Il Ministero dei Lavori Pubblici ha informato lo scrivente che la Soc.Meridionale di Elettricità, interessata nell'espletamento dei Lavori del Pescara noleggia autocarri presso i Truck Poole di Pescara e Chieti.

In data 16.11.942 la ditta ebbe comunicazione che i detti poole sospesero l'invio degli autocarri per mancanza di benzina.

Risulterebbe pertanto che i truck poole avrebbero solo benzina per la prima quindicina del mese.

Si prega codesto Ente di voler fornire chiarimenti in merito.

Subject: gasoline for SME

To: Industry & Mining Division — Airport Fuel Dept.
to: ENAC. - Rome.

The Ministry of Public Wks. has informed me that SME is actually chartering trucks from the Truck Pools at Pescara and Turi, in order to carry on the repair work at Pescara.

On 16 November 1945 that Company was informed that the Trucks would no more be available for lack of gas.

According to that, the Truck pools would have gas only for the first two weeks of the month.

Will you please inform us on this matter.

1. Reference is made to your Memorandum no. 9 dated 12 January regarding electric power supply at Fiumicino.

2. Control of electric power has been transferred to the Italian Government under the Ministry of Public Works and you should make your request for priority service to that agency in order that it may be given consideration along with all other requests for priority treatment.

3. The electricity supply in Central Italy is very difficult at the present moment which requires that a system of priorities be established.

Subject: "Petrolea" installation, Fiumicino

To : HQ. A.C. Public Works & Utilities
S/C. Fuel Dept. Petroleum Div.

1. As this Sub-Commission is aware, CIP has stored carburant which came from Naples by sea at "Petrolea" installation of Fiumicino.

2. As it is necessary for CIP to supply as promptly as possible said fuel to its various Rome depots, will this Sub-Commission please furnish us with an authorization to be presented to Societa Romana Elettricita in order that the installation in question be excluded from the turns of distribution of current, thus placing the installation in condition to meet the requirements of its work.

SUBJECT: Fuel Requirements for Capuana Steam Plant and Volturno Diesel Plant

TO : Ministry of Public Works
(Att: Prof. A. Asta)

1. Enclosed herewith is data which has been prepared by the S.M.E. Company showing the energy requirements of the Naples and Campania area broken down into thermal and hydro electric production, together with fuel requirements and deliveries for the months of August 1945 to December 1945, inclusive.

2. Also enclosed is a forecast of the energy requirements of the same area with an estimate of the amount to be obtained from hydro production, the amount to be obtained from the Volturno Diesel Plant and the Capuana Steam Plant, together with the fuel oil requirements of the Capuana Plant for the month of January to May 1946, inclusive.

3. Arrangements have been made for the delivery of the quantities for January and February 1946 and since the allocation of fuel oil will be made by the Italian Government starting with March 1946, it is recommended that your Department interest itself in the matter to insure that arrangements are made for the allocation of the quantities of oil needed beginning with March 1946.

SUBJECT: Fuel il in Capuana and Volturno Plant - Naples

TO : Ministry of Public Works
(Attn: Prof. A. Asta)

1. It is believed that the electric power output of the Capuana steam plant and the Volturno diesel plant will be needed to meet the electric power requirements for Southern Italy during the rest of 1946.

2. In this connection, therefore, the Ministry of Public Works should arrange with the Petroleum Section of the Italian Government to see that sufficient fuel is provided in the coming months.

3. Provision has been made for allocation up to and including the month of March 1946 and arrangements should be made for the fuel requirements needed subsequent thereto. We understand that April allocations are now under consideration.

I. The above Firm has requested CIP an allocation of :

Y= 6.000 Kgs. of transformer oil

2. The applicant declares that this quantity is necessary for the total filling of n. 5 transformers 600 KVA = 10.000/6000 V.
Pre-existing charges were lost following war operations .

3. As we have been able to ascertain that two of said transformers have been put already in operation using the oil recovered from all damaged apparatus we think it opportune to meet only the requirements of the three remaining equipment which are to be reactivated. Therefore we suggest to authorize delivery of the real needs viz. 3.600 Kgs.

4. Please let know your decisions on the matter.

Memorandum No. 801

Subject : Request of Transformer Oil.
Officine Costruzioni Elettromeccaniche
(O.C.E.) Milano.

To : HQ. A.C. INDUSTRY AND UTILITIES
SUB-COMMISSION.

1. The above Firm has requested CIP an allocation of :

7,050 Kgs. of Transformer Oil.

