3 - da Forze Alleate. Poichè queste prelevano energia dalle linee un tempo a noi destinato, si venne a suo tempo, con la S.M.E. ed i comandi interessati, all'accordo che tutta l'energia prelevata da dette linee sarebbe stata addebitata a dette Forze Alleate con le modalità in vigore. Pertanto l'utente ufficiale è oggi il Comando Alleato di stanza nel ns. stabilimento, ed il certificato non può essere rilasciato a questa società.

Per altro la ns/ fabbrica è in attività, come potete aver constatato nei Vs. sopralluoghi, e non può fare a meno dei richiesti olii isolanti. Perciò Vi preghiamo di voler riesaminare la situazione, al fine di accordarci - dopo gli opportuni accertamenti - le richieste assegnazioni di tali olii.

Con ossequio.

- 5 LUG 1945.

Subject : Request of transformer oil
F.lli Pusateri =Molino e Pastificio =Termini Imerese

To : HQ = A.C. Public Works and Utilities
SubCommission

I. The above firm has requested Cip an allocation of 50 Kg. of transformer oil.
2. The applicant declares that this quantity is needed for the periodical rein=
statement of the level of the following apparatus :
= I transformer I25 KVA = 20000/500 V.
= 3 Rheostates 64 = 38 = 22 A respectively
= I swithc 6[illegible] A.
3. Cip thinks that 4 Kg. would be sufficient to cover said needs.
To complete the filling of a transformer 36 KVA = I0000/50 V (40 Kg. of the pre=existing oil were lost following war operations.
To renew the total filling of a switch =(pre=existing oil was burned due to a short=circuit) apparatus contains 2 Kg.
4. In our opinion an allocation of 46 Kg. would be sufficient for all the aforesaid purposes .
Attached is the declaration of the electric power supplying company.

Olio per Trasformatori.

Per il ripristino dei suoi impianti elettrici distrutti per gli eventi bellici, questa ditta ha bisogno di materiale vario che non è possibile trovare sul mercato se non a prezzi sbalorditivi, e principalmente di olio per trasformatori nella misura di Kg. 500 per un trasformatore da 100 KVA.V6000/260 trifase.

Si prega pertanto codesto Spett. Ufficio voler disporre la relativa autorizzazione in modo che la nostra ditta possa prelevarlo a Pescara presso quella Agenzia del CIP.

Ringraziando con i più distinti ossequi.

29 JUNE - VISIT TO CISLAGO SUB STATION

Soc. Lombarda di Elet.

Originally installed were :

1 x 75,000 KVA (4 single phase units) 230/120/6 KV transformer
3 x 32,000 KVA 130/50/6 KV transformers
3 x 12,000 KVA synchronous Condensers (still under erection)

The S/S was subjected to several air raids which completely destroyed the 230 KV transformer and did minor damage elsewhere, inoluding puncturing the cases of the three 130 KV transformer. The cases of these three transformers were repaired, at the time, by welding, but the coils were never dismounted for examination.

Recently two of these tranformers "Tripped out of circuit" and investigation has shown that this was the result of shell splinters from the original air raid.

Arrangements are in hand for the repair of these transformers at Brown Boveri works.

H.G. Bost Capt.

The first 130KV transformer is expected to be ready for service at the end of Sept. The second about the end of Oct if magnetic ion is available from S. Italy.

8 July '45

From: Società Cooperativa Consumo di elettricità=
SAN GIOVANNI IN PERSICETO.

To : Public Works and Utilities = Bologna

Subject: Request of insulating oil for machinery and electric equipment.

The under signed "Cooperativa di Consumo di Elettricità" at SAN GIOVANNI in PERSICETO,which furnish electric power to SAN GIOVANNI and ANZOLA EMILIA areas,asks to be furnished with 500 Kg.of insulating oil for machinery and electric equipment. This oil has to be used for insu= lating 30,000 Volts coils,for sparing and full=filling transformers and breakers operating and not operating.

We assure that what we have asked will only be used for the main= tenance of the above mentioned machinery and it is the real bill at this purpose.

Here is attached a sketch of our transformers operating and not operating.

Many greetings

Memorandum No. 259

Roma, 10 July 1945
Via dei Tritone, 181

Subject : Request of Transformer Oil.
S.A.I. Strade Edil. Bonifiche
(S.A.I.S.E.B.)

To : HQ. A.C. PUBLIC WORKS AND UTILITIES
SUB COMMISSION.

1. The above Firm has requested CIP an allocation of :

150 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is necessary for the total filling of 1 Transformer of 50 KVA - primary inserting power 10.000 V.

3. The pre-existing filling was lost following damagements made by the German troops.

4. CIP thinks that the request is justified.

5. The electric power supplying company - Unione Esercizi Elettrici - states that the applicant is connected with tension of 10 KV, (order No. 243 dated 11 May 1945).

6. Please let us know your decisions on the matter.

S.A. Pecchioli - Calce Idraulica -
Molino del Piano.

To : HQ. A.C. PUBLIC WORKS AND UTILITIES
SUB COMMISSION.

1. The above Firm has requested CIP an allocation of :

50 Kgs. of Transformer Oil.

2. This quantity is necessary to refill 1 transformer of 50 KVA - transformation rate 9000/260 V.

3. During the German occupation, said apparatus was hidden in a cave where owing to infiltrations of muddy water in the container of the transformer, the filling was contaminated.

