SUBJECT: Gasoline Drums

TO : Ing. Ferretti, Chief Engineer
Highway Division, Ministry of Public Works

1. Reference your letter of September 12 regarding the issue of 10 empty gasoline drums for U.S.V.S. storage to Rome. We regret to advise that these drums are the property of the military authorities and have been consigned to us on memorandum receipts and therefore are subject to return to that authority by this headquarters and may not be issued to civilian organizations.

2. It is understood that drums are available from salvage sources in Naples and Mr. Frampton will be instructed to look into the situation, and if it is possible to obtain a truck load of gasoline drums for U.S.V.S., we will inform you.

SUBJECT: Allocation of American 6 x 6's

TO : Ing. Ferretti, Chief Engineer
Highway Division, Ministry of Public Works

1. In accordance with instructions from the Director of Public Works and Utilities Sub-Commission, A.C., 19 trucks will be utilised in conjunction with the highway equipment in the Florence area. Four of these trucks were started to Florence but one broke down and only three arrived at that point. You will immediately arrange to send 16 American 6 x 6 trucks to Florence, advising this office of the serial numbers and plant numbers so that the necessary memorandum receipts may be issued. These trucks are the property of the Ministry of Public Works but will remain under the control of the Public Works and Utilities Sub-Commission represented by Capt. Milani, Field Assistant, Highway Equipment Section, and A.C. liaison officers of PBS and First District, until such time as the military organisations turn over the responsibility for roads of military importance completely to civilian authorities.

2. Ing. Giunto, U.S.V.S., will have operational charge of the vehicles and will be responsible for their maintenance and fuel. He will be at all times consulted previously to the allocation of any vehicle by order of the military authorities and his opinion solicited before such allocation is made.

For the Director of Public Works and Utilities Sub-Commission

SUBJECT: Demonstrative Contract, Route 6

TO : Lt. Col. Wm. M. Spann
Chief, Public Works Div.
P. W. & U. S/C.

1. This is to confirm conversation of September 13 relative to the operation of a contract on Route 6 where heavy construction equipment will be utilized in an effort to demonstrate to the Italians that such equipment is feasible for use on Italian highways. We are immediately beginning to turn over the following equipment to the contractor Cidonio Luigi:

1 asphalt mixing plant, consisting of pugmill drier and elevator This plant is the property of 5th Army and no arrangements have been made for its disposal. This matter is being taken care of by this office to learn what disposal is expected.

2 patrol graders, motorized.

2 asphalt kettles

1 truck mounted asphalt distributor

1 asphalt finisher

An undetermined number of British 3-ton trucks

When the number of trucks which will be required by the contractor is ascertained, a further report will be made to your office.

2. This arrangement has been confirmed to the representative of the Ministry of Public Works as well as the information that Major Hyland will participate in the contract work as a consulting engineer to assist in the matters of pre-mix design and road construction and it meets the approval of all concerned.

3. Any assistance that may be given this headquarters by construction officers in P.W. & U. S/C will be most highly appreciated since it is believed that having a demonstrative contract to prove the worth of American machinery is very essential at this time.

F. C. GRIFFITH
Highway Equipment Officer

SUBJECT: MMIA Materials and Equipment

TO : Lt. Col. Wm. M. Spann, Chief, Public Wks. Div., P.W. & U. S/C.

1. In accordance with our conversation of September 13 relative to the continuance of the distribution of MMIA materials and equipment, we have disposed of all such materials to contractors and the account from the expense side has been cleared by the contractors with Genio Civile except in one instance. In this instance materials were transported directly to the contractor from Naples to avoid the expense of rehandling in the Contin yard. Inventories are being kept against check tickets issued in Naples and the contractor will be advised of the amount which he must pay the Ministry of Public Works. This final transaction should be completed within 5 or 6 days.

2. Although we have considerable equipment and material remaining in Naples which has been approved for issue to this Headquarters, no further shipments will be made, and it is anticipated that the operation will not be again resumed. This action is in accordance with our agreement of yesterday and the discontinuance is to prevent the disposal of materials over which we have no further control to illegal or undesirable agencies.

15 September 1945

SUBJECT: Release of Excavator for Cassino

TO : Ing. Ferretti, Chief Engineer
Highway Division, Ministry of Public Works

1. Reference your letter of 8 September regarding the release of an excavator to Genio Civile for the contractor E. Cerullo at Cassino. Inasmuch as this office is immediately transferring all the existing transferable plant to the Ministry of Public Works, of which this excavator is a part, it is suggested that this one transaction not confuse the transfer of equipment at this time. After all the equipment has been transferred to Genio Civile, they may then dispose of such equipment, transport, and operate it as they may choose with the authorization of this office. Therefore, no action will be taken on your request until after the first of October. You are requested to refer the matter again to us at that time.

September 10, 1945

SUBJECT : Distribution of various small equipment proveining from MMIA depots.

TO : Consorzio Attrezzature Edili,
Viale Regina Elena -ROME-

FROM : F.O. GRIFFITH, Highway Equipment Officer,
HQ.AC.PW. & U. Sub-Commission.

1. In accordance to your request we have ordered to transfer in the warehouse of Via Ardeatina -Rome-, all the small equipment and materials due to distribution to contractors.

2. In addition to the delivery slips, you will send us at the end of the transfer, a complete list of the stuff actually delivered.

3. It would be very much appreciated if you will inform us of the distribution done when completed in order to be able to give a full report on the subject to our Headquarters.

14 September 1945

SUBJECT: Trucks

TO : Capt. Milani, Florence

1. You will arrange to return to this headquarters the British 3-ton trucks and the British 15 cwt. trucks by the truck drivers who are delivering the 16 American 6 x 6's to the Florence area.

2. Mr. Di Martino will within the next few days report at Florence with two prime movers to remove the asphalt plant which came from 5th Army at Traverna to Rome. I have discussed this matter with Ing. Giunta during his visit in Rome and have informed him that this plant is the property of 5th Army and therefore under present circumstances cannot be transferred permanently to him. Inquiries are being made by this office as to the exact status of this plant for future disposal. It was agreed with Ing. Giunta that Mr. Di Martino would take with him our copies of the memorandum receipts for such plant and that Ing. Giunta would surrender to him the copies which he has in his possession, that signatures will be removed from all copies and Ing. Giunta's copy returned to him for signature. This action also applies to the British trucks which have been signed for on memorandum receipt by Ing. Giunta. The memorandum receipts have not been sent to the Finance Sub-Commission, therefore no monetary involvements have been made. Such memoranda receipts as were issued were issued only as between offices to indicate in our records the location and disposal of plants.

3. While the American 6 x 6 trucks transferred to Florence are the property of the Ministry of Public Works, the Director of the Public Works and Utilities Sub-Commission has indicated to the Ministry that he expects to retain the control of the work accomplished by these trucks as long as the Allied Commission continues in existence. Therefore, you must assume the responsibility for seeing that these vehicles are used on work of military importance. It will be necessary before indicating to Ing. Giunta the contractors or the jobs to which it will be necessary that trucks be assigned, that you contact either PWB, AC Liaison Officer or the Liaison officer between AC and British First District. These officers should be in agreement with you on such issues. Ing. Giunta will handle all operational functions in connection with the operation of these vehicles and must be fully informed of all action taken on all assignments made and must be in full agreement with your office and the liaison officers previous to any allocations.

A.C. PUBLIC WORKS ASPHALT.
Highway Equipment Office.
Florence, Tel. 1525

TO : MR.F.O.GRIFFITH, Highway Equipment Officer
AC.F.W.&.U. ROME.

SUBJECT : Equipment to be loaned.

REF : AD/7/1

DATE : 7 September 1945.

1. Ref. my letter dated 5 Sept. 1945.

2. The Soc. Generale Immobiliare is rebuilding the Victory bridge over the Arno in Florence. This job was not approved on Mil. Highway Fund, but is considered highly important by both 84 C.R.E. and AC. Liaison Officer (Capt. Hodges) : Cement and P.O.L. are supplied directly by AC P.W.&.U.