2. The applicant declares that this quantity is necessary for the initial filling of the undermentioned equipment :

- 5 transformers 75 KVA - 11000/8150 V.
- 10 " 100 KVA - "
- 10 " 150 KVA - "

3. These transformers are manufactured by the applicant on account of Soc. Elettrica Bresciana.

4. It is CIP's opinion that 7000 Kgs. of oil would be sufficient to cover the real needs.

5. We are awaiting your decisions on the matter.

Oggetto: Fuel for power plants - Naples.

We beg to inform you that our estimated consumption of fuel oil for the six months ending on June 30, 1946, is 2400 tons, i.e. an average consumption of 400 tons a month.

We shall be glad if you will kindly arrange for this supply of fuel to be delivered at our Doganella thermal station in Naples in good time, in order to enable us to run the station without stops.

We take this opportunity to point out that our stock of fuel at said station is only 100 tons to-day, and an allocation of this material is urgently needed.

Your faithfully
Prof. Ing. Giudo Maione
Managing Director

Oggetto : Nafta per l'impianto termico - Napoli.

Ci pregiamo di informarVi che il nostro consumo di nafta previsto pel primo semestre 1946 è di 2400 tonnellate, pari ad una media mensile di 400 tonnellate.

Vi preghiamo di voler cortesemente provvedere affinché questo rifornimento di nafta sia tempestivamente consegnato alla nostra centrale termica Doganella in Napoli, in modo da consentirci di effettuare senza interruzioni l'esercizio della stazione stessa.

Cogliamo l'occasione per segnalarvi che la nostra rimanenza di nafta all'enzidetta Centrale è oggi di sole 100 tonn. ed è urgente un rifornimento di questo combustibile.

Distinti saluti

IL CONSIGLIERE DELEGATO

Olio per trasformatori -

La Electrical Division di Venezia in data 16 Agosto c.a. ha portato a nostra conoscenza la lettera che Codesta Commissione di Roma aveva scritto in data 2 Agosto al Comitato Italiano Petroli - Via del Tritone, 181 - Roma.=

Rendiamo edotta Codesta Commissione che dopo l'assegnazione fatta a Padova di 50 tonn. di olio a favore di tutto il Gruppo Società Adriatica di Elettricità, non si sono più avute assegnazioni, come da istruzioni che, con la lettera sopra ricordata, erano state date al Cip, il quale avrebbe dovuto effettuarle entro il corrente anno.=

Per la ragione di cui sopra il complesso di Società che fanno capo al Gruppo della Società Adriatica di Elettricità si trovano in gravi difficoltà, tanto più se si tiene presente la necesità di provvedere al riempimento con olio dei trasformatori che, già danneggiati dalle operazioni belliche, si stanno ora riparando.=

Ci si permette pregare di voler intervenire presso il Cip affinchè, con rapidità, effettui una consegna per considerevole quantitativo di olio al Gruppo Società Adriatica di Elettricità.=

14 DEC 1945 189

Subject: Request for allocation of Transformer Oil. SOC. BOLOGNESE DI ELETTRICITA', Bologna.

To : HQ. A.C. INDUSTRY & UTILITIES SUB-COMMISSION.

1. The above named company has requested CIP an allocation of:

40.000 (forty thousand) kgs. Transformer Oil

stating that this quantity is needed for total filling of the equipment indicated below:

No. 1	transformer	15.000 KVA	- 120.000/15.000 V.
" 3	"	25 "	- 15.000/235 V.

" 4	"	150 "	"
" 6	"	200 "	"
" 2	"	220 "	"
" 2	"	250 "	"

2. These apparatus were damaged following war operations and have now been repaired. Following our technical ascertainment t he request is considered justified.

3. Soc. Bolognese di Elettricità sent a request on 14 July 1945 to HQ. A.C. P.W. & U. S.C. Bolgna for 20 tons of Transformer Oil needed for its 15.000 KVA transformer and the latter in turn forwarded the request to A.C. Genoa but was never received by CIP. Therefore due to the long period which has passed this allocation is of the utmost urgency.

Con riferimento al foglio 2719/56 del 22.11.1945 di codesto Ministero si fa presente che i fabbisogni di carburante dei Truck Pools di Chieti e Pescara vengono tenuti in particolare considerazione dalle rispettive Direzioni Provinciali dell'ENAC, le quali, normalmente assegnano ai Truck Pools stessi circa il 40% di tutto il quantitativo di benzina a loro disposizione; detto quantitativo è insufficiente a soddisfare tutte le richieste di trasporto della provincia; ma ciò dipende da una situazione generale dovuta alla persistente scarsezza di carburanti.