4. The necessary filtering and drying operations for the recovery of the pre-existing filling caused a loss of 28% equal to the 50 Kgs. of oil requested.

5. CIP thinks that the application is justified.

6. Attached is the declaration of the electric power supplying company.

7. We are awaiting your decisions in this respect.

1. We are informed by C.I.P. that they have in stock at Bologna depot 165 Tons of Transformer oil and about 230 Tons of the same oil at other depots in the North.

2. It is possible that due to the small quantity of this oil distributed during the war, the oil at present existing, will not be considered suitable, by the users. In order to reduce the demands for new oil to a minimum, the users should be instructed to filter and reemploy used oil to the maximum extent possible.

3. Will you please issue instructions accordingly and notify this office of the estimated quantity of transformer oil required for the remainder of 1945 in each Region, and we will instruct C.I.P. to stock their depots to meet your demands.

Società Generale Elettrica della Sicilia a

Agrigento, 8 Giugno 1945

SI CERTIFICA

che lo Stabilimento Industriale "Cuore" di Sciacca é nostro utente.
Allo stesso viene fornita energia ad alta tensione 20.000 Volt che viene trasformata dallo stesso Stabilimento Industriale"Cuore" a mezzo di un trasformatore della potenza complessiva di 50 kVA.
Ci risulta che lo stesso ha già ordinato due trasformatori della potenza complessive di 150 kVA.
Il consumo medio mensile attuale,si aggira intorno ai 5.000 kWh. circa.

Subject : Request of Transformer Oil.
Impresa Ing. Cruciani Eusebio -
Rome and Orvieto Caves - Rome.

To : EQ. A.C. PUBLIC WORKS AND UTILITIES
SUB COMMISSION.

1. The above Firm has requested CIP an allocation of :

440 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is necessary for the total filling of the under mentioned apparatus, located as follows :

Rome Cave

300 Kgs. of Transformer Oil for the total filling of 20 starting rheostates same number of engines of the following power :

4 engines of 50 HP.
1 " " 60 HP.
1 " " 40 HP.
4 " " 20 HP.
1 " " 35 HP.
1 " " 30 HP.
8 " " 15 HP.

Orvieto installation

140 Kgs. of Transformer Oil for the total filling of 9 starting rheostates same number of engines : power varying from 15 up to 45 HP.

3. CIP thinks that the request is justified.

4. Attached is the declaration of the electric power supplying company.

5. We are awaiting your decisions on the matter.

To : HQ. A.C. PUBLIC WORKS AND
UTILITIES SUB COMMISSION .

Reference your letter 6/I-189/PWU dated 15 May 1945.

1. The matter has been investigated by CIP Rome and it is resulted that the requirements of the above Firm are following :

500 Kgs. of Transformer Oil.

2. The applicant operates the under mentioned plants :

- Pianarucci Station for 2400 KVA -
- Ponte Station an electric group of 450 KVA -
a second group damaged, under repairs.
- Addolorata Station 2 electric groups, one of 220 KVA and one of 220 KVA which will be put in operation within 15 days.
1 electric group, damaged, now under repairs.

3. The insulating oil requested is necessary to reinstate the losses which will come out filtering and drying up the present fillings and cleaning the containers of the following apparatus :

- 1 transformer of 2400 KVA - transformation rate 6400/3100 V.
- 5 " from 40 up to 80 KVA - " " 3100/260 V.
- 8 switches - inserting power 3100 V.

4. According to your authorization, we have given instructions for the delivery of 170 Kgs. of Lubricating Oil for turbines and electric engines and 17 Kgs. of Grease for stauffers.

5. We are awaiting your decisions in this respect.

Memorandum N° 240

Subject: POL requirements - Transformer Oil.

To : HQ. AC. Public Works & Utilities Sub=Commission
Electrical Division.

1. With reference to your letter 6/I-180/PWU dated 23 June '45 and following our conversation with Maj. L.G. Price, we wish to confirm that we have on hand about 165 Tons of Transformer Oil at CIP Bologna Depot and about 230 Tons of the same oil at other depots of North Italy controlled by us.

2. The monthly requirements of Transformer Oil for North Italy, as notified by our Genoa Branch Office, amount to about 135 Tons, excluding FS requirements.

3. It is possible that, due to the very small quantities of this oil distributed during the war period and to the impossibility to effect total fillings, oil at present existing in containers of many transformers should not be considered suitable by the users. It is, therefore, to be expected that large requests of oil will be made by important companies of North Italy. These requests, if entirely approved, would greatly increase the aforesaid estimated requirements.

4. Owing to the limited availability of this product, CIP points out the opportunity of reducing allocations to a minimum and suggesting to consumers to filter and reemploy used oil to maximum extent possible.

To : HQ. A.C. PUBLIC WORKS AND UTILITIES SUB COMMISSION.

RECEIVED
P.W. & U. SUB C.
16 JUL 1945 189

1. The above Firm has requested CIP an allocation of :

190 Kgs. of Transformer Oil.

2. This quantity must be distributed as follows :

- Poggi Gialli Installation

Oil requested 30 Kgs. - for the reinstatement of the level of the following equipment :

- 1 Transformer of 100 KVA - transformation rate 9000/260 V.
- 1 " " 50 KVA - " " 9000/260 V.