3. This contractor has requested the shovel crane (Asphalt Plant N° 41) which was idle at Siena, since FALORSI is not usign it any longer and I had not transport available to carry it to Florence. I could arrange that the Ferrovie dello Stato transported it to-day to Florence and the Soc. Gen. Immobiliare will pay for it : that was done since 84 C.R.E.'s transporters were not available until next week.

4. The shovel is urgently needed to clear the river bed under the bridge and to avoid that flood damage the foundations and destroy the centerings.

5. Ing. GIUNTA will not let the contractor use it until he receives particular orders to this purpose from the Ministry of P.W. (Ing. FERRETTI of CROCETTA): he does not think of your orders as sufficient authority to loan this shovel to this contractor.

6. Please, have Ing. FERRETTI wire immediately such order to Ing. GIUNTA, because it is a shame to keep idle equipment, which is requested by Italian and Allied authorities.

OFFICE MEMORANDUM NO. 52

TO: Ing. Pozzo

1. The work that has been in progress in transferring the materials and parts stored at San Paulo for safeguarding to Contin must be completed within the very near future. This will include the mechanical equipment loaned to the transportation company E.T.A.P., and it is essential that this function be completed not later than Thursday this week. Report to me when completed.

2. This warehouse has been asked to submit an inventory for all materials so stored as a check against inventories made at the time of storage. You will please carefully check these two inventories and insist that an accounting be made should there be any shortages.

Ref. H-2

SUBJECT: Highway Maintenance Equipment - Trucks

86

TO : Headquarters, Allied Commission, APO 394
(Attn: Transportation Sub-Commission)

1. Fifty 3 ton lorries, 4x4, classified as repairable vehicles only, are immediately available from British theatre stocks.

2. If these trucks are desired by AC this section will attempt to have them released against item 15 of MCS-180-ENG. Item 15 was assigned as UK supply responsibility, but UK has been unable to make available any of the required 170 dump trucks. In view of this non-availability and the termination of military responsibility for civilian supply there is now no possibility of meeting item 15 of MCS-180-ENG with dump trucks.

3. Dump trucks available from US sources are being offered to AC against the recently authorized 20,000 ton lift. This is explained in our letter H-2 of 5 September, subject: Highway Maintenance Equipment - Dump Trucks.

4. Your attention is drawn to AC request for 50 trucks as item 6 of Allied Commission requisition AC-ENG-4-46 of 1 Aug., on which request this section is unable to take action, and to our letter H-2 of 4 Sept. 1945, subject: Highway Maintenance Equipment.

5. Please advise whether the fifty repairable trucks are desired by the Allied Commission.

SUBJECT: Distribution of Trucks

TO : Ing. Ferretti, Chief Engineer
Highway Section, Ministry of Public Works

1. Your letter of 8 September relative to distribution of trucks for the Ministry of Public Works offices has been received.

2. You are authorized to distribute trucks as follows:

Aquila	12
Forli	3
Grosseto	3
Maverna	3
Potenza	10

This is in accordance with your letter.

3. You will choose these trucks from the motor pool at Contin, advising this office of the plat numbers of such trucks and their distribution by plat numbers to the locations indicated above and to whom the memorandum receipts shall be assigned in each issue.

To Mr. F.C.Griffith
Highway Equipment Officer
HQ.AC.FW & U Sub/Comm.
ROME

Subject: Trucks for the Ministry of Public Works Offices

1.- The Ministery of Public Works asks for some trucks to be released as indicated below for reconstruction works:

Provveditorato	OO.PP.	Aquila	Nr.	12.
"	OO.PP.	Rome	"	24.
Genio Civile.....		Forli	"	3.-
"		Grosseto	"	3.-
"		Ravenna	"	3.-
U.S.V.B.		Potenza	"	10.-
Total.....			Nr.	55.-

2.- Should they all not be available please strike off or reduce number of trucks requested by Rome, Aquila, Potenza.

3.- I point aout the necessity that trucks be revised and made fully efficient beforre releasing them.

4.- For each truck ought to be supplied with:

- a spare wheel possibly with tires
- a jack
- a set of wrenches and screw drivers for truck G.M.C. 6 x 6

5.- You are kindly requested to give full attention to points 3 and 4 as should trucks not be revised and not supplied with necessary tools for their maintenance the efficiency would be from the beginning be reduced of 50 %.

Declassified E.O. 12356 Section 3.3/NND No. 785019

MOC AIRGRAM 109: Cont'd.

	Stock No.	Nomenclature	Unit	Required	Remarks
10.	Fig. 137 in FMS-10 War Dept. Field Manual. Type B.	Shop motorized, general purpose repair, complete with tools, truck mounted, standard 2½ ton, 6x6, including lathe, generator air compressor, etc. self powered, Make and Model Unspecified:	ea.	4	Avail U.S.
11.	78-3295.100-0	Truck, 2½ ton, tank 750-800 gal capacity, Make and Model Unspecified:	ea.	4	Avail U.K.
12.	40-9514.5-0	Welding equipment, electric arc, trailer mounted, complete with tools and accessories, Make and Model Unspecified:	ea.	4	Avail U.S.

AFHQ advise that items 1,2,3,4,8,9,10,12 are immediately available from U.S. Army Theatre Stocks without replacement and British equivalent of items 1,2,5,8,9,11 are immediately available from British Army theatre stocks without replacement.

Authority is requested:

a. For transfer of the U.S. Army equipment listed as immediately available in the theatre to Foreign Economic Administration for sale to the Italian Government.

b. For sale of the British Army equipment listed as being immediately available to the Italian Government through the appropriate British agency.

c. For sale to the Italian Government the balance of the items listed as they become available from either British or United States Army Theatre Stocks. It is not proposed to requisition any of this equipment for import into Italy.

Please advise the quantity of each item in para a and b that may be transferred to the Italian Government.

Allied Military forces have been maintaining main and subsidiary highways throughout Italy in order to keep the highways in condition to carry military and essential civilian traffic.

AFHQ have advised that it is imperative that military service units be relieved of this function as soon as practicable and have also stated that it is essential that highway maintenance be not permitted to fall below a level sufficient to support British and U.S. redeployment.

It is also necessary that withdrawal of military maintenance unit will not interrupt the internal distribution of essential civilian supplies. Much of the automotive stock available for movement of civil supplies is in poor condition and failure to maintain the road network in reasonable condition will result in rapidly increasing rate of deterioration which will further jeopardize the movement of essential civilian supplies.

Declassified E.O. 12356 Section 3.3/NND No. 785019

11.	70-3295.10-3	gal capacity, Make and Model Unspecified:	ea.	4
12.	40-9514.3-3	Welding equipment, electric arc, trailer mounted, complete with tools and accessories, Make and Model Unspecified:	ea.	4

Avail U.S.

AFHQ advise that items 1,2,3,4,8,9,10,12 are immediately available from U.S. Army Theatre Stocks without replacement and British equivalent of items 1,2,3,8,9,11 are immediately available from British Army theatre stocks without replacement.

Authority is requested:

a. For transfer of the U.S. Army equipment listed as immediately available in the theatre to Foreign Economic Administration for sale to the Italian Government.

b. For sale of the British Army equipment listed as being immediately available to the Italian Government through the appropriate British agency.

c. For sale to the Italian Government the balance of the items listed as they become available from either British or United States Army Theatre Stocks. It is not proposed to requisition any of this equipment for import into Italy.

Please advise the quantity of each item in para a and b that may be transferred to the Italian Government.

Allied Military forces have been maintaining main and subsidiary highways throughout Italy in order to keep the highways in condition to carry military and essential civilian traffic.

AFHQ have advised that it is imperative that military service units be relieved of this function as soon as practicable and have also stated that it is essential that highway maintenance be not permitted to fall below a level sufficient to support British and U.S. redeployment.

