7 December 1945

Subject: Completion of Memorandum Receipts

TO : Ing. Luigi Ferretti
Highway Equipment Section
Ministry of Public Works

1. Reference our letter AD/2/140 dated 20 November, Subject: Termination of Highway Equipment Section, Public Works & Utilities Sub Commission.

2. It is imperative that all memorandum receipts in your possession at this time and those that will reach you for the balance of the equipment transferable to you within the next few days, be completed immediately and returned to this Office. It is requested that all memorandum receipts in your possession at this time be completed and returned not later than December 15. The other memorandum receipts reaching you should be returned within 24 hours after receipt of same.

3. As indicated in our letter of November 20, this Office will not function after January 1, and these matters must be cleared up previous to that time. Please give me an immediate answer regarding your intentions in this respect.

Macchinari Stradali.
Via Monzambano 10, Roma.

11 December 1945

Subject: Memorandum Receipts for definite transfer of Equipment.

1. Ref. letter A D/2/151 before signing any paper envisaging the Ministry of Public Works to accept definite transfer of Equipment I must supervise it. ↔

2. Equipment transferred definitely, part is already in the hand of Genio Civile Office U.S.V.S., part is to be handed in.

3. For the latter, that is of new release, before signing a paper stating equipment is in good order, it is imperative to examine its condition and present state.
Engineer Sacerdoti, who has come back from Milan, will accomplish this job at his earliest convenience.

4. For the former, transferred through temporary M/Rs before agreeing to definite transfer it is necessary to check if equipment is still in the hands of U.S.V.S. agencies.
Concerning this inform you that:

a) a crushing plant is at present in the hands of a British R.E. Unit, it seems at Foligno. In any case it is not in the hands of Ministry of Public Works and a definite transfer cannot be accepted, if the crushing plant will not be handed back in perfect efficiency as when it was released.

b) three graders, formerly handed to Catanzaro U.S.V.S. has been taken by British Units that are using them for their purposes. One is inefficient same parts having been cannibalized for the maintenance of the other two. I repeat for the graders what has been said at point a for the crushing plant.

5. Major Morsella in his last inspection has seen that what I said above is true.

6. Please see to it that the a/m equipment be returned; this is imperative otherwise I cannot sign the definite certificates of transfer, unless the certificate concerning this special equipment be excerpted.

7. For the rest we will proceed as quickly as possible.

Signed:

Ing. Ferretti Luigi
Chief Eng. Genio Civile