It is our opinion that 10 Kgs. would be sufficient.

- Torrita Installation

Oil requested 15 Kgs. - for the reinstatement of the level of :

- 1 Transformer of 70 KVA - transformation rate 9000/260 V.

It is our opinion that 5 Kgs. would be sufficient.

- Montefollonico Installation

Oil requested 145 Kgs. - for the total refilling of :

- 1 Transformer of 44 KVA - transformation rate 9000/260 V.

and for the reinstatement of the level of :

- 1 Transformer of 30 KVA - transformation rate 9000/260 V.
- 1 " " 25 KVA - " " 9000/260 V.

CIP thinks that 5 Kgs. would be sufficient for the reinstatement of the levels and 135 Kgs. for the renewal of the filling.

HEADQUARTERS ALLIED COMMISSION
APO 394
COMMERCE SUB-COMMISSION JRC/hs

Ref. AC/5146/2-B/Commerce /POL. 9 Tel. Rome 478397

4 July 1945

SUBJECT: POL allocation Naples Province June-July .

TO : A.M.G. Naples Commune , for Maj. Townsend.

1. Reference telephone conversation Mr. Townsend - Capt. Cowlin the Ministry Industry and Commerce confirm that the allocation to Naples province for June and July has not been cut by 50% as stated by Chamber of Commerce.

2. It is possible that the confusion arises following orders to reduce private motoring by at least 50% which were in fact given. This did not imply that a cut in the general allocation was to be made and the quantities allowed for June and July are the same as for May in total.

3. The Ministry have taken up the matter direct with the Chamber of Commerce and it is requested that you keep this office informed should there be any further difficulty over the allocations for Public Services. There is no reason why these should be in any way reduced.

SUBJECT: Conservation of Fuel Oil.

TO: All Concerned.

1. Due to a shortage of tankers and the increased demands of the Pacific war effort, the allocation of fuel oils for the Mediterranean area has been curtailed so drastically as to cause concern as to our ability to meet the minimum essential needs of the theater. The shortage is acute and will become increasingly so for the next few months. Not only must all non-essential use be stopped, but ways and means must be sought whereby essential users shall economize to the maximum extent possible. For example, where operational conditions permit, ships using fuel oil should gear their speed to secure maximum engine efficiency rather than high speed.

2. Fuel fuel oil is now being used for dust laying in areas where such dust laying is not essential or where other means of dust laying is practicable; the mere fact that the use of fuel oil is more convenient than some other means is not sufficient reason for its continued use. While it is not considered feasible to be too specific as to the conditions under which fuel oil can be used for dust laying, the goal to be sought is that it shall be used for this purpose only for the minimum essential use on operational airfields.

3. Unless the consumption of fuel oil is reduced materially, shipments by sea and by rail, production and harvesting of food, and the amount of electrical power available, will all be adversely affected.

Risposta a nota

OGGETTO URGENTISSIMA

Allegati N.

DIRETTORE CIP

SIRACUSA

Inderogabili necessità di interesse cittadino esigono che il Comune di Siracusa sia rifornito in giornata di cento chilogrammi di olio per trasformatore allo scopo di integrare quello rigenerato di un trasformatore facente parte dell'impianto del civico acquedotto.

La deficienza d'acque di cui soffre attualmente la città non consente l'attesa del tempo occorrente perchè si ottenga l'autorizzazione da parte del CIP di Roma e perciò si prega codesta Direzione di voler provvedere subito alla detta fornitura nelle more dell'approvvazione della richiesta regolamentare.

Attached is a copy of letter received from Soc. Bolognese di Elettricità - Bologna - for transformer oil required in the near future.

A copy of this letter has also been given to C I P Bologna who are trasmitting it to their office in Genoa.

This request is only an interim request for an urgent purpose, consolidated demands are being submitted through the normal channels in due course.

It is pointed out that the load in Bologna is rising daily and is now about 18,000 KW, while the 120/50/15 KV transformer is only 15,000 KVA (10,000 KVA on the 15 KV winding.)

Via della Zecca, 1
B O L O G N A

Per i trasformatori che abbiamo presso la sottostazione del Battiferro in corso di riparazione e di montaggio occorrono complessivamente 26 Tonn. di olio e precisamente :

1 - per il trasformatore da 5 000 kVA 50/60/ KV di costruzione G.E.Co. occorrono 9 tonn. di olio;

2 - per il trasformatore da 10 000 kVA 15/5 KV di costruzione C.G.E. occorrono 11 tonn. di olio

3 - per il trasform tore da 6 000 kVA 50/3 KV di costruzione O.T.E. occorrono 6 tonn. di olio.

L'ordine di precedenza per la consegna dell'olio è quello suindicato, ed è urgente per il N.1, mentre per il N.2 e il 3 è sufficiente ricevere l'olio alla fine del prossimo mese.

Distinti saluti.

SOCIETA'BOLOGNESE DI ELET.
Il direttore tecnico
A. Righi

Translation

For the three transformers, that we have at the Battiferro substation and which are being repaired and set up, a total of 26 Tons. of oil are necessary, and exactly :

1) - for the 5,000 kVA transformer 50/60 KV built by G.E.Co 9 tons of oil are necessary

2) - for the 10,000 kVA transformer 15/5 KV built by C.G.E. 11 Tons. of oil are necessary :

Declassified E.O. 12356 Section 3.3/NND No. 785019

3) - for the 6,000 kVA transformer 50/3 kV built by O.T.E., 6 Tons of oil are necessary.