It is also necessary that withdrawal of military maintenance unit will not interrupt the internal distribution of essential civilian supplies. Much of the automotive stock available for movement of civil supplies is in poor condition and failure to maintain the road network in reasonable condition will result in rapidly increasing rate of deterioration which will further jeopardize the movement of essential civilian supplies.

Ruined railways and lack of adequate deep water ports have placed great reliance on the highway system which itself has been badly worn and damaged.

With the termination of military responsibility for civilian supply it is desired that the Italian Government assume full responsibility for highway maintenance, and thus for internal civilian supply distribution which is dependent on the highway system. This can only be accomplished by transfer of the necessary equipment to the Italian Government.

SUBJECT: Highway Maintenance Equipment - Dump Trucks

TO : Headquarters, Allied Commission, APO 394
(Attn: Economic Section)

1. This is further to our letter H-2 of 4 Sept and refers to requisition AC-ENG-4-46 of 1 Aug.

2. There are at present 25 trucks, 2½ ton 6 x 6, dump, in Class C2 condition in U.S. depot stocks. These can be released immediately. The remainder of the 300 requested in AC-ENG-4-41 can be made available between 15 September and 15 October by withdrawal from US Army units at present operating in the theater.

3. No special allocations will be requested for the sale of these 300 dump trucks to the Italian Government, but if so desired this Section will request that they be transferred as a part of the 20,000 ton roadworthy lift now being released from US theater stocks.

4. Request you advise as to whether these vehicles are desired for release as a portion of the allocation of a 20,000 ton roadworthy lift.

SUBJECT: Highway Maintenance Equipment
Requisition AC-Eng-4-46

TO : Headquarters, Allied Commission, APO 394.
(Attn: Economic Section).
Copies to: Public Works & Utilities Sub-Comm w/o Incls.
Tpn Sub-Comm w/o Incls.

1. Phone conversation Lt. Col Carson/Lt. Col. Quartier refers.

2. It is suggested that the attached draft be dispatched as a MOC Airgram in order to secure authority for the transfer of Allied Military highway maintenance to the Italian Government.

3. Due to the termination of military responsibility for supply the requisition cannot be submitted by this headquarters. However, as soon as the MOC Airgram is dispatched we will comment favorably to CCAC by signal.

4. All trucks, except tank trucks, have been eliminated from the requirement because available trucks will be transferred to AC under the 20,000 ton lift recently approved.

5. Also attached is a list of British Army equipment on loan to Genio Civile contractors in No. 3 District.

6. Continued use of this equipment may be considered necessary to enable the Italian Government to assume responsibility for highway maintenance. If so, you are authorized to include appropriate items in the Airgram with the statement that they are actually in use on highway maintenance on a loan basis from the British Army, and are available for permanent transfer to the Italian Government.

7. It should be noted in connection with this list that it is expected that the Italian Government will assume responsibility for quarrying of stone for highway repair. 720

8. It is requested that the MOC Airgram be dispatched as quickly as possible.

For the Assistant Chief of Staff, G-5:

Incls: (1) Draft MOC Airgram.

Subject: Return of Equipment.

To : Lt. Col. Spann
Chief, Public Works Division.

1. The attached receipt and correspondence concerns 4 Road Graders received from P.B.S. E250 Naples and 2 Asphalt Kettles the property Highway Equipment Office AC.HQ.

2. Graders N°'s W.843379 and W.843324 were loaned to the 1898 ENGR Avn Bn. receipt attached. These 2 Graders have been handed into E 250 Depot Naples and have been Requisitioned by Capt. Roy of the 1898 ENGR AVN BN. Lt.Stooke of the E 250 Depot handled the receipt of this equipment.

3. The other 2 Graders are in Foggia with Lt. English 21 ENGR AVN BN, who will turn the Graders into E 250 depot forthwith. Lt. English has been asked to notify both the ENGR Supply Officer AFHQ and AC HQ., when this hand in has been completed.

4. The 2 Asphalt Kettles are being attended to by Mr. Townsend AC Naples. One of the Kettles has been handed into E 250 depot and the other is in the hands of Capt. Roy 1898 ENG AVN BN.

E. DELANEY
Major U.D.F.
Public Works Officer.

TWENTY FIRST ENGINEER AVIATION REGIMENT
APO 528

P.W. & O. Sec. AG
12 AUG 1945 202

CFL/ewf
14 August, 1945

SUBJECT: Disposition of Motorized Graders.

TO: Allied Commission, Public Works and Utilities Section, Naples, Italy. ATTENTION: Mr. Townsend.

1. Subject equipment was placed in the area in which road construction was being supervised by this regiment in the early part of the current year. The graders were Caterpillar, diesel engine driven, Model 12, U. S. A. registration numbers W-843388 and W-843385.

2. In accordance with current directives applicable to this organization, they have left for Naples to be turned in to Depot E-250 for credit.

3. Request reply by indorsement hereon stating any further information that may be required by your headquarters. A negative statement, if applicable, is requested.

4. Further request the matter be expedited while this organization is still in a position to expeditiously assist in any clarification required. Action by this regiment was initiated by letter, this headquarters, subject: Transfer of Engineer Equipment, dated 26 June 1945.

Office Memorandum No. 50

TO: Lowell Frampton, Field Asst.
Highway Equipment Section, P.W. & U. S/C

DATE: 21 August 1945

1. You will take the necessary steps to discontinue the motor pool at Naples immediately.

2. All vehicles in the Naples area, regardless of the nature of work they are engaged in, will be despatched at once into the Naples-Rome MMIA run. This will not include the two British vehicles transferred to Mr. Townsend.

3. The Motor Pool will no longer operate; using instead the parking area at Mr. Browning's lot. No repairs will any longer be made in Naples and any mechanics so engaged there will be returned to Rome immediately. Trucks requiring repairs will be towed to Rome for such attention.

4. The Despatcher furnished by the Contractor Stem will be informed his service is no longer required. Ing. Argentiere will be placed in charge at Naples of scheduling and seeing that loaded trucks are properly despatched to Rome and will remain in Naples until this detail is completed.

5. Col. Spann reports that a truck load of mechanics, in a 6 x 6 truck, were riding about Naples and he was told they had no tools with which they could work. This presumably is the group from Genio Civile who are supposed to condition the trucks still due for delivery to the Ministry of Public Works. Check into this and advise, but in any event take transportation away from them.

6. Col. Spann also reports two jeeps idle in Naples, which can only be those of Argentiere and Pagano. Pagano was not authorized to take a jeep to Naples. Check this and report. If Pagano is in Naples with an unauthorized jeep, send him back to Rome at once and he will be discharged.

TWENTY FIRST ENGINEER AVIATION REGIMENT
APO 528

CFL/ewf
14 August, 1945

SUBJECT: Disposition of Motorized Graders.

TO: Allied Commission, Public Works and Utilities Section, Naples, Italy. ATTENTION: Mr. Townsend.

1. Subject equipment was placed in the area in which road construction was being supervised by this regiment in the early part of the current year. The graders were Caterpillar, diesel engine driven, Model 12, U. S. A. registration numbers W-843360 and W-843385.

2. In accordance with current directives applicable to this organization, they have left for Naples to be turned in to Depot B-250 for credit.

3. Request reply by indorsement hereon stating any further information that may be required by your headquarters. A negative statement, if applicable, is requested.

4. Further request the matter be expedited while this organization is still in a position to expeditiously assist in any clarification required. Action by this regiment was initiated by letter, this headquarters, subject: Transfer of Engineer Equipment, dated 26 June 1945.

A.C. PUBLIC WORKS
HIGHWAY EQUIPMENT

TO : Ing. GIUNTA, Chief Engineer, USVS, Florence, Technical Office.

FROM : The HIGHWAY EQUIPMENT OFFICER, HQ.AC.PW. & U. SUB/COMM.