Naturalmente se gli autocarri dei Truck Pools vengono impiegati per l'effettuazione di trasporti più urgenti, rispetto a quelli richiesti dalla S.M.E., questi ultimi devono subire, necessariamente, dei differimenti.

Con l'occasione si precisa che qualora gli autocarri dei Truck-Pools non possano effettuare i trasporti per esaurimento delle assegnazioni di carburante le richieste di trasporto potranno essere rivolte alle Direzioni Provinciali ENAC che, compatibilmente alle disponibilità di carburante, possono mettere a disposizione anche autocarri di altri trasportatori.

Comunque è opprtuno che gli incaricati della S.M.E. a Chieti e a Pescara prendano gli opportuni contatti con le locali Direzioni Provinciali ENAC onde definire l'effettivo fabbisogno della predetta Società, fabbisogno che verrà poi segnalato a questa Direzione Generale che lo prenderà nella dovuta considerazione per le assegnazioni future di benzina alle provincie di cui trattasi.

OGGETTO: Fuel for power plants - Naples.-

The Comitato Italiano Petroli informs us that you have allocated 240 tons of fuel, whilst we asked you to allocate 600 tons with our letter of 5 Nov. 1945 N°7269. We beg to point out that the 240 tons allocated are absolutely inadequate to meet our requirements, and we should be obliged to stop our thermal station through lack of fuel if the fuel to be supplied were not increased. Will you please, therefore instruct C.I.P. to supply us at least 350 tons of fuel instead of the 240 tons as above mentioned, to meet our most urgent needs, since our stock is exhausted.

OGGETTO: Carburante per l'impianto termico - Napoli.-

Il Comitato Italiano Petroli ci informa che ci avete assegnato 240 tonn. di nafta, laddove con la nostra lettera del 5 corr.vi chiedevamo un'assegnazione di 600 tonn. Ci pregiamo di farvi noto che le 240 tonn. assegnateci sono assolutamente insufficienti a far fronte alle nostre esigenze, e dovremmo fermare la nostra centrale termica per mancanza di carburante se non venisse aumentata la quantità di carburante da fornirci. Vogliate pertanto compiacervi di dare istruzioni al C.I.P. di fornirci almeno 350 tonn. in luogo delle 240 anzidette, in modo da far fronte ai nostri più urgenti bisogni, dato che la nostra scorta è esaurita.

Distinti saluti.

OGGETTO: Fuel for power plants - Naples.-

The Comitato Italiano Petroli informs us that you have allocated 240 tons of fuel, whilst we asked you to allocate 600 tons with our letter of 5 Nov. 1945 N°7269. We beg to point out that the 240 tons allocated are absolutely inadequate to meet our requirements, and we should be obliged to stop our thermal station through lack of fuel if the fuel to be supplied were not increased. Will you please, therefore instruct C.C.P. to supply us at least 350 tons of fuel instead of the 240 tons as above mentioned, to meet our most urgent needs, since our stock is exhausted.

M.M.

Yours faithfully
Prof. Ing. Guido Maione
Managing Director

OGGETTO: Carburante per l'impianto termico - Napoli.-

Il Comitato Italiano Petroli ci informa che ci avete assegnato 240 tonn. di nafta, laddove con la nostra lettera del 5 corr.vi chiedevamo un'assegnazione di 600 tonn. Ci pregiamo di farvi noto che le 240 tonn. assegnateci sono assolutamente insufficienti a far fronte alle nostre esigenze, e dovremmo fermare la nostra centrale termica per mancanza di carburante se non venisse aumentata la quantità di carburante da fornirci. Vogliate pertanto compiacervi di dare istruzioni al C.I.P. di fornirci almeno 350 tonn. in luogo delle 240 anzidette, in modo da far fronte ai nostri più urgenti bisogni, dato che la nostra società è esaurita.

Distinti saluti.

IL CONSIGLIERE DELEGATO

SUBJECT : P.O.L. for Truck Pools Pescara.

TO : Ministry of Industry & Commerce
(Liquid Fuels Div.)

1. A copy has been received by this S/C. of a letter, Prot. 2719 dated 22 Nov 1945, addressed direct to your Ministry by Ministero dei Lavori Pubblici.