The order of priority for delivering the oil is the above mentrioned one and it is urgent for N.1, while for N.2 and 3 it will be sufficient to receive the oil at the end of the next month.

Yours faithfully

SOCIETA' BOLOGNESE DI ELETTRICITA'

VENICE 19.6.45
S. MARCO CALLE GOLDONI 4462 A

The attached breakdown of S.A.D.E. requirements has been arbitrarily increased 50 tons for the Venice area to cover small Companies and individual industrial substations.

The rehabilitation of the Venice port and the associated Porto Marghera is causing increasing demands of transformer oil which, for the present, are being satisfied from the SADE stocks.

I am freely using the facilities of the SADE for cleaning and filtering old oil found in the ports. This practice conserves the unused oil for the higher voltage transformers and returns the reclaimed oil to low voltege uses.

The above demands do not include those of the Piemonte, Cisalpina and Montecatini Companies or the State Railway, since I have been advised by Lt.Col.Parker that these organizations are being supervised by the Milan Office.

Kindly advise me what progress can be made in obtaining these supplies and also the date we may expect the 108,5 Tons in Venice.

1. It appears necessary once again to set out the procedure, which is to be adopted in order to obtain Transformer oil.

2. Transformer oil is highly refined and can be used for many purposed other than electrical it is necessary therefore, that a strict control be exercised in its distribution.

3. In consultation with AFHQ Petroleum Section, C.I.P. the distributors, and this Division it was agreed that Electrical Division P.W. & U. S/C this HQ should carefully screen all demands and approve the release.

4. The organisation is as follows, the Electr. Division this HQ is responsible to AFHQ for an estimate of future requirements, on the bases of that estimate, AFHQ bid for import, the transformer oil is imported into a base depot (usually near the port) and is released to C.I.P. depots as demanded.

5. Procedure. The electrical Companies place their demands on the distributors (C.I.P. nearest office) these demands are forwarded to C.I.P. head office which office pass the demands to this Division for screening, if approved the approval is forwarded to C.I.P. Head Office Copy to AFHQ Pet Sec, and AFHQ automatically release to C.I.P.

6. We are informed by both AFHQ and C.I.P. that this system is working very well and with very little delay to the applicant.

7. In the case of industrial users, it is necessary that a certificate, signed by the electricity company, be furnished with the application to the effect that a supply of electricity is available and that the industrial user is authorised to use the electrical plant.

600 Kgs. of Transformer Oil. 500 Kgs

2. The applicant declares that this quantity is necessary for the filling of the following equipment :

- 1 Transformer of 250 KVA - 20.000/260 V.
- 1 Switch (regarding the above apparatus)

3. The pre-existing fillings were lost following sabotage by the Germans, who burned them with flame-throwers.

4. Actually the apparatus are under repairs at Firm S.A.C.E.T., 88, Via Ostiense - Rome and are awaiting for the oil to be tested and successively put in operation.

5. CIP thinks that the request is justified.

6. Attached is the declaration of the electric power supplying company.

7. Will you please let us know your decisions on the matter.

TRANSLATION

TO : Public Works and Utilities Sub-Commission, HQ.AC.

We requested to the Italian Petrol Committee (C.I.P.) of Teramo an allocation of oil for our electric power plant. They stated that this matters lies within the competence of your Sub-Commission.

Enclosed herewith two requests for allocation of lubricating oil for the period from July to September. Transformer oil will be used only for a/m period (?)

Colledara, 8 June 1945

Di Odoardo Bros. Co.
Colledara (Teramo)

(NOTE : The above is an approximate translation, since original letter is written in a very ungrammatical and nearly incomprehensible Italian)

1. It appears necessary once again to set out the procedure, which is to be adopted in order to obtain Transformer oil.

2. Transformer oil is highly refined and can be used for many purposed other than electrical it is necessary therefore, that a strict control be exercised in its distribution.

3. In consultation with AFHQ Petroleum Section, C.I.P. the distributors, and this Division it was agreed that Electrical Division P.W. & U. S/C this HQ should carefully screen all demands and approve the release.

4. The organisation is as follows, the elect. Division this HQ is responcible to AFHQ for an estimate of future requirements, on the bases of that estimate, AFHQ bid for import, the transformer oil is imported into a base depot (usually near the port) and is released to C.I.P. depots as demanded.

5. Procedure. The electrical Companies place their demands on the distributors (C.I.P. nearest office) these demands are forwarded to C.I.P. head office which office pass the demands to this Division for screening, if approved the approval is forwarded to C.I.P. Head Office copy to AFHQ Pet Sec. and AFHQ automatically release to C.I.P.

6. We are informed by both AFHQ and C.I.P. that this system is working very well and with very little delay to the applicant.

7. In the case of industrial users, it is necessary that a certificate, signed by the electricity company, be furnished with the application to the effect that a supply of electricity is available and that the industrial user is authorised to use the electrical plant.