SUBJECT: Plant Operations

REF : AD/7/36

DATE : 10 August 1945

60

1. This office has recently received copies of correspondence relative to the operation of the U.S.V.S. Military quarry at Montecatini, and in which the Military Authorities recommend consideration for the quarry owner Signor Dami.

2. This office has instituted an investigation and it is found the most feasible plan would be to permit Signor Dami to operate the Public Works and Utilities plant on a contract basis. This plan also best suits the Military Authorities requirements.

3. Therefore, please make the necessary arrangements to operate the Montecatini quarry by contract to the owner as quickly as possible so it may be operated without the existing friction and concern of the Military Authorities.

SUBJECT : Equipment operations.

REF : AD/7/39

DATE : 10 August 1945

59

1. Herewith are copies of the offers submitted by Contractors in Rome for service, repair and maintenance of P.W. & U. Sub/Comm. equipment in this Area. Contracts were let on these offers and are at present in force and effect.

2. It is imperative that equipment in your possession be properly serviced and maintained and it was for this purpose that operational funds were approved by this HQ. A check in your area indicates that no attention is being given to this very important operation.

3. You will please make the necessary arrangements, preferably by contract, for the maintenance and service of the equipment issued you by this HQ., immediately. This function is the responsibility of your department and must not be neglected . It is recommended that a contract be granted, on such terms as are agreable to all concerned, to Guerrino Bucci & Co. in Florence, who are equipped and ready to commence operations and enable you to operate your equipment in a manner conducive to better results.

TO : Ing. Crocetta, Chief Technical Section, Min. of Public Works.

FROM : The Highway Equipment Officer, H.Q.A.C.P.W. & U S/C.

SUBJECT : Tire and Battery Issues (Civilian)

REF : AD/15/5

DATE : 13 August 1945

1. Requests have been made on several occasions for lists of tire and battery requirements of Genio Civile, USVE, and Contractor Agencies. No reply has ever been received.

2. It seems to me that with the great existing need for both tires and batteries that your Min. is much less concerned than conditions toward the rehabilitation of Italy warrant.

3. This office has made arrangements whereby both tires and batteries may be requisitioned and supplied us for distribution. To requisition however it is necessary that requests originate in your organization and that the names of owners, name of motor vehicles, serial and operating permit numbers be listed with such requests.

4. It is imperative that such requests reach this office as quickly as possible.

Ref. H-2

9 August 1945

SUBJECT: Highway Maintenance Equipment - Requisition AC-ENG-4-46

TO : Headquarters, Allied Commission, APO 394
(Attn: Economic Section - Supply Division)

Reference your RB 400/168 of 2 Aug.

1. Due to the proposed date of termination of military supply responsibility of 1 September as put forward to CCS in MAT 830, it is not intended to attempt to supply any of these items from any source other than existing theater stocks. Accordingly, services this headquarters are being requested to check the items on subject requisition against existing theater stocks and to make every effort to furnish required items.

2. Reference MGS-180-ENG, we are still awaiting a reply to our H-2 of 7 July. There is very little indication that the 170 dump trucks approved for issue on this requisition can be furnished. There is a possibility, however, that equivalent tonnage of normal cargo body trucks can be allotted against this and the requirement of 300 on requisition AC-ENG-4-46.

3. Petroleum Section AFHQ advises that they see no difficulty in the supply of bitumen for normal requirements after the period of military responsibility ends, provided the bids for P.O.L. requirement are put up by the A.C. and screened by their Petroleum Section.

2 August 45

SUBJECT: Highway Maintenance Equipment - Requisition No. AC-283-4-46.

TO: Allied Force Headquarters
G-5 Section
Attn: Major R. G. Carson, 830

1. Attached is requisition for sixteen items of highway equipment for use by the Italian Ministry of Public Works in reconstruction and maintenance of highways of Military importance throughout Italy.

2. Subject requisition has been initiated as a result of agreements reached at a conference in the Headquarters of the Public Works and Utilities Sub-Commission on 15 June 1945 and attended by representatives of Engineer Section, P&U, Engineer Section, AFHQ, Director of Works, AFHQ, G-4 Section, AFHQ and G-5 Section, AFHQ. The purpose of the conference was to determine the possibility of making the maintenance and repair of all highways as designated by the Military an all-Italian responsibility.

3. It was agreed that within a maximum period of five months from the date of the conference the Works Services, RE., and Engineer Section, P&U, could be relieved of all responsibility for road maintenance provided that the following conditions were fulfilled:

(a) That adequate supplies of bitumen be made available to the Ministry of Public Works.

(b) That Requisitions No. MIS-180-[illegible] for machinery and transport be filled in its entirety and a supplementary requisition filled covering items required to take care of added territory and changed conditions since the initiation of the original requisition.

(c) That an adequate stock of spare parts be made available for all equipment and transport.

4. The attached requisition represents the items required to supplement machinery received on Requisition No. MIS-180-[illegible]. Indications are that these items can be made available by transfer from Theatre stocks.

5. Machinery included on this requisition should be made available with the minimum of delay in order that the Italian organization may be properly expanded and trained in operation and maintenance.

6. The need for this equipment is urgent if responsibility for road maintenance is to be assumed by the Italian Government, and nonavailability of the items will be reflected in ineffective and unsatisfactory results.

ED/rlv

202/PWU

2 August 1945

Subject: Return of Equipment.

To : Lt. Col. Spann
Chief, Public Works Division.

1. The attached receipt and correspondence concerns 4 Road Graders received from P.B.S. E250 Naples and 2 Asphalt Kettles the property Highway Equipment Office AC.HQ.

2. Graders N°'s W.843379 and W.843324 were loaned to the 1898 ENGR Avn Bn. receipt attached. These 2 Graders have been handed into E 250 Depot Naples and have been Requisitioned by Capt. Roy of the 1898 ENGR AVN BN. Lt.Stooke of the E 250 Depot handled the receipt of this equipment.

3. The other 2 Graders are in Foggia with Lt. English 21 ENGR AVN BN, who will turn the Graders into E 250 depot forthwith. Lt. English has been asked to notify both the ENGR Supply Officer AFHQ and AC HQ., when this hand in has been completed.

4. The 2 Asphalt Kettles are being attended to by Mr. Townsend AC Naples. One of the Kettles has been handed into E 250 depot and the other is in the hands of Capt. Roy 1898 ENG AVN BN.

A.C. PUBLIC WORKS
HIGHWAY EQUIPMENT

TO: Ing. CROCETTA Giuseppe, Chief Engineer - Genio Civile - Roma.
FROM: The Highway Equipment Officer - HQ A.C.P.W. & U. Sub/Comm.
SUBJECT: Availability of funds.
DATE: August 3 - 1945.
REF: AD/2/38

1. This Office has been informed that funds approved in the last appropriation for the program of this office, have been not yet made available.

2. Lack of such funds is seriously interfering with the important operations at a most critical period when we are in process of receiving a large number of trucks and other machinery. Servicing of vehicles mentioned which this Office had previously indicated could be done with rapidity, has now almost been stopped for lack of funds.

3. Since the appropriation was approved sometimes ago to become effective as of the 1st July it is difficult to understand the long delay which has been required to make the actual cash available. Immediate availability to meet current needs must be estabilished.

4. Please take this matter up with proper authorities and furnish this office with a complete report by to-night so that action may be taken if necessary.

For the Highway Equipment Officer

TRADUZIONE

1. Questo ufficio è stato informato che i fondi approvati per l'ultima assegnazione per lo svolgimento del nostro programma, non sono ancora stati messi a disposizione.

2. La mancata consegna di tali fondi pregiudica seriamente lo svolgimento del nostro programma nel periodo più critico mentre stiamo in procinto di ritirare un grande quantitativo di autocarri e macchinari. La messa a punto dei veicoli suddetti, che questo Ufficio aveva tempestivamente segnalato e che poteva essere stata fatta con rapidità, è stata quasi arrestata ora, per mancanza di fondi.