2. In this letter it is stated that truck pools at Pescara and Chieti are unable to provide trucks for carrying on essential reconstruction work at Soc. Meridionale di Elettricità (Zone Scafa-Alanno) since they have only sufficient Petrol for 15 days operating per month.

3. This situation is not understood by this S/C as special provision was made to ensure an adequate supply of P.O.L. for these particular truck pools at the time when A.C. Transportation officers were still in charge. There is no particular reason why this situation should have changed in the meantime.

4. It is suggested, therefore, that the matter should be fully investigated as the work which appears to be suspended should obviously carry a high priority.

1) - Questa Società ha richiesto ai primi di ottobre ed ha ottenuto in data 8 Ottobre l'assegnazione per 72 + 48 = 120 Tonn. di olio per trasformatori occorrenti per il trimestre ottobre - novembre ÷ dicembre c.a.

2) - A tutt'oggi questa Società ha ricevuto solo 7 Tonn. sulle 120 Tonn. assegnatele.

3) - In risposta alle sollecitazioni rivoltegli il C.I.P. ha dichiarato di non poter fare alcuna previsione di consegna, essendo completamente esaurite le scorte italiane e non prevedendosi prossimi arrivi dall'estero.

4) - L'olio in questione è destinato (come dettagliato nelle richieste) alla rimessa in servizio di trasformatori e interruttori delle centrali distrutte; al riempimento dei trasformatori riparati dai danni di guerra; alla normale manutenzione dei trasformatori e interruttori della rete di Roma e del Lazio.

5) - Ogni ritardo di consegna dell'olio rappresenta un corrispondente ritardo della entrata in funzione delle centrali; e un ritardo nella rimessa in servizio dei trasformatori della rete già riparati di cui molti sono attualmente pronti ma vuoti di olio.

6) - La mancanza dell'olio assegnatoci pertanto risulta a danno sia della produzione di energia (22.000 kVA di trasformatori al Canterno a Segni e ad Albano sono in attesa di olio) sia a danno della distribuzione nella città di Roma dove la potenza di trasformatori istallati in rete deve essere urgentemente aumentata per far fronte al carico della imminente stagione invernale. 5307

7) - Questa Società nell'esporre la gravità della situazione ha fiducia che il P.W.U. vorrà intervenire con gli opportuni provvedimenti e sentitamente ringrazia.

ROMA

Approvv. 806/

1) This Company has requested at the beginning of October and obtained on October 8th the allotment of 72+48= 120 Tons of Transformer oil needed for the three months of October, November and December

2) At this date the Company has received only 7 of the 120 Tons allotted.

3) Having been questioned about this, the C.I.P. has declared not to be able to make any forecast about the delivery, as the Italian supplies are completely exhausted and no near arival from abroad being forseen as yet.

4) Aforesaid oil is needed (as detailed in the request) to put into operation again the transformers and switches of the destroyed electrical stations, to the refilling of the transformers which have suffered from war damages and are now repaired, to the ordinary keeping of transformers and switches of Rome and Lazio network.

5) Every delay in the delivery of oil represents a delay to the putting into operation of the stations and a delay in the putting into operation of the already repaired transformers of the network, of which many are actually ready, but empty of oil.

6) This want of the allotted oil therefore is greatly damaging the energy output (22.000 kVA of transformers at Canterno, Segni and Albano are waiting for oil) as well as the distribution for the town of Rome, where the power of the transformers installed in the network has an urgent need of being increased so as to face the load of the oncoming winter season.

7) In exposing the seriousness of the situation this Company ho-

UNCLASSIFIED.

This is lcc 1322. Upon the authority and recommendation of paragraph 4 of signal tam 310 dated 6 October 1944 Italian utilities are debited with percentage of pol considered for civil economy. Amounts considered chargeable to the Italian state railway.

Para 2. It is considered that effective from 1 Septem 1945 is should be debited with 100 percent of pol supplies. Is place claim against Italian Government for that portion of pol used in work performed for each of the Allied military.

Para 3. Reasons for the above opinion as follows:

A) With termination of lend lease as at 31 August 1945 impossible to accurately assess amounts of pol consumed by railways for accounts of each of the Allied military.

B) Exsting system is inoperative due to detailed accounting procedures necessitated by termination of lend lease.

Para 4. Percentage of pol consumed by power houses for civil use in 100 percent.

5289

Para 5. Request approval of proposed procedure and concurrence that paragraph 4 of tam 310 dated 6 October 1945 may be revised in accordance with paragraph 2 above.