SUBJECT : Fuel Oil - Richard Ginori - Florence

TO : Industry Sub-Commission

1. Your letter AC/5866/IND of 31 May 45 and our AC/5083 of 2 June 45 (copy to you) refer.

2. As already explained to you verbally Fuel Oil (it is believed this is what is required and not Naphta as mentioned in your para 2) is in very short supply and stocks available at present are not sufficient to take care of this particular programme.

3. Though an initial supply of only about 7 tons is requested it is understood that if the trial is successful about 200 tons will be needed monthly to take care of regular production programme. This figure, however, is only an estimate given verbally and it is suggested that it should be confirmed so that Petsec can keep a note before them should a change in the stock and slate position make it possible for them to review their decision.

4. This is only one of several applications for Fuel Oil as a substitute for Coal received recently and it is thought that there may be a programme in hand for the conversion of other plants in the same way. If this is indeed the case it is essential that information should be supplied as quickly as possible covering the period until the end of the year and showing:

1) estimated monthly consumption of Oil
2) Nature of plant and Industry.

5. Such information must be made available to Petsec well in advance in view of the fact that four months are still required before additional supplies can be shipped. It is suggested that you let us have your comments as soon as possible as we understand that Petsec may be studying this whole position in the near future with a view to the possibility of revising their slate. The present position does not permit of meeting unexpected demands at short notice.

19 JUN 1945 189

Memorandum No. 202

Subject : Request of Transformer Oil.
S.A.I. per la Produzione Calci & Cementi di Segni - Vibo Valentia Installation.

To : HQ. A.C. PUBLIC WORKS AND UTILITIES Sub-Commission.

1. The above Firm has requested CIP an allocation of Transformer Oil necessary to reinstate the level of the following equipment :-

1 Transformer of 2000 KVA - 60.000/6.000/500 V.
3 Oil switches of 60.000 V.
3 " " " 6.000 V.
3 " " " 500 V.
3 Switches for a tension of 60.000 V.
28 Starting rheostates of which 2 of 6000 V. and 26 of 500 V.
47 Reducers of 500 V.
44 Starters for large engines
83 Safety switches.

300 Kgs.

2. As the total contents of the aforesaid apparatus is of about 8000 Kgs. and as an average of 4% is needed for the reinstatement of the normal levels, CIP thinks that an allocation of 300 Kgs. of Transformer Oil would be sufficient.

3. Attached is the declaration of the electric power distributing company.

4. Please let us know your decisions on the matter.

SUBJECT : Fuel Oil -Richard Ginori- Florence

TO : Industry Subcommission.

131 Refers

102A

102B

1. Your letter AC/5666/Ind. of 31 May '45 and our AC/5083 of 2 June '45 (copy to you) refer.

2. As already explained to you verbally Fuel Oil (it is believed this is what is required and not Naphta as mentioned in your para 2) is in very short supply and stocks available at present are not sufficient to take care of this particular programme.

3. Though an initial supply of only about 7 tons is requested it is understood that if the trial is successful about 200 tons will be needed monthly to take care of regular production programme. This figure, however, is only an estimate given verbally and it is suggested that it should be confirmed so that Petsec can keep a note before them should a change in the stock and slate position make it possible for them to review their decision.

4. This is only one of several applications for Fuel Oil as a substitute for Coal received recently and it is thought that there may be a programme in hand for the conversion of other plants in the same way. If this is indeed the case it is essential that information should be supplied as quickly as possible covering the period until the end of the year and showing 449

(1) estimated monthly consumption of Oil
(2) Nature of plant and Industry.

./.

0971

Declassified E.O. 12356 Section 3.3/NND No. 785019

5. Such information must be made available to Petsec well in advance in view of the fact that four months are still required before additional supplies can be shipped. It is suggested that you let us have your comments as soon as possible as we understand that Petsec may be studying this whole position in the near future with a view to the possibility of revising their slate. The present position does not permit of meeting unexpected demands at short notice.

Memorandum No. 191

Subject : Request of Transformer Oil.
Vincenzo Porcelli Paper Mill ,
Tolentino.

To : HQ. A.C. Public Works and Utilities
Sub-Commission.

1. The above Firm has requested CIP an allocation of :

500 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is needed for the total filling of the following equipment :

- 2 Transformers of 200 KVA - transformation rate 3000/260 V.
- 1 Rheostate for the operation of a 100 HP engine
- 7 Rheostates for the operation of 7 engines : power varying from 20 up to 75 HP.

3. The pre-existing charges have been lost following war operations.

4. CIP thinks that the request is justified.

5. Attached is the declaration of the electric power distributing company.

6. We are awaiting your decisions on the matter.

SUBJECT : Fuel Oil - Richard Ginori.
Florence

TO : ~~Pet.Sec.~~ APHQ HAAC

1. Conversation Maj. Fagan/Capt. Cowlin refers.

2. Attached is copy of a letter just received from Industry Subcommission (AC/S666/Ind. of 31 May '45) asking for an immediate supply of 7000 litres Fuel Oil for Richard Ginori. It is understood that if this initial trial is satisfactory about 200 tons of Fuel Oil per month will be required to take care of the production programme already planned.

3. No trace can be found in our files of the bid mentioned in Industry Subcommission letter para 5 and this is the first information this Subcommission has received regarding the conversion of this plant from coal to oil burning.

4. P.W.U. Subcommission are also very much in favour of starting up this programme since there is an urgent need for insulators which will have to be imported if they cannot be produced locally.