3. Poichè lo stanziamento venne approvato tempo fa con effetto dal 1 Luglio, non comprendiamo il lungo ritardo per mettere a disposizione detti fondi. Per fare fronte ai nostri bisogni, è necessario che ci venga messo immediatamente a disposizione quanto richiesto.

4. Vogliate trattare tale argomento con le autorità competenti e fornire a questo ufficio relazione entro oggi perchè si possano prendere quelle eventuali misure che si renderanno necessarie.

ROMA, 1 AGOSTO 1945
VIA TORINO, 107 - CASELLA POSTALE 1081

OGGETTO:- Materiale e macchinario stradale di provenienza alleata -

1. Gli Uffici di questo Istituto, in base alle Notification Notes inviate dalla A.C.H.Q. Economic Section, Requisition Branch, hanno preso in consegna, rilasciando regolari Receiving Reports, tutte le partite di materiale e macchinario stradale finora arrivate nei diversi porti italiani dai Paesi Alleati.
2. Detto materiale, conformemente alle istruzioni della C.A. é stato successivamente spedito all'indirizzo del Ministero Lavori Pubblici, Genio Civile, Roma o Firenze.
3. In effetti però lo stesso veniva ritirato e utilizzato da codesta Sottocommissione, che si é riservata la facoltà di assegnarlo in un secondo tempo agli Uffici italiani del Genio Civile e soltanto per quella parte ritenuta necessaria.
4. In rapporto a tale situazione, affinché l'I.C.E. possa regolarizzare la posizione contabile di detto materiale nei confronti della Finance s/c, si prega codesta Sottocommissione di voler rimettere a questo Istituto per ogni partita di materiale o macchinario stradale ritirato un Receiving Report (of credit) debitamente firmato, in doppio esemplare, e ciò conformemente alle disposizioni contenute nell'Accounting Memorandum diramato dalla Finance s/c in data 27 marzo 1945 (art. 5, lettera g).
5. Inoltre codesta Sottocommissione é pregata di voler far tenere all'I.C.E. copia dei buoni di assegnazione di detto materiale a favore

Subject : Road material and machinery from Allied sources.

1. The Offices of this Institute, in accordance with Notification Notes sent by HQ. AC, Economic Section, have taken delivery of all shipments of road material and machinery so far arrived from Allied Countries to the various Italian ports. Regular receiving reports were issued by the Institute.

2. Above mentioned material, in compliance with AC's instructions, has been subsequently shipped to the Ministry of Public Works, Genio Civile, at Rome or Florence.

3. In fact, said material has been collected and utilized by your Sub-Commission pending further allocation to Italian Genio Civile Offices of the part deemed necessary.

4. In connection with this situation, in order that I.C.E. may straighten accounting situation of said material with Finance S/C, we beg your Sub-Commission to kindly forward to this Institute, for each shipment of road material or machinery collected a Receiving Report (of credit) duly signed in duplicate, in compliance with the procedure laid down by Accounting Memorandum, Finance Sub-Commission, dated 27 March 1945, Art. 5, para g)

5. Also, will you please send us copy of notes of allocation of said material to the Italian Offices of Genio Civile so far issued by your Sub-Commission, in which it is stated that financial settlement will be carried out through this Institute. Similar documents may please be forwarded in respect of all future allocations, so that I.C.E. may request payment.

OGGETTO: Rapporto di sbarco S/S "AVRISTAN"

Con il "Direct Import Receiving Report" il ns. ufficio di Bari ha ricevuto dal S/S "AVRISTAN" le merci descritte sul documento, che ad ogni buon conto si trasmette in copia.

Le merci, di cui sopra, sono state subito rispedite a mezzo ferrovia all'indirizzo del Genio Civile - Roma (Staz. Trastevere). Ci risulta però che in effetti lo svincolo ed il ritiro del materiale è stato effettuato da codesta Sottocommissione, che si riserva di decidere in un secondo tempo circa la loro definitiva destinazione.

Onde procedere alla sistemazione contabile di detto materiale sui confronti della Finance S/C Vi preghiamo di volerci rimettere un Receiving Report (of Credit) e ciò conformemente a quanto disposto nella circolare N. 13657/F/A del 27 Marzo u.s., diramata dalla HQ.AC. Finance s/c.

A suo tempo quando il macchinario sarà stato assegnato vorrete inviarci copia dell'ordine di assegnazione.

HEADQUARTERS ALLIED COMMISSION
APO 394
Public Works and Utilities Sub-Commission

Ref: 202/PWU

28 July 1945

Subject: Highway Maintenance Equipment.

43

To : Allied Force Headquarters,
Attn: G-5 Section.

1. Attached is requisition for eleven items of highway equipment for use by the Italian Ministry of Public Works in reconstruction and maintenance of highways of Military importance throughout Italy.

2. Subject requisition has been initiated as a result of agreements reached at a conference in the Headquarters of this Sub-Commission on 15 June 1945 and attended by representatives of Engineer Section, P.B.S., Engineer Section, A.F.H.Q., Director of Works A.F.H.Q., G-4 Section A.F.H.Q., and G-5 Section A.F.H.Q.. The purpose of the Conference was to determine the possibility of making the maintenance and repair of all highways as designated by the Military an all Italian responsibility.

3. It was aggred that within a maximum period of five months from the date of the conference the Works Services, R.E., and Engineer Section, P.B.S., could be relieved of all responsibility for road maintenance provided that the following conditions were fulfilled:

(a) That adequate supplies of bitumen be made available to the Ministry of Public Works.

(b) That Requisitions No. MGS-180-ENG., for machinery and transport be filled in its entirety and a supplementary requisition filled covering items required to take care of added territory and changed conditions since the initiation of the original requisition.

7106

Declassified E.O. 12356 Section 3.3/NND No. 785019

(c) That an dequate stock of spare parts be made available for all equipment and transport.

4. The attached requisition represents the items required to supplement machinery received on Requisition No. MGS-180-ENG. Indications are that these items can be made available by transfer from Theatre stocks.

5. Machinery included on this requisition should be made available with the minimum of delay in order that the Italian Organization may be properly expanded and trained in operation and maintenance.

6. The need for this equipment is urgent if, responsibility for road maintenance is to be assumed by the Italian Government and non availability of the items will be reflected in ineffective and unsatisfactory results.

For the Chief Commissioner:

E.J. RISTEDT
Colonel, C.E.
Director.

ALLIED COMMISSION
HEADQUARTERS
APO E94

202

TO : The Director, Transportation Sub-Commission HQ.AC. (Through, The Director, Public Works and Utilities Sub-Commission; HQ.AC.)
SUBJECT : Equipment (Trucks)
REF : AD/6/30
DATE : 26 June 1945.

1. Reference conversation between the Director, Transportation Sub-Commission, and the Highway Equipment Officer, 22 June 1945, relative to issue of trucks in conjunction with the highway equipment distribution program of the Public Works and Utilities Sub-Commission.

2. Request is hereby made for issue to this Headquarters of four hundred and seventy-five trucks. Dump trucks not being available, we should have four hundred cargo trucks, with box beds suitable for the transportation of crushed stone, premixed asphalt and other bulk materials, and seventy-five heavy duty, stake bed, general cargo trucks.

3. This figure, four hundred, seventy five, is based on the number mentioned in our discussion as probably being at present available but does not represent the number we could reasonably use to satisfy the existing rehabilitation-reconstruction program of this Headquarters. Two thousand trucks could at this time be utilized and eventual requirements may be estimated at probably five thousand.