5. Please let us have your comments and state whether you are prepared to make available the quantities indicated.

Ref. AC/5666/IND. 31 May 1945

SUBJECT : Fuel Oil Allotment to Richard Ginori Co. 102B

TO : Commerce Subcommission
(Attn. POL Section)

FROM : Industry Subcommission

1. On 1 March this Subcommission asked the Industry Officer, Toscana Region, to investigate the possibility of the subject firm converting its porcelain insulator furnaces from coal to oil burning. This request was based on a statement from the P.W. & U. Subcommission officer of the area who had learned that efforts were being made on this conversion.

2. On 18 March, the Industry Officer; Toscana Region replied by letter that one of the Company's furnaces had been converted to oil and that 7,000 litres of naphta had been demanded of the local P.S.O. for the initial trial. No indication was given as to the source of the authority for the conversion.

3. Early in April a series of telephone conversations was held between Industry Subcommission and the Industry Officer of Toscana Region. This Subcommission was assured that the oil would be made available without any help from headquarters.

4. On 29 May we were informed by Major Price of P.W. & U. Subcommission that the oil had not yet been received. Toscana Region was again called by telephone and after further investigation Major Drake reported that the subject plant had been working with A.M.G? Fifth Army and had been promised the needed oil by this latter unit. When Fifth Army moved forward the entire project, evidently, was dropped by A.M.G., Fifth Army. 106

5. Although we have no record of the bid for naphta on the P.S.O. mentioned in Para 2 it is quite clear that, if this bid was made, ample time has elapsed to have the matter considered by the POL Section.

./.

10091

Declassified E.O. 12356 Section 3.3/NND No. 785019

6. Please advise us if a bid for the required 7,000 liters can be considered at the time and the earliest possible date on which the oil can be delivered. The importance of electrical insulator production is great.

/s/ W.J. Maskrey

Vs. 31/3/45
RICHIESTA DI ASSEGNAZIONE OLIO PER TRASFORMATORI

In questo periodo la Società Romana di Elettricità ci fornisce solo 30 Kw. di forza motrice perché devono iniziarsi in questi giorni i lavori di ripristino della linea a 30.000 Volt già danneggiata dalle incursioni aeree.

A supplire la mancanza di forza per le ns. lavorazioni questa fabbrica deve prodursi l'energia mancante con il proprio impianto termico di riserva composto di :

- nº 1 motore Diesel da HP. 125 - Languen & Wolf e 3 cilindri
- " 1 motore Diesel Linke Hoffmann della potenza di 100 HP. a 4 cilindri.

Pertanto, in attesa dell'allacciamento suddetto, Vi preghiamo volerci assegnare l'olio per trasformatori per gli apparecchi in funzione con la ns. produzione termica.-

SUBJECT : Fuel Oil Allotment to Richard Ginori Co.

TO : Commerce Sub-Commission
(Attn.: POL Section)

FROM : Industry Sub-Commission

1. On 1 March this Sub-Commission asked the Industry Officer, Toscana Region, to investigate the possibility of the subject firm converting its porcelain insulator furnaces from coal to oil burning. This request was based on a statement from the P.W. & U. Sub-Commission officer of the area who had learned that efforts were being made on this conversion.

2. On 18 March, the Industry Officer, Toscana Region replied by letter that one of the Company's furnaces had been converted to oil and that 7,000 liters of naphta had been demanded of the local P.O.L. for the initial trial. No indication was given as to the source of the authority for the conversion.

3. Early in April a series of telephone conversations was held between Industry Sub-Commission and the Industry Officer of Toscana Region. This Sub-Commission was assured that the oil would be made available without any help from headquarters.

4. On 29 May we were informed by Major Price of P. W. & U. Sub-Commission that the oil had not yet been received. Toscana Region was again called by telephone and after further investigation Major Drake reported that the subject plant had been working with A.M.G. Fifth Army and had been promised the needed oil by this latter unit. When Fifth Army moved forward the entire project, evidently, was dropped by A.M.G., Fifth Army.

5. Although we have no record of the bid for naphta on the P.O.L. mentioned in Para 2 it is quite clear that, if this bid was made, ample time has elapsed to have the matter considered by the P.O.L. Section.

4452

10361

Declassified E.O. 12356 Section 3.3/NND No. 785019

6. Please advise us if a bid for the required 7,000 liters can be considered at the time and the earliest possible date on which the oil can be delivered. The importance of electrical insulator production is great.

1. The above Firm has requested CIP an allocation of :

337 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is necessary for the filling of the following equipment :

- 1 Transformer of 100 KVA - transformation rate 8650/235 V.
- 1 Automatic switch for transformer - inserting power 8650 V.
- 7 Rheostates - inserting power 235 V.

3. The pre-existing charges have been lost following war operations.

4. CIP thinks that the request is justified.

5. Attached is the declaration of the electric power supplying company.

6. Please let us know your decisions on the matter.

OGGETTO: Miniera di Colle San Magno

Stiamo attualmente lavorando alla riattivazione della ns/ miniera di prodotti asfaltici di Colle San Magno (Frosinone), nella quale ci proponiamo di produrre mastice di asfalto per impermeabilizzazione di coperture.

A tale fine ci saranno necessarie, in un periodo di circa 3 mesi, tonn. 80 di olio per flussaggio. Sappiamo che è particolarmente adatto l'olio grezzo di produzione dai pozzi petroliferi di Ripi, già da noi impiegato, in passato.

Confidiamo pertanto che codesta Commissione vorrà cortesemente concedere l'assegnazione del quantitativo sopraindicato.

TRANSLATION

SUBJECT: Mine at Colle San Magno

We are now working to re-start our mine of asphaltic products at Colle San Magno (Frosinone), in which we intend to produce asphaltic mastic for water-proofing of coverings.

For such purpose, we need, for a period of three months, 80 Tons of flushion oil. We know that the raw oil, produced in the petroliferous wells of Ripiand which we have already used in the past, is particularly fit.

Therefore we are sure that you will be so kind as to grant the allotment of the above mentioned quantity.

Roma, 3 Maggio 1945

OGGETTO: olio di Ripi per no/ miniera e Stabilimento di Colle S. Magno.

Facciamo seguito alla precedente corrispondenza per segnalarVi la urgenza ormai eccezionale di disporre delle 80 tonn. di olio grezzo dei pozzi di Ripi, di cui abbiamo chiesto l'assegnazione.

Lo Stabilimento è ormai pronto per riprendere la produzione del mastice ed attende a tal fine il flussante di cui sopra.

Il Ministero Italiano dell'Industria ci ha informato, come da lettera che qui alleghiamo in originale, che ha interessato codesta Commissione alla concessione del materiale da noi domandato.

Ci permettiamo chiedere, in considerazione di quanto sopra, che la no/ domanda sia accettata al più presto possibile.

Ringraziando fin d'ora, salutiamo ben distintamente.

SUBJECT: Ripi oil for our mine and our Establishment at Colle S. Magno.

Following up our previous correspondence, we signalize you our exceptional emergency to have at our disposal the 80 tons of raw oil of the Ripi wells, the allotment of which we have asked for.

The Establishment is now ready to re-take the production of mastic, and so it is expecting the above mentioned flexible oil.

The Italian Ministero dell'Industria has informed us - as you can see in the original letter, we enclose - that has interested this Allied Commission for the granting of the material we have

./.

SUBJECT: Transmission lines.

TO : Lt-Col. Lapper
Public Works & Utilities Sub-Commission
Headquarters A.C. APO 394

1. Attached is copy of letter written by Major F.G. Green at the request of Capt. Forster in charge of mine clearance Tuscan Region.

2. Confirming conversation to-day, it will be necessary to have two additional jeeps temporarily attached to this headquarter for the use of Major Crowther and Captain Duran to permit them to perform their assigned duties.

3. The transmission lines work now arranged will require the use of three 2½ ton military trucks for a period of one month.

4. After discussing the transportation problem with Ing. Landucci, he stated that his Company is prepared to purchase outright from military sources ten 1½ ton, three ¾ ton, four 5 ton, 4 jeeps, one 30 ton trailer and prime mover, one dump truck, one truck crane with orange peel or clam shell bucket.

5. At the completion of transmission lines from Edison to Valdarno systems, it will be necessary to patrol these lines for proper maintenance and for this reason the above weapons carriers will be required.

6. A supply of 10 600 x 16 or jeep size tires are urgently required to maintain present transport.

7. Fuel for flame throwers on mine clearance work is no longer available in this area; if it is possible for Major Price to arrange same with "Centro Chimico Militare" in Rome, transportation to Calliciano should be provided.

HEADQUARTERS
TOSCANA REGION
ALLIED MILITARY GOVERNMENT

FILE : R-VIII/PS/10.4

SUBJECT : Mine Clearance

TO : Local Government Sub-Commission,
Headquarters, A. A. - C.M.F.

I. Today Major CROWTHER of the Electric Division of Allied Commission who is at present in Florence, called at this office to ask assistance for the clearance of mines under thr high tension cables, which are being repaired in the northern part of Lucca province.

2. Zone V have been contacted an agree on the priority of the work but due to the high grass and weeds it is impossible to lift the mines without first burning off the groud.

3. Flame throwers have been found locally (Italian make) but there is a serious shortage of "fuel" and Major PASQUA has already sent a wire to the Ministry of War for supplies which he says, exit there.
Would yuo please use your good offices to see that the Ministry of War, do send the necessary supplies without undue delay.

4. Nobody from this office has yet been able to visit the land in question but Major Pasqua who has, says that the only pratiable method of burning the grass is by Flame Throwers and that ordinary burning is out of the question.

5. When Major REAKES was last in Toscana Region , he mentione the possibility of letting V zone have 2 more mine Detectors, these they are very anxious to have. As suitable transport is in such short supply, would Major REAKES be good enough to put these in his car if available when he visits Bologna.

Ns. 4499

ROMA 15 maggio 1945

OGGETTO : Decorrenza pagamenti nafta

Si é esaminato con particolare attenzione quanto ci viene comunicato con la lettera 2 corr. nº 78652,se non che sembra che il quantitativo di nafta da voi usato nel 1944 per la caldaia sia stato interamente incluso nel bilancio economico presentato per la revisione delle tariffe dell'anno stesso e quindi attraverso detta revisione codesta Società sarebbe già stata rimborsata della spesa relativa .