This may be seen in the following:

a) Four thousand tons of highway and construction equipment has been and is being distributed to the Italian Ministry of Public Works. This consists of heavy equipment, as twenty-five ton per hour crushers and premix plants, concrete mixers, rollers, motorized graders, compressors, shovels; a total of six hundred fourteen pieces. Much of it is in operation in quarries and on public works projects throughout Italy. Many are projects of Military importance and will remain in that category for an indefinate period.

b) Eleven thousand, two hundred-eighty tons of equipment has

:/

0 2 2 11

Declassified E.O. 12356 Section 3.3/NND No. 785019

been requested by Contractors through Military channels and it is believed, except for mobile or transportation vehicles, will be made available in the near future. This tonnage includes two thousand dump trucks, two thousand cargo trucks, one hundred water trucks, and three hundred light utility trucks and is conservative since it represents a figure supplied from representation of over three thousand contractors. Also included is ten thousand tires and tubes which would mobilize between two and three thousand inactive civilian trucks.

c) Trucks and other transport equipment in the past has been supplied by Military organizations. This assistance only applied to works of a Military nature and did not cover reconstruction from the angle of rehabilitation for civilians.

4. Transportation from Military sources has been and is being rapidly withdrawn. This will result in the discontinuance of operations of any magnitude or importance on exsting projects. Thousands of Italian personnel will be out of employment. The purpose of our program of distributing equipment for the reconstruction of Italian public works will have failed. Existing and planned Military reconstruction requirements cannot be met.

5. It is understood the Transportation Sub-Commission will not be responsible for the maintenance of vehicles issued. The trucks requested are for issue to Italian Government Agencies and Contractors, under the direction of this Headquarters and the Ministry of Public Works. A maintenance organization, under contract and by hired labor methods, having at present three stations in operation and seven more being organized, has been established by the Ministry of Public Works. It is in operation and functioning satisfactorilly under instructional supervision by Italian technicians trained by this Headquarters.

6. The Highway Equipment Section will accept delivery at ports of entry, relieving the Transportation Sub-Commission of that detail if it is so desired.

Respectfully

F.O. GRIFFITH

1. About 9 April 1945, this organization received two graders, road, motorized, 12' mold board, USA Registration Number W-843379 and W-843324. These graders are being held at request of Major Hasie of your office, to be used on repair of roads in this area.

2. In view of possible re-deployment of this unit, it is requested that we be informed of what disposition to make of above pieces of equipment. If we are to turn these graders in to the Engineer Supply Office it is requested that a shipping ticket for the grader be sent along with return letter, shipping the graders to us and we will accomplish necessary papers and perform the turn-in.

Pregiata Vostra 6 corr. Nº 15083

Abbiamo preso nota del suo contenuto, sul quale ci dichiariamo di accordo, salvo a stabilire con Voi le eventuali provvigioni a favore della nostra società per le prestazioni eseguite e da eseguirsi in prosieguo.

Dei 7 vagoni arrivati allo Scalo Prenestino, per le ragioni espostevi verbalmente e che Voi avete approvate, una parte soltanto della merce è stata scaricata e portata nei nostri magazzini, come appare dalla nota qui allegata.

Le spese incontrate per l'esecuzione di tale incarico sono le seguenti:

- autotreno, impegnato per tutta la giornata	L.30.000,==
- facchinaggio in stazione e in magazzino	" 6.000,==
- svincolo allo Scalo Prenestino e spese accessorie pagate alla presenza dei Vostri funzionari	" 72.933,==
Totale	L.108.933,==

con riserva di fare seguire nota della spesa di magazzinaggio, quando sarà determinato il periodo di permanenza delle merci stesse nei nostri magazzini.

Pregiata Vostra 13 corr. - Nº 15859

Ci è regolarmente pervenuta, ma subito dopo ci avete trasmesso telefonicamente a mezzo del Dr. Borgianni, Vostro funzionario, la disposizione di sospendere la spedizione e di mettere la merce a favore del Comando Alleato di qui; sulla base di tale ordine abbiamo fatto accompagnare sabato pomeriggio il Maggiore incaricato del ritiro allo Scalo Prenestino ed abbiamo fatto comunicare al Capo Stazione tale destinazione.

Prendiamo pertanto scarico al riguardo di ogni incarico circa la merce rimasta in stazione.

- facchinaggio in stazione e in magazzino	" 6.000,==
- svincolo allo Scalo Prenestino e spese accessorie pagate alla presenza dei Vostri funzionari	" 72.933,==
Totale	L.108.933,==

con riserva di fare seguire nota della spesa di magazzinaggio, quando sarà determinato il periodo di permanenza delle merci stesse nei nostri magazzini.

Pregiata Vostra 13 corr. - N° 15859

Ci è regolarmente pervenuta, ma subito dopo ci avete trasmesso telefonicamente a mezzo del Dr. Borgianni, Vostro funzionario, la disposizione di sospendere la spedizione e di mettere la merce a favore del Comando Alleato di qui; sulla base di tale ordine abbiamo fatto accompagnare sabato pomeriggio il Maggiore incaricato del ritiro allo Scalo Prenestino ed abbiamo fatto comunicare al Capo Stazione tale destinazione.

Prendiamo pertanto scarico al riguardo di ogni incarico circa la merce rimasta in stazione.

Vogliate gradire i nostri distinti saluti.

UN AMMINISTRATORE DELEGATO

TRANSPORTATION SUB-COMMISSION

CF/op

Ref: AC/54/28/Tn5

13 July 1945.

My dear Doctor La Malfa:

I refer to my letter AC/54/22/Tn5 dated 10 July 1945, on the subject of transferring 40 jeeps and 70 motorcycles to the Italian State Railway. We have now received requests for jeeps and motorcycles from ENAC and from the Ministry of Public Works. The total requirements for the 3 organizations may be summarized as follows:

		Jeeps	Motorcycles
I.S.R.	--	40	70
ENAC	--	110	110
Ministry of Public Works	--	25	200
TOTAL		175	380

Only 200 motorcycles are available for transfer and I have been instructed by the Director to allot 70 to the I.S.R., 65 to ENAC and 65 to the Ministry of Public Works. We have in addition, a 6 months scale of spare parts for the 200 motorcycles which it is proposed that you shall take over in boxes and distribute to ENAC, I.S.R. and the Ministry of Public Works.

At the present time, 30 jeeps only are available against the demand for 175. I am directed to allot 10 each to I.S.R., ENAC and the Ministry of Public Works. It is hoped that we shall be able to provide the balance required by the middle of August.

I shall be grateful if you will agree to accept delivery of the 200 motorcycles and spare parts and the 30 jeeps on behalf of I.S.R., ENAC and the Ministry of Public Works. I shall be glad, also, if you will nominate your representative who will be authorized to sign shipping tickets for all vehicles on physical handover.

Upon receipt of your agreement the vehicles will be made available for collection in Rome. One hundred (100) motorcycles and spare parts for 200 are immediately available. The remaining 100 motorcycles and the 30 jeeps will be ready for delivery about 20 July.

I suggest that your representative should contact Captain Peterson of the Roads Division (tele. no. 489031, Ext. 407) to agree dates and location

0263

Declassified E.O. 12356 Section 3.3/NND No. 785019

of collection. We will arrange for the Ministry of Public Works to collect vehicles allotted to them after handover to your representative.

A charge will be drawn against the Italian Government for all vehicles transferred on the same basis as for the current transfer of trucks.

Very truly yours,

G. Fernyhough

Subject: Request for Trucks.

To : Transportation Sub-Commission.
(Att: Lt.Col. Fernyhough.)

Reference your AC/54/18/Tn5 dated 3 July 1945.

1. This is to advise that the arrangement s outlined for the handling over of 158 "War Weary" 2½ ton, 6x6 trucks to the Ministry of Public Works through the Ministry of Transportation are acceptable to the Ministry of Public Works.

2. The Ministry is prepared to send a properly authorized representative to the points of collection when further advice is received from you.

SUBJECT: Request for Trucks.

TO : Public Works and Utilities Sub-Commission.