Conseguentemente non appare ora possibile accogliere favorevolmente la domanda di parziale esonero dal pagamento della nafta stessa.

Memorandum No. 154

Subject : Request of Transformer Oil.
Soc. Chimica dell'Aniene -
Rossignano Solvay Inst.
(Leghorn).

To : HQ. A.C. PUBLIC WORKS AND
UTILITIES SUB-COMMISSION.

1. The above Firm has requested CIP an allocation of :

800 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is needed to complete the refilling of the following equipment :

- 1 transformer of 1730 KVA - transformation rate 5000/54 and
- 104 distance-switches of 220 V.

3. The laking oil was picked up, by order of the Allied Authorities, to complete the refilling of two other transformers damaged following war operations, and rehabilitated to supply electric power to the town of Leghorn.

4. In our opinion the quantity requested is justified.

5. Attached is the declaration of the electric power supplying company.

6. Please let us know your decisions on the matter.

Memorandum No. 146

Subject : Request of Transformer Oil.
Montecatini - Niccioleta Mine (Grosseto).

To : HQ. A.C. PUBLIC WORKS AND UTILITIES
SUB - COMMISSION.

1. The above Firm has requested CIP an allocation of :

2,000 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is needed for the total refilling of the following equipment :

- 1 Transformer of 400 KVA - transformation rate 15.500/520 V.
- 2 Transformers " 200 KVA - " " 15.500/520 V.
- 1 Transformer " 150 KVA - " " 15.000/6.200 V.
- 3 Switches - inserting power 500 V.

3. The pre-existing oil has been lost following war operations.

4. It is our opinion that the request is justified.

5. Attached is the declaration of the electric power supplying company.

6. We are awaiting your decisions on the matter.

19 May 1945

SUBJECT: Distributbon Petrol Coupons .

TO : A/Director Public Works & Utilities S/C.

224 - 1st Part

1. Your memo 4 May ref I89/PWU refers .

2. It is pointed out that the coupons referred to are a particular type designed to facilitate the procuring of Petrol supplies by civilian contractors working exclusively on a special category of Allied Military contract.

3. The Petrol drawn against the coupons is not a charge against the Italian civilian allocation and for this reason it has always been deemed necessary for Allied Military authorities responsible for the contracts to screen demands and organise distribution of coupons.

4. In the case of Southern areas where A.C. officers have now been withdrawn the arrangement is that bulk supplies of coupons are being made available to G.E. Roads who function as the screening agency and distribute through Genio Civile after validating booklets for issue to individual contractors. This arrangement was made by agreement with P.W.U.

5. When all military personnel is withdrawn from Italian Government territory it is assumed that the military contracts referred to will have either been completed or become a responsibility of the Italian Government who will then have to cover any further needs of P.C.L. from their civilian allocation.

P.W. & U. S/C A.C.
16 MAY 1945 189

1. The above Company has requested CIP an allocation of :

460 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is necessary for the total filling of the following equipment :

- I Transformer of 75 KVA - transformation rate 10000/260/167 V.
- I Switch high tension - inserting power 10000 V.
- I Switch low tension - " " 260 V.

3. The pre-existing oil has been lost following war operation, of which about 80 kgs. may be recovered.

4. It is our opinion that 300 Kgs. would be sufficient to cover the real needs.

5. Attached is the declaration of the electric power distributing company.

6. Please let us know your decisions on the matter.

Memorandum No. 122

Subject : Request of Transformer Oil.
S.A. Lanificio Menicacci & C.
Prato (Florence).

To : HQ. A.C. Public Works and Utilities
Sub-Commission.

1. The above Company has requested CIP an allocation of :

75 Kgs. of Transformer Oil.

2. The applicant declares that this oil is needed for the reinstatement of the levels of the following equipment :

- 1 Transformer of 100 KVA - transformation rate 9000/260 V.
- 1 Distance-swtich of 10 A.
- 2 Rheostates of 260 V.

This quantity covers a three months requirement.

3. It is our opinion that the request is justified.

4. Attached is the declaration of the electric power supplying company.

5. We are awaiting your decisions in this respect.

Subject : Request of Transformer Oil.
Coppini Gino & C., Prato (Florence).

To : HQ. A.C. PUBLIC WORKS AND UTILITIES
SUB-COMMISSION.

1. The above Firm has requested CIP an allocation of :

225 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is needed :

a. to fill 1 transformer of 50 KVA - transformation rate 10000/260/150 V.

b. to reinstate the level of 1 transformer of 50 KVA - transformation rate 10000/260/150 V.

3. The pre-existing oil of the first transformer has been lost following war operations.

4. It is our opinion that 175 Kgs. would be sufficient to meet said needs.

5. Attached is the declaration of the electric power distributing company.

6. Please let us know your decisions on the matter.

Attestiamo che con provvedimento 14 Marzo 1945 l'A.M.G. ha autorizzato la fornitura dell'energia elettrica nella misura di 20 kW, alla Società Industria Laterizi Granaiolo. E' in corso di stipulazione con la Società predetta il contratto di utenza, e sono ultimati i lavori per l'adduzione dell'energia allo stabilimento in questione.

La fornitura avrà inizio non appena la Società Industria Laterizi avrà reso efficiente il proprio trasformatore, effettuandone il riempimento con l'olio isolante che ha chiesto a voi in assegnazione.