1. Reference your 078/3/PWU dated 28 June 1945, and conversation (Col. Ristedt - Lt. Col. Fernyhough) of 1 July 1945.

2. It has been found that we are unable to make available 200 trucks as discussed, but 158 "war weary" 2½, 6x6 trucks will be sold by this Sub-Commission to the Italian Government for allocation to the Ministry of Public Works. It is intended that the vehicles shall be handed over to the Ministry of Transport, through whom all sales to the Government are conducted. The Ministry of Transport will then arrange transfer to the Ministry of Public Works.

3. Forty-two (42) of the vehicles to be handed over are presently located at Civitavecchia, and a further 116 at Aversa, near Naples. On confirmation in writing from the Minister of Transport that he is prepared to accept delivery of the vehicles, we propose that a representative of the Ministry of Public Works shall visit both Civitavecchia and Aversa, with a representative of this Sub-Commission, to conduct a physical take-over of the vehicles and to sign for them on memorandum receipt. At a later date the Ministry of Public Works will be requested to sign priced shipping tickets upon which a subsequent charge will be drawn against the Italian Government. It is also desired that the Ministry of Public Works shall provide drivers for the collection of vehicles from the above mentioned points.

4. Will you please confirm that the above arrangements are acceptable to the Ministry of Public Works before we approach the Ministry of Transport?

5. Regarding spare parts for these vehicles, A.F.H.Q. have agreed to release a 60 day scale from the theatre stocks. When these are received it is proposed to hand them over to the Ministry on the same basis as the trucks.

ROMA, 10 luglio 1945

OGGETTO: Nº 7 Vagoni macchinari usati e rottami.

Dal nostro Ufficio di Napoli, per disposizione di quelle autorità alleate sono stati spediti a questa sede n. 7 vagoni contenenti macchinari vari usati e rottami.

Prima di effettuare lo svincolo alla stazione di arrivo (Prenestina) l'ICE, preso contatto con la Public Works & Utilities S/C nella persona del Magg. Morsella, ricevette assicurazione che detto materiale non interessava la Commissione Alleata od i suoi uffici dipendenti.

In rapporto a ciò questo Istituto affidava l'incarico dello svincolo e ritiro dei materiali suddetti alla Soc. Industriale Utilizzazione Recuperi - Roma (Via Ripetta 252), riservandosi di disporre della merce secondo le istruzioni del competente Ministero Industria Commercio e Lavoro. Detta Società nel procedere allo svincolo dei vagoni veniva a conoscenza che in data 7 luglio a.c. l'Highway Equipment P.W.A.C. aveva proceduto al ritiro di 15 colli di detto materiale da uno dei vagoni in questione. Risultava infatti che, contrariamente alle assicurazioni date a questo Istituto l'Ufficio summenzionato era stato incaricato ad effettuare il ritiro del materiale.

Dato l'impegno assunto dall'ICE con la Società sopra indicata, che per le operazioni di svincolo ha già effettuato un esborso notevole di diverse decine di migliaia di lire oltre ad altre spese per lo scarico, carico e trasporto del materiale stesso, questo Istituto si trova nelle condizioni di non poter recedere dall'incarico affidato a detta Società e pertanto ha autorizzato la stessa a continuare nelle operazioni sia del ritiro dei macchinari usati, e dei rottami che della loro successiva utilizzazione. ./.

In relazione a quanto sopra esposto codesto Ufficio è pertanto pregato di chiarire se intende trattenere per sè il materiale già ritirato, caso contrario vorrà compiacersi mettere lo stesso a disposizione di questo Istituto per la consegna alla suddetta Società.

Con l'occasione si prega codesta Commissione di voler comunicare il prezzo di addebito al Governo Italiano del materiale in questione.

NATIONAL INSTITUTE FOR FOREIGN TRADE (I.C.E.)

Reference : 15511 10 July 1945

Subject : No. 7 waggonloads of old machinery and scraps.

Seven waggons loaded with miscellaneous old machinery and scraps have been shipped by our office in Naples to this Head Office by order of the Allied Authorities.

Before collecting said material from Prenestina Station, the I.C.E. contacted Public Works and Utilities Sub-Commission trough Major Morsella, and was told that the material was of no interest for the Allied Commission or its subordinate Offices.

In connection with this statement, this Institute entrusted collection of a/m material to Societa Industriale Utilizzazione Recuperi - Rome (Via Ripetta 252), pending instructions from the Ministry of Industry, Commerce and Labor as to utilization of goods. Aforesaid Company, when taking delivery of the waggons, was informed that on 7 July the Highway Equipment PW, AC, had collected 15 crates of said materials from one of the waggons. It was in fact understood that the Highway Equipment had been entrusted with collection of materials.

Considering that the ICE is now engeged with a/m Company, which has already paid a considerable sum for release of waggons, plus other expenses for loading, unloading and transporting same material, this Institute is not in a position to cancel its engagement with said Firm, and we have therefore authorized them to continue collection of machinery and scraps, and their utilization.

In connection with the above, we beg you to make clear wether you want to keep the material already collected. If not, will you please make the material available to this Institute for delivery to a/m Company.

Will you also please inform us as to price of said material to be charged against Italian Government's account.

SUBJECT: Road Maintenance Equipment
(Reqn. MGS-180-ENG/LAC Airgram 35)

TO : Headquarters, Allied Commission, APO 394
(Attn. Economic Section)

EJOR 24

1. Your RB-400/168 of 2 July has been received in reply to our H-2 of 19 June.

2. The information requested in para. 6 of our letter referred above regarding equipment ex Persian Gulf on the BARON CAWDOR should be sent to this Section as soon as it has been possible to carry out an accurate check of equipment unloaded. As also should information regarding the 100 tons of Highway Equipment ex Persian Gulf now being unloaded at Bari from the AVRISTAN - the 2 Boxes Rotary Sweepers (1 ton) aboard the SEA ADDER (BA 254) which was due at NAPLES for GENOA period 25 June - 4 July - and other subsequent shipments.

3. Further, as difficulty is being experienced here in striking a balance between the status of MGS-180-ENG. according to our records (Appdx. "A" to our H-2 of 19 June refers) and the statement of equipment delivered by items and pieces from the various sources as reflected by you in the list attached to your RB-400/168 of 2 July, it is requested that you compare the two summaries and advise whether you can clarify regarding the following points:

a. Items 12 & 13 (GRADERS) are referred against which you show 44 units received against only 30 requisitioned. We do not have a copy of the TN ref quoted in your list but it is thought that the LESLIE SHAW carried Barley from Iraq and that the J.J. PETTIGREW, BA 104 in UGS 80 carried 214 tons Primary & Secondary Units. It is not known whether "Primary & Secondary Units" are definitely Graders, but if so mention should have been made. Neither was mention made by you of 50 tons Graders on the J. FRANK COOPER, UGS-90, BA 203.

b. Item 21 is referred against which you show 3 units as received - presumably these are the 3 due from the U.S. Did you not also receive 1 unit ex U.S. theatre stocks ? This was made available to you by Engineer Shipping Document MTO-ENG-IV-4744, Consignor CG MBS, Consignee ESO PBS (Southern District), to be released to you upon arrival at Naples - our H-2 of 23 Jan. 45, paras 1 & 3 refer. (1 unit is then outstanding ex Persian Gulf).

* It is noted that 10 units against item 22 (Crushing & Screening Plants,2-unit) appear on your list via the J.PETTIGREW,UGS-80. If this eqpt. is referred please ignore our remark at para 3a insofar as the J. PETTIGREW is concerned.

Subject:- Italian Government Plant.

C.E. No.1 District
166 CE (Works)
CE. 5900

1 July 45

TO: 84 CRE (Wks)
CRE Levant Engr. Bn.

Copy to:- OC 854 Quarrying Coy RE.
A.C.L.O. (Hds)

Copy given to Mr Griffith X

Various instructions have been issued on the subject of Italian Government plant, comprising 50 t.p.h. stone crushers and compressors for us in quarries. Some of these were however, not addressed to all concerned; in other cases they have been misunderstood, or action has not yet been taken.

The following instructions are intended to clarify the position, and will be acted on immediately.

1. Allocation and movemnt of plant.

While the plant is the property of the Italian Government, its allocation is tsill controlled by me, and no moves are to take place without authority from this office.

Compressors are to be used in quarries where crushers are working.

84 CRE has apparently not yet acted on my CE.5900 dated 14 June regarding the move of the compressor from KRACLIO quarry. If he has, he has not reported.

2. Spares for crushers and compressors, are to be sent in to U.S.V.S. warehouse in FLORENCE - CRE Levan Engr. Bn. , see attd., copy of A.C.L.O's LO/CRE/GEN/84/22 dated 14 June 45.

Compliance will be reported.

3. Operation of plant.

Copy of A.C.L.O's LO/SUP/1/21 dated 14 June 45 is attd., for infrm. of CRE Levant Engr. Bn.

Italian Government operators are to be given every assistance in learning to operate the plant and will be allowed to operate as soon as they are capable of doing so. There have been complaints that this is not happening; there may be good reqsons but I am not aware of them.

It must be remembered that we are trying to hand over the whole business of road maintenance to the Italian Govt., by stages, and any delay in making their plant operators proficient only makes it more difficult to achieve this object.

If there are any cases where operators, after suitable instructions,

WJE/rnb
26 June, 1945.

E/OR

SUBJECT: Transfer of Engineer Equipment.

14

TO: Headquarters, Allied Commission, Rome, Italy.
ATT: Public Utilities Officer.

1. In April of the current year, four (4) items of engineer heavy equipment were placed on memorandum receipt to this organization from Major Husie of Allied Commission. These items of equipment were in use for highway maintainence in this area.

2. Subject to your approval, it is suggested that these items be shipped to this regiment on shipping ticket and your copies of the memorandum receipts forwarded here.

3. Subject items include the following:

Grader, road, mtz., Caterpillar, Mod. 12, W-843388
Grader, road, mtz., Caterpillar, Mod. 12, W-843385
Kettle, asphalt, 165-gal., W-0552276
Kettle, asphalt, 165-gal., W-0777622

4. Acquisition of these items on shipping ticket will facilitate and expedite their disposition under pertinent redeployment directives.

FOR THE COMMANDING OFFICER:

William J. English, Jr.

AC PUBLIC WORKS ASPHALT

FLORENCE Tel. 1522,1523, 1524 - Ext.37

Date 26 June 1945

Ref : AD/7

13

SUBJECT : Equipment Operation

TO : Mr. F.C. GRIFFITH, Highway Equipment Officer
Rome.

Ref. to what I reported to you yesterday by telephone, it is necessary that the Italian Ministry of Public Works give proper instructions to the Genio Civile in this matter of Highway Equipment.

I talked last night with Dott. Ing. Casalini Ispettore Generale of the Compartimento of the Genio Civile, and his assistant Dott. Ing. Zambelli, Ispettore of the Genio Civile about this and they, too, don't seem to have received any clear instructions from the Ministry. Since the A.M.G. Region has closed and is moving out I deem it better that such instructions be given to them for Ing. Giunta by the Ministry and not by the Regional Engineer. That will be easier, too, if handled directly between your Office and the Italian Ministry.

I must draw your attention to the fact that they don't seem to have understood that they are not helping us in our job, but we are helping them in theirs.-

Lack of proper instructions from the Ministry may produce lack of understanding here, what will be easily avoided if such instructions be given at once clearly and definitely.-

I am going along with Ing. Giunta quite well; you know that he is a capable and efficient man, but I cant blame him if the real policy of this whole matter of equipment issues and operation is not clear to him yet, since he only received a copy of Col. Thompson's letter C78/3/PWO, dated 5 April 45 and as far as I know no further instructions from his Ispettore Compartimentale or Ministry.-

I have mentioned this matter myself to Ing. Reggiani this morning by telephone.

E.A.MILANI 703
Capt. C.A.R.I.
FIELD ASSISTANT HIGHWAY EQUIPMENT OFF.

C.C.
DOTT. Ing. Casalini
Ispettore Generale
Genio Civile, Florence

FOOT NOTE :

In a conference of 19 May 1945 with the Ministry of Public Works, that Agency was requested to state immediately their desires as to the distribution of equipment awaiting disposal in Tome and Florence. This information will be available by 21 May 1945. It is anticipated all existing equipment stocks will be transferred to Ministry Agencies within a fortnight and transported as they indicated in the next 30 to 40 day period. This does not include any future planning with regard to moving equipment to areas forward of Bologna but, since by that time all the equipment will have become the property of the Italian Government, will be a matter of ordering the Ministry to move equipment as is desired. The principal indeaour now and in the immediate future is to accomplish a transfer of existing stocks to the responsibility of the Ministry of Public Works.

Subject: Equipment Operations.

To : A.C.Liaison Officer (Roads)
Headquarters 1 District.

7

1. Attached is copy of letter received from the Equipment Officer with reference certain confusion which appears to exist in connection with operation of Ministry of Public Works equipment at Muraglione, Cave Chelli, Indicatore and Cortona.

2. It is important that actual operation be turned over to employees of the U.S.V.S. at the earliest time they are prepared to accept.

3. Will you please give this matter your attention.

By Command of Rear Admiral Stone:

V.S.THOMPSON
Lt.Col. R.C.E.
Chief, Public Wks.Div.

A.C. PUBLIC WORKS
HIGHWAY EQUIPMENT

TO : V.S. Thompson, Lt.Col. R.C.E.,Chief, Public Works Div., P.W. & U. Sub-Commission, HQ. AC.
FROM : The Highway Equipment Officer, HQ. AC. PW.
SUBJECT: Equipment Operations.
REF : AD/7/23
DATE : 23 June 1945.

1. The Italian Government, Ministry of Public Works Agencies, have not been permitted to take over the quarry equipment at Muraglione, Cave Chelli, Indicatore and Cortona. Only at Cortona has personnel been permitted to work for instruction purposes .

2. The equipment in these quarries has been officially transferred to and has become the property of the Italian Government. U.S.V.S. is prepared to take over the operation when permitted to do so.

3. Major G. Boucher, R.A.,Liaison Officer, Roads, No.1 Dist., has informed this office that arrangements had been completed and orders officially issued for the 854th. Quarrying Coy to turn over the operations to U.S.V.S. Major. Boucher also informed us that that organization would collect and deliver spares and accessories to our depot in Florence. I visited the HQ. of the 854th. Quarry Coy on May 15, and was assurred that turnover had been arranged and all equipment and spares were at that time transferred to my accountability.

4. To date no spares have been delivered to us. Three compressors are being used elsewhere than in quarries with Ministry crushers. Major Morsella called on Major Freeman, C.O., 854th Quarry Coy, on 20 June, and was told that no orders had been issued to turn over the equipment to Italian operation and also read a letter from Major Boucher which ordered the C.R.E. to retain control of both equipment and production. On 20 June our Field Ass't, Captain Milani,reported a like situation at the other three quarries operated by the 854 Quarry Coy.

5. Compressor plant is being moved at will in No.1 Di-

:/:

Declassified E.O. 12356 Section 3.3/NND No. 785019

strict. Col. Patullo had ordered the crushing units at Cortona be moved to Olmo on June 21st. This office has never been informed of such movement as is directed in your memo of 5 April 1945, Re/078/3/P.W.U.

6. This office is being left in a most embarrassing position. Instructions have been issued to U.S.V.S. and complied with to employ personnel to take over operations. The Ministry has signed receipts and officially have assumed responsibility for the same. It may be certainly presumed that organizational developments in Toscania are being seriously impaired; a matter of much concern to this office.

7. It is respectfully requested that corrective measures be immediately instituted by the Chief, Engineering Division.

Respectfully submitted

F.O. GRIFFITH
Highway Equipment Officer

c.c.: Capt.Milani
Major Morselia.
